[4] The NASD in this proposed rule change is amending art. I, sec. 2 of the Code of Procedure (which defines terms used in the Code) by adding definitions of "Extended Proceeding" and "Extended Proceeding Committee" to conform to the definitional changes made to art. III, sec. 2 that were previously approved in SR-NASD-89-49. Also, minor language changes are being proposed to secs. 2(c), (e) and (f) of the Code of Procedure to clarify that the NBCC review will include written briefs, if submitted.

[5] The NASD also stated that the increased burden on the NBCC service could discourage valuable prospective industry and public candidates from serving on the Board.

[6] Specifically, the proposed rule change is consistent with the provisions of secs. 15A(b)(6) of the Act, which requires that "(t)he rules of the association [NASD] are in accordance with the provisions of subsection (h) of this section, and, in general, provide a fair procedure for the disciplining of members and persons associated with members, the denial of membership to any person seeking membership therein, the barring of any person from becoming associated with a member thereof, and the prohibition or limitation by the association of any person with respect to access to services offered by the association or a member thereof."

[Rel. No. 34-28455; File No. SR-NYSE-90-41]

Self-Regulatory Organizations; New York Stock Exchange, Inc.; Order Granting Accelerated Approval of Proposed Rule Change Relating to Rule 80A (Limitations on Trading During Significant Market Declines)

On September 19, 1990, the New York Stock Exchange, Inc. ("NYSE" or "Exchange") submitted to the Securities and Exchange Commission ("SEC" or "Commission"), pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")[1] and rule 19b-4 thereunder,[2] a proposed rule change which will exempt from rule 80A any index arbitrage market-at-the-close ("MOC") orders to liquidate stock positions previously established in relation to derivative index products entered on the last business day prior to expiration or settlement of such derivative products ("expiration Fridays").

The Exchange's proposal was approved on a temporary basis for the most recent expiration Friday, September 21, 1990, in order to allow for the orderly unwinding of previously established arbitrage positions in the event that rule 80A was triggered on that day. The proposed rule change was noticed for comment in Securities Exchange Act Release No. 28454 (September 20, 1990), 55 FR 40028 (October 1, 1990). No comments have been received on the proposal.

The purpose of the proposed rule change is to clarify the stabilization requirements of rule 80A as they apply to orders to liquidate stock positions established in relation to index options or futures contracts entered on expiration Fridays. Under paragraphs (c) and (d) of rule 80A, when the Dow Jones Industrial Average ("DJIA") advances or declines by 50 points or more from its previous trading day's closing value, all index arbitrage orders, as defined in rule 80A, to buy or sell any of the component stocks of the Standard & Poor's 500 Stock Price Index ("S&P 500 Index") must be entered with the instruction "buy minus" (in the event of a 50 point advance in the DJIA) or "sell plus" (in the event of a 50 point decline in the DJIA).[3] The requirements remain in effect for the remainder of the trading day, unless the DJIA moves to within 25 points of its previous day's close, when the restrictions are removed. They are reinstated if the DJIA again moves 50 points or more away from the previous day's close. The purpose of the "buy minus"-"sell plus" requirements for index arbitrage orders is to promote market stabilization by minimizing excess volatility during periods of significant market movement.

The Exchange proposes to add paragraph (g) to rule 80A to specify that on provisions of paragraphs (c) and (d) of rule 80A will not apply on expiration Fridays to index arbitrage MOC orders to liquidate previously established stock positions.[4] The Exchange believes that this provision will not adversely affect market stability because the order entry and imbalance publication procedures utilized by the Exchange on expiration Fridays foster market stabilization in what are usually the most actively traded stocks. Under the order entry and imbalance publication procedures, MOC orders relating to index derivative products in the 50 highest capitalized stocks in the S&P 500 Index, and any component stocks of the Major Market Index not included in this group of 50, must be entered by 3 p.m. Eastern Time. This allows for publication of order imbalances in these stocks to be made at times subsequent to 3 p.m. to attract orders on the opposite side of an imbalance. The only MOC orders in such stocks which may be entered after 3 p.m. are orders which offset a published imbalance. However, the procedures do not permit the liquidation of positions relating to a strategy involving stock index futures, stock index options, or options on stock index futures using MOC orders entered after 3 p.m., even if such orders might offset reported imbalances. The NYSE represents that, in general, these procedures have been helpful in maintaining market equilibrium on expiration Fridays.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange and, in particular, section 6.[5] Specifically, the Commission finds that the proposed rule change is consistent with section 6(b)(5) of the Act because it will promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, protect investors and the public interest. As the Commission stated in approving the proposal on a temporary basis for Friday, September 21, 1990, the Commission believes that the market stabilizing effects of the NYSE's closing procedures on expiration Fridays should help to counteract the impact of the unwinding of previously established arbitrage positions.[6] For this reason, the Commission believes that the proposed rule change will not vitiate the effectiveness of rule 80A, and will allow for the orderly liquidation of index arbitrage positions in the event that rule 80A is triggered. Without the rule, market participants could be forced to maintain the stock side of an arbitrage in the event that rule 80A is triggered on an expiration Friday and the last transaction of the day is not on the requisite tick for selling or buying stock to liquidate the arbitrage position. The Commission believes that it is reasonable for the NYSE in its marketplace judgment to make an exception to rule 80A to ensure that market participants can liquidate a stock position on expiration Fridays.

The Commission finds good cause for approving the proposal prior to the thirtieth day of publication of notice of filing thereof in the Federal Register. The Commission believes that it is appropriate to approve the proposal on an accelerated basis in order to permit investors to unwind previously established index arbitrage positions without the risk of market exposure should Exchange rule 80A be triggered on Friday, October 19, 1990. In addition, the Commission has not received any comments on the proposed rule change, although the proposal was in effect on a temporary basis on Friday, September 21, 1990, and notice of the proposal appeared in the Federal Register on October 1, 1990. Because there have been no adverse comments to date concerning the proposal and because of the importance of maintaining the stability of the NYSE's markets, the Commission believes good cause exists to approve the proposed rule change on an accelerated basis.

---

[1] 15 U.S.C. 78s(b)(1) (1982).

[2] 17 CFR 240.19b-4 (1989).

[3] "Sell plus" means that the order only can be executed on a plus or zero plus tick. A plus tick is a price above the price of the last preceding sale. A zero plus tick is a price equal to the last sale if the last preceding transaction at a different price was at a lower price. Conversely, a "buy minus" order can only be executed on a minus or zero minus tick. A minus tick is a price below the price of the last preceding sale. A zero minus tick is a price equal to the last sale if the last preceding transaction at a different price was at a higher price.

[4] The Commission approved the provisions of paragraphs (c) and (d) of Exchange rule 80A as a pilot program to run until July 31, 1991. *See* Securities Exchange Act Release No. 28227 (July 30, 1990), 55 FR 31423 (August 2, 1990) (order approving File Nos. SR-NYSE-88-6 and SR-NYSE-88-11).

[5] 15 U.S.C. 78f (1934).

[6] *See* Securities Exchange Act Release No. 28454 (September 20, 1990), 55 FR 40028 (File No. SR-NYSE-90-41).

It is therefore ordered, pursuant to section 19(b)(2) of the Act,[7] that the proposed rule change (SR–NYSE–90–41) is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[8]

Dated: October 18, 1990.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

[Rel. No. 34-28552; File No. SR-PTC-90-04]

Self-Regulatory Organizations; Participants Trust Co.; Filing of Proposed Rule Change Relating to the Rebate of Fees

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on October 3, 1990, the Participants Trust Company ("PTC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change (SR–PTC–90–04) as described in Items I, II, and III below, which items have been prepared by PTC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

PTC proposes to adopt a policy with respect to the rebate of fees. Below is the text of this proposed rule change:

The Board of Directors of Participants Trust Company may decide from time to time to return revenues received from its Participants, Limited Purpose Participants or participants of any other category of participant to those participants based upon such considerations as the Board of Directors deems relevant, including projected earnings of PTC in the event of the return of revenues or in the absence thereof, the projected financial needs of PTC and the desirability of paying dividends on PTC's outstanding capital stock.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In filing with the Commission, PTC included statements concerning the purpose of, and statutory basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. PTC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of this proposed rule change is to confirm PTC's policy with respect to the rebate of fees to its participants. Since PTC cannot predict the volume of its business, it may, during periods of higher than anticipated activity or for other reasons, have revenues in excess of its needs; the Board of Directors may decide it is appropriate to return those excess revenues to participants.

The basis for the proposed rule change under the Act is the requirement under section 17A(b)(3)(D) that the rules of a clearing agency provide for the equitable allocation of dues, fees and other charges among its participants.

(B) Self-Regulatory Organization's Statement on Burden on Competition

PTC does not perceive that the proposed rule change imposes any burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

PTC has not solicited, and does not intend to solicit, comments on this proposed rule change. PTC has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the Federal Register or within such longer period: (i) As the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which PTC consents, the Commission will:

(a) By order approve such proposed rule change, or

(b) Institute proceedings to determine whether the proposed rule change should be disapproved.

PTC has requested accelerated effectiveness of this proposed rule change. PTC has expressed its belief that there is good cause for the Commission to approve this proposed rule change prior to the thirtieth day after the date of publication of notice of the filing in that the proposed rule change confirms PTC's policy adopted at the time of its organization and accelerated approval would enable PTC to implement this policy within the calendar year 1990.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any persons, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of PTC. All submissions should refer to File No. SR PTC–90–04 and should be submitted by November 14, 1990.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Dated: October 18, 1990.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 90-25149 Filed 10-23-90; 8:45 am]

BILLING CODE 8010-01-M

[Release No. IC-17957; 812-7557]

The Baupost Fund, et al.; Application

October 17, 1990.

AGENCY: Securities & Exchange Commission ("SEC").

ACTION: Notice of application for exemption under the Investment Company Act of 1940 ("1940 Act").

APPLICANTS: The Baupost Fund ("Fund"); Baupost Limited Partnership 1986 E–1 ("Partnership"); The Baupost Group, Inc. ("Baupost"); Seth A. Klarman ("Klarman"); Howard H. Stevenson ("Stevenson"); and William J. Poorvu ("Poorvu").

RELEVANT 1940 ACT SECTIONS: Exemption requested under Section 17(b) from Section 17(a).

SUMMARY OF APPLICATION: Applicants seek an order to permit a proposed

---

[7] 15 U.S.C. 78s(b) (1982).

[8] 17 CFR 200.30-3(a)(12) (1989).

reorganization between the Partnership and the Fund. The Partnership will transfer all of its assets and liabilities to the Fund in exchange for shares of the Fund, which will then be distributed to the partners of the Partnership.

FILING DATE: The application was filed on July 26, 1990 and amended on October 5, 1990.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicant with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on November 12, 1990, and should be accompanied by proof of service on the applicant, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons may request notification of a hearing by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 5th Street NW., Washington, DC 20549. Applicants, c/o The Baupost Group, Inc., 44 Brattle Street, Cambridge, Massachusetts 02138.

FOR FURTHER INFORMATION CONTACT: Barry A. Mendelson, Staff Attorney, at (202) 504–2284, or Jeremy N. Rubenstein, Branch Chief, at (202) 272–3023 (Office of Investment Company Regulation, Division of Investment Management).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application is available for a fee at the SEC's Public Reference Branch or by contacting the SEC's commercial copier at (800) 231–3282 (in Maryland (301) 738–1400).

Applicants' Representations

1. The Fund is a Massachusetts business trust, organized on June 29, 1990, that is registered under the 1940 Act as an open-end non-diversified management investment company. Baupost will serve as the investment adviser of the Fund. Klarman and Stevenson are trustees of the Fund, managing directors of Baupost, and officers of both entities. Poorvu is chairman of the Fund's board of trustees and Baupost's board of directors.

2. The Partnership was formed in 1986 as a limited partnership under the laws of Massachusetts. The Partnership is a private investment partnership that has not been registered under the 1940 Act in reliance on section 3(c)(1) of the 1940 Act and the interests therein have not been registered under the Securities Act of 1933 (the "1933 Act") in reliance on section 4(2) o the 1933 Act. Baupost is the managing general partner of the Partnership and has exclusive control of the business of the Partnership. Klarman and Stevenson are also general partners of the Partnership. The general partners have maintained an investment in the Partnership equal to not less than 1% of the net assets of the Partnership, and are allocated net income, gains and losses of the Partnership in proportion to their investment.

3. Applicants propose that, after the effective date of the Fund's N–1A registration statement, the Fund acquire all of the assets and assume all of the liabilities of the Partnership in exchange for shares of the Fund equal in value to the net asset value of the Partnership (the "Exchange"). Thereafter, the Partnership will dissolve and distribute the shares received from the Fund pro rata to its partners (including Baupost, Klarman, and Stevenson as general partners). Upon completion of the Exchange, the partners of the Partnership will hold all of the shares of the Fund, except for shares representing seed capital contributed to the Fund by Poorvu pursuant to section 14(a) of the 1940 Act.

4. The Exchange has been proposed primarily to permit limited partners of the Partnership to pursue, as shareholders of the Fund, similar investment objectives and policies in a potentially larger pool of assets. The Partnership was not registered as an investment company under the 1940 Act in reliance on an exception to the definition of "investment company" that prohibits the Partnership's securities from being owned by more than 100 persons. The Fund, by contrast, as a registered investment company, is not subject to any limitation on the number of shareholders.

5. There is no present intention to solicit widespread interest in the Fund. The Fund will be made available primarily to existing clients of Baupost and their families. The Fund will not enlist the assistance of an outside broker-dealer to market its shares and there is no intention to advertise the fund in newspapers or other media.

6. For the foreseeable future after the Exchange is accomplished, Baupost intends to manage the Fund in substantially the same manner as it previously managed the Partnership, except as may be necessary or desirable (a) to qualify as a regulated investment company under the Internal Revenue Code, (b) to comply with investment restrictions adopted by the Fund in accordance with the requirements of the 1940 Act or the securities laws of states where shares will be offered or (c) in light of changed market conditions.

7. The Exchange will be effectuated pursuant to an agreement and plan of exchange (the "Plan") to be approved both by a majority in number of the general partners and by a majority in interest of the limited partners of the Partnership, in accordance with the Partnership Agreement. A registration statement under the 1933 Act on Form N–14 relating to the Exchange has been filed on behalf of the Fund. Solicitation of limited partner approval of the Plan will be made by means of a prospectus/proxy statement that forms part of the N–14 registration statement. The prospectus/proxy statement will disclose all material facts relevant to a consideration of the Exchange, including, but not limited to, the nature of and reasons for the Exchange, the tax and other consequences to the partners of the Partnership, the financial information required by Form N–14, and comparisons of the Fund and the Partnership in terms of their investment objectives and policies, fee structures, management structures and other aspects of their operations.

8. The Exchange will benefit partners of the Partnership, who will gain the benefits of liquidity (Fund shares, unlike Partnership interests, will not be subject to trading restrictions) and diversification (the Fund's pool of assets should be larger than the Partnership's because the Fund is not limited to 100 shareholders). Moreover, the Exchange will not result in the recognition of any gain or loss by the partners and will allow the Fund to acquire portfolio securities without incurring brokerage expenses.

9. No brokerage commission, fee or other remuneration will be paid in connection with the Exchange. Neither the limited partners nor Baupost, Klarman, Stevenson, or Poorvu will receive any financial benefit from the Exchange except for their pro rata interest in shares of the Fund distributed by the Partnership upon its dissolution and the generalized benefits described in the preceding paragraph.

10. The Exchange will not be effected unless and until each of the following has occurred: (a) The N–1A and N–14 registration statements have been declared effective; (b) the Plan has been approved by a majority in number of the general partners and by a majority in interest of the limited partners of the Partnership; (c) the SEC has issued an order relating to this application; and (d) the Fund has received a favorable opinion of counsel regarding the tax consequences of the Exchange to the

Fund, the Partnership, and the limited partners.

11. The Partnership pays Baupost a quarterly fee for its advisory and custodial services equal to .10% of the Partnership's net asset value on the last day of each calendar quarter. Each limited partner also pays Baupost a quarterly fee of .15% of the net asset value of his account, subject to adjustment in certain circumstances. The Partnership pays all of its own operating expenses.

12. The Fund will pay Baupost a quarterly management fee at the annual rate of 1.0% of the Fund's average net assets. The Fund will also pay Baupost a quarterly administrative fee at the annual rate of .25% of the Fund's average net assets for acting as the Fund's transfer and dividend disbursing agent and administrator. Baupost has agreed to reduce its management fee by up to .75% until further notice to the extent that the Fund's total annual expenses (including the management and administrative fees, but excluding brokerage commissions, transfer taxes, interest and expenses relating to preserving the value of the Fund's investments) would otherwise exceed 1.5% of the Fund's average net assets. The Fund pays all of its own operating expenses.

13. The Fund will bear all costs incurred in connection with the Exchange and the organization of the Fund, which are estimated to be $150,000.

14. The board of trustees of the Fund has considered the desirability of the Exchange from the point of view of both the Fund and the Partnership, and a majority of the board, including a majority of the noninterested trustees, has concluded that (a) the Exchange is in the best interests of the Fund, the Partnership, and the limited partners of the Partnership, (b) the Exchange will not dilute the financial interests of the Fund's sole shareholder (Poorvu) or of the partners of the Partnership when their interests are converted to shares of the Fund, and (c) the terms of the Exchange as reflected in the Plan have been designed to meet the criteria contained in section 17(b) of the 1940 Act, i.e., that the Exchange be reasonable and fair, not involve overreaching and be consistent with the policies of the Fund.

15. The general partners of the Partnership have considered the desirability of the Exchange from the point of view of the Partnership, and a majority of the general partners have concluded that (a) the Exchange is in the best interest of the Partnership and the limited partners thereof, and (2) the Exchange will not dilute the financial interests of the partners when their Partnership interests are converted to Fund shares.

Applicant's Legal Conclusions

1. Applicants seek an exemption pursuant to section 17(b) of the Act from the provisions of section 17(a) to the extent necessary to permit the Fund to acquire the assets of the Partnership in exchange for Fund shares. Section 17(a), in pertinent part, prohibits an affiliated person of a registered investment company, or an affiliated person of such affiliated person, from selling to or purchasing from such investment company any security or other property. The Partnership, Baupost, Klarman, Stevenson, and Poorvu may all be considered affiliates, or affiliates of affiliates, of the Fund under section 2(a)(3)(C) of the Act.

2. Section 17(b) of the Act authorizes the SEC to exempt any person from the provisions of section 17(a) if evidence establishes that: (a) The terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned, (b) the proposed transaction is consistent with the policy of the registered company concerned, and (c) the proposed transaction is consistent with the general purposes of the Act.

3. After the Exchange, former limited partners will hold substantially the same assets as Fund shareholders as they had previously held as limited partners. In this sense, the Exchange can be viewed as a change in the form in which assets are held, rather than as a disposition giving rise to section 17(a) concerns. In any event, applicants assert that the Exchange meets all of the standards of section 17(b).

For the Commission, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,

Deputy Secretary.

Applicant's Representations

1. The Applicant, a unit investment trust registered as an investment company under the 1940 Act, is a separate account of Security Benefit Life Insurance Company. A registration statement was filed on May 13, 1988 (File No. 33-21740) for an indefinite amount of shares of the same title and class. The registration statement was never declared effective and therefore no public offering was commenced.

2. The Applicant has never had any assets nor has it ever had any securityholders.

3. The Applicant has not debts or liabilities which remain outstanding.

4. The Applicant is not a party to any litigation or administrative proceedings.

5. The Applicant is not now engaged, nor does it propose to engage, in any business activities other than those

necessary for the winding-up of its affairs.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

DEPARTMENT OF STATE

[Public Notice 1277]

United States Organization for the International Telegraph and Telephone Consultative Committee (CCITT), Study Group B; Meeting

The Department of State announces that Study Group B (Switching, Signaling, and ISDN) of the U.S. Organization for the International Telegraph and Telephone Consultative Committee (CCITT) will meet on Wednesday, November 7, 1990, 9:30 a.m., in Conference Room 1912, Department of State, 2201 C Street NW., Washington, DC 20520.

The agenda for the meeting is as follows:

1. Approve September 12 meeting minutes.
2. Review results and activities of CCITT Study Group XI Meeting (October 1–12).
3. Consider contributions—
—CCITT Study Group XVIII (November 26–December 7)
—Others appropriate for Study Group B
4. Review Recommendations G.702, G.704, G.705, G.707, G.708, G.709, I.113, I.121, I.150, I.211, I.311, I.321, I.327, I.361, I.362, I.363, I.413, I.432, and I.610 to be approved at Study Group XVIII Meeting according to Resolution No. 2 procedures.
5. Consider nominations for U.S. delegation to Study Group XVIII Meeting.
6. Other business.

Members of the general public may attend the meeting and join in the discussion, subject to the instructions of the Chair. Admittance of public members will be limited to the seating available. In that regard, entrance to the Department of State building is controlled and entry will be facilitated if arrangements are made in advance of the meeting. Prior to the meeting, persons who plan to attend should so advise the Office of Earl S. Barbely, Department of State, 202–647–2592 (fax 202–647–7407). The above includes government and non-government attendees. All attendees must use the C Street entrance.

Dated: October 11, 1990.

Earl S. Barbely,

Director, Telecommunications and Information Standards, Chairman U.S. CCITT National Committee.

BILLING CODE 4710-07-M

[Public Notice 1278]

Shipping Coordinating Committee; Meeting

The National Committee for the Prevention of Marine Pollution (NCPMP), a subcommittee of the Shipping Coordinating Committee, will conduct an open meeting on November 7, 1990, at 9:30 a.m. in room 2415 of U.S. Coast Guard Headquarters, 2100 Second Street SW., Washington, DC.

The purpose of this meeting will be to review the agenda items to be considered at the thirtieth session of the International Maritime Organization's (IMO) Marine Environment Protection Committee (MEPC) scheduled for November 12–16, 1990. Proposed U.S. position on MEPC agenda item issues will be discussed.

The major items for discussion will be the following:

1. Amendments to the International Convention for the Prevention of Pollution for Ships, 1973, and the Protocols related thereto, 1978, as amended, (MARPOL 73/78), for the provision of shipboard oil spill response plans. The MEPC will be considering the form and content of such plans.
2. Adoption of amendments to MARPOL 73/78 to designate the Antarctic Area as a special area under Annexes I and V. This proposal is unique in that the required reception facilities for oily and garbage wastes would not be permitted to be located in the Antarctic Area. The flag state of the vessels entering the Antarctic Area would have the primary burden of ensuring that adequate reception facilities are provided.
3. Adoption of amendments to the 1973 Intervention Protocol to the International Convention relating to Intervention on the High Seas in Cases of Oil Pollution Casualties, 1969.
4. Prevention of air pollution from ships, including fuel oil quality. The text of the resolution from the Helsinski Commission will be considered concerning harmful emissions of chlorofluorocarbons.
5. Continued development of drafts for section 2 (Search and Recovery of Packaged Goods Lost at Sea) of the IMO Manual on Chemical Pollution. At this session of MEPC, experts will be dealing with the actions to be taken in case of loss of explosives and radioactive materials.
6. Enforcement of pollution conventions; specifically, violations of conventions and penalties imposed, and reports on marine pollution incidents.
7. Use of tributyl tin compounds in antifouling paints for ships. The U.S. has prepared and submitted a resolution to the MEPC concerning proposed control measures for tributyl tin compounds.
8. Inter-related work of other Committees and Subcommittees.

Following this meeting, at 1 p.m., the NCPMP will conduct an open meeting to review the agenda items to be considered at the Conference on International Cooperation on Oil Pollution Preparedness and Response (OPPR) scheduled for November 19–30, 1990. Proposed U.S. positions on the articles of the proposed convention will be discussed.

The major items for discussion will be the following:

1. The mechanisms by which IMO can best facilitate and coordinate provision of information, advisory services, and technical assistance to Parties engaged in oil pollution preparedness or spoil response.
2. Requirements for oil spill response plans for commercial vessels. The form and content of such plans will be discussed.
3. Promotion of research and development efforts into pollution response and the sharing of such information among interested parties.
4. Promotion of bilateral and multilateral cooperation in pollution spill preparedness and response.
5. Development of procedures for reimbursement of governments providing assistance in pollution response.

Members of the public may attend both meetings up to the seating capacity of the room.

For further information pertaining to these NCPMP meetings, contact either Commander W. St. J. Chubb or Lieutenant M.L. McEwen, U.S. Coast Guard Headquarters (G–MEP–3), 2100 Second Street SW., Washington, DC 20593, Telephone: (202) 267–0419.

Dated October 16, 1990.

Stephen M. Miller,

Acting Chairman, Shipping Coordinating Committee.

BILLING CODE 4710-07-M

[Public Notice 1278]

Shipping Coordinating Committee, Subcommittee on Safety of Life at Sea, Working Group on Ship Design and Equipment; Meeting

The Working Group on Ship Design and Equipment of the Subcommittee on Safety of Life at Sea (SOLAS) will conduct an open meeting on November 7, 1990 at 9:30 a.m. in room 6419 at United States Coast Guard Headquarters, 2100 2nd Street SW., Washington, DC.

The purpose of the meeting will be to prepare for the 34th Session of the International Maritime Organization (IMO) Subcommittee on Ship Design and Equipment (DE) scheduled for March 4 to 8, 1991. Items of discussion will include the following: Use on board ships of ozone-depleting halons; guidelines on standard calculations for anchor positioning systems for MODUs: Guidelines for dynamic positioning systems for MODUs and ships engaged in similar operations; materials other than steel for pipes; maneuverability of ships and maneuvering standards; helicopter facilities offshore; revision of design and construction requirements in the 1977 Torremolinos Convention; requirements for purpose and non-purpose-built ships dedicated to the carriage of irradiated nuclear fuel; development of a code on alarms and indicators; amendments of regulation II-1/45 of SOLAS 1974, as amended; ventilation of vehicle decks during loading and unloading; review of implementation status of Assembly resolutions related to the work of the Subcommittee; underpressure in cargo oil tanks due to oil outflow after damage; carriage of dangerous goods on vehicle decks of passenger ships; consideration of the introduction of the Harmonized System of Surveys and Certification into the MODU Code; standards for shipboard incinerators for disposing of ship-generated waste; revision of the Code of Safety for Dynamically Supported Craft; hull cracking on ships; fuel line failures; bilge de-watering requirements in open-top container ships; review of the adequacy of IMO instruments in preventing and mitigating marine pollution incidents; and, the role of the human element in maritime casualties.

Members of the public may attend up to the seating capacity of the room.

The IMO DE Subcommittee works to develop international agreements, guidelines, and standards for machinery, equipment, and systems as these relate to the marine industry. In most cases, these international agreements, guidelines, and standards form the basis for national standards/regulations and class society rules. The U.S. SOLAS Working Group supports the U.S. Representative to the IMO DE Subcommittee in developing the U.S. position on those issues raised at the IMO DE Subcommittee meetings. Because of the impact on domestic regulations through development of these international guidelines, standards, and regulations, the U.S. SOLAS Working Group serves as an excellent forum for the U.S. maritime industry to express their ideas. All shipping companies, shipyards, design firms, naval architects, marine engineers, and consultants are encouraged to send representatives to participate in the development of U.S. positions on those issues affecting your maritime industry and remain abreast of all activities ongoing within IMO DE. Since these meetings are open to the public, anyone may attend.

For further information contact Captain T.E. Thompson at (202) 267-2967, U.S. Coast Guard Headquarters (G-MTH), 2100 Second Street, SW., Washington, DC 20593-0001.

Dated: October 16, 1990.

Stephen M. Miller,

Acting Chairman, Shipping Coordinating Committee.

BILLING CODE 4710-07-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Portland International Jetport, Portland, ME; FAA Approval of Noise Compatibility Program

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its findings on the noise compatibility program submitted by the City of Portland, Maine under the provisions of title I of the Aviation Safety and Noise Abatement Act of 1979 (Pub. L. 96-193) and 14 CFR part 150. These findings are made in recognition of the description of Federal and nonfederal responsibilities in Senate Report No. 96-52 (1980). On March 27, 1990, the FAA determined that the noise exposure maps, submitted by the City of Portland, Maine, under part 150, were in compliance with applicable requirements. On September 21, 1990, the Administrator approved the Portland International Jetport (PWM) noise compatibility program. Out of the 18 proposed program elements 17 were approved. One was approved in part.

EFFECTIVE DATE: The effective date of the FAA's approval of the PWM noise compatibility program is September 21, 1990.

FOR FURTHER INFORMATION CONTACT: John C. Silva, Federal Aviation Administration, New England Region, Airports Division, ANE-602, 12 New England Executive Park, Burlington, Massachusetts 01803, Telephone (617) 273-7060.

Documents reflecting this FAA action may be obtained from the same individual.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA has given its overall approval to the PWM noise compatibility program, effective September 21, 1990.

Under section 104(a) of the Aviation Safety and Noise Abatement Act of 1979 (hereinafter the Act), an airport operator who has previously submitted a noise exposure map may submit to the FAA a noise compatibility program which sets forth the measures taken or proposed by the airport operator for the reduction of existing non-compatible land uses and prevention of additional non-compatible land uses within the area covered by the noise exposure maps. The Act requires such programs to be developed in consultation with interested and affected parties including local communities, government agencies, airport users, and FAA personnel.

Each airport noise compatibility program developed in accordance with Federal Aviation Regulation (FAR), part 150 is a local program, not a federal program. The FAA does not substitute its judgment for that of the airport proprietor with respect to which measures should be recommended for action. The FAA's approval or disapproval or FAR part 150 program recommendations is measured according to the standards expressed in part 150 and the Act, and is limited to the following determinations:

(a) the noise compatibility program was developed in accordance with the provisions and procedures of FAR Part 150;

(b) Program measures are reasonably consistent with achieving the goals of reducing existing non-compatible land uses around the airpt and preventing the introduction of additional non-compatible land uses;

(c) Program measures would not create an undue burden on interstate or foreign commerce, unjustly discriminate against types or classes of aeronautical uses, violate the terms of airport grant

agreements, or intrude into areas preempted by the federal government; and

(d) Program measures relating to the use of flight procedures can be implemented within the period covered by the program without derogating safety, adversely affecting the efficient use and management of the navigable airspace and air traffic control systems, or adversely affecting other powers and responsibilities of the Administrator as prescribed by law.

Specific limitations with respect to FAA's approval of an airport noise compatibility program are delineated in FAR part 150, § 150.5. Approval is not a determination concerning the acceptability of land uses under Federal, State, or local law. Approval does not by itself constitute an FAA implementing action. A request for Federal action or approval to implement specific noise compatibility measures may be required, and an FAA decision on the request may require an environmental assessment of the proposed action. Approval does not constitute a commitment by the FAA to financially assist in the implementation of the program nor a determination that all measures covered by the program are eligible for grant-in-aid funding from the FAA under the Airport and Airway Improvement Act of 1982. Where Federal funding is sought, requests for project grants must be submitted to the FAA Regional Office in Burlington, Massachusetts.

The city of Portland submitted to the FAA, on December 27, 1988, the noise exposure maps, descriptions, and other documentation produced during the noise compatibility planning study conducted from November 1986 to November 1988. The PWM noise exposure maps were determined by FAA to be in compliance with applicable requirements on March 27, 1990. Notice of this determination was published in the Federal Register on May 1, 1990.

The PWM study contains a proposed noise compatibility program comprised of actions designed for phased implementation by airport management and adjacent jurisdictions from the date of study completion to beyond the year 1990. It was requested that the FAA evaluate and approve this material as a noise compatibility program as described in section 104(b) of the Act. The FAA began its review of the program on March 27, 1990, and was required by a provision of the Act to approve or disapprove the program within 180 days (other than the use of new flight procedures for noise control). Failure to approve or disapprove such a program within the 180-day period shall be deemed to be an approval of such a program.

The submitted program contained 18 proposed actions for noise mitigation on and off the airport. The FAA completed its review and determined that the procedural and substantive requirements of the Act and FAR part 150 have been satisfied. The overall program, therefore, was approved by the Administrator effective September 21, 1990.

Approval was granted for 17 specific program elements. One element (monitoring proposals for new scheduled operations between 11:30 p.m. and 6:15 a.m.) was approved in part.

The 17 approved program elements include a noise barrier, engine runup building, preferential runway use, preferential arrival and departure routes, noise abatement departure profiles, Noise Abatement Committee review of implementation, quantitative review of changes in noise exposure, and land use measures which deal with land acquisition and relocation, soundproofing, easement acquisition, airport zoning and real estate disclosure.

FAA's determinations are set forth in detail in a Record of Approval endorsed by the Assistant Administrator September 21, 1990. The Record of Approval, as well as other evaluation materials and the documents comprising the submittal, are available for review at the FAA office listed above and at the office of the Airport Manager, Portland International Jetport, 1001 Westbrook Street, Portland, Maine.

Issued in Burlington, Massachusetts on October 10, 1990.

Vincent A. Scarano,

Manager, Airports Division, New England Region.

BILLING CODE 4910-13-M

[Summary Notice No. PE-90-43]

Petitions for Exemptions; Summary of Petitions Received; Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemption received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption (14 CFR part 11), this notice contains a summary of certain petitions seeking relief from specified requirements of the Federal Aviation Regulations (14 CFR chapter I), dispositions of certain petitions previously received, and corrections. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATES: Comments on petitions received must identify the petition docket number involved and must be received on or before: November 14, 1990.

ADDRESSES: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-10), Petition Docket No. _____, 800 Independence Avenue SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: The petition, any comments received, and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC-10), room 915G, FAA Headquarters Building (FOB) 10A), 800 Independence Avenue SW., Washington, DC 20591; telephone (202) 267-3132.

This notice is published pursuant to paragraphs (c), (e), and (g) of § 11.27 of part 11 of the Federal Aviation Regulations (14 CFR part 11).

Issued in Washington, DC, on October 18, 1990.

Denise Donohue Hall,

Manager, Program Management Staff, Office of the Chief Counsel.

Petitions for Exemption

Docket No.: 25052.

Petitioner: Temsco Helicopters, Inc.

Sections of the FAR Affected: 14 CFR 135.203(a)(1).

Description of Relief Sought: To extend Exemption No. 4760A, which allows petitioner and other air taxi/commercial operators to conduct seaplane operations inside the Ketchikan, Alaska, control zone under Special Visual Flight Rules below 500 feet above the surface. Exemption No. 4760A will expire on February 28, 1991.

Docket No. 26340.

Petitioner: Delta Air Lines, Inc.

Sections of the FAR Affected: 14 CFR 121.433, 121.440, and 121.441.

Description of Relief Sought: To allow petitioner to conduct a single annual visit recurrent-training program for its pilots as a transition to the advanced qualification program.

Disposition of Petitions

Docket No.: 24808.
Petitioner: Pan American World Airways.
Sections of the FAR Affected: 14 CFR 121.440, 121.433, and 121.441 and Part 121, Appendix F.
Description of Relief Sought/ Disposition: To extend Exemption No. 4833, as amended, that allows petitioner to combine recurrent training and proficiency checks for pilots in command into one annual training and proficiency check session. In addition, the exemption allows the line check required by § 121.440 to be administered 6 months subsequent to the annual training and proficiency check session in lieu of the recurrent training.

Grant, October 10, 1990, Exemption No. 4833B

Docket No.: 25482.
Petitioner: Acme School of Aeronautics.
Sections of the FAR Affected: 14 CFR 141.65.
Description of Relief Sought/ Disposition: To amend and extend Exemption No. 4919, as amended, which permits petitioner to hold examining authority for flight instructor and airline transport pilot written tests. The amendment would clarify the language of the conditions and limitations of the exemption.

Grant, October 12, 1990, Exemption No. 4919B

Docket No.: 25636.
Petitioner: International Aero Engines.
Sections of the FAR Affected: 14 CFR 21.325 (b)(1) and (b)(3).
Description of Relief Sought/ Disposition: To extend Exemption No. 4991 that allows export airworthiness approvals to be issued for Class I products (engines) assembled and tested in the United Kingdom and Class II and III products manufactured in the International Aero Engines consortium countries of Italy, West Germany, Japan, and the United Kingdom.

Grant, October 10, 1990, Exemption No. 4991A

Docket No.: 25844.
Petitioner: 4 W Air.
Sections of the FAR Affected: 14 CFR 43.3(g).
Description of Relief Sought/ Disposition: To allow properly trained pilots employed by petitioner to perform the task of converting the cabins of certain aircraft from passenger to cargo configurations, and the reverse, using the aircraft manufacturer's instructions for guidance, when such aircraft are specifically designed to be so converted.

Grant, October 5, 1990, Exemption No. 5242.

BILLING CODE 4910-13-M

Radio Technical Commission for Aeronautics (RTCA) Executive Committee; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C., appendix I), notice is hereby given for the meeting of the Executive Committee to be held November 16, 1990, in the RTCA Conference Room, One McPherson Square, 1425 K Street, NW., suite 500, Washington, DC 20005, commencing at 9:30 a.m.

The agenda for this meeting is as follows: (1) Chairman's remarks and introductions; (2) Approval of the September 27, 1990, Executive Committee meeting minutes; (3) Executive Director's report; (4) Special Committee activities report for September-October 1990; (5) Review/ approve 1991 operating and 1992 planning budgets; (6) Consideration for approval of Special Committee reports; (7) Consideration of proposals to establish new Special Committees; (a) Boeing request to establish a new Special Committee on Automatic Dependent Surveillance; (b) FAA request to establish a Special Committee for the review and update of DO-198, Minimum Operational Performance Standards for Airborne MLS Area Navigation Equipment; (c) ARINC request to establish a new Special Committee that will address VHF transceivers optimized for data communications; (8) Other business; (9) Date and place of next meeting.

Attendance is open to the interested public but limited to space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the RTCA Secretariat, One McPherson Square, 1425 K Street, NW., suite 500, Washington, DC 20005; (202) 682-0266. Any member of the public may present a written statement to the committee at any time.

Issued in Washington, DC, on October 17, 1990.

Geoffrey R. McIntyre,
Designated Officer.

BILLING CODE 4910-13-M

Federal Highway Administration

National Motor Carrier Advisory Committee; Meetings

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of public meeting.

SUMMARY: The FHWA announces that the National Motor Carrier Advisory Committee will hold its next regularly scheduled meeting on November 1-2, 1990, at the U.S. Department of Transportation Headquarters, 400 Seventh Street SW., Washington, DC 20590. The meeting will begin at 8:30 a.m. on both days, in room 4234 and is open to the public.

Topics to be discussed include the diesel fuel situation, DOT reauthorization proposal, truck accident data, long-term highway financing, uniformity, and the National Governors' Association Consensus Agenda.

FOR FURTHER INFORMATION CONTACT: Mr. Douglas J. McKelvey, Federal Highway Administration, HIA-20, room 3104, 400 Seventh Street SW., Washington, DC 20590, (202) 366-1861. Office hours are from 7:45 a.m. to 4:15 p.m., est., Monday through Friday, except for legal holidays.

(23 U.S.C. 315; 49 CFR 1.48)

Issued on: October 17, 1990.

T.D. Larson,
Administrator.

BILLING CODE 4910-22-M

Urban Mass Transportation Administration; UMTA Section 3 and 9 Grant Obligations

AGENCY: Urban Mass Transportation Administration (UMTA), DOT.

ACTION: Notice.

SUMMARY: The Department of Transportation and Related Agencies Appropriations Act, 1990, Public Law 101-164, signed into law by President George Bush on November 21, 1989, contained a provision requiring the Urban Mass Transportation Administration to publish an announcement in the Federal Register every 30 days of grants obligated pursuant to Sections 3 and 9 of Urban Mass Transportation Act of 1964, as amended. The statute requires that the announcement include the grant number, the grant amount, and the transit property receiving each grant. This notice provides the information as required by statute.

FOR FURTHER INFORMATION CONTACT: Janet Lynn Sahaj, Chief, Resource Management Division, Office of Capital and Formula Assistance, Department of Transportation, Urban Mass Transportation Administration, Office of Grants Management, 400 Seventh Street SW., room 9301, Washington, DC 20590, (202) 366-2053.

SUPPLEMENTARY INFORMATION: The section 3 program was established by the Urban Mass Transportation Act of 1964 to provide capital assistance to eligible recipients in urban areas. Funding for this program is distributed on a discretionary basis. The Section 9 formula program was established by the Surface Transportation Assistance Act of 1982. Funds appropriated to this program are allocated on a formula basis to provide capital and operating assistance in urbanized areas. Pursuant to the statute UMTA reports the following grant information:

SECTION 3 GRANTS

Transit property	Grant number	Grant amount	Obligation date

NUCLEAR REGULATORY COMMISSION

DATE: Weeks of October 22, 29, November 5, and 12, 1990.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Open and Closed.

MATTERS TO BE CONSIDERED:

Week of October 22

Thursday, October 25

10:00 a.m.
Periodic Briefing on Industry Implementation of Generic Safety Issues (Public Meeting)

Friday, October 26

10:00 a.m.
Briefing on NUMARC's Perspective of the State of the Nuclear Industry (Public Meeting)

11:30 a.m.
Affirmation/Discussion and Vote (Public Meeting)
a. Intervenors' Motion to Reopen the Record in Seabrook and to Shutdown the Reactor

Week of October 29—Tentative

Monday, October 29

10:00 a.m.
Briefing on Issues Raised by the Provision Requiring Title Transfer of Low Level Waste (Public Meeting)

Tuesday, October 30

10:00 a.m.
Briefing on Nonprescriptive Nuclear Safety Regulation (Public Meeting)

Wednesday, October 31

10:00 a.m.
Discussion of Management-Organization and Internal Personnel Matters (Closed—Ex. 2 & 6)

11:30 a.m.
Affirmation/Discussion and Vote (Public Meeting) (if needed)

Week of November 5—Tentative

Thursday, November 8

10:00 a.m.
Briefing on Progress of Research in the Area of Organization and Management (Public Meeting)

2:00 p.m.
Periodic Meeting with the Advisory Committee on Reactor Safeguards (ACRS) (Public Meeting)

3:30 p.m.
Affirmation/Discussion and Vote (Public Meeting) (if needed)

Week of November 12—Tentative

Friday, November 16

11:30 a.m.
Affirmation/Discussion and Vote (Public Meeting) (if needed)

ADDITIONAL INFORMATION: By a vote of 4–0 on October 17, the Commission determined pursuant to U.S.C. 552b(e) and § 9.107(a) of the Commission's rules that "Affirmation of Final Rule: Interim Procedures for Agency Appellate Review" (Public Meeting), be held on October 17 and on less than one week's notice to the public.

Note: Affirmation sessions are initially scheduled and announced to the public on a time-reserved basis. Supplementary notice is provided in accordance with the Sunshine Act as specific items are identified and added to the meeting agenda. If there is no specific subject listed for affirmation, this means that no item has as yet been identified as requiring any Commission vote on this date.

To Verify the Status of Meetings Call (Recording)—(301) 492–0292

CONTACT PERSON FOR MORE INFORMATION: William Hill (301) 492–1661.

Dated: October 18, 1990.

Andrew L. Bates,
Office of the Secretary.

Part II

Department of Housing and Urban Development

Office of Assistant Secretary

Public Housing Development/Major Reconstruction of Obsolete Public Housing, FY 1990; Invitation for New and Revised Applications; Notice

VOL 55 ISS 206 OCT 24 1990 UMI

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Public and Indian Housing

[Docket No. N-90-3089; FR-2765-N-03]

Revision to Notice of Fund Availability: Public Housing Development/Major Reconstruction of Obsolete Public Housing, Fiscal Year 1990—Invitation for New and Revised Applications

AGENCY: Office of the Assistant Secretary for Public and Indian Housing, HUD.

ACTION: Revision to notice of fund availability (Revised NOFA); invitation for new and revised applications.

SUMMARY: On June 18, 1990 (55 FR 24816), the Department published in the Federal Register a notice announcing the availability of FY 1990 funding, and inviting eligible Public Housing Agencies (PHAs) to submit applications, for public housing development, or for the Major Reconstruction of Obsolete Public Housing (MROP) program, or for both programs (June 18, 1990 NOFA). The Department has determined that some aspects of the June 18, 1990 NOFA were flawed. Many of the applications were missing information or exhibits. In previous fiscal years, these documents would have been accepted after the application deadline, but the June 18, 1990 NOFA contained no process for correcting application deficiencies after the deadline date. In addition, the Department's June 18, 1990 NOFA imposed a strict priority for large family MROP applications, which did not realistically correspond to MROP needs. In fact, 15 MROP applications were submitted, but only one was found to be approvable under the June 18, 1990 NOFA. Given these circumstances, the Department elects to revise the June 18, 1990 NOFA.

This notice revises the June 18, 1990 NOFA to: (1) Afford eligible PHAs the opportunity to correct deficiencies in applications submitted under the June 18, 1990 NOFA; (2) modify the large family housing requirement for MROP applications; and (3) afford eligible PHAs, which previously did not submit applications under the June 18, 1990 NOFA, the opportunity to submit applications under the Revised NOFA. (The phrase "Revised NOFA" means the June 18, 1990 NOFA, as revised by this notice.) Applications previously submitted in response to the June 18, 1990 NOFA will be considered under the criteria of the Revised NOFA. The procedures for application submission under the Revised NOFA, and the criteria revised by this notice, are set forth in the Supplementary Information section of this document.

FOR FURTHER INFORMATION CONTACT: The HUD Field Office for the PHA's jurisdiction.

SUPPLEMENTARY INFORMATION:

1. Application Invitation

The Department of Housing and Urban Development (HUD) is accepting, and all eligible PHAs are invited to submit, new applications, and applications revised to correct deficiencies in applications previously submitted under the June 18, 1990 NOFA. Applications submitted under the June 18, 1990 NOFA which are not revised will be considered under the criteria prescribed by the Revised NOFA. All revised or new applications must be received by the Field Office by close of business (local time) on November 23, 1990.

2. Application Screening

Immediately after the deadline for receipt of applications under the Revised NOFA, Field Offices will screen each application to determine whether all information and exhibits required by the Revised NOFA were submitted. If an application lacks any information or exhibits, the PHA will be advised in writing, and will have 14 calendar days from the date of the issuance of such notification to deliver the missing information or documentation to the Field Office.

3. MROP Housing Type

Subparagraphs 4(i) and 9(b) of the June 18, 1990 NOFA are modified to exempt MROP applications from the requirement that only housing consisting of three or more bedrooms may be approved unless a Field Office written determination is made that there is little or no need for large family housing. MROP applications are also exempt from the requirements of section 6(j) of the United States Housing Act of 1937 which pertains to priority consideration to housing projects suitable for occupancy by families requiring three or more bedrooms.

4. Funding Assignments

Threshold approvable "fair-share exempt" applications and applications to be funded from the Headquarters Reserve shall have funds set aside before the balance of available funds is allocated to Regional Offices on the basis of fair-share factors. The following factors have been changed because of the transfer of the Caribbean Office from New York to the Atlanta Region:

Region	Fair-share factors (Percentage)
II. New York	18
IV. Atlanta	14

Within 100 calendar days of the PHA application submission deadline, each Regional Administrator shall submit to Headquarters a list identifying the 15 highest ranked "other" development and/or MROP projects.

Dated: October 17, 1990.

Joseph G. Schiff,

Assistant Secretary for Public and Indian Housing.

Department of Transportation

Federal Aviation Administration

14 CFR Part 23

Small Airplane Airworthiness Review Program Notice No. 4; Proposed Rule

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 23

[Docket No. 26269, Notice No. 90-18A]

RIN 2120-AD29

Small Airplane Airworthiness Review Program Notice No. 4

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Extension of Comment Period.

SUMMARY: This notice announces the extension of the comment period for the notice of proposed rulemaking (NPRM) for airframe and flight airworthiness standards resulting from the small airplane airworthiness review. The extension responds to a request from the Joint Airworthiness Authorities (JAA). The extension is needed to permit the JAA additional time to provide substantive response to the NPRM.

DATES: The comment period is being extended from October 25, 1990 to December 14, 1990.

ADDRESSES: Comments on this notice may be mailed in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-10), Docket No. 26269, 800 Independence Avenue SW., Washington, DC 20591, or delivered in triplicate to room 915-G, 800 Independence Avenue SW., Washington DC 20591. Comments delivered must be marked Docket No. 26269. Comments may be inspected in room 915-G between 8:30 a.m. and 5 p.m. on weekdays, except on Federal holidays.

In addition, the FAA is maintaining an information docket of comments in the Office of the Assistant Chief Counsel, ACE-7, Federal Aviation Administration, Central Region, 601 East 12th Street, Kansas City, Missouri 64106. Comments in the information docket may be inspected in the Office of the Assistant Chief Counsel weekdays, except Federal holidays between the hours of 7:30 a.m. and 4 p.m.

FOR FURTHER INFORMATION CONTACT: Victor F. Sokoloski, Aerospace Engineer, Standards Office (ACE-110), Aircraft Certification Service, Central Region, Federal Aviation Administration, room 1544, 601 East 12th Street, Federal Office Building, Kansas City, Missouri 64106; telephone (816) 426-5688.

SUPPLEMENTARY INFORMATION: On June 28, 1990, the FAA issued Notice 90-18, Small Small Airplane Airworthiness Review Program Notice No. 4 (55 FR 26594). This resulted from proposals received at the Small Airplane Airworthiness Review Conference held on October 22-26, 1984, in St. Louis, Missouri.

By letter dated October 9, 1990, the Joint Airworthiness Authorities (JAA) requested that the FAA extend the comment period for Notice 90-18 in order to enable the JAA-23 Study Group to coordinate a European position. In view of the possibility of obtaining additional technical information and to provide for a more consistent set of airworthiness standards, the FAA agrees that it would be in the best interest of all concerned to grant the request. Accordingly, the comment period is being extended to December 14, 1990, to afford all interested persons the opportunity to comment on this notice.

Issued in Washington, DC on October 19, 1990.

Thomas E. McSweeny,

Deputy Director, Aircraft Certification Service, AIR-2.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 2

RIN 3150-AD77

Interim Procedures for Agency Appellate Review

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: This final rule puts into place a transition plan which the Nuclear Regulatory Commission (NRC) is adopting to handle all appeals from initial decisions of presiding officers in all formal and informal agency adjudications, and certain other appellate and related matters, which are filed from the day after the date of publication of this final rule until the effective date of a final rule to be issued pursuant to the Commission's ongoing rulemaking proceeding for establishing procedures for direct agency appellate review by the Commission. A notice of proposed rulemaking in that proceeding is being published in this issue of the Federal Register. As that proposed rule explains, a new procedural system for direct appellate review by the Commission is necessitated by the Commission's recent decision to abolish the Atomic Safety and Licensing Appeal Panel which heretofore has provided an intermediate level of appeal as of right from initial decisions. The transition plan implemented by this final rule provides that, with certain exceptions, the Commission, rather than an appeal board, will provide agency appellate review for appellate matters filed in the interim period between the day after the date of this final rule and the effective date of a final appellate review rule. The Commission review, in this interim period, will follow existing procedures. Specific appellate matters which are pending before appeal boards on the date of this final rule will be decided by the appeal boards.

EFFECTIVE DATE: October 25, 1990.

FOR FURTHER INFORMATION CONTACT: E. Neil Jensen, Senior Attorney, Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone: 301–492–1634.

SUPPLEMENTARY INFORMATION: In a companion document published in this issue of the Federal Register, the NRC announces a proposed rulemaking to establish procedures for direct review of initial decisions of presiding officers in all formal and informal agency adjudications by the commissioners of the NRC. Direct review by the commissioners will replace review by appeal boards constituted from the Atomic Safety and Licensing Appeal Panel. The Commission has decided to abolish the Appeal Panel. The notice of proposed rulemaking proposes to adopt a discretionary system of Commission review and invites comments on that choice and on what particular procedures should be adopted.

This final rule implements the plan the Commission is adopting to provide for an orderly transition from appellate review by appeal boards to appellate review by the Commission. The Commission has determined that an orderly transition will be assisted by the commissioners taking to themselves, with certain exceptions, all appeals and other appellate and related matters (including appeals from initial decisions, interlocutory appeals and motions, certified questions, referrals and petitions for directed certification) filed in the period beginning one day after publication of this document and ending on the effective date of a final rule. The Commission review during this interim period will follow existing procedures. Thus the present right of parties to a mandatory review on the merits of initial decisions will not be affected. All appeals and other appellate and related matters pending before an appeal board on the date of publication of this notice will be decided by the appeal board under current regulations.

This transition plan will enable appeal boards to conclude their work on pending appeals without interruption by new ones. In addition, by allowing appeal boards to complete all pending matters the work already expended on these matters will not be lost.

The Commission has allowed for an exception to the requirement that all new appellate matters be filed with it. If a filing is closely related to a matter currently pending before an appeal board, it should be decided by the appeal board even if it is filed after the date of publication of this final rule. For example, a motion for stay pending an appeal on a matter that is pending before an appeal board should be decided by the appeal board even if filed after the effective date of this final rule. Under this exception the Commission expects the appeal board to continue performing its currently pending appellate functions in the Seabrook operating license proceeding.

This will conserve agency resources by assuring that an appeal board will be able to make use of its familiarity with a case to decide pending matters connected with the case. The appeal board is to decide in the first instance whether papers filed with it should be referred to the Commission under this transition plan.

The final rule being issued today amends certain of the Commission's regulations to make them consistent with this transition plan. Thus, the authorization for appeal boards to exercise the authority and perform the review functions which would otherwise be exercised and performed by the Commission in 10 CFR 2.785 and 2.1255 is revoked with respect to new appellate matters. 10 CFR 2.788 is amended to make clear that stay requests in the interim period are not to be filed with an appeal board unless closely related to a matter currently pending before the appeal board. Similarly, 10 CFR 2.1015 is amended to make clear that appeals governed by that regulation are to be filed with the Commission and not with an appeal board.

The Commission's procedure in 10 CFR 2.786 for filing a petition for review of an appeal board decision or action with the Commission remains effective for cases pending before an appeal board on the date of publication of this notice. Such a petition for review will be superfluous and will not be available to a party whose appeal is heard by the Commission under the transition plan. However, the Commission's procedure at § 2.771 for petitioning for reconsideration of a Commission decision remains effective.

Because this amendment preserves the right of parties to a merits review of initial decisions of presiding officers and relates solely to matters of agency practice, notice of proposed rulemaking and public procedures thereon are unnecessary and the amendment may be made effective upon publication without deferring effectiveness for 30 days.

Environmental Impact: Categorical Exclusion

The NRC has determined that this final rule is the type of action described in categorical exclusion 10 CFR 51.22(c)(1). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this final regulation.

Paperwork Reduction Act Statement

This final rule does not contain a new or amended information collection requirement subject to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq.). Existing requirements were approved by the Office of Management and Budget approval number 3150-0136.

Regulatory Analysis

The Commission needs a plan to achieve an efficient transition between agency appellate review by appeal boards and agency appellate review by the Commission. The transition plan put in place by this rule change will have no effect on parties other than to change the forum for appellate review of initial decisions in affected proceedings. The transition plan will, however, enable appeal boards to complete their work on existing cases without being interrupted by new appeals. By leaving all pending appellate matters for resolution by appeal boards, this transition plan also prevents any potential loss in the efforts already expended by an appeal board. Thus the cost entailed in the promulgation and application of this final rule is necessary and appropriate. The foregoing discussion constitutes the regulatory analysis for this rule.

Backfit Analysis

This rule does not modify or add to systems, structures, components, or design of a production or utilization facility; the design approval or manufacturing license for a production or utilization facility; or the procedures or organization required to design, construct, or operate a production or utilization facility. Accordingly, no backfit analysis pursuant to 10 CFR 50.109 is required for this final rule.

List of Subjects in 10 CFR Part 2

Administrative practice and procedure, Antitrust, Byproduct material, Classified information, Environmental protection, Nuclear materials, Nuclear power plants and reactors, Penalties, Sex discrimination, Source material, Special nuclear material, Waste treatment and disposal.

For the reasons set out in the preamble and under the authority of the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and 5 U.S.C. 552 and 553, the Nuclear Regulatory Commission is adopting the following amendments to 10 CFR part 2:

PART 2—RULES OF PRACTICE FOR DOMESTIC LICENSING PROCEEDINGS

1. The authority citation for part 2 continues to read as follows:

Authority: Secs. 161, 181, 68 Stat. 948, 953, as amended (42 U.S.C. 2201, 2231); sec. 191, as amended, Pub. L. 87-615, 76 Stat. 409 (42 U.S.C. 2241); sec. 201, 88 Stat. 1242, as amended (42 U.S.C. 5841); 5 U.S.C. 552.

Section 2.101 also issued under secs. 53, 62, 63, 81, 103, 104, 105, 68 Stat. 930, 932, 933, 935, 936, 937, 938, as amended (42 U.S.C. 2073, 2092, 2093, 2111, 2133, 2134, 2135); sec. 114(f), Pub. L. 97-425, 96 Stat. 2213, as amended (42 U.S.C. 10134(f)); sec. 102, Pub. L. 91-190, 83 Stat. 853, as amended (42 U.S.C. 4332); sec. 301, 88 Stat. 1248 (42 U.S.C. 5871). Sections 2.102, 2.103, 2.104, 2.105, 2.721 also issued under secs. 102, 103, 104, 105, 183, 189, 68 Stat. 936, 937, 938, 954, 955, as amended (42 U.S.C. 2132, 2133, 2134, 2135, 2239). Section 2.105 also issued under Pub. L. 97-415, 96 Stat. 2073 (42 U.S.C. 2239). Sections 2.200–2.206 also issued under secs. 186, 234, 68 Stat. 955, 83 Stat. 444, as amended (42 U.S.C. 2236, 2282); sec. 206, 88 Stat. 1246 (42 U.S.C. 5846). Sections 2.600–2.606 also issued under sec. 102, Pub. L. 91-190, 83 Stat. 853, as amended (42 U.S.C. 4332). Sections 2.700a, 2.719 also issued under 5 U.S.C. 554. Sections 2.754, 2.760, 2.770, 2.780 also issued 5 U.S.C. 557. Section 2.764 and Table 1A of Appendix C also issued under secs. 135, 141, Pub. L. 97-425, 96 Stat. 2232, 2241 (42 U.S.C. 10155, 10161). Section 2.790 also issued under sec. 103, 68 Stat. 936, as amended (42 U.S.C. 2133) and 5 U.S.C. 552. Sections 2.800 and 2.808 also issued under 5 U.S.C. 553. Section 2.809 also issued under 5 U.S.C. 553 and sec. 29, Pub. L. 85-256, 71 Stat. 579, as amended (42 U.S.C. 2039). Subpart K also issued under sec. 189, 68 Stat. 955 (42 U.S.C. 2239; sec. 134, Pub. L. 97-425, 96 Stat. 2230 (42 U.S.C. 10154). Subpart L also issued under sec. 189, 68 Stat. 955 (42 U.S.C. 2239). Appendix A also issued under sec. 6, Pub. L. 91-560, 84 Stat. 1473 (42 U.S.C. 2135). Appendix B also issued under sec. 10, Pub. L. 99-240, 99 Stat. 1842 (42 U.S.C. 2021b et seq.).

2. Section 2.785 is amended to add the following note:

§ 2.785 Functions of Atomic Safety and Licensing Appeal Board.

* * * * *

Note: Pending completion of the Commission's ongoing rulemaking proceeding for establishing procedures for direct Commission review of initial decisions, i.e., until the effective date of a final rule, the authorization of Atomic Safety and Licensing Appeal Boards to exercise the authority and perform the review functions which would otherwise be exercised and performed by the Commission is restricted as set forth in paragraphs (a) and (b) of this note, notwithstanding any provisions of this regulation to the contrary.

(a) Appeal boards are authorized to decide all appeals and other appellate and related matters (including appeals from initial decisions, interlocutory appeals and motions, certified questions, referrals and petitions for directed certification) pending before an appeal board on October 24, 1990.

(b) Appeal boards are not authorized to decide appeals and other appellate and related matters filed in the period beginning October 25, 1990, and ending on the effective date of a final rule in the rulemaking proceeding referred to above, unless a filing is closely related to a matter currently pending before an appeal board. Appeals and other appellate and related matters filed in this period will be decided by the Commission under current regulations. The appeal board should decide in the first instance whether papers filed with it should be referred to the Commission under the terms of this Note.

3. Section 2.786 is amended to add the following note:

§ 2.786 Stays of decisions of presiding officers and Atomic Safety and Licensing Appeal Boards pending review.

* * * * *

Note: Pending completion of the Commission's ongoing rulemaking proceeding establishing procedures for direct Commission review of initial decisions, requests for stays of decisions of presiding officers shall not be filed with an Atomic Safety and Licensing Appeal Board in the period beginning October 25, 1990, unless a stay request is related closely to a matter currently pending before an appeal board.

4. Section 2.1015 is amended to add the following note:

§ 2.1015 Appeals.

* * * * *

Note: Any appeal taken pursuant to the terms of this regulation after October 24, 1990, shall be filed with the Commission rather than with an Atomic Safety and Licensing Appeal Board notwithstanding any provisions of this regulation to the contrary.

5. Section 2.1255 is amended to add the following note:

§ 2.1255 Review by the Atomic Safety and Licensing Appeal Board.

* * * * *

Note: Pending completion of the Commission's ongoing rulemaking proceeding for establishing procedures for direct Commission review of initial decisions, i.e., until the effective date of a final rule, the authorization of Atomic Safety and Licensing Appeal Boards to exercise the authority and perform the review functions which would otherwise be exercised and performed by the Commission is restricted as set forth in paragraphs (a) and (b) of this note, notwithstanding any provisions of this regulation to the contrary.

(a) Appeal boards are authorized to decide all appeals and other appellate and related matters (including appeals from initial decisions, interlocutory appeals and motions, certified questions, referrals and petitions for directed certification) pending before an appeal board on October 24, 1990.

(b) Appeal boards are not authorized to decide appeals and other appellate and related matters filed in the period beginning October 25, 1990, and ending on the effective date of a final rule in the rulemaking proceeding referred to above *unless* a filing is closely related to a matter currently pending

before an appeal board. Appeals and other appellate and related matters filed in this period will be decided by the Commission under current regulations. Appeal boards should decide in the first instance whether papers filed with it should be referred to the Commission under the terms of this Note.

Dated at Rockville, Maryland, this 18th day of October 1990.

For the Nuclear Regulatory Commission.
Samuel J. Chilk,
Secretary of the Commission.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 2

RIN 3150-AD73

Options and Procedures for Direct Commission Review of Licensing Board Decisions

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule.

SUMMARY: The Nuclear Regulatory Commission (NRC) is proposing to amend its regulations to provide rules of procedure for direct Commission review of the initial decisions of presiding officers in all formal and informal adjudicatory proceedings. These regulatory changes are necessitated by the Commission's decision to abolish the Atomic Safety and Licensing Appeal Panel (ASLAP or Appeal Panel) which now provides an intermediate level of review of initial decisions of presiding officers in Commission adjudications. The Commissioners of the Nuclear Regulatory Commission will now themselves review initial decisions. The two broad alternatives for a new agency appellate review system are mandatory review, in which the Commission will review initial decisions on the merits on the appeal of a party (as appeal boards presently do) or discretionary review, in which the Commission will consider petitions for review and, in its discretion, take or reject review (as the Commission presently does with respect to appeal board decisions). The Commission seeks public comments on (1) the advantages and disadvantages of these two types of review systems, and (2) necessary or desirable procedural changes incident to either system, e.g., if a discretionary system is chosen, what should be the standard for the Commission taking discretionary review.

DATES: The comment period expires December 10, 1990. Comments received after this date will be considered if it is practical to do so, but assurance of consideration is given only for comments filed on or before that date.

ADDRESSES: Submit written comments to: Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555, ATTN: Docketing and Service Branch. Hand deliver comments to: Office of the Secretary, Docketing and Service Branch, U.S. Nuclear Regulatory Commission, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852. Copies of comments received may be examined at the NRC Public Document Room, 2120 L Street NW. (Lower Level), Washington, DC.

FOR FURTHER INFORMATION CONTACT: E. Neil Jensen, Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone: 301-492-1634.

SUPPLEMENTARY INFORMATION: Section 189a of the Atomic Energy Act of 1954 (42 U.S.C. 2239(a)) provides a right to a hearing to any person whose interest may be affected

> [i]n any proceeding under this Act, for the granting, suspending, revoking, or amending of any license or construction permit, or application to transfer control, and in any proceeding for the issuance or modification of rules and regulations dealing with the activities of licensees, and in any proceeding for the payment of compensation, an award, or royalties under sections 153, 157, 186c, or 186 [of the Act].

The Commission now implements this statutory requirement through a three-stage process: (1)The presiding officer (usually a licensing board or an administrative law judge) [1] issues an initial decision; (2) a party may appeal the initial decision to an appeal board constituted from the ASLAP for a review on the merits; and (3) the appeal board's decision is then subject to discretionary review by the Commission, either on its own initiative (*sua sponte*) or by petition of a party.

Since the Commission was established in 1975, the bulk of its adjudicatory functions were associated with contested nuclear power reactor construction permit and operating license proceedings. Now, after 15 years of sometimes long and complex administrative litigation, only one such proceeding remains. That proceeding, considering the Seabrook operating license, is now in the appellate stage and is likely to be completed in the next fiscal year.

When the Appeal Board was established by the Atomic Energy Commission in 1969, an intermediate level of review was thought necessary in order to focus the Commissioner's time on important policy matters rather than on routine appeals in the numerous cases then pending. When the Commission was established in 1975, the Appeal Panel was continued for the same reason. In the years since 1969 the Appeal Panel has developed a consistent, well-reasoned, and well-articulated body of case law which assured both safety and the due process rights of parties to nuclear licensing proceedings. The members of the ASLAP must be commended for their sustained, outstanding performance. However, the impending completion of the last major operating license proceeding, as well as the shift in the fundamental character of agency litigation away from licensing proceedings on power plants, present the Commission with an opportunity to restructure the NRC's appellate process and to address some of the criticisms that have been directed to the Commission's isolation from that process over the years by, for example, the Kemeny Commission and the Rogovin Special Inquiry Group. Direct Commission review of licensing board decisions will enable the Commission to increase its direct involvement in agency adjudications, provide earlier regulatory and policy guidance in litigation, and remove some of the overly-judicialized layers of formal appellate procedures that have evloved over the years. Thus the Commission is now faced with the need to devise a procedural mechanism whereby the Commission itself will provide some type of appellate review of licensing board decisions in lieu of that now provided by appeal boards. By its decision to abolish the Appeal panel, the Commission does not intend to abrogate the existing body of appeal board case law and begin writing on a clean slate. To the extend consistent with the procedural rule changes contemplated by this notice, and any other rule change that may be made in the future, existing appeal board precedent may still be cited and relied upon, and will be modified only on a case-by-case basis as issues arise, as any body of case law is modified over time.

I. Options and Procedures for Direct Commission Review of Licensing Board Decisions

In sums, there are two broad options for direct Commission review of initial decisions: discretionary review and mandatory review. Each option can be implemented with a variety of procedures. When using either option under consideration the Commission will need to examine each decision to determine if review at the Commission's own initiative (*sua sponte*) is warranted. The Commission will also be required to decide the merits of certain types of adjudicatory decisions, such as questions certified to the Commission and stay motions. The Commission is not at this time proposing any changes to its standards for interlocutory review or stay motions.

[1] For simplicity, these initial decisions will be referred to as licensing board decisions; however, all initial adjudicatory decisions are covered by this notice of proposed rulemaking.

A. Discretionary Commission Review of Licensing Board Decisions

An appellate system in which the Commission would allow only discretionary review of licensing board decisions, either upon petition of a party or *sua sponte*, is consistent with both the Atomic Energy Act and the Administrative Procedure Act. The advantage of a discretionary review system is that it would enable the Commission to focus its attention only on those cases that meet its standard for granting review.

A disadvantage to a discretionary review system is the possibility that the licensing board's decision might be appealed to a court without any petition for review having been submitted to the agency (which would alert the agency to potential problems with the decision) and in advance of the Commission deciding whether to take review to correct possible problems with the decision. This would occur if (1) the Commission permits the licensing or other action authorized by the licensing board's decision to take place at the time the decision issues [3] and (2) the court does not require the petitioner to file a discretionary petition for review with the agency before coming to court.

The Commission can prevent premature judicial review from occurring by continuing its immediate effectiveness regulation so that the more significant licensing board decisions will not become effective immediately. In addition, NRC's rules of practice could be amended to make explicit that the filing of a petition for review with the Commission is a remedy available before the decision becomes final. The Commission will thereby be creating a potential procedural remedy for a disappointed party which the party will need to exhaust before going to court.

If the Commission adopts a discretionary review system, it will need to establish standards for taking review. At the time the Atomic Safety and Licensing Board was established in 1962 to preside over contested adjudications, the Commission provided for discretionary petitions for review which were evaluated according to the following standard:

The petition for review may be granted in the discretion of the Commission, giving due weight to the existence of a substantial question with respect to such considerations as the following:

(1) A finding of a material fact is clearly erroneous;

(2) A necessary legal conclusion is without governing precedent or is a departure from or contrary to established law;

(3) A substantial and important question of law, policy or discretion has been raised;

(4) The conduct of the proceeding involved a prejudicial procedural error; or

(5) Any other consideration which the Commission may deem to be in the public interest.

10 CFR 2.762(d) (1962). The Commission's present regulation governing acceptance of petitions for review of appeal board decisions, 10 CFR 2.786(b)(4), is somewhat more restrictive:

(i) A petition for review of matters of law or policy will not ordinarily be granted unless it appears the case involves an important matter that could significantly affect the environment, the public health and safety, or the common defense and security, constitutes an important antitrust question, involves an important procedural issue, or otherwise raises important questions of public policy.

This regulation further provides that a petition for review of matters of fact will not be granted absent contrary decisions by the licensing board and the appeal board. However, the Commission has retained supervisory authority to review decisions regardless whether the review standards are met. The advantage of the less restrictive standard is that it gives the Commission greater discretion to review licensing board decisions consistent with its inherent supervisory authority.

B. Mandatory Commission Review of Licensing Board Decisions

If the Commission decides to grant an appeal as-of-right to parties before the licensing board, it will be necessary to review on the merits whatever "errors of fact or law" a party may choose to appeal. *See* 10 CFR 2.762(d)(1). A possible advantage of providing a mandatory review system is that it requires a high degree of Commission involvement because all matters properly appealed would have to be decided by the Commission itself. However, in many routine cases this degree of involvement would be unnecessary. The Commission could retain its present system of allowing licensing to go forward pending a final agency decision if the immediate effectiveness criteria were met and no stay was warranted.

Proposal

The Commission proposes that a discretionary review system be adopted. It will be administratively more efficient in that Commission review would be reserved for only those cases found by the Commission to have a particular problem. Acceptable licensing board decisions would not require further merits review, thus expeditiously ending the adjudicatory proceeding. However, comments are invited on this choice.

The Commission further proposes a review standard like that which applied when the Atomic Safety and Licensing Board was established in 1962. With this revised standard, the review system the Commission has in mind will operate procedurally like the current certiorari Commission review system (10 CFR 2.786). There will be a short petition for review which will need to be filed within a fixed period (perhaps 20 days). If the petition is granted, a schedule will be set for full briefing and the sequence and length of briefs will be established. Decisions on the need for oral argument will be made on a case-by-case basis. Following briefing and any oral argument, a final merits decision will be issued. If the petition for review is denied, and there is no *sua sponte* review, the Licensing Board's decision will become final. Comments are invited on the review standard and review procedures described in this proposed approach.

To assist the Commission in performing its appellate adjudicatory functions, which primarily involves reviewing the licensing board decision and the sometimes voluminous record on which the decision is based and drafting decisions, the Commission will need to use an existing organization or establish a separate opinion writing office. While this is primarily a matter of internal Commission organization, comments are invited on the choice.

II. Transition Plan

Whatever review option is adopted, parties will need to know how cases pending while the final rule is under consideration will be handled. The Commission's transition plan for these cases is as follows.

All appeals and other appellate and related matters (including appeals from initial decisions, interlocutory appeals and motions, certified questions, referrals and petitions for directed certification) pending before an appeal board on the date of publication of this notice will be decided by the appeal board under current regulations. All appeals and other appellate and related matters filed in the period beginning one day after publication of this notice and ending on the effective date of the final rule shall be filed with the Commission, with the Commission assuming the

[3] Under agency practice, finality and effectiveness are not the same: certain licensing board decisions (those comprised within NRC's immediate effectiveness rule (10 CFR 2.764)) can be effective, so the license may be issued, even though the decision is still under Commission review and is therefore not final.

decision role that would otherwise have been performed by the appeal board. However, if a filing is related closely to a matter to be decided by an appeal board, it should be decided by the appeal board even if it is filed after the date of publication of this notice. For example, a motion for stay pending an appeal before the appeal board should be decided by the appeal board even if filed after the date of publication. The appeal board should decide in the first instance whether papers filed with it should be referred to the Commission under this transition plan. The Secretary may refer papers improperly filed with the Commission to an appeal board.

The NRC is publishing in this issue of the Federal Register, in a companion document, a final rule amending certain of its regulations to make them consistent with the transition plan described above.

Environmental Impact: Categorical Exclusion

The NRC has determined that this proposed regulation is the type of action described in categorical exclusion 10 CFR 51.22(c)(1). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this proposed regulation.

Paperwork Reduction Review

This proposed rule contains no information collection requirements and therefore is not subject to the requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501, *et seq.*).

Regulatory Analysis

Section 189a(1) of the Atomic Energy Act (42 U.S.C. 2239) affords any person whose interest may be affected a right to a hearing

> [i]n any proceeding under this Act, for the granting, suspending, revoking, or amending of any license or construction permit, or application to transfer control, and in any proceeding for the issuance or modification of rules and regulations dealing with the activities of licensees, and in any proceeding for the payment of compensation, an award, or royalties under sections 153, 157, 186c, or 188. . . .

The Commission's procedural rules now provide an intermediate layer of administrative appellate review of initial decisions of presiding officers by appeal boards constituted from the ASLAP. However, the Commission has recently determined to abolish the ASLAP. In its place, the Commission intends to establish a mechanism for direct review of decisions of presiding officers by the Commission. The two broad alternative mechanisms being considered by the Commission are a mandatory system of agency appellate review and a discretionary system of agency appellate review. The cost of whatever mechanism is eventually adopted is not expected to be significantly more, in terms of the time and resources needed by the Commission and parties to achieve administrative appellate review of initial decisions, than the present system of appellate review by appeal boards. If a discretionary system is ultimately adopted, the cost for the parties as well as for the Commission in the time and resources needed for appellate review of initial decisions is likely to be less. It is thus apparent that the cost entailed in the promulgation and application of this proposed rule is necessary and appropriate. The foregoing discussion constitutes the regulatory analysis for this proposed rule.

Regulatory Flexibility Certification

The proposed rule will not have a significant economic impact upon a substantial number of small entities. Many applicants, licensees and intervenors fall within the definition of small businesses found in section 34 of the Small Business Size Standards set out in regulations issued by the Small Business Administration at 13 CFR part 121, or the NRC's size standards published December 9, 1985 (50 FR 50241). If a discretionary review system is adopted, the procedural requirements on licensees or intervenors may be reduced because they will not need to fully brief errors of fact or law that they may perceive in a presiding officer's decision prior to seeking judicial review unless the Commission first determines to take review of the decision. Licensees and intervenors will, however, need to file petitions for discretionary review with the Commission if they perceive errors in the presiding officer's decision and intend to seek judicial review. If a mandatory review system is adopted, the burden on licensees and intervenors will be substantially the same as it is at present. Thus, in accordance with the Regulatory Flexibility Act, 5 U.S.C. 605(b), the NRC hereby certifies that this rule, if promulgated, will not have a significant economic impact upon a substantial number of small entities.

Backfit Analysis

This proposed rule does not modify or add to systems, structures, components, or design of a production or utilization facility; the design approval or manufacturing license for a production or utilization facility; or the procedures or organization required to design, construct, or operate a production or utilization facility. Accordingly, no backfit analysis pursuant to 10 CFR 50.109(c) is required for this proposed rule.

List of Subjects in 10 CFR Part 2

Administrative practice and procedure, Antitrust, Byproduct material, Classified information, Environmental protection, Nuclear materials, Nuclear power plants and reactors, Penalties, Sex discrimination, Source material, Special nuclear material, Waste treatment and disposal.

For the reasons set out in the preamble and under the authority of the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and 5 U.S.C. 553, the Nuclear Regulatory Commission is proposing to adopt amendments to 10 CFR part 2. After consideration of public comments, a final rule and notice of final rulemaking will be prepared and published.

Dated at Rockville, Maryland, this 18th day of October 1990.

For the Nuclear Regulatory Commission.
Samuel J. Chilk,
Secretary of the Commission.

Department of Defense

General Services Administration

National Aeronautics and Space Administration

48 CFR Parts 27 and 52

Federal Acquisition Regulation (FAR); Rights in Technical Data; Advanced Notice of Proposed Rulemaking

DEPARTMENT OF DEFENSE

GENERAL SERVICES ADMINISTRATION

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Parts 27 and 52

Federal Acquisition Regulation (FAR); Rights in Technical Data

AGENCIES: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Spac.. dministration (NASA).

ACTION: Advanced notice of proposed rule making; change in meeting location.

SUMMARY: The Department of Defense, General Services Administration and the National Aeronautics and Space Administration published an advanced notice of proposed rulemaking on Rights in Technical Data on October 15, 1990, (55 FR 41788). The original public hearing location for all public hearings was to be at the U.S. Chamber of Commerce. This document changes the public hearing location and time for the first public hearing, October 26, 1990.

DATES: The public hearing on October 26, 1990, will be held from 10:00 am to 5:30 pm local time.

ADDRESSES: The public hearing on October 26, 1990, will be held in Room 1E245, Forrestal Building, 1000 Independence Avenue, SW, Washington, DC 20585. Note: Participants should plan to arrive early to allow time for building security.

FOR FURTHER INFORMATION CONTACT: Linda W. Neilson, telephone (703) 697-7266.

(40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c)).

Nancy L. Ladd,

Colonel (sel), USAF, Director, Defense Acquisition Regulatory System.

LIST OF PUBLIC LAWS

Last List October 23, 1990

This is a continuing list of public bills from the current session of Congress which have become Federal laws. It may be used in conjunction with "P L U S" (Public Laws Update Service) on 523-6641. The text of laws is not published in the Federal Register but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone 202-275-3030).

H.R. 4739/Pub. L. 101-436

Rio Grande American Canal Extension Act of 1990. (Oct. 18, 1990; 104 Stat. 1001; 3 pages) Price: $1.00

H.J. Res. 662/Pub. L. 101-437

Designating October 1990 as "National Domestic Violence Awareness Month". (Oct. 18, 1990; 104 Stat. 1004; 2 pages) Price: $1.00

S. 247/Pub. L. 101-440

State Energy Efficiency Programs Improvement Act of 1990. (Oct. 18, 1990; 104 Stat. 1006; 11 pages) Price: $1.00

S. 930/Pub. L. 101-441

To amend Public Law 98-547, establishing the Blackstone

River Valley National Heritage Corridor 1 Commission, to authorize the Commission to take immediate action in furtherance of its purposes and to increase the authorization of appropriations for the Commission. (Oct. 18, 1990; 104 Stat. 1017; 2 pages) Price: $1.00

S. 3457/Pub. L. 101-445

To authorize the acquisition of certain lands in the States of Louisiana and Mississippi for inclusion in the Vicksburg National Military Park, to improve the management of certain public lands in the State of Minnesota, and for other purposes. (Oct. 18, 1990; 104 Stat. 1019; 9 pages) Price: $1.00

H.R. 3489/Pub. L. 101-443

Connecticut Coastal Protection Act of 1990. (Oct. 16, 1990; 104 Stat. 1023; 2 pages) Price: $1.00

H.J. Res. 677/Pub. L. 101-444

Making further continuing appropriations for the fiscal year 1991, and for other purposes. (Oct. 19, 1990; 104 Stat. 1030; 4 pages) Price: $1.00

Guide to Record Retention Requirements

in the Code of Federal Regulations (CFR)

GUIDE: Revised January 1, 1989
SUPPLEMENT: Revised January 1, 1990

The GUIDE and the SUPPLEMENT should be used together. This useful reference tool, compiled from agency regulations, is designed to assist anyone with Federal recordkeeping obligations.

The various abstracts in the GUIDE tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

The GUIDE is formatted and numbered to parallel the CODE OF FEDERAL REGULATIONS (CFR) for uniformity of citation and easy reference to the source document.

Compiled by the Office of the Federal Register, National Archives and Records Administration.

Order from Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402-9325.

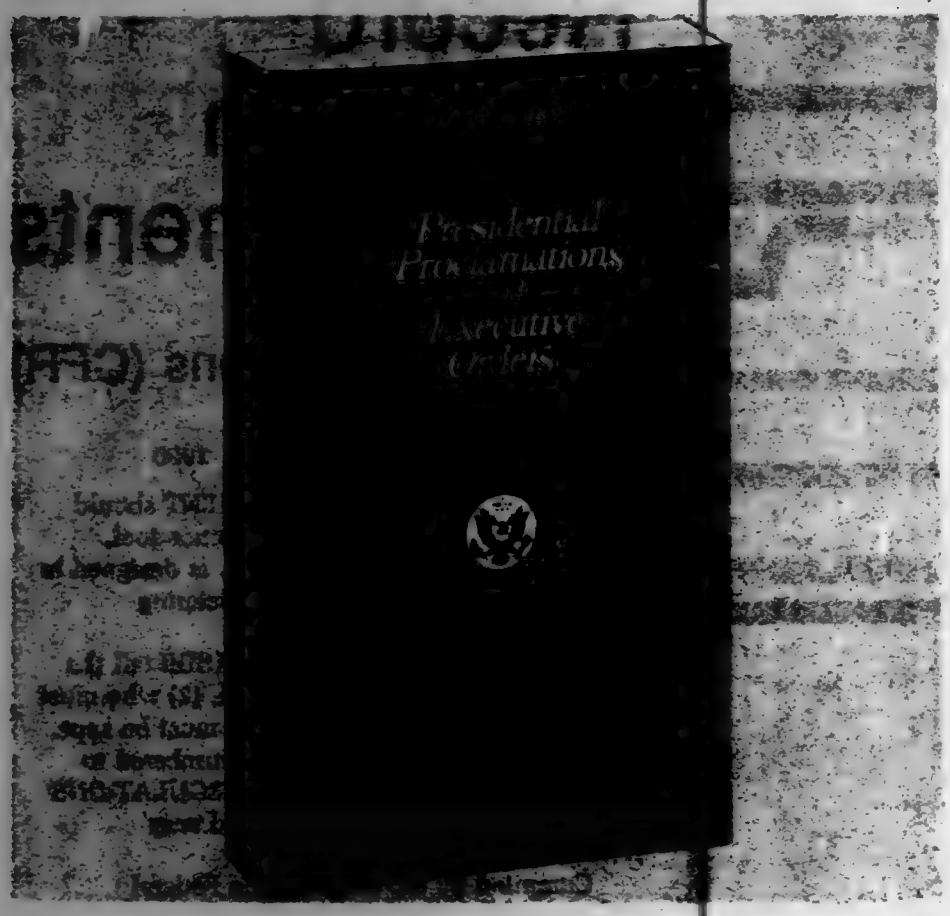
New edition .... Order now !



For those of you who must keep informed about **Presidential Proclamations and Executive Orders,** there is a convenient reference source that will make researching these documents much easier.

Arranged by subject matter, this edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period April 13, 1945, through January 20, 1989, and which have a continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1945–1989 period—along with any amendments—an indication of its current status, and, where applicable, its location in this volume.

Published by the Office of the Federal Register, National Archives and Records Administration

Order from Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402-9325

BEST COPY AVAILABLE

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The Federal Register provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the Federal Register as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the Federal Register shall be judicially noticed.

The Federal Register will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the Federal Register.

How To Cite This Publication: Use the volume number and the page number. Example: 55 FR 12345.

Rules and Regulations

Federal Register
Vol. 55, No. 207
Thursday, October 25, 1990

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

Animal and Plant Health Inspection Service

7 CFR Part 301

[Docket No. 90-205]

Mediterranean Fruit Fly; Removal From the Quarantined Areas

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Interim rule.

SUMMARY: We are amending the Mediterranean fruit fly regulations by removing from the list of quarantined areas in California portions of Los Angeles County near Whittier and Artesia, and the quarantined area in Orange County near Brea. We have determined that the Mediterranean fruit fly has been eradicated from these areas and that the restrictions are no longer necessary. This action relieves unnecessary restrictions on the interstate movement of regulated articles from these areas.

DATES: Interim rule effective October 19, 1990. Consideration will be given only to comments received on or before December 24, 1990.

ADDRESSES: To help ensure that your comments are considered, send an original and three copies to Chief, Regulatory Analysis and Development, PPD, APHIS, USDA, room 866, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782. Please state that your comments refer to Docket Number 90-205. Comments received may be inspected at USDA, room 1141, South Building, 14th and Independence Avenue SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays.

FOR FURTHER INFORMATION CONTACT: Milton C. Holmes, Senior Operations Officer, Domestic and Emergency Operations, PPQ, APHIS, USDA, room 642, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, (301) 436-8247.

SUPPLEMENTARY INFORMATION:

Background

The Mediterranean fruit fly, *Ceratitis capitata* (Wiedemann), is one of the world's most destructive pests of numerous fruits and vegetables, especially citrus fruits. The Mediterranean fruit fly (Medfly) can cause serious economic losses. Heavy infestations can cause complete loss of crops, and losses of 25 to 50 percent are not uncommon. The short life cycle of this pest permits the rapid development of serious outbreaks.

We established the Mediterranean fruit fly regulations and quarantined an area in Los Angeles County, California (7 CFR 301.78 *et seq.*; referred to below as the regulations), in a document effective August 23, 1989, and published in the Federal Register on August 29, 1989 (54 FR 35629-35635, Docket Number 89-146). We have published a series of interim rules amending these regulations by adding or removing certain portions of Los Angeles, Orange, San Bernardino, and Santa Clara Counties, California, from the list of quarantined areas. Amendments affecting California were made effective on September 14, October 11, November 17, and December 7, 1989; and on January 3, January 25, February 16, March 9, May 9, June 1, August 3, September 6, September 14, September 21, and October 12, 1990 (54 FR 38643-38645, Docket Number 89-169; 54 FR 42478-42480, Docket Number 89-182; 54 FR 48571-48572, Docket Number 89-202; 54 FR 51189-51191, Docket Number 89-208; 55 FR 712-715, Docket Number 89-212; 55 FR 3037-3039, Docket Number 89-227; 55 FR 6353-6355, Docket Number 90-014; 55 FR 9719-9721, Docket Number 90-031; 55 FR 19241-19243, Docket Number 90-050; 55 FR 22320-22323, Docket Number 90-081; 55 FR 32236-32238, Docket Number 90-151; 55 FR 37697-37699, Docket Number 90-175; 55 FR 38529-38530, Docket Number 90-179; 55 FR 39261-39162, Docket Number 90-182; 55 FR 41981-41983, Docket Number 90-199).

Based on insect trapping surveys by inspectors of California State and county agencies and by inspectors of the Animal and Plant Health Inspection Service (APHIS), we have determined that the Medfly has been eradicated from portions of the quarantined area in California in Los Angeles County, near Whittier and Artesia, and in Orange County near Brea. The last finding of Medfly thought to be associated with the infestation in these areas was made on January 24, 1990, in the Whittier area; on May 1, 1990, in the area near Artesia; and on November 17, 1989, in the Brea area. Since then, no evidence of infestations has been found in these areas. We have determined that the Medfly no longer exists in these areas, and we are therefore removing them from the list of areas in § 301.78-3(c) quarantined because of the Mediterranean fruit fly. As a result of this action there are no longer any quarantined areas in Orange County; the Mediterranean fruit fly has been eradicated from this county. Only a portion of Los Angeles County remains quarantined. A description of that area is set forth in full in the rule portion of this document.

Emergency Action

James W. Glosser, Administrator of the Animal and Plant Health Inspection Service, has determined that an emergency situation exists that warrants publication of this interim rule without prior opportunity for public comment. The areas in California affected by this document were quarantined due to the possibility that the Mediterranean fruit fly could spread to noninfested areas of the United States. Since this situation no longer exists, and the continued quarantined status of these areas would impose unnecessary regulatory restrictions on the public, we have taken immediate action to remove restrictions from the noninfested areas.

Since prior notice and other public procedures with respect to this interim rule are impracticable and contrary to the public interest under these conditions, there is good cause under 5 U.S.C. 553 to make it effective upon signature. We will consider comments received within 60 days of publication of this interim rule in the Federal Register. After the comment period closes, we will publish another document in the Federal Register, including a discussion of any comments we receive and any amendments we are making to the rule as a result of the comments.

Executive Order 12291 and Regulatory Flexibility Act

We are issuing this rule in conformance with Executive Order 12291, and we have determined that it is not a "major rule." Based on information compiled by the Department, we have determined that this rule will have an effect on the economy of less than $100 million; will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and will not cause a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

For this action, the Office of Management and Budget has waived the review process required by Executive Order 12291.

This regulation affects the interstate movement of regulated articles from portions of Los Angeles and Orange Counties in California. Within the regulated area being removed there are approximately 1,118 entities that could be affected, including 175 nurseries, 439 fruit/produce vendors, 12 community gardens, 5 swap meets, 62 commercial growers, 7 farmers market, 194 yard maintenance services, 171 mobile vendors, and 53 miscellaneous (i.e., packing, processing, and dehydrator sites and small backyard sellers).

The effect of this rule on these entities should be insignificant since most of these small entities handle regulated articles primarily for local intrastate movement, not interstate movement, and the distribution of these articles was not affected by the regulatory provisions we are removing.

Many of these entities also handle other items in addition to the previously regulated articles so that the effect, if any, on these entities is minimal. Further, the conditions in the Mediterranean fruit fly regulations and treatments in the Plant Protection and quarantine Treatment Manual, incorporated by reference in the regulations, allowed interstate movement of most articles without significant added costs.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

The regulations in this subpart contain no new information collection or recordkeeping requirements under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*).

Executive Order 12372

This program activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR 3015, subpart V).

List of Subjects in 7 CFR Part 301

Agricultural commodities, Incorporation by reference, Mediterranean fruit fly, Plant diseases, Plant pests, Plants (Agriculture), Quarantine, Transportation.

Accordingly, 7 CFR part 301 is amended to read as follows:

PART 301—DOMESTIC QUARANTINE NOTICES

1. The authority citation for 7 CFR part 301 continues to read as follows:

Authority: U.S.C. 150bb, 150dd, 150ee, 150ff; 161, 162, and 164–167; 7 CFR 2.17, 2.51, and 371.2(c).

2. Section 301.78–3, paragraph (c), is revised to read as follows:

§ 301.78–3 Quarantined areas.

* * * * *

(c) The area described below is designated as a quarantined area: California

Los Angeles County

That portion of the county near Pasadena, El Monte, and Los Angeles areas bounded by a line drawn as follows: Beginning at the intersection of Interstate Highway 210 and Interstate 605; then southerly along Interstate 605 to its intersection with State Highway 60; then westerly along this highway to its intersection with Soto Street; then northeasterly along this street to its intersection with Whittier Boulevard; then westerly along this boulevard to its intersection with 6th Street; then northwesterly along this street to its intersection with Broadway; then southwesterly along Broadway to its intersection with Interstate Highway 10; then westerly along this highway to its intersection with La Brea Avenue; then northerly along this avenue to its intersection with Hollywood Boulevard; then easterly along this boulevard to its intersection with Highland Avenue; then northerly along this avenue to its intersection with U.S. Highway 101; then northeasterly along this highway to its intersection with State Highway 134; then easterly along this highway to its intersection with Interstate Highway 210; then easterly along this highway to the point of beginning.

Done in Washington, DC, this 19 day of October 1990

James W. Glosser,

Administrator, Animal and Plant Health Inspection service.

9 CFR Part 78

[Docket No. 90–210]

Brucellosis in Cattle; State and Area Classifications

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Interim rule.

SUMMARY: We are amending the brucellosis regulations concerning the interstate movement of cattle by changing the classification of Arkansas from Class B to Class A. We have determined that Arkansas now meets the standards for Class A status. This action relieves certain restrictions on the interstate movement of cattle from Arkansas.

DATES: Interim rule effective October 19, 1990. Consideration will be given only to comments received on or before December 24, 1990.

ADDRESSES: To help ensure that your comments are considered, send an original and three copies to Chief, Regulatory Analysis and Development, PPD, APHIS, USDA, room 866, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782. Please state that your comments refer to Docket Number 90–210. Comments received may be inspected at USDA, room 1141, South Building, 14th and Independence Avenue SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays.

FOR FURTHER INFORMATION CONTACT: Dr. John D. Kopec, Senior Staff Veterinarian, Cattle Diseases and Surveillance Staff, VS, APHIS, USDA, room 729, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, (301) 436–6188.

SUPPLEMENTARY INFORMATION:

Background

Brucellosis is a contagious disease affecting animals and man, caused by bacteria of the genus *Brucella*.

The brucellosis regulations contained in 9 CFR part 78 (referred to below as the regulations) provide a system for classifying States or portions of States according to the rate of brucella

infection present, and the general effectiveness of a brucellosis control and eradication program. The classifications are Class Free, Class A, Class B, and Class C. States or areas that do not meet the minimum standards for Class C are required to be placed under Federal quarantine.

The brucellosis Class Free classification is based on a finding of no known brucellosis in cattle for the 12 months preceding classification as Class Free. The Class C classification is for States or areas with the highest rate of brucellosis. Class B and Class A fall between these two extremes. Restrictions on moving cattle interstate become less stringent as a State approaches or achieves Class Free status.

The standards for the different classifications of States or areas entail maintaining (1) a cattle herd infection rate not to exceed a stated level during 12 consecutive months; (2) a rate of infection in the cattle population (based on the percentage of brucellosis reactors found in the Market Cattle Identification (MCI) program—a program of testing at stockyards, farms, ranches, and slaughter establishments) not to exceed a stated level; (3) a surveillance system that includes testing of dairy herds, participation of all slaughtering establishments in the MCI program, identification and monitoring of herds at high risk of infection—including herds adjacent to infected herds and herds from which infected animals have been sold or received, and having an individual herd plan in effect within a stated number of days after the herd owner is notified of the finding of brucellosis in a herd he or she owns; and (4) minimum procedural standards for administering the program.

Before the publication of this interim rule, Arkansas was classified as a Class B State because of its herd infection rate and its MCI reactor prevalence rate. However, after reviewing its brucellosis program records, we have concluded that the State of Arkansas meets the standards for Class A status.

To attain and maintain Class A status, a State or area must (1) not exceed a cattle herd infection rate, due to field strain *Brucella abortus* of 0.25 percent or 2.5 herds per 1,000 based on the number of reactors found within the State or area during any 12 consecutive months, except in States with 10,000 or fewer herds; (2) maintain a 12 consecutive months MCI reactor prevalence rate not to exceed one reactor per 1,000 cattle tested (0.10 percent); and (3) have an approved individual herd plan in effect within 15 days of locating the source herd or recipient herd.

Therefore, we are removing Arkansas from the list of Class B States in § 78.41(c) and adding to the list of Class A States in § 78.41(b). This action relieves certain restrictions on moving cattle interstate from Arkansas.

Immediate Action

James W. Glosser, Administrator of the Animal and Plant Health Inspection Service, has determined that there is good cause to publish this interim rule without prior opportunity for public comment. Immediate action is warranted to remove unnecessary restrictions on the interstate movement of cattle from Arkansas.

Since prior notice and other public procedures with respect to this interim rule are impracticable and contrary to the public interest under these conditions, there is good cause under 5 U.S.C. 553 to make it effective upon signature. We will consider comments that are received within 60 days of publication of this interim rule in the Federal Register. After the comment period closes, we will publish another document in the Federal Register, including discussion of any comments we receive and any amendments we are making to the rule as a result of the comments.

Executive Order 12291 and Regulatory Flexibility Act

We are issuing this rule in conformance with Executive Order 12291, and we have determined that it is not a "major rule." Based on information compiled by the Department, we have determined that this rule will have an effect on the economy of less than $100 million, will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and will not cause a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

For this action, the Office of Management and Budget has waived its review process required by Executive Order 12291.

Cattle moved interstate are moved for slaughter, for use as breeding stock, or for feeding. Changing the status of Arkansas from Class B to Class A reduces certain testing and other requirements governing the interstate movement of cattle from Arkansas. However, cattle from certified brucellosis-free herds moving interstate are not affected by this change.

The principal group affected would be the owners of noncertified herds in Arkansas not know to be affected with brucellosis who seek to sell cattle.

There are an estimated 54,000 herds in Arkansas, most of which are owned by small entities that potentially would be affected by this rule. During fiscal year 1989 Arkansas tested 220,394 eligible cattle at saleyards. We estimate that approximately 12 percent of this testing was done to qualify cattle for interstate movement for purposes other than slaughter. This testing costs approximately $3.40 per head. Since herd sizes vary, larger herds will accumulate more savings than smaller herds. Also, not all herd owners will choose to market their cattle in a way that accrues these costs savings. The overall effect of this rule on small entities should be to provide very small economic benefit.

Therefore, we believe that changing Arkansas's brucellosis status will not significantly affect market patterns, and will not have a significant economic impact on the small entities affected by this interim rule.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

This rule contains no information collection or recordkeeping requirements under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*).

Executive Order 12372

This program/activity is listed in the Catalog of Federal Domestic Assistance under 10.025 and is subject to Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR part 3015 subpart V.)

List of Subjects in 9 CFR Part 78

Animal diseases, Brucellosis, Cattle, Hogs, Quarantine, Transportation.

Accordingly, we are amending 9 CFR part 78 as follows:

PART 78—BRUCELLOSIS

1. The authority citation for part 78 continues to read as follows:

Authority: 21 U.S.C. 111–114a–1, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 7 CFR 2.17, 2.51, and 371.2(d).

§ 70.41 [Amended]

2. Section 70.41, paragraph (b) is amended by adding "Arkansas," immediately after "Alabama,".

3. Section 70.42, paragraph (a) is amended by removing "Arkansas,".

Done in Washington, DC, this 19 day of October 1990.

James W. Glosser,

Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-M

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

25 CFR Part 176

Flathead Irrigation and Power Project, Montana; Revision of Power Rate Schedule

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Final rule.

SUMMARY: The Bureau of Indian Affairs (BIA) is publishing a revised power rate schedule pursuant to the provision for the Area Director to provide authority to pass increased power costs on the Flathead Irrigation and Power Project to the customer, as provided for in the November 10, 1982, Federal Register, 47 FR 50839, the following changes in 25 CFR part 176, authorized rate increases to become effective on the first billing after December 1, 1990.

This revised rate schedule is required in order to collect sufficient funds to pay for the increased cost of electricity supplied to the Flathead Power Project.

EFFECTIVE DATE: December 1, 1990.

ADDRESSES: Mail or hand deliver comments to Stanley Speaks, Portland Area Director, 911 NE. 11th Avenue, Portland, Oregon 97232-4169.

FOR FURTHER INFORMATION CONTACT: Dirk Sorgen, Manager, Mission Valley Power, Post Office Box 880, Polson, Montana 59860-0880, (406) 883-5321.

SUPPLEMENTARY INFORMATION: This notice of power rate schedule change is published under the authority delegated by the Secretary of the Interior to the Assistant Secretary (Indian Affairs) in 209 DM 8 and redelegated by the Assistant Secretary to the Area Director.

Pursuant to the provision for the Area Director to provide authority to pass increased power costs on the Flathead Irrigation and Power Project to the customer, as provided in the November 10, 1982, Federal Register, Volume 47, No. 218, the following changes in 25 CFR part 176, authorized rate increases to become effective on the first billing after December 1, 1990.

List of Subjects in 25 CFR Part 176

Electric power, Indian lands, Irrigation, Standard Rate Schedules.

For the reasons set out in the preamble, title 25, chapter I, part 176, of the Code of Federal Regulations, is amended to read as follows:

PART 176—[AMENDED]

1. The authority citation for part 176 continues to read as follows:

Authority: Sec. 7, 62 Stat. 273; 5 U.S.C. 301.

* * * * *

2. Revise 25 CFR 176.51 to read as follows:

§ 176.51 Rate Schedule No. 1: Residential, farm and rural.

(a) *Application of schedule.* This schedule is available for single-phase electric service delivered through one meter to a single family residence, either urban or rural, for domestic and farm use, including operation of motors as part of the appliances within the residence, no one of which exceeds 5 horsepower in capacity. The electric service is to be used only on the consumer's own premises, and must not be resold.

(b) *Monthly rate.* 3.954 cents per kilowatt-hour for all kilowatt-hours.

(c) *Basic charge.* (1) $6.00 per month rural.

(2) $3.00 per month within incorporated municipalities.

(3) All kilowatt-hour charges to be in addition to basic charges.

3. Revise 25 CFR 176.52 to read as follows:

§ 176.52 Rate Schedule No. 2: General.

(a) *Application of schedule.* This schedule is available for single-phase or three-phase electric service not exceeding a maximum demand of 20 kilowatts, delivered through one meter, for use in lighting, heating, operating appliances, and for power for motors which do not exceed 5 horsepower in capacity. The electric service is to be used only on the consumer's own premises, and must not be resold. The use of this schedule is required for second delivery to a consumer's installation that is already being served by Rate Schedule No. 1.

(b) *Monthly rate.* (1) 9.954 cents per kilowatt-hour for first 50 kilowatt-hours.

(2) 5.954 cents per kilowatt-hour for next 50 kilowatt-hours.

(3) 4.264 cents per kilowatt-hour for all over 100 kilowatt-hours.

(c) *Minimum bill.* (1) $6.00 per month rural.

(2) $3.00 per month within incorporated municipalities.

4. Revise 25 CFR 176.54 to read as follows:

§ 176.54 Rate schedule No. 4: General.

(a) *Application of schedule.* This schedule is available for single-phase and three-phase electric service for all purposes. Unless specifically permitted by the contract, use must be limited to the consumer's premises, and the power supplied must not be resold. If more than one meter is required by the consumer's installations, or for the consumer's convenience, a separate computation shall be made for each meter.

(b) *Energy.* (1) 3.954 cents per kilowatt-hour for first 15,000 kilowatt hours.

(2) 2.954 cents per kilowatt-hour for all additional kilowatt hours.

(c) *Demand.* $3.00 per kilowatt.

(d) *Discount.* A discount will be allowed and applied after the monthly bill has been computed:

(1) If a customer takes delivery at the primary voltage of the distribution or transmission system of the Project and at a location where the Project has adequate and suitable facilities for such delivery.

(2) If the customer furnishes, installs, operates, and maintains the substation or substations with step-down transformers, protective equipment, and all other facilities (except metering equipment) needed by the customer in distributing and utilizing the delivered power and energy.

(3) When the conditions and specifications in paragraphs (d)(1) and (d)(2) of this section are satisfactory to the Project Engineer, the following discounts apply:

(i) For three-phase delivery at the Project distribution voltage, a discount of 5 percent.

(ii) For three-phase delivery from the Project transmission system where not more than one transformation intervenes between the highest voltage of the Project power system and the delivery to the customer, a discount of 8 percent.

(e) *Minimum bill.* $3.00 per month per kilowatt of billing demand, but not less than $30.00 per month or 60 cents per KVA of transformer capacity.

(f) *Contract demand.* Each contract shall state the number of kilowatts which the customer expects to require and desires to have reserved for his service. This quantity is called the contract demand. The contract demand shall not be less than 10 kilowatts.

(g) *Actual demand.* The actual demand for any month shall be the average amount of power used during that period of 15 consecutive minutes when such average is the greatest for the month as determined by suitable meters, or if meters are unavailable, the actual demand shall be the connected load or such portion of the connected load as the General Manager may determine to be appropriate, based on available information as to the customer's use of connected lights and appliances, or from check metering.

(h) *Billing demand.* The billing demand for a month shall be the contract demand or the actual demand for that month, whichever is the greater.

(i) *Power factor adjustment.* An adjustment for power factor will be made by increasing the billing demand for each month by one (1) percent for one (1) percent or major fraction thereof by which lagging power factor is less than 95.

5. Revise 25 CFR 176.55 (b), (c) (1) and (4) to read as follows:

§ 176.55 Rate schedule No. 5: Irrigation pumping and sprinkling.

* * * * *

(b) *Rate per season or fraction thereof.* (1) $10.20 per horsepower connected:

(2) 2.954 cents per kilowatt-hour for all kilowatt-hours used.

(3) The minimum connected horsepower charge will be $50.00.

(c) *Special terms and conditions.* (1) The minimum annual (seasonal) horsepower charge of $10.20 per connected horsepower shall be paid each year during the life of the contract. Payment shall be required each year before service is connected. If the service has not been connected by the close of the irrigation season, but in no case later than October 15, the minimum annual (seasonal) charge will be assessed.

* * * * *

(4) For a delinquent account to be reconnected, payment of all delinquent bills will be required, plus the estimated energy charge for the coming season, plus the annual seasonal charge of $10.20 per horsepower.

* * * * *

Wilford Bowker,
Acting Portland Area Director.

BILLING CODE 4310-02-M

DEPARTMENT OF JUSTICE

Parole Commission

28 CFR Part 2

Paroling, Recommitting and Supervising Federal Prisoners; Modification of Procedures for Forfeiture of Time Under Parole Supervision; Correction

AGENCY: United States Parole Commission, Justice.

ACTION: Interim general statement of policy; correction.

SUMMARY: The Parole Commission is correcting an error that appeared in the summary of the interim general statement of policy to bring its parole revocation decisions into compliance with *Rizzo v. Armstrong*, ____ F.2d ____ (9th Cir. August 30, 1990), a decision holding that the forfeiture of the time that a parole violator has spent under parole supervision ("street time") is discretionary, and not a mandatory penalty under 18 U.S.C. 4210(b)(2) (1976).

FOR FURTHER INFORMATION CONTACT: Pamela Posch, Paralegal Specialist, Office of the General Counsel, U.S. Parole Commission, Telephone (301) 492-5959.

SUPPLEMENTARY INFORMATION: The Parole Commission is correcting an error in regards to the date which appears on page 42184, first column, last sentence in the summary paragraph. The sentence which reads, "This policy will be limited to revocation hearings conducted within the Ninth Circuit after October 15, 1990." is revised to read as follows:

"This policy will be limited to revocation hearings conducted within the Ninth Circuit after October 22, 1990."

Dated: October 22, 1990.

Michael A. Stover,
General Counsel.

BILLING CODE 4410-01-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 100

[CGD7 90-68]

Special Local Regulations: Seddon Channel, Hillsborough Bay, Tampa, FL

AGENCY: Coast Guard, DOT.

ACTION: Temporary rule.

SUMMARY: Special local regulations are being adopted for the Tampa Powerboat Classic. This event will be held on Saturday, October 27 and 28, at 10 a.m. e.d.s.t. These regulations are needed to provide for the safety of life on navigable waters during the events.

EFFECTIVE DATES: This regulation becomes effective at 10 a.m. e.d.s.t. and terminates at 4 p.m. e.d.s.t. on 27 and 28 October 1990.

FOR FURTHER INFORMATION CONTACT: QMC J.J. COOK, Coast Guard Group St. Petersburg, FL at (813) 824-7527.

Drafting Information

The drafter of this regulation is QMC J.J. COOK, project officer for Group St. Petersburg.

Discussion of Regulation

This regulation is needed to provide for the safety of participant and spectator boaters and their vessels on the navigable waters during the running of the Tampa Powerboat Classic. There will be approximately 40 racing vessels ranging in length from 13 feet to 17 feet. Seddon Channel will be closed to all marine traffic during the race.

Federalism

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that the rule making does not have sufficient Federalism implications to warrant the preparation of a Federalism Assessment.

List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water).

Regulations

In consideration of the foregoing, part 100 of title 33, Code of Federal Regulations, is amended as follows:

1. The authority citation for part 100 continues to read as follows:

Authority: 33 U.S.C. 1233; 49 CFR 1.46 and 33 CFR 100.35.

2. A temporary § 100.35-T0796 is added to read as follows:

§ 100.35-T0796 Special local regulations—Tampa Powerboat Classic.

(a) *Regulated Area:* A regulated area is established in Seddon Channel in North Hillsborough Bay between 27-55.9N and 27-56.5N.

(b) *Special Local Regulations:* All vessels are restricted from entering the regulated area. After termination of the Tampa Powerboat Classic, all vessels may resume normal operations.

(c) *Effective Dates:* This regulation becomes effective at 10 a.m. e.d.s.t. and terminates at 4 p.m. e.d.s.t. on 27 and 28 October 1990.

Dated: October 4, 1990.

Robert E. Kramek,

Rear Admiral, U.S. Coast Guard, Commander, Seventh Coast Guard District.

[FR Doc. 90-25257 Filed 10-24-90; 8:45 am]

BILLING CODE 4910-14-M

33 CFR Part 165

[COTP-90-171]

Safety Zone Regulations: East River, New York, NY

AGENCY: Coast Guard, DOT.

ACTION: Emergency rule.

SUMMARY: The Coast Guard is establishing a safety zone in the East River, New York. This Zone is needed to protect the maritime community from the possible dangers and hazards to navigation associated with a fireworks display. Entry into this zone is prohibited unless authorized by the Captain of the Port.

EFFECTIVE DATES: This regulation becomes effective 6:30 p.m. local time on Oct. 21, 1990. It terminates at 8 p.m. local time on Oct. 21, 1990.

FOR FURTHER INFORMATION CONTACT: MST1 S.T. Whinham of Captain of the Port, New York, (212) 668-7934.

SUPPLEMENTARY INFORMATION: In accordance with 5 U.S.C. 553, a notice of proposed rulemaking was not published for this regulation and good cause exists for making it effective in less than 30 days after Federal Register publication. Publishing an NPRM and delaying its effective date would be contrary to public interest since immediate action is needed to respond to any potential hazards. This action has been analyzed in accordance with the principle and criteria of E.O. 12612, and it has been determined that the final rule does not have sufficient federalism implications to warrant the preparation of a federalism assessment.

Drafting Information

The drafters of this regulation are LTJG C.W. Jennings, project officer for the Captain of the Port, New York, and LT R.E. Korroch, project attorney, First Coast Guard District Legal Office.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Security measures, Vessels, Waterways.

Regulation

In consideration of the foregoing, subpart C of part 165 of title 33, Code of Federal Regulations, is amended as follows:

PART 165—[AMENDED]

1. The authority citation for part 165 continues to read as follows:

Authority: 33 USC 1225 and 1231; 50 USC 191; 49 CFR 1.46 and 33 CFR 1.05-1(g), 6.04-1, 6.04-6 and 160.5.

2. Part 165 is amended by adding section 165.T1171 to read as follows:

§ 165.T1171 Safety zone: East River, New York, NY.

(a) *Location.* The following area has been declared a safety zone: That portion of the Upper Bay and the lower East River bounded by a line drawn from the northwest corner of Pier One (1) Brooklyn west to the northeastern corner of Pier Eighteen (18) Manhattan, thence south along the shoreline to the northeastern end of the Governors Islands Ferry Slip, at Slip Seven (7) Manhattan, thence east to the northwest corner of Pier Five (5) Brooklyn, thence north along the Brooklyn shoreline to the point of origin.

(b) *Effective date.* This regulation becomes effective at 6:30 p.m. local time on Oct. 21, 1990. It terminates at 8 p.m. local time on Oct. 21, 1990.

(c) *Regulations.* In accordance with the general regulations in § 165.23 of this part, entry into this zone is prohibited unless authorized by the Captain of the Port.

Dated: October 5, 1990.

R.M. Larrabee,

Captain, U.S. Coast Guard, Captain of the Port, New York.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Public Land Order 6805

[AK-932-00-4214-10; A-043400]

Partial Revocation of Public Land Order No. 3324 for Selection of Land by the State of Alaska; Alaska

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes a public land order insofar as it affects 3,850 acres of public land withdrawn for recreation purposes at Lake George, Alaska. The land is no longer needed for the purpose for which it was withdrawn. This action also opens the land for selection by the State of Alaska, if such land is otherwise available. Any land described herein that is not conveyed to the State will be subject to the terms and conditions of withdrawals of record.

EFFECTIVE DATE: October 25, 1990.

FOR FURTHER INFORMATION CONTACT: Sandra C. Thomas, BLM Alaska State Office, 222 W. 7th Avenue, No. 13, Anchorage, Alaska 99513-7599, 907-271-5477.

By virtue of the authority vested in the Secretary of the Interior by section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (1988), and by section 17(d)(1) of the Alaska Native Claims Settlement Act, 43 U.S.C. 1616(d)(1) (1988), it is ordered as follows:

1. Public Land Order No. 3324 which withdrew public land for a recreation area at Lake George is hereby revoked insofar as it affects the following described land:

Seward Meridian

Beginning at Point No. 1, common with M.C. corner No. 4, U.S. Survey No. 3290, Tract B,
Thence south 7 chains to corner No. 3, U.S. Survey No. 3290, Tract B;
Thence continuing south 13 chains to Point No. 2, the point of beginning;
Thence southeasterly 15 miles, approximately, paralleling with the south bank of the Knik River (a strip ¼ mile wide) to a point opposite foot of Knik Glacier;
Thence southerly 7 miles, approximately, continuing in a southerly direction paralleling the river drainage from Lake George (continuing a strip ¼ mile wide) to a point opposite outlet of Lake George;
Thence southwesterly 8 miles, approximately, paralleling west side of Lake George (continuing a strip ¼ mile wide) to southwest inlet of Lake George;
Excluding therefrom a tract of land described as:
Beginning at corner No. 1, common with meander corner No. 4, U.S. Survey No. 3290, Tract B and the true point of beginning for this description;
From Corner No. 1, by metes and bounds,
Thence south 7 chains to corner No. 3, U.S. Survey No. 3290, Tract B and continuing South 13 chains to corner No. 2;
Thence southeasterly on a line approximately 20 chains south of and parallel to the left bank of the Knik River, approximately 501 chains to corner No. 3 located on the east boundary of T. 16 N., R. 3 E., Seward Meridian;
Thence north on the east boundary of T. 16 N., R. 3 E., Seward Meridian, approximately 20 chains to corner No. 4, a meander corner at the line of mean high water on the left bank of the Knik River;
Thence northwesterly along the line of mean high water on the left bank of the Knik River approximately 501 chains to corner No. 1, the point of beginning.
The area described contains approximately 3,850 acres.

2. Subject to valid existing rights, the land described above is hereby opened

to selection by the State of Alaska under either the Alaska Statehood Act of July 7, 1958, 48 U.S.C. prec. 21 (1988), or section 906(b) of the Alaska National Interest Lands Conservation Act, 43 U.S.C. 1635(b) (1988).

3. The State of Alaska selections made under section 906(e) of the Alaska National Interest Lands Conservation Act, 43 U.S.C. 1635(e) (1988), become effective without further action by the State upon publication of this public land order in the Federal Register, if such land is otherwise available. Land not conveyed to the State will be subject to the terms and conditions of withdrawals of record.

Dated: October 15, 1990.

Dave O'Neal,

Assistant Secretary of the Interior.

43 CFR Public Land Order 6806

[OR-943-00-4130-12; GPO-211; OR-19146]

Partial Revocation of the Secretarial Order Dated February 26, 1927; Oregon

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes a Secretarial order insofar as it affects 115.47 acres of land withdrawn for the Bureau of Land Management's Powersite Classification No. 170. The Bureau of Land Management has determined that the land is no longer needed for the purpose for which it was withdrawn. The revocation action is needed to permit disposal of the land through land exchange. This action will open the land to surface entry. The land has been and remains open to mineral leasing and is temporarily closed to mining by a land exchange proposal.

EFFECTIVE DATE: November 26, 1990.

FOR FURTHER INFORMATION CONTACT: Champ Vaughan, BLM Oregon State Office, P.O. Box 2965, Portland, Oregon 97208, 503-231-6905.

By virtue of the authority vested in the Secretary of the Interior by section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Secretarial Order dated February 26, 1927, is hereby revoked insofar as it affects the following described land:

Willamette Meridian

T. 7 S., R. 4 E.,
Sec. 6, lots 6 and 7.

The area described contains 115.47 acres in Clackamas County.

2. The State of Oregon has waived its preference right for public highway rights-of-way or material sites as provided by the Federal Power Act of June 10, 1920, 16 U.S.C. 818.

3. At 8:30 a.m., on November 26, 1990, the above described land will be opened to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, any segregations of record, and the requirements of applicable law. All valid applications received at or prior to 8:30 a.m., on November 26, 1990, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

Dated: October 16, 1990.

Dave O'Neal,

Assistant Secretary of the Interior.

[OR-943-00-4130-12; GPO-378; WASH-01484]

Partial Revocation of Public Land Order No. 2434; Washington

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order partially revokes a public land order insofar as it affects approximately 2 acres of National Forest System land withdrawn for use as a roadside zone. The land is no longer needed for this purpose and the revocation is needed to permit disposal of the land through land exchange. This action will open the land to such forms of disposition as may by law be made of National Forest System land. The land is temporarily closed to mining by a Forest Service exchange proposal. The land has been and will remain open to mineral leasing.

EFFECTIVE DATE: November 26, 1990.

FOR FURTHER INFORMATION CONTACT: Linda Sullivan, BLM Oregon State Office, P.O. Box 2965, Portland, Oregon 97208, 503-280-7171.

By virtue of the authority vested in the Secretary of the Interior by section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. Public Land Order No. 2434 is hereby revoked insofar as it affects the following described land:

Willamette Meridian

Snoqualmie National Forest

T. 17 N., R. 14 E.,
Sec. 28, that portion of lot 3 lying within 330 feet of the centerline of State Highway 410.

The area described contains approximately 2 acres in Yakima County.

2. At 8:30 a.m., on November 26, 1990, the land shall be opened to such forms of disposition as may by law be made of National Forest System land, subject to valid existing rights, the provisions of existing withdrawals, other segregations of record, and the requirements of applicable law.

Dated: October 17, 1990.

Dave O'Neal,

Assistant Secretary of the Interior.

43 CFR Public Land Order 6808

[CO-930-01-4214-10; COC-48957]

Withdrawal of National Forest System Land for Protection of Recreational Values; Colorado

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order withdraws approximately 878 acres of National Forest System land from mining for a period of 50 years for the protection of existing and planned recreational facilities at the Buttermilk Ski Area. The land has been and remains open to such forms of disposition as may by law be made of National Forest System land and to mineral leasing.

EFFECTIVE DATE: October 25, 1990.

FOR FURTHER INFORMATION CONTACT: Doris E. Chelius, BLM Colorado State Office, 2850 Youngfield Street, Lakewood, Colorado 80215-7076, 303-239-3706.

By virtue of the authority vested in the Secretary of the Interior by section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. Subject to valid existing rights, the following described National Forest System land, which is under the jurisdiction of the Secretary of Agriculture, is hereby withdrawn from location and entry under the United States mining laws (30 U.S.C. ch. 2) to protect existing and planned recreational values which are a part of the Buttermilk Ski Area:

Sixth Principal Meridian

White River National Forest

T. 10 S., R. 85 W.,
Sec. 6, lot 8;
Sec. 10, lots 12, 14, 15, 17, 18, and 22, and SE¼;
Sec. 15, lots 1, 2, 3, and 4, N½NE¼, N½SW¼NE¼, N½SW¼SW¼NE¼, N½NW¼SE¼NE¼, and N½NW¼S W¼;
Sec. 16, lots 1, 2, 3, and 4, E½NW¼NE¼, SW¼NE¼, and NE¼NW¼SE¼.

The area described contains approximately 577.81 acres of National Forest System land in Pitkin County.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of National Forest System land under lease, license, or permit, or governing the disposal of its mineral or vegetative resources other than under the mining laws.

3. This withdrawal will expire 50 years from the effective date of this order unless, as a result of a review conducted before the expiration date pursuant to section 204(f) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714(f), the Secretary determines that the withdrawal shall be extended.

Dated: October 18, 1990.

Dave O'Neal,

Assistant Secretary of the Interior.

Withdrawal of National Forest System Lands in Support of a Land Exchange Program; Arizona

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order withdraws, for a period of 20 years, 2,065.06 acres of National Forest System lands from location and entry under the general mining laws in support of the Forest Service's land exchange program. The Forest Service desires to obtain the more remote lands within the forest boundaries, and the town of Payson has a need for a land base which will allow for growth and expansion. The lands have been and will remain open to mineral leasing subject to regulations found in 43 CFR 3101.7.

EFFECTIVE DATE: October 25, 1990.

FOR FURTHER INFORMATION CONTACT: John Mezes, BLM, Arizona State Office, P.O. Box 16563, Phoenix, Arizona 85011, 602-640-5509.

By virtue of the authority vested in the Secretary of the Interior by section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. Subject to valid existing rights, the following described National Forest System lands are hereby withdrawn from location and entry under the United States mining laws (30 U.S.C. ch. 2) to protect the lands for forest exchange purposes:

Gila and Salt River Meridian

T. 10 N., R. 10 E.,
Sec. 5, Lots 3 and 4, S½NW¼, N½NW¼SW¼, SW¼NW¼SW¼;
Sec. 6, Lots 1 and 2, S½NE¼, N½SE¼, S½S½SW¼SE¼, N½SW¼SE¼SE¼, S½S½SE¼SE¼, NW¼SE¼SE¼SE¼;
Sec. 7, NE¼;
Sec. 8, SW¼NE¼NW¼, NW¼NW¼NW¼, S½NW¼NW¼, SW¼NW¼, W½SE¼NW¼, N½SE¼;
Sec. 9, Lots and 6, E½SW¼NW¼, S½NW¼SE¼NW¼, SW¼SE¼NW¼, W½NE¼SW¼, NW¼SW¼, SW¼SW¼, NW¼SE¼SW¼, S½SE¼SW¼;
Sec. 10, N½SW¼.
T. 11 N., R. 10 E.,
Sec. 27, N½SE¼;
Sec. 28, Lots 2, 3, 6, 7, 8 and 9, S½SW¼;
Sec. 31, Lots 1, 5, 6, 11 and 12, NW¼NE¼;
Sec. 32, Lots 1, 2, 3, 4, 8, 9, 10, 11, 14, 15, 16, and 17, NW¼NE¼;
Sec. 33, Lots 10, 11, and 13; Tracts 38, 39, and 40.

The areas described aggregate 2,065.06 acres of National Forest System lands in Gila County, Arizona.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the National Forest System lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

3. This withdrawal will expire 20 years from the effective date of this order unless, as a result of a review conducted before the expiration date pursuant to section 204(f) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714(f), the Secretary determines that the withdrawal shall be extended.

Dated: October 19, 1990.

Dave O'Neal,

Assistant Secretary of the Interior.

BILLING CODE 4310-32-M

43 CFR Public Land Order 6811

[WY-930-4214-10; WYW 112132]

Transfer of Federal Mineral Estate for the Spook Site; Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order permanently transfers 80 acres of Federal mineral estate to the Department of Energy in accordance with the terms of the Uranium Mill Tailings Remedial Action Amendments Act of 1988.

EFFECTIVE DATE: October 25, 1990.

FOR FURTHER INFORMATION CONTACT: Tamara J. Gertsch, Bureau of Land Management, Wyoming State Office, 2515 Warren Avenue, Cheyenne, Wyoming 82001, 307-775-6115.

By virtue of the authority vested in the Secretary of the Interior by section 108 of the Uranium Mill Tailings Radiation Control Act of 1978, as amended by the Uranium Mill Tailings Remedial Action Amendments Act of 1988, 42 U.S.C. 7916(2)(F), it is ordered as follows:

1. Subject to valid existing rights, the following described Federal mineral estate is hereby permanently transferred to the Department of Energy for the Spook Site, and as a result of this transfer, this mineral estate is no longer subject to the operation of the mining and mineral leasing laws:

Sixth Principal Meridian

T. 38 N., R. 73 W.,
Sec. 27, W½W½SW¼NW¼;
Sec. 28, SE¼NE¼, N½NE¼SE¼, SE¼NE¼SE¼.

The area described contains 80 acres of Federal mineral estate in Converse County.

2. The transfer of the above described Federal mineral estate to the Department of Energy vests in that Department the full management jurisdiction, responsibility, and liability for such subsurface estate and all activities conducted thereon, except as provided in paragraph 3.

3. The Secretary of the Interior shall retain the authority to administer any existing claims, rights, and interests in this land and in the subsurface mineral estate that were established before the effective date of the transfer.

Dated: October 19, 1990.

Dave O'Neal,

Assistant Secretary of the Interior.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 89-507; RM-6945]

Radio Broadcasting Services; Breaux Bridge, LA

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document substitutes Channel 243C3 for Channel 243A at Breaux Bridge, Louisiana, and modifies the construction permit for Channel 243A to specify operation on Channel 243C3. The Notice was issued in response to a petition filed by JBC, Inc. *See* 54 FR 48655, November 11, 1989. The coordinates for Channel 243C3 are 30-13-00 and 92-05-00.

EFFECTIVE DATE: December 6, 1990.

FOR FURTHER INFORMATION CONTACT: Kathleen Scheuerle, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Report and Order, MM Docket No. 89-507, adopted September 27, 1990, and released October 22, 1990. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, International Transcription Service, (202) 857-3800, 2100 M Street NW., suite 140, Washington, DC 20037.

BILLING CODE 6712-01-M

47 CFR Part 73

[MM Docket No. 89-364; RM-6796, RM-7158]

Radio Broadcasting Services; Plantersville and Pawley's Island, SC

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission, at the request of Carocom Media, dismisses its request to allot Channel 253A to Plantersville, South Carolina, and instead allots Channel 253A to Pawley's Island, South Carolina, as its second local FM service. *See* 54 FR 35706, published August 29, 1989. Channel 253A can be allotted to Pawley's Island in compliance with the Commission's minimum distance separation requirements with a site restriction of 6.7 kilometers northeast to avoid a short-spacing to Station WWKT-FM, Channel 252A, Kingstree, South Carolina, and to the pending applications for Channel 255C2 at McClellanville, South Carolina. The coordinates for this allotment are North Latitude 33-29-18 and West Longitude 79-05-32. With this action, this proceeding is terminated.

DATES: Effective December 6, 1990. The window period for filing applications will open on December 7, 1990, and close on January 7, 1991.

FOR FURTHER INFORMATION CONTACT: Leslie K. Shapiro, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Report and Order, MM Docket No. 89-364, adopted September 27, 1990, and released October 22, 1990. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcription Service, (202) 857-3800, 2100 M Street NW., suite 140, Washington, DC 20037.

BILLING CODE 6712-01-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

RIN 1018-AB26

Endangered and Threatened Wildlife and Plants; Endangered Status Determined for the Fish Cahaba Shiner (Notropis Cahabae)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: The Service determines the Cahaba shiner (*Notropis cahabae*) to be an endangered species. The Cahaba shiner is found only in Alabama in about 60 miles (formerly 76 miles) of the Cahaba River in Perry, Bibb and Shelby Counties, with the stronghold of the population restricted to 15 river miles. The Cahaba shiner is vulnerable to adverse habitat alteration from residential, industrial, and commercial development because of its restricted range and occurrence in small, scattered populations.

EFFECTIVE DATE: November 28, 1990.

ADDRESSES: The complete file for this rule is available for inspection, by appointment, during normal business hours at the U.S. Fish and Wildlife Service, 6578 Dogwood View Parkway, Suite A, Jackson, Mississippi 39213.

FOR FURTHER INFORMATION CONTACT: Mr. James H. Stewart at the above address (601/965-4900 or FTS 490-4900).

SUPPLEMENTARY INFORMATION:

Background

The Cahaba shiner (*Notropis cahabae*) is a small delicate bodied, silvery colored shiner about 2.5 inches (6.35 centimeters) long with a peach colored narrow stripe over the dark lateral stripe. The species was described in 1989 (Mayden and Kuhajda 1989). The Cahaba shiner differs from the mimic shiner (*N. volucellus*) (a closely related species) by a lateral stripe that does not expand before the caudal spot, the absence of a predorsal dark blotch, the dorsal caudal peduncle scales are uniformly dark and pigmented and predorsal scales broadly outlined and diffuse (Mayden and Kuhajda 1989).

The Cahaba shiner has been collected in Alabama in about 76 miles (121 km) of the Cahaba River from 3 miles (4.8 km) northeast of Helberger in Perry County to Highway 52 bridge near Helena in Shelby County (Ramsey 1982, Pierson *et al.* 1989a). Ramsey (1982) speculates that the Cahaba shiner had a wider historical distribution that possibly included the Cocoa River. The present known range of about 60 miles (96 km) extends from 3 miles (4.8 km) northeast of Helberger (Pierson *et al.* 1989a) to 3.75 miles (2.34 km) above Booth Ford (Howell *et al.* 1982). This range reduction of over 20 percent occurred between 1969 and 1977 (Ramsey 1982). Further reductions in total populations are evident, with the stronghold for the species now limited to about 15 river miles between the Fall Line and Piper Bridge or 20 percent of the historic range.

The habitat of the Cahaba shiner appears to be large shoal areas of the main channel of the Cahaba River. The species is found in the quieter waters less than 1.64 feet (0.5 meters) deep just below swift riffle areas (Howell *et al.* 1982). The Cahaba shiner seems to prefer patches of sandy substrate at the edge of or scattered throughout gravel beds or downstream of larger rocks and boulders. Many different types of habitats have been surveyed by ichthyologists to identify Cahaba shiner habitat. Ramsey (1982) searched large tributaries of the Cahaba River and small rivers of the upper Mobile River system. Howell *et al.* (1982) stated that the Cahaba shiner did not occupy deep water habitats or any other sites other than that of large, shallow shoals. The Cahaba shiner is found in streams with a stable riparian zone and water quality parameters of 11° to 28°C, 5 to 10 milligrams/liter dissolved oxygen, 7.2 to 8.9 pH, and 4 to 375 Jackson Turbidity Units. It probably requires a river with sufficient small crustaceans, insect larvae, and algae for food, similar to its close relative, the mimic shiner (Gilbert and Burgess 1980).

The Cahaba shiner seems consistent with other fish in the mimic shiner group, spawning much later than do other North American cyprinids. They appear to spawn from late May through June and seem to have a more limited spawning period than do many fish which reach a rather small adult size. Pre-spawning aggregations have been observed at the tail of a long pool, in a moderate current at 1.3 to 2.0 feet (0.39 to 0.61 meters) depth, just before the current quickened at the head of the main riffle (Ramsey 1982).

Of 56 collection records from 1936 through 1985, 22 records were collections of single specimens and 20 other records were collections of less than 15 specimens. These few collections resulted from at least 280 collections of 40,000 specimens of fish using nine different techniques over a 27 year period (Howell *et al.* 1982, Ramsey 1982; Stiles 1978; Howell, personal communication 1988; Pierson, *in litt.* 1984; Stiles, personal communication 1985). In addition, Ramsey (1982) used six associates of the Cahaba shiner as indicator species to identify collections for examination from over nine river systems in at least seven museums. No Cahaba shiners were found in any of these collections.

In more recent sampling, Stiles (1990) collected at known population sites for the Cahaba shiner in 1989 and 1990. In February and March 1990, sampling at the mouths of tributaries under the most favorable collecting conditions, he captured from one to nine Cahaba shiners at three of four sites. During September and October 1989, he sampled six sites on the mainstem, including the usually productive site at Bibb County Highway 27, and did not capture any Cahaba shiners. A series of six collections were made near Little Ugly Creek during January to March 1990 under conditions and at sites that have yielded the largest numbers of Cahaba shiners. From two to six Cahaba shiners were captured in five of the six collections. In comparing the results of Stiles' 1989–90 sampling with historic collections, the decreasing population trend is evident. Within the stronghold of the species, Stiles captured an average of 3.2 Cahaba shiners as compared with an average of 38.5 during the period of 1981–83. The ratio of Cahaba shiners to the closely related and more widespread mimic shiner in the earlier sampling was about 1 to 1. In Stiles' recent survey, the ratio was about 16 mimic shiners to each Cahaba shiner. In addition to the change in ratio, the abundance of both species has decreased, with the Cahaba shiner possibly the less adaptable of the two species.

The limited range, scattered populations, and low numbers of the Cahaba shiner have been known since its discovery (Gilbert 1972, Ramsey *et al.* 1972, Ramsey 1978, Stiles 1978, Howell *et al.* 1982, Ramsey 1982, Ramsey 1982). O'Neil (1983) and the Environmental Impact Statement for the Cahaba River Wastewater Facilities, Jefferson, Shelby, and St. Clair Counties, Alabama (U.S. Environmental Protection Agency 1978) identified past, present, and future water quality problems in the Cahaba River. Water quality impacts have apparently extirpated the blue shiner (*N. caeruleus*) from the Cahaba River (Pierson and Krotzer 1987) and reduced the historic range of the Cahaba shiner by over 20 percent. The Cahaba shiner appears to have specialized habitat requirements and is vulnerable to adverse changes in its environment.

A proposal to list the Cahaba shiner as endangered was published in the Federal Register on November 29, 1977 (42 FR 60765). A notice that extended the comment period and provided a date for a public hearing was published on February 6, 1978 (43 FR 4672). Following the public hearing on March 15, 1978, the Service published a critical habitat correction and again extended the comment period on April 7, 1978 (43 FR 14697). The 1978 Endangered Species Act Amendments required the withdrawal of any rule that was not finalized within 1 year of the Amendments' enactment. In accordance with the Amendments, the still pending proposal to list the Cahaba shiner was withdrawn, effective November 29, 1978, and announced in the Federal Register on January 24, 1980 (45 FR 5762). Among new information that has been received since the proposal was withdrawn are two studies contracted by the Service. Dr. Mike Howell (Howell *et al.* 1982) was contracted to survey the Cahaba River for this species from Booth Ford to Trussville. The Alabama Geological Survey, under contract, conducted an historical water quality analysis of the Cahaba River above Centreville (O'Neil 1983). Other data received since the 1977 proposal are status reports by Ramsey (1982), Stiles (1978) and Pierson *et al.* (1989a, 1989b). The Cahaba shiner was again proposed as endangered in the Federal Register (55 FR 10023) on March 19, 1990. A notice of public hearing and reopening of the comment period was published in the Federal Register (55 FR 24133) on June 14, 1990, and the public hearing was held on July 10, 1990.

A petition dated January 22, 1990, was received by the Service from Mr. Ned Mudd, Jr., requesting that the Service protect the Cahaba shiner as an endangered species and also designate critical habitat. However, the petition was not accepted since it represented a request for action on which the Service had in essence already reached a decision, as reflected in the content of this final rule.

Summary of Comments and Recommendations

In the March 19, 1990, proposed rule and associated notifications, all

interested parties were requested to submit factual reports or information that might contribute to the development of a final rule. The comment period was reopened and extended until July 20, 1990, to accommodate the public hearing. Appropriate Federal and State agencies, county governments, scientific and conservation organizations, and other interested parties were contacted and requested to comment. A newspaper notice was published in the *Montgomery Advertiser* on April 6, 1990, and the *Birmingham News* on April 8, 1990. The newspaper notice of the public hearing and reopening of the comment period was published in the *Birmingham News* on June 24, 1990. A total of 455 comments and a petition with 229 signatures were received on the proposed rule. Two Federal agencies commented, with one in support and one expressing no position. Two State agencies commented in support of the proposed rule. There were six comments from local government agencies expressing concerns about the proposed rule, but none opposed it. Seven comments were received from conservation organizations in support of the rule. Four professional ichthyologists commented in support of the proposed rule. Thirty individuals commented on the need to protect the Cahaba River without specifically mentioning the Cahaba shiner. The remaining 404 comments were from individuals in support of the proposed rule as was the petition with 229 signatures.

A public hearing was requested by the Environmental Economics Committee of the Birmingham Chamber of Commerce, the Birmingham Water Works and Sewer Board, and the Jefferson County Commission. The hearing was held at the Dwight Beeson Hall Auditorium on the campus of Samford University, Birmingham, Alabama, on July 16, 1990, with 83 attendees. Comments were received from 25 individuals following a statement by the Service. Representatives from one State and two local government agencies commented without expressing a position on the proposed rule. Fifteen conservation organization representatives, six individuals and one professional ichthyologist commented in support of the proposed rule. A question and answer session resulted in only three questions, with only one of these pertaining directly to the Cahaba shiner.

Written comments and oral statements presented at the public hearing and received during the comment periods are covered in the following summary. Comments of a similar nature or point are grouped into a number of general issues. These issues and the Service's response to each, are discussed below.

Issue 1: The Cahaba shiner warrants emergency listing. Response: Based upon all available information, the Service does not believe the Cahaba shiner requires emergency listing. There has been no data provided to the Service to indicate this species is in immediate danger of extinction. The shiner is surviving in low numbers in portions of its historical range, as it has over the past decade or more. It is expected to remain relatively stable for the immediate future. This negates the need for emergency protection.

Issue 2: List the Cahaba shiner as a threatened species. Response: Based upon communication with the Alabama Wildlife Federation, these commenters were using language provided to them in error. According to the Federation, the intent of the commenters was to list the species as proposed, rather than downlist it. Endangered status was chosen for reasons discussed elsewhere in this rule.

Issue 3: Critical habitat should be designated. Response: The basis for not determining critical habitat is discussed in that section.

Issue 4: Some data relative to sewage treatment plants is outdated. Response: The Service has corrected the data in this rule based upon information provided by various commenters.

Issue 5: Improve water quality standards for the Cahaba River. Response: Water quality standards are determined by the Environmental Protection Agency and various State agencies.

Summary of Factors Affecting the Species

After a thorough review and consideration of all information available, the Service has determined that the Cahaba shiner should be classified as an endangered species. Procedures found at section 4(a)(1) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*) and regulations (50 CFR part 424) promulgated to implement the listing provisions of the Act were followed. A species may be determined to be an endangered or threatened species due to one or more of the five factors described in section 4(a)(1). These factors and their application to the Cahaba shiner (*Notropis cahabae*) are as follows:

A. *The present or threatened destruction, modification or curtailment of its habitat or range.* Degradation of water quality in the Cahaba River has and continues to have the greatest adverse impact to the Cahaba shiner. Howell *et al.* (1982), during their study of the upper Cahaba River, observed adverse impacts to water quality from the Cahaba and Patton Creek Sewage Treatment Plants, limestone quarries on Buck Creek, and strip-mining in the area of Piney Woods Creek and Booth Ford. Historic populations of the Cahaba shiner have been seriously affected by urbanization, sewage pollution, and strip-mining activities in the upper Cahaba River Basin. Observations in the Howell *et al.* (1982) report and other reports that increased pH levels from limestone quarries and high inorganic nitrogen levels are apparently not adversely affecting the water quality of the Cahaba River and the Cahaba shiner have been demonstrated to be incorrect. This is evidenced by the continued decrease in the range and population of the Cahaba shiner.

Ramsey (1982) in his study of the Cahaba River observed an increase in blue-green algae, an indicator of water quality degradation, at several localities since he began collecting on the Cahaba River in 1962. One location in particular, just below the Shelby County Highway 52 bridge, has been adversely affected by a diminution of riverweed, apparently displaced by a substantial growth of blue-green algae on much of the rock and rubble substrate. This has resulted in the extirpation of Cahaba shiners, goldline darters, and blue shiners from this area since 1962. The effect on the fauna of water rich in dissolved nutrients can be magnified in still pools during low flows and high temperatures when dissolved oxygen drops to low levels. Virtually all of the water flow in the Cahaba River below the Cahaba Sewage Treatment Plant during low flows consists of treated sewage effluent until augmented by tributaries downstream.

Siltation from construction, agriculture, forestry, and strip-mining activities can have an adverse effect on water quality. Recent fish collections in the Cahaba River have shown a significant decrease in species diversity and numbers of specimens with an apparent increase in siltation (Howell *et al.* 1982, Ramsey 1982, Pierson and Krotzer 1987, Pierson *et al.* 1989a, Stiles 1990). Water quality degradation has apparently contributed to the extirpation of the blue shiner from the Cahaba River and the reduction in range and population of the Cahaba shiner. Collections at Booth Ford have shown a significant decrease in species diversity and numbers of specimens (Stiles 1978).

Because of the number of sewage treatment plants within the Cahaba River system, chlorination could have an

adverse impact on the Cahaba shiner. Observations by Ramsey (1982) of Cahaba shiners in aquaria indicate it is possibly more sensitive to chlorine than other *Notropis* species. There are efforts ongoing to dechlorinate some wastewater prior to release. This will undoubtedly be beneficial to the Cahaba shiner, provided the species used for toxicity monitoring are similarly susceptible to chlorine. In that regard, the use of the fathead minnow (*Pimephales promelas*) as the toxicity test species is questionable. The fathead minnow is acknowledged as a hardy species and likely more tolerant to toxicity than the Cahaba shiner. For the dechlorination effort to have maximum benefit to the Cahaba shiner, a more appropriate test species would be the mimic shiner.

The Environmental Impact Statement for the Cahaba River Wastewater Facilities, Jefferson, Shelby, and St. Clair Counties, Alabama, (U.S. Environmental Protection Agency 1979) identified and projected water quality problems in the Cahaba River. Relatively high levels of total inorganic nitrogen and total phosphorus were found at several locations through the basin. Algal biomass, increased production, high diurnal oxygen fluctuations, and decreased oxygen were found at lower water depths. The U.S. Environmental Protection Agency (EPA) found there was not enough water flow in the Cahaba River to handle sewage needs and that alternative water supplies to increase flow could have an adverse effect on the biota.

At the time of the EPA study there were 4 municipal wastewater treatment plants and 13 private wastewater treatment systems in the study area. The proposed rule for listing the Cahaba shiner stated that the Patton Creek Sewage treatment plant contributes nutrients to and affects the Cahaba River below the mouth of Patton Creek. That was an error. Sewage flow from the Patton Creek plant was diverted to the Cahaba River plant in December 1987, and the Patton Creek plant was shutdown. The Cahaba River plant has been upgraded to tertiary treatment. While this is certainly an improvement, the upgrade of the Cahaba River plant has not eliminated all the problems. Sewage that has received tertiary treatment is still high in nutrients and can contribute to eutrophication of an aquatic system. This plant is designed for 12 million gallons per day and receives an average of 9 million gallons per day. During periods of heavy inflows, i.e. rainfall, etc., the capacity of the plant is exceeded and sewage bypasses some treatment stages (Leigh Pegues, Alabama Department of Environmental Management, *in litt.*). Since the improvements in December 1987, there have been 14 reportable periods of time when some sewage bypassed the treatment at the Cahaba River plant. These reportable periods were of 1 to 14 days duration with an estimated bypass of 520 million gallons of raw sewage. This periodic addition of organic matter to the Cahaba River from the Cahaba Wastewater Treatment Plant and other smaller wastewater treatment systems continues many of the problems identified by the EPA report, albeit at a reduced scale. Further EPA findings included 55 coal and iron surface mined areas, 22 deep mines, and 15 open pit mines and mine tailings that may contribute to siltation of the Cahaba River. While some of the EPA findings have been corrected, the Cahaba shiner has declined as a result of these impacts and continues to be affected by many of them.

Methane gas extraction is of considerable interest in the Cahaba River Basin. The Alabama Department of Environmental Management (ADEM) has issued three permits for the discharge of wastewater into the Cahaba River from methane gas wells. One of these permits has been returned to ADEM as a result of a permit violation, and neither of the other permittees are currently discharging wastewater (Tim Forester, Alabama Department of Environmental Management, pers. comm. 1990). Available information indicates the Cahaba shiner can tolerate the permitted chloride levels. However, the potential for the discharge of wastewater from these wells in excess of permitted levels and the impact on the Cahaba shiner is of concern. The impact of other pollutants that may be in wastewater from methane gas wells is unknown.

B. *Overutilization for commercial, recreational, scientific, or educational purposes.* According to Ramsey (1982), incidental take and occasional collecting are not considered to have a bearing on the Cahaba shiner's status. However, when a population is stressed by other factors, the removal of individuals under any circumstances becomes more significant.

C. *Disease or predation.* No adverse impacts from this factor are documented in the literature. However, the Cahaba shiner is a prey species for larger fish and when the population is stressed by other factors, the removal of individuals by predation or disease becomes more significant.

D. *The inadequacy of existing regulatory mechanisms.* The species is not given any special consideration under Federal environmental law when project design and potential impacts are considered. The determination of endangered status will provide that special consideration. Scientific Collectors Permits are required by the State of Alabama to collect Cahaba shiners for scientific purposes. Enforcement of this requirement is difficult.

E. *Other natural or manmade factors affecting its continued existence.* Approximately 700 specimens (one collection of 370) of the Cahaba shiner were collected from 1958 through 1985 in 56 collections (Ramsey 1982; Howell *et al.* 1982; Howell, personal communication 1982; Stiles, personal communication 1985; Pierson, *in litt.*). Of these 56 collections, 22 were of single specimens and all but 4 of the remaining collections contained fewer than 15. These low numbers of specimens and few successful collection localities illustrate the species' low abundance despite intensive collection effort. Stiles' (1990) more recent collecting documents a continuing decline in the population of this uncommon species.

The low numbers, scattered populations, restricted range, and unusually limited spawning interval (Ramsey 1982) of the Cahaba shiner make this species especially susceptible to any natural or manmade factors that adversely affect it. As the range is reduced, the populations become more scattered and isolated. This isolation increases the difficulty of successful reproduction and lessens the probability of genetic exchange between populations. As genetic diversity is reduced, the ability of a species to adapt to adversity is also reduced. As successful reproduction becomes more difficult, the susceptibility to environmental perturbation increases. The reduced population of the Cahaba shiner in those areas that have historically produced good numbers may be the effect of increased siltation and other environmental degradation acting synergistically with consecutive years of abnormally low rainfall to impact the ability of this species to reproduce (Stiles 1990).

The Service has carefully assessed the best scientific and commercial information available regarding the past, present, and future threats faced by this species in determining to make this rule final. Based on this evaluation, the preferred action is to list the Cahaba shiner as endangered, defined under the Act as being in danger of extinction

throughout all or a significant portion of its range. This preferred action is chosen due to the restricted range, scattered populations, low numbers, unusual biological traits, and water quality problems. Critical habitat is not designated for reasons discussed in that section.

Critical Habitat

Section 4(a)(3) of the Act, as amended, requires that to the maximum extent prudent and determinable, the Secretary may designate any habitat of a species that is considered to be critical habitat at the time a species is determined to be endangered or threatened. The Service finds that designation of critical habitat is not presently prudent for this species. All involved Federal and State agencies are aware of the existence of this species in the Cahaba River and the importance of protecting its habitat. The designation of critical habitat will not provide significant net benefits to the Cahaba shiner above and beyond species listing when combined Federal and State protections are considered. Any activity in the Cahaba River Basin that is within or upstream of the range of the Cahaba shiner that adversely affects this species will be carefully reviewed. Protection of this species' habitat will be addressed through the recovery process and through the Section 7 jeopardy standard.

Available Conservation Measures

Conservation measures provided to species listed as endangered or threatened under the Endangered Species Act include recognition, recovery actions, requirements for Federal protection, and prohibitions against certain practices. Recognition through listing encourages and results in conservation actions by Federal, State, and private agencies, groups, and individuals. The Endangered Species Act provides for possible land acquisition and cooperation with the States and requires that recovery actions be carried out for all listed species. The protection required of Federal agencies and the prohibitions against taking and harm are discussed, in part, below.

Section 7(a) of the Act, as amended, requires Federal agencies to evaluate their actions with respect to any species that is proposed or listed as endangered or threatened and with respect to its critical habitat, if any is being designated. Regulations implementing this interagency cooperation provision of the Act are codified at 50 CFR part 402. Section 7(a)(2) requires Federal agencies to ensure that activities they authorize, fund, or carry out are not likely to jeopardize the continued existence of a listed species or to destroy or adversely modify its critical habitat. If a Federal action may affect a listed species or its critical habitat, the responsible Federal agency must enter into formal consultation with the Service.

Federal involvement is expected to include the Environmental Protection Agency in consideration of the Clean Water Act's provision for pesticides registration, and waste management actions. The Corps of Engineers will include this species in project planning and operation and during the permit review process. The Federal Highway Administration will consider impacts of bridge and road construction at points where known habitat is crossed. Urban development within the drainage basin may involve the Farmers Home Administration and their loan programs.

The Act and implementing regulations found at 50 CFR 17.21 set forth a series of general prohibitions and exceptions that apply to all endangered wildlife. These prohibitions, in part, make it illegal for any person subject to the jurisdiction of the United States to take (includes harass, harm, pursue, hunt, shoot, wound, kill, trap, or collect; or to attempt any of these), import or export, ship in interstate commerce in the course of commercial activity, or sell or offer for sale in interstate or foreign commerce any listed species. It also is illegal to possess, sell, deliver, carry, transport, or ship any such wildlife that has been taken illegally. Certain exceptions apply to agents of the Service and State conservation agencies.

Permits may be issued to carry out otherwise prohibited activities involving endangered wildlife species under certain circumstances. Regulations governing permits are at 50 CFR 17.22 and 17.23. Such permits are available for scientific purposes, to enhance the propagation or survival of the species, and/or for incidental take in connection with otherwise lawful activities.

National Environmental Policy Act

The Fish and Wildlife Service has determined that an Environmental Assessment, as defined under the authority of the National Environmental Policy Act of 1969, need not be prepared in connection with regulations adopted pursuant to section 4(a) of the Endangered Species Act of 1973, as amended. A notice outlining the Service's reasons for this determination was published in the Federal Register on October 25, 1983 (48 FR 49244).

Regulation Promulgation

PART 17—[AMENDED]

Accordingly, part 17, subchapter B of chapter I, title 50 of the Code of Federal Regulations, is amended as set forth below:

1. The authority citation for part 17 continues to read as follows:

Authority: 16 U.S.C. 1361–1407; 16 U.S.C. 1531–1543; 16 U.S.C. 4201–4245, Public Law 99–625, 100 Stat. 3500, unless otherwise noted.

2. Amend § 17.11(h) by adding the following, in alphabetical order under "FISHES", to the List of Endangered and Threatened Wildlife:

§ 17.11 Endangered and threatened wildlife.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 663

[Docket No. 900427-0058]

RIN 0648-AD48

Western Pacific Bottomfish Fisheries

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Final rule.

SUMMARY: NOAA issues this final rule as an addition to the regulations implementing the Fishery Management Plan for the Bottomfish and Seamount Groundfish Fisheries of the Western Pacific Region (FMP). The rule makes it a Federal requirement that catch and effort data for all bottomfish be reported to the State of Hawaii, the Territory of American Samoa, and the Territory of Guam in compliance with the respective laws and regulations of each area. The intended effect of this action is to improve the ability of NMFS, American Samoa, Guam, and Hawaii to monitor all catches of bottomfish and seamount groundfish management unit species (BMUS). This rule will foster cooperative enforcement efforts between NMFS, the U.S. Coast Guard, and the state/territorial enforcement agents to ensure compliance with catch reporting requirements without imposing additional Federal data collection rules.

EFFECTIVE DATE: November 26, 1990.

FOR FURTHER INFORMATION CONTACT: Svein Fougner, Fisheries Management Division, Southwest Region, Terminal Island, California (213-514-6660), or Alvin Katekaru, Pacific Area Office, Honolulu, Hawaii, (808-955-8831).

SUPPLEMENTARY INFORMATION: The bottomfish and seamount groundfish fisheries in the western Pacific are managed by the Fishery Management Plan for the Bottomfish and Seamount Groundfish Fisheries of the Western Pacific Region (FMP). As long as the data collection and catch reporting systems of the State of Hawaii, and the Territories of American Samoa and Guam provide the Secretary of Commerce (Secretary) with adequate statistical information necessary for management, no Federal reports are required of domestic fishermen or processors engaged in the bottomfish and seamount groundfish fisheries of the U.S. Exclusive Economic Zone (EEZ). The proposed rule published on July 3, 1990 (55 FR 27479), explains that the existing systems of the State of Hawaii (mandatory reporting), American Samoa (voluntary reporting at present), and Guam (voluntary reporting at present) are the most comprehensive depositories of catch and effort data available on the BMUS. These local systems have weaknesses due to inadequate reporting of catch information by domestic fishermen. The intended long-term effect of this proposed rule is: (a) To facilitate improved monitoring and assessment of the bottomfish and seamount groundfish fisheries; (b) to evaluate the impacts of possible catch restrictions upon the BMUS within the outside the EEZ; (c) to develop and refine measurable indicators for monitoring the status of stocks of BMUS; and (d) to regulate the domestic fishing fleet to diminish gear conflicts. This action is consistant with the objective of the FMP to improve the data base for future decisions through data reporting requirements and cooperative programs between Federal and state/territorial agencies.

There are no foreseeable environmental or economic effects from implementing this regulatory change because the action is not expected to affect the amount of BMUS harvested, or the species composition of the catch, or the time and location of fishing activity. This is an administrative action which should have no effect on marine resources, ocean and coastal habitats, or public health and safety. No additional Federal reporting requirements will be imposed as long as the data collection and reporting systems operated by the

State and Territories continue to provide the Secretary with statistical information adequate for management. It is the intent of NMFS to build upon existing state, territorial, and NMFS data collection systems to obtain data needed by the Western Pacific Fishery Management Council (Council) to effectively monitor the fisheries. The long-term effects from this action are expected to be a better understanding of bottomfish and seamount fish stocks and fisheries, and an increase in the knowledge necessary to manage the domestic fishery. This action should result in improved compliance by domestic fishermen with state and territorial fish catch reporting requirements.

Public Comments

Comments were received from the Hawaii Department of Land and Natural Resources (DLNR) and the Guam Division of Aquatic and Wildlife Resources supporting the action. No negative comments were received.

Classification

The final rule is published under authority of section 305(g) of the Magnuson Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.* (Magnuson Act) and was prepared at the request of the Council. The Assistant Administrator for Fisheries, NOAA, (Assistant Administrator) has determined that this rule is necessary for the conservation and management of the bottomfish and seamount groundfish resources of the western Pacific region and that it is consistent with the Magnuson Act and other applicable law.

The Assistant Administrator has determined that the final rule falls within a categorical exclusion from the requirements of the National Environmental Policy Act, 42 U.S.C. 4321 *et seq.*, by NOAA Directive 02–10, because it would not result in any significant change from the status quo and because the reporting of landings data is routine with limited potential for affecting the human environment. This action should result in providing an effective means of obtaining better reporting of catches by fishermen in compliance with state and territorial laws and regulations.

The Assistant Administrator also has determined that it is not a major rule requiring a regulatory impact analysis under Executive Order 12291. This action will not have a cumulative effect on the economy of $100 million or more nor will it result in a major increase in costs to consumers, industries, government agencies, or geographical regions. No significant adverse impacts are anticipated on competition, employment, investments, productivity, innovation, or competitiveness of U.S.-based enterprises.

The General Counsel of the Department of Commerce has certified to the Small Business Administration that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act, 5 U.S.C. 603 *et seq.*, because it does not create any additional burdens. As a result, a regulatory flexibility analysis was not prepared.

This final rule does not contain new collection-of-information requirements subject to the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

The Assistant Administrator has determined that this rule will be implemented in a manner that is consistent to the maximum extent practicable with the approved coastal zone management programs of American Samoa, Guam, and Hawaii. This determination was submitted for review to the responsible state and territorial agencies under section 307 of the Coastal Zone Management Act. The agencies failed to comment within the statutory time period.

This final rule does not contain policies with federalism implications sufficient to warrant preparation of a federalism assessment under Executive Order 12612.

List of Subjects in 50 CFR Part 663

Fisheries, Fishing, Reporting and recordkeeping requirements.

Dated: October 19, 1990.

Samuel W. McKeen,

Acting Assistant Administrator for Fisheries, National Marine Fisheries Service.

For the reasons set out in the preamble, 50 CFR part 663 is amended as follows:

PART 663—WESTERN PACIFIC BOTTOMFISH AND SEAMOUNT GROUNDFISH FISHERIES

1. The authority citation for 50 CFR part 663 continues to read as follows:

Authority: 16 U.S.C. 1801 *et seq.*

2. In § 663.4, a new paragraph (c) is added to read as follows:

§ 663.4 Recordkeeping and reporting.

* * * * *

(c) Any person who is required to do so by the applicable State laws and regulations, shall make and/or file any and all reports of bottomfish and seamount groundfish landings, containing all data and in the exact manner, required by the applicable State laws and regulations.

§ 663.6 [Amended]

3. In section 663.6, paragraph (g), "§ 663.11" is revised to read "§ 663.4 (b) and (c)."

§ 663.11 [Removed]

4. Section 663.11 is removed.

[FR Doc. 90-25217 Filed 10-24-90; 8:45 am]
BILLING CODE 3510-22-M

50 CFR Part 685

[Docket No. 900498-0257]

RIN 0648-AD41

Pelagic Fisheries of the Western Pacific Region

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Final rule.

SUMMARY: NOAA issues this final rule as an addition to the regulations implementing the Fishery Management Plan for the Pelagic Fisheries of the Western Pacific Region (FMP). The rule makes it a Federal requirement that catch and effort data for pelagic management unit species (PMUS) be reported to the State of Hawaii, the Territory of American Samoa, and the Territory of Guam in compliance with the respective laws and regulations of each area. The intended effect of this action is to improve the ability of NMFS, American Samoa, Guam, and Hawaii to monitor catch and effort of the PMUS. This rule will foster cooperative enforcement efforts between NMFS, the U.S. Coast Guard, and the state/territorial enforcement agents to ensure compliance with catch reporting requirements without imposing any additional Federal data collection rules.

EFFECTIVE DATE: November 28, 1990.

FOR FURTHER INFORMATION CONTACT: Svein Fougner, Fisheries Management Division, Southwest Region, Terminal Island, California (213–514–6660), or Alvin Katekaru, Pacific Area Office, Honolulu, Hawaii, (808–955–8831).

SUPPLEMENTARY INFORMATION: Fisheries for billfish and associated species in the western Pacific are managed by the Fishery Management Plan for Pelagic Fisheries of the Western Pacific Region. As long as the data collection and catch reporting systems of the State of Hawaii, and the Territories of American Samoa and Guam provide the Secretary of Commerce (Secretary) with adequate statistical information necessary for management, no Federal reports are

required of domestic fishermen or processors engaged in the fisheries of the U.S. Exclusive Economic Zone (EEZ). The proposed rule published on July 3, 1990 (55 FR 27601), explains that the existing data systems of the State of Hawaii (mandatory reporting), American Samoa (voluntary reporting at present) and Guam (voluntary reporting at present) are the most comprehensive depositories of catch and effort data available on billfish and other migratory fish. These local systems have weaknesses due to inadequate reporting of catch information by domestic fishermen. The intended long-term effect of the final rule is: (a) To improve monitoring and assessment of the pelagic fisheries; (b) to evaluate the impacts of possible catch restrictions upon the PMUS within and outside the EEZ; (c) to develop and refine measurable indicators for monitoring the status of stocks of pelagic fish; and (d) to regulate the domestic fishing fleet to diminish gear conflicts. This action is consistent with Objective 2 of the FMP to improve the statistical base for better stock assessments, and for making better decisions to conserve and manage highly migratory resources throughout their range in the Pacific Ocean.

There are no foreseeable environmental or economic effects from implementing this regulatory change, because the action is not expected to affect the amount of PMUS harvested, or the species composition of the catch, or the time and location of fishing activity. This is an administrative action that will have no impact upon marine resources, ocean and coastal habitats, or public health and safety. It is the intent of NMFS to build upon existing state, territorial, and NMFS data collection systems to obtain data needed by the Western Pacific Fishery Management Council (Council) to effectively monitor the pelagic fisheries and achieve the goals and objectives of the FMP. The long-term effects for this action are expected to be a better understanding of pelagic fish stocks and fisheries, and increase in the quality of the knowledge necessary to manage the domestic fisheries. This action should result in improved compliance by domestic fishermen with state and territorial catch reporting requirements.

Public Comments

Comments were received from the Hawaii Department of Land and Natural Resources (DLNR) and the Guam Division of Aquatic and Wildlife Resources supporting the action. DLNR also pointed out a typographical error in the summary (last sentence) section of the proposed rule published on July 3, 1990. The sentence erroneously indicated that additional Federal data collection requirements would be imposed as a result of the proposed action. No negative comments were received.

Classification

The final rule is published under authority of section 305(g) of the Magnuson Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.* (Magnuson Act) and was prepared at the request of the Council. The Assistant Administrator for Fisheries, NOAA, (Assistant Administrator) has determined that this rule is necessary for the conservation and management of the pelagic resources of the western Pacific region and that it is consistent with the Magnuson Act and other applicable law.

The Assistant Administrator has determined that the final rule falls within a categorical exclusion from the requirements of the National Environmental Policy Act, 42 U.S.C. 4321 *et seq.*, by NOAA Directive 02-10, because it would not result in any significant change from the status quo and because the reporting of landings data is routine with limited potential for effect on the human environment.

The Assistant Administrator also has determined that this is not a major rule requiring a regulatory impact analysis under Executive Order 12291. The final rule will not have a cumulative effect on the economy of $100 million or more nor will it result in a major increase in costs to consumers, industries, government agencies, or geographical regions. No significant adverse impacts are anticipated on competition, employment, investments, productivity, innovation, or competitiveness of U.S.-based enterprises.

The General Counsel of the Department of Commerce has certified to the Small Business Administration that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act, 5 U.S.C. 603 *et seq.*, because it does not create any additional burdens. As a result, a regulatory flexibility analysis was not prepared.

This final rule does not contain new collection-of-information requirements subject to the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

The Assistant Administrator has determined that the final rule will be implemented in a manner that is consistent to the maximum extent practicable with the approved coastal zone management programs of American Samoa, Guam, and Hawaii. This determination was submitted for review to the responsible state and territorial agencies under section 307 of the Coastal Zone Management Act. The agencies failed to comment within the statutory time period.

This rule does not contain policies with federalism implications sufficient to warrant preparation of a federalism assessment under Executive Order 12612.

[Docket No. AO-366-A31, etc.; DA-90-029]

Milk in the Georgia and Certain Other Marketing Areas; Hearing on Proposed Amendments to Tentative Marketing Agreement and Orders

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice of public hearing on proposed rulemaking.

In the matter of:

	Marketing area	Docket Nos.
7 CFR Part:		
1007	Georgia	AO-366-A31
1093	Alabama-West Florida	AO-286-A9
1094	New Orleans-Mississippi	AO-103-A61
1096	Greater Louisiana	AO-257-A39
1108	Central Arkansas	AO-242-A41

SUMMARY:

This hearing is being held to consider proposals by five cooperative associations and two dairy processors to amend the above-listed Federal milk marketing orders. A proposal by Dairymen, Inc.; Associated Milk Producers, Inc.; Gulf Coast Dairymen's Association; Gulf Dairy Association; and Southern Milk Sales, Inc., would merge the marketing areas of the Georgia, Alabama-West Florida, New Orleans-Mississippi and Greater Louisiana milk orders into a single marketing area. The provisions of the proposed "Gulf States" order are patterned after the Alabama-West Florida order with some modifications. Such modifications include the producer-handler definition, the use of a seasonal Class III price, and some price restructuring including a reduction in the Class I price of seven cents per hundredweight in southern Louisiana.

Land-O-Sun Dairies, Inc., proposed that producers deliver at least six days' production to pool plants in order to divert milk to nonpool plants as producer milk during the months of seasonally short production. Malone & Hyde Dairy, Nashville, Tennessee proposed a modification of the merged order affecting the zoning of the marketing area, the producer milk definition, and plant location adjustments for handlers. Associated Milk Producers, Inc., proposed that the Central Arkansas order be revised to continue pooling status for a distributing plant located in the marketing area that has greater sales in another order unless the Class I price at such plant location under the other order is greater than the Class I price at such location under the "Gulf States" milk order.

DATES: The hearing will convene at 1 p.m., local time on December 17, 1990.

ADDRESSES: The hearing will be held at the Atlanta Airport Hilton, 1031 Virginia Avenue, Atlanta, GA 30354, (404) 767-9000.

FOR FURTHER INFORMATION CONTACT: Robert F. Groene, Marketing Specialist, USDA/AMS/Dairy Division, Order Formulation Branch, room 2968, South Building, P. O. Box 96456, Washington, DC 20090-6456, (202) 447-2089.

SUPPLEMENTARY INFORMATION: This administrative action is governed by the provisions of sections 556 and 557 of title 5 of the United States Code and, therefore, is excluded from the requirements of Executive Order 12291.

Notice is hereby given of a public hearing to be held at the Atlanta Airport Hilton, 1031 Virginia Avenue, Atlanta, GA 30354, (404) 767-9000, beginnign at 1 p.m., local time on December 17, 1990, with respect to proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the aforesaid specified marketing areas.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreements and to the orders.

Actions under the Federal milk order program are subject to the Regulatory Flexibility Act (Pub. L. 96-354). This Act seeks to ensure that, within the statutory authority of a program, the regulatory and information requirements are tailored to the size and nature of small businesses. For the purposes of the Act, a dairy farm is a "small business" if it has an annual gross revenue of less than $500,000, and dairy products manufacturer is a "small business" if it has fewer than 500 employees. Most parties subject to a milk order are considered as a small business. Accordingly, interested parties are invited to present evidence on the probable regulatory and informational impact of the hearing proposals on small businesses. Also, parties may suggest modifications of these proposals for the purpose of tailoring their applicability to small businesses.

Interested parties who wish to introduce exhibits should provide the Presiding Officer at the hearing with four copies of such exhibits for the Official Record. Also, it would be helpful if additional copies are available for the use of other participants at the hearing.

Proposal No. 1, a proposal to combine the Georgia, Alabama-West Florida, New Orleans-Mississippi and Greater Louisiana marketing areas under one order, raises the issue of whether the provision set forth in that proposal would tend to effectuate the declared policy of the Act if they are applied to the proposed merged marketed area, and, if not, what modifications of the provisions would be appropriate.

The issues raised by proposal No. 1 include whether the declared policy of the Act would tend to be effectuated by:

(a) Merger of one or more of the marketing areas, or any combination of marketing areas for separate or combined orders which include part or all of the areas presently defined in the respective orders; and

(b) Adoption of any of the proposed provisions, or appropriate modifications thereof, for any separate order or any combination of such orders including a review of the appropriate pricing and pooling provisions of the orders whether separate or in any combination.

The proposed merger of orders as specified in Proposal No. 1 also raises

the issue of the appropriate disposition of the producer-settlement funds, marketing service funds, and administrative funds accumulated under the Georgia, Alabama-West Florida, New Orleans-Mississippi and Greater Louisiana milk orders.

List of Subjects in 7 CFR Parts 1007, 1093, 1094, 1096 and 1108

Milk marketing orders.

The authority citation for 7 CFR parts 1007, 1093, 1094, 1096, 1108 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

The proposed amendments, as set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by Dairymen Inc.; Associated Milk Producers, Inc.; Gulf Coast Dairymen's Association; Gulf Dairy Association; and Southern Milk Sales, Inc.:

Proposal No. 1:

Merge the marketing areas of the Georgia (part 1007), Alabama-West Florida (part 1093), New Orleans-Mississippi (part 1094), and Greater Louisiana (part 1096) milk orders to form a "Gulf States" marketing area (part 1093) with terms and provisions as follows:

PART 1093—MILK IN GULF STATES MARKETING AREA

Subpart—Order Regulating Handling

General Provisions

§ 1093.1 General provision.

The terms, definitions, and provisions in part 1000 of this chapter are hereby incorporated by reference and made a part this order.

Definitions

§ 1093.2 Gulf States marketing area.

The "Gulf States marketing area" hereinafter called the "marketing area" means all territory within the boundaries of the following Alabama, Florida, Georgia and Mississippi counties and Louisiana parishes, including all piers, docks, and wharves connected therewith and all craft moored thereat, and all territory occupied by government (municipal, State, or Federal) reservations, installations, institutions, or other similar establishments if any part thereof is within any of the listed counties or parishes:

Zone 1

Alabama Counties

Cherokee, Colbert, Cullman, DeKalb, Franklin, Jackson, Lauderdale, Lawrence, Limestone, Madison, Marion, Marshall, Morgan and Winston.

Georgia Counties

Bartow, Cherokee, Dawson, Floyd, Forsyth, Gilmer, Gordon, Habersham, Hall, Lumpkin, Pickens, Towns, Union, and White.

Mississippi Counties

Alcorn, Benton, Itawamba, Lee, Pontotoc, Prentiss, Tippah, Tishomingo and Union.

Zone 2:

Alabama Counties

Blount, Calhoun, Clay, Cleburne, Etowah, Fayette, Jefferson, Lamar, Randolph, St. Clair, Shelby, Talledega, and Walker.

Georgia Counties

Banks, Barrow, Butts, Carroll, Clarke, Clayton, Cobb, Coweta, DeKalb, Douglas, Elbert, Fayette, Franklin, Fulton, Greene, Gwinnet, Harolson, Hart, Heard, Henry, Jackson, Jasper, Lamar, Lincoln, Madison, Meriwether, Morgan, Newton, Oconee, Oglethorpe, Paulding, Pike, Polk, Putnam, Rockdale, Spalding, Stephens, Taliaferro, Troup, Walton, and Wilkes.

Mississippi Counties

Bolivar, Calhoun, Carroll, Chickasaw, Choctaw, Clay, Coahoma, Grenada, Leflore, Lowndes, Monroe, Montgomery, Oktibbeha, Quitman, Sunflower, Tallahatchie, Webster, and Yalobusha.

Zone 3:

Alabama Counties

Autauga, Bibb, Chambers, Chilton, Coosa, Elmore, Greene, Hale, Lee, Macon, Perry, Pickens, Russell, Talapoosa, and Tuscaloosa.

Georgia Counties

Baldwin, Bibb, Burke, Chattahoochee, Columbia, Crawford, Glascock, Hancock, Harris, Houston, Jefferson, Jones, Macon, Marion, McDuffie, Monroe, Muscogee, Peach, Richmond, Schley, Talbot, Taylor, Twiggs, Upson, Warren, Washington, and Wilkinson.

Mississippi Counties

Attala, Holmes, Humphreys, Noxubee, Washington, and Winston.

Zone 4:

Alabama Counties

Barbour, Bullock, Choctaw, Dallas, Lowndes, Marengo, Montgomery, Sumter, and Wilcox.

Georgia Counties

Ben Hill, Bleckley, Bulloch, Candler, Clay, Crisp, Dodge, Dooly, Effingham, Emanuel, Evans, Jeff Davis, Jenkins, Johnson, Laurens, Lee, Montgomery, Pulaski, Quitman, Randolph, Screven, Stewart, Sumter, Tattnall, Telfair, Terrell, Toombs, Turner, Treutlen, Webster, Wheeler, and Wilcox.

Louisiana Parishes

Bienville, Bossier, Caddo, Caldwell, Claiborne, De Soto, East Carroll, Franklin, Jackson, Lincoln, Madison, Morehouse, Ouachita, Red River, Richland, Tensas, Union, Webster, West Carroll and Winn.

Mississippi Counties

Claiborne, Clarke, Copiah, Hinds, Issaquena, Jasper, Kemper, Lauderdale, Leake, Madison, Neshoba, Newton, Rankin, Scott, Sharkey, Simpson, Smith, Warren, and Yazoo.

Zone 5:

Alabama Counties

Butler, Clarke, Coffee, Conecuh, Covington, Crenshaw, Dale, Geneva, Henry, Houston, Monroe, Pike and Washington.

Georgia Counties

Appling, Atkinson, Bacon, Baker, Berrien, Brantley, Brooks, Bryan, Calhoun, Camden, Charlton, Chatham, Clinch, Coffee, Colquitt, Cook, Decatur, Dougherty, Early, Echols, Glynn, Grady, Irwin, Lanier, Liberty, Long, Lowndes, McIntosh, Miller, Mitchell, Pierce, Seminole, Thomas, Tift, Ware, Wayne, and Worth.

Louisiana Parishes

Avoyelles, Catahoula, Concordia, Grant, La Salle, Natchitoches, Rapides, Sabine and Vernon.

Mississippi Counties

Adams, Amite, Covington, Forrest, Franklin, Greene, Jefferson, Jefferson Davis, Jones, Lamar, Lawrence, Lincoln, Marion, Perry, Pike, Walthall, Wayne and Wilkinson.

Zone 6:

Alabama Counties

Baldwin, Escambia and Mobile.

Florida Counties

Escambia, Okaloosa, Santa Rosa and Walton.

Louisiana Parishes

East Feliciana, St. Helena, St. Tammany, Tangipahoa, Washington and West Feliciana.

Mississippi Counties

George, Hancock, Harrison, Jackson, Pearl River and Stone.

Zone 7:

Louisiana Parishes

Acadia, Allen, Ascension, Assumption, Beauregard, Calcasieu, Cameron, East Baton Rouge, Evangaline, Iberia, Iberville, Jefferson, Jefferson Davis, Lafayette, Lafourche, Livingston, Orleans, Plaquemines, Pointe Coupee, St. Bernard, St. Charles, St. James, St. John the Baptist, St. Landry, St. Martin, St. Mary, Terrebonne, Vermillion and West Baton Rouge.

§ 1093.3 Route disposition.

Route disposition means a delivery to a retail or wholesale outlet (except to a plant) either directly or through any distribution facility (including

disposition from a plant store, vender or vending machine) of a fluid milk product classified as Class I milk.

§ 1093.4 Plant.

Plant means the land, buildings, facilities, and equipment constituting a single operating unit or establishment at which milk or milk products, including filled milk, are received, processed, or packaged. Separate facilities without stationary storage tanks that are used only as a reload point for transferring bulk milk from one tank truck to another or separate facilities used only as a distribution point for storing packaged fluid milk products in transit for route disposition shall not be a plant under this definition.

§ 1093.5 Distributing plant.

Distributing plant means a plant that is approved by a duly constituted regulatory agency for the handling of Grade A milk and at which fluid milk products are processed or packaged and from which there is route disposition in the marketing area during the month.

§ 1093.6 Supply plant.

Supply plant means a plant that is approved by a duly constituted regulatory agency for the handling of Grade A milk and from which fluid milk products are transferred during the month to a pool distributing plant.

§ 1093.7 Pool plant.

Except as provided in paragraph (d) of this section, "pool plant" means:

(a) A distributing plant from which during the month there is:

(1) Total route disposition, except filled milk, equal to 50 percent or more of the total quantity of Grade A fluid milk products, except filled milk, physically received at such plant or diverted therefrom pursuant to § 1093.13; and

(2) Route disposition, except filled milk, in the marketing area is at least the lesser of a daily average of 1,500 pounds or 10 percent of the total quantity of fluid milk products, except filled milk, physically received or diverted therefrom pursuant to § 1093.13.

(b) A supply plant from which fluid milk products are transferred to pool distributing plants. Such transfers, in excess of receipts by transfer from pool distributing plants, must equal not less than 60 percent in each of the months of August through December, and 40 percent in each of the months of January through July, of the total quantity of Grade A milk that is received during the month from dairy farmers (including producer milk diverted from the plant pursuant to § 1093.13 but excluding milk diverted to such plant) and handlers described in § 1093.9(c).

(c) A plant operated by a cooperative association if pool plant status under this paragraph is requested for such plant by the cooperative association and during the month producer milk of members of such cooperative association is delivered directly from farms to pool distributing plants or is transferred to such plants as a fluid milk product from the cooperative's plant. Such deliveries, in excess of receipts by transfer from pool distributing plants, must equal not less than 60 percent of the total producer milk of such cooperative association in each of the months of August through December, and 40 percent of such milk in each of the months of January through July. The plant's pool plant status shall be subject to the following conditions:

(1) The plant does not qualify as a pool plant under paragraph (a) or (b) of this section or under the provisions of another Federal order applicable to a distributing plant or a supply plant; and

(2) The plant is approved by a duly constituted regulatory agency to handle Grade A milk.

(d) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant;

(2) An exempt plant as defined pursuant to § 1093.8(e) (1) or (2);

(3) A plant qualified pursuant to paragraph (a) of this section which also meets the pooling requirements of another Federal order and from which there is a greater quantity of route disposition, except filled milk, during the month in such other Federal order marketing area, except that if such plant was subject to all the provisions of this part in the immediately preceding month, it shall continue to be subject to all the provisions of this part until the third consecutive month in which a greater proportion of its route disposition, except filled milk, is made in such other marketing area;

(4) A plant qualified pursuant to paragraph (a) of this section which also meets the pooling requirements of another Federal order on the basis of route disposition in such other marketing area and from which there is a greater quantity of route disposition, except filled milk, in this marketing area than such other marketing area but the plant is, nevertheless, fully regulated under such other Federal order; and

(5) A plant qualified pursuant to paragraph (b) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made to plants regulated under such other order than are made to plants regulated under this part, or such plant has automatic pooling status under such other order.

§ 1093.8 Nonpool plant.

Nonpool plant means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants ar further defined as follows:

(a) *Other order plant* means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) *Producer-handler plant* means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) *Partially regulated distributing plant* means a nonpool plant that is not an other order plant, a producer-handler plant or a exempt plant, from which there is route disposition in consumer-type packages or dispenser units in the marketing area during the month.

(d) *Unregulated supply plant* means a supply plant that does not qualify as a pool supply plant and is not an other order plant, a producer-handler plant, or a governmental agency plant.

(e) *Exempt plant* means a plant:

(1) Operated by a governmental agency from which fluid milk products are distributed in the marketing area. Such plant shall be exempt from all provisions of this part; or

(2) Which has monthly route disposition of 100,000 pounds or less during the month. Such plant will be exempt from the pricing and pooling provisions of this order. However, such handler must file periodic reports as prescribed by the market administrator to enable determination of the exempt status of such handler.

§ 1093.9 Handler.

Handler means:

(a) Any person who operates one or more pool plants;

(b) Any cooperative with respect to producer milk which it causes to be diverted pursuant to § 1093.13 for the account of such cooperative association;

(c) Any cooperative association with respect to milk that receives for its account from the farm of a producer for delivery to a pool plant of another handler in a tank truck owned and operated by, or under the control of, such cooperative association, unless both the cooperative association and the operator of the pool plant notify the market administrator prior to the time that such milk is delivered that the plant operator will be handler of such milk and will purchase such milk on the basis of weights determined from its

measurement at the farm and butterfat tests determined from farm bulk tank samples. Milk for which the cooperative association is the handler pursuant to this paragraph shall be deemed to have been received by the cooperative association at the location of the pool plant to which such milk is delivered;

(d) Any person who operates a partially regulated distributing plant;

(e) A producer-handler;

(f) Any person who operates an other order plant described in § 1093.7(d);

(g) Any person who operates an unregulated supply plant; and

(h) Any person who operates an exempt plant.

§ 1093.10 Producer-handler.

Producer-handler means a person who is engaged in the production of milk and also operates a plant from which during the month fluid milk products, except filled milk, is disposed of only direct to consumers through home delivery retail routes or through a retail store located on the same property as the plant, and who has been so designated by the market administrator upon the market administrator's determination that all the requirements of this section have been met, and that none of the conditions therein for cancellation of such designation exists. All designations shall remain in effect until cancelled pursuant to paragraph (c) of this section.

(a) *Requirements for designation.* (1) The producer-handler has an exercises (in such persons's capacity as a handler) complete and exclusive control over the operation and management of a plant at which milk is processed and received from the milk production resources and facilities of such handler (designated as such prusuant to paragraph (b)(1) of this section, the operation and management of which are under the complete and exclusive control of the producer-handler (in that person's capacity as a dairy farmer).

(2) The producer-handler neither recieves at such designated milk production resources and facilities nor receives, handles, processes or distributes at or through any of such person's milk handling, processing or distributing resources and facilities (designated as such pursuant to paragraph (b)(2) of this section) milk products for reconstitution into fluid milk products, or fluid milk products derived from any source other than:

(i) Such person's designated milk production resources and facilites,

(ii) Pool plants within the limitation specified in paragraph (c)(2) of this section, or

(iii) Nonfat milk solids which are used to fortify fluid milk products.

(3) The producer-handler is neither directly nor indirectly associated with the business or management of, nor has financial interest in another handler's operation; nor is any other handler so associated with the producer-handler's operation.

(4) The producer-handler is neither directly nor indirectly associated with the business or management of, nor has financial interest in another producer's operation (in this or any Federal order).

(5) Designation of any person as a producer-handler following a cancellation of such person's prior designation shall be preceded by performance in accordance with paragraphs (a)(1), (2), (3) and (4) of this section for a period of one month.

(b) *Resources and facilities.* Designation of a person as a producer-handler shall include the determination and designation of the milk production, handling, processing and distribution resources and facilities, all of which shall be deemed to constitute an integrated operation, as follows:

(1) As milk production resources and facilities: All resources and facilities (milking herd(s), buildings housing such herd(s), and the land on which such buildings are located) used for the production of milk:

(i) Which are directly, indirectly or partially owned, operated or controlled by the producer-handler;

(ii) In which the producer-handler in any way has an interest including an contractual arrangement; and

(iii) Which are directly, indirectly, or partially owned, operated or controlled by any partner or stockholder of the producer-handler.

(2) As milk handling, processing and distribution resources and facilities: All resources and facilities (including store outlets) used for handling, processing and distributing any fluid milk product:

(i) Which are directly, indirectly or partially owned, operated or controlled by the producer-handler;

(ii) In which the producer-handler in any way has an interest including any contractual arrangement, or with respect to which the producer-handler directly or indirectly exercises any degree of management or control.

(c) *Cancellation.* The designation as a producer-handler shall be cancelled under any of the conditions set forth in paragraph (c) (1) and (2) of this section or upon determination by the market administrator that any of the requirements of paragraphs (a) (1), (2), (3) and (4) of this section are not continuing to be met. Such cancellation is to apply to any month in which the requirements are not met, or the conditions for cancellation occurred.

(1) Milk from the designated production resources and facilities of the producer-handler is delivered in the name of another person as producer milk to another handler under this or any other Federal order.

(2) The producer-handler handles fluid milk products derived from sources other than designated milk production facilities and resources, with the exception of purchases from pool plants in the form of fluid milk products which does not exceed the lessor of 5 percent of the producer-handler's Class I disposition during the month or 5,000 pounds.

(d) *Public announcement.* The market administrator shall publicly announce the name, plant location and farm location(s) of persons designated as producer-handler, of those whose designations have been cancelled and the effective dates of producer-handler status or loss of producer-handler status of each.

(e) *Burden of establishing* and maintaining producer-handler status. The burden rests upon the handler who is designated as a producer-handler to establish through records required pursuant to § 1093.5 of this chapter that the requirements set forth in paragraph (a) of this section have been and are continuing to be met, and that the conditions set forth in paragraph (c) of this section for cancellation do not exist.

§ 1093.11 [Reserved]

§ 1093.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk approved by a duly constituted regulatory agency for fluid consumption as Grade A milk and whose milk is:

(1) Received at a pool plant directly from such producer;

(2) Received by a handler described in § 1093.9(c); or

(3) Diverted from a pool plant in accordance with § 1093.13.

(b) *Producer* shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by such person whose milk is delivered to an exempt plant, excluding producer milk diverted to such exempt plant pursuant to § 1093.9(d);

(3) Any person with respect to milk produced by such person which is diverted to a pool plant from an other order plant if the other order plant designates such person under the order

as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1093.44(a)(8)(iii)and the corresponding step of § 1093.44(b);

(4) Any person with respect to milk produced by such person which is reported as directed to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order; or

(5) Any person with respect to milk produced by him during the months of January through July that is caused to be delivered to a pool plant by a cooperative association or a pool plant operator if during the immediately preceding months of August through December more than one-fifth of the milk from the same farm was caused by such cooperative association or pool plant operator to be delivered to plants as other than producer milk (except milk that is not producer milk as a result of a temporary loss of grade A approval or the application of § 1093.13(e) (5), (6), and (7), unless such pool plant was a nonpool plant during any of such immediately preceding months.

§ 1093.12 Producer milk.

Producer milk means the skim milk and butterfat contained in milk of a producer that is:

(a) Received at a pool plant directly from such producer by the operator of the plant;

(b) Received by a handler described in § 1093.9(c); or

(c) Diverted from the pool plant to the pool plant of another handler. Milk so diverted shall be deemed to have been received at the location of the plant to which diverted; and

(d) Divered by the operator of a pool plant or cooperative association to a nonpool plant that is not a producer-handler plant, subject to the following conditions:

(1) In any month of January through July, not less than four days; production of the producer whose milk is diverted is physically received at a pool plant during the month;

(2) In any month of August through December, not less than ten days; production of the producer whose milk is diverted is physically received at a pool plant during the month;

(3) The total quantity of milk so diverted during any month by a cooperative association shall not exceed 30 percent of the producer milk that the cooperative association caused to be delivered to, and is physically received at, pool plants during the month;

(4) The operator of a pool plant that is not a cooperative association may divert any milk that is not under the control of a cooperative association that diverts milk during the month pursuant to paragraph (d)(3) of this section. The total quantity of milk so diverted during any month shall not exceed 30 percent of the producer milk physically received at such plant during the month;

(5) Any milk diverted in excess of the limits prescribed in paragraphs (d) (3) and (4) of this section shall not be producer milk. The diverting handler shall designate the dairy farmer deliveres that will not be producer milk pursuant to paragraph (d) (3) and (4) of this section. If the handler fails to make such designation, no milk diverted by such handler shall be producer milk;

(6) To the extent that it would result in nonpool status for the plant from which diverted, milk diverted for the account of a cooperative association from the pool plant of another handler shall be be producer milk;

(7) The cooperative association shall designate the dairy farmer deliveries that are not prducer milk pursuant to paragraph (c)(6) of this section. If the cooperative association fails to make such designation, no milk diverted by it to a nonpool plant shall be producer milk.

(8) Diverted milk shall be priced at the location of the plant to which diverted.

§ 1093.14 Other source milk.

Other source milk means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1093.40(b)(1) from any source other than producers, a handler described in § 1093.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1093.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1093.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1093.40(b)(1)) for which the handler fails to establish a disposition.

§ 1093.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1093.16 Fluid cream product.

Fluid cream product means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent of more butterfat, with or without the addition of other ingredients.

§ 1093.17 Filled milk.

Filled milk means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1093.18 Cooperative association.

Cooperative association means any cooperative marketing association of producers which the Secretary determines after application by the association:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and be engaged in making collective sales of or marketing milk or milk products for its members.

§ 1093.19 [Reserved]

§ 1093.20 Product prices.

The following prices shall be used in calculating the basic Class II formula price:

(a) *Butter Price. "Butter price"* means the simple average, for the first 15 days

of the month, of the daily prices per pound of Grade A (92-score) butter. The prices used shall be those of the Chicago Mercantile Exchange as reported and published weekly by the Dairy Division, Agricultural Marketing Service. The average shall be computed by the Director of the Dairy Division, using the price reported each week as the daily price for that day and for each following work-day until the next price is reported. A work-day is each Monday through Friday, except national holidays. For any week that the Exchange does not meet to establish a price, the price for the following week shall be the last price that was established.

(b) *Cheddar Cheese Price.* "*Cheddar cheese price*" means the simple average, for the first 15 days of the month, of the daily prices per pound of cheddar cheese in 40-pound blocks. The prices used shall be those of the National Cheese Exchange (Green Bay, WI), as reported and published weekly by the Dairy Division, Agricultural Marketing Service. The average shall be computed by the Director of the Dairy Division, using the price reported each week as the daily price for that day and for each following work-day until the next price is reported. A work-day is each Monday through Friday, except national holidays. For any week that the Exchange does not meet to establish a price, the price for the following week shall be the last price that was established.

(c) *Nonfat Dry Milk Price.* "*Nonfat dry milk price*" means the simple average, for the first 15 days of the month, of the daily prices per pound of nonfat dry milk, which average shall be computed by the Director of the Dairy Division as follows:

(1) The prices used shall be the prices (using the midpoint of any price range as one price) of high heat, low heat and Grade A nonfat dry milk, respectively, for the Central States production area, as reported and published weekly by the Dairy Division, Agricultural Marketing Service.

(2) For each week, determine the simple average of the prices reported for the three types of nonfat dry milk. Such average shall be the daily price for the day that such prices are reported and for each preceding work-day until the day such prices were previously reported. A work-day is each Monday through Friday except national holidays.

(3) Add the prices determined in paragraph (c)(2) of this section for the first 15 days of the month and divide by the number of days for which there is a daily price.

(d) *Edible Whey Price.* "*Edible whey price*" means the simple average for the first 15 days of the month, of the daily prices per pound of edible whey powder (nonhygroscopic). The prices used shall be the prices (using the midpoint of any price range as one price) of edible whey powder for the Central States production area, as reported and published weekly by the Dairy Division, Agricultural Marketing Service. The average shall be computed by the Director of the Dairy Division, using the price reported each week as the daily price for that day and for each preceding work-day until the day such price was previously reported. A work-day is each Monday through Friday, except national holidays.

Handler Reports

§ 1093.30 Reports of receipts and utilization.

On or before the 5th day after the end of the month (if postmarked), or not later than the 7th day if the report is delivered in person to the office of the market administrator, each handler shall report for such month to the market administrator, in the detail and on forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of its pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1093.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of each month of fluid milk products and products specified in § 1093.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1093.9 (b) and (c) shall report:

(1) The quantities of skim milk and butterfat contained in receipts from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to its receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1093.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler described in § 1093.9 (a), (b), and (c) shall report to the market administrator its producer payroll for such month, in detail prescribed by the market administrator, showing for each producer:

(1) Such producer's name and address;

(2) The total pounds of milk received from such producer;

(3) The average butterfat content of such milk;

(4) The price per hundredweight, the gross amount due, the amount and nature of any deduction, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1093.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1093.32 Other reports.

(a) Each handler described in § 1093.9 (a), (b) and (c) shall report to the market administrator on or before the 7th day after the end of each month of February through June the aggregate quantity of base milk received from producers during the month, and on or before the 20th day after the end of each month of February through June the pounds of base milk received from each producer during the month.

(b) In addition to the reports required pursuant to paragraph (a) of this section and §§ 1093.30 and 1093.31, each handler shall report such information as the market administrator deems necessary to verify or establish each handler's obligation under the order.

Classification of Milk

§ 1093.40 Classes of utilization.

Except as provided in § 1093.42, all skim milk and butterfat required to be reported pursuant to § 1093.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Disposed of in the form of buttermilk or buttermilk mix, regardless of the nonmilk solids content of such product, used in and labeled for the commercial (or foodservice) production of biscuits, or for other bakingpurposes, except buttermilk or buttermilk mix defined as a fluid milk product pursuant to § 1093.15(c).

(5) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, dry curd cottage cheese, and Creole cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c)(1)(iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed all metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, dry curd cottage cheese, and Creole cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated or condensed milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section.

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b)(1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b)(1) of this section that are disposed of for animal feed;

(4) In fluid milk products and products specified in paragraph (b)(1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1093.15; and

(6) In shrinkage assigned pursuant to § 1093.41(a) to the receipts specified in § 1093.41(a)(2) and in shrinkage specified in § 1093.41 (b) and (c).

§ 1093.41 Shrinkage.

For the purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1093.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraphs (b) (1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraphs (b) (1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product.

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant);

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1093.9(c), except that if the operator of the plant to which the milk is delivered purchased such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchased such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amount of skim milk and butterfat to which percentages are applied in paragraphs (b) (1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1093.9 (b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1093.42 Classification of transfers and diversions.

(a) *Transfers and Diversions to Pool Plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or transferred in the form of a bulk fluid cream product from

a pool plant to another pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant after the computations pursuant to § 1093.44(a)(12) or the corresponding step of § 1093.44(b);

(2) If the transferor-plant received during the month other source milk to be allocated pursuant to § 1093.44(a)(7) or the corresponding step of § 1093.44(b), the skim milk or butterfat so transferred, shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-plant or diverter-plant received during the month other source milk to be allocated pursuant to § 1093.44(a) (11) or (12) or the corresponding steps of § 1093.44(b), the skim milk or butterfat so transferred, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant or divertee-plant.

(b) *Transfers and Diversions to Other Order Plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or transferred in the form of a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category and described in paragraph (b) (1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be Class I subject to adjustment when such information is available;

(5) For purposes of this paragraph if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to the class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification shall be in accordance with the provisions of § 1093.40.

(c) *Transfers to Producer-Handlers and Transfers and Diversions to Exempt Plants.* Skim milk or butterfat in the following forms that is transferred from a pool plant to a producer-handler under this or any other Federal order or transferred or diverted from a pool plant to an exempt plant shall be classified:

(1) As Class I milk if so moved in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the transferee's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to its receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and Diversions to Other Nonpool Plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant, a producer-handler plant, or a governmental agency plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or transferred in the form of a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraphs (d)(2)(i)(*a*) and (*b*) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraphs (d)(2) (ii) through (viii) of this section:

(*a*) The transferor-handler or diverter-handler claims such classification in such handler's report of receipts and utilization filed pursuant to § 1093.30 for the month within which such transaction occurred; and

(*b*) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plant fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of packaged fluid milk products at such nonpool plants from pool plants;

(*b*) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plants from other order plants;

(*c*) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(*d*) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be classified to the extent possible in the following sequence:

(*a*) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(*b*) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(*a*) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(b) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

(e) *Tranfers by a Handler Described In* § 1093.9(c) To Pool Plants. Skim milk and butterfat transferred in the form of bulk milk by a handler described in § 1093.9(c) to another handler's pool plant shall be classified pursuant to § 1093.44 pro rata with producer milk received at the transferee-handler's plant.

§ 1093.43 General classification rules.

In determining the classification of producer milk pursuant to § 1093.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1093.30 and shall compute separately for each pool plant, and for each cooperative association with respect to milk for which it is the handler pursuant to § 1093.9 (b) or (c) that was not received at a pool plant, the pounds of skim milk and butterfat, respectively, in each class in accordance with § 1093.40, 1093.41, and 1093.42. The combined pounds of skim milk and butterfat so determined in each class for a handler described in § 1093.9(b) or (c) shall be such handler's classification of producer milk;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by the handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1093.9(b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1093.44 Classification of producer milk.

For each month the market administrator shall determine for each handler described in § 1093.9(a) for each pool plant of the handler separately the classification of producer milk and milk received from a handler described in § 1093.9(c), by allocating the handler's receipts of skim milk and butterfat to the utilization of such receipts by such handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1093.41(b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from another order plant, except that to be subtracted pursuant to (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1093.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II.

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1093.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This paragraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or fluid cream product) that is used to produce, or added to, any product specified in § 1093.40(b)(1), but not in excess of the pounds of skim milk remaining in Class II.

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1093.40(b)(1) that were not subtracted pursuant to paragraphs (a)(4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under any Federal milk order and from an exempt plant;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section; and

(vi) Receipts of reconstituted skim milk in filled milk from another order plant that is fully regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraphs (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraphs (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraphs (a)(8)(ii)(*a*) through (*c*) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased

(increasing as necessary Class III then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased in like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount;

(*a*) Multiply by 1.25 the sum of the pound of skim milk remaining in Class I at this allocation step at all pool plant of the handler (excluding and duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler;

(*b*) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, milk from a handler described in § 1093.9(c), fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(*c*) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1093.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraphs (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraphs (a)(11)(i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and then from Class III combined being subtracted first from Class III and then from Class II, the pounds of skim in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraphs (a)(2), (7)(v), and (8)(i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plant shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant that were not subtracted pursuant to paragraphs (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraphs (a)(12)(ii), (iii) and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(*a*) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1093.45(a); or

(*b*) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and the Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such

excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case the pounds of skim milk remaining in each class at this allocation step at the handlers other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1093.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk and milk received from a handler described in § 1093.9(c), subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk and milk received from a handler described in § 1093.9(c) in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1093.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1093.44(a)(12) and the corresponding step of § 1093.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of reciepts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from another order plant, the class to which such receipts are allocated pursuant to § 1093.44 on the basis of such report, and, thereafter, any changes required to correct errors disclosed in the verification of such report.

(c) Furnish each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to another order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 12th day after the end of each month, report to each cooperative association which so requests, the percentage of producer milk delivered by members of such association that was used in each class by each handler receiving such milk. For the purpose of this report the milk so received shall be prorated to each class in accordance with the total utilization of producer milk by such handler.

Class Prices

§ 1093.50 Class prices.

Subject to the provisions of § 1093.53 the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I Price.* The Class I price shall be the basic formula price for the second preceding month plus $3.08.

(b) *Class II Price.* The Class II price shall be computed by the Director of the Dairy Division and transmitted to the market administrator on or before the 15th day of the preceding month. The Class II price shall be the basic Class II formula price computed pursuant to § 1093.52 for the month plus the amount that the value computed pursuant to paragraph (b)(1) of this section exceeds the value computed pursuant to paragraph (b)(2) of this section, plus any amount by which the basic Class II formula price for the second preceding month, adjusted pursuant to paragraphs (b)(1) and (b)(2) of this section, was less than the Class III price for the second preceding month.

(1) Determine for the most recent 12-month period the simple average (rounded to the nearest cent) of the basic formula prices computed pursuant to § 1093.51 and add 10 cents; and

(2) Determine for the same 12-month period as specified in paragraph (b)(1) of this section the simple average (rounded to the nearest cent) of the basic Class II formula prices computed pursuant to § 1093.52.

(c) *Class III Price.* Subject to the adjustment set forth below for the applicable month, the Class III price shall be the basic formula price for the month.

Month	Amount
January	−$0.10
February	−0.10
March	−0.20
April	−0.20
May	−0.20
June	+0.10
July	+0.20
August	+0.20
September	+0.20
October	+0.20
November	+0.10
December	−0.10

§ 1093.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92 score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1093.52 Basic Class II formula price.

The "Basic Class II formula price" for the month shall be the basic formula price determined pursuant to § 1093.51 for the second preceding month plus or minus the amount computed pursuant to paragraphs (a) through (d) of this section:

(a) The gross values per hundredweight of milk used to manufacture cheddar cheese and butter-nonfat dry milk shall be computed, using price data determined pursuant to § 1093.20 and yield factors in effect under the Dairy Price Support Program authorized by the Agricultural Act of 1949, as amended, for the first 15 days of the preceding month and separately, for the first 15 days of the second preceding month as follows:

(1) The gross value of milk used to produce cheddar cheese shall be the sum of the following computations:

(i) Multiply the cheddar cheese price by the yield factor used under the Price Support Program for cheddar cheese;

(ii) Multiply the butter price by the yield factor used under the Price Support Program for determining the butterfat component of the whey value in the cheese price computation; and

(iii) Subtract from the edible whey price the processing cost used under the Price Support Program for edible whey and multiply any positive difference by

the yield factor used under the Price Support Program for edible whey.

(2) The gross value of milk used to manufacture butter-nonfat dry milk shall be the sum of the following computations:

(i) Multiply the butter price by the yield factor used under the Price Support Program for butter; and

(ii) Multiply the nonfat dry milk price by the yield factor used under the Price Support Program for nonfat dry milk.

(b) Determine the amounts by which the gross value per hundredweight of milk used to produce cheddar cheese and the gross value of milk used to produce butter-nonfat dry milk for the first 15 days of the preceding month exceed or are less than the respective gross value for the first 15 days of the second preceding month.

(c) Compute weighting factors to be applied to the changes in gross values determined pursuant to paragraph (b) of this section by determining the relative proportion that the data included in each of the following subparagraphs is of the total of the data represented in paragraphs (c) (1) and (2) of this section:

(1) Combine the total American cheese production for the States of Minnesota and Wisconsin, as reported by the Statistical Reporting Service of the Department for the most recent preceding period, and divide by the yield factor used under the Price Support Program for cheddar cheese to determine the quantity of milk used in the production of American cheddar cheese; and

(2) Combine the total nonfat dry milk production for the States of Minnesota and Wisconsin, as reported by the Statistical Reporting Service of the Department for the most recent preceding period, and divide by the yield factor used under the Price Support Program for cheddar cheese to determine the quantity of milk used in the production of butter-nonfat dry milk.

(d) Compute a weighted average of the changes in values per hundredweight of milk determined pursuant to paragraph (b) of this section in accordance with the relative proportions of milk determined pursuant to paragraph (c) of this section.

§ 1093.53 Plant location adjustments for handlers.

(a) For milk received at a plant from producers or a handler described in § 1093.9(c) and which is classified as Class I milk without movement in bulk form to a pool distributing plant at which a higher Class I price applies, the price specified in § 1093.50(c) shall be adjusted by the amount stated in paragraphs (a) (1) through (4) of this section for the location of such plant:

(1) For a plant located within one of the zones set forth in § 1093.2 the adjustment shall be as follows:

Zone	Adjustment per hundredweight (cents)
Zone 1	Minus 23
Zone 2	No Adjustment
Zone 3	Plus 19
Zone 4	Plus 30
Zone 5	Plus 37
Zone 6	Plus 57
Zone 7	Plus 70

(2) For a plant located within the marketing area of another order issued pursuant to the Act, the location adjustment shall be computed by subtracting the Class I price applicable in Zone 1 of this order from the Class I price applicable at such plant, had the plant been regulated under such order.

(3) For a plant located outside the areas described in paragraphs (a) (1) and (2) of this section, and north of a line extending through the northern borders of the States of Alabama, Georgia, and Mississippi the adjustment shall be a minus 23 cents for plants located nearest the city hall of Florence of Huntsville, Alabama; Rome or Blairsville, Georgia; Clarksdale or Corinth, Mississippi; or plus 20 cents for plants located nearest the city hall of Shreveport, Louisiana. Such minus adjustment shall be increased (plus adjustments decreased) 2.5 cents for each 10 miles or fraction thereof (by the shortest hardsurfaced highway distance as determined by the market administrator) that such plant is from the nearer of the cities of Florence or Huntsville, Alabama; Rome or Blairsville, Georgia; Clarksdale or Corinth, Mississippi; or Shreveport, Louisiana;

(4) For a plant located outside the areas specified in paragraphs (a) (1) through (3) of this section the adjustment shall be the adjustment applicable at the nearer of the cities of Lavonia, Augusta, or Savannah, Georgia; or Lake Charles, Leesville, or Shreveport, Louisiana.

(b) For fluid milk products transferred in bulk form from a pool plant to a pool distributing plant at which a higher Class I price applies and which are classified as Class I milk, the Class I price shall be the Class I price at the transferee-plant subject to a location adjustment credit for the transferor-plant which shall be determined by the market administrator for skim milk and butterfat, respectively, as follows:

(1) Subtract from the pounds of skim milk remaining in Class I at the transferee-plant after the computations pursuant to § 1093.44(a)(12), an amount equal to:

(i) The pounds of skim milk in receipts of milk at the transferee-plant from producers and handlers described in § 1093.9(c); and

(ii) the pounds of skim milk in receipts of packaged fluid milk products from other pool plants.

(2) Assign any remaining pounds of skim milk in Class I at the transferee-plant to the skim milk in receipts of fluid milk products from other pool plants, first to the transferor-plants at which the highest Class I price applies and then to other plants in sequence beginning with the plant at which the next highest Class I price applies;

(3) Compute the total amount of location adjustment credits to be assigned to transferor-plants by multiplying the hundredweight of skim milk assigned pursuant to paragraph (b)(2) of this section to each transferor-plant at which the Class I price is lower than the class I price applicable at the transferor-plant and the transferee-plant, and add the resulting amounts.

(4) Assign the total amount of location adjustment credits computed pursuant to paragraph (b)(3) of this section to those transferor-plants that transferred fluid milk products containing skim milk classified as Class I milk pursuant to § 1093.42(a) and at which the applicable Class I price is less than the Class I price at the transferee-plant, in sequence beginning with the plant at which the highest Class I price applies. Subject to the availability of such credits, the credit assigned to each plant shall be equal to the hundredweight of such Class I skim milk multiplied by the adjustment rate determined pursuant to paragraph (b)(3) of this section for such plant. If the aggregate of this computation for all plants having the same adjustment as determined pursuant to paragraph (b)(3) of this section exceeds the credits that are available to these plants, such credits shall be prorated to the volume of skim milk in Class I in transfers from such plants; and

(5) Location adjustment credit for butterfat shall be determined in accordance with the procedure outlined for skim milk in paragraph (b) (1) through (4) of this section.

(c) The market administrator shall determine and publicly announce the zone location of each plant of each handler. The market administrator shall notify the handler on or before the first

day of any month in which a change in a plant locations zone will apply.

(d) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1093.54 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month, the Class III price for the preceding month, and on or before the 15th day of each month the Class II price for the following month computed pursuant to § 1093.58(b).

§ 1093.55 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

Uniform Price

§ 1093.60 Handler's value of milk for computing the uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of the handler's pool plants and of each handler described in § 1093.9 (b) and (c) with respect to milk that was not received at a pool plant as follows:

(a) Multiply the pounds of producer milk and milk received from a handler described in § 1093.9(c) that were classified in each class pursuant to §§ 1093.43(a) and 1093.44(c) by the applicable class prices, and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1093.44(14) and the corresponding step of § 1093.44(c) by the respective class prices, as adjusted by the butterfat differential specified in § 1093.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1093.44(a)(9) and the corresponding step of § 1093.44(b).

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1093.44(a)(7) (i) through (iv) and the corresponding step of § 1093.44(b), excluding receipts of a bulk fluid cream product from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1093.44(a)(7) (v) and (vi) and the corresponding step of § 1093.44(b); and

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1093.44(a)(11) and the corresponding step § 1093.44(b), excluding such skim milk and butterfat in receipts of fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk and butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under the any order.

§ 1093.61 Computation of uniforms price (including weighted average price and uniform prices for base and excess milk).

(a) The market administrator shall compute the weighted average price for each month and the uniform price for each month of July through January per hundredweight of milk of 3.5 butterfat content as follows:

(1) Combine into one total the values computed pursuant to § 1093.60 for all handlers who filed the reports prescribed in § 1093.30 for the month and who made payments pursuant to § 1093.71 for the preceding month;

(2) Add not less than one-half the unobligated balance in the producer-settlement fund;

(3) Add an amount equal to the total value of the minus adjustments and subtract an amount equal to the total value of the plus adjustments computed pursuant to § 1093.75;

(4) Divide the resulting amount by the sum of the following for all handlers included in these computations;

(i) The total hundredweight of producer milk; and

(ii) The total hundredweight for which a value is computed pursuant to § 1093.60(j); and

(5) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The resulting figure, rounded to the nearest cent, shall be the weighted average price for each month and the uniform price for the months of July through January.

(b) For each month of February through June, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each 3.5 percent butterfat content, as follows:

(1) Compute the total value of excess milk for all handlers included in the computations pursuant to paragraphs (a)(1) of this section as follows:

(i) Multiply the hundredweight quantity of excess milk that does not exceed the total quantity of such handlers' producer milk assigned to Class III by the Class III price;

(ii) Multiply the remaining hundredweight quantity of excess milk that does not exceed the the total quantity of such handlers' producer milk assigned to Class II by the Class II price;

(iii) Multiply the remaining hunderweight quantity of excess milk by the Class I price; and

(iv) Add together the resulting amounts;

(2) Divide the total value of excess milk obtained in paragraph (b)(1) of this section by the total hundredweight of such milk and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk.

(3) From the amount resulting from the computations pursuant to paragraphs (a)(1) through (3) of this section subtract an amount computed by multiplying the hundredweight of milk specified in paragraph (a)(4)(ii) of this section by the weighted average price;

(4) Subtract the total value of excess milk determined by multiplying the uniform price obtained in paragraph (b)(2) of this section times the hundreweight of excess milk from the amount computed pursuant to paragraph (b)(3) of this section;

(5) Divide the amount calculated pursuant to paragraph (b)(4) of this section by the total hundredweight of base milk included in these computations; and

(6) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (b)(5) of this section. The resulting figure, rounded to the nearest cent, shall be the uniform price for base milk.

§ 1093.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The 10th day after the end of each month the butterfat differential for such month; and

(b) The 11th day after the end of the month the applicable uniform price(s) pursuant to § 1093.61 for such month.

Payments For Milk

§ 1093.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which the market administrator shall deposit all payments made by handlers pursuant to §§ 1093.71, 1093.76, and 1093.77, and out of which the market administrator shall make all payments pursuant to §§ 1093.72 and 1093.77. Payments due any handler shall be offset by any payments due from such handler.

§ 1093.71 Payments to the producer-settlement fund.

(a) On or before the 12th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1093.60.

(2) The sum of:

(i) The value at the uniform price(s) as adjusted pursuant to § 1093.75, of such handler's receipts of producer milk and milk received from handlers pursuant to § 1093.9(c); and

(ii) The value at the weighted average price applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1093.60(f).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is route disposition from such plant in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragarph (b)(1) of this section to route disposition in this marketing area by the difference between the Class I price under this part applicable at the location of the other plant (but not to be less than the Class III price) and the Class III price.

§ 1093.72 Payments from the producer-settlement fund.

On or before the 13th day after the end of each month, the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1093.71(a)(2) exceeds the amount computed pursuant to § 1093.71(a)(1), if, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the funds are available.

§ 1093.73 Payments to produce and to cooperative associations.

(a) Each handler shall pay each producer for producer milk for which payment is not made to a cooperative association pursuant to paragraph (b) of this section, as follows:

(1) On or before the 26th day of each month, for milk received during the first 15 days of the month from such producer who has not discontinued delivery of milk to such handler before the 23rd day of the month at not less than the Class III price for the preceding month, or 90 percent of the weighted average price for the preceding month, whichever is higher, less proper deductions authorized in writing by the producer. If the producer had discontinued shipping milk to such handler before the 25th day of any month, or if the producer had no established base upon which to receive payments during the base paying months of February through June, the applicable rate for making payments to such producer shall be the Class III price for the preceding month; and

(2) On or before the 15th day of the following month, an amount equal to not less than the uniform price(s), as adjusted pursuant to §§ 1093.74 and 1093.75, multiplied by the hundredweight of milk or base milk and excess milk received from such producer during the month, subject to the following adjustments.

(i) Less payments made to such producer pursuant to paragraph (a)(1) of this section;

(ii) Less deductions for marketing services made pursuant to § 1093.80;

(iii) Plus or minus adjustments for errors made in previous payments made to such producers; and

(iv) Less proper deductions authorized in writing by such producer.

(3) If a handler has not received full payment from the market administrator pursuant to § 1093.72 by the 15th day of such month, such handler may reduce payments pursuant to this paragraph to producers on a pro rata basis but not by more than the amount of the underpayment. Such payments shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after receipt of the balance due from the market administrator.

(b) On or before the day prior to the dates specified in paragraph (a) (1) and (2) of this section, each handler shall make payment to the cooperative association for milk from producers who market their milk through the cooperative association and who have authorized the cooperative to collect such payments on their behalf an amount equal to the sum of the individual payments otherwise payable for such producer milk pursuant to paragraph (a) (1) and (2) of this section.

(c) If a handler has not received full payment from the market administrator pursuant to § 1093.72 by the 14th day of such month, such handler may reduce payments pursuant to paragraph (b) of this section to such cooperative association on a pro rata basis, prorating such underpayment to the volume of milk received from such cooperative association in proportion to the total milk received from producers by the handler, but not by more than the amount of the underpayment. Such payments shall be completed in the following manner:

(1) If the handler receives full payment from the market administrator by the 15th day of the month, the handler shall make payment to the cooperative association of the full value of the underpayment on the 15th day of the month;

(2) If the handler has not received full payment from the market administrator by the 15th day of the month, the handler shall make payment to the cooperative association of the full value of the underpayment on or before the date for making such payments pursuant to this paragraph next following after receipt of the balance due from the market administrator.

(d) Each handler pursuant to § 1093.9(a) who receives milk from a cooperative association as a handler pursuant to § 1093.9(c), including the milk of producers who are not members

of such association, and who the market administrator determines have authorized such cooperative association to collect payment for their milk, shall pay such cooperative for such milk as follows:

(1) On or before the 25th day of the month for milk received during the first 15 days of the month, not less than the Class III price for the preceding month or 90 percent of the weighted average price for the preceding month, whichever is higher; and

(2) On or before the 14th day of the following month, not less than the appropriate uniform price(s) as adjusted pursuant to §§ 1093.74 and 1093.75, and less any payments made pursuant to paragraph (d)(1) of this section.

(e) If a handler has not received full payment from the market administrator pursuant to § 1093.72 by the 14th day of such month, such handler may reduce payments pursuant to paragraph (d) of this section to such cooperative association and complete such payments for milk received from such cooperative association in its capacity as a handler pursuant to § 1093.9(c), in the manner prescribed in paragraph (c) (1) and (2) of this section.

(f) In making payments for producer milk pursuant to this section, each handler shall furnish each producer or cooperative association from whom such handler has received producer milk a supporting statement in such form that it may be retained by the recipient which shall show:

(1) The month and identity of the producer;

(2) The daily and total pounds and the average butterfat content of producer milk;

(3) For the months of February through June the total pounds of base milk received from such producer;

(4) The minimum rate(s) at which payment to the producer is required pursuant to this order;

(5) The rate(s) used in making the payment if such rate(s) is other than the applicable minimum rate(s);

(6) The amount, or rate per hundredweight, and nature of each deduction claimed by the handler; and

(7) The net of payment to such producer or cooperative association.

§ 1093.74 Butter differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price(s) shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1093.75 Plant location adjustments for producers and on nonpool milk.

(a) The uniform price and the uniform price for base milk shall be adjusted according to the location of the plant at which the milk was physically received at the rates set forth in § 1093.53; and

(b) The weighted average price applicable to other source milk shall be adjusted at the rates set forth in § 1093.53(a) applicable at the location of the nonpool plant from which the milk was received, except that the adjusted weighted average price shall not be less than the Class III price.

§ 1093.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1093.30(b) and 1093.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be an amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the weighted average price, both prices to be applicable at the location of the partially regulated distributing plant (except that the Class I price and weighted average price shall not be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1093.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other orderplant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be computed to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1093.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest price class of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1093.60 for such handler shall include, in lieu of the value of other source milk specified in § 1093.60(f) less the value of such other source milk specified in § 1093.71(a)(2)(ii), a value of milk determined pursuant to § 1093.60 for each nonpool plant that is not an other

order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributed plant during the month equivalent to the requirements of § 1093.7(b) subject to the following conditions:

(*a*) The operator of the partially regulated distributing plant submits with its reports filed pursuant to §§ 1093.30(b) and 1093.31(b) similar reports for each such nonpool supply plant;

(*b*) The operator of such nonpool plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(*c*) The value of milk determined pursuant to § 1093.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of the partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1093.74, for milk received at the plant during the month that would have been producer milk had the plant been fully regulated;

(ii) If paragraph (b)(2)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1093.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1093.77 Adjustment of accounts.

Whenever audit by the market administrator of any handler's reports, books, records, or accounts, or other verification discloses errors resulting in money due the market administrator from a handler, or due a handler from the market administrator, or due a producer or cooperative association from a handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments as set forth in the provisions under which the error(s) occurred.

§ 1093.78 Charges on overdue accounts.

Any unpaid obligation due the market administrator from a handler pursuant to §§ 1093.71, 1093.76, 1093.77, 1093.78, 1093.85 and 1093.86, shall be increased 1.5 percent each month beginning with the day following the date such obligation was due under the order. Any remaining amount due shall be increased at the same rate on the corresponding day of each month until paid. The amounts payable pursuant to this section shall be computed monthly on each unpaid obligation and shall include any unpaid charges previously made pursuant to this section. For the purpose of this section, any obligation that was determined at a date later than prescribed by the order because of a handler's failure to submit a report to the market administrator when due shall be considered to have been payable by the date it would have been due if the report had been filed when due.

Administrative Assessment and Marketing Service Deduction

§ 1093.85 Assessment for order administration.

As each handler's pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 15th day after the end of the month 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to:

(a) Receipts of producer milk (including such handler's own production) other than such receipts by a handler described in § 1093.9(c) that were delivered to pool plants of other handlers;

(b) Receipts from a handler described in § 1093.9(c);

(c) Other source milk allocated to Class I pursuant to § 1093.44(a) (7) and (11) and the corresponding steps of § 1093.44(b), except such other source milk that is excluded from the computations pursuant to § 1093.60 (d) and (f); and

(d) Route disposition in the marketing area from a partially regulated distributing plant that exceeds the skim milk and butterfat subtracted pursuant to § 1093.76(a)(2).

§ 1093.86 Deduction for marketing services.

(a) Except as provided in paragraph (b) of this section each handler, in making payments to producers for milk (other than milk of such handler's own production) pursuant to § 1093.73, shall deduct 7 cents per hundredweight or such lesser amount as the Secretary may prescribe and shall pay such deductions to the market administrator not later than the 15th day after the month. Such money shall be used by the market administrator to verify or establish weights, samples and tests of producer milk and provide market information for producers who are not receiving such services from a cooperative association. Such services shall be performed in whole or in part by the market administrator or an agent engaged by and responsible to the market administrator;

(b) In the case of producers for whom a cooperative association that the Secretary has determined is actually performing the services set forth in paragraph (a) of this section, each handler shall (in lieu of the deduction specified in paragraph (a) of this section), make such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers, and on or before the 15th day after the end of the month, pay such deductions to the cooperative association rendering such services accompanied by a statement showing the amount of any such deductions and the amount of milk for which such deduction was computed for each producer.

Base-Excess Plan

§ 1093.90 Base milk.

Base milk means the producer milk of a producer in each month of February through June that is not in excess of the producer's base multiplied by the number of days in the month.

§ 1093.91 Excess milk.

Excess milk means the producer milk of a producer in each month of February through June in excess of the producer's base milk for the month, and shall include all the producer milk in such months of a producer who has no base.

§ 1093.92 Computation of base for each producer.

(a) Subject to § 1093.93, the base for each producer shall be an amount obtained by dividing the total pounds of producer milk delivered by such producer during the immediately preceding months of August through December by the number of days represented by such producer milk or 120, whichever is more. If a producer operated more than one farm at the same time, a separate computation of base shall be made for each such farm.

(b) Any producer who, during the immediately preceding months of August through December, delivered milk to a nonpool plant that became a pool plant after the beginning of such base-forming period shall be assigned a base calculated as if the plant were a pool plant during such entire base-forming period. A base thus assigned shall not be transferable.

§ 1093.93 Base rules.

(a) Except as provided in § 1093.92(b) and paragraph (b) of this section, a base may be transferred in its entirety or in amounts of not less than 300 pounds effective on the first day of the month following the date on which such application is received by the market administrator. Base may be transferred only to a person who is or will be a producer by the end of the month that the transfer is to be effective. A base transfer to be effective on February 1 for the month of February must be received on or before February 15. Such application shall be on a form approved by the market administrator and signed by the baseholder or the legal representative of the baseholder's estate and the person to whom the base is to be transferred. If a base is held jointly, the application shall be signed by all joint holders or the legal representative of the estate of any deceased baseholder.

(b) A producer who transferred base on or after February 1 may not receive by transfer additional base that would be applicable during February through June of the same year. A producer who received base by transfer on or after February 1 may not transfer a portion of the base to be applicable during February through June of the same year, but may transfer the entire base.

(c) The base established by a partnership may be divided between the partners on any basis agreed to in writing by them if written notification of the agreed upon division of base by each partner is received by the market administrator prior to the first day of the month in which such division is to be effective.

(d) Two or more producers in a partnership may combine their separately established bases by giving notice to the market administrator prior to the first day of the month in which such combination of bases is to be effective.

(e) The base assigned a person who was a producer during the immediately preceding months of August through December may be increased to such producer's average daily producer milk deliveries in the month immediately preceding the month during which a condition described in paragraphs (e)(1), (2), or (3) of this section occurred, providing such producer submitted to the market administrator in writing on or before February 1 a statement that established to the satisfaction of the market administrator that in the immediately preceding August through December base-forming period the amount of milk produced on such producer's farm was substantially reduced because of conditions beyond the control of such person, which resulted from:

(1) The loss by fire or windstorm of a farm building used in the production of milk on the producer's farm;

(2) Brucellosis, bovine tuberculosis or other infectious diseases in the producer's milking herd as certified by a licensed veterinarian; or

(3) A quarantine by a Federal or State authority that prevents the dairy farmer from supplying milk from the farm of such producer to a plant.

§ 1093.94 Announcement of established bases.

On or before February 1 of each year, the market administrator shall calculate a base for each person who was a producer during any of the preceding months of August through December and shall notify each producer and the handler receiving milk from such dairy farmer of the base established by the producer. If requested by a cooperative association, the market administrator shall notify the cooperative association of each producer-member's base.

Proposed by Land-O-Sun Dairies, Inc.

Proposal No. 2:

Revise § 1093.13(d) (2) and (4) to read as follows:

§ 1093.13 Producer milk.

* * * * *

(d) * * *

(2) In any month of September through January not less than six days' production of the producer whose milk is diverted is physically received at a pool plant during the month;

(3) * * *

(4) A handler operating a pool plant that is not a cooperative association may divert any milk that is not under the control of a cooperative association that diverts milk during the month pursuant to paragraph (c)(3) of this section. The total quantity of milk so diverted during any month shall not exceed 30 percent of the producer milk physically received at such handler's pool plant(s) during the month;

* * * * *

Proposal No. 3

Proposed by Malone & Hyde Dairy, Nashville, Tennessee

Adopt the provisions of the proposal by Dairymen, Inc., Southern Milk Sales, et al., including a base-excess payment plan if desired by producers, with the following modifications to sections 2, 13, and 52(a)(1) of said proposal:

§ 1093.2 Gulf States Marketing Area

The "Gulf States marketing area" hereinafter called the "marketing area" means all territory within the boundaries of the following Alabama, Florida, Georgia and Mississippi counties and Louisiana parishes, including all piers, docks, and wharves connected therewith and all craft moored therat, and all territory occupied by government (municipal, State, or Federal) reservations, installations, institutions, or other similar establishments if any part thereof is within any of the listed counties or parishes:

Zone 1:

Alabama Counties

Cherokee, Colbert, Cullman, DeKalb, Franklin, Jackson, Lauderdale, Lawrence, Limestone, Madison, Marion, Marshall, Morgan and Winston.

Georgia Counties

Bartow, Cherokee, Dawson, Floyd, Forsyth, Gilmer, Gordon, Habersham, Hall, Lumpkin, Pickens, Rabun, Towns, Union, and White.

Zone 2:

Mississippi Counties

Alcorn, Benton, Itawamba, Lee, Pontotoc, Prentiss, Tippah, Tishomingo and Union.

Zone 3:

Alabama Counties

Blount, Calhoun, Clay, Cleburne, Etowah, Fayette, Jefferson, Lamar, Randolph, St. Clair, Shelby, Talladega, and Walker.

Georgia Counties

Banks, Barrow, Butts, Carroll, Clarke, Clayton, Cobb, Coweta, DeKalb, Douglas, Elbert, Fayette, Franklin, Fulton, Greene, Gwinnet, Haralson, Hart, Heard, Henry, Jackson, Jasper, Lamar, Lincoln, Madison, Meriwether, Morgan, Newton, Oconee, Oglethorpe, Paulding, Pike, Polk, Putnam, Rockdale, Spalding, Stephens, Taliaferro, Troup, Walton, and Wilkes.

Mississippi Counties

Bolivar, Calhoun, Carroll, Chickasaw, Choctaw, Clay, Coahoma, Grenada, Leflore, Lowndes, Monroe, Montgomery, Oktibbeha, Quitman, Sunflower, Tallahatchie, Washington, Webster, and Yalobusha.

BEST COPY AVAILABLE

Zone 6:

Alabama Counties

Autauga, Bibb, Chambers, Chilton, Coosa, Elmore, Greene, Hale, Lee, Macon, Perry, Pickens, Russell, Tallapoosa, and Tuscaloosa.

Georgia Counties

Baldwin, Bibb, Burke, Chattahoochee, Columbia, Crawford, Glascock, Hancock, Harris, Houston, Jefferson, Jones, Macon, Marion, McDuffie, Monroe, Muscogee, Peach, Richmond, Schley, Talbot, Taylor, Twiggs, Upson, Warren, Washington, and Wilkinson.

Mississippi Counties

Attala, Holmes, Humphreys, Noxubee, Washington, and Winston.

Zone 5:

Louisiana Parishes

Bienville, Bossier, Caddo, Caldwell, Claiborne, De Soto, East Carroll, Franklin, Jackson, Lincoln, Madison, Morehouse, Ouachita, Red River, Richland, Tensas, Union, Webster, West Carroll and Winn.

Zone 4:

Alabama Counties

Barbour, Bullock, Choctaw, Dallas, Lowndes, Marengo, Montgomery, Pike, Sumter, and Wilcox.

Georgia Counties

Ben Hill, Bleckley, Bulloch, Candler, Clay, Crisp, Dodge, Dooly, Effingham, Emanuel, Evans, Jeff Davis, Jenkins, Johnson, Laurens, Lee, Montgomery, Pulaski, Quitman, Randolph, Screven, Steward, Sumter, Tattnall, Telfair, Terrell, Toombs, Treutlen, Turner, Webster, Wheeler, and Wilcox.

Mississippi Counties

Claiborne, Clarke, Copiah, Hinds, Issaquena, Jasper, Kemper, Lauderdale, Leake, Madison, Neshoba, Newton, Rankin, Scott, Sharkey, Simpson, Smith, Warren, and Yazoo.

Zone 7:

Alabama Counties

Coffee, Dale, Geneva, Henry and Houston.

Georgia Counties:

Appling, Atkins, Bacon, Baker, Berrien, Brantley, Brooks, Bryan, Calhoun, Camden, Charlton, Chatham, Clinch, Coffee, Coulquitt, Cook, Decatur, Dougherty, Early, Echols, Glynn, Grady, Irwin, Lanier, Liberty, Long, Lowndes, McIntosh, Miller, Mitchell, Pierce, Seminole, Thomas, Tift, Ware, Wayne and Worth.

Zone 8:

Alabama Counties:

Butler, Clarke, Conecuh, Covington, Crenshaw, Monroe, and Washington.

Louisiana Parishes

Avoyelles, Catahoula, Concordia, Grant, La Salle, Natchitoches, Rapides, Sabine and Vernon.

Mississippi Counties

Adams, Amite, Covington, Forrest, Franklin, Greene, Jefferson, Jefferson Davis, Jones, Lamar, Lawrence, Lincoln, Marion, Perry, Pike, Walthall, Wayne and Wilkinson.

Zone 9:

Alabama Counties:

Baldwin, Escambia and Mobile.

Florida Counties

Escambia, Okaloosa, Santa Rosa and Walton.

Louisiana Parishes

East Feliciana, St. Helena, St. Tammany, Tangipahoa, Washington and West Feliciana.

Mississippi Counties

George, Hancock, Harrison, Jackson, Pearl River and Stone.

Zone 10:

Louisiana Parishes

Acadia, Allen, Ascension, Assumption, Beauregard, Calcasieu, Cameron, East Baton Rouge, Evangaline, Iberia, Iberville, Jefferson, Jefferson Davis, Lafayette, Livingston, Pointe Coupee, St. James, St. John the Baptist, St. Landry, St. Martin, St. Mary, Vermilion and West Baton Rouge.

Zone 11

Louisiana Parishes

Jefferson, Lafourche, Orleans, Plaquemines, St. Bernard, St. Charles and Terrebonne.

§ 1093.13 Producer milk.

Producer milk means the skim milk and butterfat contained in milk of a producer that is:

(a) Received at a pool plant directly from such producer by the operator of the plant;

(b) Received by a handler described in § 1093.9(c); or

(c) Diverted from a pool plant to the pool plant of another handler. Milk so diverted shall be deemed to have been received at the location of the plant to which diverted; and

(d) Diverted by the operator of a pool plant or cooperative association to a nonpool plant that is not a producer-handler plant, subject to the following conditions:

(1) Not less than one day's production of the producer whose milk is diverted is physically received at a pool plant during the month;

(2) The total quantity of milk so diverted during any month by a cooperative association shall not exceed 40 percent of the producer milk for which the cooperative association is the handler;

(3) The operator of a pool plant that is not a cooperative association may divert any milk that is not under the control of a cooperative association that diverts milk during the month pursuant to paragraph (c)(2) of this section. The total quantity of milk so diverted during any month shall not exceed 40 percent of the producer milk for which the pool plant operator is the handler;

(4) Any milk diverted in excess of the limits prescribed in paragraphs (c) (2) and (3) of this section shall not be producer milk. The diverting handler shall designate the dairy farmer deliveries that will not be producer milk pursuant to paragraph (c) (2) and (3) of this section. If the handler fails to make such designation, no milk diverted by such handler shall be producer milk.

(5) To the extent that it would result in nonpool status for the plant from which diverted, milk diverted for the account of a cooperative association from the pool plant of another handler shall not be producer milk;

(6) The cooperative association shall designate the dairy farmer deliveries that are not producer milk pursuant to paragraph (c)(6) of this section. If the cooperative association fails to make such designation, no milk diverted by it to a nonpool plant shall be producer milk;

(7) Diverted milk shall be priced at the location of the plant to which diverted.

§ 1093.52 Plant location adjustments for handlers.

(a) For milk received at a plant from producers or a handler described in § 1093.9(c) and which is classified as Class I milk without movement in bulk form to a pool distributing plant at which a higher Class I price applies, the price specified in § 1093.50(a) shall be adjusted by the amount stated in paragraph (a) (1) through (4) of this section for the location of such plant:

(1) For a plant located within one of the zones set forth in § 1093.2 adjustment shall be as follows:

Zone	Adjustment per hundredweight (cents)
Zone 1	Minus 23.
Zone 2	Minus 16.
Zone 3	No adjustment.
Zone 4	Plus 10.
Zone 5	Plus 20.
Zone 6	Plus 27.
Zone 7	Plus 30.
Zone 8	Plus 37.
Zone 9	Plus 57.
Zone 10	Plus 63.
Zone 11	Plus 70.

Proposed by Associated Milk Producers, Inc.
Proposal No. 4:

PART 1108—MILK IN CENTRAL ARKANSAS MARKETING AREA

Revise § 1108.7(a) by changing the current paragraph (a) to (a)(1) and adding a new paragraph (2) to read as follows:

§ 1108.7 Pool plant.

* * * * *

(a) * * *

(2) A plant located in the marketing area that qualifies pursuant to paragraph (a)(1) of this section which also meets the pooling requirements of another Federal order on the basis of route disposition shall be subject to all the provisions of this part so long as this order's Class I price applicable at such plant location is not less than the other order's Class I price applicable at the same location even though the plant may have greater disposition in the other marketing area than in the Central Arkansas marketing area.

* * * * *

Proposed by the Dairy Division, Agricultural Marketing Service:

Proposal No. 5

Make such changes as may be necessary to make the entire marketing agreements and the orders conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the orders may be procured from the Market Administrator, Dorsal Newberry, USDA/AMS/Dairy Division, P.O. Box 49025, Atlanta, GA 30359, or from USDA/AMS/Dairy Division, Order Formulation Branch, room 2968-South Building, P.O. Box 96456, Washington, DC 20090-6456.

Copies of the transcript of testimony taken at the hearing will not be available for distribution through the Hearing Clerk's Office. If you wish to purchase a copy, arrangements may be made with the reporter at the hearing.

From the time that a hearing notice is issued and until the issuance of a final decision in a proceeding, Department employees involved in the decisional process are prohibited from discussing the merits of the hearing issues on an ex parte basis with any person having an interest in the proceeding. For this particular proceeding, the prohibition applies to employees in the following organizational units:

Office of the Secretary of Agriculture
Office of the Administrator, Agricultural Marketing Service
Office of the General Counsel
Dairy Division, Agricultural Marketing Service [Washington office only]
Office of the Market Administrator, Georgia, Alabama-West Florida, New Orleans-Mississippi, Greater Louisiana and Central Arkansas Marketing Areas

Procedural matters are not subject to the above prohibition and may be discussed at any time.

Signed at Washington, DC, on October 18, 1990.

Daniel Haley,
Administrator.

BILLING CODE 3410-02-M

Farmers Home Administration

7 CFR Part 1951

Recapture of Section 502 Rural Housing Subsidy

AGENCY: Farmers Home Administration, USDA.

ACTION: Proposed rule.

SUMMARY: The Farmers Home Administration (FmHA) proposes to revise the formula for the recapture of subsidy granted on section 502 rural housing loans. This action is necessary because of an accounting system change resulting from the September, 1987, Congressional mandated rural housing asset sale. The intended effect of this action is to adjust the formula to coincide with the revised method of applying monthly subsidy to interest credit accounts.

DATES: Comments must be received on or before December 24, 1990.

ADDRESSES: Submit written comments in duplicate to the Office of the Chief, Regulation, Analysis and Control Branch, FmHA, room 6348, South Agriculture Building, Washington, DC 20250. All written comments made pursuant to this notice will be available for public inspection during regular work hours at the above address.

FOR FURTHER INFORMATION CONTACT: Phil Girard, Senior Loan Specialist, Single Family Housing Servicing and Property Management Division, FmHA, room 5309, South Agriculture Building, Washington, DC, telephone (202) 382-1452.

SUPPLEMENTARY INFORMATION: This proposed rule has been reviewed under USDA procedures established in Department Regulation 1512-1 which implements Executive Order 12291 and has been determined to be "nonmajor." It will not result in an annual effect on the economy of $100 million or more; a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions, or significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Le Verne Anderson, Administrator, Farmers Home Administration has determined that this action will not have a significant economic impact on a substantial number of small entities because the change being proposed deals solely with revising the instruction concerning calculation of subsidy recapture on single family housing loans made by the Agency.

This action eliminates the two major problem areas associated with the present formula, compounding of principal reduction attributed to subsidy (PRAS) and not recognizing property improvements. PRAS and average interest rate have been deleted and credit for value added by capital improvements has been added to the calculation formula. The Subsidy Repayment Agreement has been deleted but the Interest Credit Agreement and the Promissory Note have been revised to better inform borrowers of their recapture obligation. Specific discussion, including examples, has been added that explains how to determine recapture on houses that are cross-collateralized with Farmer Program loans.

Since the inception of interest credit, FmHA's accounting system has accounted for subsidy granted by reducing the effective interest rate on the borrower's account rather than crediting the account with a fixed dollar amount. Because of this accounting system, principal on accounts that have received interest credit has been reduced at an accelerated rate. This is PRAS. This happens because payments, while the borrower is on interest credit, are applied at the effective (reduced) rate rather than at the note interest rate. This method of payment applications results in a faster writedown of principal than if payments were applied at the higher, note interest rate. Because principal reduction has been accelerated, this benefit continues after a borrower stops receiving interest credit.

The compounding of PRAS is a difficult concept to understand. Under the Agency's new accounting method of applying interest credit payments at the note rate with a non cash credit for subsidy, PRAS will be eliminated on

new accounts after the change. This will not, however, prevent the continuing effect of compounding PRAS on existing accounts. The only way to eliminate further compounding of PRAS is to add accumulated PRAS back to the borrower's unpaid principal balance. This would be a one time adjustment that would not increase the borrower's monthly installment and would only apply to loans approved on or after October 1, 1979 that have received interest credit. Another alternative considered was to save the PRAS "on the books" at the time of the accounting change and forgive the PRAS that compounds after that date. This would provide an unwarranted windfall to the borrower and would be fiscally unacceptable to the Government.

There have been many complaints regarding PRAS. It has been difficult to adequately resolve the complaints because PRAS is a concept that is hard to understand. It is not an entitlement. The intent was never to subsidize principal, only interest. Most borrowers know the unpaid balance on their accounts and the amount of interest credit they receive each month. They do not, however, know the amount of accumulated PRAS nor are most even aware that PRAS exists. As a result, borrowers perceive an inflated equity position in their property.

As proposed, recapture will be based on a percentage, not to exceed 50 percent, of value appreciation in the property determined by dividing months of interest credit by the number of months the loan was outstanding. The proposed changes will apply to all borrowers subject to recapture. In our opinion, both borrowers and the Government will benefit from the change.

Borrowers will get credit for home improvements and be relieved from the continuing effects of compounding PRAS. By providing value added credit for capital improvements, the proposed instruction will more fully comply with section 521(a)(1)(D) of the Housing Act of 1949 which requires incentives to maintain the property in a marketable condition. The credit for capital improvements is based on the value added by the improvements, not the cost to the borrower of making the improvements. Normally FmHA RH program loans are for 100 percent of the purchase price of the dwelling so the borrower has little or no equity. If credit is given for the value of capital improvements, the borrower will have an incentive to improve the property. The desire to protect the equity gained from these improvements will encourage proper maintenance of the security property.

The effect of the proposed changes is that the Government will get existing PRAS back in the form of unpaid principal, recapture interest credit, have a more effective and efficient debt collection system and a more straightforward program to administer.

This document has been reviewed in accordance with 7 CFR Part 1940, Subpart G, "Environmental Program." It is the determination of FmHA that the proposed action does not constitute a major Federal action significantly affecting the quality of the human environment and in accordance with the National Environment Policy Act of 1969, Public Law 91–190, an Environmental Impact Statement is not required.

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.410, Low-Income Housing Loans (Section 502 Rural Housing Loans), and is not subject to the provision of Executive Order 12372 which requires intergovernmental consultation with State and local officials. *See* 7 CFR 3015, subpart V (48 FR 29112, June 24, 1983) and FmHA Instruction 1940–J, "Intergovernmental Review of Farmers Home Administration Programs and Activities" (December 23, 1983).

List of Subjects in 7 CFR Part 1951

Account servicing, Recapture of subsidy.

Accordingly, FmHA proposes to amend chapter XVIII, part 1951, title 7, Code of Federal Regulations, as follows:

PART 1951—SERVICING AND COLLECTIONS

1. The authority citation for part 1951 continues to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

2. Subpart I of part 1951 is revised to read as follows:

Subpart I—Recapture of Section 502 Rural Housing Subsidy

Sec.
1951.401 [Reserved]
1951.402 Policy.
1951.403–1951.406 [Reserved]
1951.407 Determining the amount of recapture.
1951.408 Option to defer payment of recapture.
1951.409 Miscellaneous provisions.
1951.410 Elimination of principal reduction attributed to subsidy.
1951.411–1951.412 [Reserved]
1951.413 Internal agency management instructions.
1951.414–1951.450 [Reserved]

Subpart I—Recapture of Section 502 Rural Housing Subsidy

§ 1951.401 [Reserved]

§ 1951.402 Policy.

The policy of the Farmers Home Administration (FmHA) is to recapture all or a portion of subsidy granted on a section 502 loan, assumption or credit sale closed on or after October 1, 1979, when any equity exists in the secured property.

§§ 1951.403–1951.406 [Reserved]

§ 1951.407 Determining the amount of recapture.

(a) *Calculation.* Recapture will be calculated in the FmHA County Office and reported on Form Letter FmHA 1951–I–1, "Notification of Payoff Including Subsidy Recapture". Documentation of the recapture computation will be retained in the borrower's file.

(1) *When will recapture be calculated.* Recapture will be calculated when a borrower's account is settled by sale, refinancing or payment in full. If a borrower with multiple loans wants to pay off some, but not all of the loans, recapture will be calculated only if the remaining loan(s) is not subject to recapture.

(2) *How will recapture be calculated.* Value appreciation in the property will first be determined by subtracting from market value, in the following order, non-FmHA prior liens, unpaid balance of all FmHA loans against the property, farm equity recapture in accordance with subpart A of part 1965 of this chapter, sale/refinancing expense, original borrower equity and value of capital improvements. If there is no value appreciation, there will not be any recapture. If there is value appreciation, the percent available for recapture (not to exceed 50 percent) will be determined by dividing months of interest credit received by the number of months the loan was outstanding (partial months are to be considered as full months). This percent will be adjusted if the initial FmHA loan is not subject to recapture but a subsequent loan(s) is. If only a subsequent loan(s) is subject to recapture, the subsequent loan(s) amount will be divided by the amount of the total FmHA debt against the property, then multiplied by the percentage obtained above to determine the percent of value appreciation available for recapture. Recapture will be the lesser of subsidy granted or the amount of value appreciation available for recapture.

(3) *Notification of payoff.* The payoff amount on Form Letter FmHA 1951–I–1 is an estimated amount based on the information provided. There are many variables involved in determining a payoff including recapture. A change in the selling price or sales expense, for example, could result in a change in the payoff amount. To help assure the accuracy of the payoff information, the local FmHA County Office should be contacted 2 or 3 days before closing to verify the payoff amount.

(b) *Market value.* Market value refers to the fair market value of the property on the date the loan is to be paid in full as determined by the sales contract or the other lender's appraisal, if the loan is being refinanced, provided that the value reasonably represents the market value based on the County Supervisor's knowledge of the property and the area. The FmHA appraisal will be used in all other circumstances.

(c) *Sales/refinancing expenses.* Sales/refinancing expenses include unreimbursed expenses commonly associated with the sale or refinancing of real estate, such as sales commissions, advertising cost, recording fees, pro rata taxes, points based on the current interest rate, appraisal fees, transfer tax, deed preparation fee, loan origination fee, etc. In refinancing situations where the borrower is obtaining a loan for more than the FmHA debt, only allow points based on the amount of the FmHA debt. Recapture may be calculated using estimated expenses if actual expenses cannot be obtained and the County Supervisor is satisfied that the estimated amount and the proration of the expenses are accurate for the transaction.

(d) *Original borrower equity.* Original borrower equity will consist of an actual contribution by the borrower to the extent that the contribution reduces the amount of the FmHA loan below the market value of the house. The contribution can represent cash, value of the lot if the home was constructed on the borrower's property, or equity acquired by participation in the Self Help program.

(e) *Capital improvements.* Capital improvements that increase the value of the security property will be considered to the extent that the capital improvements do not exceed local market value contribution, as indicated by a sales comparison. Generally, value added by capital improvements will be the difference between market value at the time of sale and market value without the capital improvements. Maintenance costs (yard maintenance, painting, wallpapering, etc.) and replacement of short-lived components (roof, siding, floorcovering, appliances, furnace, water heater, etc.) are normal expenses associated with homeownership and are not considered capital improvements. Examples:

(1) A borrower sells security property including a garage added subsequent to closing for $50,000. A similar property without a garage sells for $42,000. The garage could have cost the borrower more or less than the $8,000 difference, but the value added credit will be $8,000.

(2) A borrower is refinancing and the property is appraised at $50,000, which includes a den and children's playroom finished in the basement subsequent to loan closing. Similar homes without finished basements are selling for $47,000. The improvements could have cost the borrower more or less than the $3,000 difference but the value added credit will be $3,000.

(3) A borrower encloses the carport and does the work. The project cost $1,500 but the workmanship was unprofessional and actually caused a decrease in the property value. Since no value was added, an adjustment for capital improvements would not be authorized.

(f) *Assumptions.* When a loan subject to recapture of subsidy is assumed, the amount of subsidy to be repaid by the transferor must be paid at closing or be assumed by the transferee and amortized with unpaid principal and interest. Exception: When a dwelling is situated on more than a minimum adequate site and all of the security property is not being transferred, if proceeds are insufficient to repay all of the recapture due, the amount of recapture not paid will be combined with the remaining debt of the retained property and amortized over a period not to exceed 10 years.

(1) When a loan approved before October 1, 1979, is assumed by a program transferee with very low, low or moderate income other than a divorced or deceased borrower's spouse or other relative as provided for in § 1965.126(c)(2) of subpart C of part 1965 of this chapter, a new or supplemental security instrument will be recorded to secure the recapture of subsidy which may be granted to the transferee. If a subsequent loan is made in connection with the assumption, a new security instrument will always be taken.

(2) When a loan approved before October 1, 1979, is assumed by a divorced or deceased borrower's spouse or other relative as authorized in § 1965.126(c)(2) of subpart C of part 1965 of this chapter, it will not become subject to recapture and a new security instrument will not be required. If a subsequent loan is also closed it will be subject to recapture and a new security instrument will be required for the subsequent loan.

(g) *Subsequent loan payoffs.* When only a subsequent loan(s) is being paid off and the remaining loan is subject to recapture, recapture will not be calculated. Recapture will be calculated when the account is paid in full, taking into consideration all subsidy that was granted on the account, including subsidy on a previously paid off subsequent loan(s). If the remaining loan is not subject to recapture, recapture will be calculated using an appraisal as market value in accordance with paragraph (a) of this section. In this situation, the borrower may defer payment of the recapture amount until the property is sold or, if refinanced, the recapture may be subordinated.

§ 1951.408 Option to defer payment of recapture.

If an account is refinanced, paid in full without transfer of title, or conveyed by the borrower to their spouse or child, the borrower has the option of paying recapture or of deferring payment until the property is sold. If payment is deferred, interest will not accure on the deferred balance and the promissory note will not be cancelled and mortgage securing the FmHA loan(s) will not be released of record until the total amount owed the government is paid. The FmHA mortgage securing the recapture amount, however, may be subordinated to permit refinancing in accordance with § 1965.106 of subpart C of part 1965 of this chapter, if the subordinated recapture is adequately secured.

§ 1951.409 Miscellaneous provisions

(a) *House on a farm.* Calculate a payoff with recapture on a crosscollaterized housing loan on a farm in accordance with paragraph (a) of §1951.407 of this subpart. Value appreciation will be determined based on the market value of the property being sold, paid off (including net recovery buyout) or refinanced. Recapture will be based on the portion of value appreciation attributed to the RH property. If the borrower is refinancing the house, the other lender's appraisal may be used if the County Supervisor believes the appraisal reasonably represents market value. Examples:

(1) Borrower has FO loan on 200 acres with a crosscollaterized RH loan. The 200 acre farm, including the house, is being sold for its current market value of $175,000. The market value of the house

and a minimum adequate site if on the farm or the house and lot if off the farm is $60,000 which is 20.6% of the market value of the farm. Value appreciation based on the market value of the farm (including the house) is $20,000. Recapture would be calculated based on an adjusted value appreciation of $5720 (28.6% of $20,000).

(2) Same situation as above except the borrower has added another 100 acres subsequent to loan closing. The 300 acres, including the house, has a market value of $280,000. The market value of the house is $50,000 which is 25% of the market value of the farm. The borrower would be given credit for the value added by the additional 100 acres and, if value appreciation was $25,000, recapture would be calculated based on an adjusted value appreciation of $6250 (25% of $25,000).

(3) This same borrower is selling 200 acres to the adjoining farmer and keeping the house and 10 acres. Since the house is not being sold, recapture would not be calculated.

(4) This same borrower sells 200 acres to the adjoining farmer and sells the house and 10 acres to a separate family. The payoff on the RH loan would be based only on the market value of the house and 10 acres. The farm loans would not be considered in the recapture calculation.

(b) *Reamortization.* Recapture will not be calculated when an account is reamortized.

(c) *Soldiers and Sailors Relief Act.* Interest reduced to 6 percent under this Act is not subject to recapture. If a borrower qualifies for interest credit after reduction to 6 percent, the amount of subsidy would be the difference between the interest credit payment and the payment at 6 percent interest, not the note rate payment. When a borrower receiving subsidy also qualifies under the Act, the amount of subsidy subject to recapture is computed by adding the subsidy calculated in the customary manner before qualification to the subsidy calculated herein after qualification.

(d) *Non-FmHA junior liens.* Non-FmHA junior liens are not considered in the recapture calculation. In the event a junior lienholder forecloses, recapture will be calculated before providing the lienholder with a payoff amount.

§ 1951.410 Elimination of principal reduction attributed to subsidy.

Principal reduction attributed to subsidy (PRAS) will be eliminated on new accounts under the Agency's new accounting method of applying the borrower's reduced payment at the note rate with a monthly non cash credit for the amount of interest credit. For borrowers who accrued PRAS prior to FmHA's conversion to the note rate subsidy method of granting interest assistance, FmHA will make a one-time adjustment by adding the accumulated PRAS to the unpaid principal balance. This adjustment will not increase the monthly installment and will allow the account to pay out over the full term rather than ahead of schedule. Affected borrowers will be notified of the amount and date of the adjustment.

§ 1951.411—1951.412 [Reserved]

§ 1951.413 Internal agency management instructions.

Internal agency management instructions are covered in FmHA instruction 1951–I, Recapture of section 502 Rural Housing Subsidy, which is available in any FmHA office.

§ 1951.414—1951.450 [Reserved]

3. Exhibits A and B of subpart I of part 1951 are removed and reserved.

Dated: August 16, 1990.

La Verne Ausman,

Administrator, Farmers Home Administration.

BILLING CODE 3410-07-M

Animal and Plant Health Inspection Service

9 CFR Part 113

[Docket No. 90-042]

Viruses, Serums, Toxins, and Analogous Products; Revision of Standard Requirements for Clostridium Bacterin-Toxoids and Tetanus Toxoid

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposed action would amend the test methods used in conducting potency tests for serial release of Clostridium Novyi Bacterin-Toxoid, Clostridium Sordellii Baterin-Toxoid, and Tetanus Toxoid. The current test methods for Clostridium Novyi Bacterin-Toxoid and Clostridium Sordellii Bacterin-Toxoid products require that potency be measured in a valid vaccination-challenge test in guinea pigs. The proposed tests for these products involve serological conversion in rabbits and quantitation of the antitoxins in mice. The potency of Tetanus Toxoid products is presently determined by measuring the neutralization capacity of pooled serum from vaccinated guinea pigs. In the proposed tests for Tetanus Toxoid products, an ELISA assay is used to quantitate the Antitoxin Units per ml of a serum pool derived from vaccinated guinea pigs. The proposed test procedures measure antitoxin responses which have been correlated to protective levels of antitoxin in the host species. These procedures would result in a more precise evaluation of potency of the products than test procedures which are currently being used. The proposed test procedures also allow for testing multiple antigens in the same test animals which results in using a reduced number of animals in potency tests for serial release.

DATE: Consideration will be given only to comments received on or before December 24, 1990.

ADDRESSES: Send an original and three copies of written comments to Chief, Regulatory Analysis and Development Staff, APHIS, USDA, room 866, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782. Please state that your comments refer to Docket No. 90–042. Comments received may be inspected at USDA, room 1141, South Building, 14th and Independence Avenue SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays.

FOR FURTHER INFORMATION CONTACT: Dr. David A. Espeseth, Deputy Director, Veterinary Biologics; Biotechnology, Biologics, and Environmental Protection, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, room 838, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, (301) 436–6332.

SUPPLEMENTARY INFORMATION:

Background

Clostridium Novyi Bacterin-Toxoid and Clostridium Sordellii Bacterin-Toxoid

The current Standard Requirements for Clostridium Novyi Bacterin-Toxoid and Clostridium Sordellii Bacterin-Toxoid specify that each serial of product must be tested for potency in guinea pigs prior to release. The test animals are vaccinated with a prescribed dose of the product. Fourteen to fifteen days after a second injection, vaccinated animals, along with an acceptable number of controls, are challenged with an applicable virulent organism generally furnished by the Animal and Plant Health Inspection Service (APHIS). For a test to be satisfactory, at least 80 percent of the guinea pigs used as controls must die during the 3-day post challenge observation period and seven of eight

treated animals must survive the challenge. If two of the vaccinated animals succumb to the challenge, the current standards provide for a second stage test. The use of virulent, spore forming challenge organisms in guinea pigs results in progressive, fatal disease in virtually all the controls. Using the present test procedure, guinea pigs can be tested for only a single antigen. Therefore, each product must be tested separately, since the test does not allow for differentiation of multicomponent products.

The Animal and Plant Health Inspection Service and the manufacturers of the products discussed in this proposal have cooperated in developing tests modeled after the potency test currently codified in §§ 113.98 and 113.97 for Clostridium Perfringens Type C Bacterin-Toxoid and Clostridium Perfringens Type D, Bacterin-Toxoid, respectively. The cooperative effort was undertaken to (1) Determine the minimum protective levels of antitoxin in sheep and cattle (animals for which the products in this proposal are indicated); and, (2) to develop a potency test that would correlate the serological response and protective levels of antitoxin in sheep and cattle to the serological response in rabbits. The tests which were developed allow for serological conversion in rabbits and quantitation of the antibody (antitoxin) level in mice. Using these tests, a product containing more than one antigen can be inoculated into rabbits and the serological responses to individual antigens measured in mice. Quantitating the response to individual antigens is accomplished by determining the neutralizing capacity of each antitoxin against its homologous antigen. For each antitoxin to be measured, an equal quantity of serum from each test rabbit is combined and tested as a single serum pool. At least seven rabbits are required to make an acceptable serum pool. Graded volumes of the undiluted serum pool are combined with prescribed amounts of diluted Standard Toxin, as specified in the proposed test procedures, and allowed to neutralize. Each resulting diluted mixture is then injected into five mice (for each antitoxin being measured). Although the highest dilution of antitoxin will not protect mice from death, the disease process is not progressive and therefore is more humane than the present spore challenge of guinea pigs.

The data accumulated from the cooperative studies with nine participating manufacturers has been analyzed. Based on that analysis, the Agency has concluded that the proposed potency tests conserve time and animals, are more humane, and are a more accurate measurement of the quantity of antigens in the products and the quality of antitoxins produced in host animals. The proposed tests are more precise than the current tests in evaluating products containing a single antigen or multiple antigens.

Tetanus Toxoid

The current Standard Requirement for Tetanus Toxoid specifies that each serial of product must be tested for potency in 10 guinea pigs. The test animals are vaccinated with a prescribed dose of the product and bled 6 weeks later. An equal volume of serum from each of at least 10 guinea pigs is combined to make a serum pool. A prescribed amount of serum from the pool is combined with a standard amount of tetanus toxin, and inoculated into additional guinea pigs to determine if the serum from the vaccinated guinea pigs contain sufficient antitoxin to neutralize the toxin. A failure to neutralize the toxin would result in the deaths of the innoculated guinea pigs. It has been determined that the pool of guinea pig serum must contain at least 2.0 antitoxin units (A.U.) per ml for the product serial to be satisfactory. If the serial test is unsatisfactory, the pooled serum can be retested using 20 guinea pigs.

APHIS and manufacturers of Tetanus Toxoid developed an assay method to replace the current toxin neutralization test conducted in guinea pigs. The cooperative effort resulted in an enzyme-linked immunosorbent assay (ELISA) which accurately quantitates the A.U. per ml of the serum pool from the guinea pigs vaccinated with toxoid without requiring the inoculation and death of the additional guinea pigs used in the toxin neutralization test. The minimum antitoxin level required for a satisfactory guinea pig serum pool would be retained at 2 A.U. per ml. Because the ELISA is more precise than the toxin neutralization test, the prescribed retest of unsatisfactory serials would be conducted in 10 rather than 20 animals.

The Agency analyzed the data accumulated from cooperative studies with six participating manufacturers. It has concluded that the proposed potency test would conserve time and animals, and is more humane and economical than the current potency test. This proposed test accurately measures the quantity of antitoxin(s) produced by the product in susceptible host species.

The proposal specifies that the antitoxin level shall be determined by an ELISA acceptable to the Animal and Plant Health Inspection Service. The Agency has prepared a Supplemental Assay Method (SAM) in accordance with 9 CFR 113.2(a) which details the ELISA test procedure that is used by the animal and Plant Health Inspection Service.

Executive Order 12291 and Regulatory Flexibility Act

This proposed rule is issued in conformance with Executive Order 12291 and Departmental Regulation 1512–1 and has been determined not to be a "major rule." Based on information compiled by the Department, it has been determined that this proposed rule would have an effect on the economy of less than $100 million; would not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions, and would not cause a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. The purpose of this proposed action is to codify in the Standard Requirements updated procedures for conducting potency tests for serial release that are more economical, more humane, and more accurate than the current test procedures in measuring the quantity of antigen and quality of these products.

Under these circumstances, the Administrator of APHIS has determined that this action would not have significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

This proposed rule contains no new information collection or recordkeeping requirements under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et. seq.*).

Executive Order 12372

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR 3015, subpart V.)

List of Subjects in 9 CFR Part 113

Animal biologics.

PART 113—STANDARD REQUIREMENTS

Accordingly, title 9, Code of Federal Regulations, would be amended as follows:

1. The authority citation for part 113 would continue to read as follows:

Authority: 21 U.S.C. 151–159; 7 CFR 2.17, 2.55, and 371.2(d).

2. In § 113.93, paragraph (c), would be revised to read as follows:

§ 113.93 Clostridium novyi Bacterin-Toxoid.

* * * * *

(c) *Potency test.* Bulk or final container samples of completed product from each serial shall be tested for potency using the Alpha toxin-neutralization test provided in this paragraph.

(1) When used in this test, the following words and terms shall mean:

(i) *International antitoxin unit.* (I.U.) That quantity of Alpha Antitoxin which reacts with Lo and L+ doses of Standard Toxin according to their definitions.

(ii) *Lo dose.* The largest quantity of toxin which can be mixed with one unit of Standard Antitoxin and not cause sickness or death in injected mice.

(iii) *L+ dose.* The smallest quantity of toxin which can be mixed with one unit of Standard Antitoxin and cause death in at least 80 percent of injected mice.

(iv) *Standard antitoxin.* The Alpha Antitoxin preparation which has been standardized as to antitoxin unitage on the basis of the International *Clostridium novyi* Alpha Antitoxin Standard and which is either supplied by or acceptable to the Animal and Plant Health Inspection Service. The antitoxin unit value shall be stated on the label.

(v) *Standard toxin.* The Alpha toxin preparation which is supplied by or is acceptable to the Animal and Plant Health Inspection Service.

(vi) *Diluent.* The solution used to make proper dilutions prescribed in this test. Such solutions shall be made by dissolving 1 gram of peptone and 0.25 gram of sodium chloride in each 100 ml of distilled water; adjusting the pH to 7.2; autoclaving at 121° C for 25 minutes; and storing at 4° C until used.

(2) Each of at least eight rabbits of a strain acceptable to the Animal and Plant Health Inspection Service, each weighing 4–8 pounds, shall be injected subcutaneously with not more than half of the recommended cattle dose. *Provided,* That, if the product is recommended only for sheep, half of the recommended sheep dose shall be used. A second dose shall be given not less than 20 days nor more than 23 days after the first dose.

(3) Fourteen to seventeen days after the second dose, all surviving rabbits shall be bled, and the serum tested for antitoxin content.

(i) At least seven rabbits are required to make an acceptable serum pool.

(ii) Equal quantities of serum from each rabbit shall be combined and tested as a single pooled serum.

(iii) If less than seven rabbits are available, the test is invalid and shall be repeated: *Provided,* That, if the test is not repeated, the serial shall be declared unsatisfactory.

(4) The antitoxin content of the rabbit serums shall be determined by the serum neutralization test as follows:

(i) Make a dilution of Standard Antitoxin to contain 0.1 International Unit of antitoxin per ml.

(ii) Make a dilution of Standard Toxin in which 0.1 Lo dose is contained in a volume of 1 ml or less. Make a second dilution of Standard Toxin in which 0.1 L+ dose is contained in a volume of 1 ml or less.

(iii) Combine 0.1 International Unit of Standar Antitoxin with 0.1 Lo dose of diluted Standard Toxin and combine 0.1 International Unit of Standard Antitoxin with 0.1 L+ dose of diluted Standard Toxin. Each mixture is adjusted to a final volume of 2.0 ml with diluent.

(iv) Combine 0.1 Lo dose of diluted Standard Toxin with a 0.2 ml volume of undiluted serum. The mixture is adjusted to a final volume of 2.0 ml with diluent.

(v) Neutralize all toxin-antitoxin mixtures at room temperature for 1 hour and hold in ice water until injections of mice can be made.

(vi) Five Swiss white mice, each weighing 18–20 grams, shall be used for each toxin-antitoxin mixture. A dose of 0.2 ml shall be injected intravenously into each mouse. Conclude the test 72 hours post injection and record all deaths.

(5) Test interpretation shall be as follows:

(i) If any mice inoculated with the mixture of 0.1 International Unit of Standard Antitoxin and 0.1 Lo doses of Standard Toxin die, the results of the serum neutralization test are inconclusive and shall be repeated: *Provided,* That, if the test is not repeated, the serial shall be declared unsatisfactory.

(ii) If less than 80 percent of the mice inoculated with the mixture of 0.1 International Unit of Standard Antitoxin and 0.1 L+ doses of Standard Toxin die, the results of the serum neutralization test are inconclusive and shall be repeated: *Provided,* That, if the test is not repeated, the serial shall be declared unsatisfactory.

(iii) If any mice inoculated with the mixture of 0.2 ml undiluted serum with 0.1 Lo dose of Standard Toxin die, the serum is considered to contain less than 0.50 International Units per ml.

(iv) If the single pooled serum from seven or more rabbits contains less than 0.5 International Unit per ml, the serial is unsatisfactory.

3. In § 113.94, paragraph (c), would be revised to read as follows:

§ 113.94 Clostridium Sordellii Bacterin-Toxoid.

* * * * *

(c) *Potency test.* Bulk or final container samples of completed product from each serial shall be tested for potency using the toxin-neutralization test provided in this paragraph.

(1) When used in this test, the following words and terms shall mean:

(i) *International antitoxin unit.* (I.U.) That quantity of antitoxin which reacts with Lo and L+ doses of Standard Toxin according to their definitions.

(ii) *Lo dose.* The largest quantity of toxin which can be mixed with one unit of Standard Antitoxin and not cause sickness or death in injected mice.

(iii) *L+ dose.* The smallest quantity of toxin which can be mixed with one unit of Standard Antitoxin and cause death in at least 80 percent of injected mice.

(iv) *Standard antitoxin.* The antitoxin preparation which has been standardized as to antitoxin unitage on the basis of the International *Clostridium sordellii* Antitoxin Standard and which is either supplied by or acceptable to the Animal and Plant Health Inspection Service. The antitoxin unit value shall be stated on the label.

(v) *Standard toxin.* The toxin preparation which is supplied by or is acceptable to the Animal and Plant Health Inspection Service.

(vi) *Diluent.* The solution used to make proper dilutions prescribed in this test. Such solutions shall be made by dissolving 1 gram of peptone and 0.25 gram of sodium chloride in each 100 ml of distilled water; adjusting the pH to 7.2; autoclaving at 121° C for 25 minutes; and storing at 4° C until used.

(2) Each of at least eight rabbits of a strain acceptable to the Animal and Plant Health Inspection Service, each weighing 4–8 pounds, shall be injected subcutaneously with not more than half of the recomended cattle dose. *Provided,* That, if the product is recommended only for sheep, half of the recommended sheep dose shall be used. A second dose shall be given not less than 20 days nor more than 23 days after the first dose.

(3) Fourteen to seventeen days after the second dose, all surviving rabbits shall be bled, and the serum tested for antitoxin content.

(i) At least seven rabbits are required to make an acceptable serum pool.

(ii) Equal quantities of serum from each rabbit shall be combined and tested as a single pooled serum.

(iii) If less than seven rabbits are available, the test is invalid and shall be repeated: *Provided,* That, if the test is not repeated, the serial shall be declared unsatisfactory.

(4) The antitoxin content of the rabbit serums shall be determined by the serum neutralization test as follows:

(i) Make a dilution of Standard Antitoxin to contain 1.0 international unit of antitoxin per ml.

(ii) Make a dilution of Standard Toxin in which 1.0 Lo dose is contained in a volume of 1 ml or less. Make a second dilution of Standard Toxin in which 1.0 L+ dose is contained in a volume of 1 ml or less.

(iii) Combine 1.0 International Unit of Standard Antitoxin with 1.0 Lo dose of diluted Standard Toxin and combine 1.0 International Unit of Standard Antitoxin with 1.0 L+ dose of diluted Standard Toxin. Each mixture is adjusted to a final volume of 2.0 ml with diluent.

(iv) Combine 1.0 Lo dose of diluted Standard Toxin with a 1.0 ml volume of undiluted serum. This mixture is adjusted to a final volume of 2.0 ml with diluent.

(v) Neutralize all toxin-antitoxin mixtures at room temperature for 1 hour and hold in ice water until injections of mice can be made.

(vi) Five Swiss white mice, each weighing 16–20 grams, shall be used for each toxin-antitoxin mixture. A dose of 0.2 ml shall be injected intravenously into each mouse. Conclude the test 72 hours post injection and record all deaths.

(5) Test interpretation shall be as follows:

(i) If any mice inoculated with the mixture of 1.0 International Unit of Standard Antitoxin and 1.0 *Lo* doses of Standard Toxin die, the results of the serum neutralization test are inconclusive and shall be repeated: *Provided,* That, if the test is not repeated, the serial shall be declared unsatisfactory.

(ii) If less than 80 percent of the mice inoculated with the mixture of 1.0 International Unit of Standard Antitoxin and 1.0 L+ doses of Standard Toxin die, the results of the serum neutralization test are inconclusive and shall be repeated: *Provided,* That, if the test is not repeated, the serial shall be declared unsatisfactory.

(iii) If any mice inoculated with the mixture of 1.0 ml undiluted serum with 1.0 Lo dose of Standard Toxin die, the serum is considered to contain less than 1.0 International Units per ml.

(iv) If the single pooled serum from seven or more rabbits contains less than 1.0 International Unit per ml, the serial is unsatisfactory.

4. In § 113.99, paragraph (c), would be revised to read as follows:

§ 113.99 Tetanus Toxoid.

* * * * *

(c) *Potency test.* Bulk or final container samples of completed product from each serial shall be tested for potency. A group of 10 guinea pigs consisting of an equal number of males and females weighing 450 to 550 grams shall each be injected subcutaneously with 0.4 of the horse dose recommended on the product label.

(1) Six weeks after injection, all surviving guinea pigs shall be bled and equal portions of serum from at least eight guinea pigs, but not less than 0.5 ml from each, shall be pooled. Serum from not less than eight animals shall be used.

(2) The antitoxin titer of the pooled serum shall be determined in antitoxin units (A.U.) per ml using an enzyme-linked immunosorbent assay method acceptable to the Animal and Plant Health Inspection Service.

(3) If the antitoxin titer of the serum pool is at least 2.0 A.U. per ml, the serial is satisfactory. If the antitoxin titer of the serum pool is less than 2.0 A.U. per ml, the serial may be retested by the following procedure: *Provided,* That, if the serial is not retested, it shall be declared unsatisfactory.

(4) For serials in which the serum pool contains less than 2.0 A.U. per ml, the individual sera that constituted the pool may be tested by the enzyme-linked immunosorbent assay. If at least 80 percent of the individual serums have an antitoxin titer of at least 2.0 A.U. per ml, the serial is satisfactory. If less than 80 percent of the individual serums have an antitoxin titer of at least 2.0 A.U. per ml, the serial may be retested in 10 guinea pigs using the procedure described in (c) (1) and (2) above. The antitoxin titer of the pooled serum from the guinea pigs used in the retest shall be averaged with the antitoxin level of the pooled serum from the initial test. If the average of the two pools is at least 2.0 A.U. per ml, the serial is satisfactory. If the average of the two pools is less than 2.0 A.U. per ml, the serial is unsatisfactory and shall not be retested further.

Done in Washington, DC, this 19 day of October 1990.

James W. Glosser,

Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 720

[Docket No. 88P-0130]

Modification in Voluntary Registration of Cosmetic Product Ingredient and Raw Material Composition Statements

AGENCY: Food and Drug Administration, HHS.

ACTION: Proposed rule.

SUMMARY: The Food and Drug Adminstration (FDA) is proposing to modify its program of voluntary filing of cosmetic product formulations and raw material compositions by eliminating the reporting of semiquantitative ingredient information, integrating raw material composition disclosures into cosmetic product formulation statements, and discontinuing the form for reporting raw material compositions. This proposal is in response to a petition filed by the Cosmetic, Toiletry and Fragrance Association. In addition, FDA is proposing clarifying changes to update and to remove references from its regulations that would be obsolete if this proposal becomes final. The proposed changes will have no significant effect on the quality of the cosmetic registration program.

DATES: Written comments by December 24, 1990. The proposed effective date of the final rule based on this proposal is 30 days after its date of publication in the Federal Register.

ADDRESSES: Written comments to the Dockets Management Branch (HFA–305), Food and Drug Administration, rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Raymond L. Decker, Jr., Center for Food Safety and Applied Nutrition (HFT–444), Food and Drug Administration, 200 C Street SW., Washington, DC 20204, 202–245–1493.

SUPPLEMENTARY INFORMATION: The regulations in 21 CFR part 720 provide for the voluntary filing of cosmetic product ingredient and cosmetic raw material composition statements. On May 15, 1989, the Cosmetic, Toiletry and

Fragrance Association (CTFA) petitioned FDA to amend 21 CFR part 720 by removing the requirement for declaration of semiquantitative ingredient information on cosmetic product ingredient statements (Form FDA 2512) and by discontinuing the voluntary filing of cosmetic raw material composition statements (Form FDA 2513). CTFA further requested that the participants in the voluntary registration program be permitted to follow the new filing procedures without awaiting completion of the rulemaking process. CTFA argued in its petition that these revisions of 21 CFR part 720 would not reduce the value of the information reported to the agency, and that a less burdensome registration process would increase participation in this voluntary program (Ref. 1).

Modification of the registration process was first suggested by CTFA in a letter to the agency dated February 3, 1989. In that letter, CTFA urged FDA to discontinue the requirement that semiquantitative information be submitted to the agency (Ref. 2). At a meeting with CTFA representatives on March 9, 1989, FDA suggested that, because of the requirement for cosmetic ingredient labeling and the associated disclosure of ingredient compositions, firms could also discontinue their submission of cosmetic raw material composition statements on Form FDA 2513 without compromising the value of the information registered with the agency (Ref. 3). FDA confirmed this view in a letter to CTFA dated March 10, 1989 (Ref. 4).

On September 28, 1989, FDA informed CTFA that the agency did not object to the immediate discontinuation of disclosure of semiquantitative data on cosmetic product ingredient statements (Ref. 5). However, the agency did not accede to the request for immediate discontinuation of the use of Form FDA 2513. This form has served as a vehicle not only for filing of proprietary cosmetic raw material compositions but also for registering "base" or "master batch" formulations, mostly by contract manufacturers, to which other ingredients are added to complete various product formulations with specific characteristics that differ from those of the respective base or master batch. If a base that has been filed with FDA on a Form FDA 2513 is processed into a product, and the product formulation is voluntarily registered on a Form FDA 2512, the base formulation is declared on the Form FDA 2512 as a single ingredient. If Form FDA 2513 is to be discontinued, FDA will need to ensure that there are arrangements, and instructions for registering base formulations as well as finished product formulations on Form FDA 2512 and for cross-referencing such registrations.

I. Proposed Changes in Voluntary Registration

FDA is proposing to grant CTFA's petition to change the requirement for voluntary registration of cosmetic product ingredient statements and to discontinue the registration of cosmetic raw material composition statements. FDA concurs with CTFA that it is not necessary to continue to disclose semiquantitative data on Form FDA 2512 because information on customary use concentrations of cosmetic ingredients is readily available in the cosmetic technical literature. In cases involving specific toxicological issues, where precise information about the concentration of a suspected ingredient in a product is needed, semiquantitative data offer little or no assistance in determining the safety or harmfulness of an ingredient or of the product in which it is present.

To reflect its tentative determination, FDA is proposing to amend 21 CFR 720.4(d)(1) by removing the requirement that the list of each ingredient in a cosmetic product in descending order of predominance on Form FDA 2512 be accompanied by a letter (A through H) designating the percentage of the ingredient added. The agency is also proposing to amend § 720.4 by removing paragraphs (d)(1)(i) through (d)(1)(viii) that specify the letters (A through H) to be used to designate the percentage of the ingredient added.

FDA further proposes that Form FDA 2513 for voluntary registration of cosmetic raw material compositions, including proprietary raw material mixtures and formulations of fragrances, flavors, and "bases" or "master batches," be discontinued. The ingredient labeling regulations (21 CFR 701.3), adopted after the voluntary registration of cosmetic product ingredient and raw material composition statements was initiated, requires the declaration on the label of the names of each ingredient (except the name of each flavor or fragrance ingredient), whether the ingredient is added to the product formulation as a single entity or added as a component of a mixture of ingredients. FDA proposes that this method of ingredient disclosure also be adapted for the voluntary registration of cosmetic product formulations on Form FDA 2512 to simplify the registration process.

With the discontinuance of Form FDA 2513, FDA proposes to amend the regulations in 21 CFR part 720 by removing the requirements regarding the filing of Form FDA 2513 in 21 CFR 720.1(b), 720.2(b), and 720.4(b). The agency also proposes to remove and reserve § 720.5 *Information requested about cosmetic raw materials*, which defines the contents of Form FDA 2513. In addition, FDA proposes to remove 21 CFR 720.9(b) which permits the uses of the Food and Drug Administration Cosmetic Raw Material Composition Statement Number (FDA CRMCS No.). If the agency adopts its proposal to discontinue the filing of raw materials statements, it will no longer assign numbers to these statements. Therefore, there will no longer be a need for a regulation that provides for the use of these numbers.

Other information currently registered on Form FDA 2513, namely, formulations representing a fragrance, flavor, "base," or "master batch," may, if this proposal is adopted, be registered on Form FDA 2512 as further explained elsewhere in this proposed rule.

While reviewing the remaining reporting requirements of 21 CFR part 720 and the impact of the reported information on the quality of the voluntary reporting program, FDA has identified several additional items in data reporting that it is proposing to change or to remove as appropriate.

Because of an administrative change in the identification of forms for filing cosmetic formulations and raw material composition statements, FDA is proposing that the new designations "Form FDA 2512" (for former "Form FD–2512") and "Form FDA 2514" (for former Form FD–2514") be adopted throughout the regulation.

FDA is proposing to remove from 21 CFR 720.4(c)(12) the skin care preparation categories "Hormone," "Skin lighteners," and "Wrinkle smoothing (removers)." These designations have consistently been the subject of regulatory controversy because these designations identify cosmetics that legally are also drugs. These designations were included in the list of product categories when the regulation was published in the Federal Register of April 11, 1972 (37 FR 7151), to permit the registration of these types of products as cosmetics but with the understanding that these products usually are legally drugs and cosmetics. However, this listing has been interpreted by cosmetic manufacturers and others to mean that FDA considers these products to be exclusively cosmetics. Removal of these category designations and registration of such products, if they are also cosmetics, under the remaining category

designations is expected to prevent future misunderstanding. For the same reason, FDA is proposing to change the designation of the suntan product category (21 CFR 720.4(c)(13)) to "Suntan preparations."

FDA is further proposing to change the name of the category "Face, body, and hand (excluding shaving preparations)" in 21 CFR 720.4(c)(12)(iii) to "Face and neck (excluding shaving prepartions)" and adding the new category "Body and hand (excluding shaving preparations)" in paragraph 21 CFR 720.4(c)(12)(iv). These changes permit more precise classification of skin care preparations according to human body exposure and accommodate proper categorization of products currently classified under "Hormore," "Skin lighteners," and "Wrinkle smoothing (removers)."

FDA proposes in revised § 720.4(d) that each ingredient listed on Form FDA 2512, including each ingredient that consists of a mixture of ingredients, be identified by the name appropriate for cosmetic ingredient labeling pursuant to § 701.3(c). Under the revised regulation, an ingredient representing a voluntarily registered formulation of a fragrance or flavor, or of a "base" or "master batch," would be identified as "fragrance," "flavor," "fragrance and flavor" or "base formulation," as appropriate, and by stating its FDA-assigned cosmetic product ingredient statement number. The agency proposes to amend § 720.4 by redesignating paragraph (d)(3) as paragraph (d)(5), by revising paragraphs (d)(2) and newly redesignated (d)(5), and by adding paragraphs (d)(3) and (d)(4).

FDA proposes to revise redesignated paragraph (d)(5) by removing the requirement for providing the product name or trade name for a fragrance or flavor mixture as well as the supplier's name. A review of the value of this information to FDA or others when released in accordance with § 720.8 and Freedom of Information regulations (21 CFR part 20) has demonstrated that it has not been as useful as originally envisioned.

FDA is not proposing to make the modification of 21 CFR 720.8 that CTFA requested. CTFA suggested dividing 21 CFR 720.8 into two sections by establishing an additional section consisting of paragraphs (b)(1) through (b)(6). The agency does not find any basis to conclude that the recommended change will clarify the existing regulation.

II. References

The following references have been placed on display in the Dockets Management Branch (address above) and may be seen by interested persons between 9 a.m. and 4 p.m., Monday through Friday.

1. Petition of May 15, 1989 [Docket No. 89P-0180/0001] from the Cosmetic, Toiletry and Fragrance Association requesting amendment of 21 CFR part 720 to permit a simplified format for filing cosmetic product ingredient statements.

2. Letter of February 3, 1989, from the President, Cosmetic, Toiletry and Fragrance Association, to the Commissioner of Food and Drugs recommending adoption of a simplified format for filing statements of cosmetic product ingredients.

3. Memorandum of meeting of March 9, 1989, between representatives of the Food and Drug Administration and the Cosmetic, Toiletry and Fragrance Association on the issue of modification of the voluntary cosmetic registration program.

4. Letter of March 10, 1989, from the Commissioner of Food and Drugs to the President, Cosmetic, Toiletry and Fragrance Association, expressing concurrence with the suggested modification of the process of voluntary filing of cosmetic product ingredient statements.

5. Letter of September 28, 1989, from the Acting Associate Commissioner for Regulatory Affairs, Food and Drug Administration, to the President, Cosmetic, Toiletry and Fragrance Association, concurring with the interim adoption of filing cosmetic ingredient information on Form FDA 2512 without disclosure of semiquantitative data.

III. Reporting Forms

FDA will redesign Form FDA 2512 to accommodate the proposed changes and deletions. The current form may be used without detriment to register cosmetic product ingredient statements in accordance with the revised requirements. The agency will maintain a sufficient inventory of the current form to meet the requirements of participating firms and to ensure continuity of voluntary participation in the registration of cosmetic formulations. If the agency adopts this proposal, FDA will discontinue Form FDA 2513 at the time the final rule becomes effective. Form FDA 2514 remains unchanged. FDA will modify the instructions for completing Forms FDA 2512 and FDA 2514 and voluntary filing of cosmetic formulations, including those representing a "base formulation" or "master batch," in accordance with the proposed modifications of 21 CFR part 720.

IV. Paperwork Reduction Act of 1980

This proposed rule contains information collections which are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35). The title, description, and respondent description of the information collections are shown below with an estimate of the annual reporting and recording burden. Included in the estimate is the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Title: Modification in Voluntary Registration of Cosmetic Product Ingredient and Raw Material Composition Statements.

Description: The Food and Drug Administration is proposing to modify its program of voluntary filing of cosmetic product formulations and raw material compositions by eliminating the reporting of semiquantitative ingredient information, integrating raw material composition disclosures into cosmetic product formulation statements, and discontinuing the form for reporting raw material compositions (FDA 2513). This proposal would have no significant impact on the quality of the cosmetic registration program. The existing information collections have been approved under OMB Nos. 0910-0028, 0910-0030, and 0910-0031.

Description of Respondents: Businesses or other for-profit organizations.

Estimated Annual Reporting and Recordkeeping Burden

Section	Annual number of respondents	Annual frequency	Average burden per response	Annual burden hours
21 CFR 720.4 (Form FDA 2512)				
Existing	280	10	0.5	1,400
Proposed	310	10	0.5	930
21 CFR 720.5 (Form FDA 2513)				
Existing	40	10	0.5	200
Proposed	0	10	0	0

Section	Annual number of respondents	Annual frequency	Average burden per response	Annual burden hours
21 CFR 720.6 (Forms FDA 2512 and FDA 2514)				
Existing	2,250	1	0.2	510
Proposed	2,250	1	0.1	258
21 CFR 720.8 (Forms FDA 2512 and FDA 2514)				
Existing	12.5	1	(1)	(1)
Proposed	4	1	(1)	(1)

(1) Included in 21 CFR 720.4, 720.5 or 720.6.
Total existing annual burden hours, 2,100.
Total existing proposed burden hours, 1,158.
Total burden hours difference, 922 (44 percent reduction).

As required by section 3504(h) of the Paperwork Reduction Act of 1980, FDA has submitted a copy of this proposed rule to OMB for its review of these information collection requirements. Other organizations and individuals desiring to submit comments regarding this burden estimate or any aspects of these information collection requirements, including suggestions for reducing the burdens, should direct them to FDA's Dockets Management Branch (address above) and to the Office of Information and Regulatory Affairs, OMB, rm. 3208, New Executive Office Bldg., Washington, DC 20503, Attn: Desk Officer for FDA.

V. Environmental and Economic Impact

The agency has determined under 21 CFR 25.24(a)(11) that this proposed action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

In accordance with Executive Order 12291, FDA has carefully analyzed the economic effects of this proposal and has determined that the final rule, if promulgated, will not be a major rule as defined by the Order.

FDA, in accordance with the Regulatory Flexibility Act, has considered the effect that this proposal would have on small entities including small businesses and has determined that no significant impact on a substantial number of small entities will derive from this action.

Interested persons may, on or before December 24, 1990, submit to the Dockets Management Branch (address above) written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 720

Confidential business information, Cosmetics, Reporting and recordkeeping requirements.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, it is proposed that 21 CFR part 720 be amended as follows:

PART 720—[AMENDED]

1. The heading for part 720 is revised to read as follows:

PART 720—VOLUNTARY FILING OF COSMETIC INGREDIENT STATEMENTS

2. The authority citation for 21 CFR part 720 continues to read as follows:

Authority: Secs. 201, 301, 601, 602, 701, 704 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321, 331, 361, 362, 371, 374).

3. Sections 720.1, 720.2, and 720.3 are revised to read as follows:

§ 720.1 Who should file.

Either the manufacturer, packer, or distributor of a cosmetic product is requested to file Form FDA 2512 ("Cosmetic Product Ingredient Statement"), whether or not the cosmetic product enters interstate commerce. This request extends to any foreign manufacturer, packer, or distributor of a cosmetic product exported for sale in any State as defined in section 201(a)(1) of the Federal Food, Drug, and Cosmetic Act. No filing fee is required.

§ 720.2 Time for filing.

Within 180 days after forms are made available to the industry, Form FDA 2512 should be filed for each cosmetic product being commercially distributed as of the effective date of this part. Form FDA 2512 should be filed within 60 days after the beginning of commercial distribution of any product not covered within the 180-day period.

§ 720.3 How and where to file.

Forms FDA 2512 and FDA 2514 ("Discontinuance of Commercial Distribution of Cosmetic Product") are obtainable on request from the Food and Drug Administration, Department of Health and Human Services, Washington, DC 20204, or at any Food and Drug Administration district office. The completed form should be mailed or delivered to: Cosmetic Product Statement, Food and Drug Administration, Department of Health and Human Services, Washington, DC 20204, according to the instructions provided with the forms.

4. Section 720.4 is amended in the introductory texts of paragraphs (a) and (b) by removing "FD–2512" and replacing it with "FDA 2512"; by removing paragraph (b)(5); by revising paragraphs (c)(12)(iii) through (c)(12)(v), (c)(12)(ix), and (c)(12)(x); by removing paragraphs (c)(12)(xi) and (c)(12)(xii); by revising the paragraph heading in the introductory text of paragraph (c)(13); by revising paragraph (d); and by removing in paragraph (e) "FD–2512" in the first and second sentences and replacing it with "FDA 2512" to read as follows:

§ 720.4 Information requested about cosmetic products.

* * * * *

(c) * * *

(12) * * *

(iii) Face and neck (excluding shaving preparations).

(iv) Body and hand (excluding shaving preparations).

(v) Foot powders and sprays.

* * * * *

(ix) Skin fresheners.

(x) Other skin care preparations.

(13) *Suntan preparations.* * * *

* * * * *

(d) Ingredients in the product should be listed as follows:

(1) A list of each ingredient of the cosmetic product in descending order of predominance by weight (except that the fragrance and/or flavor may be designated as such without naming each individual ingredient when the

manufacturer or supplier of the fragrance and/or flavor refuses to disclose ingredient data).

(2) An ingredient should be listed by the name adopted by the Food and Drug Administration (FDA) for that ingredient pursuant to § 701.3(c) of this chapter.

(3) In the absence of a name adopted by FDA pursuant to § 701.3(c) of this chapter, its common or usual name, if it has one, or its chemical or technical name should be listed.

(4) If an ingredient is a mixture, each ingredient of the mixture should be listed in accordance with paragraphs (d)(2) and (d)(3) of this section, unless such mixture is a formulation voluntarily registered on Form FDA 2512, in which case such mixture should be identified as "fragrance," "flavor," "fragrance and flavor" or "base formulation," as appropriate, and by stating its FDA-assigned cosmetic product ingredient statement number.

(5) When the manufacturer or supplier of a fragrance and/or flavor refuses to disclose ingredient data, the fragrance and/or flavor should be listed as such. The nonconfidential listing of the product name and/or trade name or name of the manufacturer or supplier of each proprietary fragrance and/or flavor mixture is optional.

* * * * *

§ 720.5 [Removed and Reserved]

5. Section 720.5 *Information requested about cosmetic raw materials* is removed and reserved.

6. Sections 720.6 and 720.7 are revised to read as follows:

§ 720.6 Amendments to statement.

Changes in the information requested under § 720.4 (a)(3) and (a)(5) on the ingredients or brand name of a cosmetic product should be submitted by filing an amended Form FDA 2512 within 60 days after the product is entered into commercial distribution. Other changes do not justify immediate amendment, but should be shown by filing an amended Form FDA 2512 within a year after such changes. Notice of discontinuance of commercial distribution of a cosmetic product should be submitted by Form FDA 2514 within 180 days after discontinuance of commercial distribution becomes known to the person filing.

§ 720.7 Notification of person submitting cosmetic product ingredient statement.

When Form FDA 2512 is received, FDA will either assign a permanent cosmetic product ingredient statement number or a Food and Drug Administration reference number in those cases where a permanent number cannot be assigned. Receipt of the form will be acknowledged by sending the individual signing the statement an appropriate notice bearing either the FDA reference number or the permanent cosmetic product ingredient statement number. If the person submitting Form FDA 2512 has not complied with § 720.4 (b)(1) and (b)(2), the person will be notified as to the manner in which the statement is incomplete.

7. Section 720.8 is amended by revising the first sentence in paragraph (a) to read as follows:

§ 720.8 Confidentiality of statements.

(a) Data and information contained in, attached to, or included with Forms FDA 2512 and FDA 2514, and amendments thereto are submitted voluntarily to the Food and Drug Administration (FDA). * * *

* * * * *

8. Section 720.9 is revised to read as follows:

§ 720.9 Misbranding by reference to filing or to statement number.

The filing of Form FDA 2512 or assignment of a number to the statement does not in any way denote approval by the Food and Drug Administration of the firm or the product. Any representation in labeling or advertising that creates an impression of official approval because of such filing or such number will be considered misleading.

Dated: August 6, 1990.

Ronald G. Chesemore,

Associate Commissioner for Regulatory Affairs.

[FR Doc. 90-25208 Filed 10-24-90; 8:45 am]

BILLING CODE 4160-01-M

45 CFR Part 1301

RIN 0980-AA32

Head Start Program

AGENCY: Administration for Children, Youth and Families (ACYF), Office of Human Development Services (OHDS), Department of Health and Human Services (HHS).

ACTION: Notice of proposed rulemaking.

SUMMARY: The Administration for Children, Youth and Families is issuing this Notice of Proposed Rulemaking to revise and clarify for Head Start grantees the requirements implementing the statutory provision that limits development and administrative costs to 15 percent of total costs. This rule also clarifies that funds for training and technical assistance must be included in total approved costs and are, therefore, subject to the 20 percent non-Federal matching requirement.

DATES: In order to be considered, comments on this proposed rule must be received on or before December 24, 1990.

ADDRESSES: Please address comments to: Associate Commissioner, Head Start Bureau, Administration for Children, Youth and Families, P.O. Box 1182, Washington, DC 20013.

Beginning 14 days after close of the comment period, comments will be available for public inspection in Room 2217, 330 C Street SW., Washington, DC 20201, Monday through Friday between the hours of 9 a.m. and 4 p.m.

FOR FURTHER INFORMATION CONTACT: Dr. Maiso Bryant, (202) 245-0549.

SUPPLEMENTAL INFORMATION:

I. Program Description

Head Start is authorized under the Head Start Act (Act), section 635 of Public Law 97-35, the Omnibus Budget Reconciliation Act of 1981, (42 U.S.C. 9831, *et seq.*) It is a national program providing comprehensive developmental services primarily to low income preschool children, age three to the age of compulsory school attendance, and their families. To help enrolled children to achieve their full potential, Head Start programs provide comprehensive health, nutritional, educational, social and other services. In addition, Head Start programs are required to provide for the direct participation of parents of enrolled children in the development, conduct, and direction of local programs. In fiscal year 1989, Head Start served more than 450,000 children through a network of 1,284 grantees and more than 620 delegate agencies, each of which has an approved written agreement with a grantee to operate a Head Start program.

While Head Start is targeted primarily on children whose families have incomes at or below the poverty line or are eligible for public assistance, Head Start policy permits up to 10 percent of the children in local programs to be from families who do not meet these low income criteria. Head Start also requires that a minimum of 10 percent of the enrollment opportunities in each State be made available to handicapped children. Such children are expected to be enrolled in the full range of Head Start services and activities in a setting with their non-handicapped peers and to receive needed special education and related services.

B. Head Start Grantee Application

The Head Start grant application and 45 CFR 1301.32 currently require that grantees provide a statement that the costs of development and administration will not exceed 15 percent of the total approved costs. Additionally, the Standard Form 269, the quarterly financial status report, will require the reporting of the actual cost of development and administration for each budget period.

A proposed new revised grant application form and instructions were published as a notice with a request for public comments on December 28, 1988 (53 FR 52490). The new instructions would require grantees to indicate proposed administrative costs on the application.

III. Summary of the Proposed Regulation

The authority for this Notice of Proposed Rulemaking (NPRM) is section 644(b) of the Head Start Act (42 U.S.C. 9839), which limits reimbursement of the costs of developing and administering a Head Start program to 15 percent of total approved costs and requires the Secretary to establish, by regulation, criteria for determining the costs of developing and administering the Head Start program and for determining total approved costs. Also, section 640(b) (42 U.S.C. 9835) provides that the Secretary shall not require non-Federal contributions in excess of 20 percent of the total approved costs of programs or activities assisted under the Head Start program.

These changes are proposed in order to: (1) Clarify and emphasize the differences between project costs and development and administrative costs; (2) assist grantees in determining these costs; (3) clarify that training and technical assistance costs must be included in total approved costs and therefore are subject to the 20 percent matching requirement; and (4) assure that grantees are in compliance with the law. This NPRM incorporates material from an Information Memorandum entitled, "Limitations on Costs of Development and Administration," issued by the Administration for Children, Youth and Families and dated April 11, 1988.

The proposed rule:

- Revises and clarifies the definitions of the terms "development and administrative costs" and "total approved costs" and adds definitions for the terms "program costs" and "indirect costs;"
- Establishes and defines a new category of costs called dual benefit costs, i.e., costs that benefit both the program components as well as the development and administrative functions within the Head Start program;
- Provides that development and administrative costs, even if less than the 15 percent limitation, may not be approved where judged excessive;
- Specifies the situations for which a waiver can be granted by the responsible HHS official;
- Allows waiver periods not to exceed twelve months;
- Specifies that the grantee must include in its application information to meet the requirements regarding development and administrative costs; and
- Specifies that training and technical assistance funds awarded in grants must be included in the total approved costs and therefore are subject to the same matching requirements as other Head Start funds.

IV. Section by Section Discussion of the NPRM

Section 1301.2—Definitions

The proposed amendments to § 1301.2 provide definitions of terms used in the proposed rule. New definitions of the terms "program costs," "dual benefit costs," and "indirect costs" are added to the rule. Definitions for development and administrative costs and total approved costs are revised and clarified. For example, "total approved costs" is redefined as the approved costs of the Head Start program including training and technical assistance funds as indicated on the Financial Assistance Award. Total approved costs include both the Federal and the non-Federal share.

Section 1301.20—Matching Requirements

We are proposing to amend the current regulation at § 1301.20 to add a new paragraph (c) specifying that Federal financial assistance to Head Start grantees for training and technical assistance activities that support a Head Start program are part of the program's total approved costs. Such funds are, therefore, subject to the 20 percent non-Federal matching requirement. This clarification is necessary since, in the past, not all grantees have included training and technical assistance funds in their computation of total approved costs.

Section 1301.32—Limitations on Costs of Development and Administration of a Head Start Program

We propose to revise paragraph (a). Delete and add a new paragraph (b), and add new paragraphs (c) through (g). Currently, paragraph (a) sets forth the statutory requirements that development and administrative costs may not exceed 15 percent of the total approved cost. It allows the Responsible HHS Official to approve a higher percentage for periods not to exceed 6 month .. The proposed revision to paragraph (a) would (1) Change the approval for a higher percentage to a period not to exceed 12 months in accordance with the statute; and (2) provide that such costs, even if less than the 15 percent limitation, may not be approved where judged to be excessive.

Paragraph (b), which currently requires grantees to provide on their applications a statement of compliance with the 15 percent limitation has been deleted. A new paragraph (f) in this section proposes, among other things, to require applicants to delineate all development and administrative costs in their application.

In order to clarify and emphasize the difference between program costs and administrative costs, new paragraphs (b) and (c) provide examples.

New paragraph (d) proposes to establish a new cost category called dual benefit costs. These are costs that benefit both the program components and the development and administrative functions within the Head Start program. An example of a dual benefit cost would be the salary and fringe benefits paid to a Director/Education Coordinator of a small program. The percentage of time the individual performs the duties as the Director and that portion of the individual's salary would be determined and allocated as an administrative or development cost. The remainder of the salary would be allocated as a program cost for the time the individual acts as the Education Coordinator.

Paragraph (e) discusses the relationship between development and administrative costs and indirect costs.

Paragraph (f) proposes the requirements for grantee compliance with this rule including calculating the percentage of total approved costs that are allocated to development and administration and delineating those costs in the grant application.

Paragraph (g) specifies the situations under which the responsible HHS official may grant a waiver of the 15 percent limitation on development and administrative costs. These situations are: when a new Head Start grantee or delegate agency is being established, when an existing grantee or delegate agency is expanding the number of children, or when component services

are disrupted in an existing Head Start program due to circumstances beyond the control of the grantee.

Paragraph (g), allowing a grantee waiver for specific periods of time not to exceed twelve months, as stated earlier, is a change from the existing regulation which allows a waiver for periods not to exceed six months. The purpose of the change is to make the waiver period consistent with the language in the Act. Waivers can only be granted by the responsible Health and Human Services (HHS) official.

VI. Impact Analysis

Executive Order 12291

Executive Order 12291 requires that a regulatory impact analysis be prepared for major rules, which are defined in the Order as any rule that has an annual effect on the national economy of $100 million or more, or certain other specified effects. The Department concluded that these regulations are not major rules within the meaning of the Executive Order because they do not have an effect on the economy of $100 million or more or otherwise meet the threshold criteria.

Regulatory Flexibility Act of 1980

The Regulatory Flexibility Act (5 U.S.C. ch. 6) requires the Federal government to anticipate and reduce the impact of rules and paperwork requirements on small businesses. For each rule with a "significant economic impact on a substantial number of small entities" an analysis must be prepared describing the rule's impact on small entities. Small entities are defined by the Act to include small businesses, small non-profit organizations and other small entities. While these regulations would affect small entities, these requirements are not substantial and in most instances the small entities already meet some of the proposals. For these reasons, the Secretary certifies that these rules will not have a significant impact on substantial numbers of small entities.

Paperwork Reduction Act

Under the Paperwork Reduction Act of 1980, Public Law 96–511, all Departments are required to submit to the Office of Management and Budget (OMB) for review and approval any reporting or recordkeeping requirement inherent in a proposed or final rule. The proposed rule contains a new information collection requirement in § 1301.32(f)(2) which requires that certain information must be provided as a part of a grantee's application. We estimate that this proposed requirement will take each grantee approximately 2 hours annually to complete. As there are 1890 grantees and delegate agencies, the total number of hours annually will be 3780. This proposed requirement is reflected in the proposed new Head Start grant application which was published for public comment on December 28, 1988 (53 FR 5249), and for which OMB approval is being requested.

Organizations and individuals desiring to submit comments on the information collection requirement should direct them to the agency official designated for this purpose whose name appears in this preamble and to the Office of Information and Regulatory Affairs, OMB, New Executive Office Building (room 308), Washington, DC 20503. ATTN: Angela Antonelli, Desk Officer for the Office of Human Development Services.

List of Subjects in 45 CFR Part 1301

Head Start, Development and administrative costs, Program costs, Dual benefit costs, Indirect costs, Approved, Total/costs.

(Catalog of Federal Domestic Assistance Program Number 13.600, Project Head Start)

Dated: March 21, 1990.

Mary Sheila Gall,

Assistant Secretary for Human Development Services.

Approved: July 27, 1990.

Louis W. Sullivan,

Secretary.

For the reasons set forth in the Preamble, we propose to amend 45 CFR part 1301 as follows:

PART 1301—HEAD START GRANTS ADMINISTRATION

1. The authority citation for part 1301 is as follows:

Authority: 42 U.S.C. 9831 et seq.

2. Section 1301.2 is amended by revising the definitions for "development and administrative costs" and "total approved costs"; by adding alphabetically definitions for "dual benefit costs," "indirect costs," and "program costs"; and by republishing the introductory text, to read as follows:

§ 1301.2 Definitions.

For the purposes of this part, unless the context requires otherwise:

* * * * *

Development and administrative costs mean costs incurred in accordance with an approved Head Start budget which do not directly relate to the provision of program component services, including services to handicapped children, as set forth and described in the Head Start program performance standards (45 CFR part 1304).

Dual benefit costs mean costs incurred in accordance with an approved Head Start budget which directly relate to both development and administrative functions and to the program component services, including services to handicapped children, as set forth and described in the Head Start program performance standards (45 CFR part 1304).

* * * * *

Indirect costs mean those costs that are incurred by an agency for common or joint objectives and that cannot be readily identified with a particular program such as Head Start.

Program costs mean costs incurred in accordance with an approved Head Start budget which directly relate to the provision of program component services, including services to handicapped children, as set forth and described in the Head Start program performance standards (45 CFR part 1304).

* * * * *

Total approved costs mean the sum of all approved costs of the Head Start program approved for a given budget period by the Administration for Children, Youth and Families, as indicated on the Financial Assistance Award. Total approved costs consists of the Federal share plus the non-Federal share.

3. Section 1301.20 is amended by adding a new paragraph (c) as follows:

§ 1301.20 Matching requirements.

* * * * *

(c) Federal financial assistance awarded to Head Start grantees for training and technical assistance activities shall be included in the Federal share in determining the total approved costs of the program. Such financial assistance is, therefore, subject to the 20 percent non-Federal matching requirement of this subpart.

4. Section 1301.32 is revised to read as follows:

§ 1301.32 Limitations on costs of development and administration of a Head Start program.

(a) *General provisions.* (1) Reimbursement of costs of developing and administering a Head Start program may not exceed 15 percent of the total approved costs of the program, unless the responsible HHS official grants a waiver approving a higher percentage for a specific period of time not to exceed twelve months.

(2) The limit of 15 percent for development and administrative costs is a maximum. In cases where the costs for development and administration are at or below 15 percent, but are judged by the responsible HHS official to be excessive, the grantee must eliminate excessive development and administrative costs.

(b) *Development and administrative costs.* (1) Costs classified as development and administrative costs are those costs related to the overall management of the program. These costs can be both in the personnel and non-personnel categories.

(2) Grantees must charge the costs of organization-wide management functions as development and administrative costs. These functions include planning, coordination and direction; budgeting, accounting, and auditing; and managing purchasing, property, payroll and personnel.

(3) Development and administrative costs include, but are not limited to, the salaries of the executive director, Head Start director, center director, personnel officer, fiscal officer/bookkeeper, purchasing officer, secretary, payroll/insurance/property clerk, janitor for administrative office space and costs associated with volunteers carrying administrative functions.

(4) Other development and administrative costs include expenses related to administrative staff functions such as the costs allocated to fringe benefits, travel, per diem, transportation and training.

(5) Bookkeeping and payroll services, audits, bonding, insurance, office supplies, copy machines, postage, utilities and occupying, operating and maintaining space used for administrative purposes are development and administrative costs.

(c) *Program costs.* Program costs include, but are not limited to:

(1) Personnel and non-personnel costs directly related to the provision of program component services and component training and transportation for staff, parents and volunteers;

(2) Costs of functions directly associated with the delivery of program component services through the direction, coordination or implementation of a specific component;

(3) Costs of the salaries of program component coordinators and component staff, janitorial and transportation staff involved in program component efforts, and the costs associated with parent involvement and component volunteer services; and,

(4) Expenses related to program staff functions, such as the allocable costs of fringe benefits, travel, per diem and transportation, training materials, food, center/classroom supplies and equipment, parent activities funds and the occupation, operation and maintenance of program component space, including utilities.

(d) *Dual benefit costs.* (1) Some costs benefit both the program components as well as development and administrative functions within the Head Start program. In such cases, grantees must identify and allocate appropriately the portion of the costs that are developmental and administrative.

(2) Dual benefit costs include, but are not limited to, salaries, benefits and expenses of staff who perform both program and administrative and developmental functions. Grantees must determine and allocate appropriately, the part of these costs dedicated to administration and development.

(3) Space costs are frequently dual benefit costs. The grantee must determine and allocate appropriately, the amount or percentage of space dedicated to administration and development.

(e) *Relationship between development and administrative costs and indirect costs.* (1) Grantees must categorize costs in a Head Start program as development and administrative or program costs. These categorizations are separate from the decision to charge such costs directly or indirectly.

(2) Grantees must charge all costs, whether program or developmental and administrative, either directly to the project or as part of an indirect cost pool.

(f) *Requirement for compliance.* (1) Head Start grantees must calculate the percentage of their total approved costs allocated to development and administration as a part of their development of a budget for initial funding, refunding or for a request for supplemental assistance in connection with a Head Start program. These costs may be a part of the direct or the indirect cost pool.

(2) The Head Start grant applicant shall delineate all development and administrative costs in its application.

(g) *Waiver.* (1) The responsible HHS official may grant a waiver of the 15 percent limitation on development and administrative costs and approve a higher percentage for a specific period of time not to exceed twelve months. The conditions under which a waiver will be considered are listed below and encompass those situations under which development and administrative costs are being incurred, but the costs of providing actual services has not begun or has been suspended. A waiver may be granted when:

(i) A new Head Start grantee or delegate agency is being established or services are being expanded in an existing Head Start grantee or delegate agency, and the delivery of component services to children and families is delayed until all program development and planning is well underway or completed; or

(ii) Component services are disrupted in an existing Head Start program due to circumstances not under the control of the grantee.

(2) A Head Start grantee that estimates that the cost of development and administration will exceed 15 percent of total approved costs must submit a request for a waiver that explains the reasons for exceeding the limitation. This must be done as soon as the grantee determines there is a problem with the 15 percent limit, regardless of where the grantee is within the grant funding cycle.

(3) The request for the waiver must include the period of time for which the waiver is requested. It must also describe the action the grantee will take to reduce its development and administrative costs so that the grantee will be able to assure that these costs will not exceed 15 percent of the total approved costs of the program at the completion of the waiver period or in the future.

(4) If granted, the waiver and the period of time for which it will be granted will be indicated on the Financial Assistance Award.

(5) If a waiver, requested as a part of the grant application for funding or refunding, is not approved, no Financial Assistance Award will be awarded to the Head Start program until the grantee resubmits a revised budget that complies with the 15 percent limitation.

BILLING CODE 4130-01-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 90-452, RM-7424]

Radio Broadcasting Services; Aguila, AZ

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a petition for rule making filed by Michael R. Hagans, seeking the allotment of FM Channel 242A to Aguila, Arizona, as that community's

first local broadcast service. Since Aguila is located within 320 kilometers of the Mexican border, international coordination of this proposal with Mexico is required, pursuant to the terms of the *United States-Mexican FM Broadcasting Agreement of 1972*, 24 UST 1815, TIAS No. 7697. Coordinates for this proposal are 33–56–30 and 113–10–36.

DATES: Comments must be filed on or before December 13, 1990, and reply comments on or before December 28, 1990.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, as follows: Michael R. Hagans, 1705 N. Queensbury St., Mesa, Arizona 85201.

FOR FURTHER INFORMATION CONTACT: Nancy Joyner, Mass Media Bureau (202) 634–6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Notice of Proposed Rule Making, MM Docket No. 90–452, adopted September 27, 1990, and released October 22, 1990. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, International Transcription Service, (202) 857–3800, 2100 M Street NW., Suite 140, Washington, DC 20037.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contacts.

For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.

47 CFR Part 73

[MM Docket No. 90–453, RM–7337]

Radio Broadcasting Services; Columbus, KS

AGENCY: Federal Communications Commission

ACTION: Proposed rule.

SUMMARY: This document requests comments on a proposal to substitute Channel 287C3 for Channel 252A at Columbus, Kansas. Petitioner also requests modification of its license for Station KOCD(FM), Channel 252A, to specify operation on Channel 287C3. The coordinates for Channel 287C3 are 37–04–02 and 94–50–10.

DATES: Comments must be filed on or before December 13, 1990, and reply comments on or before December 28, 1990.

ADDRESSES: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant, as follows: Barbara L. Waite, Venable, Baetjer, Howard & Civiletti, 1201 New York Avenue, NW., Suite 1000, Washington, DC 20005 (counsel for the petitioner).

FOR FURTHER INFORMATION CONTACT: Kathleen Scheuerle, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commissioner's Notice of Proposed Rule Making, MM Docket No. 90–453, adopted September 27, 1990, and released October 22, 1990. BILLING CODE 6712-01-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

RIN 1018–AB52

Endangered and Threatened Wildlife and Plants; Proposed Endangered Status for the Lower Keys Population of the Rice Rat (Silver Rice Rat)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: The Service proposes to list the Lower Keys population of the rice rat, or silver rice rat (*Oryzomys palustris natator* [=*Oryzomys argentatus*]), a small mammal restricted to wetlands of the Lower Keys of Monroe County, Florida as endangered. This species is known to occur on nine keys, generally at low population levels. It is believed extirpated from one key where it formerly occurred, and may also have been extirpated from two other keys. The species is endangered by habitat loss due to residential and commercial development, and by predation, competition, and habitat modification from various introduced mammals. Its low populations may endanger it because of reduced genetic variability. This proposal, if made final, would extend the protection of the Endangered Species Act of 1973, as amended, to the silver rice rat.

DATES: Comments must be received by December 24, 1990. Public hearing requests must be received by December 10, 1990.

ADDRESSES: Comments and materials concerning this proposal should be sent to the Field Supervisor, U.S. Fish and Wildlife Service, 3100 University Boulevard South, suite 120, Jacksonville, Florida 32216. Comments and materials received will be available for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Mr. David J. Wesley, Field Supervisor, at the above address (904/791–2580 or FTS 946–2580.

SUPPLEMENTARY INFORMATION:

Background

Rice rats (*Oryzomys*) are New World rats of generalized rat-like appearance, with coarse fur and a long, sparsely-haired tail. The genus occurs from the southeastern U.S. and Mexico through Central America to northern South America. Rice rats occur on the Galapagos Islands and on several islands in the Caribbean. Hall (1981) recognized five subgenera, and over a dozen species, in North and Central America. Numi Spitzer (now Goodyear) trapped two rice rats in a fresh water marsh on Cudjoe Key in the Lower Keys of Monroe County, Florida in 1973, and believed that they represented a new species or subspecies of *Oryzomys* (Spitzer 1978). These two specimens were later used to describe a new species, *Oryzomys argentatus* (Spitzer and Lazell 1978). *O. argentatus* was diagnosed as differing from other species in the subgenus *Oryzomys* (one of five subgenera in the genus *Oryzomys*) in lacking digital bristles projecting beyond the ends of the

median claws on the hind foot; and in having large, wide sphenopalatine vacuities; a slender skull with long narrow nasal bones; and silver-grey pelage dorsally. Spitzer and Lazell (1978) stated that *Q. argentatus* could be separated from *Q. palustris*, the common marsh rice rat of the southeastern U.S., by skull comparisons. They computed a ratio based on the maximum length of both nasals divided by their combined width; this number was then compared to the quotient of the condylobasal length divided by the zygomatic width. *Q. argentatus* specimens had high scores for both ratios, and could be separated from 105 *Q. palustris* by plotting the ratios on two axes. The measurements of the holotype and paratype specimens, respectively, in millimeters (inches) were: total length 251 (9¾, 259 (10¼); tail length, 121 (4¾), 132 (5¼); hind foot length, 32 (1¼), 32 (1¼); length of ear from notch, 17 (¾, 18 (¾) (Spitzer and Lazell 1978).

An unpublished report (Vessey *et al.* 1976) resulting from a biological study of Raccoon Key in the Lower Keys found that rice rats were common there; the investigators considered them to be *O. palustris* but subsequent examination showed that they were silver rice rats. In 1978 and 1979, Humphrey and Barbour (1979; Barbour and Humphrey 1982) trapped for silver rice rats at the type locality on Cudjoe Key and at sites on Little Torch, Middle Torch and Sugarloaf Keys. They caught no rice rats, and believed that the species had been extirpated from these keys. They also suggested that the characters used to distinguish *O. argentatus* were more indicative of subspecific rather than specific status.

In Service-funded status survey work (Spitzer 1982; Goodyear 1984), Goodyear trapped silver rice rats on eight additional Lower Keys, confirming their presence on Raccoon Key. The additional sites consisted of salt, rather than fresh water marsh. Using radiotelemetry, she found that silver rice rats used three vegetational zones: 1. Low intertidal areas, usually flooded, vegetated with mangroves (*Rhizophora mangle* and *Avicennia germinans*), and used for foraging and travelling; 2. Saltmarsh flats, flooded only occasionally, with low grassy vegetation (*Distichlis spicata, Batis maritima*, and *Sporobolus* sp.) and used for foraging and nesting; and 3. Elevated areas flooded only by the highest tides, vegetated with abundant grasses (*Distichlis* and *Sporobolus*), sea oxeye (*Borrichia frutescens*) and buttonwood (*Conocarpus erectus*), and used mainly for nesting. She found that silver rice rats had unusually large home ranges (about 20 hectares (50 acres)) and occurred at very low densities for a small rodent. Both plant (seeds and plant parts) and animal foods (arthropods) are taken by silver rice rats (Spitzer 1983). She was unable to find rice rats in the Upper Keys and concluded that inadequate marsh habitat was available there. Further information on the ecology of the silver rice rat is provided in Spitzer (1983).

Goodyear and Lazell (1986) compared nine skulls of *O. argentatus* (including some related laboratory-reared animals) with 109 skulls of six subspecies of *O. palustris*, using canonical discriminant function to analyze four skull variables (condylobasal length, zygomatic breadth, nasal length, and nasal width) and to generate three models based on preselected taxonomic arrangements. The statistic Roy's Greatest Root was used to determine which model best fit the data. It was concluded that the taxonomic arrangement with the best fit considered *O. argentatus* and *O. palustris* to be separate taxa.

Humphrey and Setzer (1989) revised the genus *Oryzomys* in the U.S., including six subspecies of *O. palustris*, *O. couesi*, and *O. argentatus*. They analyzed twelve skull measurements and pelage color. They did not include nasal width as a character (one of the characters considered diagnostic for *O. argentatus* by Spitzer and Lazell (1978)), citing the lack of a standard position for taking this measurement. Their quantitative analysis included 261 *Oryzomys;* all were adult males except for the five specimens of *O. argentatus* available to them, which consisted of four subadults and one adult of unknown sex. Adult male Oryzomys are regarded as being more likely to show diagnostic skull characters (Merriam 1901). Humphrey and Setzer first examined the existing taxonomic arrangement of U.S. *Oryzomys* with principle components analysis. Only minor differences were found; canonical discriminant analysis was then used to maximize intergroup differences. A simplified taxonomic arrangement was compared to the original classification, using both of the above statistical methods. Overlap among groups of the original and simplified classifications was compared by testing for misclassification of specimens with discriminant function analysis. To avoid recognizing trivial differences resulting from discriminant analysis, the original variables were subjected to analysis of variance to show how the groups defined actually differed. These authors pointed out that canonical-discriminant function, as used by Goodyear and Lazell (1986), is designed to find differences, and that it is necessary to determine whether differences found are biologically meaningful. A colorimeter was used in an attempt to quantify pelage color objectively, but the samples so measured were judged too small to be analyzed statistically. They expressed concern that pelage color might vary with age, both in living animals and museum specimens. They also noted that some mainland specimens of *O. palustris* had silver pelage. Humphrey and Setzer concluded that a simplified taxonomy was more appropriate for U.S. *Oryzomys*, including only two subspecies of *O. palustris*; *O.p. palustris* in most of the southeast and *O.p. natator* in peninsular Florida. *O. argentatus* was considered to be synonymous with *O.p. natator*.

Service actions regarding the silver rice rat began with the receipt of a petition dated March 12, 1980, from the Center for Action on Endangered Species, requesting that the silver rice rat be listed as an endangered species. In the Federal Register of July 14, 1980 (45 FR 47355), the Service issued a notice accepting the petition and announcing a status review of the species. The 1982 amendments to the Endangered Species Act required that petitions of this kind, which were pending as of October 13, 1982, be treated as having been received on that date. Section 4(b)(3) of the Act, as amended, requires that, within 12 months of the receipt of such a petition, a finding be made as to whether the requested action is warranted, not warranted, or warranted but precluded by other activity involving additions to or removals from the Federal Lists of Endangered and Threatened Wildlife and Plants. On October 13, 1983, the Service made the finding that the determination of endangered was warranted but precluded by other listing activity. That finding was published in the Federal Register of January 20, 1984 (49 FR 2487), as corrected in the Federal Register of February 16, 1984 (49 FR 5977). In the case of such a finding, the petition is recycled and another finding is due in 12 months. Repeated findings of warranted but precluded were made on October 12, 1984 (published on May 10, 1985 (50 FR 19762)); on October 11, 1985 (published on January 9, 1986 (51 FR 24312)); on October 10, 1986 (published on June 30, 1987 (52 FR 25512)); and on October 14, 1987 (published on July 7, 1988 (53 FR 25511)).

In 1988, Drs. Henry Setzer and Steven Humphrey of The Florida Museum of Natural History advised the Service's

Jacksonville Field Office that their taxonomic work on U.S. rice rats, then in progress, indicated that the silver rice rat was not distinguishable from mainland rice rats (*O. palustris*) at either the specific or subspecific level. These authors believe that the silver rice rat is only a peripheral population of *O.p. natator*, a subspecies common in fresh and salt water marshes throughout the Florida peninsula.

As a result of the Humphrey-Setzer findings, the Service's Southeastern Regional Office requested that any decision on proposing the silver rice rat be delayed until the taxonomic issue could be resolved, and recommended that a panel of Service zoologists review the taxonomic controversy. Three zoologists from the Service's Division of Research were detailed to this task in July, 1988; they concluded that the Lower Keys rice rats were "* * * a weakly distinguished geographical variant of *O. palustris* that may be known as *O. palustris argentatus* * * *". They recommended that additional material, particularly adult males, be collected to assist in determining the taxonomic status of the silver rice rat. Based on this continuing uncertainty, the Service made a negative petition finding on December 9, 1988 (published on December 29, 1988 (53 FR 52746)). On January 6, 1989 (54 FR 562), the Service placed the silver rice rat in category 3B of the animal notice of review, indicating that it was not a taxon that met the Endangered Species Act's definition of a species. Such entities are not current listing candidates, but additional information can lead to reevaluation of their suitability for listing.

On December 20, 1989, Sierra Club Legal Defense fund, Inc. filed suit on behalf of the silver rice rat and James D. Lazell, Jr. in the U.S. District Court for the District of Columbia (*Silver Rice Rat and James D. Lazell, Jr. v. Lujan*, Civil Action No. 89–3369), challenging the Service's decision not to proceed with listing the silver rice rat. The complaint stated, in part, that the Service had not adequately addressed listing the silver rice rat as a distinct population segment as defined in section 3(15) of the Act.

In a Federal Register review notice dated April 26, 1990, the Service announced a review period for listing the silver rice rat as a vertebrate population and rescinded the negative petition finding for the silver rice rat, returning the petition finding to the "warranted but precluded" category until the conclusion of the review. The notice also solicited general comments concerning standards that should be used to define vetebrate populations under the Act.

In a Stipulation of Parties dated May 3, 1990, the Service agreed to announce the results of its reconsideration of the previous decision by October 25, 1990. It was further agreed that if listing was appropriate, the "warranted but precluded" status would not be repeated, but that a final listing regulation would be published by May 1, 1991. This listing proposal constitutes the Service's finding required by the Stipulation of Parties, and the final petition finding for the silver rice rat.

Comments

One comment was received in response to the Service's July 14, 1980, notice of petition acceptance and status review for the silver rice rat. The Florida Department of Transportation stated that future projects of that agency could affect rice rat habitat, and that they would cooperate to protect such habitat. They pointed out that further distribution and habitat information was important to minimize impact on silver rice rat habitat. Service response: The Service agrees that, at that time, further information was needed before listing the species; accordingly, the Service funded status survey work (Spitzer 1982, Goodyear 1984) to provide additional information on distribution and habitat.

Ten comments were received in response to the April 26, 1990, review notice. Comments addressed both the issue of listing the silver rice rat and general listing policy with regard to distinct population segments of vertebrate species. Commenters included five individuals, four conservation organizations, and the Service's Division of Research (Biological Survey). Eight comments supported the listing of the silver rice rat, while two comments questioned the listing. Comments, and Service responses, can be categorized as follows:

Comment: The April 26 notice of review was prepared solely by the Service's Jacksonville Field Office and lacked input from other Service units. The notice contained misleading statements concerning the Service's previous use of the vertebrate population listings, and was a tactic of the field office to delay listing the silver rice rat and to develop a vertebrate population definition to exclude cases like the silver rice rat. The resulting definition would lead to the delisting of numerous rodent subspecies, a reduction in listing activity, and a loss of biodiversity. Service response: The notice of review was prepared by the field office at the request of the Service's Washington Office, and was reviewed and approved by the Service and the Department of the Interior prior to Federal Register publication. The Service is currently developing guidance on the vertebrate population listing issue. All interested parties, will have an opportunity to comment on this guidance once developed. The Service believes that the review notice description of current vertebrate population listings was generally accurate, while recognizing that there are listings that differ from those described. The notice was not intended to delay potential listing of the silver rice rat, but to obtain further information; this was achieved. Vertebrate population listing policy has no bearing on the listing of valid subspecies; subspecies are by definition qualified for protection as "species" under the Endangered Species Act. The Jacksonville Field Office has prepared recommendations leading to the listing of eleven subspecies of plants and animals (including seven small rodents) and two vertebrate populations, a large proportion of such Service listings. The Service will continue to actively pursue its responsibilities to list subspecies and vertebrate populations.

Comment: The listing of every population of a widely distributed species or subspecies would not be merited or practical under the Endangered Species Act. Service response: The Service agrees with this view and, as discussed above, is developing standards to provide guidance in the listing of vertebrate populations.

Comment: Data were manipulated in an improper scientific manner to cause the silver rice rat to be delisted (sic), and the paper on which this action was based may not have been refered. Service response: Since the silver rice rat has not previously been federally listed, the Service assumes that the comment refers to the Service's December 29, 1988 (53 FR 52746) negative petition finding for the silver rice rat. This decision was based on the taxonomic revision of Humphrey and Setzer (1989), then in press in the *Journal of Mammalogy*, a refereed journal. The Humphrey-Setzer revision was not undertaken for the purpose of removing taxonomic recognition from the silver rice rat, but rather to taxonomically revise U.S. rice rats. Four other taxa of *Oryzomys* were synonymized in addition to the silver rice rat. The work used widely accepted taxonomic and statistical techniques, and was published in the same journal in which the original description of the rice rat

(Spitzer and Lazell 1978) was published. The Service recognizes that different investigators often come to different taxonomic conclusions and rejects the claim that, in the case of the silver rice rat, improper scientific methods were used by any party.

Comment: The Service's Division of Research (Biological Survey) stated that the silver dorsal pelage of the silver rice rat was the primary feature distinguishing the silver rice rat from Florida peninsula populations of *O. palustris*. They believed that the Florida Keys population of rice rats warranted protection under the Endangered Species Act regardless of its taxonomic status. Service response: The Service has considered these recommendations in preparing this proposed rule.

Comment: Dr. Goodyear's comments in response to the notice have resolved the taxonomic questions concerning the silver rice rat, and there is no need to consider whether it constitutes a distinct population segment. Service response: The Service disagrees that the taxonomic issue is resolved. Dr. Goodyear's comments included a manuscript that has not yet been fully reviewed or accepted for publication. Existing taxonomies are often changed. It is likely that further interpretations and publications concerning the taxonomic status of the silver rice rat will appear, although the scientific community may eventually come to a consensus on what taxonomic rank best fits the silver rice rat. At all times, however, the Service attempts to use the best available scientific information to make listing decisions.

Comment: The silver rice rat is distinct for geographic and genetic reasons and merits listing. Service respone: The Service has considered these factors in developing this listing proposal.

Comment: Commenters suggested several factors that could be used to define distinct population segments, including disjunctness, ecology, morphological and other variations, U.S. populations, and research value. Service response: The Service will consider these, and othe factors, in developing any future guidance or regulations concerning the listing of vertebrate populations.

Comment: There is no need for a Service policy review concerning vertebrate population segments. Only a few such petitions have been received; these have been and should continue to be addressed on a case-by-case basis. Service response: The Service feels that it is appropriate to develop guidelines on the vertebrate population listing policy at this time. The issue is not restricted to the petition responses, but also involves evaluation of candidates for listing. Both the Fish and Wildlife and Natural Marine Fisheries Services have received a number of recent petitions involving vertebrate population segments, and feel it would be helpful to provide guidelines or standards to assist in evaluating petitions and making decisions on listing candidates. The use of such standards would not obviate individual, case-by-case review of petitions or listing candidates.

Comment: Dr. Humphrey's comments noted the lack of diagnostic material (adult males) available during his work, and the difficulty in obtaining such material due to the endangered status of the silver rice rat afforded by the State listing (chapter 39–27.0011 of the Florida Administrative Code prohibits kill-taking of endangered and threatened species). He commented on the importance of locally adapted populations to provide resilience to environmental change, and the fact that many extirpations of local populations have occurred, and continue to occur, in Florida. In his opinion, the extent to which the Service listed vertebrate populations would be fundamentally a political decision. He noted that the Endangered Species Act was designed to prevent extinction, not endangerment, and thus was directed to a crisis condition. He included a manuscript showing that the methods used to revise U.S. rice rats (Humphrey and Setzer 1989) were able to distinguish a weakly differentiated extinct species of rice rat in Jamaica. Service response: The conservation importance of locally adapted populations will be considered in formulating guidance on vertebrate population listings. The Service notes that the threatened category under the Act does allow the Service to list species before they are endangered, but agrees that species may often have severe conservation problems before they are listed.

Comment: Dr. Goodyear's comments addressed the taxonomic question concerning the silver rice rat. She enclosed a manuscript providing further information supporting the distinctiveness of the species. Dr. Goodyear reiterated her belief that the silver rice rat represented a distinct species. She stated that the Humphrey and Setzer (1989) paper was not a sound analysis of *O. argentatus* for the following reasons: No known adult males of *O. argentatus* were examined. The colorimetric data were plotted on different scales. Only one diagnostic skull measurement was used. Dr. Goodyear stated that the only taxonomic question concerning the silver rice rat was whether it was a species or subspecies, but that it would qualify as a distinct population segment for the following reasons: The silver rice rat is geographically separated, ecologically distinct (living in salt marshes and mangroves, and having a very large home range), and is morphologically distinct in pelage color and skull measurements from *O. palustris*. Dr. Goodyear's manuscript, entitled "The taxonomic status of the silver rice rat, *Oryzomys argentatus*", expanded on her previous taxonomic work.

Her ecological work in the Lower Keys in 1987-1988 resulted in the trap-deaths of ten silver rice rats, including seven adult males. Dr. Goodyear examined adult males of thirteen silver rice rats and 73 *O. palustris*. She used canonical discriminant function to separate seven designated taxa of *Oryzomys* and determined the Mahalonobis distance between each of the seven centroids. She found that silver rice rat males formed a distinct cluster, which was not affected by including laboratory-reared animals, but that only two of six female silver rice rats could be correctly classified by the discriminant analysis model generated using the ten males. Dr. Goodyear noted that specimens of *O. couesi*, currently considered a species by some mammologists, were more similar to *O. palustris* than *O. argentatus*, indicating that *O. argentatus* merited specific rank. She stated that adult males were necessary to distinguish silver rice rats on the basis of skull characteristics, but that pelage color could always be used to distinguish female silver rice rats from *O. palustris*. Dr. Goodyear noted that the pelage of silver rice rats had maintained its distinctive coloration in the 57 wild-caught, captive-reared and museum specimens with which she was familiar. She concluded that Humphrey and Setzer were not justified in placing *O. argentatus* in synonymy with *O. palustris*, because they did not examine the necessary diagnostic adult male silver rice rats specimens in their work.

Service response: The Service agrees that recently published taxonomic evaluations of *O. argentatus* have examined different specimens, used different measurements, and different statistical methodologies (see discussion below). The Service notes that the suggested ecological differences between the silver rice rat and mainland *O. palustris* may be exaggerated; *O. palustris* is common in many wetland habitats, including salt marshes (Wolfe 1982) while the silver rice rat apparently

BEST COPY AVAILABLE

uses fresh water marshes when available (Spitzer and Lazell 1978). Dr. Goodyear's comments and new information have been incorporated into this listing proposal (see discussion below).

After reviewing the best available information on the taxonomy of the silver rice rat, the Service makes the following observations. The taxonomic treatments discussed above (Spitzer and Lazell 1978; Goodyear and Lazell 1980; Humphrey and Setzer 1989) examined different samples, used different statistical techniques, and formed different opinions on the significance of the variation in *Oryzomys*. The principal characteristics analyzed consisted of skull measurements and pelage color. Humphrey and Setzer (1989) were limited in the material of *O. argentatus* available to them, lacking adult males, and were unable to find persuasive evidence that specific or subspecific status was warranted for the silver rice rat. They speculated that a larger sample of silver rice rats would be likely to have larger variance, further indicating the relationship of *O. argentatus* to mainland *O. palustris*. Dr. Goodyear's recent information, however, indicates that the silver pelage color and differences in skull ratios have remained distinctive as more material of Lower Keys rice rats has become available. She intends to publish her manuscript in the near future.

The Service panel, as well as another mammalogist, believe that the silver rice rat merits subspecific rank. It is difficult, to predict what analysis of this material by Humphrey and Setzer's (1989) methods would yield; the interpretation of observed differences would continue to be subjective. The taxonomic questions concerning the silver rice rat appear likely to be reexamined and discussed by taxonomic mammalogists into the future. At this time, the Service reserves judgement on the appropriate taxonomic rank (species, subspecies, or population) for the silver rice rat. The scientific community may come to a prevailing view on this matter in the future. However, the Service concludes that, regardless of its taxonomic status, the silver rice rat currently qualifies for protection under the Endangered Species Act because it constitutes a distinct population segment, and therefore a "species", as defined by section 3(15) of the Act. The silver rice rat of the Lower Florida Keys is disjunct from the rice rats of the Florida mainland, with very little potential for interbreeding with those populations; it has developed at least two consistent, nearly exclusive morphological characteristics (silver pelage and elongate nasal bones). A number of other vertebrate populations of the Lower Florida Keys are accepted as subspecies, indicating that natural selection has resulted in the evolution of a number of differentiated vertebrate population there. (Two mammal subspecies already federally listed as endangered species in the Lower Keys are the Key deer (*Odocoileus virginianus clavium*) and the Lower Keys rabbit (*Sylvilagus palustris hefneri*)).

Summary of Factors Affecting the Species

Section 4(a)(1) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*) and regulations (50 CFR part 424) promulgated to implement the listing provisions of the Act set forth the procedures for adding species to the Federal Lists. A species may be determined to be endangered or threatened due to one or more of the five factors described in section 4(a)(1). These factors and their application to the silver rice rat are as follows:

A. *The present or threatened destruction, modification, or curtailment of its habitat or range.* The ancestor of the silver rice rat may have colonized the Lower Florida Keys during the late Pleistocene, when sea levels were lower than at present. The cooler climate prevailing at that time, and the larger exposed land mass, would have supported more extensive mangrove forests and salt marshes than exist currently. Rising sea levels several thousand years ago reduced the land area of the Lower Keys to their current configuration, probably fragmenting and reducing the distribution and numbers of the silver rice rat (Spitzer 1983). In recent times, human impacts have further reduced silver rice rat populations. A known population on Cudjoe Key was recently extirpated (Barbour and Humphrey 1982), and Goodyear (1984) believed that the species recently occurred on Big Pine and Boca Chica Keys, where suitable habitat still exists but where she was unable to trap rice rats.

The silver rice rat is currently known from transitional wetland area on eight keys (Big Torch, Johnston, Middle Torch, Raccoon, Saddlebunch, Little Pine, Summerland, and Water Keys), where it usually occurs at very low densities for a small rodent. (Spitzer 1982; Goodyear 1984). Goodyear (1984) had only 0.47 percent trap success over the course of her survey work, although she had a 5.2 percent trap success rate on Johnston Key, an off-road key; and Vessey *et al.* (1976) considered rice rats to be common on Raccoon Key, where they had a 9.5 percent capture rate.

Much silver rice rat habitat has been lost because of commercial and residential development during the past few decades. Remaining habitat on the highway keys continues to be filled for house pads, driveways, and other purposes.

B. *Overutilization for commercial, recreational, scientific, or educational purposes.* The silver rice rat is one of the most recently named species of mammals in the United States, and there are interesting questions concerning its taxonomic status, relationship to other rice rats, behavior, and ecology. Therefore, it is likely that specimens will continue to be sought by collectors for purposes of scientific study, or by amateur naturalists. Silver rice rat populations on the on-road keys may have abnormally low densities, and collecting could have serious effects. This proposed regulation would add the additional protections against take provided by the Endangered Species Act.

C. *Disease or predation.* Goodyear (1983) found that raccoons preyed on silver rice rats. Although a native mammal of the Lower Keys, raccoons on developed keys may be unnaturally abundant due to the availability of human garbage as food. This increase may have adversely affected silver rice rat populations on these keys.

D. *The inadequacy of existing regulatory mechanisms.* The silver rice rat is listed as endangered by the Florida Game and Fresh Water Fish Commission (chapter 39–27.003, Florida Administrative Code) and is protected from pursuit, harm, harassment, capture, possession, or killing (chapter 39–27.002 and 39–27.011, Florida Administrative Code). This protection does not, however, address habitat destruction.

Portions of the range of the silver rice rat are included in Great White Heron National Wildlife Refuge and National Key Deer Refuge. Federal listing of this species would increase consideration or the habitat needs of this species in refuge management decisions.

E. *Other natural or manmade factors affecting its continued existence.* The black rat (*Rattus rattus*), an introduced Old World rat, is found on many of the Lower Florida Keys, particularly near human habitation. It may compete with the silver rice rat for space and food. The black rat is abundant on Big Pine and Coca Chica Keys, and may have contributed to the disappearance of silver rice rats from these keys. Conversely, silver rice rats are relatively abundant on Johnston (Goodyear 1984)

BEST COPY AVAILABLE

and Raccoon (Veasey *et al.* 1976) Keys, where black rats are absent.

On Raccoon Key, a breeding colony of rhesus monkeys (*Macaca mulatta*) has been introduced and maintained. The monkeys have defoliated the fringing mangrove trees on this key, making the silver rice rat more vulnerable to storm effects and predation.

Because of the limited amount of habitat suitable for the silver rice rat, and its large home range, further habitat fragmentation could reduce silver rice rat populations to the point that adequate genetic viability for long-term survival is not maintained.

Critical Habitat

Section 4(a)(3) of the Act, as amended, requires that "critical habitat" be designated "to the maximum extent prudent and determinable" concurrent with the determination that a species is endangered or threatened. The Service finds that designation of critical habiat is not prudent at this time. As noted in factor "B" in the "Summary of Factors Affecting the Species", there may continue to be interest in collecting specimens of the silver rice rat. Most populations are of such low density that removal of even a few individuals may be deleterious to this species. Publication of critical habitat descriptions and maps could increase enforcement problems and expose the species to undesirable collecting and disturbance, placing its survival in further jeopardy. Habitat protection for the silver rice rat will be addressed through the Act's section 7 jeopardy standard.

Available Conservation Measures

Conservation measures provided to species listed as endangered or threatened pursuant to the Act include recognition, recovery actions, requirements for Federal protection, and prohibitions against certain practices. Recognition through listing encourages and results in conservation actions by Federal, State, and private agencies, groups, and individuals. The Act provides for possible land acquisition and cooperation with the States and requires that recovery actions be carried out for all listed species. Such actions are initiated by the Service following listing. The protection required of Federal agencies and the prohibitions against taking and harm are discussed, in part, below.

Section 7(a) of the Act, as amended, requires Federal agencies to evaluate their actions with respect to any species that is proposed or listed as endangered or threatened, and with respect to its critical habitat, if any is being designated. Regulations implementing this interagency cooperation provision of the Act are codified at 50 CFR part 402. Section 7(a)(4) requires Federal agencies to confer informally with the Service on any action that is likely to jeopardize the continued existence of a proposed species or result in destruction or adverse modification of proposed critical habitat. If a species is subsequently listed, section 7(a)(2) of the Act requires Federal agencies to ensure that activities they authorize, fund, or carry out are not likely to destroy or adversely modify its critical habitat. If a Federal action may affect a listed species or its critical habitat, the responsible Federal agency must enter into formal consultation with the Service. Currently known Federal activities that may affect the silver rice rat include the management of the Service's Great White Heron and Key Deer National Wildlife Refuges, and the U.S. Army Corps of Engineer's wetland permitting activities in the Lower Keys. These Federal agency activities, among others, will require conference or consultation with regard to any aspects that may affect the silver rice rat.

The Act and implementing regulations found at 50 CFR 17.21 set forth a series of general prohibitions and exceptions that apply to all endangered wildlife. These prohibitions, in part, make it illegal for any person subject to the jurisdiction of the United States to take (includes harass, harm, pursue, hunt, shoot, wound, kill, trap, or collect; or to attempt any of these), import or export, ship in interstate commerce in the course of commercial activity, or sell or offer for sale in interstate or foreign commerce any listed species. It is also illegal to posses, sell, deliver, carry, transport, or ship any such wildlife that has been taken illegally. Certain exceptions apply to agents of the Service and State conservation agencies.

Permits may be issued to carry out otherwise prohibited activities involving endangered wildlife species under certain circumstances. Regulations governing permits are at 50 CFR 17.22 and 17.23. Such permits are available for scientific purposes, to enhance the propagation or survival of the species, and or for incidental take in connection with otherwise lawful activities.

Public Comments Solicited

The Service intends that any final action resulting from this proposal will be as accurate and as efective as possible. Therefore, comments and suggestions regarding any aspect of this proposal are hereby solicited from the public, concerned governmental agencies, the scientific community, industry, and other interested parties. Comments are particularly sought concerning:

(1) Biological, commercial trade, or other relevant data concerning any threat (or lack thereof) to the silver rice rat;

(2) The location of any additional populations of this species and the reasons why any habitat should or should not be determined to be critical habitat as provided by Section 4 of the Act;

(3) Additional information concerning the distribution of this species; and

(4) Current or planned activities in the involved area and their impacts on the subject species.

Final promulgation of the regulation on this species will take into consideration the comments and any additional information received by the Service, and such communications may lead to adoption of a final regulation that differs from this proposal.

The Endangered Species Act provides for a public hearing on this proposal, if requested. Requests must be filed within 45 days of the date of the proposal. Such requests must be made in writing and directed to the party named in the above "ADDRESSES" section.

National Environmental Policy Act

The Service has determined that an Environmental Assessment, as defined under the authority of the National Environmental Policy Act of 1969, need not be prepared for regulations adopted pursuant to section 4(a) of the Endangered Species Act of 1973, as amended. A notice outlining the Service's reasons for this determination was published in the Federal Register of October 25, 1983 (48 FR 49244).

Proposed Regulation Promulgation

PART 17—[AMENDED]

Accordingly, it is proposed to amend part 17, subchapter B of chapter I, title 50 of the Code of Federal Regulations, as set forth below:

1. The authority citation for part 17 continues to read as follows:

Authority: 16 U.S.C. 1361–1407; 16 U.S.C. 1531–1544; 16 U.S.C. 4201–4245; Pub. L. 99–625, 100 Stat. 3500; unless otherwise noted.

2. It is proposed to amend § 17.11(h) by adding the following, in alphabetical order under "MAMMALS", to the List of Endangered and Threatened Wildlife:

§ 17.11 Endangered and threatened wildlife.

* * * * *

[Docket No. 901069-0269]

RIN 0648-AD26

Coral and Coral Reefs of the Gulf of Mexico and the South Atlantic

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Proposed rule.

SUMMARY: NOAA issues this proposed rule to implement Amendment 1 to the Fishery Management Plan for Coral and Coral Reefs of the Gulf of Mexico and the South Atlantic (FMP). This proposed rule would (1) Provide for a limited harvest of certain octocorals; (2) require a permit to take such octocorals; (3) provide for reports of harvest by selected persons who are permitted to take such octocorals; (4) limit the recreational harvest of such octocorals; (5) condition the renewal of coral permits on the submission of all required reports during the 12 months preceding the renewal application; and (6) make other changes to clarify the regulations and conform them to current usage. The intended effect of this rule is to conserve and manage the coral resources.

DATES: Written comments must be received on or before December 6, 1990.

ADDRESSES: Requests for copies of the FMP, which includes a regulatory impact review/environmental assessment (RIR/EA) should be sent to the Gulf of Mexico Fishery Management Council, 5401 West Kennedy Boulevard, Suite 881, Tampa, Florida 33609, or the South Atlantic Fishery Management Council, Southpark Building, Suite 306, One Southpark Circle, Charleston, South Carolina 29407–4699

Comments on the proposed rule should be sent to Michael E. Justen, Southeast Region, NMFS, 9450 Koger Boulevard, St. Petersburg, FL 33702

Comments on the information collection requirements should be sent to Edward E. Burgess, Southeast Region, NMFS, 9450 Koger Boulevard, St. Petersburg, FL 33702, and to the Office of Information and Regulatory Affairs of the Office of Management and Budget, Washington, DC 20503 (Attention: Desk Officer for NOAA).

FOR FURTHER INFORMATION CONTACT: Michael E. Justen, 813–893–3722.

SUPPLEMENTARY INFORMATION: Coral and coral reefs in the exclusive economic zone (EEZ) off the South Atlantic coastal states and in the Gulf of Mexico are managed under the FMP prepared by the Gulf of Mexico and South Atlantic Fishery Management Councils (Councils), and its implementing regulations at 50 CFR part 638, under the authority of the Magnuson Fishery Conservation and Management Act (Magnuson Act). Amendment 1 to the FMP would provide for a limited harvest of certain octocorals, implement conservation and management measure for such octocorals, add to the FMP a definition of overfishing, and restate the FMP's determination of optimum yield (OY) to include octocorals.

Allowable octocorals, which are octocorals other than seafans, are harvested in small quantities, estimated

to be less than 20,000 colonies per year, by the aquarium trade. Such harvest is considered to be within the capability of octocorals to regenerate. Accordingly, Amendment 1 would authorize such harvest with appropriate management measures.

To control the harvest of allowable octocorals, most of which occur in waters adjacent to Florida, a commercial or recreational permit to take these octocorals in the EEZ would be required. In lieu of a Federal permit, a state permit for the state of landing would suffice. Florida provides for a commercial marine life license and a recreational salt water fishing license, either of which would meet the permit requirement. An individual holding a commercial permit would not be restricted to a bag and possession limit, but a holder of a recreational permit would be limited to six colonies of allowable octocorals per day. The cost of the Federal commercial permit would not exceed the administrative cost of processing the application, $20. The cost of the Federal recreational permit would be $5.

Allowable octocoral taken as incidental catch without a permit would have to be returned to the sea. Allowable octocoral incidentally taken in fisheries such as the groundfish and scallop fisheries, where catch is not sorted on board, would be allowed to be landed but could not be sold, traded, or bartered, as is the case with prohibited coral.

A person fishing for allowable octocoral in the EEZ with either a Federal or state of landing permit or license would agree to be subject to the regulations in this part or, if the state of landing catch, landing, or gear requirements were more restrictive, to the state requirements. The applicable Federal or state of landing catch, landing, or gear requirements, except for seasonal closures, would apply without regard to whether fishing occurs in the EEZ or landward of the EEZ and without regard to where the allowable octocoral or gear are possessed, taken, or landed.

A person with a Federal permit to take allowable octocoral and who is selected by the Science and Research Director would be required to report harvests of such octocoral. This requirement to report would be exercised only in the event that there are significant numbers of Federal permit holders who would not be included in the statistical reporting requirements of Florida. In any event, a means would be provided for determining the level of annual harvest so that the annual quota is not exceeded.

An annual quota would be established of 50,000 colonies of allowable octocoral from the EEZ. When the quota is reached, or is projected to be reached, no further harvest of allowable octocoral from the EEZ would be allowed.

Amendment 1 would define overfishing of coral and coral reef as an annual harvest that exceeds OY, which is zero for prohibited coral and 50,000 colonies of allowable octocoral per year from the EEZ. Further information on this definition, on the revised statement of OY for corals, and on allowable octocorals and their management measures is contained in Amendment 1, the availability of which was announced in the Federal Register on September 26, 1990 (55 FR 39310).

In addition to the changes contained in Amendment 1, NOAA proposes additional changes to clarify the regulations and conform them to current usage. The purpose and scope section (§ 638.1(b)) would be modified to express the scope of the regulations in the broadest terms consistent with the FMP. NOAA has determined that the public is better served by a general expression of scope in this section, with the specific scope of each management provison or measure specified in that provision or measure. This approach avoids the possibility of misleading fishermen, dealers, and processors as to the scope of the regulations in this part.

To clarify the use of chemicals to take fish and other marine organisms, the terms "allowable chemical" and "toxic chemical" would be defined. In accordance with the intent of the FMP, an allowable chemical may be used with a permit, while a toxic chemical may not be used.

The definition of "management unit" would be removed because that term is not used in the regulations.

The existing permit requirements would be reordered for clarity and to conform them to current usage. Additional identifying information would be required of applicants for permits, and the renewal of permits would be conditioned on compliance with all applicable reporting requirements during the 12 months immediately preceding the renewal application. NOAA believes that a permittee who has not complied with applicable reporting requirements should not receive renewal of his permit.

The prohibitions section (§ 638.5) would be rewritten to provide a specific prohibition applicable to each management measure. Other minor changes are proposed for clarity and to remove redundancies.

Specific authority would be added to cover the existing data collection program that is carried out by NMFS statistical reporting agents and to require that coral be made available, upon request, to an authorized officer.

Classification

Section 304(a)(1)(D)(ii) of the Magnuson Act, as amended by Public Law 99-659, requires the Secretary of Commerce (Secretary) to publish regulations proposed by a Regional Fishery Management Council within 15 days of receipt of an FMP amendment and regulations. At this time, the Secretary has not determined that Amendment 1, which this proposed rule would implement, is consistent with the national standards, other provisions of the Magnuson Act, and other applicable law. The Secretary, in making that determination, will take into account the data, views, and comments received during the comment period.

This proposed rule is exempt from the procedures of E.O. 12291 under section 8(a)(2) of that order. It is being reported to the Director, Office of Management and Budget, with an explanation of why it is not possible to follow the procedures of that order.

The Assistant Administrator for Fisheries, NOAA, has initially determined that this proposed rule is not a "major rule" requiring the preparation of a regulatory impact analysis under E.O. 12291. This proposed rule, if adopted, is not likely to result in an annual effect on the economy of $100 million or more; a major increase in costs or prices for consumers, individual industries, Federal, state, or local government agencies, or geographic regions; or a significant adverse effect on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Councils prepared a regulatory impact review (RIR), which concludes that Amendment 1, if adopted, would have the economic effects summarized as follows. The setting of an annual level of harvest of octocoral above the current level of harvest will provide for expansion of the fishery without jeopardizing the biological integrity of the stock. Requiring a Federal permit to harvest allowable octocoral from the EEZ, or a state of landing permit or license, will affect few harvesters as most harvest of allowable octocoral takes place in waters adjacent to Florida where harvesters are licensed. A bag and possession limit of six colonies of allowable octocoral for recreational

users collecting for personal aquaria will be ample, according to public testimony obtained at hearings.

The Councils concluded that this rule will not have a significant economic impact on a substantial number of small entities for the reasons summarized as follows. The number of commercial harvesters of allowable octocoral is not known but is believed to be less than 100. Current harvest of octocoral is thought to be less than 20,000 colonies per year. An allowable harvest of 50,000 colonies per year would not adversely impact commercial users. The number of recreational harvesters who take octocorals is also not known, but a bag and possession limit of six colonies was recommended by these harvesters. Only a few individuals are expected to take coral from the EEZ without a Florida permit, thus few Federal permits will be required. However, if this number becomes significant, the Science and Research Director may monitor the catch by requiring reporting by these individuals. Accordingly, the General Counsel of the Department of Commerce certified to the Small Business Administration that this proposed rule, if adopted, will not have a significant economic impact on a substantial number of small entities. No regulatory flexibility analysis was prepared.

The Councils prepared an environmental assessment (EA) that discusses the impact on the environment as a result of this rule. A copy of the EA may be obtained at the address listed above and comments on it are requested.

The Councils have determined that this rule will be implemented in a manner that is consistent to the maximum extent practicable with the approved coastal zone management programs of Alabama, Florida, Louisiana, Mississippi, North Carolina, and South Carolina. Georgia and Texas do not participate in the coastal zone management program. These determinations have been submitted for review by the responsible state agencies under section 307 of the Coastal Zone Management Act.

This proposed rule contains two new collections of information subject to the Paperwork Reduction Act, namely, applications for annual Federal permits to take allowable octocorals and catch reports from selected Federal permittees. Requests to make these collections have been submitted to the Office of Management and Budget (OMB) for approval. The public reporting burdens for these collections of information are estimated to average 15 minutes each per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This proposed rule restates for clarity the application procedures for permits to take prohibited coral and to use an allowable chemical in a coral area. Those collections of information were previously approved and OMB control number 0648-0205 applies. The public reporting burden for those collections of information were estimated to average 15 minutes each per response including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding these burden estimates or any other aspect of these collections of information, including suggestions for reducing the burdens, to Edward E. Burgess, NMFS, and to the Office of Information and Regulatory Affairs, Office of Management and Budget (see **ADDRESSES**, above).

This proposed rule does not contain policies with federalism implications sufficient to warrant preparation of a federalism assessment under E.O. 12612.

List of Subjects in 50 CFR Part 638

Fisheries, Fishing, Reporting and recordkeeping requirements.

Dated: October 16, 1990.

Samuel W. McKeen,

Acting Assistant Administrator for Fisheries, National Marine Fisheries Service.

For the reasons set forth in the preamble, 50 CFR part 638 is proposed to be amended as follows:

PART 638—CORAL AND CORAL REEFS OF THE GULF OF MEXICO AND THE SOUTH ATLANTIC

1. The authority citation for part 638 continues to read as follows:

Authority: 16 U.S.C. 1801 *et seq.*

§ 638.1 [Amended]

2. In § 638.1, in paragraph (b), the phrase "by fishing vessels of the United States" is removed.

3. In § 638.2, the definition for *Management area* is removed; new definitions for *Allowable chemical, Allowable octocoral, Colony,* and *Toxic chemical* are added in alphabetical order; and the definitions for *Prohibited coral* and *Take* are revised to read as follows:

§ 638.2 Definitions.

* * * * *

Allowable chemical means a substance, generally used to immobilize marine life so that it can be captured alive, that, when introduced into the water:

(a) Does not take prohibited coral; and

(b) Is allowed by Florida for the harvest of tropical fish (e.g., quinaldine, quinaldine compounds, or similar substances).

Allowable octocoral means a species of coral outside an HAPC and belonging to the Subclass Octocorallia, except the seafans *Gorgonia flabellum* and *G. ventalina.*

Colony means a continuous group of coral polyps forming a single unit.

* * * * *

Prohibited coral means—

(a) A species of coral belonging to the Class Hydrozoa (fire corals and hydrocorals),

(b) A species of coral belonging to the Class Anthozoa, Subclass Zooantharia (stony corals and black corals),

(c) A seafan, *Gorgonia flabellum* or *G. ventalina,*

(d) A coral reef, except for allowable octocorals, or

(e) Coral in an HAPC.

* * * * *

Take means to damage, harm, kill, possess, or attempt to damage, harm, kill, or possess.

Toxic chemical means any substance, other than an allowable chemical, that, when introduced into the water, can stun, immobilize, or take marine life.

4. In § 638.4, paragraphs (a) and (c) through (g) are revised and new paragraphs (h) through (m) are added to read as follows:

§ 638.4 Permits and fees.

(a) *Applicability*—(1) *Federal permits.* A Federal permit is required each fishing year for a person to—

(i) Take prohibited coral in the EEZ,

(ii) Use an allowable chemical to collect fish or other marine organisms in a coral area in the EEZ, or

(iii) Take an allowable octocoral in the EEZ.

(2) *Acceptable state permits*—(i) A Florida permit is acceptable in lieu of the Federal permit to use an allowable chemical to collect fish or other marine organisms in a coral area in the EEZ.

(ii) A state of landing permit or license applicable to allowable octocorals is acceptable in lieu of the Federal permit to take an allowable octocoral in the EEZ. A person who applies for a permit to take an allowable octocoral under paragraph (c)(3) of this section, or who uses a valid state of landing permit or license to take an allowable octocoral in the EEZ, must agree as a condition of using either permit that his/her catch, landing, or gear (without regard to whether fishing occurs in the EEZ or

landward of the EEZ, and without regard to where allowable octocoral or gear is possessed, taken, or landed) will be subject to the requirements of this part. If a regulation in this part and a catch, landing, or gear regulation of a state of landing differ, a person issued a permit under paragraph (c)(3) of this section or using a valid state permit or license to take an allowable octocoral from the EEZ must comply with the more restrictive regulation. In the event there is not equivalent regulation in this part to a state of landing catch, landing, or gear regulation, a person issued a permit under paragraph (c)(3) of this section or using a valid state permit or license applicable to an allowable octocoral harvested form the EEZ must comply with such state regulation.

* * * * *

(c) *Application.* An application for a Federal permit must be signed and submitted by the applicant on an appropriate form, which may be obtained from the Regional Director. The application should be submitted to the Regional Director at least 45 days prior to the date on which the applicant desires to have the permit made effective. An applicant must provide the following information.

(1) *For a prohibited coral permit:*

(i) Name, mailing address including zip code, and telephone number of the applicant;

(ii) Social security number and date of birth of the applicant;

(iii) Name and address of harvester, company, institution, or affiliation;

(iv) Amount of coral to be fished for by species;

(v) Size of each species;

(vi) Projected use of each species;

(vii) Collection techniques (vessel types, gear, number of trips);

(viii) Period of fishing; and

(ix) Location of fishing.

(2) *For an allowable chemical permit:*

(i) Name, mailing address including zip code, and telephone number of the applicant;

(ii) Social security number and date of birth of the applicant;

(iii) Type of chemical to be used;

(iv) Period of fishing; and

(v) Location of fishing.

(3) *For an allowable octocoral permit:*

(i) Name, mailing address including zip code, and telephone number of the applicant;

(ii) Social security number and date of birth of the applicant;

(iii) Whether applicant desires a commercial or recreational permit (see paragraph (d) of this section for appropriate fees and § 638.21(b) for the recreational bag and possession limit);

(iv) Estimated number of colonies to be taken during the fishing year;

(v) If the applicant is a corporation, the name and position of the signer; and

(vi) A sworn statement that the applicant agrees to conform to each regulation on allowable octocoral of this part or to any catch, landing, or gear regulation on allowable octocoral of the state of landing, if such state regulation is more restrictive than the regulation in this part or there is no equivalent regulation in this part, regardless of where such allowable octocoral or gear is possessed, taken, or landed.

(d) *Fees.* (1) A fee will be charged for each application submitted under paragraph (c)(3) of this section for an allowable octocoral permit as follows:

(i) Application for a commercial permit—$20.

(ii) Application for a recreational permit—$5.

(2) The appropriate fee must accompany each permit application.

(e) *Issuance.* (1) The Regional Director will issue a permit at any time during the fishing year to an applicant if:

(i) The application is complete; and

(ii) The applicant has complied with all applicable reporting requirements of § 638.7 during the 12 months immediately preceding the application.

(2) Upon receipt of an incomplete application, or an application from a person who has not complied with all applicable reporting requirements of § 638.7 during the 12 months immediately preceding the application, the Regional Director will notify the applicant of the deficiency. If the applicant fails to correct the deficiency within 30 days of the Regional Director's notification, the application will be considered abandoned.

(f) *Permit conditions.* (1) It is a condition of each permit issued under paragraph (c)(3) of this section or any state permit used to take octocorals in the EEZ that each regulation on allowable octocoral in this part or any catch, landing, or gear regulation on allowable octocoral of the state of landing, if such state regulation is more restrictive than the regulation in this part or there is not equivalent regulation in this part, applies to the permittee, regardless of where such allowable octocoral is possessed, taken, or landed.

(2) Other conditions and restrictions that may be necessary for the conservation and management of corals may be specified on a permit.

(g) *Duration.* A permit remains valid for the remainder of the fishing year for which it is issued unless revoked, suspended, or modified pursuant to support D of 15 CFR part 904.

(h) *Transfer.* A permit issued under this section is not transferable or assignable.

(i) *Display.* A Federal permit issued under this section, or an acceptable state permit or license as specified in paragraph (a)(2) of this section, must be in the possession of the permittee while fishing for prohibited coral in the EEZ, using an allowable chemical in a coral area in the EEZ, or fishing for an allowable octocoral in the EEZ. Such Federal permit, or acceptable state permit or license, must be presented for inspection upon the request of an authorized officer. A permittee must have in possession documentation to establish identity as the permittee (e.g., driver's license).

(j) *Sanctions and denials.* Procedures governing enforcement-related permit sanctions and denials are found at subpart D of 15 CFR part 904.

(k) *Alteration.* A permit that is altered, erased, or mutilated is invalid.

(l) *Replacement.* A replacement permit may be issued upon request. An application for a replacement permit will not be considered a new application.

(m) *Change in application information.* A permittee must notify the Regional Director within 30 days after any change in the application information required by paragraphs (c)(1) through (c)(3) of this section. A permit is void if any change in the information is not reported within 30 days.

5. Section 638.5 is revised to read as follows:

§ 638.5 Prohibitions.

In addition to the general prohibitions specified in § 620.7 of this chapter, it is unlawful for any person to do any of the following:

(a) Take prohibited coral in the EEZ without a Federal permit; use an allowable chemical to collect fish or other marine organisms in a coral area in the EEZ without a Federal permit or acceptable state permit; or take an allowable octocoral in the EEZ without a Federal permit or an acceptable state permit, as specified in § 638.4(a).

(b) Falsify information specified in § 638.4(c) on an application for a Federal permit.

(c) Fail to comply with a catch, landing, or gear regulation on allowable octocoral of a state of landing, if such state regulation is more restrictive than the regulation in this part or there is no equivalent regulation in this part, as specified in § 638.4(f)(1).

(d) Fail to comply with a permit condition or restriction, as specified in accordance with § 638.4(f)(2).

(e) Fail to display a Federal permit, or an acceptable state permit or license, as specified in § 638.4(i).

(f) Fail to notify the Regional Director after a change in the information provided on an application for a Federal permit, as specified in § 638.4(m).

(g) Falsify or fail to provide information required to be submitted or reported, as required by § 638.7 (a) or (b).

(h) Fail to make prohibited coral or allowable octocoral available for inspection, as required by § 638.7(c).

(i) Fail to return to the sea prohibited coral and allowable octocoral taken as incidental catch, as specified in § 638.21(a).

(j) In those fisheries in which the entire catch is landed, land sorted prohibited coral or allowable octocoral, or sell, trade, or barter prohibited coral or allowable octocoral, as specified in § 638.21(a).

(k) Exceed the bag and possession limit when fishing under a recreational permit to take allowable octocoral, as specified in § 638.21(b).

(l) Use prohibited fishing gear in an HAPC, as specified in § 638.22(a)(2), (b)(2), and (c)(2).

(m) Use a toxic chemical to take fish or other marine organisms, as specified in § 638.23.

(n) Take allowable octocoral after harvest from the EEZ is prohibited, as specified in § 638.25.

6. In § 638.7, the existing text is designated as paragraph (a) and new paragraphs (b) and (c) are added to read as follows:

§ 638.7 Recordkeeping and reporting

* * * * *

(b) A person with a Federal permit to take allowable octocoral in the EEZ, if selected by the Science and Research Director, must submit a report of his harvest to the Science and Research Director on a form available from the Science and Research Director. These forms must be submitted to the Science and Research Director on a quarterly basis within 25 days of the end of each quarter. The following information must be included on the forms:

(1) Federal permit number;

(2) Name of permit holder;

(3) Quarter when fishing occurred;

(4) Number of colonies harvested by month and by species name if known;

(5) Area fished;

(6) Signature of the person submitting the form; and

(7) Other information deemed necessary by the Science and Research Director.

(c) Additional data will be collected by authorized statistical reporting agents, as designees of the Science and Research Director, and by authorized officers. An owner or operator of a fishing vessel and a dealer or processor are required upon request to make prohibited coral or allowable octocoral available for inspection by the Science and Research Director or an authorized officer.

7. Section 638.21 is revised to read as follows:

§ 638.21 Harvest limitations.

(a) Prohibited coral and allowable octocoral taken as incidental catch to other fishing activities by a person who does not have a permit must be returned to the sea in the general area of fishing immediately. In those fisheries, such as scallops and groundfish, where the entire catch is landed, unsorted prohibited coral and unsorted allowable octocoral may be landed but not sold, traded, or bartered.

(b) A person who has a recreational permit to take allowable octocoral may not posses during a single day, regardless of the number of trips or the duration of a trip, allowable octocoral in excess of six colonies.

8. Section 638.23 is revised to read as follows:

§ 638.23 Gear limitations.

A toxic chemical may not be used to take fish or other marine organisms in or on a coral area.

9. Section 638.24 is redesignated as § 638.26, and new §§ 638.24 and 638.25 are added to read as follows:

§ 638.24 Quota.

The quota of allowable octocoral is 50,000 colonies from the EEZ each fishing year.

§ 638.25 Closure.

When the quota specified in § 638.24 is reached, or is projected to be reached, the Secretary will publish a notice to that effect in the Federal Register. After the effective date of such notice, for the remainder of the fishing year, the harvest of allowable octocoral from the EEZ is prohibited.

BILLING CODE 3510-22-M

Notices

Federal Register
Vol. 55, No. 207
Thursday, October 25, 1990

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

Committee on Rulemaking; Public Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given of a meeting of the Committee on Rulemaking of the Administrative Conference of the United States. The meeting will be held at 4:30 p.m. on Thursday, November 8, 1990, at the Administrative Conference of the United States, 2120 L Street, NW., suite 500, Washington, DC 20037 (Library, 5th Floor).

The committee will meet to discuss two new projects: (1) A study of the Medicaid rulemaking process, conducted by Eleanor Kinney, Director, Program for Law, Medicine and the Health Care Industry, Indiana University School of Law; and (2) a study of administrative responses to congressional demands for information, by Peter Shane, Professor of Law, University of Iowa.

For further information concerning this meeting, contact Kevin Jessar, Office of the Chairman, Administrative Conference of the United States, 2120 L Street, NW., suite 500, Washington, DC. (Telephone: 202–254–7020.)

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify the Office of the Chairman at least one day is advance. The committee chairman, if he deems it appropriate, may permit members of the public to present oral statements at the meeting. Any member of the public may file a written statement with the committee before, during, or after the meeting. Minutes of the meeting will be available on request.

Dated: October 22, 1990.
Jeffrey S. Lubbers,
Research Director.

BILLING CODE 6110–01–M

DEPARTMENT OF AGRICULTURE

Forms Under Review by Office of Management and Budget

October 19, 1990.

The Department of Agriculture has submitted to OMB for review the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35) since the last list was published. This list is grouped into new proposals, revisions, extensions, or reinstatements. Each entry contains the following information:

(1) Agency proposing the information collection; (2) Title of the information collection; (3) Form number(s), if applicable; (4) How often the information is requested; (5) Who will be required or asked to report; (6) An estimate of the number of responses; (7) An estimate of the total number of hours needed to provide the information; (8) An indication of whether section 3504(h) of Public Law 96–511 applies; (9) Name and telephone number of the agency contact person.

Questions about the items in the listing should be directed to the agency person named at the end of each entry. Copies of the proposed forms of supporting documents may be obtained from: Department Clearance Officer, USDA, OIRM, room 404–W Admin. Bldg., Washington, DC 20250, (202) 447–2118.

Extension

• Food Safety and Inspection Service, Regulations Governing Voluntary Reimbursable Inspection Service. MP 85, 225; FSIS 9080–8, 9060–13. Recordkeeping. On occasion. Individuals or households; State or local governments; Businesses or other for-profit; Small businesses or organizations; 800 responses; 78 hours; not applicable under 3504(h). Roy Purdie, Jr. (202) 447–5372.

• National Agricultural Statistics Service, Field Crop Production. Weekly; Monthly; Quarterly; Annually. Farms; Businesses or other for-profit; 299,960 responses; 54,620 hours; not applicable under 3504(h). Larry Gambrell (20..) 447–7737.

New Collection

• Cooperative State Research Service, Preconstruction Environmental Report. One time only. Non-profit institutions; 12 responses; 120 hours; not applicable under 3504(h). Evelyn O'Connor-Miller (202) 401–6456.

Reinstatement

• Federal Crop Insurance Corporation, Field Inspection And Claim For Indemnity. FCI–63 and FCI–74. On occasion. Individuals or households; Farms; 40,000 responses; 10,000 hours; not applicable under 3504(h). Garland Westmoreland (202) 447–5251.

Donald E. Hulcher,
Acting Departmental Clearance Officer.

DEPARTMENT OF AGRICULTURE

Forest Service

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Intent To Prepare an Environmental Impact Statement on Management of the Subsistence Uses of Fish and Wildlife on Public Lands in Alaska

AGENCY: Forest Service, USDA; Fish and Wildlife Service, Interior.

ACTION: Notice of intent.

SUMMARY: The Federal Subsistence Board (Board), on behalf of the Bureau of Indian Affairs, Bureau of Land Management, Fish and Wildlife Service, National Park Service and USDA-Forest Service (land managing agencies in Alaska), intends to gather in formation necessary for the preparation of an environmental impact statement on the Federal management of subsistence uses of fish and wildlife on public lands in Alaska. Public meetings will be held throughout Alaska to solicit comments on the Federal subsistence management program and possible effects of the program on the subsistence user and resources in accordance with the provisions of Section 810 of the Alaska National Interest Lands Conservation Act of 1980 (ANILCA).

DATES: Written comments should be received by December 31, 1990. Public meetings to receive comments will be held throughout Alaska during October and November and in Seattle, Washington and Washington, DC. Widespread local announcement of these meetings will be provided as soon as possible. Tentative meeting locations and dates are as follows:

Allakaket	Oct. 29
Anaktuvuk Pass	Oct. 30
Anchorage	Nov. 20
Angoon	Oct. 30
Aniak	Nov. 8
Arctic Village	Nov. 27

Togiak	Oct. 30
Tok	Nov. 29
Unalakleet	Nov. 5
Valdez	Nov. 5
Yakutat	Nov. 16
Seattle, WA	Dec. 6
Washington, DC	Dec. 4

ADDRESSES: Comments should be addressed to the Federal Subsistence Board, U.S. Fish and Wildlife Service, ATTN: Richard Pospahala, 1011 E. Tudor Road, Anchorage, Alaska 99503.

FOR FURTHER INFORMATION CONTACT: Richard Pospahala, U.S. Fish and Wildlife Service, 1011 E. Tudor Road, Anchorage, Alaska 99503; telephone (907) 267–1461.

SUPPLEMENTARY INFORMATION: Title VIII of ANILCA (16 U.S.C. 3111–3126) requires the Secretaries of Agriculture and Interior to implement a program to ensure preference to rural Alaskans for subsistence uses of fish and wildlife on public lands unless the State of Alaska implements a subsistence program consistent with ANILCA's requirements. The State of Alaska had such a program that the Department of the Interior found to be consistent with ANILCA. In December 1989, however, the Alaska Supreme Court ruled in *McDowell* v. *State of Alaska* that the rural limitation in the State subsistence definition, which is required by ANILCA, violates the Alaska Constitution. The Court stayed the effect of the decision until July 1, 1990.

As a result of the decision, the Departments of Agriculture and Interior were required to take over implementation of title VIII of ANILCA on public lands on July 1, 1990. Temporary regulations were developed to implement the Federal Subsistence Program until final regulations could be prepared. The Federal Subsistence Board, as the managing entity, is now starting the process of collecting public comments relating to a number of issues on subsistence management on public lands in order to prepare an environmental impact statement (EIS). This EIS will evaluate alternative approaches in the Federal Subsistence Management Program. Public lands in Alaska affected by this program include those managed by the Fish and Wildlife Service, National Park Service, Bureau of Land Management, Bureau of Indian Affairs, Forest Service, Air Force, Army and possibly other Federal land managing agencies.

The Fish and Wildlife Service is designated the lead agency for the preparation of the EIS. The National Park Service, Bureau of Land Management, Bureau of Indian Affairs, and Forest Service are participating as cooperating agencies. The environmental review of the program will be conducted in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4371 *et seq.*), Council on Environmental Quality Regulations (40 CFR 1500–1508), other appropriate Federal regulations and Department of the Interior procedures for compliance with those regulations.

The Draft Environmental Impact Statement is estimated to be available to the public for review by October, 1991.

Walter O. Stieglitz,

Chairman, Federal Subsistence Board, Regional Director, U.S. Fish and Wildlife Service.

Michael A. Barton,

Regional Forester, USDA—Forest Service.

BILLING CODE 4310-55-M

DEPARTMENT OF AGRICULTURE

Forest Service

Metropolitan Water District, Inland Feeder Project, San Bernardino National Forest, San Bernardino and Riverside Counties, CA; Intent To Prepare an Environmental Impact Statement

The Department of Agriculture, Forest Service, in cooperation with the Department of Interior, Bureau of Land Management (BLM) and the Metropolitan Water District of Southern California (Metropolitan), will prepare a joint Environmental Impact Statement/Environmental Impact Report (EIS/EIR) for a proposal to permit the construction of the Inland Feeder Project on Federal and other lands in San Bernardino and Riverside Counties, California. The EIS/EIR will meet the requirements of both the National Environmental Policy Act (NEPA) and the California Environmental Quality Act (CEQA). For purposes of complying with NEPA, the Forest Service will serve as the lead Federal agency and the BLM will be a cooperating agency for those portions of the proposal on Federal lands. The Metropolitan Water District will be the lead agency under CEQA for all other lands.

The San Bernardino National Forest Land and Resource Management Plan directs that the following three criteria be met before a permit may be issued: (a) The use must be compatible with Forest Service management objectives, (b) the opportunity for the use does not exist on private lands, and (c) impacts to Forest resources can be mitigated. The EIS/EIR will determine if these criteria can be satisfied by the proposed action.

The Inland Feeder is a proposed 42 to 48 mile raw water conduit that will convey water from the enlarged East Branch of the California Aqueduct into Metropolitan's distribution system. The project will originate at the afterbay of the Devil Canyon powerplant and will terminate at Colorado River Aqueduct

at the junction of the Casa Loma Canal, Lakeview Pipeline, and the San Diego Canal. Four alternative routes are being considered. A fifth project alternative originating at Silverwood Lake is also being examined for inclusion in the environmental analysis.

Issues Identified: Preliminary discussions between the Forest Service, BLM, and Metropolitan have identified the following issues: Threatened and endangered species, wildlife, traffic circulation, water quality, ground water, cultural resources, and aesthetics.

The EIS/EIR will evaluate four, and perhaps five, project alternatives and a No Project alternative. Two, or three is the fifth project alternative is included, of the project alternatives are within the San Bernardino National Forest and would involve the boring of tunnels.

SUPPLEMENTARY INFORMATION: Metropolitan is proposing the Inland Feeder Project to increase raw water conveyance capacity for its service area, which covers the southern California coastal plain from Ventura County to the Mexican border. Metropolitan supplies supplemental imported water from the State Water Project and the Colorado River to its member public agencies in Riverside, San Bernardino, San Diego, Orange, Los Angeles, and Ventura counties. Annual water needs within Metropolitan's service area in 1990 are estimated to be 3.7 million acre feet to supply the 15 million people serveed.

Studies prepared by the regional planning agencies, the Southern California Association of Governments (SCAG), the San Diego Association of Governments, and the California Department of Finance indicate population in this area will increase from 15 million to 18.3 million by the year 2010. SCAG estimates a regional water supply shortfall of over 1 million acre feet by the year 2010. Metropolitan estimates that additional capacity will be needed by the year 1997.

The draft EIS/EIR is expected to be available for public review by June 1991 and comments will be received for a period of 45 days following the date that the notice of its availability is published in the Federal Register. It is important that those interested in the management of the San Bernardino National Forest and adjacent Public Domain lands participate at that time. To be most helpful, comments on the draft EIS/EIR should be as specific as possible and may address the adequacy of the document or the merits of the alternatives discussed [see The Council on Environmental Quality Regulations For Implementing The Procedural Provisions Of The National Environmental Policy Act at 40 CFR 1503.3). In addition, Federal Court decisions have established that reviewers of draft EIS's must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions, (Vermont Nuclear Power Corp. v. NRDC, 435 U.S. 519, 553 (1978)), and that environmental objections that could have been raised at the draft stage may be waived if raised until after completion of the final EIS, (Wisconsin Heritages, Inc. v. Harris, 490 F. Supp. 1338 (E.D. Wisc. 1980)). The reason for this is to ensure that substantive comments and objections are made available to the Forest Service when they can meaningfully consider them and respond to them in the final document. All comments will be considered and analyzed in preparing the final EIS/EIR, which is scheduled to be completed by September 1991. The responsible official will document the decision in a Record of Decision which will be subject to appeal under the provisions of 36 CFR Part 217.

DATES: Comments are requested on this notice concerning the scope of analysis of the draft EIS/EIR. Comments must be received within 30 days of the publication date of this notice.

PUBLIC MEETINGS: The Forest Service and Metropolitan will conduct the following meetings to provide information on the project to the public: Riverside City Hall, Nov. 5, 1990, 7 p.m.; San Bernardino County Museum, Nov. 8, 1990, 8 p.m.; Rialto City Hall, Nov. 14, 1990, 7 p.m.; and Moreno Valley City Hall, Nov. 15, 1990, 7 p.m.

ADDRESSES: Submit written comments and suggestions concerning the scope of the analysis for the Inland Feeder Project to Charles H. Irby, Forest Supervisor, San Bernardino National Forest, 1824 S. Commercenter Circle, San Bernardino, CA 92408-3430.

FOR FURTHER INFORMATION CONTACT: Direct questions about the proposed Metropolitan Water District Inland Feeder Project and preparation of the EIS/EIR to Ernie Dierking, Lands Officer at the above address or call (714) 383-5692.

Dated: October 17, 1990.

Charles H. Irby,

Forest Supervisor.

[FR Doc. 90-25247 Filed 10-24-90; 8:45 am]

BILLING CODE 3410-11-M

Oil and Gas Leasing Suitability Analysis for the Grand Mesa National Forest et al.

In the matter Grand Mesa, Uncompahgre, and Gunnison National Forests located in Delta, Garfield, Gunnison, Hinsdale, Mesa, Montrose, Ouray, Saguache, San Juan, and San Miguel Counties, CO.

AGENCY: Forest Service, USDA; Bureau of Land Management, USDI.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Forest Service and Bureau of Land Management will prepare an environmental impact statement to analyze and disclose the expected environmental consequences, and possible cumulative effects of issuing or not issuing oil and gas leases on the Grand Mesa, Uncompahgre, & Gunnison National Forests. The Forest Service will serve as lead agency, and the Bureau of Land Management will serve as a cooperating agency providing special expertise.

DATES: Comments concerning the scope of the analysis should be received in writing by December 10, 1990.

ADDRESSES: Send written comments to Richard E. Greffenius, Forest Supervisor, 2250 Highway 50, Delta, Colorado 81416.

FOR FURTHER INFORMATION CONTACT: Larry Meshew, Forest Hydrologist, 303-874-7691.

SUPPLEMENTARY INFORMATION: The environmental analysis will identify areas: (1) Open to oil & gas development subject to the terms and conditions of the standard lease form; (2) Open to development but subject to constraints requiring lease stipulations such as those prohibiting or controlling surface occupancy; (3) Closed to leasing through the exercise of management direction, laws, or regulations on National Forest system lands within the Grand Mesa, Uncompahgre, & Gunnison National Forests. The analysis will include split estate lands within the administrative boundaries of the Grand Mesa, Uncompahgre, & Gunnison National Forests where the minerals are federally owned and managed, but the surface is not.

In preparing the environmental impact statement, the Forest Service will identify and consider a full range of alternatives, including a no action alternative, to help analyze the significant issues identified during the scoping process.

Preliminary issues include: (1) Will leasing in unroaded areas harm the character of unroaded areas; (2) Will access and travel management problems

occur as a result of leasing or not leasing certain lands; (3) Will leasing or not leasing certain lands affect economic stability; (4) What are the environmental effects of oil and gas leasing on wildlife, fish, vegetation, soils, water quality, air quality, recreation, wetlands, and threatened & endangered plant and animal species; (5) Should leasing occur in municipal watersheds, wild & scenic river-ways, scenic-byways, research natural areas, or other special interest areas.

Public participation will be an important aspect of the analysis. The Forest Service is seeking comments and suggestions from individuals and groups or other Federal, State and local agencies who may be interested in the proposed action. To facilitate input, the Forest Supervisor has prepared a preliminary scoping document and has scheduled an open house. The open house is scheduled to be held on November 14, 1990, 7 P.M. at the bureau of Land Management District Office in Montrose, CO. The preliminary scoping document is available upon request at the Forest Supervisors Office in Delta. Information gathered during the scoping process will be used to identify significant analysis issues.

A draft environmental impact statement is expected to be filed with the Environmental Protection Agency and to be available for public review by October 1991. The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the Federal Register.

It is very important for interested reviewers to participate during the 45 day draft environmental impact statement comment period. To be the most helpful, comments on the draft environmental impact statement should be as specific as possible and may address the adequacy of the statement or the merits of the alternatives discussed.

In addition, Federal court decisions have established that reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewers' position and contentions. *Vermont Yankee Nuclear Power Corp.* v. *NRDC*, 435 U.S. 519, 553 (1978). Environmental objections that could have been raised at the draft stage may be waived if not raised until after completion of the final environmental impact statement. *City of Angoon* v. *Hodel*, (9th Circuit, 1988) and *Wisconsin Heritages, Inc.* v. *Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). The reason is to ensure substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns, comments on the draft environmental impact statement should be as specific as possible. Comments should refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. (Reviewers may refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.)

The final environmental impact statement is scheduled to be completed by September 1992. The responsible official for the Forest Service will consider comments, responses, and environmental consequences discussed in the environmental impact statement as well as applicable laws, regulations, and policies in making a decision regarding the proposal. The decision will be documented in a Record of Decision, and is subject to review under 36 CFR 217.8. The Bureau of Land Management is a cooperating agency and is providing special expertise. The responsible official for the Forest Service is Richard E. Greffenius, Forest Supervisor, Grand Mesa, Uncompahgre, & Gunnison National Forests. The responsible officials for the Bureau of Land Management are Allan L. Kesterke, Montrose District Manager, Colorado and Bruce Conrad, Grand Junction District Manager, Colorado.

Dated: October 19, 1990.

Larry M. Hill,

Acting Forest Supervisor.

BILLING CODE 3410-11-M

Rural Electrification Administration

Saluda River Electric Cooperative, Inc. Finding of No Significant Impact

AGENCY: Rural Electrification Administration, USDA.

ACTION: Finding of no significant impact relating to the construction of an operations center in Laurens County, South Carolina.

SUMMARY: Notice is hereby given that the Rural Electrification Administration, pursuant to the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), the Council on Environmental Policies and Procedures (7 CFR part 1794), has made a Finding of No Significant Impact with respect to the construction of an operations center in Laurens County, South Carolina. Saluda River Electric Cooperative Inc., has requested the Rural Electrification Administration's approval to construct the project.

FOR FURTHER INFORMATION CONTACT: Alex M. Cockey, Jr., Director, Southeast Area—Electric, room 0270, South Agriculture Building, Rural Electrification Administration, Washington, DC 20250, telephone (202) 382-8436.

SUPPLEMENTARY INFORMATION: The proposed operations center will consist of a 9,700 square foot operations building/workshop, a 19,300 square foot warehouse, a 13,900 square foot garage and maintenance building with refueling area incorporating one diesel fuel pump and one gasoline fuel pump, diesel and gasoline above ground fuel tanks each having a capacity of 3,000 gallons, a self supporting lattice type radio tower with a maximum height of 400 feet, a storm water retention pond with a maximum surface area of three acres, a pole and equipment storage area, and employee' and visitor parking to accommodate approximately 60 cars and 20 trucks.

Alternatives considered to constructing the operations center as proposed were no action and leasing building space in or near the City of Laurens. Various site locations for the operations center were also considered. The Rural Electrification Administration's preferred alternative is for Saluda River Electric Cooperative, Inc., to construct the operations center at their 29 acre site in Laurens County.

The Rural Electrification Administration, in accordance with its environmental policies and procedures, required that Saluda River Electric Cooperative, Inc., submit a Borrower's Environmental Report (BER) reflecting the potential impacts of the proposed operations center. The Rural Electrification Administration has reviewed the BER and believes it represents a fair and accurate representation of the project and its potential impacts.

Saluda River Electric Cooperative, Inc., published a legal notice and advertisement in the Laurens County Advertiser which has a general circulation in Laurens County, South Carolina. The notice and advertisement appeared in the September 14, 1990 issue. The notice described the project,

announced the availability of the BER, gave information on how the BER could be obtained for review and gave addresses where comments could be sent. The advertisement appeared in the same issue of the newspaper and briefly described the project and referred the reader to the legal notice. The public was given at least 30 days to respond to the notice. No responses to the notice were received by Saluda River Electric Cooperative, Inc., or the Rural Electrification Administration.

As a result of its independent evaluation of the environmental issues and concurrence with the BER's scope and content, the Rural Electrification Administration adopted the BER as its Environmental Assessment of the project.

The Rural Electrification Administration has concluded that the proposed operations center will have no significant impact on the health and welfare of people living or working in the project area, water quality or air quality. The project is not likely to adversely affect federally listed threatened and endangered species. There are no wetlands, 100-year floodplains, properties listed or eligible for listing on the National Register of Historic Places, National Forests, National Wilderness Areas, National Landmarks, or streams and rivers on, or under review for the Wild and Scenic River System in the project area.

The proposed operations center site is composed of Cecil sandy loam soil which is recognized as prime and statewide important farmland soil. No practicable alternatives to locating on prime and statewide important farmland soils were identified due to the high concentration of these types of soils in the immediate area. The site is not, or has not recently been, in agricultural production.

No potential significant impacts resulting from the construction and use of the proposed operations center have been identifieid. Therefore, the Rural Electrification Administration has determined that its action related to this project will have no significant impact on the quality of the human environment and has subsequently reached a Finding of No Significant Impact.

The Rural Electrification Administration has determined that the Finding of No Significant Impact fulfills its obligations under the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), the Council on Environmental Quality Regulations (40 CFR parts 1500–1508) and the Rural Electrification Administration Policies and Procedures (7 CFR part 1794) for its action related to the proposed operations center.

Copies of the Environmental Assessment and Finding of No Significant Impact can be obtained from REA at the address provided herein or at the office of Saluda River Electric Cooperative, Inc., P.O. Box 929, Laurens, South Carolina 29360.

Dated: October 19, 1990.

Approved:

John H. Arnesen,

Assistant Administrator—Electric Rural Electrification Administration, United States of America.

BILLING CODE 3510-BS-M

Agency Form Under Review by the Office of Management and Budget (OMB)

DOC has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of the Census.
Title: Current Population Survey—Asian or Pacific Islander Supplement (March 1991).
Form Number(s): CPS–1, CPS–260.
Agency Approval Number: None.
Type of Request: New collection.
Burden: 250 hours.
Number of Respondents: 60,000.
Avg Hours per Response: 15 seconds.
Needs and Uses: The Bureau of the Census will use this supplement to the Current Population Survey (CPS) to provide the only data during the 1980–2000 intercensal years on the size and socioeconomic characteristics of specific Asian and Pacific Islander subgroups. The Department of Health and Human Services will use these data to evaluate refugee programs and social and economic progress of immigrant groups. The supplement will provide timely and accurate data to policymakers who plan and implement relevant programs and policies.
Affected Public: Individuals or households.
Frequency: One time only.
Respondent's Obligation: Voluntary.
OMB Desk Officer: Marshall Mills, 395–7340.

Copies of the above information collection proposal can be obtained by calling or writing Edward Michals, DOC Clearance Officer, (202) 377–3271, Department of Commerce, room 5312, 14th and Constitution Avenue, NW., Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent to Marshall Mills, OMB Desk Officer, room 3208, New Executive Office Building, Washington, DC 20503.

Dated: October 19, 1990.

Edward Michals,

Departmental Clearance Officer, Office of Management and Organization.

Agency Information Collection Under Review by the Office of Management and Budget (OMB)

DOC has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Oceanic and Atmospheric Administration.
Title: Sea Grant Budget.
Form Number: NOAA Form 90–4; OMB–0648–0034.
Type of Request: Request for extension of the expiration date of a currently approved collection without any change in the substance or method of the collection.
Burden: 40 respondents; 200 reporting hours; average hours per response—.25 hours.
Needs and Uses: The information is used by both grantee and grantor to

determine the cost of each project in a multi-project proposal and to determine the allowability of matching costs offered. Also used in negotiating costs and administrative control of expenditures by both parties.

Affected Public: State or local governments, non-profit institutions.

Frequency: Annually.

Respondent's Obligation: Required to obtain or retain a benefit.

OMB Desk Officer: Ronald Minsk 395–7340.

Copies of the above information collection proposal can be obtained by calling or writing DOC Clearance Officer, Edward Michals, (202) 377–3271, Department of Commerce, room 5312, 14th and Constitution Avenue, NW., Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent to Ronald Minsk, OMB Desk Officer, room 3208, New Executive Office Building, Washington, DC 20503.

Dated: October 18, 1990.

BILLING CODE 3510-CW-M

Foreign-Trade Zones Board

[Docket 39-90]

Foreign-Trade Zone 141—Monroe County, NY; Application for Subzone, General Motors Corp. Auto Parts Plant, Rochester, NY.

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the County of Monroe, New York, grantee of FTZ 141, requesting special-purpose subzone status for the auto parts manufacturing plant of General Motors Corporation (GM), Delco Products Division, located in Rochester, New York. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR part 400). It was formally filed on October 2, 1990.

The GM plant (36 acres) is located at 1555 Lyell Avenue in Rochester. The facility employs 3,500 persons and is used to produce windshield wiper systems, car seat actuators, door lock actuators, windowlift actuators, power antennae, heater and blower motors, compressors and engine cooling systems. Foreign subcomponents and materials account for up to 70 percent (average—15%) of material value of the auto parts made at the plant. They include housings, motor assemblies, magnets, pumps, antennae and circuit boards. Foreign sourced bearings would enter the plant in duty-paid domestic status.

Zone procedures would exempt GM from Customs duties on the foreign components used in the manufacture of products that are exported. On products shipped to GM's domestic auto assembly plants with subzone status, the company would be able to choose the rate that applies to finished autos (2.5%), whereas the duty rates on the subcomponents and material used at the plant range from 3.0 to 6.0 percent. Normal duty rates would apply to components used for products that are sold in the U.S. aftermarket. The application indicates that the savings

will help improve the company's international competitiveness.

In accordance with the Board's regulations, an examiners committee has been appointed to investigate the application and report to the Board. The committee consists of: Dennis Puccinelli (Chairman), Foreign-Trade Zones Staff, U.S. Department of Commerce, Washington, DC 20230; Edward A. Goggin, Assistant Regional Commissioner, U.S. Customs Service, Northeast Region, 10 Causeway Street, Boston, Massachusetts 02222–1056; and Colonel Hugh F. Boyd III, District Engineer, U.S. Army Engineer District, Buffalo, 1776 Niagara Street, Buffalo, New York 14207–3199.

Comments concerning the proposed subzone are invited in writing from interested parties. They shall be addressed to the Board's Executive Secretary at the address below and postmarked on or before December 4, 1990.

A copy of the application is available for public inspection at each of the following locations.

U.S. Department of Commerce, Branch Office, 121 East Avenue, Rochester, New York 14604.

Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, room 4213, 14th and Pennsylvania Avenue, NW., Washington, DC 20230.

Dated: October 17, 1990.

John J. Da Ponte, Jr.,

Executive Secretary.

[FR Doc. 90-25168 Filed 10-24-90; 8:45 am]

BILLING CODE 3510-DS-M

International Trade Administration

[A-351-503]

Certain Iron Construction Castings From Brazil; Final Results of Antidumping Duty Administrative Review

AGENCY: International Trade Administration/Import Administration Department of Commerce.

ACTION: Notice of final results of antidumping duty administrative review.

SUMMARY: On August 21, 1990, the Department of Commerce published the preliminary results of its administrative review of the antidumping duty order on certain iron construction castings from Brazil. The review covers one manufacturer of this merchandise and the period May 1, 1988 through April 30, 1989. COSIGUA failed to provide a complete response to our questionnaire and indicated that they would not cooperate further to complete the response. As a result, we have determined to use the best information otherwise available for cash deposit and appraisement purposes.

EFFECTIVE DATE: October 25, 1990.

FOR FURTHER INFORMATION CONTACT: Christopher Beach or Maria MacKay, Office of Countervailing Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377–2786.

SUPPLEMENTARY INFORMATION:

Background

On August 21, 1990, the Department of Commerce (the Department) published in the **Federal Register** (55 FR 34047) the preliminary results of its administrative review of the antidumping duty order on certain iron construction castings from Brazil (51 FR 17220; May 9, 1986). We have now completed that administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Tariff Act).

Scope of the Review

Imports covered by the review are shipments of certain heavy and light iron construction castings. Heavy castings are limited to manhole covers, rings and frames, catch basins, grates and frames, cleanout covers and frames used for drainage or access purposes for public utility, water and sanitary systems. Light castings are limited to valve, service, and meter boxes which are placed below ground to encase water, gas, or other valves, or water or gas meters. These articles must be of cast iron, not alloyed, and not malleable.

During the review period, heavy castings were classifiable under *Tariff Schedules of the United States Annotated* (TSUSA) item number 657.0950, and light castings were classifiable under TSUSA item number 657.0990.

Heavy castings are currently classifiable under *Harmonized Tariff Schedule* (HTS) item numbers 7325.10.00.10 and 7325.10.00.50, and light castings are currently classifiable under HTS item numbers 8305.29.00.00 and 8310.00.00.00. The TSUSA and HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

The review covers one manufacturer/exporter, COSIGUA, and the period May 1, 1988 through April 30, 1989.

Analysis of Comments Received

We gave interested parties an opportunity to comment on our preliminary results. We received no comments.

Final Results of Review

As a result of our review, we determine the dumping margin to be:

Manufacturer	Period	Margin (percent)
COSIGUA	05/01/88–04/30/89	58.74

The Department will instruct the Customs Service to assess antidumping duties on all appropriate entries. The Department will issue appraisement instructions directly to the Customs Service.

Further, as provided by section 751(a)(1) of the Tariff Act, a cash deposit of estimated antidumping duties based on the above margin will be required for COSIGUA. For any shipments of this merchandise manufactured or exported by the remaining known manufacturers and exporters not covered by this review, the cash deposit will continue to be at the latest rate applicable to each of these firms. Since we do not rely on the best information available for establishing the new exporter rate, for any future entries of this merchandise from a new exporter, not covered in this or prior administrative reviews, whose first shipments of Brazilian iron construction castings occurred after April 30, 1989, and who is unrelated to any reviewed firm, the cash deposit will continue at the rate established in the final results of the last administrative review. These deposit requirements are effective for all shipments of certain Brazilian iron construction castings entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice and shall remain in effect until publication of the final results of the next administrative review.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: October 18, 1990.

Marjorie A. Chorlins,

Acting Assistant Secretary for Import Administration.

[FR Doc. 90-25172 Filed 10-24-90; 8:45 am]

BILLING CODE 3510-DS-M

[C-351-005]

Frozen Concentrated Orange Juice From Brazil; Determination Not To Terminate Suspended Investigation

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of determination not to terminate suspended investigation.

SUMMARY: The Department of Commerce is notifying the public of its determination not to terminate the suspended countervailing duty investigation on frozen concentrated orange juice from Brazil.

EFFECTIVE DATE: October 25, 1990.

FOR FURTHER INFORMATION CONTACT: Millie Mack or Barbara Williams, Office of Agreements Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377–3793.

SUPPLEMENTARY INFORMATION:

Background

On March 1, 1990, the Department of Commerce ("the Department") published in the **Federal Register** (55 FR 7357) notice of its intent to terminate the suspended countervailing duty investigation on frozen concentrated orange juice from Brazil (March 2, 1983, 48 FR 8839). The Department may terminate a suspended investigation if the Secretary concludes that the agreement is no longer of interest to interested parties. The Department has not received a request to conduct an administrative review of the agreement suspending the countervailing duty investigation on frozen concentrated orange juice from Brazil for more than four consecutive annual anniversary months.

On March 28, 1990, the petitioner, Florida Citrus Mutual, and certain producers of frozen concentrated orange juice objected to the Department's intent to terminate this suspended investigation. Therefore, we no longer intend to terminate the suspended investigation.

This notice is in accordance with section 355.25(d)(4) of the Commerce Department's regulations.

Dated: October 18, 1990.

Marjorie A. Chorlins,

Acting Assistant Secretary for Import Administration.

[FR Doc. 90-25171 Filed 10-24-90; 8:45 am]

BILLING CODE 3510-DS-M

Scope Rulings

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of scope rulings.

SUMMARY: The International Trade Administration (ITA) hereby publishes a list of scope rulings completed between July 1, 1990 and September 30, 1990. In conjunction with this list the ITA is also publishing a list of pending scope inquiries. The ITA intends to publish future lists within thirty days of the end of each quarter.

EFFECTIVE DATE: October 25, 1990.

FOR FURTHER INFORMATION CONTACT: Melissa G. Skinner, Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone (202) 377–4851.

SUPPLEMENTARY INFORMATION:

Background

Sections 353.29(d)(8) and 355.29(d)(8) of the Department's regulations (19 CFR 353.29(d)(8) and 355.29(d)(8)) provide that on a quarterly basis the Secretary will publish in the **Federal Register** a list of scope rulings completed within the last three months. The lists are to include the case name, reference number, and brief description of the ruling.

This notice lists scope rulings completed between July 1, 1990 and September 30, 1990, and pending scope clarification requests. The ITA intends to publish in January 1991, a notice of scope rulings completed between October 1, 1990 and December 31, 1990.

The following lists provide the country, case reference number, requester(s), and a brief description of either the ruling or product subject to the request.

Scope Rulings Completed Between July 1, 1990 and September 30, 1990

Country: Canada

A–122–506: OCTG—modified scope by abolishing the end use certification procedure and adopting new procedures—9/4/90

Country: United Kingdom

A–412–801: Antifriction Bearings; Durbal GmbH, Nippon Thompson Co., Ltd., and Minebea Co., Ltd.—rod ends are within the scope of the order—8/6/90

Country: France

A–427–801: Antifriction Bearings:

Valeo, Societe Anonyme—clutch release bearings are within the scope of the order—8/6/90

Bell Helicopter Textron Inc.—ball bearings used in the manufacture of helicopters are within the scope of the order—9/14/90

Country: Federal Republic of Germany

A–428–801: Antifriction Bearings; Durbal GmbH, Nippon Thompson Co., Ltd., and Minebea Co., Ltd.—rod ends are within the scope of the order—8/6/90

Country: People's Republic of China

A–570–506: Porcelain-on-Steel Cookware; Texsport—camping sets, with the exception of the cups and plates included in those sets, are within the scope of the order—8/8/90

A–570–003: Cotton Shop Towels; Able Textile—towels assembled in Canada from cotton grey fabric from the People's Republic of China are outside the scope of the order—8/21/90

Country: Republic of Korea

A–580–501: Photo Albums and Filler Pages; WorldSource—commemorative binders are within the scope of the order—8/30/90

A–580–803: Certain Small Business Telephone Systems and Subassemblies Thereof:

DBA—Smartalk 206 and 308 systems are within the scope of the order—7/3/90

Executone—System 432 and subassemblies exclusive to it, as well as subassemblies of the Isoetec line (P/N 15200, P/N 21660, P/N 15640, P/N 15700, P/N 15600, P/N 15620, P/N 15590, P/N 15610, P/N 15680, P/N 15650, P/N 15100, P/N 15410, P/N 15660, P/N 15340, P/N 15870, P/N 09010, P/N 82300, P/N 82100, P/N 82200, P/N 82500, P/N 82400, P/N 83500/80500, P/N 82030, P/N 83700/80700, P/N 82020, P/N 15780, P/N 15790, P/N 15770, P/N 09004, and P/N 15510) are outside the scope of the order—8/7/90

Country: Taiwan

A–583–508: Porcelain-on-Steel Cookware; RSVP—BBQ grill baskets are outside the scope of the order—8/23/90

Country: Japan

A–588–087: Portable Electric Typewriters; Matsushita—Office typewriter models KX–E400, KX–E500B ("Jetwriter"), KX–E500 [E]*, KX–E501 [E]* ("Jetwriter"), KX–E506 [E]* (Jetwriter IIe"), KX–E508 [E]* (*—[E] is updated version) are outside the scope of the order—7/6/90

A–588–405: Cellular Mobile Telephones and Subassemblies:

Matsushita—Models EB–3510 and 3511 are outside the scope of the order—8/6/90

NovAtel—Model PTR–825 is outside the scope of the order—8/6/90

Mitsubishi—Models MT–706FOR8A and 792FOR8A are outside the scope of the order—8/6/90

Sanyo—Model CMP–310 is outside the scope of the order—8/6/90

NEC—message recording device (AVA) is outside the scope of the order—7/14/90

A–588–609: Color Picture Tubes:

Tektronix—Sony produced cathode ray tube SD–97FS is outside the scope of the order—8/21/90

Toshiba—models A36JAR90X and A36JAR50X are within the scope of the order—9/7/90

A–588–802: 3.5" Microdisks and Media Thereof; Toshiba—barium ferrite coated microdisks are within the scope of the order—8/29/90

A–588–804: Antifriction Bearings

Durbal GmbH, Nippon Thompson Co., Ltd., and Minebea Co., Ltd.—rod ends are within the scope of the order—8/6/90

Imprimis Technology Inc.—ball bearings used in the production of disk drives are within the scope of the order—9/14/90

A–588–809: Certain Small Business Telephone Systems and Subassemblies Thereof:

NEC—NEAX 2400 system and subassemblies are outside the scope of the order—7/17/90

Fujitsu—Starlog system is outside the scope of the order—7/27/90

Toshiba—Perception II and Perception Ex systerms are outside the scope of the order and subassemblies (telephone sets—EKT 6000–N, EKT 6000–NM, EKT 6015–H, EKT 6015–S, EKT 6025H, EKT 6025–SD, EKT 6025–D, EKT 6520–SD, EKT 6510–S, EKT 6510–H, EKT 6520–H, HDSS 6060, AND HDSS6560) are within the scope of the order—7/27/90

Pending Scope Inquiries As of September 30, 1990

Country: Federal Republic of Germany

A–428–801: Antifriction Bearings:

Textilmaschinen-Komponenten GmbH and SKF Textile Products, Inc.—textile machinery component (rotor assembly number TE 226–0036225)

Sachs Automotive Products Company—clutch releasers

Country: Korea

A–580–008: Color Television Receivers:

Orion Electric Co.—TV/Radio model 759C/Chassis: CTV–5x

Goldstar—TV/Radio model RCV–0615

Goldstar—TV/VCR model KMV–9002

Commodore Business Machines—computer monitor model 1084(D)

A–580–501: Photo Albums and Filler Pages:

U.S. Customs inquiry—unfinished filler pages

Bowon Trading Co.—photo frame/albums (models 101257, 201257, 200957, 214357, 279757, 301457, 401357, 200857, 201057, and 318357)

A–580–605: Color Picture Tubes; Penn-Ray Sutra Corp.—video game displays

Country: Japan

A–588–007: Certain High Capacity Pagers; Motorola—components and subassemblies

A–588–018: Television Receiving Sets, Monochrome and Color:

NEC—Subassemblies: W5A–1 (HE), W4A–1 (HE), W3A–1 (HE), W5A–1, and W4A–1

Sharp—LCD TV/Radio/Cassette model 3C–AV1

Teknika Electronics Corp.—P.C.B. subassemblies

Sharp—LCD TV/VCR model VC–V542U

Casio Computer Co., Ltd., Casio, Inc., Citizen Watch Co., Ltd. Hitachi, Ltd., Hitachi Sales Corporation of America, Hitachi Sales Corporation of Hawaii, Inc., Matsushita Electric Industrial Co., Ltd., Matsushita Electric Corporation of America, NEC Corporation, NEC Home Electronics (U.S.A.), Inc., Seiko Epson Corporation, Toshiba Corporation, and Toshiba America, Inc.—certain hand-held liquid crystal display televisions (Casio Computer Co., Ltd. models TV–400T, TV–500, TV–1400, TV–3100, TV–3500; Citizen Watch Co., Ltd. models 06TA, 06TA, TB20, TA80, TC50, TC53, DD–T126, DD–P226, TC52; Matsushita Electric Industrial Co., Inc. models CT–301E/302B, CT–311E/312B; and Seiko Epson Corporation models LVD–602, LVD–702, LVD–802) and all other LCD TVs under 6" in screen size imported into the United States

A–588–041: Synthetic Methionine; Mitsui—lactet

A–588–087: Portable Electric Typewriters:

Smith Corona—"later developed" typewriters — preliminary issued 8/7/90

Tokyo Juki—"office" typewriter models: Juki Seirra 4500, Sierra 3300, Sierra 3400, Sierra 3400C, Sierra 3500, Sierra 3500XL, Sierra Officewriter, Remington Rand 770, Remington Rand 775, Remington Rand 880, Avanti 1400, and Avanti 1500

Swintec/Nakajima—"office" typewriter models: 8000, 8000SP, 8011, 8011SP, 8012, 8014S, 8014KSR, 8016, 8017, 1145CM, 1146CM, 1146CMA, 1146CMP, 1146CMSp, 1186CM, and 1186CMP

Silver Reed/Silver Seiko—"office" typewriter models: EX–300, EX–300, EX–30 (85–EP), EX–32 (87–EP), EX–34 (89–EP), EX–36 (88–SP), EX–42, EX–43, EX–44, EZ–30, and EZ–50

Matsushita—"penwriter" typewriter models: X–Y Writer, RK–P200C, RK–P240, RK–P300, RK–P400, RK–P400C, and RK–P440

A–588–702: Stainless Steel Butt Weld Pipefittings:

Benkan Corporation—super clean pipe fittings—preliminary issued 8/23/90

Inox, Inc.—sanitary pipe fittings—preliminary issued 9/25/90

A–588–808: Electrolytic Manganese Dioxide; Sumitomo—High-grade chemical manganese dioxide (CMD–U)

A–588–810: Mechanical Transfer Presses; Aida Engineering—spare and replacement parts

Interested parties are invited to comment on the accuracy of the list of pending scope clarification requests. Any comments should be submitted to the Assistant Secretary for Import Administration, International Trade Administration, room B–099, U.S. Department of Commerce, Washington, DC 20230.

Dated: October 19, 1990.

Joseph A. Spetrini,

Deputy Assistant Secretary for Compliance.

BILLING CODE 3510–DS–M

Short-Supply Request for Comments: Certain Alloy Steel Plate

AGENCY: Import Administration/International Trade Administration, Commerce.

ACTION: Notice of short-supply review and request for comments; certain alloy steel plate.

SUMMARY: The Secretary of Commerce ("Secretary") hereby announces a review and request for comments on a short-supply request for 200 metric tons of certain alloy steel plate for the remainder of 1990 under paragraph 8 of U.S.-Japan steel arrangement.

SHORT-SUPPLY REVIEW NUMBER: 28.

SUPPLEMENTARY INFORMATION: Pursuant to section 4(b)(3)(B) of the Steel Trade Liberalization Program Implementation Act, Public Law No. 101–221, 103 Stat. 1886 (1989) ("the Act"), and section 104(b) of the Department of Commerce's Short-Supply Procedures (19 CFR 357.104(b)) ("Commerce's Short-Supply Procedures"), the Secretary hereby announces that a short-supply request is under review with respect to certain alloy steel plate. On October 12, 1990, the Secretary received an adequate petition from U.S. Metalsource, requesting a short-supply allowance for 200 metric tons of this product during the remainder of 1990 under Paragraph 8 of the Arrangement Between Japan and the Government of the United States of America Concerning Trade in Certain Steel Products. U.S. Metalsource has requested short supply because its

Japanese supplier has no regular export licenses available and it believes the product is not produced in the United States.

The requested material meets the following specifications:

Chemical Composition, Typical

C	Mn	S	Si	Cu	Ni	Al
0.15	1.50	0.10	0.30	1.00	3.00	1.00

Manufacturing Practice

NAK 55 is initially air melted to restrictive clean steel standards and then Vacuum Arc Remelted to obtain the level of internal soundness and cleanliness necessary. The ingots are then hot rolled or forged to the billet, plate, or bar sizes.

Thermal Treatment

NAK 55 is solution treated and age hardened to obtain the desired mechanical properties and hardness.

Mechanical Properties, typical

Tensile Strength	—189 ksi
Yield Strength	—147 ksi
Reduction of Area	—30%
Elongation in 2 inches	—15%
Hardness	—40 HRC

Size Ranges

Thickness: 0.750 inch to 4.000 inches
Widths: 15 inches to 40 inches.

Polishability

Nak 55 can be readily polished to a uniform mirror finish.

Weldability

Using prescribed welding procedure and welding rods, NAK 55 can be readily weld repaired. The welded component can then be re-aged to obtain the same properties and characteristics in the weld region as in the parent metal with no distortion.

Section 4(b)(4)(D)(ii) of the Act and § 357.102(b)(2) of Commerce's Short-Supply Procedures require the Secretary to make a determination with respect to a short-supply petition not later than the 30th day after the petition is filed, unless the Secretary finds that one of the following conditions exist: (1) The raw steelmaking capacity utilization in the United States equals or exceeds 90 percent; (2) the importation of additional quantities of the requested steel product was authorized by the Secretary during each of the two immediately preceding years; or (3) the requested steel product is not produced in the United States. The Secretary finds that none of these conditions exist with respect to the requested product, and therefore, the Secretary will determine whether this product is in short supply not later than November 9, 1990.

Comments: Interested parties wishing to comment upon this review must send written comments not later than November 1, 1990. to the Secretary of Commerce, Attention: Import Administration, room 7866, U.S. Department of Commerce, Pennsylvania Avenue and 14th Street NW., Washington, DC 20230. Interested parties may file replies to any comments submitted. All replies must be filed not later than 5 days after (November 1, 1990). All documents submitted to the Secretary shall be accompanied by four copies. Interested parties shall certify that the factual information contained in any submission they make is accurate and complete to the best of their knowledge.

Any person who submits information in connection with a short-supply review may designate that information, or any part thereof, as proprietary, thereby requesting that the Secretary treat that information as proprietary. Information that the Secretary designates as proprietary will not be disclosed to any person (other than officers or employees of the United States Government who are directly concerned with the short-supply determination) without the consent of the submitter unless disclosure is ordered by a court of competent jurisdiction. Each submission of proprietary information shall be accompanied by a full public summary or approximated presentation of all proprietary information which will be placed in the public record. All comments concerning this review must reference the above-noted short-supply review number.

FOR FURTHER INFORMATION CONTACT: Marissa A. Rauch or Richard O. Weible, Office of Agreements Compliance, Import Administration, U.S. Department of Commerce, room 7866, Pennsylvania Avenue and 14th Street NW., Washington, DC 20230, (202) 377–1382 or (202) 377–0159.

Marjorie A. Chorlins,

Acting Assistant Secretary for Import Administration.

[FR Doc. 90-25170 Filed 10-24-90; 8:45 am]

BILLING CODE 3510-DS-M

Short-Supply Determination: Certain Continuous Cast Steel Slabs

AGENCY: Import Administration/ International Trade Administration, Commerce.

ACTION: Notice of short-supply determination on certain continuous cast steel slabs.

SHORT-SUPPLY REVIEW NUMBER: M.

SUMMARY: The Secretary of Commerce ("Secretary") hereby grants a request for a short-supply allowance of 195,000 net tons of certain continuous cast steel slabs for October 1990 through June 1991 under Article 8 of the U.S.–E.C. and U.S.–Brazil steel arrangements, and Paragraph 8 of the U.S.-Japan steel arrangement.

EFFECTIVE DATE: October 18, 1990.

FOR FURTHER INFORMATION CONTACT: Kathy McNamara or Richard O. Weible, Office of Agreements Compliance, Import Administration, U.S. Department of Commerce, room 7866, 14th Street and Constitution Avenue NW., Washington, DC 20230 (202) 377–1390 or (202) 377–0159.

SUPPLEMENTARY INFORMATION: On September 18, 1990, the Secretary received an adequate short-supply petition from Rouge Steel Company ("Rouge Steel") requesting a short-supply allowance for 215,000 net tons of certain continuous cast steel slabs for the fourth quarter of 1990 and the first and second quarters of 1991 under Article 8 of the Arrangement Between the European Coal and Steel Community and the European Economic Community, and the Government of the United States of America Concerning Trade in Certain Steel Products, Article 8 of the Arrangement Between the Government of Brazil and the Government of the United States Concerning Trade in Certain Steel Products, and Paragraph 8 of the Arrangement Between the Government of Japan and the Government of the United States Concerning Trade in Certain Steel Products. Rouge Steel's petition alleges that due to a planned reline of one of its blast furnaces in the second quarter of 1991, as well as the domestic industry's inability to supply slabs meeting Rouge's specifications, short supply will exist during the period October 1990 through June 1991 for the noted continuous cast slabs. Rouge Steel further alleges that, although the blast furnace outage will not occur until the second quarter of 1991, it must import some replacement material prior to the outage so that the material is available when the outage occurs.

The Secretary conducted this short-supply review pursuant to section 4(b)(4)(A) of the Steel Trade Liberalization Program Implementation Act, Public Law No. 101–221, 103 Stat. 1886 (1989) ("the Act"), and Section

357.102 of the Department of Commerce's Short-Supply Procedures, 19 CFR 357.102 ("Commerce's Short-Supply Procedures").

The requested material meets the following specifications:

1. Continuous cast slabs—Class I, Class II, & Class III—Critical exposed material
2. Gauge—7.0 inches to 8.25 inches
3. Length—362 inches
4. Width—38 inches to 66 inches
5. Type—Class I: SAE C-1008 AK, Class II: SAE C-1010 AK, Class III: SAE 980 XP-950 XF

Tolerances:

1. Width: Plus or minus 0.5 inch
2. Thickness: Plus 0.25 inch or minus 0.5 inch
3. Length: Plus or minus 2.0 inch.

Action

On September 18, 1990, the Secretary established an official record on this short-supply request (Case Number 24) in the Central Records Unit, room B-099, Import Administration, U.S. Department of Commerce at the above address. On September 28, 1990, the Secretary published a notice in the Federal Register announcing a review of this request and soliciting comments from interested parties. Comments were required to be received no later than October 3, 1990, and interested parties were invited to file replies to any comments no later than five days after that date. In order to determine whether this product, or a viable alternative product, could be supplied in the U.S. market for the period of this review, the Secretary sent questionnaries to: Armco Inc. ("Armco"), Bethlehem Steel Corporation ("Bethlehem"), Citisteel USA ("Citisteel"), Geneva Steel Company ("Geneva"), Gulf States Steel ("Gulf States"), Inland Steel Industries ("Inland"), LTV Steel Company ("LTV"), Lukens Steel Company ("Lukens"), McLouth Steel ("McLouth"), National Steel Corporation ("National"), Oregon Steel, Inc. ("Oregon"), USX Corporation ("USX"), Wheeling-Pittsburgh Steel Corporation ("Wheeling-Pittsburgh"), and Weirton Steel Corporation ("Weirton"). The Secretary received adequate questionnaire responses from 10 of the 14 companies. No comments were filed in response to the Federal Register notice.

Questionnaire Responses:

Seven of the 10 respondents (Inland, USX, National, Gulf States, Armco, Lukens, and Weirton) responded that they could not produce slabs in the physical dimensions required by Rouge. One respondent, McLouth, stated that it could not produce critical exposed material. LTV indicated that it could supply ingot-teemed slabs meeting the physical specifications, but it could not produce concast slabs meeting the physical dimensions required. Bethlehem indicated that it may be able to supply up to 20,000 net tons in the second quarter of 1991, but it is unable to commit to this quantity so far in advance of the second quarter.

Analysis

Rouge Steel alleges that the Department presently can determine short supply exists for the requested period based upon the inability of the domestic steel industry to produce slabs meeting Rouge's specifications. Of the potential suppliers contacted, only two indicated that they could possibly supply material that would meet Rouge's needs. LTV stated that it could meet Rouge's requirements in the second quarter using ingot-teemed slabs. However, Rouge states that continuous cast material is necessary for the noted slabs. It states that this material will be used to produce automotive parts such as the outer skins of hoods, decks, roofs, fenders and doors, as well as the support pillars on roofs and the arms on hoods and trunks. In fact, its customers for the sheet products made from these slabs demand that the steel being supplied be made by the continuous cast process. Therefore, the continuous cast requirement represents a reasonable specification.

Bethlehem stated that it may be able to supply up to 20,000 net tons of continuous cast material meeting Rouge's specifications in the second quarter. However, Rouge notes that Bethlehem cannot currently commit to supply this quantity. The Secretary notes that this request includes three months for the production outage when the short-supply tonnage will be consumed and the six months prior to the outage. Since the market for slabs is very volatile, it is not unreasonable for Bethlehem to be unable to commit to supply the 20,000 net tons six months prior to the second quarter. However, it would be unreasonable for the Department to grant short supply this far in advance of the second quarter based on Bethlehem's lack of commitment. Therefore, this tonnage must be deducted from Rouge's total projected shortfall, leaving Rouge with a shortfall of 195,000 net tons. Should Rouge be informed in the near future that Bethlehem will be unable to supply this material, the Secretary will reconsider its decision on this tonnage.

Conclusion

Because Rouge requires 215,000 net tons of continuous cast material to meet its production needs during the reline of its blast furnace in the second quarter, and because one domestic producer may supply up to 20,000 net tons of the needed material, the Secretary determines that short supply exists for 195,000 net tons of continuous cast steel slabs meeting Rouge's specifications. Pursuant to section 4(b)(4)(A) of the Act, and § 357.102 of Commerce's Short-Supply Procedures, the Secretary grants Rouge's request for a short-supply allowance of 195,000 net tons of certain continuous cast steel slabs for the fourth quarter of 1990 and the first and second quarters of 1991.

Marjorie A. Chorlins,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-M

Minority Business Development Agency

Business Development Center Applications: Williamsburg (Brooklyn) New York (Service Area)

AGENCY: Minority Business Development Agency, Commerce.

ACTION: Notice.

SUMMARY: The Minority Business Development Agency (MBDA) announces that it is soliciting competitive applications under its Minority Business Development Center (MBDC) Program to operate an MBDC for approximately a 3 year period, subject to the availability of funds. The cost of performance for the first 12 months is estimated at $320,000 in Federal funds and a minimum of $56,470 in non-Federal contributions for the budget period April 1, 1991 to March 31, 1992. Cost-sharing contributions may be in the form of cash contributions, client fees for services, in-kind contributions, or combinations thereof. The MBDC will operate in the Williamsburg, Brooklyn, N.Y. SMSA geographic service area. This project should focus on assisting the minority business community in general and specifically the Hasidic Community of Williamsburg.

The funding instrument for the MBDC will be a cooperative agreement. Competition is open to individuals, non-profit and for-profit organizations, state and local governments, American Indian tribes and educational institutions.

The MBDC program is designed to provide business development services to the minority business community for the establishment and operation of viable minority businesses. To this end, MBDA funds organizations that can

coordinate and broker public and private resources on behalf of minority individuals and firms; offer a full range of management and technical assistance; and serve as a conduit of information and assistance regarding minority business.

Applications will be evaluated on the following criteria: The experience and capabilities of the firm and its staff in addressing the needs of the business community in general and, specifically, the special needs of minority businesses, individuals and organizations (50 points); the resources available to the firm in providing business development services (10 points); the firm's approach (techniques and methodology) to performing the work requirements included in the application (20 Points); and the firm's estimated cost for providing such assistance (20 points). An application must receive at least 70% of the points assigned to any one evaluation criteria category to be considered programmatically acceptable and responsive.

MBDC shall be required to contribute at least 15% of the total project cost through non-Federal contributions. Client fees for billable management and technical assistance (M&TA) rendered must be charged by MBDCs. Based on a standard rate of $50 per hour, MBDCs will charge client fees at 20% of the total cost for the firms with gross sales of $500,000 or less and 35% of the total cost for firms with gross sales of over $500,000.

The MBDC may continue to operate, after the initial competitive year, for up to 2 additional budget periods. Periodic reviews culminating in year-to-date quantitative and qualitative evaluations will be conducted to determine if funding for the project should continue. Continued funding will be at the discretion of MBDC based on such factors as an MBDC's satisfactory performance, the availability of funds and Agency priorities.

• Applicants who have an outstanding account receivable with the Federal Government may not be considered for funding until these debts have been paid or arrangements satisfactory to the Department are made to pay the debt.

• Section 319 of Public Law 101-121 generally prohibits recipients of Federal contracts, grants, and loans from using appropriated funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a specific contract, grant, or loan. A "Certification for Contracts, Grants Loans, and Cooperative Agreements" and the SF-LLL, "Disclosure of Lobbying Activities" (if applicable), is required.

• Applicants are subject to Governmentwide Debarment and Suspension (Nonprocurement) requirements as stated in 15 CFR part 26. In accordance with the Drug-Free Workplace Act of 1988, each applicant must make the appropriate certification as a "prior condition" to receiving a grant or cooperative agreement.

• Awards under this program shall be subject to all Federal and Departmental regulations, policies, and, procedures applicable to Federal assistance awards.

• Applicants should be reminded that a false statement on the application may be grounds for denial or termination of funds and grounds for possible punishment by a fine or imprisonment.

Closing Date: The closing date for applications is November 26, 1990. Applications must be postmarked on or before November 26, 1990.

ADDRESS: New York Regional Office, Minority Business Development Agency, Jacob K. Javits Federal Building, 3720, New York, New York 10278, Area Code/ Telephone Number: (212) 264-3262.

FOR FURTHER INFORMATION CONTACT: William R. Fuller, Regional Director, New York Regional Office.

SUPPLEMENTARY INFORMATION: Anticipated processing time of this award is 120 days. Executive Order 12372 "Intergovernmental Review of Federal Programs" is not applicable to this program. Questions concerning the preceding information, copies of application kits and applicable regulations can be obtained at the above address.

11.800 Minority Business Development (Catalog of Federal Domestic Assistance)

Dated: October 16, 1990.

William R. Fuller, Regional Director (Acting),
New York Regional Officer.

National Oceanic and Atmospheric Administration

Marine Mammals; Permits

AGENCY: National Marine Fisheries Service, NOAA, DOC.

ACTION: Modification #1 to Permit No. 537 (P77#16).

SUMMARY: The Northwest & Alaska Fisheries Center, National Marine Fisheries Service, 7600 Sand Point Way, NE., Seattle, Washington 98115, requested an extension of Permit No. 537. Notice is hereby given that pursuant to the provisions of §§ 216.33(d) and (e) of the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), Scientific Research Permit No. 537 is modified as follows:

Special Condition B.5 is revised to read:

"5. This Permit is valid with respect to the activities authorized herein until June 30, 1991."

This modification is effective upon publication in the Federal Register.

Documents submitted in connection with the above Permit and modification are available for review in the following offices:

Office of Protected Resources, National Marine Fisheries Service, 1335 East West Highway, Silver Spring, Maryland 20910; and

Director, Northwest Region, National Marine Fisheries Service, 7600 Sand Point Way NE., BIN C15700, Seattle, Washington 98115.

Dated: October 18, 1990.

Nancy Foster,
Director, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-M

National Technical Information Service

Prospective Grant of Exclusive Patent License; Harrison Western Environmental Services, Inc.

This is notice in accordance with 35 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(i) that the National Technical Information Service (NTIS), U.S. Department of Commerce, is contemplating the grant of coexclusive licenses in the United States to practice the invention embodied in U.S. Patent Application Number 7-429,326, "Polymer Bead Containing Immobilized Metal Extractant" to Harrison Western Environmental Services, Inc., having a place of business at 1206 Quail Street, Lakewood, Colorado 80215 and R.A. Hanson Company, Inc., having a place of business at North 8200 Crestline, Spokane, WA 99207. The patent rights in this invention have been assigned to the United States of America.

The prospective exclusive licenses will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive licenses may be granted unless, within sixty days from the date of this published Notice, NTIS receives written evidence and argument which establishes that the grant of the licenses would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

The invention covers spherical polymeric beads having internal pore structures containing extractant material capable of sorbing toxic metals, a process for producing such beads and a method for removing toxic metal wastes dissolved in dilute aqueous streams.

The availability of the invention for licensing was published in the Federal Register of July 18, 1990, Vol. 55, No. 138, p. 29255. A copy of the instant patent application may be purchased from NTIS Sales Desk by telephoning 703/487–4650 or by writing to Order Department, NTIS, 5285 Port Royal Road, Springfield, VA 22161.

Inquiries, comments and other materials relating to the contemplated licenses must be submitted to Charles A. Bevelacqua, Center for Utilization of Federal Technology, NTIS, Box 1423, Springfield, VA 22151. Properly filed competing applications received by NTIS is response to this notice will be considered as objections to the grant of the contemplated licenses.

Douglas J. Campion,

Center for Utilization of Federal Technology, National Technical Information Service, U.S. Department of Commerce.

BILLING CODE 3810-04-M

DEPARTMENT OF EDUCATION

[CFDA No.: 84.165A]

Magnet Schools Assistance Program; Notice Inviting Applications for New Awards for Fiscal Year (FY) 1991

Purpose of Program: Provides grants to eligible local educational agencies to support magnet schools that are part of approved desegregation plans.

Deadline for Transmittal of Applications: December 12, 1990.

Deadline for Intergovernmental Review: February 11, 1991.

Applications Available: October 24, 1990.

Available Funds: The Department has requested $113,189,000 for this program in fiscal year 1991. However, the level of funding is contingent upon final congressional action.

Estimated Range of Awards: $183,705–$4,000,000.

Estimated Number of Awards: 60.

Average Award: $1,886,000.

Project Period: 24 months.

Applicable Regulations: (a) The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 75, 77, 79, 80, 81, 82 (published at 55 FR 6736, February 26, 1990), 85, and 86 (published at 55 FR 33580, August 16, 1990); and (b) The regulations for this program in 34 CFR part 280.

SUPPLEMENTARY INFORMATION: Applicants must submit with their applications one of the following types of desegregation plans: (1) A plan required by a court order; (2) a plan required by a State agency or official of competent jurisdiction; (3) a plan required by the Office for Civil Rights (OCR), United States Department of Education, under Title VI of the Civil Rights Act of 1964 (Title VI plan); or (4) a plan voluntarily adopted by the applicant.

An applicant that submits a plan required by a court, State agency or official of competent jurisdiction, must obtain approval for any modification to the plan from the court, agency, or official that originally approved the plan. A previously approved desegregation plan that does not include the magnet school or program for which an applicant is now seeking assistance under this program must be modified to include the magnet school component, and the modification to the plan must be approved by a court, agency, or official, as appropriate. An applicant should indicate in its application if it is seeking to modify its previously approved plan. However, all applicants must submit proof to the Department of approval of all modifications to their plans by January 15, 1991. If an applicant submits a modification to a previously approved Title VI plan, the proposed modification will be reviewed by OCR for approval as part of this magnet schools application process.

An applicant submitting a desegregation plan as described in 1, 2, or 3 above, must provide an assurance that the plan is being implemented as approved. An applicant submitting a voluntary plan or a modification to a Title VI plan for approval by the Secretary must provide a copy of a school board resolution or other evidence of final official action adopting and implementing the plan, or agreeing to adopt and implement it if MSAP funds are made available.

For the purpose of reviewing voluntary and Title VI plans, the Secretary has adopted the following general statement of policy. It is the Secretary's intention, in reviewing a voluntary or Title VI plan for approval, to consider: (1) Whether each magnet school or program for which funding is sought actually reduces, eliminates or prevents minority group isolation, or is expected to do so, either in the magnet school(s) or in the school(s) from which students are drawn to attend magnet schools or programs, as appropriate; and (2) whether the establishment of the magnet school or program does not result in the increase of minority enrollment, at any school from which students are drawn to attend the magnet school or program, above the district-wide proportion of minority students at those schools.

The Secretary intends to apply both criteria as well as other pertinent factors in deciding whether to approve a plan. For a plan intended to reduce minority group isolation in a school, the Secretary will also consider whether, but for the magnet school, minority group isolation would be greater at that school.

FOR APPLICATIONS OR INFORMATION CONTACT: Annie R. Mack, U.S. Department of Education, 400 Maryland Avenue, SW., room 2059, FOB #6, Washington, DC 20202–6439. Telephone (202) 401–1361.

Program Authority: 20 U.S.C. 3021–3032.

Dated: October 18, 1990.

Lauro F. Cavazos,

Secretary of Education.

BILLING CODE 4000-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. QF91-6-000, et al.]

Georgetown Cogeneration, L.P., et al.; Electric rate, Small power production, and Interlocking Directorate Filings

Take notice that the following filings have been made with the Commission:

BEST COPY AVAILABLE

2. Georgetown Cogeneration, L.P.

[Docket No. QF91-8-000]

October 17, 1990.

On October 2, 1990, Georgetown Cogeneration, L.P., of 701 East Byrd Street, Richmond, Virginia 23219, submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility will be located in Washington, D.C. on the campus of Georgetown University. The facility will consist of a combustion turbine generator, a supplementary fired waste heat recovery boiler and an extraction/condensing steam turbine generator. Thermal energy recovered from the facility will be used for campus heating and cooling requirements. The maximum net electric power production capacity of the facility will be 56 MW. The primary source of energy will be natural gas. Construction of the facility is expected to commence in 1991.

Comment date: Thirty days from publication in the Federal Register, in accordance with Standard Paragraph E at the end of this notice.

3. PacifiCorp Electric Operations and Arizona Public Service Company

[Docket No. ER91-26-000]

October 18, 1990.

Take notice that on October 12, 1990, PacifiCorp Electric Operations ("PacifiCorp") and Arizona Public Service Company ("Arizona") (collectively the "Companies") jointly tendered for filing, in accordance with 18 CFR 35.13 of the Commission's Rules and Regulations, an Asset Purchase and Power Exchange Agreement, Transmission Agreement and Long-Term Power Transactions Agreement between the Companies each dated September 21, 1990. Collectively these agreements provide PacifiCorp with transmission rights associated with purchased generation facilities in Arizona, reciprocal use of the parties' Cholla plant and combustion turbine generating facilities, firm power sales by PacifiCorp to Arizona, seasonal power exchanges, transmission system improvements energy storage services an energy purchase option and additional transmission rights.

The Companies request, that the notice requirements prescribed in 18 CFR 35.3 be waived and that the agreements be made effective as of January 11, 1991, the negotiated effective date of the agreements and the closing of the transactions.

Copies of this filing have been served upon the Arizona Corporation Commission, the Public Utilities Commission of the State of California, the Idaho Public Utilities Commission, the Montana Public Service Commission, the Public Utility Commission of Oregon, the Utah Public Service Commission, the Washington Utilities and Transportation Commission and the Public Service Commission of Wyoming.

Comment date: November 1, 1990, in accordance with Standard Paragraph E at the end of this notice.

3. American Municipal Power-Ohio, Inc., City of Dover, Ohio, City of Orrville, Ohio, City of St. Marys, Ohio, City of Shelby, Ohio, City of Hamilton, Ohio, Complainants v. Ohio Power Company, American Electric Power Company, Inc., Respondents

[Docket No. EL91-1-000]

October 18, 1990.

Take notice that on October 15, 1990, American Municipal Power-Ohio, Inc. ("AMP-Ohio") and the Cities of Dover, Orrville, St. Marys, Shelby, and Hamilton, Ohio, pursuant to Rules 206, 207 and 212 of the Commission's Rules of Practice and Procedure, 18 CFR 385.206, 385.207, 385.212, and §§ 206 and 306 of the Federal Power Act, 16 U.S.C. 824e, 825e, filed a Complaint, Petition for Declaratory Order and Request for Hearing and Refund Effective Date (and related motions) against Ohio Power Company and American Electric Power Company, Inc.

The Complaint alleges that AMP-Ohio and Ohio Power are parties to an Interconnection Agreement dated as of April 1, 1974 ("1974 Agreement"), and that four of the Cities currently obtain services from Ohio Power through AMP-Ohio under the 1974 Agreement. The Complaint alleges that Ohio Power has breached the 1974 Agreement in a number of respects, including improperly charging AMP-Ohio and the Cities for power and energy at Excess Inadvertent rates, imposing reserve requirements not provided for in the 1974 Agreement, and refusing to provide additional or upgraded interconnection points. Certain issues relating to Excess Inadvertent charges and reserve requirements are the subject of Docket No. EL90-42-000.

The Complaint also alleges that certain rates, terms and conditions of the 1974 Agreement are unjust and unreasonable.

AMP-Ohio and the Cities request the Commission to initiate a hearing to investigate the allegations made by them in the Complaint and to establish just and reasonable rates, terms and conditions for the services at issue. AMP-Ohio and the Cities also request the Commission to invoke the provisions of the Regulatory Fairness Act, Pub. L. 100-473 (1988) and establish a Refund Effective Date 60 days after the date of this filing.

Comment date: November 19, 1990, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 90-25165 Filed 10-24-90; 8:45 am]

BILLING CODE 6717-01-M

Western Area Power Administration

Boulder Canyon Project—Proposed Power Rate

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of proposed power rate adjustment, Boulder Canyon project.

SUMMARY: The Western Area Power Administration (Western) is proposing to adjust the rates for the sale of power and energy from the Boulder Canyon Project (BCP). The rate adjustment for the BCP is necessary to cover annual operating expenses and to repay the Federal investment and the funds advanced by certain customers to complete the uprating of existing generating units (Uprating Program) of the BCP. The proposed rate schedule is composed of an energy charge of 5.00 mills per kilowatthour (kWh) and a capacity charge of $1.03 per kilowatt (kW) per month. The present rate schedule is composed of an energy

charge of 3.41 mills per KWh for energy and $0.75 per kW per month for capacity. The present power rate was placed in effect on June 1, 1987.

The power repayment study utilized in the calculation of the proposed capacity charge and energy rate indicates that this charge and rate will provide sufficient revenue to pay all annual costs plus required debt service.

Western has analyzed the subject study and notes that the ratesetting year is fiscal year (FY) 1995. As a result of the high annual costs (operation, maintenance, replacements, and the Uprating Program debt service) during the first 5 future years (FY's 1991–1995), the power repayment study has calculated, consistent with Departmental policy and the BCP's general regulations for sale of power, an average capacity charge and energy rate. However, the calculated average capacity charge and energy rate result in an accumulation of significant revenues in excess of the annual cost and required debt service after FY 2008.

In order to provide the necessary cash-flow to the Bureau of Reclamation (Reclamation) for the operation, maintenance, replacement, and debt service during FY's 1991–1995, Western must set the rates at the proposed level with the expectation of reducing these rates at some time in the future (after the critical cash-flow period has been resolved).

Western is also considering an alternative to the above-described proposal that would consist of a base rate and an additional revenue assessment component. Under this approach, the rate schedule is composed of an energy charge of 4.56 mills per kilowatthour (kWh) and a capacity charge of $0.94 per kilowatt (kW) per month with a revenue assessment to be effective for each of fiscal years (FY) 1991–1995. The revenue amounts will be determined by the project requirements less revenues expected to be realized from the base rate. These revenues will differ from year to year and be distributed to customers based upon the customer's amount of Hoover entitlement.

The power repayment study utilized in the calculation of this alternative indicates that this rate, plus an associated revenue assessment during the period of FY's 1991–1995, will provide sufficient revenue to pay all annual costs plus required debt service.

Western has analyzed this alternative study and notes that the ratesetting year is FY 2012. As a result of the high annual costs (operation, maintenance, interest, replacements, and the Uprating Program debt service) during the years 1991–2017, the power repayment study calculates an average capacity charge and energy rate that results in an accumulation of significant revenues in excess of the annual cost and required debt service after FY 2016.

Adoption of this alternative would provide the necessary cash-flow to Reclamation for the operation, maintenance, replacement, and debt service during FY's 1991–1995. In addition, it would reduce the revenues in excess of the annual cost and required debt service during the study period through a base rate for the study period with an annual revenue assessment to be effective for each of FY's 1991–1995. This option was discussed with the customers during an informal meeting on September 7, 1990, and may be further discussed, as well as any other options offered by the customers, during the public participating and consultation period.

Under either alternative, Western will continue to add to the proposed rate a charge of 2.5 mills for every kWh of energy generated from the BCP and sold to customers in California and Nevada, and 4.5 mills for every kWh of energy generated from the BCP and sold to customers in Arizona for augmentation of the Lower Colorado River Basin Development Fund.

This notice will cancel the Notice of Proposed Power Rates, Boulder Canyon Project, published in the Federal Register on June 22, 1988 (53 FR 23446), which provided notice of a proposed rate of 3.94 mills per kWh for energy and $0.91 per kW for capacity. On May 17, 1989, the Administrator of Western submitted Rate Order No. WAPA–41 to the Deputy Secretary for approval of rates adjusted to 3.01 mills per kWh for energy and $0.62 per kW per month for capacity, which was a composite rate reduction of about 17 percent. Subsequently, due to further review of more recent BCP cost data, Western withdrew its request for approval of the proposed rates under Rate Order No. WAPA–41, and the rate order was returned to Western on October 16, 1989, without action. By letter dated October 24, 1989, Western's Boulder City Area Office [1] notified the BCP contractors about the withdrawal of Rate Order No. WAPA–41.

The proposed rates provided for in this notice will replace the rates put into effect on an interim basis on June 1, 1987, by the Under Secretary of the Department of Energy (DOE) and approved on a final basis by the Federal Energy Regulatory Commission (FERC) order issued May 18, 1988.

In Rate Order No. WAPA–84 (52 FR 21351, June 5, 1987), Western indicated that a new computer program would be developed and that issues raised in the determination of the rates put into effect on June 1, 1987, would be addressed. Western developed the new computer program, which included the modifications requested by the BCP customers. The new program, which was explained to the BCP customers at an informal meeting held in Los Angeles, California, on May 5, 1988, was used in the rate analysis in determining the need for this rate adjustment. The research and analysis information in support of the need for and the probable effect of the proposed rates, including the BCP repayment analysis, is available for review and copying at Western's Boulder City Office. In addition, copies of the revenue requirements analysis to support the need for the adjusted rates will be distributed to the BCP customers and other interested parties. Since the proposed rates constitute a major rate adjustment as defined by the current procedures for public participation in general rate adjustments, as cited below, a public information and a public comment forum will be held. After review of public comments, Western will recommend final proposed rates.

DATES: the effective date of the rate adjustment is intended to be the first full billing period beginning not less than 30 days after the rates are put into effect on an interim basis by the Deputy Secretary of DOE. The consultation and comment period will begin with publication of this notice in the Federal Register and will end January 28, 1991. A public information forum at which Western will outline the methodology used in developing the proposed rates will be held at 10 a.m. on November 15, 1990. A public comment forum at which Western will receive oral and written comments will be held at 10 a.m. on November 30, 1990.

Written comments should be received by the end of the consultation and comment period to be assured consideration and should be sent to the address below.

ADDRESSES: The public information forum and public comment forum will be held at Western's Boulder City Office, 3 miles south on Buchanan Road, Boulder City, Nevada, on the dates and times cited above. Written comments may be sent to:

Mr. Thomas A. Hine, Area Manager, Phoenix Area Office, Western Area

[1] Effective June 17, 1990, the Boulder City Area Office became the Phoenix Area Office located in Phoenix, Arizona.

Power Administration, P.O. Box 6457, Phoenix, AZ 85005.

A copy of written comment should also be sent to the Assistant Area Manager for Power Marketing at the address below.

FOR FURTHER INFORMATION CONTACT: Mr. Earl W. Hodge, Assistant Area Manager for Power Marketing, Boulder City Office, Phoenix Area Office, Western Area Power Administration, P.O. Box 200, Boulder City, NV 89005, [702] 294-3256.

SUPPLEMENTARY INFORMATION: Power rates for the BCP are stablished pursuant to the Department of Energy Organization Act (42 U.S.C. 7101, *et seq.*); the Reclamation Act of 1902 (43 U.S.C. 372) and all acts amendatory thereof and supplementary thereto, and particularly section 9(c) of the Reclamation Act of 1939 (43 U.S.C. 485h(c)); the Colorado River Basin Project Act of 1968 (43 U.S.C. 1501, *et seq.*); the Boulder Canyon Project Act of 1928 (43 U.S.C. 617, *et seq.*); the Boulder Canyon Adjustment Act of 1940 (43 U.S.C., 618, *et seq.*); the Hoover Power Plant Act of 1984 (43 U.S.C. 619, *et seq.*); and the General Regulations for the Charges for the Sale of Power from the Boulder Canyon Project, Final Rule (General Regulations) [10 CFR part 904] published in the Federal Register at 51 FR 43114 on November 28, 1986. By Delegation Order No. 0204-108, effective December 14, 1983 (48 FR 55664), as amended May 30, 1986 (51 FR 19744), reassigned by DOE Notice 1110.29 dated October 27, 1988, and clarified by Secretary of Energy Notice SEN-10-89 dated August 3, 1989, and subsequent revisions, the Secretary of Energy delegate: (1) The authority on a nonexclusive basis to develop long-term power and transmission rates to the Administrator of Western; (2) the authority to confirm, approve, and place such rates in effect on an interim basis to the Deputy Secretary of DOE; and the authority to confirm, approve, and place in effect on a final basis, to remand, or to disapprove such rates to FERC.

The procedures for public participation in rate adjustments for power marketed by Western are formally cited as Procedures for Public Participation in Power and Transmission Rate Adjustments and Extensions (10 CFR part 903), published in the Federal Register at 50 FR 37837 on September 18, 1985, and 50 FR 48075 on November 21, 1985.

Availability of Information

All brochures, studies, comments, letters, memorandums, and other documents made or kept by Western for the purpose of developing the proposed rate are and will be available for inspection and copying at the Boulder City Office, located at the address noted above.

Regulatory Flexibility Analysis

Pursuant to the Regulatory Flexibility Act (5 U.S.C. 601, *et seq.*), each agency, when required by 5 U.S.C. 553 to publish a proposed rule, is further required to prepare and make available for public comment an initial regulatory flexibility analysis to describe the impact of the proposed rule on small entities. In this instance, the initiation of the BCP rate adjustment is related to nonregulatory services provided by Western at a particular rate. Under 5 U.S.C. 601(2), rules of particular applicability relating to rates or services are not considered rules within the meaning of the act. Since the BCP rate is of limited applicability, no flexibility analysis is required.

Determination Under Executive Order 12291

DOE has determined that this is not a major rule within the meaning of the criteria of section 1(b) of Executive Order 12291. In addition, Western is exempt from sections 3, 4, and 7 of that order, and therefore will not prepare a regulatory impact statement.

Paperwork Reduction Act of 1980

The Paperwork Reduction Act of 1980 (44 U.S.C. 3501–3520) requires that certain information collection requirements be approved by the Office of Management and Budget (OMB) before information is demanded of the public. OMB has issued a final rule on the Paperwork Burdens on the Public (48 FR 13666) dated March 31, 1983. Ample opportunity was provided in the proposed rule for the interested public to participate in the development of the General Regulations. There is no requirement that members of the public participating in the development of the BCP rate supply information about themselves to the Government. It follows that the BCP rates are exempt from the Paperwork Reduction Act.

Environmental Evaluation

In compliance with the National Environmental Policy Act of 1969 (NEPA), Council on Environmental Quality Regulations (40 CFR parts 1500 through 1508), and DOE guidelines published in the Federal Register on December 15, 1987 (52 FR 47662), Western conducts an environmental evaluation of the proposed rate adjustments.

Section D of the DOE guidelines identifies the appropriate level of NEPA compliance for rate adjustments. Western will evaluate the proposed rate adjustment and prepare the appropriate documentation of NEPA compliance.

Issued at Golden, Colorado, October 18, 1990.

William H. Clagett,
Administrator.

BILLING CODE 6450-01-M

ENVIRONMENTAL PROTECTION AGENCY

[FRL 3854-7]

California State Motor Vehicle Pollution Control Standards; Waiver of Federal Preemption; Decision

AGENCY: Environmental Protection Agency.

ACTION: Notice of waiver of federal preemption.

SUMMARY: EPA is granting California a waiver of Federal preemption pursuant to section 209(b) of the Clean Air Act, as amended, 42 U.S.C. 7543(b), to adopt and enforce its revised emission standards and accompanying regulatory amendments for 1993 and later model year passenger cars and light duty trucks.

ADDRESSES: A copy of the above standards and procedures, and other amendments, the decision document containing an explanation of the Administrator's determination and the record of those documents used in arriving at this decision are available for public inspection in Docket A-90-11 during the working hours of 8:30 a.m. to 12 p.m., and 1:30 p.m. to 3:30 p.m., at the U.S. Environmental Protection Agency, Air Docket (LE-131), room M1500, First Floor Waterside Mall, 401 M Street, SW., Washington, DC 20460. Copies of the decision document can be obtained from EPA's Manufacturers Operations Division by contacting either Robert Doyle or Andy Brooks, whose address and telephone numbers appear below.

FOR FURTHER INFORMATION CONTACT: Rober M. Doyle, Attorney/Advisor, Manufacturers Operations Division (EN-340F), U.S. Environmental Protection Agency, Washington, DC 20460, Telephone: (202) 475-8666 or Andy Brooks, Chief, Recall Branch, Manufacturers Operations Division (EN-340F), U.S. Environmental Protection Agency, Washington, DC 20460, Telephone: (202) 382-2491.

SUPPLEMENTARY INFORMATION: I have decided to grant California a waiver of Federal preemption pursuant to section 209 (b)of the Clean Air Act, as amended (Act), 42 U.S.C. 7543(b), for its amendments which establish new standards, certification and enforcement procedures for 1993 and later model year passenger cars and light duty trucks. I also have determined that certain of CARB's amendments are within the scope of waivers of Federal preemption previously granted pursuant to section 209(b) of the Act.[1]

By letter dated April 23, 1990, the California Air Resources Board (CARB) submitted to the U.S. Environmental Protection Agency (EPA) a request for waiver of Federal preemption to enforce certain amendments to its motor vehicle pollution control program.[2] These amendments establish new, more stringent standards for hydrocarbon (HC) and carbon monoxide (CO) emissions from new light duty vehicles (LDVs) beginning with model year 1993.[3] The amendments also extend the applicable period of the amended HC and CO standards to 100,000 miles, thus requiring manufacturers to demonstrate at certification that their vehicles can meet the new HC and CO emission standards to 100,000 miles.[4] The new certification standards are to be phased in over the 1993 to 1995 model years, with manufacturers to certify 40 percent of their model year 1993 vehicles, 80 percent of their model year 1994 vehicles and 100 percent of their model year 1995 vehicles to the new standards. Small volume manufacturers are exempt from the new certification standards until model year 1995, when the standards apply to 100 percent of the vehicles produced by the small volume manufacturers.[5]

The amendments also establish separate in-use compliance standards for LDVs. Until model year 1997, the amendments allow manufacturers some transitional relief regarding in-use compliance by establishing "alternative in-use standards". For the 1993 and 1994 model years, the in-use compliance standards for HC and CO are relaxed to levels less stringent than the corresponding certification standards for these pollutants. In addition, in-use compliance enforcement for the 1993 and 1994 model year vehicles is limited to 50,000 miles. During model years 1995 and 1996, the stricter in-use compliance standards are in effect (i.e., the in-use standards are the same as the certification standards) but the enforcement period for those in-use standards will be phased in. For the 1995 and 1996 model years, respectively, 60 percent and 20 percent of a manufacturer's vehicles are permitted to use "alternative in-use compliance" standards (the relaxed standards from the 1993/1994 model years). The remaining respective 40 percent and 80 percent of production, however, must comply with the stricter in-use standards. In model year 1997, the certification standards and the in-use compliance standards become identical and all LDVs must comply with these standards for 100,000 miles.

Small volume manufacturers are not required to meet the 40 percent or 80 percent phase-in requirements; they are permitted to use the relaxed alternative in-use standards for all their production through the 1996 model year. Thereafter, all their vehicles are subject to the stricter in-use standards. Accordingly, there is no in-use compliance phase-in for small volume manufacturers.

To correspond to the new 100,000 mile durability certification standard, CARB has amended its recall regulations to establish a "useful life" for LDVs of 100,000 miles or 10 years, whichever occurs first. Therefore, the applicable recall period for vehicles certified to the new HC and CO standards is 100,100 miles or 10 years, whichever comes first. Although the recall liability extends to 100,000 miles, the amended standards direct that in-use compliance (i.e., recall) testing will not be conducted on vehicles with mileage accumulations of over 75,000 miles. CARB stated that it was practical to impose an upper limit on in-use testing for three reasons. First, the CARB mileage limit of 75,000 miles, or 75 percent of the useful lives of the affected vehicles, is consistent with the current Federal practice of setting the upper-limit compliance testing of 75 percent of useful life for vehicles and engines with longer useful lives (i.e., light-duty trucks and heavy-duty engines.) Second, CARB believes that it is difficult to procure acceptable in-use test vehicles with high mileages that have been maintained properly. Finally, CARB believes that the emission benefit of recalling and fixing failing engine families declines when older vehicles are involved since the cumulative emissions benefit per vehicle would be reduced because of its shorter remaining life.

The new certification requirements and durability requirements take effect beginning in the 1993 model year. To ease the burden of compliance for manufacturers, CARB has developed a phase-in schedule for the standards which results in a mix of vehicles with respect to the certification and in-use standards during model years 1993 through 1996. The following table shows this phase-in schedule:

Certification and In-use Standards Phase-in Percent Compliance per Model Year

[Based upon sales volume]

Model year	Certify to New Stds. (Percent)	Certify to Former Stds. (Percent)	Comply w/ Intermediate in-use Stds. (Percent)	Comply w/Final in-use Stds. (Percent)
1993	40	60	100	n/a
1994	80	20	100	n/a
1995	100	n/a	80	40
1996	100	n/a	20	80

[1] *See* 55 FR 20623 (July 13, 1990), 53 FR 21523 (June 8, 1988), and 49 FR 43502 (October 29, 1984).

[2] *See* letter from James D. Boyd, Executive Officer, CARB, to William K. Reilly, Administrator, EPA, dated April 23, 1990.

[3] The CARB amendments use the term "light-duty vehicles" (LDVs) to include passenger cars (PCs) and light-duty trucks (LDTs). LDTs are further broken down to "light light-duty trucks" (up to 3750 lbs. loaded vehicle weight) and "heavy light-duty trucks (from 3751 lbs. to 5750 lbs.).

[4] The CARB standards for exhaust emissions of nitrogen oxide (NO_x) and the standards for evaporative emissions both have a durability requirement of 50,000 miles.

[5] Title 13, California Code of Regulations, section 1960.1, as amended, defines "small volume manufacturer" to include any manufacturer with California sales of fewer than 3000 units.

Certification and In-use Standards Phase-in Percent Compliance per Model Year—Continued

[Based upon sales volume]

Model year	Certify to New Stds. (Percent)	Certify to Former Stds. (Percent)	Comply w/ Interme-diate in-use Stds. (Percent)	Comply w/Final In-use Stds. (Percent)
1997	100	n/a	n/a	100

The amendments also establish new certification procedures under which manufacturers must demonstrate 100,000 mile vehicle emission control durability. Manufacturers may satisfy this requirement either by providing emission data after accumulating 100,000 miles on a durability data vehicle, or by accumulating no fewer than 75,000 miles on a durability data vehicle and submitting other information (such as bench test data or in-use emission data) which will project compliance at 100,000 miles. If a manufacturer wishes to employ the alternative compliance durability vehicle test (i.e., submitting the 75,000 mile accumulation data, and the supplementary data), it must receive advance approval from the CARB Executive Director.

Manufacturers may choose to accrue durability data on either California configuration or "50-state" configuration vehicles, or on Federal ("49-state") vehicles, under certain conditions. Manufacturers may use Federal durability data vehicles during the phase-in period (model years 1993–1996) if the durability data were generated by a vehicle certified by EPA or CARB prior to the 1993 model year. In addition, even after model year 1996, manufacturers may request advance permission from the CARB Executive Director to use data from a later model year Federal durability vehicle if that vehicle's emission control system configuration is similar to the configuration in the corresponding California vehicle.

Manufacturers must also demonstrate that the durability vehicle can comply with the requirements of California's Inspection and Maintenance (I/M) Test standards. CARB adopted this amendment in an attempt to eliminate the problem of vehicles which are able to pass California certification, but, because of their design, may be prone to fail the California I/M test, even though the vehicles are properly maintained and used.[6]

Finally, CARB has amended existing regulations which implemented the "AB 965 Program" [7], also called the "Offset Program". Under this program, manufacturers may certify for sale in California certain Federally-certified vehicles if the excess emissions from these vehicles that exceed the California standards can be offset by the manufacturer's California certified vehicles with emissions below the California standards. The program grants manufacturers credits for their low-emitting California vehicles which they can then apply to their Federally certified vehicles which do not meet the California standards. The offset program thus allows manufacturers to sell in California vehicles which could not ordinarily be sold there, increasing model availability for California consumers.[8]

There are two amendments to the AB 965 program. First, the amendments add HC to the list of pollutants which are eligible for credits. Before the new CARB HC standards were adopted, the Federal and the California standards for total HC were identical (0.41 grams per mile (gpm)).[9] Since the offset program includes only those vehicle pollutants for which the California standards are more stringent than the Federal standards, HC was not previously eligible for the offset program. Because the new California HC standard is more stringent than the Federal standards (0.25 gpm non-methane hydrocarbons versus 0.41 gpm total hydrocarbons), the amendments make HC credits available to manufacturers participating in the AB 965 program.

Second, the amendments reduce by half the offset credits for CO and NOx available to manufacturers. CARB notes that in recent years, model unavailability has decreased significantly in California. CARB states that much of the usage of the AB 965 program is for economic and not technical reasons; although many of the vehicles now in California through the AB 965 program could have achieved compliance with California standards, it is less expensive and more convenient for manufacturers to use the AB 965 program and certify to the Federal standards only. Therefore, manufacturers have a reduced technological need for these AB 965 credits. CARB notes that the reduction in the available AB 965 credits will reduce the adverse emissions impact of the offsets program.

On May 15, 1990, EPA published a notice of opportunity for a public hearing and a request for written comments concerning California's request.[10] EPA received no request for a hearing, but received comments from three interested parties which have been addressed in the Decision Document. This determination is thus based on CARB's written submissions, the written comments received by EPA, and all other relevant information.[11]

---

[6] For example, CARB reported that the California-certified 1985 and 1986 Ford Bronco and Aerostar have an I/M failure rate of approximately 60% due to the calibration of their air injection systems. *See* "Staff Report: Initial Statement of Reasons for Proposed Rulemaking," pp. 7–8, April 21, 1989, Docket A–90–11.

[7] "AB 965" stands for California Assembly Bill 965, the California law which established the offset program.

[8] These vehicles are usually high-performance cars.

[9] Under the former CARB procedures, manufacturers could certify their vehicles to either a total HC standard (0.41 gpm) or a non-methane HC standard (0.39 gpm).

[10] 55 FR 20189 (May 15, 1990).

[11] All this information is contained in Docket A–90–11. CARB's responses to the various comments by manufacturers and others are contained in the CARB document entitled "Final Statement of Reasons for Rulemaking, Including Summary of Comments and Agency Responses", an undated document submitted to EPA as the package of documents supporting CARB's waiver request. Other pertinent discussion of the technological feasibility, lead time and cost issues is found in the earlier CARB documents entitled "Staff Report: Initial Statement of Reasons for Proposed Rulemaking", dated April 21, 1989, and "Technical Support Document for A Proposal to Amend Regulations Regarding Exhaust Emission Standards, Test Procedures and Durability Requirements Applicable to Passenger Cars and Light-Duty Trucks for the Control of Hydrocarbon, Carbon Monoxide and Benzene Emissions", dated June 8, 1989.

Section 209(b) of the Act provides that, if certain criteria are met, the Administrator shall waive Federal preemption for California to enforce new motor vehicle emission standards and accompanying enforcement procedures. These criteria are consideration of whether California arbitrarily and capriciously determined that its standards are, in the aggregate, at least as protective of public health and welfare as the applicable Federal standards; whether California needs the State standards to meet compelling and extraordinary conditoins; and whether California's amendments are consistent with section 202(a) of the Act. As previous decisions granting waivers of Federal preemption have explained, State standards are inconsistent with section 202(a) if there is inadequate lead time to permit the development of the necessary technology given the cost of compliance within that time period or if the Federal and State test procedures impose inconsistent certification requirements.[12]

With regard to enforcement procedures accompanying standards, I must grant the requested waiver unless I find that these procedures may cause the California standards, in the aggregate, to be less protective of public health and welfare than the applicable Federal standards promulgated pursuant to section 202(a), or unless the Federal and California certification and test procedures are inconsistent.[13]

CARB has made a determination that, with the adoption of the new amendments, its State standards are, in the aggregate, at least as protective of public health and welfare as applicable Federal standards.[14] This conclusion is supported by the fact that the amended California standards are either equal to or more stringent than the corresponding Federal standards. Additionally, the increased vehicle durability standards in California will mean that vehicles produced to these new standards have a greater potential to be cleaner for a longer period than their counterpart Federally-certified vehicles.[15] No comments were received which question either CARB's "protectiveness" determination for these standards, or whether the new certification requirements undermine the protectiveness of the standards. Therefore, based on the record before me, I find that CARB's amendments do not undermine its determination that its state standards are, in the aggregate, at least as protective of public health and welfare as applicable Federal standards.

CARB has repeatedly demonstrated the existence of compelling and extraordinary conditions in California justifying California's need for its own motor vehicle pollution control program.[16] In its letter requesting this waiver, CARB stated that California continues to experience serious air pollution problems, unique to the state, which justify its need to achieve the maximum reductions in emissions from motor vehicles.[17] Based on previous showings by California in this regard, CARB's submission to the record, and the absence of any public comments questioning the need for CARB's own motor vehicle pollution control program, I agree that California continues to face the requisite compelling and extraordinary conditions. Thus, I cannot deny the waiver request on the basis of a lack of compelling and extraordinary conditions.

CARB has submitted information demonstrating that the requirements of its emissions standards and test procedures are consistent with section 202(a) of the Act. CARB stated its finding that the revised emission standards are technologically feasible within the lead time provided considering the costs of compliance because appropriate technology enabling vehicles to meet these standards is widely available and readily adaptable. No commenter submitted data or other information sufficient to satisfy its burden of persuading EPA that the standards are not technologically feasible within the available lead time, considering costs. With regards to certification, manufacturers will be able to satisfy both the current Federal certification requirements and the amended CARB certification requirements by running the same test on a single vehicle. No comments were received from manufacturers or other interested parties that questioned CARB's finding of consistency between the CARB requirements and the Federal reqirements. Therefore, I cannot find that California's amendments will be inconsistent with section 202(a) of the Act. Accordingly, I hereby grant the waiver requested by California.

With respect to CARB's request for confirmation of a "within the scope" determination, I find that CARB's amended recall and offset program regulations do not undermine CARB's "protectiveness" determination and are not inconsistent with section 202(a). I must also evaluate CARB's confirmation request against the third prong of the "within the scope" test; i.e., whether the amendments raise any new issues regarding previous waiver decisions. Based on my review of the record of the CARB proceding, and the absence of any comment on this issue in the EPA waiver proceeding, I find that no new issues regarding previous waiver decisions are raised by these proceedings. Therefore I find that the amendments to the CARB recall [redacted] offset program regulations are within the scope of previous waivers.

My decision will affect not only persons in California but also the manufacturers outside the State who must comply with California's requirements in order to produce motor vehicles for sale in California. For this reason, I hereby determine and find that this is a final action of national applicability.

Under section 307(b)(1) of the Clean Air Act, judicial review of this final action may be sought only in the United States Court of Appeals for the District of Columbia Circuit. Petition for review must be filed by December 24, 1990. Under section 307(b)(2), judicial review may not be obtained in subsequent enforcement proceedings.

This action is not a rule as defined by section 1(a) of Executive Order 12291, 46 FR 13193 (February 19, 1981). Therefore, it is exempt from review by the Office of Management and Budget as required for rules and regulations by Executive Order 12291. Nor is a Regulatory Impact Analysis being prepared under Executive Order 12291 for this waiver determination, since it is not a rule.

In addition, this action is not a rule as defined in the Regulatory Flexibility Act, 5 U.S.C. 601(2). Therefore, EPA has not prepared a supporting regulatory flexibility analysis addressing the impact of this action on small business entities.

Finally, the Administrator has delegated the authority to grant a State a waiver of Federal preemption, under

---

[12] *See, e.g.*, 43 FR 32182 (July 25, 1978).

[13] *See, e.g., Motor and Equipment Manufacturers Association, Inc.* v. *EPA*, 627 F.2d 1095, 1111–14 (D.C. 1979), *cert. denied*, 446 U.S. 952 (1980); 43 FR 25729 (June 14, 1978), ("*MEMA I*").

To be consistent, the California procedures need not be identical to the Federal procedures. California procedures would be inconsistent, however, if manufacturers would be unable to meet both the state and the Federal requirements with the same vehicle. *See, e.g.*, 43 FR 32182 (July 25, 1978).

[14] CARB Resolution 89–61, at p. 6, (June 8, 1989).

[15] This statement is based upon a comparison of the new California standards with current Federal standards. If the Clean Air Act is amended, there may be a need for EPA to reconsider this waiver decision to ensure that the protectiveness criteria of section 209 are still met.

[OPTS-66000; FRL 3838-6]

Toxic and Hazardous Substances; Certain Chemicals Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in the final rule published in the Federal Register of May 13, 1983 (48 FR 21722). In the Federal Register of November 11, 1984, (49 FR 48066) (40 CFR 723.250), EPA published a rule which granted a limited exemption from certain PMN requirements for certain types of polymers. Notices for such polymers are reviewed by EPA within 21 days of receipt. This notice announces receipt of 23 such PMN(s) and provides a summary of each.

DATES: Close of Review Periods:

Y 90-281, September 17, 1990.

Y 90-285, October 4, 1990.

Y 90-286, 90-287, 90-288, October 8, 1990.

BILLING CODE 6560-50-F

FEDERAL COMMUNICATIONS COMMISSION

Comments Invited on Louisiana Regional Public Safety Plan

October 17, 1990.

The Commission has received the public safety radio communications plan for Louisiana (Region 18).

In accordance with the Commission's Report and Order in General Docket No. 87-112 implementing the Public Safety National Plan, parties are hereby given thirty days from the date of Federal Register publication of this public notice to file comments and fifteen days to reply to any comments filed. (See Report and Order, General Docket No. 87-112, 3 FCC Rcd 905 (1987), at pargraph 54.)

In accordance with the Commission's Memorandum Opinion and Order in General Docket No. 87-112, Region 18 consists of the State of Louisiana. General Docket No. 87-112, 3 FCC Rcd 2113 (1988).

Comments should be clearly identified as submissions to General Docket 90-498, Louisiana Area—Region 18, and commenters should send an original and five copies to the Secretary, Federal Communications Commission, Washington, DC 20554.

Questions regarding this public notice may be directed to Maureen Cesaitis, Private Radio Bureau, (202) 632-6497 or Fred Thomas, Office of Engineering and Technology, (202) 653-8112.

Federal Communications Commission.

Donna R. Searcy,

Secretary.

BILLING CODE 6712-01-M

Western Cities Broadcasting, Inc., et al.; Applications for Consolidated Hearing

1. The Commission has before it the following applications for renewal of license of Station KQKS(FM), Longmont, Colorado; for new FM stations at Longmont, Colorado; and for a license to cover minor changes to Station KQKS(FM), Longmont, Colorado:

Applicant	File No.	MM docket No.
A. Western Cities Broadcasting, Inc. (Renewal of KQKS(FM)); Longmont, CO.	BRH-891201XU	90-424
B. Amador S. Bustos (New FM Station), Longmont, CO.	BPH-900226MB	
C. Longmont Broadcasting Corporation (New FM Station); Longmont, CO.	BPH-900216AA	
D. Western Cities Broadcasting, Inc. (Minor Changes to KQKS(FM)); Longmont, CO.	BLH-890104KC	

2. Pursuant to section 309(e) of the Communications Act of 1934, as amended, the above applications have been designated for hearing in a consolidated proceeding upon the following issues:

(a) If a final environmental impact statement is issued with respect to Bustos and/or LBC in which it is concluded that the proposed facilities are likely to have an adverse effect on the quality of the environment, to determine whether the proposals are consistent with the National Environmental Policy Act, as implemented by 47 CFR 1.1301-1319.

(b) To determine whether there is a reasonable possibility that the proposals of Bustos and LBC would constitute a hazard to air navigation.

(c) To determine whether Western committed a misrepresentation or was lacking in candor in its response to section I, Item 2, of its application (FCC Form 304) for a license to cover minor changes to KQKS(FM) and the effect(s) thereof on Western's qualifications to be a Commission licensee.

(d) If a final decision is rendered in the Montecito, California, proceeding (MM Docket No. 87-426), in which it is determined that Richard C. (Rick) Phalen was an undisclosed real party-in-interest in the application of his daughter, Shawn Phalen, to determine the effect(s) thereof on Western's qualifications to be a Commission licensee.

(e) To determine which of the captioned mutually exclusive applications for authority to operate on Channel 282C1 at Longmont, Colorado, would, on a comparative basis, best serve the public interest; and

(f) To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if any, of the captioned mutually exclusive applications to operate on Channel 282C1 at Longmont, Colorado, should be granted.

(g) To determine, in light of the evidence adduced pursuant to the foregoing issues, whether the captioned application of Western for a license to cover minor changes to KQKS(FM) should be granted.

3. A copy of the complete HDO in this proceeding is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC 20554. The complete text may also be purchased from the Commission's duplicating contractor, International Transcription Services, Inc. 2100 M Street, NW., Washington, DC 20037. (Telephone (202) 857-3800).

BILLING CODE 6712-01-M

FEDERAL MARITIME COMMISSION

Agreement(s) Filed

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, DC Office of the Federal Maritime Commission, 1100 L Street, NW., room 10325. Interested parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days after the date of the Federal Register in which this notice appears. The requirements for comments are found in § 572.603 of title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Agreement No.: 212-011234-011.
Title: U.S.A./South Europe Pool Agreement.
Parties:
Compania Trasatlantica Espanola, S.A.,
Costa Container Lines, S.p.A.,
Evergreen Marine Corporation;
Italia di Navigazione S.p.A.,
Lykes Lines,
Nedlloyd Lines,
P&O Containers Limited,
Sea-Land Service, Inc.,
Zim Israel Navigation Company, Ltd.

Synopsis: The proposed amendment would add a new Article 5.C.6 which provides that the Pool Administrator shall periodically issue guidelines to the members to ensure that each member achieves its basic pool share. It would also provide that at least 60 days prior to the end of the pool period, the Pool Administrator shall issue adjusted guidelines to each member of each pool section. Additionally, the amendment provides that if a member adheres to the adjusted guidelines, the member would not be liable to pay any overcarriage penalty attributable to cargo carried in the final 30 days of the pool period.

Agreement No.: 232-011301.
Title: CSAV/TNE Reciprocal Space Charter and Coordinated Sailing Agreement.
Parties:
Compania Sud Americana De Vapores S.A.,
Transportes Navieros Ecuatorianos.

Synopsis: The proposed Agreement would permit the parties to consult and agree on sailing schedules, service frequency, ports to be served and port rotations in the trade between U.S. Gulf Coast ports and inland coastal points and ports and points in Mexico, Colombia, Panama, Ecuador, Peru and Chile, including Bolivian inland points. The Agreement would enable the parties to charter space to and from each other on their respective vessels or on vessels on which they have contracted for space. It would also enable the parties to interchange their empty containers, chassis and/or related equipment. In addition, the parties may also jointly contract with or coordinate in contracting with stevedores, terminals, ports and suppliers of equipment, land or services.

Agreement No.: 207-011302.
Title: DSR/Senator Joint Service Agreement.
Parties:
Deutsche Seereederei Rostock GmbH,
Senator Linie GmbH & Co., KG.

Synopsis: The proposed Agreement would authorize the parties to establish and operate a single-entity joint ocean common carrier service in the trades between ports and points in the United States and other countries, except in the trade between North Europe and ports and points in Puerto Rico and the U.S. Virgin Islands, as set forth in the scope of Agreement No. 207-011291, DSR/Stinnes West Indies Services Agreement.

By Order of the Federal Maritime Commission.

Dated: October 22, 1990.
Joseph C. Polking,
Secretary.

BILLING CODE 6730-01-M

[Fact Finding Investigation No. 19]

Passenger Vessel Financial Responsibility Requirements; Hearings

On August 17, 1990, the Federal Maritime Commission ("Commission" or "FMC") instituted the instant Fact Finding Investigation. The purpose of this proceeding is to collect and analyze information to establish a sound basis for review of current FMC regulations at 46 CFR part 540, subpart A, on the financial responsibility of passenger vessel operators.

The Investigation will address how the Commission may best implement its statutory authority and responsibility to fairly and adequately ensure the indemnification of the public in the event of nonperformance of a passenger vessel operator. It will obtain evidence concerning the financial transactions and operations relating to unearned passenger revenues. The Investigation will also study procedures and practices employed by passenger vessel operators to demonstrate to the FMC their financial responsibility, and alternative approaches and procedures which may meet the statutory objective of providing the passenger public security against nonperformance. This Fact Finding Investigation will also consider possible recommendations for legislative improvements to section 3 of Public Law 89-777.

In order to assist the Fact Finding Officer in the conduct of this Investigation, all parties listed in Appendix A hereto, and any other party interested in participating in this proceeding, shall submit written comments on the following specific issues:

1. The intent of Congress in enacting the financial responsibility requirements of section 3 of Public Law 89-777.

2. The levels of unearned passenger revenue collected and maintained by passenger vessel operators in the United States trades.

3. The advisability of using a sliding scale as a basis for establishing the amount of financial responsibility required.

4. Whether the FMC should continue to require that guarantors, insurers, and other persons providing evidence of financial responsibility on behalf of passenger vessel operators maintain sufficient assets in the United States to cover possible liability.

5. The costs incurred by passenger vessel operators in complying with the financial responsibility requirements for non-performance.

6. Whether the $15 million maximum of evidence of financial responsibility is adequate.

7. The effectiveness of the FMC's administration of the financial responsibility requirements to date. Suggestions for improving the adminstration of this program.

8. The number of claims for nonperformance you have received or made or have knowledge of during the past five yaears and the disposition of these claims.

9. The differences, if any, in financial statements and accounting standards between the United States and foreign countries that might impact upon the financial responsibility program administered by the FMC.

10. Suggested legislative improvements to section 3 of Public Law 89-777.

11. How passenger cruise operators utilize their unearned passenger revenue and whether and at what amounts these revenues earn interest.

12. Whether a central fund should be established to serve as the repository of all unearned passenger income.

13. Whether the FMC should establish a dollar-for-dollar coverage.

14. Any other areas concerning the administration or requirements of section 3 of Public Law 89-777 upon which you wish to comment.

Written submissions are to be submitted to Fact Finding Officer Commissioner Francis J. Ivancie, Federal Maritime Commission, 1100 L Street, NW., Washington, DC 20573 on or before November 16, 1990 and served on the parties listed in Appendix A. Confidential financial information need not be served to the other participants of this proceeding, and may be submitted in a separate document. Replies and supplemental testimony may be offered at the oral hearings which will be held at the following locations:

Wednesday, December 5, 1990—New York, NY

Wednesday, December 12, 1990—Miami, FL

Wednesday, January 16, 1991—Los Angeles, CA

Persons wishing to offer testimony should notify the Fact Finding Officer, on or before November 16, 1990 indicating the regional hearing preferred.

Francis J. Ivancie,

Fact Finding Officer.

Fact Finding Investigation No. 19

FEDERAL RESERVE SYSTEM

Brooke Holdings, Inc., et al.; Acquisitions of Companies Engaged in Permissible Nonbanking Activities

The organizations listed in this notice have applied under § 225.23(a)(2) or (f) of the Board's Regulation Y (12 CFR 225.23(a)(2) or (f)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to acquire or control voting securities or assets of a company engaged in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated for the application or the offices of the Board of Governors not later than November 13, 1990.

A. Federal Reserve Bank of Kansas City (Thomas M. Hoenig, Vice President) 925 Grand Avenue, Kansas City, Missouri 64198:

1. *Brooke Holdings, Inc.*, Jewell, Kansas; to acquire Gypsum Valley Agency, Inc., Jewell, Kansas, and thereby engage in the sale of general insurance pursuant to § 225.25(b)(8)(vi) of the Board's Regulation Y.

B. Federal Reserve Bank of San Francisco (Kenneth R. Binning, Assistant Vice President) 101 Market Street, San Francisco, California 94105:

1. *U.S. Bancorp*, Portland, Oregon; to acquire Credco of Washington, Inc., Solana Beach, California, and thereby engage in selling credit reports on individuals to credit providers in connection with mortgage and consumer loan applications and providing related services to credit providers such as verification of certain credit report information pursuant to § 225.25(b)(24) of the Board's Regulation Y.

Board of Governors of the Federal Reserve System, October 18, 1990.

Jennifer J. Johnson,

Associate Secretary of the Board.

[FR Doc. 90-25180 Filed 10-24-90; 8:45 am]
BILLING CODE 6210-01-M

Citicorp, et al.; Formations of; Acquisitions by; and Mergers of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application is available for immediate inspection at the Federal

Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank or to the offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Unless otherwise noted, comments regarding each of these applications must be received not later than November 15, 1990.

A. Federal Reserve Bank of New York (William L. Rutledge, Vice President) 33 Liberty Street, New York, New York 10045:

1. *Citicorp*, New York, New York; to acquire 100 percent of the voting shares of De Anza Holding Corporation, Sunnyvale, California, and thereby indirectly acquire De Anza Bank, Sunnyvale, California.

B. Federal Reserve Bank of Atlanta (Robert E. Heck, Vice President) 104 Marietta Street, NW., Atlanta, Georgia 30303:

1. *VBST Bancshares Corp.*, Valdosta, Georgia; to become a bank holding company by acquiring 100 percent of the voting shares of Valdosta Bank & Trust, Valdosta, Georgia.

C. Federal Reserve Bank of Chicago (David S. Epstein, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *CommunitiFirst Bancorp, Inc.*, Chicago, Illinois; to become a bank holding company by acquiring 86.66 percent of the voting shares of Community Bank of Lawndale, Chicago, Illinois.

2. *Worthington Bancorporation*, Farley, Iowa; to become a bank holding company by acquiring 100 percent of the voting shares of State Bank of Worthington, Worthington, Iowa.

D. Federal Reserve Bank of Kansas City (Thomas M. Hoenig, Vice President) 925 Grand Avenue, Kansas City, Missouri 64198:

1. *Community Bankshares of Wyoming*, Guernsey, Wyoming; to become a bank holding company by acquiring 100 percent of the voting shares of Oregon Trail Bank, Guernsey, Wyoming.

E. Federal Reserve Bank of Dallas (W. Arthur Tribble, Vice President) 400 South Akard Street, Dallas, Texas 75222:

1. *First Abilene Bankshares, Inc.*, Abilene, Texas; to acquire 100 percent of the voting shares of First National Bank in Cleburne, Cleburne, Texas.

Comments on this application must be received by November 7, 1990.

Board of Governors of the Federal Reserve System, October 18, 1990.

Jennifer J. Johnson,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

Security Pacific Corporation, Los Angeles, CA; Request for Exemption From Tying Provisions

Security Pacific Corporation, Los Angeles, California ("Security Pacific"), has requested, pursuant to section 106 of the Bank Holding Company Act Amendments of 1970 (12 U.S.C. 1971 *et seq.*) ("Section 106"), that the Board grant an exemption from the anti-tying provisions of section 106, in order to permit its wholly-owned subsidiary, Security Pacific Bank, National Association, Tempe, Arizona ("Security Pacific Bank"), which houses a centralized credit card operation for the consolidated bank holding company, to offer reduced rates on credit cards issued to customers with loans or deposit accounts at affiliated banks in California, Washington, Oregon, Alaska, Nevada and Arizona. The pricing of credit cards, a traditional bank loan product, is the only product pricing to be linked to products and services of affiliate banks, which include loans and deposit accounts that allow for automatic transfers to pay on credit card balances. In no case would the availability of the credit card be used to vary pricing of other bank services.

Although section 106 permits a bank to fix or to vary the consideration for extending credit or furnishing services on the condition that a customer also obtain a traditional banking service (loan, discount, deposit or trust service) from that bank, it prohibits a bank from engaging in these same activities on condition that a customer obtain any additional credit or services from any other subsidiary of the bank's parent holding company. The Board may grant, however, an exemption that is not contrary to the purposes of this provision.

Security Pacific, with consolidated assets of $94.5 billion as of June 30, 1990, ranked as the nation's fifth largest bank holding company in a comparative analysis based upon consolidated assets at yearend 1989. Security Pacific owns 12 commercial banks and one savings bank in ten states in the Western and Southwestern regions of the United States. Security Pacific also engages both directly and indirectly in a variety of permissible nonbanking activities. Security Pacific has recently undertaken to centralize all credit card operations in Security Pacific Bank by transfer of credit card receivables from affiliated banks in California, Washington, Oregon, Alaska, Nevada and Arizona. Security Pacific proposes that Security Pacific Bank provide reduced credit card rates to customers who have deposit or borrowing relationships with the affiliated banks. Inasmuch as the variation in consideration afforded by Security Pacific Bank under the reduced-rate credit card program would be conditioned upon a customer's obtaining additional banking services from other Security Pacific banking subsidiaries, it would be barred by the literal terms of Section 106 without an exemption from the Board.

In support of its request for an exemption, Security Pacific cites the Board's Order of June 20, 1990, approving requests by Northwest Corporation and NCNB Corporation for an exemption to permit their banks to offer a credit card at lower cost in conjunction with traditional banking services provided by their other subsidiary banks. In this connection, Security Pacific has also committed to conform such tying activity to any conditions and limitations determined appropriate by the Board upon completion of the rulemaking process which commenced with notice on June 20, 1990, of a proposed amendment to § 225.4(d) of the Board's Regulation Y (12 CFR 225.4(d)) to permit a bank owned by a bank holding company to vary the consideration (including interest rates and fees) charged in connection with extensions of credit pursuant to a credit card offered by the bank on the basis of the condition or requirement that a customer also obtain a traditional banking service from another bank subsidiary of the card-issuing bank's holding company. Further, assurance is provided that banking affiliates of Security Pacific Bank would offer the same deposit and loan products to customers who do not have a credit card issued by Security Pacific Bank.

Notice of the request is published solely in order to seek the views of interested persons on the issues presented by the request and does not represent determination by the Board that the request meets or is likely to

meet the standards of section 108. Any request for hearing on this issue must, as required by § 262.3(e) of the Board's Rule of Procedure (12 CFR 262.3(e)), be accompanied by a statement of the reasons why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the request for exemption.

The request may be inspected at the offices of the Board of Governors. Any comments or requests for hearing should be submitted in writing and received by William W. Wiles, Secretary of the Board of Governors of the Federal Reserve System, Washington, DC 20551 not later than November 23, 1990.

Board of Governors of the Federal Reserve System, October 19, 1990.

Jennifer J. Johnson,

Associate Secretary of the Board.

BILLING CODE 4140-01-M

Health Resources and Services Administration

Final Funding Priorities for Grants for Area Health Education Centers Special Initiatives

The Health Resources and Services Administration (HRSA) announces the final funding priorities for fiscal year (FY) 1991 for Grants for Area Health Education Centers Special Initiatives under the authority of section 781(a)(2) of the Public Health Service (PHS) Act, extended by the Health Professions Reauthorization Act of 1988, Pub. L. 100-607, title VI.

Section 781(a)(2) authorizes Federal Assistance to medical and osteopathic schools which have previously received Federal financial assistance for the Area Health Education Centers (AHEC) program under either section 802 of Pub. L. 94-484 in FY 1979 or under section 781. In addition, section 781(a)(2) authorizes medical and osteopathic schools currently receiving Federal support for an AHEC program to apply for project aid on behalf of an Area

Health Education Center that is no longer federally-funded as part of that program.

Section 781(a)(2) applications will be for the purpose of improving the distribution, supply, quality, utilization, and efficiency of health personnel in the health services delivery system; to encourage regionalization of educational responsibility of the health professions schools; or to prepare, through preceptorships and other programs, individuals subject to a service obligation under the National Health Service Corps Scholarship program to provide effective health services in health manpower shortage areas.

To receive support, programs must meet the requirements of regulations set forth in 42 CFR part 57, subpart MM.

Review Criteria

The review of applications will take into consideration the following criteria:

1. The relative merit of the proposed project; and

2. The relative cost-efficiency of the proposed project.

In addition,the following mechanisms will be applied in determining the funding of approved applications.

1. Funding preferences—funding of a specific category or group of approved applications ahead of other categories or groups of applications, such as competing continuations ahead of new projects.

2. Funding priorities—favorable adjustment of review scores when applications meet specified objective criteria.

The following funding preference and priorities were established in FY 1988 after public comment and the Administration is extending this preference and these priorities in FY 1991.

Funding Preference for Fiscal Year 1991

In making awards under section 781 for fiscal year 1991, a funding preference will be given to approved competing continuation applications as authorized by section 781(a)(1).

Funding Priorities for Fiscal Year 1991

In determining the order of funding of approved applications funding priorities will be given to the following:

1. Applications proposing to develop, expand or implement curricula concerning ambulatory and inpatient case management of needs of persons with HIV/AIDS infection.

2. Applications demonstrating a commitment to geriatrics through development of innovative educational ways to provide improved and more effective care for the elderly.

3. Applications which are innovative in their educational approaches to quality assurance/risk management activities: monitoring and evaluation of health care services and utilization of peer-developed guidelines and standards.

Proposed additional funding priorities were published in the **Federal Register** of August 31, 1990 (55 FR 35725) for public comment. No comments were received during the 30-day comment period. Therefore, as proposed, the following funding priorities will be retained as listed below. Additional funding priorities will be given to:

1. Applications proposing centers in which substantial training experience is in a Health Manpower Shortage Area, section 332 of the PHS Act; and/or Migrant Health Center, section 329 of the PHS Act; Community Health Center, section 330 of the PHS Act; or State designated clinic-center serving an underserved population.

2. Applications proposing centers that will serve Health Manpower Shortage Areas with a greater proportion of American Indian/Alaskan Natives, Asians/Pacific Islanders, Blacks and/or Hispanics than exists in the general population in the United States.

3. Applications demonstrating a commitment to reducing infant mortality through the development of innovative educational ways to provide improved and more effective maternal and child health care: For example, the development and implementation of undergraduate, graduate and/or continuing education curricula/courses to enhance the delivery of maternal and child health care to low-income populations; or the provision of clinical training experiences to undergraduate students or residents in areas where the infant mortality rate is higher than the State or national average.

FOR FURTHER INFORMATION: Please contact: Division of Medicine, Multidisciplinary Centers and Programs Branch, Bureau of Health Professions, Health Resources and Services Administration, 5600 Fishers Lane, room 4C-05, Rockville, Maryland 20857, Telephone: (301) 443-6950.

The *Catalog of Federal Domestic Assistance* number assigned to this program has been changed from 13.824 to 93.824. This program is not subject to the provisions of Executive Order 12372, Intergovernmental Review of Federal Programs (as implemented through 45 CFR part 100.

Dated: October 19, 1990.

Robert G. Harmon,

Administrator.

BILLING CODE 4160-15-M

Public Health Service

National Toxicology Program; Availability of Technical Report on Toxicology and Carcinogenesis Studies of Furfural

The HHS' National Toxicology Program announces the availability of the NTP Technical Report on toxicology and carcinogenesis studies of furfural, used for the production of furan, furfuryl alcohol, tetrahydrofuran, and their derivatives; as a solvent for selectively separating saturated from unsaturated compounds in petroleum lubricating oil, gas oil, and diesel fuel; in the extractive distillation of butadiene and other C4 hydrocarbons used in the manufacture of synthetic rubber; as a resin solvent and wetting agent in the manufacture of abrasive wheels and authomobile brake linings; and as a solvent in various other industrial processes.

Toxicology and carcinogenesis studies of furfural were conducted by administering 0, 30, or 60 mg/kg furfural in corn oil by gavage to groups of 50 rats of each sex, 5 days per week for 103 weeks. Groups of 50 mice of each sex were administered 0, 50, 100, or 175 mg/kg on the same schedule.

Under the conditions of these 2-year gavage studies, there was some evidence of carcinogenic activity* of furfural for male F344/N rats, based on the occurrence of uncommon cholangiocarcinomas in two animals and bile duct dysplasia with fibrosis in two other animals. There was no evidence of carcinogenic activity for femal F344/N rats that received doses of 0, 30, or 60 mg/kg furfural. There was clear evidence of carcinogenic activity for male B6C3F1 mice, based on increased incidences of hepatocellular adenomas and hepatocellular carcinomas. There was some evidence of carcinogenic activity in female B6C3F1 mice, based on increased incidences of hepatocellular adenomas. Renal cortical adenomas or carcinomas in male mice and squamous cell

* The NTP uses five categories of evidence of carcinogenic activity to summarize the strength of the evidence observed in each experiment: Two categories of positive results ("clear evidence" and "some evidence"); one category for uncertain findings ("equivocal evidence"); one category for no observable effects ("no evidence"); one category for experiments that because of major flaws cannot be evaluated ("inadequate study").

papillomas of the forestomach in female mice may have been related to exposure to furfural.

The study scientist for these studies is Dr. Richard Irwin. Questions or comments about this Technical Report should be directed to Dr. Irwin at P.O. Box 12233, Research Triangle Park, NC 27709 or telephone (919) 541–3340.

Copies of Toxicology and Carcinogenesis Studies of Furfural in F344/N Rats and B6C3F1 Mice (Gavage Studies) (TR 382) are available from the NTP Public Information Office, MD B2–04, P.O. Box 12233, Research Triangle Park, NC 27709.

Dated: October 18, 1990.

David G. Hoel,

Acting Director, National Toxicology Program.

[FR Doc. 90–25197 Filed 10–24–90; 8:45 am]

BILLING CODE 4140-01-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

[Docket No. N-90-3182; FR-2813-N-01]

National Manufactured Home Advisory Council—Request for Nominations

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Notice.

SUMMARY: This Notice gives the public an opportunity to nominate persons for appointments to the National Manufactured Home Advisory Council. The Council, consisting of representatives from consumer, government and industry organizations or agencies, is consulted to the extent feasible before the Department establishes, amends, or revokes manufactured home construction and safety standards.

DATES: Persons wishing to submit nominations must do so on or before November 26, 1990.

FOR FURTHER INFORMATION CONTACT: Henry Omson, Coordinator, National Manufactured Home Council, Office of Manufactured Housing and Regulatory Functions, Office of Single Family Housing, Department of Housing and Urban Development, 451 7th Street, SW., room 6270, Washington, DC 20410, Telephone: (202) 708–0798. The TDD number is (202) 708–4594. (These are not toll-free numbers.)

SUPPLEMENTARY INFORMATION: Notice is hereby given that members of the public wishing to nominate persons for appointment to the National Manufactured Home Advisory Council should submit such nominations in writing to the Assistant Secretary for Housing—Federal Housing Commissioner (Attention: Officer of Manufactured Housing and Regulatory Functions), Department of Housing and Urban Development, 451 7th Street, SW., room 6270, Washington, DC 20410.

A twenty-four member Council was created under the National Manufactured Home Construction and Safety Standards Act of 1974, 42 U.S.C. 5401 *et. seq.* (The Act) to provide the Department with an opportunity to obtain balanced views on manufactured home standards issues. The Act stipulates that one-third of the membership of the Council must be chosen from each of the following categories: (a) Consumer organizations and recognized consumer leaders; (b) the manufactured home industry and related groups, including at least one representative of small business; and (c) government agencies including Federal, State and local governments.

Section 6(a) of the National Manufactured Home Advisory Council Charter stipulates that the Council members shall be appointed by the Secretary to serve two-year terms. In accordance with the Charter, one-half of these terms will expire on August 21, 1991 and the other half will expire on August 21, 1992.

Because the Advisory Council has not met in the past two years, all positions on the Council are vacant. The Secretary will appoint one-half of the Council for a one-year term which will expire on August 21, 1991 and the other half of the Council to a two-year term which will expire on August 21, 1992.

The Secretary will appoint a total of twenty-four (24) new members to the Council, selecting eight (8) members from each of the three groups which make up the Council. Nominations may be made for representatives of consumer, industry and government organizations or agencies. Interested persons may nominate themselves.

In submitting nominations, include the following information:

1. Name of nominee.
2. Home address and telephone number of nominee.
3. Business address and telephone number of nominee.
4. Section (i.e. consumer, industry, or government) the nominee represents.
5. Pertinent experience and/or background of nominee that is believed will qualify the nominee as an appropriate member of the Council.
6. Name of group or person(s) making nomination.
7. The following data should be furnished for those nominated as official representatives of organized consumer or industrial groups or associations:
   (a) Name and address of organizations.
   (b) Number of official members in organization.
   (c) Nominee's position in organization.
8. The name of the government agency, its location, and the nominee's position or title should be provided for those nominated to represent government agencies.
9. Any other pertinent comments or remarks.

The nominees selected by the Secretary are expected to be announced by publication in the Federal Register.

Dated: October 17, 1990.

Arthur J. Hill,

Acting, Assistant Secretary for Housing, Federal Housing Commissioner.

[FR Doc. 90–25183 Filed 10–24–90; 8:45 am]

BILLING CODE 4210-01-M

Office of the Assistant Secretary for Community Planning and Development

[Docket No. N-90-3184; FR-2818-N-01]

Neighborhood Development Demonstration Program; Announcement of Funding Awards, Iron Mountain/Ozan Ingram NDC, et al.

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Announcement of funding awards.

SUMMARY: Under section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989, this announcement notifies the public of funding decisions made by the Department in a competition for funding under the Neighborhood Development Demonstration Program. This announcement contains the names and addresses of the award winners and the amounts of the awards.

EFFECTIVE DATE: October 25, 1990.

FOR FURTHER INFORMATION CONTACT: Samuel Jones, Office of Procurement and Contracts, Community Services Division (ACC–SJ), Department of Housing and Urban Development, room 5252, 451 Seventh Street, SW., Washington, DC 20410. Telephone number (202) 708–1162. A telecommunications device for deaf persons (TDD) is available at (202) 708–2565. (These are not toll-free numbers.)

SUPPLEMENTARY INFORMATION: The Neighborhood Development Demonstration Program (NDDP) was

authorized under section 123 of the Housing and Urban-Rural Recovery Act of 1983 (42 U.S.C. 5318). The purpose of the program is to determine the ability of neighborhood organizations to support eligible neighborhood development activities using cooperative efforts and monetary contributions from individuals, businesses, and nonprofit and other organizations located within established neighborhood boundaries

On March 14, 1990 (55 FR 9612) HUD announced in the Federal Register the availability of $1.85 million in NDDP funds for grants.

The application deadline was May 15, 1990. A total of $1.85 million was awarded to thirty-nine organizations which are located in twenty states and Puerto Rico. In accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989, the Department is publishing the names, addresses, and amounts of those awards, as follows:

Neighborhood Development Demonstration Program Grantees

1. Iron Mountain/Ozan Inghram NDC, 1101 Couch St., Texarkana, AR 75502, Mr. Freddie L. Johnson, $50,000
2. S. Berkeley Neigh. Dev. Corp., 1767 Alcatraz Ave., Berkeley, CA 94703, Ms. Barbara Sanders, $50,000
3. El Pajaro Comm. Dev. Corp., 420 Main St., Ste 313, Watsonville, CA 95076, Ms. Pamela Salsedo, $50,000
4. Southern Ute Comm. Action, P.O. Box 800, Ignacio, CO 81137, Mr. Harry N. Pearson, $50,000
5. Quality Living Services, Inc., P.O. Box 311045, Atlanta, GA 30331, Ms. Irene M. Richardson, $50,000
6. Uptown Chicago Commission, 4763 N. Broadway, Chicago, IL 60640, Ms. Patricia A. Reskey, $50,000
7. Rockford Neigh. Dev. Corp., 318 N. Church St., Rockford, IL 61101, Mr. R. Haines Moffat, $50,000
8. East Central Reinvest Corp., 615 East Washington St., Muncie, IN 47305, Ms. Lynn K. Thornburg, $50,000
9. Acorn Housing Corp., Inc., 808 N First St., Phoenix, AZ 85004, Mr. Martin Shalloo, $50,000
10. Charity Cultural Services Ctr., 827 Stockton St., San Francisco, CA 94108, Ms. Yvonne Badger, $50,000
11. North East Denver Housing, 1735 Gaylord, Denver, CO 80206, Ms. Getabecha Mekonnen, $50,000
12. Latin American Youth Center, 3045 15th St., NW., Washington, DC 20009, Ms. Lori M. Kaplan, $30,000
13. Cabbagetown Revitalization, 230 Carroll St., SE., Atlanta, GA 30312, Ms. Peggy P. Williams, $50,000
14. East Bluff Neigh. Heg. Ser., 413 E. Illinois, Peoria, IL 61603, Ms. Paula J. Day, $50,000
15. Eastside Comm Investn., Inc., 3228 E. Tenth St., Indianapolis, IN 46201, Mr. Dennis J. West, $50,000
16. Nueva Esperanza, Inc., 362 South Summer St., Holyoke, MA 01040, Ms. Kathryn Kroll, $50,000
17. Oakhill Comm. Dev. Corp., 17 Wall St., Worcester, MA 01604, Mr. Franklin D. Mathews, $21,278
18. Pinelake Village Coop., Inc., 2560 Adrienne Drive, Ann Arbor, MI 48103, Mr. David Friedrichs, $50,000
19. Phillips Community Dev. Corp., 1931 Thirteenth Ave. South, Minneapolis, MN 55404, Mr. Ron Otterson, $35,000
20. Mt. Hope Hous. Co., Inc., 1892 Morris Ave., Bronx, NY 10452, Mr. Brien O'Toole, $50,000
21. Church Ave. Merchants Assn., 1720 Church Ave., Brooklyn, NY 11226, Ms. Joanne Oplustil, $50,000
22. St. Nicholas Neigh. Pres. Corp., 11–29 Catherine St., Brooklyn, NY 11211, Mr. Joel E. Patenaude, $50,000
23. Walnut Hills Redev. Found., Inc., 2601 Melrose Ave., Cincinnati, OH 45206, Ms. Daphne A. Sloan, $50,000
24. Clark-Metro Dev. Corp., 3310 Clark Ave., Cleveland, OH 44109, Ms. Betty J. Sitka, $50,000
25. SE Comm. Dev. Org., Inc., Ten South Wolfe St., Baltimore, MD 21231, Mr. Robert P. Ciloth, $50,000
26. West Bank CDC, Inc., 2000 S. 5th St., Minneapolis, MN 55454, Mr. George A. Garnett, $25,000
27. Banana Kelly Comm Improv Assn, 965 Longwood Avenue, Brooklyn, NY 11206, Mr. Getz Obstfeld, $49,575
28. Cypress Hills Local Dev. Corp., 3152 Fulton St., Brooklyn, NY 10458, Ms. Angela Surace Curci, $44,000
29. Mutual Housing Assn. of NY, 845 Flatbush Ave., Brooklyn, NY 11226, Mr. Peter Wood, $50,000
30. Clinton Comm. Ser., Inc., 441 West 49th St., New York, NY 10019, Ms. Mary Clark, $50,000
31. Cudell Improvement, Inc., 11311 Franklin Blvd., Cleveland, OH 44102, Ms. Carol Johnson, $50,000
32. Edgemont Neigh. Coal., Inc., 1199 Wildwood Ave., Dayton, OH 45408, Mr. Dean Lovelace, $50,000
33. 4500 N. 20th Block Assn. Corp., 4541 N. 20th St., Philadelphia, PA 19140, Ms. Delores Dennison, $50,000
34. Kensington Action Now, 3034 Frankford Ave., Philadelphia, PA 19134, Ms. Deborah Fischetti, $50,000
35. Servicio De Viviendas, P.O. Box 887, Pueblo Station, Carolina, PR 00630, Mr. José Gaztambide, $50,000
36. South Community Org., Inc., 2201 S. 7th St., Milwaukee, WI 53215, Ms. Karen M. Schaber, $50,000
37. K.J.A.C., 1616 E. Huntingdon St., Philadelphia, PA 19125, Mr. Bill Lenahan, $47,500
38. Central Germantown Council, 5600 Germantown Ave., Philadelphia, PA 19144, Mr. Donald P. Scott, $36,000
39. NW Neigh. Environment Org., 802 Loudon Ave., NW., Roanoke, VA 24016, Ms. Florine Thornhill, $50,000.

Dated: October 17, 1990.

S. Anne Kendeigh,

Assistant Secretary for Community Planning and Development.

[Docket No. D–90–833]

Office of the Regional Administrator, Regional Housing Commissioner, Fort Worth Regional Office, Region VI (Fort Worth); Designation

AGENCY: Department of Housing and Urban Development.

ACTION: Designation of order of succession.

SUMMARY: The Regional Administrator—Regional Housing Commissioner is designating officials who may serve as Acting Regional Administrator—Regional Housing Commissioner during the absence, disability, or vacancy in the position of the Regional Administrator—Regional Housing Commissioner.

EFFECTIVE DATE: This designation is effective October 1, 1990.

FOR FURTHER INFORMATION CONTACT: Rita M. Vinson, Director, Management and Budget Division, Office of Administration, Fort Worth Regional Office, Department of Housing and Urban Development, 1600 Throckmorton, P.O. Box 2905, Fort Worth, Texas 76113–2905, Telephone (817) 885–5451 (this is not a toll-free number).

DESIGNATION: Each of the officials appointed to the following positions is designated to serve as Acting Regional Administrator—Regional Housing Commissioner during the absence, disability, or vacancy in the position of the Regional Administrator—Regional Housing Commissioner with all the powers, functions, and duties redelegated or assigned to the Regional Administrator—Regional Housing Commissioner: Provided that no official is authorized to serve as Acting Regional Administrator unless all preceding listed officials in this designation are unavailable to act by reason of absence, disability, or vacancy in the position:

1. Deputy Regional Administrator
2. Regional Counsel
3. Director, Office of Community Planning and Development
4. Director, Office of Housing
5. Director, Office of Administration
6. Director, Office of Fair Housing and Equal Opportunity
7. Director, Office of Public Housing

This designation supersedes the designation effective October 8, 1986, published as Docket No. D-86-824 in the Federal Register issue of November 6, 1986 (51 FR 40356).

Authority: Delegation of Authority by the Secretary effective May 4, 1982, (27 FR 4319, May 4, 1982); Department Interim Order II (31 FR 815, January 21, 1966.

Sam R. Moseley,

Regional Administrator—Regional Housing Commissioner, Region VI (Fort Worth).

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[MT-060-4333-11]

Notice of Participation in a Block Management Program, Valley Resource Area, Lewistown District, Montana

October 19, 1990.

AGENCY: Bureau of Land Management, Interior.

ACTION: Cooperation in a block management program which would temporarily change off-road vehicle designations in the area.

SUMMARY: Notice is hereby given that effective immediately all public lands in the following description will be managed in a cooperative block management program among the Montana Department of Fish, Wildlife, and Parks, the Page-Whitham Ranches of South Valley County and the BLM throughout the 1990 Montana big game hunting season.

Legal Description of Public Lands within the Block:

T. 25 N., R. 34 E.,
Sec. 26, 27, 34, 35, and 36.
T. 25 N., R. 35E.,
Sec. 26, 29, 31, 32, 33, and 34.
T. 24 N., R. 34 E.,
Sec. 1, 2, 11, 12, 13, 14, and 24.
T. 24 N., R. 35 E.,
Sec. 1-15, 17, 18, 19, 20, 23, 24, 25, 26, 27, 28, 29, 33, 34 and 36.
T. 24 N., R. 36 E.,
Sec. 5, 6, 7, 8, 17, 18, 30, and 31.
T. 23 N., R. 35 E.,
Sec. 1, 2, 3, 10, 11, 14, 15, 22, 23, 26, 27, and 35.

DATES: Public land restrictions within the block will coincide with the Montana big game hunting season, October 21, through November 25.

SUPPLEMENTARY INFORMATION: Hunting or other forms of recreation will be subject to the following regulations; no off-road vehicle travel, no open fires; and recreationists may obtain additional information from the Montana Department of Fish, Wildlife & Parks or Bureau of Land Management offices in Glasgow.

Authority for this participation is 43 CFR part 8342.

FOR FURTHER INFORMATION CONTACT: Terry Hueth, Valley Resource Area Manager, Route 1 Box 775, Glasgow, MT 59230.

B. Gene Miller,

Acting District Manager.

BILLING CODE 4310-DN-M

[WY-060-D1-4410-08]

Notice of Availability of Draft Environmental Impact Statement for Nebraska Resource Management Plan

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Availability of the Draft Environmental Impact Statement for the Nebraska Resource Management Plan.

SUMMARY: The Bureau of Land Management (BLM) has completed the Nebraska Resource Management Plan/draft Environmental Impact Statement (RMP/draft EIS). The BLM's preferred alternative in the RMP/draft EIS proposes land and resource uses, and identifies management goals, constraints, and general management practices needed to manage the public lands in Nebraska. It also contains proposed off-road vehicle (ORV) designations for all BLM administered land surface. The term "public lands" means federally-owned land surface and federally-owned minerals administered by the BLM.

When completed the Nebraska RMP will guide management of the public lands administered by BLM in the State of Nebraska.

DATES: Written comments will be accepted for 90 days following the date the Environmental Protection Agency publishes the filing of the Nebraska RMP/draft EIS in the Federal Register.

ADDRESSES: Copies of the Nebraska RMP/draft EIS are available from the Newcastle Resource Area Office at 1101 Washington Blvd., Newcastle, Wyoming 82701, or the Casper District Office at 1701 East E Street, Casper, Wyoming 82601. Comments should be sent to the Newcastle Area Manager at the Newcastle Resource Area Office.

FOR FURTHER INFORMATION CONTACT: Floyd Ewing, Newcastle Area Manager, at the above address or telephone (307) 746-4453.

SUPPLEMENTARY INFORMATION: The Newcastle Resource Area of the Bureau of Land Management has the responsibility of managing all BLM administered public lands in Nebraska. BLM administered public land surface (about 6,700 acres) is found in 30 of the 93 counties in Nebraska, with parcels ranging in size from less than one acre to 240 acres. The majority of this public land surface is located in the western part of the state. Some of the BLM administered Federal minerals lie beneath the BLM administered public lands. However, most of the Federal minerals lie beneath land surface in private ownership or owned by the State of Nebraska (about 240,000 acres) or federally-owned land surface that is managed by other Federal agencies. The planning effort will not address the Federal mineral estate under those Federal lands administered by other Federal agencies (about 280,000 acres) or those withdrawn for purposes of other agencies (about 81,000 acres).

After the public comment period closes all comments received will be addressed in a final EIS. The final EIS will also be made available to the public and will be subject to a 30 day protest period before any planning decisions are made.

Dated: October 18, 1990.

Ray Brubaker,

State Director, Wyoming.

[G010-4333-02/G1-0109]

Albuquerque District, New Mexico; District Advisory Council Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Albuquerque District Advisory Council Meeting.

SUMMARY: The BLM Albuquerque District Advisory Council will meet on November 19, 1990 in the Albuquerque District Office conference room from 10 a.m. until 3:30 p.m. The office is located at 435 Montano NE, Albuquerque, New Mexico. Topics on the agenda include a discussion of how to involve the Council in the preparation of the Rio Grande Corridor Plan, and a discussion of the District-Wide Resource Management Plan Amendment process to look at the cumulative impacts of oil and gas development activity. Also on the agenda will be an update for the Council of major activities on the District.

The meeting is open to the public. Individuals wishing to address the Council are urged to contact Alan Hoffmeister, Public Affairs Specialist, at (505) 761-4513, Bureau of Land

Management, 435 Montana NE. Albuquerque, NM 87107.

Robert T. Dale,

District Manager.

Meetings; Carson City District Advisory Council

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Meeting of the Carson City District Advisory Council.

DATES: November 29, 1990.

ADDRESSES: 1535 Hot Springs Road, suite 300, Carson City, Nevada.

SUMMARY: The Council will meet at 9:30 a.m. The agenda will include the following:

1. Minutes from the last meeting.
2. Proposed wild horse and burro gathers for Fiscal Year 1991.
3. Briefing on the Marietta Burro Range designation and proposed dedication ceremony.
4. Briefing on the Stewart Valley Management Plan.
5. Update on the Walker Lake recreation complex.
6. Current status of public land closures adjacent to Navy Bombing Ranges B-16, B-17 and B-19.
7. Law enforcement activities during Fiscal Year 1990.

At 11:30 a.m., comments from the public will be heard.

FOR FURTHER INFORMATION CONTACT: Chuck Pope, BLM Public Affairs Officer, 1535 Hot Springs Road, suite 300, Carson City, Nevada 89706-0638. (Phone: (702) 885-6000).

Dated this 18th day of October 1990.

James W. Elliott,

District Manager, Carson City District.

BILLING CODE 4310-HC-M

[Alaska AA-58130-K]

Proposed Reinstatement of a Terminated Oil and Gas Lease

In accordance with title IV of the Federal Oil and Gas Royalty Management Act (Pub. L. 97-451), a petition for reinstatement of oil and gas lease AA-58130-K has been received covering the following lands:

Kateel River Meridian, Alaska

T. 6 S., R. 9 W.,
Sec. 19, SE¼ SE¼.
(40 acres)

The proposed reinstatement of the lease would be under the same terms and conditions of the original lease, except the rental will be increased to $5 per acre per year, and royalty increased to 16⅔ percent. The $500 administrative fee and the cost of publishing this Notice have been paid. The required rentals and royalties accruing from June 1, 1990, the date of termination have been paid.

Having met all the requirements for reinstatement of lease AA-58130-K as set out in section 31 (d) and (e) of the Mineral Leasing Act of 1920 (30 U.S.C. 188), the Bureau of Land Management is proposing to reinstate the lease, effective June 1, 1990. subject to the terms and conditions cited above.

Dated: October 11, 1990.

Ruth Stockie,

Chief, Branch of Mineral Adjudication.

[Alaska AA-58306-AI, AA-58306-AJ, AA-58307-I]

Proposed Reinstatement of Terminated Oil and Gas Leases

In accordance with title IV of the Federal Oil and Gas Royalty Management Act (Pub. L. 97-451), a petition for reinstatement of oil and gas leases AA-58306-AI, AA-58306-AJ, and AA-58307-I has been received covering the following lands:

Kateel River Meridian, Alaska

T. 5 S., R. 5 W.,
Sec. 5, N2NW; (80 acres)
Sec. 8, S2SW; (80 acres)
Sec. 20, N2NW; (80 acres)

The proposed reinstatement of the leases would be under the same terms and conditions of the original leases, except the rental will be increased to $5 per acre per year, and royalty increased to 16⅔ percent. The $1,500 administrative fees and the cost of publishing this Notice have been paid. The required rentals and royalties accruing from July 1, 1990, the date of termination have been paid.

Having met all the requirements for reinstatement of leases AA-58306-AI, AA-58306-AJ, and AA-58307-I as set out in section 31 (d) and (e) of the Mineral Leasing Act of 1920 (30 U.S.C. 188), the Bureau of Land Management is proposing to reinstate these leases, effective June 1, 1990, subject to the terms and conditions cited above.

Dated: October 11, 1990.

Ruth Stockie,

Chief, Branch of Mineral Adjudication.

[A-010-4213-11; AZA-24827]

Arizona Strip District; Realty Action

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Realty Action.

SUMMARY: (1) The following described 10 acres of public land has been determined to be suitable for disposal by sale to Mohave County, Arizona, under provisions of section 203 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1713):

Gila & Salt River Meridian, Mohave County, Arizona

T. 41 N., R. 15 W.,
Sec. 33, NE¼SW¼NE¼, 10 acres.

Disposal of this tract will serve important public objectives that cannot be prudently achieved on other public lands or by maintaining it in public ownership.

(2) Under the provisions of the Recreation and Public Purposes Act, as amended (43 U.S.C. 869) the following described public land is hereby classified as suitable for conveyance or lease:

Gila & Salt River Meridian, Mohave County, Arizona

T. 41 N., R. 15 W.,
Sec. 33, Lots 4 and 5, NW¼SW¼NE¼, S½ SW¼NE¼, SE¼SW¼, NW¼SE¼, N½ SW¼SE¼, SE¼SW¼SE¼, 189.58 acres.

This notice shall segregate the land described in both items (1) and (2) above from appropriation under other public land laws and the mining laws. The segregation of the land for sale in item (1) will terminate upon sale or 270 days after publication of this notice in the Federal Register. The segregation of the land for recreation and public purposes described in item (2) will terminate on lease or sale or in 18 months from publication of this notice in the Federal Register.

For a period of 45 days from the date of publication in the Federal Register interested parties may submit comments to the District Manager, Bureau of Land Management, 390 North 3050 East, St. George, UT 84770. In the absence of any objections the decision to approve this realty action will become the final determination of the Department of the Interior.

Dated: October 11, 1990.

Raymond D. Mapston,

Acting District Manager.

INTERIOR DEPARTMENT

Realty Action; Exchange; California

REALTY ACTION: Exchange of Public Lands; Modoc County, CA.

AGENCY: Bureau of Land Management, Department of Interior.

ACTION: CACA 25721; California Realty Action, exchange of public lands in Modoc County, California.

SUMMARY: The following described public lands have been determined to be suitable for disposal by exchange under section 206 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716).

Mount Diablo Meridian, California

T. 44 N., R. 14 E.
Sec. 31: Lot 4, SE¼SW¼
Sec. 32: N½SW¼, E½SE¼, SE¼SE¼
T. 43 N., R. 14 E.
Sec. 4: Lot 4, SW¼NW¼
Sec. 5: Lot 1, Lot 2, Lot 3, SW¼NE¼, SE¼NW¼
T. 43 N., R. 13 E.
Sec. 12: Lot 4, SE¼SW¼, SW¼SE¼
Sec. 25: NW¼SW¼
Sec. 30: Lot 1, Lot 2, Lot 3, E½NE¼, NW¼NE¼, NE¼NW¼, NE¼SE¼
T. 43 N., R. 12 E.
Sec. 35: NE¼NE¼
T. 42 N., R. 14 E.
Sec. 6: SW¼NE¼, NW¼SE¼
T. 42 N., R. 12 E.
Sec. 31: SE¼NE¼
T. 42 N., R. 9 E.
Sec. 10: NE¼NE¼, NW¼SE¼, S½SE¼
Sec. 12: SE¼NE¼, NE¼SE¼
Sec. 14: S½NW¼, NW¼SW¼
Sec. 15: NE¼, N½SE¼
Sec. 22: SW¼SW¼
Sec. 24: NE¼NW¼
Sec. 26: SW¼SW¼
Sec. 27: SE¼
Sec. 34: N½NE¼
Sec. 35: NW¼NE¼
T. 41 N., R. 11 E.
Sec. 14: NE¼NW¼
Sec. 23: SW¼NW¼
T. 40 N., R. 9 E.
Sec. 32: W½SE¼
T. 40 N., R. 7 E.
Sec. 14: N½SW¼, SE¼SW¼
Sec. 15: E½NE¼, NE¼SE¼
Sec. 23: SW¼NW¼, W½SW¼, SE¼SW¼
Sec. 25: N½NW¼
T. 39 N., R. 9 E.
Sec. 3: Lot 2, S½NE¼
Sec. 4: S½NW¼, W½SE¼
Sec. 8: S½SE¼
Sec. 17: NE¼NW¼
Sec. 21: W½NE¼
T. 39 N., R. 7 E.
Sec. 17: NW¼NW¼
Sec. 18: NE¼NE¼
A total of 3422.34 Acres.

In exchange for these lands, the Federal Government will acquire an interest in tracts of non-federal lands in Modoc County from the Trust for Public Lands, in the form of a mortgage holder's lien/deed of trust and payment of property taxes owed. The lands are described as follows:

Mount Diablo Meridian, California

T.41N., R.14E.
Sec. 8: E½SW¼, SE¼
Sec. 9: S½SW¼
Sec. 16: All
Sec. 17: N½, W½SW¼
Sec. 18: SE¼SE¼
A total of 1400.00 acres.

All mineral rights on the public lands will be exchanged with the surface rights. All mineral rights will also be acquired with the private land.

The purpose of the exchange is to acquire clear title to non-federal lands that provide wetlands and critical deer winter range. These values outweigh the values found on the Federal lands to be exchanged. The exchange will benefit the general public and the local agricultural economy, and provide improved management of Federal and private lands. The exchange is consistent with Bureau planning and has been discussed with Modoc County. The public interest will be served by making this exchange. An environmental assessment will be prepared before any of the above mentioned public lands are exchanged.

The interest in private lands will be acquired in exchange for an equal value of public lands, under the Cooperative Land Exchange Agreement between Bureau of Land Management (BLM) and the Trust for Public Land (TPL) for the State of California, dated February 15, 1990. Under that agreement, the BLM and TPL will "pool" offered private lands and selected public lands throughout California, and convey said lands through exchange between the two parties. Values of the offered private lands and selected public lands conveyed from the pool shall be balanced on a statewide basis at least every two years.

There will be reserved to the United States in the public lands to be exchanged, a right-of-way thereon for ditches and canals constructed by the authority of the United States (Act of August 30, 1890, 43 U.S.C. 945).

Certain parcels of public lands may be patented subject to valid existing rights. The following rights-of-way or reservations are present on the public lands to be exchanged:

T. 44 N., R. 14 E., M.D.M.
Sec. 31: SW¼SW¼; Right-of-way CACA 6761, for a powerline.
Sec. 32: NW¼SW¼; Right-of-way CACA 6761, for powerline guys and anchors.
T. 43 N., R. 13 E., M.D.M.
Sec. 30: SE¼NE¼, NE¼SE¼; Right-of-way S 3084, for an irrigation ditch.
T. 39 N., R. 9 E., M.D.M.
Sec. 17: NE¼NW¼; Reservation to the United States CACA 13827, for a road.
Sec. 21: W½NE¼; Reservation to the United States CACA 13827, for a road.

The publication of this notice in the Federal Register shall segregate the public lands described herein from all other forms of appropriation and entry under the public land laws and the mining laws for a period of two years. The exchange is expected to be completed before the end of that period.

Detailed information concerning the exchange is available for review at the Bureau of Land Management's District Office, 705 Hall Street, Susanville, California 96130, and at the Alturas Resource Area Office, 608 West 12th Street, Alturas, California 96101.

COMMENTS: The publication date of this notice will commence the 45 day comment period. Within that 45 day time period, interested parties may submit comments to the District Manager.

ADDRESSES: Comments should be sent to the Susanville District Manager, Bureau of Land Management, 705 Hall Street, Susanville, California 96130.

Robert J. Sherve,
Acting District Manager.

Resource Management Plan; Green River Resource Area, WY

AGENCY: Bureau of Land Management, Interior.

ACTION: Publication of the proposed planning criteria for the Resource

Management Plan (RMP) for the Green River Resource Area, Rock Springs District, Wyoming.

SUMMARY: Planning criteria are used to guide development of alternatives in the RMP and to ensure that the RMP is tailored to the issues. Planning criteria are generally based upon applicable law such as the Federal Land Management Policy Act (FLPMA) and the National Environmental Policy Act (NEPA).

DATES: December 30, 1990.

ADDRESSES: Copies of the planning criteria are available upon request from the Green River Resource Area Office, P.O. Box 1170, Green River, Wyoming 82902-1170, (307) 362-6422.

FOR FURTHER INFORMATION CONTACT: If you wish to comment on the planning criteria or wish to be placed on the mailing list for the RMP, contact Bill LeBarron, Green River Resource Area Manager, at the above address. Please submit your comments to the above address by December 30, 1990.

SUPPLEMENTARY INFORMATION: Planning criteria are the constraints or ground rules that are developed to guide and direct the resource management plan. The planning criteria serves to:

1. Ensure that the planning effort is focused on the issues, provides for management of all resource uses in the Green River Resource Area, and that plan preparation is accomplished efficiently.

2. Establish a written link between the decision maker, the interdisciplinary planning team, and the public to determine the scope and parameters of the planning effort.

3. Allow the public to know what they should or should not expect from the plan and to identify issues and questions that are not ready for a decision and that will be addressed only through subsequent planning efforts.

4. Incorporate and document legal requirements.

5. Planning criteria are based on standards prescribed by policy, laws and regulations, State Director guidance, public input, results of consultation and coordination with other agencies and governmental entities, analysis of information pertinent to the planning area, and professional judgement.

6. Planning criteria will be developed with public input.

Planning criteria may be modified throughout the planning process, if necessary, based upon public comments and additional resource information.

Dated: October 17, 1990.

F. William Eikenberry,

Associate State Director, Wyoming.

Colorado: Filing of Plats of Survey

October 16, 1990.

The plats of survey of the following described land, will be officially filed in the Colorado State Office, Bureau of Land Management, Lakewood, Colorado, effective 10 a.m., October 18, 1990.

The plat representing the dependent resurvey of portions of the south and east boundaries and the subdivisional lines and the subdivision of certain sections, T. 35 N., R. 19 W., New Mexico Principal Meridian, Colorado, Group No. 735, was accepted October 16, 1990.

This survey was executed to meet certain administrative needs of the Bureau of Indian Affairs.

The plat representing the dependent resurvey of portions of the Second Standard Parallel South (south boundary), the Eleventh Guide Meridian West (west boundary), and the subdivisional lines, and the subdivision of certain sections, T. 10 S., R. 88 W., Sixth Principal Meridian, Colorado, Group No. 832, was accepted October 9, 1990.

This survey was executed to meet certain administrative needs of the U.S. Forest Service.

The plat representing the dependent resurvey of portions of the Tenth Guide Meridian West (west boundary) and subdivisional lines, and the subdivision of certain sections, T. 1 N., R. 81 W., Sixth Principal Meridian, Colorado, Group No. 877, was accepted October 11, 1990.

The plat representing the dependent resurvey of portions of the New Mexico Principal Meridian (Townships 32 and 33 North), the Eighth Standard Parallel North (south boundary, T. 33 N., R. 1 E.), and the subdivisional lines and the subdivision of certain sections, Fractional T. 32 N., R. 1 E., New Mexico Principal Meridian, Colorado, Group No. 929, was accepted October 16, 1990.

These surveys were executed to meet certain administrative needs of this Bureau.

All inquiries about this land should be sent to the Colorado State Office, Bureau of Land Management, 2850 Youngfield Street, Lakewood, Colorado, 80215.

Jack A. Eaves,

Chief, Cadastral Surveyor for Colorado.

BILLING CODE 4310-JB-M

Fish and Wildlife Service

Availability of Draft Recovery Plans for Spikedace and Loach Minnow for Review and Comment

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability and public comment period.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces the availability for public review of draft recovery plans for the spikedace (*Meda fulgida*) and the loach minnow (*Tiaroga cobitis*). These two threatened fish occur in portions of the Gila, Tularosa, San Francisco, Blue, White, and Verde Rivers and Eagle, Aravaipa, Dry Blue, and Campbell Blue Creeks on Federal, state, and private lands in Grant and Catron Counties, New Mexico; and Gila, Greenlee, Graham, Pinal, Navajo, and Yavapai Counties, Arizona. The Service solicits review and comment from the public on these draft plans.

DATES: Comments on the draft recovery plans must be received on or before November 26, 1990, to receive consideration by the Service.

ADDRESSES: Persons wishing to review either or both of the draft recovery plans may obtain a copy by contacting the U.S. Fish and Wildlife Service, 3616 West Thomas Road, suite 6, Phoenix, Arizona 85019. Written comments and materials regarding the plans should be addressed to the Field Supervisor at the above address. Comments and materials received are available on request for pulic inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Sally Stefferud, Fish and Wildlife Biologist; telephone (602) 379-4720, FTS 261-4720 (see ADDRESSES).

SUPPLEMENTARY INFORMATION:

Background

Restoring endangered or threatened animals or plants to the point where they are again secure, self-sustaining members of their ecosystems is a primary goal of the U.S. Fish and Wildlife Service's endangered species program. To help guide the recovery effort, the Service is working to prepare recovery plans for most of the listed

BEST COPY AVAILABLE

species native to the United States. Recovery plans describe actions considered necessary for conservation of the species, establish criteria for the recovery levels for downlisting or delisting them, and estimate time and cost for implementing the recovery measures needed.

The Endangered Species Act of 1973 (Act), as amended (16 U.S.C. 1413 *et seq.*), requires the development of recovery plans for listed species unless than a plan would not promote the conservation of a particular species. Section 4(f) of the Act, as amended in 1988, requires that public notice and an opportunity for public review and comment be provided during recovery plan development. The Service will consider all information presented during a public comment period prior to approval of each new or revised recovery plan. The Service and other Federal agencies will also take these comments into account in the course of implementing approved recovery plans.

The Loach minnow is a threatened fish that has been extirpated from most of its historic range in the Gila River basin of New Mexico, Arizona, and Sonora, Mexico. It is presently found only in the upper Gila, San Francisco, and Tularosa Rivers in Grant and Catron Counties, New Mexico; and in the White, San Francisco, and Blue Rivers, and Aravaipa, Dry Blue, and Campbell Blue Creeks in Gila, Greenlee, Graham, Navajo, and Pinal Counties, Arizona. The loach minnow is a bottom dwelling species that inhabits turbulent waters over gravel/cobble bottoms in fast-flowing streams.

The spikedace is a threatened fish that has also been extirpated from most of its historic range in the Gila River basin of Arizona and New Mexico. It is presently found only in the upper Gila River in Grant and Catron Counties, New Mexico; and in the upper Verde River, and Aravaipa and Eagle Creeks in Graham, Greenlee, Pinal, and Yavapai Counties, Arizona. The spikedace inhabits riffles and runs in shallow, flowing waters over gravel, cobble, and sand bottoms. The primary habitat for adults consists of shear zones where fast water meets slow water.

All existing populations of both spikedace and loach minnow are under threat. Major threats include dams, water diversion, watershed deterioration, channelization, and introduction of non-native predatory and competitive fishes. The objective of both recovery plans is to set forth measures that will provide for protection of existing loach minnow and spikedace populations, restoration of populations in portions of historic habitat, and eventual downlisting, if possible. Mechanisms are set forth in each plan for defining the standard by which recovery progress to downlisting will be judged. Actions called for in the plans include protection, monitoring, enhancement, and study of existing populations and their habitat; study of interactions with non-native fishes; quantification of effects of habitat modification; reintroduction into portions of the historic range; possible captive propagation; and information and education.

Both the loach minnow and spikedace recovery plans have already undergone extensive review by Federal, state, and local agencies; species experts; business organizations; conservation organizations; and other interested parties. The plans will be issued as final following incorporation of comments and material received during this comment period.

Public Comments Solicited

The Service solicits written comments on the recovery plans described. All comments received by the date specified above will be considered prior to approval of the plans.

Authority

The Authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: October 16, 1990.

Pat A. Langley,

Acting Regional Director.

[FR Doc. 90-25249 Filed 10-24-90; 8:45 am]

BILLING CODE 4310-55-M

Minerals Management Service

[MMS Account No. 0-01-5300-415]

Environmental Documents Prepared for Proposed Oil and Gas Operations on the Alaska Outer Continental Shelf

AGENCY: Minerals Management Service (MMS), Department of the Interior.

ACTION: Notice of the availability of environmental documents prepared for outer continental shelf (OCS) minerals exploration proposals on the Alaska OCS.

SUMMARY: The MMS, in accordance with Federal regulations (40 CFR 1501.4 and 40 CFR 506.6) that implement the National Environmental Policy Act (NEPA), announces the availability of NEPA-related Environmental Assessments (EA's) and Findings of No Significant Impact (FONSI's) prepared by the MMS for oil and gas exploration activities proposed on the Alaska OCS. This listing includes all proposals for which FONSI's were prepared by the Alaska OCS in the 3-month period preceding this Notice.

Proposal

Shell Western E&P Inc. proposes to permanently abandon and dismantle Tern "A" Artificial Island. The island is located on Sale BF lease OCS–Y 0196 in the Beaufort Sea, which is in Foggy Island Bay about 20 miles east of Prudhoe Bay. It is a gravel island that is protected by gravel bags and filter fabric. The abandonment plan involves proper abandonment of wells and the recovery from the island of all surface hardware from wells and slope protection gravel bags and filter fabric to the mudline. The material will be removed from the island and disposed of at an approved solid-waste disposal site. Sizeable holes will be filled and small hummocks will be created in the gravel surface to provide an improved habitat for bird nesting. Wells to be abandoned explored leases OCS–Y 0195, 0196, and 0197. The abandonment operation will be conducted with heavy equipment between mid-July and early September 1990.

Location

Lease numbers	Block numbers
OCS–Y:	
0195	744
0196	745
0197	788

EA Number

EA No. AK 90–03.

FONSI Date

July 11, 1990.

Proposal

Chevron, as operator for itself and CONOCO Inc., proposes to drill one or two wells per year, a maximum of three wells, to explore three leases collectively called the Canvasback Prospect. The leases, acquired from Lease Sale 87, are located in the western Beaufort Sea about 50 miles east of Point Barrow in 118 to 210 feet of water. As part of the Exploration Plan (EP), Chevron is requesting an exception to Sale 87 Stipulation No. 4 to conduct drilling operations during the fall bowhead whale migration. Stipulation No. 4 prohibits exploratory drilling, testing, and other downhole exploratory activities during the spring and fall bowhead whale migrations. The wells will be drilled during the open-water season, as early as June 16 through

November, from the BeauDril Limited *Kulluk*, a conically shaped, ice-strengthened semisubmersible. Drilling would occur 1991 through 1993.

Location

OCS-Y:	
0729	NR 5-1 516
0732	562
0733	563

EA Number

EA No. AK 90-04.

FONSI Date

August 20, 1990.

Proposal

Chevron, as operator for itself and others, proposes to drill one or two wells per year to explore the West Maktar prospect: five leases acquired from Lease Sales 87 and 97. Leases are located in the eastern Alaskan Beaufort Sea off Camden Bay, in approximately 108 feet of water. As part of the EP, Chevron is requesting an exception to Sale 87 Stipulation No. 4 to conduct drilling operations during the fall bowhead whale migration. Stipulation No. 4 prohibits exploratory drilling, testing, and other downhole exploratory activities during the spring and fall bowhead whale migrations. The wells will be drilled during the open-water season, generally August through November, from the BeauDril Limited *Kulluk*, a conically shaped ice-strengthened semisubmersible, beginning as early as 1991 and ending in 1993.

0666	673
0667	674
0677	718
1102	717

EA Number

EA No. AK 90-05.

FONSI Date

August 28, 1990.

FOR FURTHER INFORMATION: Persons interested in reviewing environmental documents for the proposals listed above or obtaining information about EA's and FONSI's prepared for activities on the Alaska OCS are encouraged to contact the Alaska OCS Regional office of MMS.

The FONSI's and associated EA's are available for public inspection between the hours of 7:45 a.m. and 4:30 p.m., Monday through Friday at: Minerals Management Service, Alaska OCS Region, Library, 949 East 36th Avenue, Room 502, Anchorage, Alaska 99508-4302, phone: (907) 261-4435.

SUPPLEMENTAL INFORMATION: The MMS prepares EA's and FONSI's for proposals which relate to exploration for oil and gas resources on the Alaska OCS. The EA's examine the potential environmental effects of activities described in the proposals and present MMS conclusions regarding the significance of those effects. The EA is used as a basis for determining whether or not approval of the proposals constitutes major Federal actions that significantly affect the quality of the human environment in the sense of NEPA 102(2)(C). A FONSI is prepared in those instances where MMS finds that approval will not result in significant effects on the quality of the human environment. The FONSI briefly presents the basis for that finding and includes a summary or copy of the EA.

This Notice constitutes the public Notice of Availability of environmental documents required under the NEPA regulations.

Dated: October 11, 1990.

Alan D. Powers,

Regional Director, Alaska OCS Region.

BILLING CODE 4310-MR-M

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Overseas Private Investment Corporation

Public Hearing

AGENCY: Overseas Private Investment Corporation, IDCA.

ACTION: Notice of public hearing.

SUMMARY: This notice sets forth the schedule and requirements for participation in an annual public hearing to be conducted by the Board of Directors of the Overseas Private Investment Corporation (OPIC) on November 27, 1990. This hearing is required by the OPIC Amendments Act of 1985, and this notice is being published to facilitate public participation. The notice also describes OPIC and the subject matter of the hearing.

DATES: The hearing will be held on November 27, 1990, and will begin promptly at 1:30 p.m. Prospective participants must submit to OPIC on or before November 8, 1990, notice of their intent to participate.

ADDRESSES: The location of the hearing will be: Overseas Private Investment Corporation, 1615 M Street, NW., Fourth Floor, Washington, DC.

Notices and prepared statements should be sent to James R. Offutt, Office of the General Counsel, Overseas Private Investment Corporation, 1615 M Street, NW., Washington, DC. 20527.

PROCEDURE: (a) *Attendance; Participation.* The hearing will be open to the public. However, a person wishing to present his or her views at the hearing must provide OPIC with advance notice on or before November 9, 1990. The notice must include the name, address and telephone number of the person who will make the presentation, the name and address of the organization which the person represents (if any) and a concise summary of the subject matter of the presentation.

(b) *Prepared Statements.* Any participant wishing to submit a prepared statement for the record must submit it to OPIC with the notice or, in any event, not later than 5 p.m. on November 16, 1990. Prepared statements must be typewritten, double spaced and should not exceed twenty-five (25) pages.

(c) *Duration of Presentations.* Oral presentations will in no event exceed ten (10) minutes, and the time for individual presentations may be reduced proportionately, if necessary, to afford all prospective participants on a particular subject an opportunity to be heard or to permit all subjects to be covered.

(d) *Agenda.* Upon receipt of the required notices, OPIC will draw up an agenda for the hearing setting forth the subjects on which each participant will speak and the time allotted for each presentation. OPIC will provide each prospective participant with a copy of the agenda.

(e) *Publication of Proceedings.* A verbatim transcript of the hearing will be compiled and published. The transcript will be available to members of the public at the cost of reproduction.

SUPPLEMENTARY INFORMATION: OPIC is a U.S. Government agency which provides, on a commercial basis, political risk insurance and financing in friendly developing countries and emerging democracies for projects which confer positive developmental benefits upon the project country while

avoiding negative effects on the U.S. economy and the environment of the host country. OPIC's Board of Directors is required by section 233A(b) of the Foreign Assistance Act of 1961, as amended ("the Act") to hold at least one public hearing each year.

Among other issues, OPIC's annual public hearing has, in previous years, provided a forum for testimony concerning Section 231A(a) of the Act. This section provides that OPIC may operate its programs only in those countries that are determined to be "taking steps to adopt and implement laws that extend internationally recognized worker rights to workers in that country (including any designated zone in that country)."

Based on consultations with Congress, OPIC complies with annual determinations made by the Executive Branch with respect to worker rights for countries that are eligible for the Generalized System of Preferences (GSP). Any country for which GSP eligibility is revoked on account of its failure to take steps to adopt and implement internationally recognized worker rights is subject concurrently to the suspension of OPIC programs until such time as a favorable worker rights determination can be made.

For non-GSP countries in which OPIC operates its programs, OPIC has agreed to provide a worker rights report to the Congress for any country which is the subject of a formal challenge at its annual public hearing. To qualify as a formal challenge, testimony must pertain directly to the worker rights requirements of the law as defined in OPIC's 1985 reauthorizing legislation (Pub. L. 99-204) with reference to the Trade Act of 1974, as amended, and be supported by factual information.

FOR FURTHER INFORMATION ABOUT THE PUBLIC HEARING CONTACT: James R. Offutt, Office of General Counsel, Overseas Private Investment Corporation, 1615 M Street, NW., Washington, DC. 20527 (202) 457-7038.

October 18, 1990.

Dennis K. Dolan,

Corporate Secretary.

BILLING CODE 3210-01-M

INTERSTATE COMMERCE COMMISSION

[Finance Docket No. 31745]

The Indiana & Ohio Central Railroad, Inc.; Modified Rail Certificate

On September 25, 1990, the Indiana & Ohio Central Railroad, Inc. (IOC), filed a notice for a modified certificate of public convenience and necessity under 49 CFR 1150.23 to operate approximately 8.73 miles of railroad acquired by the Clark County-Fayette County Port Authority (CFPA).[1] The line has been owned and operated by The Grand Trunk Western Railroad Company (GTW) as is known as the Springfield Subdivision. Abandonment of the line was authorized by the Commission in Docket No. AB-31 (Sub-No. 29), *The Grand Trunk Western Railroad Company—Abandonment—In Clark, Madison and Fayette Counties, OH* (not printed), served March 7, 1990.[2]

On September 4, 1990, IOC entered into a 100-year renewable lease with CFPA under which IOC would begin to operate and maintain the line within 24 hours of the date CFPA acquires the property. IOC intends to interchange and connect traffic with CSX Transportation, Inc., at an interchange point with the latter's line near Washington, Court House, at Fayne.

This notice involves the lease of property, which is defined by the regulations of the Advisory Council on Historic Preservation as potentially having an adverse effect on properties. IOC shall maintain its interest in and take no steps to alter the historic integrity of all sites and structures on the line that are 50 years old or older until completion of the section 106 process of the National Historic Preservation Act, 16 U.S.C. 470.

This notice must be served on the Association of American Railroads (Car Service Division) as agent of all railroad subscribing to the car-service and car-hire agreement, and on the American Short Line Railroad Association.

Dated: October 18, 1990.

By the Commission, David M. Konschnik, Director, Office of Proceedings.

Sidney L. Strickland, Jr.,

Secretary.

[FR Doc. 90-25202 Filed 10-24-90; 8:45 am]

BILLING CODE 7035-01-M

[Finance Docket No. 31749]

Trac-Work, Inc.; Continuance in Control Exemption; Ogeechee Railway Company and Acadiana Railway Co.

Trac-Work, Inc., (TWI), filed a notice of exemption to continue to control Ogeechee Railway Company (Ogeechee), an existing class III rail carrier, and Acadiana Railway Company (Acadiana) upon Acadiana becoming a carrier. Prior to filing the notice TWI was in control of Ogeechee and Acadiana through direct or indirect stock ownership.

In Finance Docket No. 31570, *Ogeechee Railway Company—Purchase and Trackage Rights—Missouri Pacific Railroad Company Lines in Louisiana* (not printed), served August 2, 1990,[1] (*MP and SP*) the Commission approved the purchase and acquisition by Ogeechee of certain assets including rail lines and trackage rights. Acadiana has not previously been a carrier, but under a notice of exemption in Finance Docket No. 31753, *Acadiana Railway Company—Acquistion and Operation Exemption—Ogeechee Railway Company*, Ogeechee was to transfer a substantial portion of the rail assets involved in *MP and SP* to Acadiana. None of the Assets involved in *MP and SP* will be retained by Ogeechee.

A reallocation of ownership interests with respect to Acadiana and Ogeechee was intended to occur at the same time as the transfer to Acadiana. After this reallocation, TWI would own, directly and indirectly, at least two-thirds of the stock of Ogeechee and of Acadiana. Thus the two railroads remain members of the same corporate family.

This transaction involves the acquisition or continuance in control of nonconnecting carriers where: (1) The railroads would not connect with each other or any railroads in their corporate family; (2) the acquisition or continuance in control is not a part of a series of anticipated transactions that would connect the railroads with each other or any railroad in their corporate family; and (3) the transaction does not involve a Class I carrier. The transaction therefore is exempt from the prior

---

[1] CFPA is a political subdivision of the State of Ohio and, thus, qualifies as a "State" as defined at 49 CFR 1150.21.

CFPA is acquiring the line in two stages: (1) The 8.73-mile segment between milepost 221.1, near Jeffersonville, OH, and milepost 228.83, at Fayne, OH, was to have been acquired on October 5, 1990, and operations were to have commenced on October 8, 1990; and (2) the balance of the line, from milepost 202.70, at Springfield, OH, to milepost 221.1, near Jeffersonville, OH, a distance of approximately 18.4 miles, is to be acquired on December 31, 1990, with operations scheduled to commence on January 1, 1991. IOC may not begin operations on the second segment until CFPA's acquisition of that segment has been consummated.

[2] After an unsuccessful attempt by CFPA and GTW to transfer the line through an offer of financial assistance (OFA), GTW and CFPA continued to negotiate and reached an agreement for the purchase of the subject line outside the OFA process.

[1] Embracing Finance Docket No. 31571, Ogeechee Railway Company—Purchase—Southern Pacific Transportation Company Line near Opelousas, LA.

approval requirements of 49 U.S.C. 11343. *See* 49 CFR 1180.2(d)(2).

As a condition to use of this exemption, any employees affected by the transaction will be protected by the conditions set forth in *New York Dock Ry.—Control—Brooklyn Eastern Dist.*, 360 I.C.C. 60 (1979).

Petitions to revoke the exemption under 49 U.S.C. 10505 (d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction. Any pleadings must be filed with the Commission and served on John M. Robinson, 9618 Old Spring Road, Kensington, MD 20895.

Decided: October 17, 1990.

By the Commission, David M. Konschnik, Director, Office of Proceedings.

Sidney L. Strickland, Jr.,

Secretary.

BILLING CODE 7035-01-M

DEPARTMENT OF JUSTICE

Lodging of Consent Decree

In accordance with the policy of the Department of Justice, 28 CFR 50.7, notice is hereby given that a complaint styled *United States* v. *Bell Petroleum Services, Inc., et al.*, Civil Action No. MO-88-CA-005, was filed in the United States District Court for the Western District of Texas on December 1, 1988. On October 18, 1990, a consent decree between the United States as plaintiff, and John R. Leigh as defendant was lodged with the court in partial settlement of the allegations in the complaint. This consent decree settles the government's claims in the complaint against John R. Leigh, pursuant to sections 104, 106 and 107 of CERCLA, 42 U.S.C. 9604, 9606, 9607, for injunctive relief to abate an imminent and substantial endangerment to the public health, welfare or the environment because of actual or threatened release of hazardous substances from a facility, and for the recovery of response costs incurred by the United States with respect to a facility located in Odessa, Ector County, Texas, known as the "Odessa Chromium I Site" (hereafter "the Site"). The complaint alleged, among other things, that the defendant is a person who at the time of disposal of any hazardous substance owned and operated any facility at which such hazardous substances were disposed of. The complaint further alleged that the United States has incurred and will continue to incur response costs in response to the release or threat of release of hazardous substances.

Under the terms of the proposed consent decree, the defendant John R. Leigh agrees to pay to the United States the sum of one hundred thousand dollars ($100,000.00) for the United States' response costs. The United States will continue to seek the remainder of its response costs from defendants named in the complaint who are not parties to the consent decree.

The Department of Justice will received comments relating to the proposed consent decree for a period of 30 days from the date of this publication. Comments should be addressed to the Assistant Attorney General of the Land and Natural Resources Division, Department of Justice, 10th and Pennsylvania Avenue, NW., Washington, DC 20530. All comments should refer to *United States* v. *Bell Petroleum Services, Inc.*, D.J. Ref. 90-11-3-229A. The proposed consent decree may be examined at the following offices of the United States Attorney and the Environmental Protection Agency ("EPA"):

United States Attorney's Office

Office of the United States Attorney, U.S. Courthouse, 200 East Wall Street, room 304 Midland, Texas 79701, (915) 684-4120

EPA Region VI

Contact: Bruce Jones, Office of Regional Counsel U.S. Environmental Protection Agency, Region VI, 1445 Ross Avenue, Dallas, Texas 75202-2733, (214) 655-2120.

Copies of the proposed consent decree may also be examined at the Environmental Enforcement Section Document Center, 1333 F. Street, NW., Washington, DC 20004, (202) 347-7829. A copy of the proposed consent decree may be obtained by mail from the Document Center. When requesting a copy of the decree, please enclose a check for copying costs in the amount of $3.75 payable to "Consent Decree Library."

George Van Cleave,

Environment and Natural Resources Division.

BILLING CODE 4410-01-M

Consent Judgment in Action Pursuant to the Resource Conservation and Recovery Act

In accordance with Departmental Policy, (*see generally* 28 CFR 50.7, 38 FR 19029), notice is hereby given that a Consent Decree settling the claims alleged in the complaint in *United States* v. *General Electric Company*, Civ. Action No. 88-CV-948 (Hon. J. Cholakis), an action filed against the General Electric Company in 1988 pursuant to the Resource Conservation and Recovery Act was lodged with the United States District court for the Northern District of New York on October 11, 1990.

The complaint was filed on July 28, 1988 under section 3008 (a) and (g) of the Resource Conservation and Recovery Act ("RCRA"), 42 U.S.C. 6928 (a) and (g), seeking injunctive relief and payment of civil penalties for alleged violations of RCRA Subchapter III, 42 U.S.C. 6921-6939a, and implementing regulations at GE's silicone production facility in Waterford, New York.

Pursuant to the terms of the Consent Decree, GE will construct a container/drum storage pad with a protective roof, implement additional procedures for the management of its container/drum storage pad, and provide personnel training in the application and implementation of the procedures. GE will also pay a civil penalty in the amount of $176,000.

The Department of Justice will receive for thirty (30) days from the date of publication of this notice, written comments relating to the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, Department of Justice, Washington, DC 20530 and should refer to DOJ #90-7-1-327.

The Consent Decree may be examined at the Office of the United States Attorney, 369 Federal Building, 100 South Clinton St., Syracuse, New York, 13260 and U.S. Courthouse & Post Office, 2nd Floor, Region II Office of the Environmental Protection Agency, Federal Plaza, New York, New York, 10278; and the Environmental Enforcement Section, Environment and Natural Resources Division of the Department of Justice, room 1515, Ninth Street and Pennsylvania Avenue, NW., Washington, DC 20530. A copy of the Consent Decree may be obtained in person or by mail from the Environmental Enforcement Section Document Center, 1333 F Street, NW., suite 600, Washington, DC 20004, Telephone Number (202) 347-2072. In requesting a copy, please enclose a check in the amount of $9.75 (25 cents per page reproduction charge) payable to Consent Decree Library.

Richard B. Stewart,

Assistant Attorney General, Environment and Natural Resources Division.

BILLING CODE 4410-01-M

Antitrust Division

Notice Pursuant to the National Cooperative Research Act of 1984—Fuel Cell Commercialization Group

Notice is hereby given that, on September 21, 1990, pursuant to section 6(a) of the National Cooperative Research Act of 1984, 15 U.S.C. 4301 *et seq.* ("the Act"), the Fuel Cell Commercialization Group ("FCCG") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties to FCCG and (2) the FCCG's nature and objectives. The notifications were filed for the purpose of invoking the Act's provisions limiting the potential recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to section 6(b) of the Act, the identities of the parties to FCCG and its general area of planned activities are given below.

The current members to the FCCG are: Alabama Municipal Electric Authority; City of Anaheim; Lincoln Electric System; Los Angeles Department of Water & Power; National Rural Electric Cooperative Association; Pacific Gas & Electric Company; City of Palo Alto; Salt River Project Agricultural Improvement and Power District; City of Santa Clara; and United Power Association.

Membership to the FCCG remains open, and the members intend to file additional written notifications disclosing all changes in membership.

The FCCG's planned area of activity is research and development related to technology for the production of electrical energy by molten carbonate fuel cells.

Joseph H. Widmar,

Director of Operations, Antitrust Division.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Arts in Education Advisory Panel; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Arts In Education Advisory Panel (Advancement Section) to the National Council on the Arts will held on November 16, 1990 from 9 a.m.–4 p.m. in room 716 of the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

This meeting is for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the Agency by grant applicants. In accordance with the determination of the Chairman of October 19, 1990 these sessions will be closed to the public pursuant to subsections (c) (4), (6) and (9) (B) of section 552b of title 5, United States Code.

Further information with reference to this meeting can be obtained from Ms. Yvonne M. Sabine, Advisory Committee Management Officer, National Endowment for the Arts, Washington, DC 20506, or call (202) 682-5433.

Dated: October 19, 1990.

Yvonne M. Sabine,

Director, Council and Panel Operations, National Endowment for the Arts.

BILLING CODE 7537-01-M

Arts National Council; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the National Council on the Arts will be held on November 2, 1990, from 9 a.m.–5:30 p.m. and on November 3 from 9 a.m.–5:45 p.m. in room M-09 at the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

This meeting will be open to the public on a space available basis. The topics for discussion will be on Opening Remarks, Legislative Update, Discussion of Recommendations of Independent Commission, Institutional Grants: Project Support vs. Seasonal Support, Fellowships: Career Development vs. Project Support, Report of the International Committee, Regional Representative Report, and Application Review and/or Guidelines and/or Program Review for the Arts in Education: Special Projects; Challenge/Advancement; Dance; Design Arts; Inter-Arts; Literature; Media Arts; Museum; Music: Presenters and Festivals; Opera-Musical Theater; Policy, Planning and Research; Theater and Visual Arts Programs.

If in the course of application review it becomes necessary for the Council to discuss non-public financial information about individuals, such as salary information, submitted with grant applications, the Council will go into closed session for that limited purpose only pursuant to subsection (c)(4) of section 552b of title 5, United States Code. Such closure would be in accordance with the determination of the Chairman of October 19, 1990.

Any interested persons may attend, as observers, Council discussions and reviews which are open to the public.

If you need special accommodation due to a disability, please contact the Office of Special Constituencies, National Endowment for the Arts, 1100 Pennsylvania Avenue, NW., Washington, DC 20506, 202/682-5532, TTY 202/682-5496, at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from Ms. Yvonne M. Sabine, Advisory Committee Management Officer, National Endowment for the Arts, Washington, DC 20506, or call (202) 682-5433.

Dated: October 19, 1990.

President's Committee on the Arts and the Humanities; Meeting

Wednesday, November 14 at nine o'clock in the morning has been designated by the President's Committee on the Arts and the Humanities for Meeting XXI. This meeting will be held in the Council Room (M–09), Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., in Washington, DC. This is a regularly scheduled meeting at which the Honorable Nicholas F. Brady, Secretary of the Treasury, will address the Committee. In addition, presentations will be made on priorities for private support in the humanities by Lynne Cheney, Chairman of the National Endowment for the Humanities and in the arts by John Frohnmayer, Chairman of the National Endowment for the Arts. The plenary session is expected to adjourn at 10:30 a.m.

The Committee, charged with exploring ways to increase private support for the arts and the humanities, has generated private funds which support projects and programs initiated by the President's Committee.

Please call 202–682–5409 or 212–512–5957 if you expect to attend, as space is limited.

Dated: October 22, 1990.

Yvonne M. Sabine,

Director, Council & Panel Operations, National Endowment for the Arts.

BILLING CODE 7537–01–M

Theater Advisory Council; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), as amended, notice is hereby given that a meeting of the Theater Advisory Panel (Advancement Section) to the National Council on the Arts will be held on November 7, 1990 from 9:30 a.m.–6 p.m. in room 714 at the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

Portions of this meeting will be open to the public from 9:30 a.m.–10 a.m. and 5:30 p.m.–6 p.m. The topics will be introductory remarks and guidelines discussion.

The remaining portion of this meeting from 10 a.m.–5:30 p.m. is for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman of October 19, 1990 these sessions will be closed to the public pursuant to subsection (c) (4), (6) and (9)(B) of section 552b of title 5, United States Code.

Any interested persons may attend, as observers, meetings, or portions thereof, of advisory panels which are open to the public.

Members of the public attending an open session of a meeting will be permitted to participate in the panel's discussions at the discretion of the chairman of the panel if the chairman is a full-time Federal employee. If the chairman is not a full-time Federal employee, then public participation will be permitted at the chairman's discretion with the approval of the full-time Federal employee in attendance at the meeting, in compliance with this guidance.

If you need special accommodations due to a disability, please contact the Office of Special Constituencies, National Endowment for the Arts, 1100 Pennsylvania Avenue, NW., Washington, DC 20506, 202/682–5532, TTY 202/682–5496, at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from Ms. Yvonne M. Sabine, Advisory Committee Management Officer, National Endowment for the Arts, Washington, DC 20506, or call (202) 682–5433.

Dated: October 19, 1990.

Yvonne M. Sabine,

Director, Council and Panel Operations, National Endowment for the Arts.

NATIONAL SCIENCE FOUNDATION

Information, Robotic, and Intelligent Systems Advisory Committee Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92–463 as amended, the National Science Foundation announces the following meeting.

Name: Advisory Committee for Information, Robotics, and Intelligent Systems.

Date and Time: November 13–14, 1990, 8:30 to 5:30 daily.

Place: Hotel Lombardy, 2109 I Street, NW., International room, Washington, DC 20006.

Type of Meeting: All open.

Contact Person: Dr. Y. T. Chien, Division Director, Division of Information, Robotics, and Intelligent Systems, room 310, National Science Foundation, 1800 G Street, NW., Washington, DC 20550. Telephone: (202) 357–9572. Anyone planning to attend this meeting should notify Dr. Chien no later than November 5, 1990.

Minutes: May be obtained from contact person listed above.

Purpose of Committee: To provide advice and recommendations concerning support of research in Information, Robotics, and Intelligent Systems.

Agenda: November 13—Overview of the Division and Programs; Discussion of new NSF and CISE Programs; Presentation and discussion of IRIS workshop reports.

November 14—Discussion of strategic issues and divisional initiatives; Committee Business.

Dated: October 22, 1990

[FR Doc. 90–25250 Filed 10–24–90; 8:45 am]

BILLING CODE 7555–01–M

Law and Social Science Advisory Panel Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, as amended, the National Science Foundation announces the following meeting:

Name: Advisory Panel for Law and Social Science.

Date/Time: November 16, 1990, 3 p.m. to 8 p.m. November 17, 1990, 9 a.m. to 5 p.m. November 18, 1990, 9 a.m. to 12 p.m.

Place: The Inn at Foggy Bottom, 824 New Hampshire Avenue, NW., Washington, DC 20037.

Type of Meeting: Part Open—November 16, 1990, 5—6 p.m. Closed Remainder.

Contact Person: Dr. Felice J. Levine, Program Director for Law and Social Science, National Science Foundation, Washington, DC 20550 Telephone (202) 357–9567.

Purpose of Panel: To provide advice and recommendations concerning research in Law and Social Science.

Agenda: To review and evaluate research proposals as part of the selection process for awards. (Closed) (Open) Discussion of future trends in Law & Social Sciences.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

Dated: October 22, 1990.

M. Rebecca Winkler,

Committee Management Officer.

BILLING CODE 7555–01–M

Special Emphasis Panels; Meetings

SUMMARY: In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting(s) to be held at 1800 G. Street, NW., Washington, DC 20550 (except where otherwise indicated).

SUPPLEMENTARY INFORMATION: The purpose of the meetings is to provide advice and recommendations to the National Science Foundation concerning the support of research, engineering, and science education. The agenda is to review and evaluate proposals as part of the selection process for awards. The entire meeting is closed to the public because the panels are reviewing proposals that include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), the Government in the Sunshine Act.

CONTACT PERSON: M. Rebecca Winkler, Committee Management Officer, room 208, 357–7363.

Dated: October 22, 1990.

M. Rebecca Winkler,

Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

Abnormal Occurrences for Second Quarter CY 1990; Dissemination of Information

Section 208 of the Energy Reorganization Act of 1974, as amended, requires the NRC to disseminate information on abnormal occurrences (i.e., unscheduled incidents or events that the Commission determines are significant from the standpoint of public health and safety). The following incidents at NRC licenses were determined to be abnormal occurrences (AOs) using the criteria published in the Federal Register on February 24, 1977 (42 FR 10950). The AOs are described below, together with the remedial actions taken. The events are also being included in NUREG–0090, Vol 13, No. 2 ("Report to Congress on Abnormal Occurrences: April–June 1990"). This report will be available in the NRC's Public Document Room, 2120 L Street, NW. (Lower Level), Washington, DC about three weeks after the publication date of this Federal Register Notice.

Other NRC licensees

90–11 Deficiencies in Brachytherapy Program

One of the AO examples notes that an event involving serious deficiences in management controls can be considered an Abnormal Occurrence.

Date and Place—On March 28, 1990, NRC Region III received allegations

pertaining to brachytherapy treatments at the St. Mary Medical Center facilities in Gary and Hobart, Indiana. The NRC also conducted a special inspection at Porter Memorial Hospital, Valparaiso, Indiana. Although the original allegations did not include Porter Memorial Hospital, the NRC inspection was made because brachytherapy procedures at Porter Memorial Hospital were performed by the same physician as those at the St. Mary facilities. Following the NRC inspections at the facilities, Orders suspending the brachytherapy procedures were issued by the NRC staff to the three hospitals. The Order to the St. Mary Medical Center facilities was issued on April 27, 1990. The Order to Porter Memorial Hospital was issued on May 2, 1990.

Nature and Probable Consequences—On March 28, 1990, NRC Region III (Chicago) received allegations pertaining to brachytherapy treatments performed by one of the authorized users at St. Mary Medical Center in Gary and Hobart, Indiana. The alleger contended that the authorized user did not evaluate patients' treatment plans prior to treatment and that the patients therefore did not receive the prescribed dose of radiation during the procedure.

Brachytherapy involves the use of small sealed capsules containing readioactive material. These capsules, which are used in the treatment of cancer, are either surgically implanted, placed in body cavities, or applied to the skin.

Assisted by a medical consultant, the NRC conducted a preliminary inquiry into the allegations on March 30–April 19, 1990. This inspection substantiated some of the allegations, and the NRC concluded that the two St. Mary facilities were not exercising adequate management control to assure that NRC requirements were met.

Because the same authorized user performed brachytherapy treatments at Porter Memorial Hospital, the NRC performed a special inspection April 5–April 27, 1990, at this facility. The inspection determined that adequate records had not been maintained at the hospital to evaluate whether or not the brachytherapy procedures had been administered as prescribed and planned.

On April 27, 1990, the NRC Staff issued an Order to the two St. Mary Medical Center facilities suspending brachytherapy activities. The Order also directed the medical facilities to perform an independent evaluation of brachytherapy procedures performed since the brachytherapy program was started in May 1988. On May 2, 1990, the NRC Staff issued a Confirmatory Order to Porter Memorial Hospital confirming the licensee's agreement to suspend its brachytherapy program and to require an independent evaluation of previous brachytherapy procedures.

Planning for these two independent evaluation programs is underway. One of the goals of the programs is to determine if any patients received radiation exposures different from those that were prescribed.

The NRC special inspection at the St. Mary facilities identified several instance where the actual therapy radiation dose may have varied from the prescribed dose by more than 10 percent. The NRC requires that a therapy radiation dose that varies from the prescribed dose by more than 10 percent be reported to the NRC and that the patient's physician be notified. Such a deviation from the prescription would be a "misadministration."

At the Porter Memorial Hospital, sufficent records were immediately available to determine if any misadministrations occurred.

The Orders did not affect other activities performed under NRC licenses issued to the three facilities, including diagnostic tests using radiopharmaceuticals and other radiation therapy programs.

Cause or Causes—The NRC inspections determined that none of the three facilities had maintained adequate records of the treatment plans and prescriptions at the facility. The inspections also determined that licensee management at each of the facilities had not taken action to assure that established procedures were followed including maintenance of required records.

At the St. Mary facilities, hospital management was notified by a staff member as early as May 1988 that appropriate records were not being maintained nor established procedures followed, but the corrective actions taken were not effective and the inadequate recordkeeping and procedural failures continued.

Six brachytherapy procedures were performed at the Porter Memorial Hospital between 1987 and 1989. The hospital's Radiation Safety Committee and Radiation Safety Officer, however, were not aware when brachytherapy treatments were being performed or when the radioactive sources for brachytherapy were ordered.

Actions Taken to Prevent Recurrence

Licensees—The two St. Mary facilities have submitted revisions to their NRC licenses to provide quality assurance procedures for brachytherapy procedures. Porter Memorial Hospital has also submitted revisions to its NRC license providing quality assurance procedures. The proposed license amendments are under review.

The two St. Mary facilities filed a request for a hearing on the NRC Order. The authorized user, who was involved in brachytherapy treatments at the facilities, also requested a hearing and he was admitted to the proceeding as an intervenor.

The proceeding is currently pending before an Atomic Safety and Licensing Board, although settlement discussions are underway.

NRC—The NRC staff issued orders to the three facilities, suspending brachytherapy procedures at the St. Mary facilities and confirming that Porter Memorial Hospital had ceased brachytherapy treatments. The Orders also required the licensees to undertake independent evaluation of completed brachytherapy procedures to determine if the treatments were consistent with the prescribed doses and treatment plans. The licensees were also required to submit proposed license amendments to provide quality assurance procedures should they desire to continue their brachytherapy programs. The licensees were not to resume brachytherapy without NRC authorization.

90-12 Radiation Exposure of a Radiographer

One of the AO examples notes that exposure of the skin of any individual to 150 rem or more of radiation can be considered an abnormal occurrence.

Date and Place—April 6, 1990; Barnett Industrial X-Ray; Stillwater Oklahoma; the radiation overexposure occurred at a temporary jobsite in Ardmore, Oklahoma.

Nature and Probable Consequences—On the evening of April 6, 1990, the licensee notified the NRC that an incident had occurred earlier that evening while a radiographer and his assistant were working at a temporary jobsite. The radiographic operation involved the use of radiography device containing an approximately 80-curie iridium-192 sealed source. (A radiography device uses a radioactive sealed source to make x-ray-like images of welds and heavy metal objects. The position of the source is controlled by a drive cable which is used to crank the source out of the exposure device and retract it back to a shielded position within the device via an unshielded source guide tube.) The licensee reported that the source became disconnected from the drive cable and remained in the source guide tube. Unaware that the source remained in the tube, the assistant wrapped the

source guide tube around his neck while he moved equipment at the worksite. The licensee initially estimated that the assistant received an exposure of 4000 rem to the exposed area of his neck. Two NRC Region IV inspectors were dispatched the following morning to investigate the incident. The circumstance associated with the radiation overexposure are described below.

After completing two radiographs of a pipe weld, the radiographer proceeded to develop the radiographs while the assistant disassembled the equipment to move the exposure device to another location. While doing this, he moved the source guide tube and draped it around his neck so that his hands would be free to carry the remaining equipment. He walked approximately 30–50 feet before stopping to set the equipment down. As he removed the guide tube from around his neck, he noticed that the sealed source fell from the tube to the ground. The assistant notified the radiographer who telephoned the company owner and, following his direction, successfully retrieved the source to a shielded position within the exposure device. During his conversation with the owner, the radiographer identified: (1) That he failed to conduct a radiation survey of the exposure device after each of the exposures, (2) that the assistant's pocket dosimeter had gone offscale (greater than 200 millirem), and (3) that the assistant was not wearing his film badge during these operations. Under the owner's direction, the assistant was taken for medical examination at a local hospital later that evening.

Based on interviews conducted with the radiographer and company owner together with NRC reenactments of the radiographer's actions during the event, NRC inspectors determined that he might also have received an exposure in excess of regulatory limits. When the radiographer later confirmed that his pocket dosimeter had gone offscale, his film badge was sent for immediate processing. Both the assistant and radiographer were referred for examination by a radiation oncologist (a physician experienced in examining patients who have been treated with large doses of radiation) and blood samples were obtained for cytogenetic studies.

The cytogenetic studies revealed equivalent whole body doses of 17 rem for the radiographer and 24 rem for the assistant. The assistant developed an area of erythema on the left side of his neck, which later showed signs of more significant damage to skin tissue in an area approximately 10 centimeters in diameter. The oncologist determined that the observed effect corresponded to a local skin dose of 5000–7000 rem. As of June 1990, the skin tissue in this area had regenerated and the physician did not predict any long-term effects as a result of this exposure. The assistant remains under the physician's care, and the NRC continues to receive reports on his progress. There were no medical effects observed for the radiographer.

Cause or Causes—The radiographer and assistant failed to conduct a radiation survey of the exposure device after either of the exposures was completed to ensure that the source had been retracted to its shielded position. The radiographer was exposed to the unshielded source as he changed films between the two exposures, and the assistant received a large exposure as he carried the source tube containing the source draped around his neck. Without a radiation survey, neither individual was aware that the source had not been connected to the drive cable and remained in the guide tube.

Actions Taken to Prevent Recurrence

Licensee—The licensee's proposed corrective actions include retraining the radiographer in radiation safety procedures and continued observation of his performance. The assistant radiographer is no longer employed by the licensee.

NRC—During the investigation of this event, on April 2, 1990, an Order modifying the license was issued, prohibiting the radiographer and assistant from participating in licensed activities. This Order has since been relaxed due to the licensee's implementation of corrective action. NRC Region IV conducted an enforcement conference with the licensee on May 25, 1990, to discuss the event. On September 7, 1990, the NRC issued to the licensee a Notice of Violation and Proposed Imposition of Civil Penalty in the amount of $7,500. The basis for the proposed penalty were violations associated with failure to conduct the required radiation survey and the resultant overexposures. These two violations collectively were classified as Severity Level I (on a scale of Levels I through V, in which Level I is the most significant).

90–13 Medical Diagnostic Misadministration

The general AO criterion notes that an event involving a moderate or more severe impact on public health or safety can be considered an abnormal occurrence.

Date and Place—June 5, 1990; Mercy Memorial Medical Center; St. Joseph, Michigan.

Nature and Probable Consequences—A 79-year-old female patient was scheduled to undergo a diagnostic evaluation to determine whether she was suffering from an enlarged thyroid gland (substernal thyroid). No prescribed dose was indicated.

The scan was scheduled for the following day. The technologist, in attempting to order the proper amount of radioactive material, noted that her standard dose chart (created by authorized users) did not list dosage for a substernal thyroid gland study.

She then referred to the department's procedures manual, which indicated that the proper dose for a substernal thyroid gland study was 3–5 millicuries of iodine–131, or 100–300 microcuries of iodine–123. The technologist then asked an authorized user which isotope to use. He instructed her to order a sufficient quantity of iodine–131 to visualize the thyroid gland. On June 5, 1990, the patient was given 4.3 millicuries of iodine–131, which conformed to the procedures manual. The dosage listed in the procedure, however, was wrong. The standard dose for a substernal thyroid scan should have been 50 to 100 microcuries of iodine–131, or approximately one-fiftieth of the amount noted in the manual. The mistake was identified by the Chief of the Nuclear Medicine Department on June 6 and reported as a misadministration to the NRC on June 8, 1990.

The licensee estimated that the misadministration resulted in a mean dose to the thyroid gland of 5,752 rads. The NRC's medical consultant investigated the case. Based on certain assumptions, the consultant estimated the dose to be 3,400 rads to the thyroid gland which, according to the consultant, would yield a 10 percent chance of hypothyroidism over five years. The licensee is monitoring the patient's condition.

Cause or Causes—The Nuclear Medicine Department's procedures manual listed the wrong iodine–131 dosage for a substernal thyroid scan. The dosage was not reviewed by an authorized user prior to its administration.

Actions Taken to Prevent Recurrence

Licensee—The license has been amended to incorporate the following changes in iodine–131 procedures: (1) Two nuclear medicine technologists will independently verify the prescribed dosage and check the dose calibrator assay; (2) A written prescription by an

authorized user will be required before the procedure is carried out; and (3) Two signatures or initials will be required on all documents involving iodine-131. The licensee also corrected the department's procedures manual to reflect the proper dosage for a substernal thyroid scan. Dosage for a substernal thyroid scan also was added to the department's Standard Dose Chart.

NRC—An NRC inspection was conducted on June 19, 1990. Seven violations of NRC requirements (unrelated to this event) were identified. The licensee's corrective actions to prevent recurrence were found to be satisfactory. The NRC notified its medical consultant who reviewed the circumstances. He made certain procedural recommendations for consideration by the licensee.

90-14 Administration of Iodine-131 to a Lactating Female With Uptake by Her Infant

The general AO criterion notes that an event involving a moderate or more severe impact on public health or safety can be considered an abnormal occurrence.

Date and Place—June 18, 1990; Tripler Army Medical Center; Honolulu, Hawaii.

Nature and Probable Consequences—A nursing mother was given a 4.89 millicurie dose of iodine-131 at an NRC licensed medical facility that resulted in an unintentional radiation dose to her infant's thyroid gland estimated at 30,000 rads and a dose to the infant's whole body of 17 rads. The error was detected on June 21, 1990, when the patient returned to the medical center for a whole body scan. The scan indicated an unusually high breast uptake of iodine-131. In the opinion of the patient's physician and an NRC medical consultant, the infant's thyroid function will be completely lost. The infant will require artificial thyroid hormone medication for life to ensure normal growth and development.

Cause or Causes—The physician and nuclear medicine technologist failed to confirm that the patient was not breast feeding. The patient arrived at the medical center from a remote South Pacific island. Communication between the island physician and the Army physicians was poor and the Tripler physicians were not aware that the mother had given birth on June 1, 1990.

Actions Taken to Prevent Recurrence

Licensee—Immediately following discovery of the error the licensee began using a new questionnaire that more clearly requires the collection and documentation of information concerning patient pregnancy and breast feeding. The Commanding Officer has ordered a special investigation to define the cause and appropriate corrective actions. The licensee has contacted the patient and the patient's physician and is finalizing arrangements for long term follow-up medical care.

NRC—An Enforcement Conference was held on August 16, 1990, and enforcement action is being considered.

90-15 Medical Therapy Misadministration

The general AO criterion notes that an event involving a moderate or more severe impact on public health or safety can be considered an abnormal occurrance.

Date and Place—June 22, 1990; St. Luke's Hospital; Cleveland, Ohio.

Nature and Probable Consequences—A 57-year-old woman, being treated for lung cancer, was erroneously given a 178 rem radiation does to the left side of the head on June 22, 1990, using the licensee's cobalt-60 teletherapy unit. The patient was scheduled to receive a 200 rem radiation dose to the chest area at the time of the misadministration. The treatment was the ninth of a total of ten treatments in the series for a total of 2,000 rem to the chest. The treatment began June 11, 1990.

A technologist set the patient up for brain irradiation without looking at the treatment documents. After the left side of the head was treated, the patient asked if her chest would also be treated. At this time, the treatment staff discover the error.

Because the misadministration involved a single treatment and because of the dosage involved, no adverse medical effects are expected. Subsequent to the misadministration, the patient received the intended 200 rem radiation dose to the chest area. The tenth treatment was administered, and the patient began a second phase of 25 radiation treatments of 150 rem each to the chest area.

Cause or Causes—This misadministration was caused by the failure of the technologist to examine the treatment documentation (the setup sheet and a treatment field picture). Although the technologist had previously treated the patient, the technologist erroneously assumed the brain was the area to be treated. (The staff determined that although lung cancers of this type often do metastasize to the brain, the irradiation of the brain in this case was a misadministration nonetheless.)

Actions Taken to Prevent Recurrence

Licensee—The licensee has revised its procedures to require the verification, when circumstances permit, of the treatment setup by a second technologist using the setup documentation. All technologists have been trained in the procedure. The NRC is requesting the licensee to amend its quality assurance procedures to include dual verification of treatment setups prior to any treatment.

NRC—The NRC conducted a special inspection on June 27-29, 1990, to review the circumstances of the misadministration and to evaluate the licensee's radiation safety and management control programs. The inspection also covered an earlier therapy misadministration in which a patient received less than the intended dose. In this misadministration, a patient received a dose that was 12 per cent less than that intended during a treatment series February 15 through April 3, 1990. A Notice of Violation was issued for two instances of failure to report the misadministrations within the required time period. The inspection also identified a concern about staff shortages that may adversely affect the licensee's radiation therapy program. The NRC requested the hospital's response to this concern.

Dated at Rockville, MD, this 19th day of October 1990.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

[FR Doc. 90-25226 Filed 10-24-90; 8:45 am]

BILLING CODE 7590-01-M

Advisory Committee on Reactor Safeguards; Meeting Agenda

In accordance with the purposes of sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b), the Advisory Committee on Reactor Safeguards will hold a meeting on November 8-10, 1990, in room P-110, 7920 Norfolk Avenue, Bethesda, Maryland. Notice of this meeting was published in the Federal Register on September 19, 1990.

Thursday November 8, 1990, room P-110, 7920 Norfolk Avenue, Bethesda, MD

8:30 a.m.-8:40 a.m.: Chairman's Remarks (Open)—The ACRS Chairman will make opening remarks and comment briefly regarding items of current interest.

8:40 a.m.-10:30 a.m.: NRC Regulatory Impact Survey (Open)—A briefing by and discussion with representatives of

the NRC staff will be held regarding proposed regulatory changes resulting from the NRC survey of the impact of regulatory requirements on the safety of nuclear power plant operations.

10:45 a.m.–11:15 a.m.: Level of Design for Standardized Nuclear Power Plants (10 CFR part 52) (Open)—A briefing and discussion will be held regarding the level of design detail appropriate for standardized nuclear plants licensed in accordance with 10 CFR part 52.

Representatives of the NRC staff and NUMARC will participate as appropriate.

11:15 a.m.–12:30 p.m.: Preparation for Meeting With NRC Commissioners (Open)—The Committee will discuss topics selected for discussion regarding nuclear facility regulation and safety and related activities of the ACRS and the Commission.

2 p.m.–3:30 p.m.: Meeting with NRC Commissioners (First Floor Commissioners' Conference Room, One White Flint North, Rockville, MD (Open)—The Committee will meet with the Commissioners to discuss the selected topics.

4 p.m.–4:45 p.m.: Future ACRS Activities (Open)—The Committee will discuss the scope and nature of ACRS activities, including anticipated activities of ACRS subcommittees, items proposed for consideration by the full Committee, and proposed ACRS meeting dates for Calendar Year 1991.

4:45 p.m.–6 p.m.: Discuss Proposed ACRS Report to the NRC (Open)—The members will discuss a proposed report to the NRC regarding NUREG–1150, Severe Accident Risks: An Assessment for Five U.S. Nuclear Power Plants, and other items considered during this meeting.

Friday, November 9, 1990, room P–110, 7920 Norfolk Avenue, Bethesda, MD

8:30 a.m.–10 a.m.: Combustion Engineering System 80+ (Open/Closed)—A presentation and discussion will be held regarding NRC staff comments and recommendations (SECY–90–353) on the proposed License Review Basis document for this standardized nuclear power plant design.

Members of the NRC staff and representatives of the applicant will participate as appropriate.

Portions of this session will be closed as necessary to discuss Proprietary Information applicable to this facility design.

10:15 a.m.–12 Noon and 1 p.m.–1:45 p.m.: Proposed Final Rule—10 CFR part 55, Fitness for Duty Requirements for Licensed Operators (Open)—A presentation and discussion will be held regarding proposed final rule—10 CFR part 55, Fitness for Duty Requirements for Licensed Operators.

Members of the NRC staff and NUMARC will participate as appropriate.

2 p.m.–3:30 p.m.: Biological Effects of Ionizing Radiation (Open)—A briefing and discussion will be held regarding Report No. V of the BEIR Committee on the effects on populations of exposures to low levels of ionizing radiation.

3:30 p.m.–6 p.m.: Westinghouse SP/90 Standardized Nuclear Plant Design—(Open/Closed)—A report will be given and a discussion will be held on the proposed Preliminary Design Approval for this standardized nuclear plant design.

Members of the NRC staff and representatives of the applicant will participate as appropriate.

Portions of this session will be closed as necessary to discuss Proprietary Information applicable to this facility design.

Saturday, November 10, 1990, room P–110, 9720 Norfolk Avenue, Bethesda, MD

8:30 a.m.–12 Noon: Preparation of ACRS Reports (Open)—The Committee will discuss proposed reports to the NRC regarding items considered during this meeting and previous meetings to the degree that the availability of information and time permit.

1 p.m.–1:45 p.m.: ACRS Subcommittee Activities (Open)—The members will hear and discuss the reports of subcommittee activities in designated areas, including reconstitution of design basis documentation, interfacing systems loss of coolant accidents, and the development of containment design criteria for advanced reactors.

1:45 p.m.–2:15 p.m.: ACRS Procedures and Practices (Open)—The Committee will hold a discussion regarding revised ACRS Bylaws and related aspects of Committee operations.

2:15 p.m.–2:30 p.m.: Appointment of ACRS Member (Open/Closed)—The Committee will discuss the status of the selection of a nominee to fill a forthcoming vacancy on the Committee.

This session will be closed to discuss information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy.

2:30 p.m.–3 p.m.: Miscellaneous (Open)—The members will complete discussion of items considered during this meeting.

Procedures for the conduct of and participation in ACRS meetings were published in the Federal Register on October 2, 1990 (55 FR 40246). In accordance with these procedures, oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Committee, its consultants, and staff. Persons desiring to make oral statements should notify the ACRS Executive Director as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements. Use of still, motion picture and television cameras during this meeting may be limited to selected portions of the meeting as determined by the Chairman. Information regarding the time to be set aside for this purpose may be obtained by a prepaid telephone call to the ACRS Executive Director, Mr. Raymond F. Fraley, prior to the meeting. In view of the possibility that the schedule for ACRS meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with the ACRS Executive Director if such rescheduling would result in major inconvenience.

I have determined in accordance with subsection 10(d) Public Law 92–463 that it is necessary to close portions of this meeting noted above to discuss Proprietary Information applicable to the matters being considered (5 U.S.C. 552b(c)(4)) and information the release of which would represent an unwarranted invasion of personal privacy (5 U.S.C. 552b(c)(6)).

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted can be obtained by a prepaid telephone call to the ACRS Executive Director, Mr. Raymond F. Fraley (telephone 301/492–8049), between 7:45 a.m. and 4:30 p.m.

Date: October 19, 1990.

John C. Hoyle,

Advisory Committee Management Officer.

[FR Doc. 90-25224 Filed 10-24-90; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 50-322-OLA and ASLBP No. 91-621-01-OLA]

Long Island Lighting Co.; Establishment of Atomic Safety and Licensing Board

Pursuant to delegation by the Commission dated December 29, 1972, published in the Federal Register, 37 FR 28710 (1972), and §§ 2.105, 2.700, 2.702,

2.714, 2.714a, 2.717 and 2.721 of the Commission's Regulations, all as amended, an Atomic Safety and Licensing Board is being established to preside over the following proceeding.

Long Island Lighting Company

Shoreham Nuclear Power Station, Unit 1
Facility Operating License No. NPF-82

This Atomic Safety and Licensing Board is being designated pursuant to the provisions of a Memorandum and Order issued by the Commission on October 17, 1990 with respect to six petitions to intervene and requests for hearings related to various actions taken by the NRC Staff and the Long Island Lighting Company (LILCO) concerning the Shoreham Nuclear Power Station.[1] CLI-90-08, 32 NRC [1990]. In its Memorandum and Order the Commission determined that the National Environmental Policy Act and the Atomic Energy Act of 1954, as amended, do not require the NRC to consider "resumed operation" as an alternative to decommissioning. The Commission forwarded the six petitions to the Atomic Safety and Licensing Board with directions to "review and resolve all other aspects of these hearing requests in a manner consistent with this opinion."

The Board is comprised of the following administrative judges:

Morton B. Margulies, Chairman, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

George A. Ferguson, 5307 A1 Jones Drive, Columbia Beach, MD 20764.

Jerry R. Kline, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

All correspondence, documents and other materials shall be filed with the judges in accordance with 10 CFR 2.701.

Issued at Bethesda, Maryland, this 18th day of October 1990.

S. Paul Cotter, Jr.,
Chief Administrative Judge, Atomic Safety and Licensing Board Panel.

[FR Doc. 90-25223 Filed 10-24-90; 8:45 am]
BILLING CODE 7590-01-M

[Docket No. 50-029]

Yankee Atomic Electric Co. (Yankee Nuclear Power Station); Exemption

I

Yankee Atomic Electric Company (YAEC or the licensee) holds Facility Operating License No. DPR-3 which authorizes the operation of the Yankee Nuclear Power Station (Yankee or the facility) at steady-state power levels not in excess of 600 megawatts thermal. This license provides, among other things, that the facility is subject to all rules, regulations and Orders of the U.S. Nuclear Regulatory Commission (the Commission) now or hereafter in effect.

The facility is a pressurized water reactor located at the licensee's site near Rowe, Massachusetts.

II

The Code of Federal Regulations, in § 55.59(c)(3)(i), "On the job training" requires that each licensed operator and senior operators of a utilization facility must perform certain manipulations annually. Additionally, § 55.59(c)(3)(v) allows a simulator to be used in those manipulations.

By letter dated August 2, 1990, the Yankee Atomic Electric Company (the licensee) requested a one-time exemption from the requirement in 10 CFR 55.59(c)(3)(i)(A)-(L) to conduct annual simulator training of reactor operators and senior reactor operators on certain control manipulations. Simulator training of Yankee-Rowe licensed operators was last conducted on a non-plant specific simulator from September 1989 to October 1989. Yankee-Rowe anticipates having a plant specific simulator available for operator training on or about October 1, 1990. The required training would commence when the simulator is available, and the required training in control manipulations would be completed by March 1, 1991. The exemption from the requirements of the regulations would therefore be for a period of about five months.

Immediate compliance with the annual training requirement would entail all the licensed operators traveling to a non-plant specific simulator in Illinois and covering all twelve evolutions in a time span of 30 hours of simulator time for each crew. With the imminent arrival of the plant specific simulator, the licensee believes more effective and thorough training can be provided using the combination of control room based job performance measures, static simulator walkthroughs and, once it is available for training, the plant specific simulator.

Requiring the licensee's operators to travel to the non-plant specific simulator would result in the completion of the simulator training on time. However, since the quality of the training the operators would receive by performing the control manipulations on a plant specific simulator would be higher, it would be in the public interest to grant this exemption.

The Staff has reviewed the licensee's request for exemption and finds that since a plant specific simulator will be available on site in the very near future, requiring the licensee to meet the annual requirement to perform the control manipulations of 10 CFR 55.59(c)(3)(i)(A)-(L) on a non-plant specific simulator would not enhance the protection of the environment and would result in an expenditure of licensee resources not required for public health and safety.

Accordingly, the Commission has determined that, pursuant to 10 CFR 50.12, this exemption is authorized by law, will not present an undue risk to the public health and safety, and is consistent with the common defense and security. The Commission has further determined that special circumstances, as set forth in 10 CFR 50.12(a)(2)(v), are present justifying the exemption, namely that application of the regulation in the particular circumstances is not necessary to achieve the underlying purpose of the rule. Therefore, the Commission hereby grants an exemption from the requirements of 10 CFR 55.59(c)(3)(i)(A)-(L).

Pursuant to 10 CFR 51.32, the Commission has determined that the granting of this exemption will have no significant impact on the environment (55-FR-42523).

This exemption is effective upon issuance.

Dated at Rockville, Maryland this 19th day of October, 1990.

---

[1] On April 16, 1990, each of two organizations, the Scientists and Engineers for Secure Energy ("SE2") and the Shoreham-Wading Central School District ("Shoreham-Wading"), filed a "Petition to Intervene and Request for Hearing" in response to the NRC's March 20, 1990 Confirmatory Order which prohibited LILCO from placing any nuclear fuel in the Shoreham reactor vessel without prior approval from the NRC. 55 Fed. Reg. 12799 (April 6, 1990).

On April 20, 1990, SE2 and Shoreham-Wading each filed a "Petition to Intervene and Request for Hearing" in response to a notice the Staff had previously published announcing that LILCO had requested an amendment to the Shoreham operating license allowing changes in the physical security plan for the plant. 55 FR 10529, 10540 (March 21, 1990). The Notice contained the Staff's proposed finding that the amendment "did not involve a significant hazards consideration."

Subsequently, the Staff published another Federal Register Notice announcing (1) LILCO's request for an amendment to its license removing certain license conditions regarding offsite emergency preparedness activities, and (2) the Staff's proposed finding of "No Significant Hazards Consideration." 55 FR 12079 (March 30, 1990). On April 30, 1990, SE2 and Shoreham-Wading each filed a "Petition to Intervene and Request for Hearing" regarding this proposed amendment. Both the Staff and LILCO have responded to all three sets of petitions.

For the Nuclear Regulatory Commission.
Steven A. Varga,
Director, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

OFFICE OF MANAGEMENT AND BUDGET

Compliance Supplement for Single Audits of State and Local Governments

AGENCY: Office of Management and Budget.

ACTION: Notice of availability of Compliance Supplement for single audits of State and local governments.

SUMMARY: This Notice indicates the availability of a revised Compliance Supplement which sets forth the major compliance requirements that should be considered by independent auditors in making organization-wide audits of State and local governments. It replaces the "Compliance Supplement for State and Local Governments" issued in April 1985.

DATES: The Compliance Supplement is effective immediately.

FOR FURTHER INFORMATION CONTACT: Palmer Marcantonio, Financial Management Division, 10235 NEOB, OMB, Washington, DC 20503 (Telephone: 202-395-3993).

SUPPLEMENTARY INFORMATION: The "Compliance Supplement for Single Audits of State and Local Governments" contains major compliance requirements which, if not observed, could have a material effect on Federal programs. Each compliance requirement is accompanied by suggested audit procedures that may be used to test for compliance. These are not the only procedures an auditor may use, nor are they mandatory procedures. Auditors should apply professional judgment in choosing a procedure to decide the extent of reviews and tests performed.

The Federal departments and agencies have identified the compliance requirements and have suggested for each program audit procedures that will meet the compliance testing requirements of OMB Circular A-128, "Audits of State and Local Governments." However, the auditor is responsible for ensuring that specific requirements which are modified because of changes in laws or regulations are included in the audit procedures.

The Compliance Supplement may be purchased from the Government Printing Office. OMB will not have a supply for distribution.

Richard G. Darman,
Director.

BILLING CODE 3110-01-M

PACIFIC NORTHWEST ELECTRIC POWER AND CONSERVATION PLANNING COUNCIL

Power Plan Amendments, Columbia River Basin Fish and Wildlife Program

AGENCY: Pacific Northwest Electric Power and Conservation Planning Council (Northwest Power Planning Council).

ACTION: Notice of proposed wildlife amendments to the Columbia River Basin Fish and Wildlife Program (Dworshak and Minidoka wildlife amendments).

SUMMARY: On November 15, 1982, pursuant to the Pacific Electric Power Planning and Conservation Act (the Northwest Power Act, 16 U.S.C. section 839, *et seq.*) the Pacific Northwest Electric Power and Conservation Planning Council (Council) adopted a Columbia River Basin Fish and Wildlife Program (program). The program has been amended from time to time since then. In 1988, the Council amended the program to establish wildlife mitigation goals and a process for adopting wildlife loss estimates developed by wildlife agencies and Indian tribes as starting points for wildlife mitigation measures. To be used as starting points, loss estimates must first be amended into the Council's program.

On October 10, 1990, the Council voted to initiate proceedings pursuant to section 4(d)(1) of the Northwest Power Act to consider amending the program to include wildlife loss estimates for the Dworshak and Minidoka hydroelectric projects. Comments are solicited on the proposed amendments. This notice describes how to obtain a full copy of the proposed amendments and background information concerning them, and explains how to participate in the amendment process.

PUBLIC COMMENT: All written comments must be received in the Council's central office, 851 SW Sixth Avenue, suite 1100, Portland, Oregon, 97204, by 5 p.m. Pacific time on February 11, 1991. Comments should be submitted to Daicy Mahar, Director of Public Involvement, at this address. Comments should be clearly marked "Dworshak-Minidoka Wildlife Comments."

After the close of written comment, and up to the time of the Council's final decision on the proposed amendments, the Council may hold consultations with interested parties to clarify points made in written comment.

HEARINGS: Public hearings will be held in conjunction with the regularly scheduled Council meetings as follows:

November 15, 1990, at the Park Plaza Hotel, Helena, Montana;

December 13, 1990, at the Council's central office, 851 SW. Sixth Ave., Portland, Oregon;

January 10, 1991, in Idaho, location to be announced;

February 14, 1991, in Washington, location to be announced. Specific locations for the January and February hearings will be announced in the Council's Update! publication.

To reserve a time period for presenting oral comments at a hearing, or for further information on hearing times and locations, contact Judy Gibson in the Council's Public Involvement Division, 851 SW. Sixth Avenue, suite 1100, Portland, Oregon 97204 or (503) 222-5161, toll free 1-800-222-3355 in Idaho, Montana, and Washington or 1-800-452-2324 in Oregon. Requests to reserve a time period for oral comments must be received no later than two work days before the hearing.

FINAL ACTION: The Council expects to take final action on the proposed wildlife amendments at its March 1991 meeting. The actual date on which the Council will make its final decision will be announced in accordance with applicable law and the Council's practice of providing notice of its meeting agendas.

FOR FURTHER INFORMATION: The Council's wildlife mitigation process is explained in a document called "Wildlife Mitigation Rule and Response to Comments," paper no. 89-55. This paper explains the nature of wildlife loss estimates and the role they play in the Council's wildlife program. In addition, the Council has prepared a short paper, called "Dworshak and Minidoka Wildlife Loss Summaries," which summarizes the loss estimates involved in this amendment process, and contains an actual draft of the proposed program amendments. Finally, the loss estimates themselves, entitled "Wildlife Protection, Mitigation, and Enhancement Planning, Dworshak Reservoir," and "Minidoka Dam Wildlife Impact Assessment" are available from the Council upon request. Those wishing to receive copies of any of these papers should contact the Council's Public Involvement Division at

the address or telephone numbers listed above.

Edward Sheets,
Executive Director.

DEPARTMENT OF STATE

[Public Notice 1260]

Advisory Committee on Historical Diplomatic Documentation; Meeting

The Advisory Committee on Historical Diplomatic Documentation will meet on November 15, 1990, at 9 a.m. in room 1205 of the Department of State.

The Advisory Committee advises the Bureau of Public Affairs, and in particular the Office of the Historian, concerning problems related to the preparation of the documentary series entitled Foreign Relations of the United States and other responsibilities of that Office.

In accordance with section 10(d) of the Advisory Committee Act (Pub. L. 92-463) it has been determined that certain discussions during the meeting will necessarily involve consideration of matters recognized as not subject to public disclosure under 5 U.S.C. 552(b)(c)(1), and that the public interest requires that such activities will be withheld from disclosure. The meeting will therefore be closed when such discussions take place from 2 p.m. to 5 p.m. on Thursday, November 15 and all day Friday November 16.

Persons wishing to attend the open portion of the meeting should come before 9 a.m. on November 15 to the Diplomatic Entrance of the Department of State at 22nd and C Streets, NW., Washington, DC. They will be escorted to room 1205 and at the conclusion of the open portion of the meeting escorted back to the Diplomatic Entrance.

Questions concerning the meeting should be directed to William Z. Slany, Executive Secretary, Advisory Committee on Historical Diplomatic Documentation, Department of State, Office of the Historian, Washington, DC 20520, telephone (202) 663-1122.

Dated: October 15, 1990.

William Z. Slany,
Executive Secretary.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

Announcement of the Seventh Meeting of the Motor Vehicle Safety Research Advisory Committee

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Meeting announcement.

SUMMARY: This notice announces the seventh meeting of the Motor Vehicle Safety Research Advisory Committee (MVSRAC). The Committee was established in accordance with the provisions of the Federal Advisory Committee Act to obtain independent advice on motor vehicle safety research. At this meeting the Committee will discuss research matters relating to pedestrian protection, biomechanics, data collections, and the advanced driving simulator.

DATE AND TIME: The meeting is scheduled to begin at 10 a.m. on Thursday, November 15, 1990, and conclude at 5:50 p.m. that afternoon.

ADDRESSES: The meeting will be held in room 9230 of the U.S. Department of Transportation Building, which is located at 400 Seventh Street, SW., Washington, DC.

SUPPLEMENTARY INFORMATION: In May 1967, the Motor Vehicle Safety Research Advisory Committee was established. The purpose of the Committee is to provide an independent source of ideas for motor vehicle safety research. The MVSRAC will provide information, advice, and recommendations to NHTSA on matters relating to motor vehicle safety research, and provide a forum for the development, consideration and communication of motor vehicle safety research, as set forth in the MVSRAC Charter.

The meeting is open to the public, but attendance may be limited due to space availability. Participation by the public will be determined by the Committee Chairman.

A public reference file (Number 90-01) has been established to contain the products of the Committee and will be open to the public during the hours of 9:30 a.m. to 4 p.m. at the National Highway Traffic Safety Administration's Technical Reference Division in room 5108 at 400 Seventh Street, SW., Washington, DC 20590, telephone: (202) 366-2768.

FOR FURTHER INFORMATION CONTACT: Mary Coyle, Office of Research and Development, 400 Seventh Street, SW., room 6200, Washington, DC 20590, telephone: (202) 366-5926.

Issued on: October 19, 1990.
George L. Parker,
Chairman, Motor Vehicle Safety Research Advisory Committee.

BILLING CODE 4910-59-M

Announcement of Seventh Meeting of the Heavy Truck Subcommittee of the Motor Vehicle Safety Research Advisory Committee

AGENCY: National Highway Traffic Safety Administraiton (NHTSA), DOT.

ACTION: Meeting announcement.

SUMMARY: This notice announces the seventh meeting of the Heavy Truck Subcommittee of the Motor Vehicle Safety Research Advisory Committee (MVSRAC). The MVSRAC established this subcommittee at the February 1988 meeting to examine research questions regarding crashworthiness and crash avoidance for vehicles over 10,000 pounds GVWR.

DATE AND TIME: The meeting is scheduled for Wednesday, November 14, 1990, from 10 a.m. until 4 p.m.

ADDRESS: The meeting will be held in Room 4436 of the U.S. Department of Transportation Building, which is located at 400 Seventh Street SW., Washington, DC.

SUPPLEMENTARY INFORMATION: In May 1967, the Motor Vehicle Safety Research Advisory Committee was established. The purpose of the Committee is to provide an independent source of ideas for safety research. The MVRSAC will provide information, advice, and recommendations to NHTSA on matters relating to motor vehicle safety research and provide a forum for the development, consideration, and communication of motor vehicle safety research, as set forth in the MVSRAC Charter.

At this meeting the subcommittee will discuss the possible safety implications of allowing longer and heavier trucks to be used on a more widespread basis than that which is currently permitted.

The meeting will use, as a departure point for discussions, two recently completed Transportation Research Board (TRB) studies, one titled, "Heavy Truck Weight Study," and the other, "New Trucks for Greater Productivity and Less Road Wear—An Evaluation of the Turner Proposal." Both studies describe the varying amount of productivity enhancement that could be obtained by allowing, on a nationwide special permitting basis, different configurations of heavy trucks (primarily long multiple trailer

combinations) to carry more freight on a given trip. Both studies describe the economic (including modal shifts), bridge and pavement wear, traffic operations, and vehicle dynamic performance effects of allowing larger trucks. Both studies offer prescriptive recommendations for balancing potentially negative concerns relative to these later issues, against the positive productivity benefits that could be obtained.

The meeting will begin with informal presentations by TRB staff describing the key points of the two studies; Federal Highway Administration (FHWA)/Office of Policy Development staff describing their ongoing analyses of truck size and weights related issues; NHTSA research staff describing vehicle dynamic and operational safety performance concerns related to the use of larger trucks; American Trucking Association Trucking Research Institute staff describing the results of a study it sponsored on the "Productivity and Consumer Benefits of Longer Combination Vehicles;" and a representative from the Freightliner Corporation describing the results of that company's analysis of the implications of the TRB studies relative to heavy truck design.

Following these presentations, the subcommittee members and audience will be given an opportunity to offer suggestions to NHTSA relative to research topics it may wish to consider conducting relative to this issue.

The meeting is open to the public, and participation by the public will be determined by the Subcommittee Chairman.

A public reference file (Number 88-01—Heavy Truck Subcommittee) has been established to contain the products of the subcommittee and will be open to the public during the hours of 8 a.m. to 4 p.m. at the National Highway Traffic Safety Administration's Technical Reference Division in room 5108 at 400 Seventh Street SW., Washington, DC 20590, telephone: (202) 366-2768.

FOR FURTHER INFORMATION CONTACT: William A. Leasure, Jr., Chairman, Heavy Truck Subcommittee, Office of Research and Development, 400 Seventh Street SW., Room 6220, Washington, DC 20590, telephone: (202) 366-5002.

George L. Parker,

Chairman, Motor Vehicle Safety Research Advisory Committee.

Federal Register
Vol. 55, No. 207
Thursday, October 25, 1990

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

DATE AND TIME: 2:00 p.m. (Eastern Time), Tuesday, November 6, 1990.

PLACE: Conference Room on the Ninth Floor of the EEOC Office Building, 1801 "L" Street, N.W., Washington, D.C. 20507.

STATUS: Part of the Meeting will be Open to the Public and Part will be Closed to the Public.

MATTERS TO BE CONSIDERED:

Open Session

1. Announcement of Notation Vote(s).
2. A Report on Commission Operations.

Closed Session

1. Litigation Authorization: General Counsel Recommendations
2. Agency Adjudication and Determination on the Record of Federal Agency Discrimination Complaint Appeals

Note: Any matter not discussed or concluded may be carried over to a later meeting. (In addition to publishing notices on EEOC Commission meetings in the Federal Register, the Commission also provides a recorded announcement a full week in advance on future Commission sessions. Please telephone (202) 663-7100 at any time for information on these meetings.)

CONTACT PERSON FOR MORE INFORMATION: Frances M. Hart, Executive Officer on (202) 663-7100.

Dated: October 23, 1990.

Correction

In proposed rule document 90-21950 beginning on page 38347 in the issue of Tuesday, September 18, 1990, make the following corrections:

1. On page 38347, in the 2nd column, under "SUPPLEMENTARY INFORMATION", in the 2nd paragraph, in the 12th line "dn" should read "and".

2. On the same page, in the 3rd column, in the 32nd line, "groundfish" was misspelled.

3. On page 38352, in the 2nd column, in the 17th line from the bottom, "DPA" should read "DAP".

4. On page 38353, in the 2nd column, 28 lines from the bottom of the page, the heading should read "Biodegradable Panels on Groundfish Pots".

5. On page 38354, in the third column, in the fifth line, "panel" should read "panels".

6. On page 38357, in the second column, in amendatory instruction 7., in the second line "August 7, 1990" should read "August 17, 1990".

§ 675.2 [Corrected]

7. On page 38358, in the second column, in § 675.2, in the definition for "Bycatch Limitation Zone 2", in the table, after the third entry, insert "60°00'" and "171°00'" in the first and second columns, respectively.

§ 675.2 [Corrected]

8. On the same page, in the same section, in the third column, in the ninth line of the definition for "Pelagic trawl", "(12 inches)" should read "(12 inches)".

§ 675.20 [Corrected]

9. In § 675.20(a)(7), on page 38359, in the 1st column, in the 13th line from the top of the page, "January l" should read "January 1".

§ 675.21 [Corrected]

10. On the same page, in the same column, under § 675.21(a), in the fourth line "Zone l" should read "Zone 1".

§ 675.26 [Corrected]

11. On page 38361, in the second column, under § 675.26(d)(1)(i), in the sixth line, "notify" was misspelled

[Docket No. 89N-0273]

Records and Reports Regulations for Radiation Emitting Electronic Products

AGENCY: Food and Drug Administration HHS.

ACTION: Proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is proposing to amend its regulations regarding the requirements for recordkeeping and reporting of adverse experiences and other information relating to radiation emitting electronic products. The kinds of information to be maintained and submitted by manufacturers will be defined more clearly. The timing and content of certain reports will be revised to enhance the usefulness of the information. The purpose of these proposed changes is to improve the protection of the public health while also reducing the regulatory burden on manufacturers, dealers, and distributors of radiation emitting electronic products.

DATES: Comments by January 22, 1991. FDA proposes that any final rule based on this proposal become effective 30 days after date of publication in the Federal Register.

ADDRESSES: Written comments to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Joseph M. Sheehan, Center for Devices and Radiological Health (HFZ-84), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4874.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (5 U.S.C. 601) and Executive Order 12291 require FDA to periodically conduct a comprehensive review of existing regulations. This review is to analyze alternative regulatory approaches and to identify regulations that need to be revised or revoked because they impose an unnecessary burden on specific segments of the public, such as manufacturers, dealers, or small businesses, or the general public. In the Federal Register of July 14, 1981 (46 FR 36337), FDA announced its plan to undertake a systematic review of existing regulations and requested the submission of data, information, and views concerning a priority order for the review. In the Federal Register of July 2, 1982 (47 FR 29004), FDA announced its plan to review the records and reports regulations in 21 CFR Part 1002. FDA recognized that, although 21 CFR Part 1002 does not appear to have a major impact on the overall radiation emitting electronic products industry, its impact on industry, especially on small manufacturers, should not be overly burdensome and should be determined.

On November 16, 1982, FDA published a Federal Register notice (47 FR 51706) that invited the public to submit comments, data, and information regarding the agency's assessment of the benefit, economic cost, and need to revise the regulations at Part 1002. FDA also invited comments on several alternative approaches for minimizing regulatory burdens while protecting the public from radiation emitting electronic products. The comment period ended on February 14, 1983. FDA convened an internal task force that reviewed the regulations, analyzed the comments, and prepared recommendations for further agency action.

FDA received 12 comments in response to the July 14, 1981, Federal Register notice and 40 comments in response to the November 16, 1982, notice. In general, these comments acknowledged the need to revise the recordkeeping and reporting regulations in order to be more effective and to reduce the regulatory burden on industry.

FDA responded to these comments through a Federal Register notice of July 1, 1985 (50 FR 27028), announcing that the task force's report, entitled "Report of the CDRH Task Force for Retrospective Review of the Recordkeeping and Reporting Requirements," was available for public comment and review. The report was divided into five sections. Each section included background information, summarized comments received in response to the previous Federal Register notices, and offered conclusions and recommendations. Section 1.0 "Introduction and Background," provided general information and discussed several relevant record and reporting regulations in 21 CFR parts 1000 and 1002. This section also summarized criteria used by the task force to review the regulations. Section 2.0, "General Provisions/Product Listing and Records Requirements," discussed issues relating to general provisions of the regulations as well as sections dealing with manufacturer, dealer, and distributor records. Section 3.0, "Reporting Requirements," addressed various reports, such as initial reports, model change reports, and annual reports. Section 4.0, "Exemptions," covered conditions and criteria for exemptions from the annual reporting and recordkeeping requirements. Section 5.0, "Economic Anaylsis," discussed the current regulations' economic impacts and estimated the economic effec' the recommended changes would have on industry.

A. Task Force Findings and Recommendations

The task force found that:

1. Records and reports are generally of value in enforcing the Radiation Control for Health and Safety Act (the Act). However, the value of each requirement varies among products and manufacturers. Products whose records and reports are found to be of little or no benefit to protecting the public health should be exempt from the requirements.

2. The list of products for which records and reports are required can be reduced.

3. Information required in the reports can be reduced or simplified for some products.

4. The dollar value for products exempted from purchaser recordkeeping requirements need not be increased above the present $50. Criteria other than product cost provide a more appropriate basis for granting such exemptions.

5. The estimated aggregate economic cost of the Records and Reports Regulations, part 1002, is about $40 million. This amount exceeds the Regulatory Flexibility Act's operational threshold of $1 million, but is less than the $100 million major economic impact threshold of Executive Order 12291.

6. The estimated savings to industry of the reduced records and reporting recommended by the task force is $3.6 million, of which $3.1 million is attributable to deletion of dealer and distributor maintained purchaser records.

The task force also recommended numerous changes such as changing the reporting and recordkeeping requirements for specific, selected products; defining or redefining certain terms; and creating or revising reports to clarify agency requirements, avoid duplication of information, and optimize regulatory review. This proposal is intended to implement the task force's recommendations.

FDA received only one comment in response to the July 1, 1985, Federal Register notice announcing the availability of the task force's report. The comment supported the concept of

reporting and recordkeeping requirements for radiation emitting electronic products as being beneficial to public health and safety. The comment also indicated that most of the affected industries would benefit from the task force's recommendations and efforts to simplify reporting requirements but expressed some concern with regard to the X-ray industry. As each of the proposed regulation changes is explained, this comment will be discussed in detail.

FDA recognizes that, for some products, meeting the full recordkeeping and reporting requirements is not necessary in all instances to protect the public health. In this regard, FDA is proposing that the record and reporting requirements for some products be reduced and that, in other products, an abbreviated report serve as sufficient regulatory monitoring. FDA also recognizes that some sections of the regulations need additional clarification to be more meaningful. Thus, to address these concerns and to implement the task force's recommendations, FDA is proposing the following amendments:

B. Proposed Table Format

FDA is proposing to amend part 1002 to simplify the applicability of the recordkeeping and reporting requirements into a new table format. This new table format would eliminate some requirements, clarify others, and combine reporting requirements into one table. This proposal provides more guidance and regulatory flexibility in the recordkeeping and reporting requirements. Because of the new table format, FDA proposes to remove § 1002.61 *List of specific product groups* in subpart G.

C. Reducing the Reporting and Recordkeeping Complexity

To simplify the reporting and recordkeeping requirements, FDA is proposing to remove and transfer the requirements for selected products.

The range of electronic products marketed today is diverse with regard to radiation emission levels, sales volume, product complexity, and consumer use. The public health significance of these products also varies greatly, and so FDA is proposing that the reporting requirements for some of these products be tailored to address these concerns. In general, reporting requirements will be greater for those products that emit the highest radiation levels and/or are sold in the largest quantities, thus presenting the greatest potential risks to public health. For those products that present the least public health risk, FDA proposes a reduced reporting requirement. The proposed changes are:

1. Remove the following products from all of the record and reporting requirements of Part 1002 with the exception of an accidental radiation occurrence report that has not been exempted under § 1002.50 or § 1002.51: (a) High-voltage vacuum switches, (b) rectifiers, (c) shunt tubes, and (d) cathode ray tubes.

2. Transfer the following products from the requirements for initial reports (proposed to be called "product reports") and supplemental reports to abbreviated reports (proposed elsewhere in this proposal). These products include: (a) diagnostic X-ray tables, cradles, film changers, certain cassette holders, cephalometric devices, and image receptor support devices for mammography, (b) medical X-ray systems other than diagnostic, (c) analytical and industrial X-ray systems, (d) microwave diathermy devices, (e) microwave heating, drying, and security systems (RF) sealers, (f) R type mercury vapor lamps, (g) nonmedical ultrasound products, (h) certain television products, and (i) RF sealers, electromagnetic induction heating systems operating between 2 and 500 megahertz.

3. As an alternative to the full reporting requirements of § 1002.10 *Initial reports* and § 1002.11 *Annual reports*, FDA is proposing to transfer some reporting requirements to a new category that will be listed in Table 1, "Abbreviated Reports" in § 1002.1. FDA recognizes that, for certain products, especially those for which an exemption has been granted from initial, model change, and annual reporting, compliance with the abbreviated report requirements (proposed elsewhere in this rule) in lieu of the full reporting requirements will be satisfactory. This proposal, however, contains a provision that will allow FDA to request additional information if necessary.

FDA received one comment that urged it not to rename the recordkeeping and reporting provisions in the regulation. This comment said that manufacturers have spent considerable time and money familiarizing their staff with the specifics of the current regulation so that changes in any section title would cause confusion and unnecessary problems.

FDA recognizes that, as with any new proposal, manufacturers may need some training in order to appreciate and understand the changes. The change in this respect is to shorten the reporting requirements by clearly describing which reports are required, when a report is to be filed, and what should be in a report. FDA believes that the proposal's long-term benefits—clearer regulatory requirements, a reduced regulatory burden on industry, and improved cost effectiveness and efficiency—outweigh its short-term training costs.

4. Remove certain products from the requirements of "supplemental reports" but not from those of "product reports." Additional information could be obtained through the review process for the product reports, but routine submissions will be discouraged unless a major change in product design or testing warrants a new product report. These products include: (a) television receivers emitting less than 0.1 milliroentgen (mR) per hour under certain test conditions; (b) class I, II, IIa, and IIIa lasers and class I products containing such lasers; and (c) sunlamps (not products containing such lamps).

5. Remove certain products from the requirements for annual reporting. These products include: (a) X-ray high voltage generators, diagnostic X-ray cradles, X-ray tables, film changers, vertical cassette holders, cephalometric devices manufactured after February 25, 1978, image receptor support devices for mammographic X-ray systems manufactured after September 5, 1978, and medical X-ray products other than diagnostic products; (b) analytical and industrial X-ray systems; (c) RF sealers; (d) sunlamps (not products containing such lamps); (e) R type mercury vapor lamps; and (f) microwave diathermy devices.

Other products are already not subject to the requirements for annual reporting. These products include: optical phototherapy products; microwave heating, drying, and security systems; and medical and nonmedical ultrasound.

6. Remove certain products from the requirements of maintaining manufacturers' testing and distribution records. These products include: (a) Television receivers emitting less than 0.1 mR per hour under certain test conditions, (b) microwave diathermy devices, (c) RF sealers, and (d) mercury vapor lamps and sunlamps.

Other products are already not subject to the requirements for maintaining manufacturers testing and distribution records. These products include: television receivers; microwave diathermy; microwave heating, drying, and security systems; optical phototherapy; and medical and nonmedical ultrasound.

7. Remove certain products from the requirements for dealers and distributors to maintain distribution

records. These products include: (a) diagnostic X-ray cradles, film changers, cephalometric devices manufactured after February 25, 1978, image receptor support devices for mammographic X-ray systems manufactured after September 5, 1978, tube housing assemblies, X-ray tables, and cabinet X-ray systems other than baggage inspection; (b) television receivers, (c) class I, II, IIa, IIb lasers and class I products containing such lasers, (d) sunlamps (not products containing such lamps), (e) mercury vapor lamps (both R and T types), and (f) microwave ovens.

Other products are already not subject to the requirements for dealers and distributors to maintain distribution records. These products include: medical X-ray products other than diagnostic; analytical and industrial X-ray systems; microwave diathermy; microwave heating, drying, and security systems; RF sealers; optical phototherapy; and medical and nonmedical ultrasound.

A minor change is also proposed for cathode ray tubes. In Table 1 in § 1002.1, the proposal divides cathode ray tube voltages consistent with those used for television receivers.

B. Definitions

FDA is proposing to amend and combine the definitions relevant to records and reports contained in § 1002.2 with the definitions at § 1003.3. Section 1002.3 will be clarified and amended to contain definitions that will be applicable throughout "Subchapter J—Radiological Health" of the regulations, thereby providing a clear distinction between similar terms that are defined for different product areas. This section will include new definitions for an "accidental radiation occurrence," "model family," "chassis family," "modified model," and "components."

E. Components and Accessories

FDA is proposing to remove § 1002.3 concerning applicability of the record and reporting requirements to components and revise § 1002.10 to include information on components and accessories in the reports. This revision should eliminate any confusion on the reporting of component parts while still providing a means of reporting electrical specifications for components that can affect emissions from finished products.

F. Dealer and Distributor Records

FDA is proposing to clarify the dealer and distributor records requirement at § 1002.40(a). Dealers and distributors will continue to be responsible for being able to trace a specific product to a specific purchaser based on criteria including, but not limited to, a retail purchase price greater than or equal to $50. Some products will no longer be subject to this requirement based on their product safety record, radiation emission levels, and the practicability of tracing ownership of that product.

FDA, on its own initiative, is also proposing to exempt dealers and distributors of some electronic products from the requirements of §§ 1002.40 and 1002.41. FDA is taking this action because it has no recall, repair, or replacement data that justify retaining these requirements for these products.

G. Notification to User of Performance and Technical Data

Section 360A(c) of the Radiation Control for Health and Safety Act (42 U.S.C. 263i(c)) authorizes the Secretary of Health and Human Services (the Secretary) to require every electronic products manufacturer to provide performance data and other data related to the product's safety. The Secretary is also authorized, after consulting with the affected industry, to require manufacturers to notify the ultimate purchaser of the product of such performance and technical data at the time of original purchase as the Secretary determines necessary.

One task force recommendation was to develop regulations that would provide pertinent radiation emission specifications for selected electronic products, especially those products not subject to the performance standards, to users. FDA determined that this information could be submitted with the abbreviated report requirement and could relate to an actual or potential exposure in individuals. This information could also provide a comparison with relevant standards and background levels between similar products.

One comment said that it was inappropriate to require manufacturers to provide radiation emissions specifications to users at this time and that any proposal to add requirements for such information to users should be subjected to public review and comment before rulemaking. The comment suggest that FDA establish a need for this data before setting standards.

FDA recognizes the potential public health safety benefits that could be derived from an informed public on radiation emissions. Users or potential users of a radiation-emitting product should be informed about a product's performance and given technical data so they can make an informed decision when considering the product's safety and use. This performance and technical data should be presented in a concise and consistent manner to enable consumers to make an appropriate evaluation.

FDA is proposing to remove the information requirement contained in § 1002.3 *Records and reports on components* and include it as part of § 1002.10; the agency is also proposing to revise the section heading of § 1002.3 to read, "1002.3 *Notification to user of performance and technical data*". This user notification requirement will be proposed after consulting with the affected industry as required by section 360A(c) of the Radiation Control for Health and Safety Act of 1968.

H. Reporting Requirements

FDA is amending the existing reporting process of §1002.10 *Initial reports*, §1002.11 *Annual reports*, and §1002.12 *Reports of model changes* to include proposed §1002.10 *Product reports*, §1002.12 *Abbreviated reports*, and §1002.13 *Annual reports*.

1. *Initial reports and product reports.* FDA is changing the term "initial reports" to "product reports" for clarity and consistency with current practice. Product reports will be required before a manufacturer introduces into commerce: (a) each electronic product listed in Table 1 of §1002.1, or (b) a new design of an existing product of the same product category of an electronic product as previously reported where the design characteristics have substantially changed, i.e., a new model family or what is commonly referred to as a "model change report."

To facilitate the consolidation of information that is common to more than one model or model family, such as similar quality control or testing information, FDA will continue to provide reporting guides and instructions pursuant to §1002.7 to reduce the reporting requirements.

2. *Model changes and supplemental reports.* FDA is proposing to revise §1002.12 *Reports of model changes* to read "§1002.11 *Supplemental reports*" for clarity and consistency with current practices for updating "initial" and "model change" (new model family) reports. The proposal would require supplemental reports when changes in a product's physical or electrical design affect radiation emission, or when there are changes in the radiation quality control program. Specifically, supplemental reports would be required for changes that: (a) affect actual or potential radiation emission, (b) decrease the degree of compliance with a performance standard, or (c) result in a decreased probability of detecting

product noncompliance or increased radiation emission.

Under proposed §1002.13, supplemental reports would not be required for new models of a general class that do not change emission or compliance with performance requirements prior to their introduction into commerce. Manufacturers would report these model numbers in quarterly updates to the annual report.

3. *Abbreviated reports.* FDA recognizes that, for some products, meeting the full reporting requirements is not necessary in all instances to protect the public health. Thus, FDA is proposing §1002.12 *Abbreviated reports.* Products for which FDA would accept an abbreviated report are listed in Table 1 of §1002.1. Abbreviated reports would constitute the only reporting requirement for products without performance standards unless there is an active monitoring program for conforming to specific guidelines or to a voluntary standard in effect. Abbreviated reports will include the following information: (a) firm and model identification, (b) a brief description of operational characteristics that affect radiation or control exposure, (c) a list of applications or uses, and (d) radiation emission levels.

FDA may request additional information, if necessary, to determine whether the manufacturer acted or is acting in compliance with these provisions.

4. *Annual reports.* Because annual reports contain summaries of test results, current production status, information from manufacturers' complaint files, and other necessary information, they serve as an effective audit mechanism for both industry and the agency. For some products, this report may indicate whether the product meets radiation emission standards. FDA believes that annual reports can be an effective means for staff to monitor many electronic products, especially those that pose a significant health hazard.

FDA is proposing to amend the annual reporting requirement as follows: The requirements of §1002.11 will be amended to require reporting only on products subject to standards or that pose a significant public health hazard. The requirements of §1002.30 will also be amended to permit FDA to request information on production and product sales volumes. FDA is proposing that the following products also be eliminated from the annual reporting or retention of purchase record requirements: (1) X-ray generators, X-ray tables, vertical cassette holders, diagnostic X-ray cradles, film changers, cephalometric devices manufactured after February 25, 1978, and image receptor support devices for mammographic X-ray systems manufactured after September 5, 1978, (2) medical X-ray other than diagnostic, analytical and industrial X-ray, (3) television receivers emitting less than 0.1 mR per hour under certain test conditions, (4) RF sealers, (5) sunlamps (not products containing such lamps), (6) R type mercury vapor lamps, (7) microwave diathermy devices, and (8) certain ultrasonic devices.

I. Accidental Radiation Occurrences

One comment on the task force report said that the accidental radiation occurrence (ARO) reporting criteria are redundant, ambiguous, and require discretion on the part of both government and industry to determine what is a reportable ARO. The comment expressed some concern about the duplication of reporting requirements under §1002.20 *Reporting of accidental radiation occurrences* and §1003.10 *Discovery of defect or failure of compliance by manufacturer; notice requirements.*

In current §1003.10, a product defect is a manufacturing problem that may or may not result in an ARO. A reported ARO under current § 1002.20 may result in a determination by FDA that a product defect exists and may also result in a corrective action program by the manufacturer. In order to clarify the ARO provisions, FDA is proposing to revise § 1002.20 *Reporting of occidental radiation occurrence* to permit consolidation of a manufacturer's report under §1003.10.

J. Consolidation of Reporting Requirements

One task force recommendation was to develop procedures that would consolidate some reporting requirements in the Medical Device Amendments of 1976 and the radiation Control for Health and Safety Act of 1968. This recommendation recognized that, while reports cannot be combined in all situations, in some cases it may be advantageous to combine the reporting of electronic products that are also medical devices.

One comment agreed with FDA's intent to eliminate the duplicate reporting requirements if possible. This comment suggested that, in some situations, combining the reporting requirements would result in either an advantage or a disadvantage. Disadvantages would be apparent in situations where the reports are required to be submitted for different purposes and at different times.

FDA acknowledges that, in many situations, it would be impractical to consolidate different product reports that are for different purposes or that are due at a different reporting time.

Moreover, different expertise could be required to effectively evaluate different electronic products or medical devices. In some circumstances, this consolidation could even extend the review period due to these difficulties.

With respect to these concerns, FDA has concluded that this effort should undergo additional evaluation regarding which section and in what manner such a reporting consolidation can be most effectively utilized. To expedite this evaluation, the agency will coordinate this effort with the industry on a case-by-case basis until and effective consolidation can be determined.

FDA has concluded that, for the situation in which there is no performance standard for an electronic product, sufficient information regarding product safety can be obtained through FDA review of an investigational device exemption (IDE) pursuant to 21 CFR 812.20 or a premarket approval application (PMA) pursuant to 21 CFR part 814. Hence, FDA proposes to exempt from the requirements of this part manufacturers of electronic products which are also medical devices that are subjects of an IDE or PMA.

Some consolidation was instituted in 1984 when the medical device reporting (MDR) requirements were implemented. Manufacturers need not submit reports of accidental radiation occurrences if the incident is also required to be reported under MDR.

K. Exemptions

FDA recognizes the need for and value of a practical reporting regulation that clearly delineates the criteria and procedures for granting exemptions to the requirements of product reports (proposed), annual reports, abbreviated reports (proposed), and distribution records. Consequently, FDA is proposing to amend and to clarify the exemption procedures and criteria. FDA encourages industry and individual manufacturers to use the proposed exemption provisions when appropriate.

Proposed § 1002.50(a) clarifies the provisions under which manufacturers, dealers, and distributors may request exemptions from any requirement listed in Table 1 in § 1002.1. FDA intends to consider exempting products manufactured in small quantities (e.g., for self-use, research, training, or prototype); products with low radiation emission; and products with conservative design and a good quality

control record, and products subject to IDE regulation pursuant to 21 CFR 812.20 and premarket approval pursuant to 21 CFR part 814. FDA is also proposing to periodically review the requirements applicable to specific products and specific exemption criteria that do not present a public health hazard. Further, FDA is proposing that each manufacturer, dealer, or distributor for which an exemption is granted be given a written notification of the product or products exempted, together with a list of the requirements exempted and the conditions, if any, for the exemption. Proposed § 1002.50(c) provides parties who have been denied an exemption with written notification of the denial and the reasons for the decision. Under the proposal, exemptions may be revoked based on evidence that the basis for the exemption is not valid or that revocation is necessary to protect the public health and safety.

L. Economic Impact

This proposed rule is the result of an extensive retrospective review, including a cost-benefit analysis of the regulatory impact in accordance with the requirements of Executive Order 12291 and the Regulatory Flexibility Act (Pub. L. 96-354). The agency concludes that the proposed rule is not a major rule as defined in Executive Order 12291. Further, the agency certifies that the proposed rule, if implemented, will not have a significant economic impact on a substantial number of small entities, as defined in the Regulatory Flexibility Act. A copy of the document supporting this determination, "Report of the CDRH Task Force for Retrospective Review of the Recordkeeping and Reporting Requirements of 21 CFR 1002," is on file at the Documents Management Branch and may be seen in that office between 9 a.m. and 4 p.m., Monday through Friday.

M. Paperwork Reduction Act of 1980

This proposed rule contains information collections which are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35). The title, description and respondent description of the information collection are shown below with an estimate of the annual reporting and recordkeeping burden. Included in the estimate is the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. *Title:* Reporting and Recordkeeping Requirements for Electronic Products Under Public Law 90-602—General Requirements. *Description:* The Food and Drug Administration is proposing to amend its regulations regarding the requirements for recordkeeping and reporting of adverse experiences and other information relating to radiation emitting electronic products. The timing and content of certain reports will be revised to enhance the usefulness of the information. The purpose of these proposed changes is to improve the protection of the public health while also reducing the regulatory burden on manufacturers, dealers, and distributors of radiation emitting electronic products. The existing information collections have been approved under OMB No. 0910-0025. *Description of Respondents:* Businesses or other for profit organizations.

Estimated annual reporting and recordkeeping burden

Section	Annual number and reports of records	Average burden per response hours	Annual burden
1002.10 1002.12 Existing initial reports	360	24.0	10,869.0
Supplements	1,110	0.5	552.5
Model change reports	735	42.0	30,460.0
Supplements	1,415	0.5	707.5
Subtotals	3,610		42,590.0
Proposed products	1,200	24.0	28,800
Supplements			
1002.30(a)	1,200	0.5	600
Existing	4,000,000	0.12	480,000
Proposed	1,904,000	0.12	228,480
Existing	[1] 42,000,000	0.048	2,016,000
Proposed	146,000	0.048	6,960

[1] The dealer record burden had previously been incorrectly reported as 17,000,000.
Total existing annual burden hours, 2,536,590.
Total proposed annual burden hours, 314,940.
Total annual burden hours reduced, 2,272,750 (87.6 percent reduction).

The distribution records required of manufacturers by § 1002.30(b) have not previously been considered since the aspect of business and the regulation places no additional burden on manufacturers.

As required by section 3504(h) of the Paperwork Reduction Act of 1980, FDA has submitted a copy of this proposed rule to OMB for its review of these information collection requirements. Other organizations and individuals desiring to submit comments regarding this burden estimate or any aspects of these information collection requirements, including suggestions for reducing the burden, should direct them to FDA's Dockets Management Branch (address above) and to the Office of Information and Regulatory Affairs, OMB, Rm. 3208, New Executive Office Bldg., Washington, DC 20503, Attn: Desk Officer for FDA.

List of Subjects in 21 CFR

Part 1000

Electronic products, Radiation protection, Reporting and recordkeeping requirements, X-rays.

Part 1002

Electronic products, Radiation protection, Reporting and recordkeeping requirements.

Therefore, under the Federal Food, Drug, and Cosmetic Act, the Radiation Control for Health and Safety Act, and the Freedom of Information Act and under authority delegated to the Commissioner of Food and Drugs, it is proposed that 21 CFR parts 1000 and 1002 be amended as follows:

PART 1000—GENERAL

1. The authority citation for 21 CFR Part 1000 continues to read as follows:

Authority: Secs. 354-360F of the Public Health Service Act (42 U.S.C. 263b-263n).

2. Section 1000.3 is revised to read as follows:

§ 1000.3 Definitions.

As used in this Subchapter J:

(a) *Accidental radiation occurrence* means a single event or series of events that has/have resulted in injurious or potentially injurious exposure of any person to electronic product radiation as a result of the manufacturing, testing, or use of that product.

(b) *Act* means the Radiation Control for Health and Safety Act of 1968 (Pub. L. 90-602, 42 U.S.C. 263b *et seq.*).

(c) *Chassis family* means a group of one or more models with all of the following common characteristics:

(1) The same circuitry in the high voltage, horizontal oscillator, and power supply sections,

(2) The same worst component failures,

(3) The same type or design high voltage hold-down or safety circuits, and

(4) The same design and installation.

(d) *Commerce* means:

(1) Commerce between any place in any State and any place outside thereof, and

(2) Commerce wholly within the District of Columbia.

(e) *Component*, for the purposes of this part, means a finished product which may be used in an assembled electronic product and which may affect the quantity, quality, direction, or radiation mission of the finished product.

(f) *Dealer* means a person engaged in the business of offering electronic products for sale to purchasers, without regard to whether such person is or has been primarily engaged in such business, and includes persons who offer such products for lease or as prizes or awards.

(g) *Distributor* means a person engaged in the business of offering electronic products for sale to dealers without regard to whether such person is or has been primarily or customarily engaged in such business.

(h) *Electromagnetic radiation* includes the entire electromagnetic spectrum of radiation of any wavelength. The electromagnetic spectrum illustrated in Figure 1 includes, but is not limited to, gamma rays, X-rays, ultra-violet, visible, infrared, microwave, radiowave, and low frequency radiation.

Figure 1

(i) *Electronic product* means:

(1) any manufactured or assembled product which, when in operation,

(i) contains or acts as part of an electronic circuit and

(ii) emits (or in the absence of effective shielding or other controls would emit) electronic product radiation, or

(2) any manufactured or assembled article which is intended for use as a component, part, or accessory of a product described in paragraph (i)(1) of this section and which when in operation emits (or in the absence of effective shielding or other controls would emit) such radiation.

(j) *Electronic product radiation* means:

(1) Any ionizing or nonionizing electromagnetic or particulate radiation, or

(2) Any sonic, infrasonic, or ultrasonic wave, which is emitted from an electronic product as the result of the operation of an electronic circuit in such product.

(k) *Federal standard* means a performance standard issued pursuant to section 358 of the Act.

(l) *Infrasonic, sonic (or audible) and ultrasonic waves* refer to energy transmitted as an alteration (pressure, particle displacement or density) in a property of an elastic medium (gas, liquid or solid) that can be detected by an instrument or listener.

(m) *Manufacturer* means any person engaged in the business of manufacturing, assembling, or importing of electronic products.

(n) *Model* means any identifiable, unique electronic product design, and refers to products having the same structural and electrical design characteristics and to which the manufacturer has assigned a specific designation to differentiate between it and other products produced by that manufacturer.

(o) *Model family* means products having similar design and radiation characteristics but different manufacturer model numbers.

(p) *Modified model* means a product that is redesigned so that actual or potential radiation emission is affected or the possibility of detecting emission or noncompliance with a performance standard is decreased.

(q) *Particulate radiation* is defined as:

(1) charged particles, such as protons, electrons, alpha particles, heavy particles, etc., which have sufficient kinetic energy to produce ionization or atomic or electron excitation by collision, electrical attractions or electrical repulsion; or

(2) uncharged particles such as neutrons, which can initiate a nuclear transformation or liberate charged particles having sufficient kinetic energy to produce ionization or atomic or electron excitation.

(r) *Phototherapy product* means any ultraviolet lamp, or product containing such lamp, that is intended for irradiation of any part of the living human body at light of wavelength in the range of 200 to 400 nanometers, in order to perform a diagnostic or therapeutic function.

(s) *Purchaser* means the first person who, for value, or as an award or prize, acquires an electronic product for purposes other than resale, and also includes a person who leases an electronic product for purposes other than subleasing.

(t) *Secretary* means the Secretary of the Department of Health and Human Services.

(u) *State* means a State, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa.

PART 1002—RECORDS AND REPORTS

3. The authority citation for 21 CFR Part 1002 continues to read as follows:

Authority: Secs. 302, 518, 519, 520, 701, 704, of the Federal Food, Drug and Cosmetic Act (21 U.S.C. 352, 360, 360i, 360j, 371, 374); secs. 354–360F of the Public Health Service Act (42 U.S.C. 263b–263n).

4. Section 1002.1 is revised to read as follows:

§ 1002.1 Applicability

The provisions of this part are applicable as follows:

(a) All manufacturers of electronic products are subjects to § 1002.20.

(b) Manufacturers, dealers, and distributors of electronic products are subject to the provisions of Part 1002 as shown in Table 1 of this section, unless excluded by paragraph (c) of this section, or unless an exemption has been granted under § 1002.50 or § 1002.51.

(c) The requirements of Part 1002 as specified in Table 1 of this section are not applicable to:

(1) Manufacturers of electronic products intended solely for export if such product is labeled or tagged to show that the product meets all the applicable requirements of the country to which such product is intended for export.

(2) Manufacturers of electronic products listed in Table of this section if sold exclusively to other manufacturers for use as components of electronic products to be sold to purchasers, with the exception that the provisions are applicable to those manufacturers certifying components of diagnostic X-ray systems pursuant to provisions of § 1020.30(c) of this chapter.

(3) Manufacturers of electronic products which are intended for use by the U.S. Government and whose function or design cannot be divulged by the manufacturer for reasons of national security, as evidenced by government security classification.

(4) Assemblers of diagnostic X-ray equipment subject to the provisions of § 1020.30(d) of this chapter, provided the assembler has submitted the report required by § 1020.30(d)(1) or (2) of this chapter and retains a copy of such report for a period of 5 years from its date.

**Under image III test conditions (1020.10(c)(2)(ii)).

§ 1002.2 [Removed]

5. Section 1002.2 *Definitions* is removed from subpart A.

6. Section 1002.3 is revised to read as follows:

§ 1002.3 Notification to user of performance and technical data.

The Secretary of Health and Human Services may require a manufacturer of a radiation emitting electronic product to include in the labeling of the product at the time of original purchase to the ultimate purchaser such performance data and other technical data related to safety as he or she finds necessary.

7. Section 1002.7 is amended by adding a new sentence to the end of the introductory text, by revising the first sentence in paragraph (b), and by adding new paragraph (c) to read as follows:

§ 1002.7 Submission of data and reports.

* * * All submissions required by this part shall be addressed to the Director, Office of Compliance and Surveillance (HFZ–352), Center for Devices and Radiological Health, 1390 Piccard Dr., Rockville, MD 20850.

* * * * *

(b) Where guides or instructions have been issued by the Director, Center for Devices and Radiological Health, for the submission of material required by this part such as test data, product reports, abbreviated reports, supplemental reports, and annual reports, the material submitted shall conform to the applicable reporting guide or instruction to the extent that it is possible or appropriate to do so. * * *

(c) Where the submission of quality control and testing information is common to more than one model, or model family of the same product category, a "common aspects report" consolidating similar information may be provided, if applicable.

8. Subpart B, consisting of §§ 1002.10 to 1002.13, is revised to read as follows:

Subpart B—Required Manufacturers' Reports for Listed Electronic Products

Sec.
1002.10 Product reports.
1002.11 Supplemental reports.
1002.12 Abbreviated reports.
1002.13 Annual reports.

Subpart B—Required Manufacturers' Reports for Listed Electronic Products

§ 1002.10 Product reports.

Every manufacturer of a product or component requiring a product report as specified in Table 1 of § 1002.1 shall submit a product report to the Director, Office of Compliance and Surveillance (HFZ–352), Center for Devices and Radiological Health, Food and Drug Administration, 1390 Piccard Dr., Rockville, MD 20850, in accordance with this section. The report shall be submitted for each model or chassis family within 90 days following the effective date of listing such product in Table 1 of § 1002.1 or prior to the introduction of such product into

commerce, whichever is later. The report shall be distinctly marked "Product Report of (name of manufacturer)" and shall:

(a) State in the report for each model of a listed product whether the report is submitted pursuant to Table 1 in § 1002.1.

(b) Identify each model of the listed product together with sufficient information concerning the manufacturer's code or other system of labeling sufficient to enable the Secretary of Health and Human Services (the Secretary) to determine the place of manufacture.

(c) For records and reports required for products listed in Table 1 in § 1002.1, include information on all components and accessories which the manufacturer may provide in, on, or with the listed product and which affect the quantity, quality, or direction of the radiation emissions.

(d) Describe the function, operational characteristics affecting radiation emissions and intended and known uses of each model of the listed product.

(e) State the standard or design specifications, if any, for each model with respect to electronic product radiation safety. Reference may be made to a Federal standard, if applicable.

(f) For each model, describe the physical or electrical characteristics such as shielding or electronic circuitry, etc., incorporated into the product in order that the standards or specifications reported pursuant to paragraph (e) of this section are met.

(g) Describe the methods and procedures employed, if any, in testing and measuring each model with respect to electronic product radiation safety including the control of unnecessary, secondary, or leakage electronic product radiation, the applicable quality control procedures used for each model, and the basis for selecting such testing and quality control procedures.

(h) For those products which may produce increased radiation with aging, describe the methods and procedures used, and frequency of testing each model for durability and stability with respect to electronic product radiation safety. Include the basis for selecting such methods and procedures, or for determining that such testing and quality control procedures are not necessary.

(i) Provide sufficient results of the testing and measuring of electronic product radiation safety and of the quality control procedures described in accordance with paragraphs (g) and (h) of this section to enable the Secretary to determine the effectiveness of the methods and procedures used to accomplish the stated procedures.

(j) Report for each model all warning signs, labels, and instructions for installation, operation, and use which relate to electronic product radiation safety.

(k) Provide upon request such other information as the Secretary may reasonably require to enable him/her to determine whether the manufacturer has acted or is acting in compliance with the Act and any standards prescribed thereunder, and to enable the Secretary to carry out the purposes of the Act.

§ 1002.11 Supplemental reports.

Prior to the introduction into commerce of a new or modified model within a model or chassis family of a product listed in Table 1 of § 1002.1 for which a report under § 1002.10 was required, each manufacturer shall submit a report with respect to such new or modified model containing any changes in the information submitted in the product report. Reports will be required for changes that:

(a) Affect actual or potential radiation emission.

(b) Decrease the degree of compliance with a performance standard.

(c) Result in a decreased probability of detecting product noncompliance or increased radiation emission.

§ 1002.12 Abbreviated reports.

Manufacturers of products requiring abbreviated reports as specified in Table 1 of § 1002.1 shall submit an abbreviated report which shall include:

(a) Firm and model identification.

(b) A brief description of operational characteristics that affect radiation emissions, transmission, leakage or that control exposure.

(c) A list of applications or uses.

(d) Radiation emission, transmission, or leakage levels.

(e) If necessary, additional information as may be requested to determine compliance with the Act and this part.

§ 1002.13 Annual reports.

(a) Every manufacturer of products requiring an annual report as specified in Table 1 of § 1002.1 shall submit an annual report summarizing the contents of the records required to be maintained by § 1002.30(a) and providing the volume of products produced, sold, or installed.

(b) Reports are due annually. Such reports shall cover the 12-month period ending on June 30 preceding the due date of the report.

(c) New models of a model family that do not involve changes in radiation emission or requirements of a performance standard do not require supplemental reports prior to introduction into commerce. These model numbers should be reported in quarterly updates to the annual report.

9. Section 1002.20 is amended by adding a sentence at the end of paragraph (c) to read as follows:

§ 1002.20 Reporting of accidental radiation occurrence.

* * * * *

(c) * * * A manufacturer need not file a separate report under this section if an incident involving an accidental radiation occurrence is associated with a defect or noncompliance and is reported pursuant to § 1003.10 of this chapter.

10. Section 1002.30 is amended in the first sentence of paragraph (a) introductory text, by removing "under paragraphs (b) and (c) of § 1002.61" and adding in its place "in Table 1 of § 1002.1"; in paragraph (b) introductory text, by removing "paragraph (c) of § 1002.61" and adding in its place "Table 1 of § 1002.1"; and adding new paragraph (a)(5) to read as follows:

§ 1002.30 Records to be maintained by manufacturers.

(a) * * *

(5) Data on production and sales volume levels if available.

* * * * *

§ 1002.31 [Amended]

11. Section 1002.31 *Preservation and inspection of records* is amended in paragraph (c) by removing "paragraph (c) of § 1002.61" and adding in its place "Table 1 of § 1002.1".

12. Section 1002.40 is amended by revising paragraph (a) to read as follows:

§ 1002.40 Records to be obtained by dealers and distributors.

(a) Dealers and distributors of electronic products for which there are performance standards and for which the retail price is $50 or more shall obtain such information as is necessary to identify and locate first purchasers if the product is subject to this section by virtue of Table 1 of § 1002.1.

* * * * *

13. Section 1002.50 is revised to read as follows:

§ 1002.50 Special exemptions.

(a) Manufacturers of electronic products may submit to the Director, Center for Devices and Radiological Health, a request together with accompanying justification for exemption from any requirements listed

in Table 1 of § 1002.1. The request must specify each requirement from which an exemption is requested. In addition to other information which is required, the justification must contain documented evidence showing that the product or product type for which the exemption is requested does not pose a public health risk and meets at least one of the following criteria:

(1) The products cannot emit electronic product radiation in sufficient intensity or of such quality under any conditions or use or product failure to be hazardous;

(2) The products are produced in small quantities;

(3) The products are used by trained individuals and are to be used by the same manufacturing corporation or for research, investigation, or training.

(4) The products are custom designed and used by trained individuals knowledgeable of the hazards; or

(5) The products are produced in such a way that the requirements are inappropriate or unnecessary.

(b) The Director, Center for Devices and Radiological Health, may, subject to any conditions that he/she deems necessary to protect the public health, exempt manufacturers from all or part of the record and reporting requirements of this part on the basis of information submitted in accordance with paragraph (a) of this section or such other information which he/she may possess if he/she determines that such exemption is in keeping with the purposes of the Act.

(c) The Director, Center for Devices and Radiological Health, will provide written notification of the reason for any denial. If the exemption is granted, the Director will provide written notification of:

(1) The electronic product or products for which the exemption has been granted;

(2) The requirements that are exempted; and

(3) Such conditions as are deemed necessary to protect the public health and safety. Copies of granted exemptions shall be available upon request from the Office of Compliance and Surveillance (HFZ–300), Center for Devices and Radiological Health, 1390 Piccard Dr., Rockville, MD 20850.

(d) The Director, Center for Devices and Radiological Health, may, on his own motion exempt certain classes of products from the reporting requirements listed in Table 1 of § 1002.1, provided that he finds that such exemption is in keeping with the purpose of the Act.

(e) Manufacturers of products for which there is no applicable performance standard under part 1020 of this chapter and for which an investigational device exemption has been approved under § 812.30 of this chapter or for which a premarket approval application has been approved in accordance with § 814.44(d) of this chapter are exempt from submitting all reports listed in Table 1 of § 1002.1.

Subpart G [Removed]

14. Subpart G, consisting of § 1002.61 *List of specific product groups*, is removed.

Dated: May 15, 1990.

James S. Benson,

Acting Commissioner of Food and Drugs.

Title 3—

The President

Proclamation 6212 of October 23, 1990

Polish American Heritage Month, 1990

By the President of the United States of America

A Proclamation

Many Americans proudly trace their roots to Poland, a land whose rich and colorful past is rivalled only by the bright promise of its future. This month, as we celebrate the many contributions that Polish Americans have made to our Nation's history and culture, we also reaffirm the strong and friendly ties between the United States and their ancestral homeland.

Poles were among the first immigrants who came to these shores in search of liberty and opportunity, and they and their descendants have always been in the forefront of efforts to keep America free, strong, and prosperous. During the Revolutionary War, the great Polish heroes Tadeusz Kosciuszko and Kazimierz Pulaski helped to secure the Independence of our fledgling Republic. Since then millions of other men and women of Polish extraction have likewise invested their hopes in this Nation's bold experiment in self-government, working hard to ensure its success and inspiring us all through their great faith in God and their devotion to democratic ideals.

While Polish Americans have inspired us by their example, they have also enriched us through efforts to preserve their unique ethnic heritage. Heirs to the rich historic and cultural legacy established in the land of Copernicus and Chopin, these Americans have shared with their fellow citizens a wealth of Polish music, art, craftsmanship, and folklore.

The deep cultural and familial ties between the peoples of the United States and Poland have long been intertwined with the sturdy fiber of shared values and aspirations. For generations Poles have demonstrated the same belief in individual rights and dignity that inspires our own system of government. The Polish Constitution of May 3, 1791, one of the first written national constitutions in history, was modeled after that of the United States and dramatically asserted the Polish people's desire for liberty and self-determination. Despite decades of repression by ruling officials, military invasion by Nazi Germany and the Soviet Union in 1939, and the declaration of martial law in 1981, the people of Poland have remained firm in their devotion to democratic ideals. During the past year they have thrown off the heavy yoke of communism and begun to enter the community of free nations. Under the leadership of Eastern Europe's first non-Communist government in more than 40 years, they have been working to build a new economic order to break the cycle of impoverishment and decline imposed by nearly half a century of totalitarian rule.

The United States wholeheartedly supports Poland's democratic transition and her people's ongoing efforts to establish a pluralistic society and free market economy. In addition to direct financial aid, the United States has launched a series of initiatives designed to encourage private sector investment in Poland and to promote the growth of market institutions in that country. In May, I proudly announced the decision to create the Citizens Democracy Corps, whose first mission is to establish a center and clearinghouse for American private sector assistance and voluntary activities in Eastern Europe. Moreover, throughout the past several months, U.S. Government officials, as well as business and labor leaders, have traveled to Poland

to share their expertise and to help establish cooperative ventures in areas such as agriculture, business management, and financial services.

Polish Americans are especially proud of the positive developments that have been taking place in their ancestral homeland, and rightly so. During this Polish American Heritage Month, we celebrate both their unique ethnic identity and the enduring ties that unite all Americans with the courageous, freedom-loving people of Poland.

The Congress, by Senate Joint Resolution 289, has designated October 1990 as "Polish American Heritage Month" and has authorized and requested the President to issue a proclamation in observance of this month.

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, do hereby proclaim October 1990 as Polish American Heritage Month. I urge all Americans to join their fellow citizens of Polish descent in observance of this month.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-third day of October, in the year of our Lord nineteen hundred and ninety, and of the Independence of the United States of America the two hundred and fifteenth.

George Bush

The Federal Register

Regulations appear as agency documents which are published daily in the Federal Register and codified annually in the Code of Federal Regulations

The Federal Register, published daily, is the official publication for notifying the public of proposed and final regulations. It is the tool for you to use to participate in the rulemaking process by commenting on the proposed regulations. And it keeps you up to date on the Federal regulations currently in effect.

Mailed monthly as part of a Federal Register subscription are: the LSA (List of CFR Sections Affected) which leads users of the Code of Federal Regulations to amendatory actions published in the daily Federal Register; and the cumulative Federal Register Index.

The Code of Federal Regulations (CFR) comprising approximately 199 volumes contains the annual codification of the final regulations printed in the Federal Register. Each of the 50 titles is updated annually.

Individual copies are separately priced. A price list of current CFR volumes appears both in the Federal Register each Monday and the monthly LSA (List of CFR Sections Affected). Price inquiries may be made to the Superintendent of Documents, or the Office of the Federal Register.

Superintendent of Documents Subscription Order Form

Public Laws

are now available for the 101st Congress, 2nd Session, 1990

Pamphlet prints of public laws, often referred to as slip laws, are the initial publication of Federal laws upon enactment and are printed as soon as possible after approval by the President. Legislative history references appear on each law. Subscription service includes all public laws, issued irregularly upon enactment, for the 101st Congress, 2nd Session, 1990.

(Individual laws also may be purchased from the Superintendent of Documents, Washington, DC 20402-9328. Prices vary. See Reader Aids Section of the Federal Register for announcements of newly enacted laws and prices).

BEST COPY AVAILABLE

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The Federal Register provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the [illegible].

The seal of the National Archives and Records Administration authenticates this issue of the Federal Register as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the Federal Register shall be judicially noticed.

The Federal Register will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the Federal Register.

How To Cite This Publication: Use the volume number and the page number. Example: 55 FR 12345.

Title 3—

The President

Proclamation 6213 of October 24, 1990

National Domestic Violence Awareness Month, 1990

By the President of the United States of America

A Proclamation

For most Americans, home is, as it should be, a beloved place of refuge, a place where one can enjoy the unconditional love and acceptance of his or her family as well as physical comfort and security. Tragically, however, for far too many of our citizens the blessings of home and family are marred by domestic violence.

Each year, hundreds of thousands of Americans—people of every age, gender, and race, and from every social, religious, and economic background—are affected by domestic violence. Domestic violence is not just a series of angry exchanges or the kind of simple quarrels that occur occasionally in almost every family. Rather, it is a grave pattern of destructive behavior and a serious crime problem that inflicts untold harm upon individuals and families and weakens the very fabric of our society.

Domestic violence involves not only spouses, but also some of our Nation's most vulnerable citizens. Its victims include abused and neglected children, elderly relatives, and persons with disabilities. In every case, domestic violence leaves deep physical and emotional scars, often haunting for years the children who suffer or simply witness its terrifying effects. All too often, domestic violence results in death.

Fortunately, Americans throughout both the public and private sectors are working to assist the victims of domestic violence and to stop the vicious cycle of abuse and despair. Law enforcement officials at the Federal, State, and local level, health care providers, members of private voluntary organizations, the clergy, and other concerned citizens are engaged in efforts to prevent domestic violence and to provide shelter and counseling for its victims. Many communities now have special outreach programs and residential services for affected individuals and families.

This month we recognize the generosity, compassion, and hard work of all those volunteers and professionals who are working to prevent domestic violence and to help its victims. We also reaffirm our support for their vital efforts.

The Congress, by House Joint Resolution 602, has designated October 1990 as "National Domestic Violence Awareness Month" and has authorized and requested the President to issue a proclamation in observance of this month.

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, do hereby proclaim October 1990 as National Domestic Violence Awareness Month. I urge all Americans to observe this month by learning more about the tragedy of domestic violence and how each of us can help bring an end to it.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-fourth day of October, in the year of our Lord nineteen hundred and ninety, and of the Independence of the United States of America the two hundred and fifteenth.

George Bush

Vol. 55, No. 208
Friday, October 26, 1990

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1005

[DA-90-031]

Milk in the Carolina Marketing Area; Temporary Revision of Pool Distributing Plant Route Disposition Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Temporary revision of rules.

SUMMARY: This action decreases temporarily the route disposition requirements applicable to a pool distributing plant under the Carolina milk order. For the months of October and November 1990 and January and February 1991, the percentage of route disposition by a pool distributing plant is decreased from 60 percent to 50 percent. The action was requested by a cooperative association and a proprietary handler. The revision, as indicated by proponents, would avoid some additional costs in pooling milk at one of two distributing plants operated by the handler.

EFFECTIVE DATE: October 1, 1990 through February 28, 1991.

FOR FURTHER INFORMATION CONTACT: Robert F. Groene, Marketing Specialist, USDA/AMS/Dairy Division, Order Formulation Branch, room 2968, South Building, P.O. Box 96456, Washington, DC 20090-6456 (202) 447-2089.

SUPPLEMENTARY INFORMATION: Prior document in this proceeding:

Notice of proposed Temporary Revision of Pool Distributing Plant Route Disposition Requirements: Issued September 18, 1990; published September 24, 1990 (55 FR 39002).

The Regulatory Flexibility Act (5 U.S.C. 601-612) requires the Agency to examine the impact of a rule on small entities. Pursuant to 5 U.S.C. 605(b), the Administrator of the Agricultural Marketing Service has certified that this action will not have a significant economic impact on a substantial number of small entities. Such action eliminates the need to make uneconomic shipments of milk to meet the pooling standards of the order.

This rule has been reviewed by the Department in accordance with Departmental Regulation 1512-1 and the criteria contained in Executive Order 12291 and has been determined to be a "non-major" rule.

This revision is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and the provisions of § 1005.7(a)(2) of the order.

Notice of proposed rulemaking was published in the Federal Register (55 FR 39002) concerning a proposed decrease in the route disposition percentages for a pool distributing plant for the months of September through November 1990 and January and February 1991. The public was offered the opportunity to comment on the proposal by submitting written data, views and arguments by October 1, 1990. One comment was received in support of the revision. No comments were received in opposition to the revision.

Statement of Consideration

This action decreases the Carolina milk order's route disposition percentages for a pool distributing plant for the months of October and November 1990 and January and February 1991. The revision decreases for such months the distributing plant route disposition requirements from 60 percent to 50 percent.

Southern Milk Sales, Inc. and Hunter Jersey Farms, Inc. (Hunter Jersey) requested the action. The proponents indicated that Hunter Jersey operates two distributing plants located in the marketing area. One of the two plants is expected to have about 50 percent route disposition and the other plant is expected to have about 86 percent route disposition. The combined route disposition of the two plants would be about 72 percent.

Proponents also requested that the order be amended to permit any handler that operates two or more distributing plants to combine the receipts and utilization of milk and milk products at such plants for reporting purposes. Pending the completion of such amendatory proceeding, proponents have requested that the Director of the Dairy Division lower the 60 percent route disposition standard by 10 percent points.

Unless this action is granted, Hunter Jersey would have to incur additional costs in order to pool the milk received at the plant having about 50 percent route disposition. The other alternative would be to not pool the plant which would result in a reduction in income for the dairy farmers supplying such plant.

Interested parties were provided 7 days after publication of the proposed temporary revision for submitting written comments. The Carolina-Virginia Milk Producers Association filed comments in support of the temporary revision. No comments in opposition to the proposed action were filed.

The time needed to complete the revision procedures, however, does not permit the inclusion of the month of September in this action. It is appropriate under the circumstances, therefore, to relax the aforementioned provision of § 1005.7(a)(2) for the months of October and November 1990 and January and February 1991. A reduction of the route disposition percentage to 50 percent for this period should avoid the additional expense that a handler would otherwise incur in meeting the pooling requirements of the order.

It is hereby found and determined that 30 days' notice of the effective date hereof is impractical, unnecessary, and contrary to the public interest in that:

(a) This temporary revision is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area;

(b) This temporary revision does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Notice of the proposed temporary revision was given interested parties and they were afforded opportunity to file written data, views, or arguments concerning this temporary revision.

Therefore, good cause exists for making this temporary revision effective October 1, 1990 through February 28, 1991.

List of Subjects in 7 CFR Part 1005

Milk marketing orders.

It is therefore ordered, that the following provision of § 1005.7(a)(2) is hereby revised for the months of October and November 1990 and January and February 1991.

PART 1005—MILK IN THE CAROLINA MARKETING AREA

1. The authority for 7 CFR part 1005 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).

§ 1005.7 [Amended]

2. In § 1005.7(a)(2) the provision "60 percent" is revised to "50 percent" for the months of October and November 1990 and January and February 1991.

Signed at Washington, DC, on: October 22, 1990.

W. H. Blanchard,

Director, Dairy Division.

BILLING CODE 3410-02-M

NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Parts 701 and 741

Organization and Operations of Federal Credit Unions; Requirements for Insurance

AGENCY: National Credit Union Administration (NCUA).

ACTION: Final rule.

SUMMARY: This action implements section 914 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA") by adding new §§ 701.14 and 741.8 to NCUA's Regulations. These sections require that federally insured insured credit unions within specified categories file a notice with NCUA prior to adding or replacing a member of the board of directors, committee member or senior executive officer. NCUA may disapprove any change that it determines not to be in the best interests of the members of the credit union or the public.

EFFECTIVE DATE: November 26, 1990.

ADDRESSES: National Credit Union Administration, 1776 G Street NW., Washington, DC 20456.

FOR FURTHER INFORMATION CONTACT: Michael J. McKenna, Staff Attorney, Office of General Counsel, at the above address or telephone: (202) 682–9630.

SUPPLEMENTARY INFORMATION:

A. Background

FIRREA amended the Federal Credit Union Act (FCU Act) by adding a new section 212 (12 U.S.C. 1791). Section 212 requires that an insured credit union that has been chartered less than 2 years or is in troubled condition notify NCUA at least 30 days prior to the addition of any individual to the board of directors or a committee or the employment of any individual as a senior executive officer. If NCUA issues a Notice of Disapproval, the insured credit union is prohibited from making the change. To implement section 212, NCUA is adding §§ 701.14 and 741.8 to its regualtions. These sections define key terms and establish notice and application requirements. As mandated by FIRREA, the requirements apply to all federally insured credit unions.

In a separate action, NCUA is issuing a final regulation establishing the appeal process for those cases where the proposed addition or change in directors, committee members or senior employees is disapproved. That regulation is being published in the **Federal Register** simultaneously with this action and will be contained in part 747 of the NCUA Rules and Regulations (12 CFR part 747).

B. Comments

The NCUA Board issued a proposed rule on March 20, 1990 (55 FR 12852, 4/6/90)). Fifty comments were received. Thirty of the commenters were federal credit unions and nine were state-chartered credit unions. Four commenters were state credit union leagues and three were national credit union trade associations. Two comments were received from state regulatory agencies. Comments were also received from a law firm and a banker's trade association. As many commenters favored the proposed rule as opposed it, with most commenters recommending at least one change in the final regulation.

C. Discussion

Troubled Credit Union

Section 212(f) of the FCU Act as added by FIRREA directs the NCUA Board to prescribe by regulation a definition of "troubled credit union." The definition is found in § 701.14(b)(3) of the final rule. The proposed definition included all credit unions assigned a composite rating of 4 or 5 under the CAMEL Rating System by the NCUA or the state supervisor; all credit unions subject to adinistrative action proceedings as outlined in section 206 of the FCU Act (12 U.S.C. 1786) or similar action by the appropriate state supervisory authority; credit unions which had been granted assistance as outlined under section 116 or 206 of the FCU Act (12 U.S.C. 1762 or 1788); and credit unions that were informed in writing, based on an examination, supervisory contract, or insurance review that they had been designated as in a "troubled condition" for purposes of this regulation. A credit union receiving a Letter of Understanding and Agreement ("LUA") based on safety and soundness concerns was also included. Few commenters approved of the definition in the proposed rule. A number of commenters found the definition to be unnecessarily broad and subjective.

Six commenters objected to the inclusion of all credit unions subject to an LUA. These commenters argue that if a credit union has received an LUA and is taking appropriate steps to satisfy the requirements set forth in the LUA, then it need not be included in the definition. The NCUA Board agrees and has removed this provision from the final rule.

Three commenters argued that NCUA sending a letter to a credit union based on supervisory contact, examination, or insurance review should not automatically place the credit union in the "troubled condition" category without an investigation into the accuracy of such claims. The NCUA Board agrees that this aspect of the proposal has some potential for administrative misues. Further, other provisions of this definition will generally cover any credit union in troubled condition. Accordingly, this provision is not included in the final rule.

One Commenter objected to including within the definition a credit union granted assistance pursuant to section 116 of the the FCU Act, that is, a credit union receiving a decrease or waiver of its usual reserve transfer requirement. The Board continues to believe that a credit union that is not able to meet the normal statutory reserve transfer requirements expected of a healthy credit union must be considered a troubled credit union for purposes of section 212 and hence those credit unions remain within the definition.

Another commenter did not believe that a credit union should fall within the definition solely because it is involved in an administrative action proceeding pursuant to section 206 of the FCU Act. The Board agrees that administrative action, depending on the facts and nature of a given case, may have little or nothing to do with the financial health of the credit union, and that in those cases

were the credit union is in troubled financial condition, the definition will be triggered under its other provisions. Accordingly, credit unions involved in section 208 proceedings are not included in the final rule.

Four commenters objected to including credit unions that have been chartered less than 2 years within the definition. The thrust of this argument is that if there are no problems in the credit union that threaten safety and soundness, the credit union should be allowed to function normally. Those commenters apparently have overlooked the fact that FIRREA mandates that credit unions chartered for less than two years be included in the notice provisions.

In summary, the definition of troubled credit union has been narrowed in the final rule, and covers those specific, and readily identifiable cases necessary to meet the statutory mandate. The definition is limited to those credit unions assigned a Code 4 or 5 CAMEL rating or those that have been granted assistance under section 116 (reserve transfer) or 208 (National Credit Union Share Insurance Fund (NCUSIF) financial assistance) of the FCU Act (12 U.S.C. 1762 and 1788). The Board believes this definition is consistent with the intent of section 212 of the FCU Act added by FIRREA and at the same time appropriately limits the number of cases where NCUA review and approval is required, thus reducing associated costs and administrative burdens. A broad definition is not necessary because, unlike other financial institutions, the management of a credit union is elected by its member/owners, and thus it is not possible for outsiders to purchase control of, and abuse, a troubled institution.

Senior Executive Officer

Section 212(f) of the amended FCU Act directs the NCUA Board to define "senior executive officer." The definition is found in § 701.14(b)(2) of the final rule. In the proposed rule, the definition included any individual who exercised significant influence over, or participated in, major policy-making decisions of an insured credit union, without regard to title, salary, or compensation. Certain positions, listed in generic form, were automatically covered. Included were senior executive officer (president/manager/treasurer), assistant senior executive officer (vice-president/assistant manager/assistant treasurer) and chief financial officer. The term "senior executive officer" also included employees of an entity, such as a consulting firm, hired to perform the functions of positions covered by the regulation. Eight commenters suggested a change in this definition. Most of these commenters suggested that the definition was overinclusive. Some commenters would not include individuals holding the positions of vice president or assistant manager within the definition because the individuals holding these positions, in their view, do not have significant influence on the actions of credit unions. The NCUA Board disagrees. By definition, a vice president or assistant manager holds a senior position, ranking immediately below the president or manager, serves as a deputy or assistant in carrying out management functions, and is empowered, among other things, to assume the duties of president or manager in that individual's absence. The Board believes the intent of FIRREA requires the inclusion of these positions.

Three commenters objected to including outside employees of a credit union, such as a consulting firm. These commenters believe that including individuals who have the status of independent contractors in the definition is inappropriate because they are outside the scope of section 212. The NCUA Board believes such individuals should be included since they can make management decisions. It should be noted that such outside employees are included only to the extent that they perform functions of a senior executive officer. Where that is the case, the Board believes their inclusion is required to fulfill the Congressional intent of section 212.

The NCUA Board does not believe that the proposed definition of "senior executive officer" was overinclusive. However, for the sake of clarity and consistency, the definition has been reworded so it conforms to similar definitions of "senior management employee" located elsewhere in NCUA's Rules and Regulations. (*See*, e.g., §§ 701.21(c)(8) and 721.2(c), 12 CFR 701.21(c)(8) and 721.2(c).)

Laterals and Transfers

The NCUA Board requested comment on whether section 212's notice requirement should include promotions and lateral transfers to senior positions. Two commenters believed they should be included. Four commenters recommended they be excluded. Inasmuch as a promotion or lateral transfer results in a new individual filling the affected senior executive position, the Board has concluded that the change constitutes "employment" within the meaning of section 212, of a new individual with respect to that position, and the notice requirement should be triggered. With respect to section 212's coverage of the "proposed addition of any individual to the board of directors," the rule covers not only increases in board membership, but also replacement of board members and the filling of vacancies on the board.

Notification

Section 212(a) requires that the credit unions provide NCUA at least 30 days advance notice of any management change covered by the rule. Section 212(c) provides for NCUA waiver of the advance notice requirement under certain circumstances. These provisions are implemented by § 701.14(d) of the final rule. Final § 701.14(d) is substantially unchanged from the proposal. Some additional changes have been made, including the addition of language in § 701.14(d)(2) clarifying that, in those cases where prior notice is waived, NCUA may, in its discretion, require notice at the time of or after the individual's assumption of office, and that in those cases, the right of disapproval runs for 30 days after receipt of the notice.

Nine commenters disagreed with the 30-day decision period of the proposed rule. These commenters argue that this decision period is excessive and will make it difficult for credit unions to attract good people because many qualified people may be unwilling to be kept in limbo for 30 days while NCUA reviews their character. These commenters apparently overlooked the fact that section 212 of the Act mandates the 30-day decision period. In any event, these commenters' concerns should be mitigated by the fact that, under § 701.14(e) of the proposed and final rules, an individual may commence service while waiting for NCUA's decision.

The proposed rule stated that prior notice would not be required when directors are elected at members' meetings, but that information on newly elected directors would have to be submitted to NCUA within 48 hours of the election. NCUA asked for comment on how to address the situation where the NCUA Board disapproves of an elected candidate.

Four commenters recommended that the board of directors of the credit union appoint its own alternate director to serve until the next annual meeting, contingent upon subsequent NCUA approval. The NCUA Board agrees with this recommendation and has incorporated it into the final rule. This procedure is consistent with the authority of the board of directors to fill a vacancy on the board. (See section

111(a) of FCU Act, 12 U.S.C. 1761(a).) The Board has also added the same procedure for elected credit committee members since federal credit unions have the option of either an elected or appointed credit committee.

State Involvement

Nine commenters requested the involvement of the state regulator in the approval process. Most of these commenters believe that state officials are generally more familiar with the details and personalities in state chartered credit unions. Commenters also suggested consultation between the state regulator and the NCUA Regional Director before issuing a notice of disapproval or approval. The NCUA Board agrees and has incorporated into the final rule a requirement that the prior notification be sent by federally insured state chartered credit unions concurrently to the state regulator and to NCUA. NCUA will consult with the appropriate state supervisor before issuing a notice of approval or disapproval.

Regulatory Flexibility Analysis

The NCUA Board hereby certifies that this regulation does not have a significant impact on a substantial number of small credit unions because the rule applies only to newly chartered and troubled credit unions. Federally insured credit unions will only be required to report if changes in officials or senior executives occur. Accordingly, the NCUA Board has determined that a Regulatory Analysis is not required.

Executive Order 12612

This regulation will apply to all federally insured credit unions. The NCUA Board, pursuant to Executive Order 12612, has determined that the final amendment may have a direct effect on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. However, FIRREA requires that this regulation apply to all federally insured credit unions. To mitigate any adverse effects, the final rule contains provisions mandating that required notices be submitted by federally insured state chartered credit unions to the state regulator as well as NCUA.

Paperwork Reduction Act

The Office of Management and Budget has approved the collection requirements contained in § 701.14 of NCUA's Regulations (OMB No. 3133–0033) relating to the notice of change of officials and senior executive staff.

List of Subjects in 12 CFR Parts 701 and 741

Troubled credit unions, Senior executive officials, Notice of disapprovals, and Prior notice requirements.

By the National Credit Union Administration Board on October 19, 1990.

Becky Baker,

Secretary of the Board.

Accordingly, NCUA amends its regulations as follows:

PART 701—ORGANIZATION AND OPERATIONS OF FEDERAL CREDIT UNIONS

1. The authority citation for part 701 continues to read as follows:

Authority: 12 U.S.C. 1752(5), 1755, 1756, 1757, 1759, 1761a, 1761b, 1765, 1767, 1782, 1784, 1787, 1789, and Pub. L. 101–73. Section 701.6 is also authorized by 31 U.S.C. 3717. Section 701.31 is also authorized by 15 U.S.C. 1601 *et seq.*, 42 U.S.C. 1981 and 42 U.S.C. 3601–3610.

2. Section 701.14 is added to read as follows:

§ 701.14 Change in official or senior executive officer in credit unions that are newly chartered or are in troubled condition.

(a) *Statement of scope and purpose.* Section 212 of the Federal Credit Union Act (12 U.S.C. 1791) sets forth conditions under which a credit union must notify NCUA in writing of any proposed changes in its board of directors, committee members or senior executive staff. The regulation only applies in cases of newly chartered credit unions and credit unions in troubled condition.

(b) *Definitions.* For the purposes of this section:

(1) *Committee member* means any individual who serves as an official of the credit union in the capacity of a credit committee member or supervisory committee member.

(2) *Senior executive officer* means a credit union's chief executive officer (typically this individual holds the title of president or treasurer/manager), any assistant chief executive officer (e.g., any assistant president, any vice president or any assistant treasurer/manager) and the chief financial officer (controller). The term "senior executive officer" also includes employees of an entity, such as a consulting firm, hired to perform the functions of positions covered by the regulation.

(3) *Troubled condition* means any insured credit union that has one or a combination of the following conditions:

(i) Has been assigned

(A) A 4 or 5 Camel composite rating by the NCUA in the case of a federal credit union, or

(B) An equivalent 4 or 5 Camel composite rating by the state supervisor in the case of a federally insured, state-chartered credit union, or

(C) A 4 or 5 Camel composite rating by NCUA based on core workpapers received from the state supervisor in the case of a federally insured, state-chartered credit union in a state that does ot use the Camel system. In this case, the state supervisor will be notified in writing by the Regional Director in the Region in which the credit union is located that the credit union has been designated by NCUA as a troubled institution;

(ii) Has been granted assistance as outlined under sections 116 or 208 of the Federal Credit Union Act.

(c) *Prior notice requirement.* An insured credit union shall give NCUA written notice at least 30 days prior to the effective date of any addition or replacement of a member of the board of directors or committee member or the employment or change in responsibilities of any individual to a position as a senior executive officer if:

(1) The credit union has been chartered for less than 2 years; or

(2) The credit union meets the definition of troubled condition as set forth in paragraph 701.14(b)(3).

(d) *Procedures for notice of proposed change in official or senior executive officer.* (1) Filing and acceptance. Notices shall be filed with the appropriate Regional Director. State-chartered federally insured credit unions shall also file a copy of the notice with their state supervisor. The notice shall contain information pertaining to the competence, experience, character, or integrity of the individual with respect to whom the notice is submitted, subject to the authority of the Regional Director or his or her designee to require additional information. The information submitted must include the identity, personal history, business background, and experience of the individual, including material business activities and affiliations during the past 5 years, and a description of any material pending legal or administrative proceedings in which the individual is a party and any criminal indictment or conviction of such person by a state or Federal court. Each individual on whose behalf the notice is filed must attest to the validity of the information filed. At the option of the individual, the information may be forwarded to the Regional Director by the individual; however, in such cases, the credit union

must file a notice to that effect. The credit union submitting the notice shall be notified in writing of the date on which all required information is received and the notice is accepted for processing. Before the end of the 30-day period beginning on the date NCUA accepts the information for processing, the Regional Director will issue a written notice to the individual and the credit union of disapproval or approval of the proposed official or employee. If, after the 30-day period has ended, the individual has not been informed in writing of NCUA's disposition, the individual shall be considered approved.

(2) Waiver of prior notice requirement. Parties may petition the appropriate Regional Director for a waiver of the prior notice required under this section. Waiver may be granted if it is found that delay could harm the credit union or the public interest. Any waiver shall not affect the authority of NCUA to issue a Notice of Disapproval within 30 days of the waiver, or within 30 days of any subsequent required notice.

(3) Election of directors or credit committee members. (i) In the case of the election of a new member of the board of directors or credit committee member at a meeting of the members of a federally insured credit union, prior notice is not required. However, a completed notice must be filed with the appropriate Regional Director within 48 hours of the election.

(ii) If a director or credit committee member is disapproved by NCUA, the board of directors of the credit union may appoint its own alternate, to serve until the next annual meeting, contingent upon NCUA approval.

(e) *Commencement of service.* A proposed director, committee member or senior executive officer may begin to serve temporarily until the credit union and the individual are notified in writing of NCUA's approval or disapproval of the proposed addition or employment.

(f) *Notice of disapproval.* NCUA may disapprove the individual's serving as a director, committee member or senior executive officer if it finds that the competence, experience, character, or integrity of the individual with respect to whom a notice under this section is submitted indicates that it would not be in the best interests of the members of the credit union or of the public to permit the individual to be employed by, or associated with, the credit union. The Notice of Disapproval will advise the parties of their rights of appeal pursuant to part 747 subpart L, of NCUA's Regulations (12 CFR 747.1201 et seq.).

PART 741—[AMENDED]

1. Part 741, Requirements for Insurance, is amended as follows:

2. The authority citation for part 741 continues to read as follows:

Authority: 12 U.S.C. 1757, 1766, 1781 through 1790, and Pub. L. 101–73. Section 741.9 is also authorized by 31 U.S.C. 3717.

§§ 741.8–741.12 [Redesignated as §§ 741.9–741.13]

3. Sections 741.8, 741.9, 741.10, 741.11 and 741.12 are redesignated as §§ 741.9, 741.10, 741.11, 741.12 and 741.13, respectively.

4. A new § 741.8 is added to read as follows:

§ 741.8 Reporting requirements for credit unions that are newly chartered or in troubled condition.

Any federally insured credit union chartered for less than 2 years or any credit union defined to be in troubled condition as set forth in § 701.14(b)(3) must adhere to the requirements stated in § 701.14(c) concerning the prior notice and NCUA review. Credit unions must submit required information to both the appropriate NCUA Regional Director and their state supervisor. NCUA will consult with the state supervisor before making its determination pursuant to § 701.14(d)(2) and (f). NCUA will notify the state supervisor of its approval/disapproval no later than the time that it notifies the affected individual pursuant to § 701.14(d)(1).

12 CFR Part 741

Requirements for Insurance

AGENCY: National Credit Union Administration (NCUA).
ACTION: Final amendment.

SUMMARY: A limited number of states authorize state-chartered credit unions to offer "uninsured membership shares." These shares are at risk to the member in the event of liquidation of the credit union. The purpose of this final amendment is to provide that, as a condition of federal share insurance, federally insured state-chartered credit unions may not offer these uninsured shares. This amendment will only affect a small number of credit unions.
EFFECTIVE DATE: November 26, 1990.
ADDRESSES: National Credit Union Administration, 1776 G Street NW., Washington, DC 20456.
FOR FURTHER INFORMATION CONTACT: Michael J. McKenna, Office of General Counsel, at the above address or telephone: (202) 682–9630.
SUPPLEMENTARY INFORMATION:

A. Background

In general, the aggregate of a member's individual share accounts in a federally insured credit union is insured up to $100,000 by the National Credit Union Share Insurance Fund (NCUSIF). There may be as many as thirteen state statutes, however, that authorize state-chartered credit unions to have uninsured membership shares. The amount of a member's uninsured share may be as little as a few dollars or as much as several thousand dollars, depending on state law and the policies of the individual credit union. In any case, a situation is presented where, even though the member may have significantly less than $100,000 in his combined individual share accounts, an initial amount of the member's funds is not insured.

The NCUA has a number of concerns with uninsured membership shares:

—Section 207(k)(1) of the FCU Act (12 U.S.C. 1787(k)(1)) states in part that "the term 'insured account' means the total amount of the account in the member's name (after deducting offsets) less any part thereof which is in excess of $100,000" and that "in determining the amount due any member, there shall be added together all accounts maintained by him * * *." Thus, the FCU Act does not appear to contemplate uninsured membership shares; rather, it indicates an intent to provide insurance coverage on all of the first $100,000. This is consistent with the purpose of share insurance; to protect the average saver.

—Federally insured credit unions are required to place an official sign, regarding federal insurance coverage up to $100,000, at all branches and at all teller stations or windows where insured shares are received (see 12 CFR 740.3). Also, many credit unions routinely advertise federal insurance coverage up to $100,000. NCUA is concerned that if federally insured credit unions require or offer uninsured membership shares, confusion will inevitably result, even where good faith efforts are made to disclose the uninsured status of the account. The failure of a credit union offering these accounts is likely to result in substantial adverse public reaction, litigation, and potentially increased liability to the National Credit Union Share Insurance Fund.

—There appears to be no effective and coherent plan, on the part of some

credit unions offering or planning to offer these accounts, to deal with losses that must be absorbed by uninsured shares. Important questions are not addressed, including whether other capital accounts are used first to absorb losses, what type of notice is to be provided to members, whether the member is obligated to replenish the shares, and whether the credit union is obligated at any point to restore amounts used to absorb losses.

—Proponents of the uninsured membership share concept argue that these shares serve as an additional source of capital to support more rapid asset growth and to enable credit unions to fund new programs and services. While NCUA encourages sound levels of asset growth, it is concerned with the potential for the use of uninsured share to support excessive rates of growth. It is noted that federal credit unions, and the vast majority of state-chartered credit unions, continue to successfully use the traditional method of building capital, *i.e.*, setting aside earnings to both support reasonable rates of asset growth and improve overall capital levels.

B. Comments

The NCUA Board published a proposed rule prohibiting uninsured membership shares on May 3, 1990, with a sixty-day comment period (see 55 FR 18618). Forty comments were received. Fifteen of the commenters were state-chatered credit unions and ten were federal credit unions. Six of the commenters were credit union leagues and six were state agencies. Three comments were received from national credit union trade associations.

C. Discussion

The commenters were split on the desirability of the proposed amendment. Most of the commenters supporting the prohibition cited NCUA's concerns set forth in the proposed rule and noted above as the basis of their position, with a number of commenters specifically stating that uninsured membership shares will lead to significant confusion among members concerning insurance coverage. A number of commenters believe that the practice is inherently unsafe and unsound.

Half of the commenters disagreed with the proposed rule. Ten commenters stated that uninsured membership shares are a necessary mechanism to accumulate capital. Six commenters disapproved of a blanket prohibition on uninsured membership shares but recommended allowing uninsured membership shares with a limit placed on the amount of share, typically somewhere between $100.00 and $200.00.

Six commenters believe that NCUA has no authority to prohibit uninsured membership shares in state-chartered credit unions. They stated that section 201(b)(7) of the FCU Act requires an agreement from credit unions applying for NCUSIF insurance "not to issue or have outstanding any account * * * the form of which, by regulation or in special cases, has not been approved by the Board except for accounts authorized by State law for State credit unions." These commenters believe that this language expressly permits the states to determine which member accounts are permissible for federally insured state-chartered credit unions.

The NCUA Board disagrees with the commenters' analysis. The Board believes that the commenters are misconstruing section 201(b)(7) of the FCU Act. The fact that a credit union does not have to receive approval by the NCUA Board for state-authorized accounts does not mean that if the practice is unsafe and unsound, the NCUA Board may not prohibit the account as a condition of insurance. Any other interpretation could lead to absurd results. It would allow the states to permit any type of account, without regard to risk to the Share Insurance Fund.

Twelve commenters disagreed with NCUA's reasoning that confusion may arise among members about the uninsured status of uninsured membership shares which may cause adverse public reaction and litigation and could be a threat to the NCUSIF if a credit union offering these accounts failed. These commenters believe that concerns in this area could be adequately addressed by regulation of uninsured shares. In regard to increased liability to the NCUSIF, these commenters believe that, because the shares are uninsured, the only risk would come from inadequate disclosure, which NCUA can regulate. Numerous commenters agreeing with the proposed regulations cited the disclosure problem as the primary reason for their support of the prohibition.

Nine commenters disagreed with NCUA's concern that there is no coherent plan by credit unions offering or planning to offer uninsured membership shares for dealing with losses on these types of accounts. The commenters believe that NCUA can promulgate regulations to create an effective and coherent plan concerning how to deal with losses that must be absorbed by uninsured membership shares.

Although NCUA could regulate this area, the NCUA Board's belief that this type of activity presents potential safety and soundness problems dissuades the Board at this time from encouraging the development of uninsured membership share through the regulation of disclosure requirements and plans for losses.

Ten commenters disagreed with NCUA's concern that the traditional mechanisms for raising capital are adequate and that uninsured membership shares may be used to support excessive growth. The commenters believe that these accounts will serve as additional capital to absorb investment, loan and/or operating losses. They believe any concern about unhealthy asset growth can be handled by regulation. While it might be possible to reduce this concern though regulation, variances in state laws concerning uninsured membership shares make the adoption of a uniform system of regulation by NCUA impractical, and the Board continues to believe that any benefits of such action are outweighted at this time by the concerns expressed in the Background discussion above. The Board has adoted the proposed amendment in final form without modification.

Regulatory Requirements

Paperwork Reduction Act

The proposed amendment does not contain any paperwork requirements.

Regulatory Flexibility Act

The NCUA Board has determined and certifies that the proposed amendment will not have a significant economic impact on a substantial number of small credit unions. Accordingly, the Board has determined that a Regulatory Flexibility Analysis is not required.

Executive Order 12612: Effect on the States and State-Chartered Credit Unions

The NCUA Board is aware of only four federally insured state-chartered credit unions that currently offer uninsured membership shares. Under the rule, those credit unions should coordinate with their appropriate Regional Director to either pay out the uninsured shares or convert them to insured shares status. Although the amendment does restrict federally insured state-chartered credit unions from implementing authority granted under state law, the NCUA believes that the protection of the NCUSIF warrants the prohibition. Since the number of

affected credit unions is minimal, the amendment will not have a substantial direct effect on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government.

List of Subjects in 12 CFR Part 741

Credit unions, Uninsured member shares.

By the National Credit Union Administration Board on October 19, 1990.

Becky Baker,

Secretary of the Board.

Accordingly, NCUA amends its regulations as follows:

PART 741—REQUIREMENTS FOR INSURANCE

1. The authority citation for part 741 is revised to read as follows:

Authority: 12 U.S.C. 1757, 1766, 1781 through 1790 and Public Law 101–73. Section 741.11 also issued under 31 U.S.C. 3717.

2. A new § 741.14 is added to read as follows:

§ 741.14 Uninsured membership shares.

Any credit union that is insured pursuant to title II of the Act may not offer membership shares that, due to the terms and conditions of the account, are not eligible for insurance coverage. This prohibition does not apply to shares that are uninsured solely because the amount is in excess of the maximum insurance coverage provided pursuant to part 745.

12 CFR Part 747

Rules of Practice and Procedure

AGENCY: National Credit Union Administration (NCUA).

ACTION: Final rule.

SUMMARY: NCUA is adding a new subpart L to part 747 of its Regulations. Along with new §§ 701.14 and 741.18, issued concurrently with this action, subpart L implements recent amendments to the Federal Credit Union Act requiring prior notice and NCUA approval of senior management changes in certain federally insured credit unions.

DATES: November 26, 1990.

ADDRESSES: National Credit Union Administration, 1776 G Street NW., Washington, DC 20456.

FOR FURTHER INFORMATION CONTACT: Michael J. Mckenna, Staff Attorney, Office of General Counsel, at the above address or telephone: (202) 682–8630.

SUPPLEMENTARY INFORMATION:

A. Background

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) amended the FCU Act by adding a new section 212 (12 U.S.C. 1791). Section 212 requires specified categories of federally insured credit unions to furnish NCUA with a least 30 days' notice before adding any individual to the board of directors or credit or supervisory committees or employing and individual as a senior executive officer. A federally insured credit union is covered by the notice requirement if the credit union: (1) Has been chartered less than 2 years, or (2) is otherwise is a "troubled condition," as defined in § 701.14 of NCUA's Regulations. Section 212 also prohibits the credit union from adding the individual to the board or committee, or employing the individual as a senior executive officer, if NCUA issues a Notice of Disapproval. NCUA is adding subpart L to part 747 of its Regulations to set forth the rights that an individual or a credit union may exercise and procedures which must be followed when NCUA issues a Notice of Disapproval pursuant to section 212 of the FCU Act.

B. Comments

The NCUA Board issued a proposed rule on March 20, 1990 (55 FR 12855, 4/6/90). Fifty comments were received. Thirty of the commenters were federal credit unions. Four commenters were state credit union leagues and three were national credit union trade associations. Two comments were received from state regulatory agencies. Comments were also received from a law firm and a banker's trade association. As many commenters favored the proposed rule as opposed it, with most commenters recommending at least one change in the final regulation.

A number of commenter found the time frame set forth in the proposed rule excessive and potentially unworkable. Other commenters found the substance of the notice and appeal provisions confusing.

Having considered these comments, and after further staff review, the Board has made substantial revisions in order to clarify the final rule.

C. Section-by-Section Discussion

Section 747.1201 sets forth the scope of subpart L. It is substantially the same as in the proposed rule. Reference has been added to the credit and supervisory committees in order to clarify that the rule does not apply to other internal committees of the credit union.

Section 747.1202 sets forth criteria the NCUA Board or its designee will use to issue a Notice of Disapproval, i.e., that the individual's competence, experience, character, or integrity indicate that it would not be in the best interest of the members of the credit union or of the public to permit the individual to be associated with the credit union. The two subsections of the proposed rule have been combined, with no change in substance.

Section 747.1203 sets forth procedures to be followed where a Notice of Disapproval is issued. This section provides that the notice will be served on the credit union and the individual and describes the required content of the Notice. This section has been revised to clarify that, prior to deciding whether to appeal to the NCUA Board, the individual and the credit union may request the Regional Director's reconsideration. This information will be contained in the Notice of Disapproval.

Section 747.1204 sets forth procedures for an appeal to the NCUA Board or its designee of a disapproval by the Regional Director. This section provides that, within 15 days after receipt of a Notice of Disapproval or a denial of a request for reconsideration, the individual or credit union may submit an appeal to the NCUA Board. The section states that the appeal shall be in writing and describes the required contents of the appeal. Appeals will be decided by the board within 90 days of receipt of all required information. The section replaces §§ 747.1204 and 747.1205 of the proposed rule, which had proposed oral hearing procedures for appeals. The Board has determined, based on considerations of time, costs, and agency resources, that appeals on the written record are preferable to oral hearings.

New § 747.1205(a) of subpart L provides that a failure to file an Appeal, either to the initial determination or a decision on a request for reconsideration, is a failure to exhaust administrative remedies and the determination or decision will be deemed to have been accepted by, and binding upon, the individual or credit union. Section 747.1205(b) sets forth those jurisdictions where a petitioner may seek judicial review.

Regulatory Procedures

Regulatory Flexibility Act

The NCUA Board certifies that the final rule will not have a significant impact on a substantial number of small credit unions. The rule sets forth procedures for the handling of statutorily mandated review of changes in officials and senior executive staff and applies only to newly chartered or troubled credit unions. Accordingly, the NCUA Board has determined that a Regulatory Analysis is not required.

Executive Order 12612

This regulation will apply to all federally insured credit unions. The NCUA Board, pursuant to Executive Order 12612, has determined that the final amendment may have a direct effect on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. However, FIRREA requires that this regulation apply to all federally insured credit unions.

Paperwork Reduction Act

The Office of Management and Budget has approved the collection requirement contained in part 747, subpart L, of NCUA's Rules and Regulations (OMB No. 3133–0035) which sets forth the rights that an individual or a credit union may exercise and procedures which must be followed when NCUA issues a Notice of Disapproval pursuant to section 212 of the FCU Act.

List of Subjects in 12 CFR Part 747

Administrative practice and procedure, Credit unions.

By the National Credit Union Administration Board on October 19, 1990.

[redacted]
Secretary of the NCUA Board.

Accordingly, NCUA amends its regulations in 12 CFR chapter VII, part 747, to read as follows:

PART 747—RULES OF PRACTICE AND PROCEDURE

1. The authority citation for part 747 is revised to read as follows:

Authority: 12 U.S.C. 1766, 12 U.S.C. 1786, 12 U.S.C. 1784, 12 U.S.C. 1787, 12 U.S.C. 1791, 12 U.S.C. 1795c.

2. A new subpart L consisting of §§ 747.1201 through 747.1205, is added to read as follows:

Subpart L—Procedure and Standards Applicable to a Notice of Change in Senior Executive Officers, Directors or Committee Members Pursuant to Section 212 of the Act

Sec.
747.1201 Scope.
747.1202 Grounds for disapproval of notice.
747.1203 Procedures where Notices of Disapproval issued; reconsideration.
747.1204 Appeal.
747.1205 Judicial review.

§ 747.1201 Scope.

The rules and procedures set forth in this subpart shall apply to the notice filed by a credit union pursuant to section 212 of the FCU Act, 12 U.S.C. 1791, and § 701.14 of the Rules and Regulations, for the consent of NCUA to add to or replace an individual on the board of directors of supervisory or credit committee, or to employ any individual as a senior executive officer or change the responsibilities of any individual to a position of senior executive officer where the credit union:

(a) Has been chartered less than 2 years; or

(b) Is in "troubled condition," as defined in § 701.14.

§ 747.1202 Grounds for disapproval of notice.

The NCUA Board or its designee may issue a notice of disapproval with respect to a notice submitted by a credit union pursuant to section 212 of the FCU Act and § 701.14 of the Rules and Regulations, where the competence, experience, character, or integrity of the individual with respect to whom such notice is submitted indicates that it would not be in the best interest of the members of the credit union or the public to permit the individual to be employed by, or associated with, such credit union.

§ 747.1203 Procedures where Notice of Disapproval issued; reconsideration.

(a) The Notice of Disapproval shall be served upon the federally insured credit union and the candidate for director, committee member or senior executive officer. The Notice of Disapproval shall:

(1) Summarize or cite the relevant consideration specified in § 747.1202;

(2) Inform the individual and the credit union that, within 15 days of receipt of the Notice of Disapproval, they can request a reconsideration from the regional director of the initial determination or appeal the determination directly to the NCUA Board;

(3) Specify what additional information, if any, must be contained in the reconsideration.

(b) The request for reconsideration must be filed at the appropriate Regional Office.

(c) The Regional Directors shall act on a request for reconsideration within 30 days of its receipt.

§ 747.1204 Appeal.

(a) *Time for filing.* Within 15 days after issuance of a Notice of Disapproval or a determination on a request for reconsideration by the Regional Director, the individual or credit union (henceforth petitioner) may appeal by filing with the Board a written request for appeal.

(b) *Contents of request.* Any appeal must be in writing and include:

(1) The reasons why NCUA should review its disapproval; and

(2) Relevant, substantive and material documents that for good cause were not previously set forth in the notice required to be filed pursuant to section 212 of the FCU Act and § 701.14 of the Rules and Regulations.

(c) *Procedures for review of request.* Within 30 days of the Board's receipt of an appeal, the Board may request in writing that the petitioner submit additional facts and records to support the appeal. The petitioner shall have 15 days from the date of issuance of such written request to provide such additional information. Failure by the petitioner to provide additional information may, as determined solely by the Board or its designee, result in denial of the petitioner's appeal.

(d) *Determination on appeal by NCUA Board or its designee.* (1) Within 90 days from the date of the receipt of an appeal by the NCUA Board or its designee or of its receipt of additional information requested under paragraph (c) of this section, the NCUA Board or its designee shall notify the petitioner whether the disapproval will be continued, terminated, or otherwise modified. The NCUA Board or its designee shall promptly rescind or modify the Notice of Disapproval where the decision is favorable to the petitioner.

(2) The determination by the Board on the appeal shall be provided to the petitioner in writing, stating the basis for any decision of the NCUA Board or its designee that is adverse to the petitioner, and shall constitute a final Agency order.

(3) Failure by the Board to issue a determination on the petitioner's appeal within the 90-day period provided for under this paragraph (d)(1) shall be deemed a denial of the appeal for purposes of § 747.1205.

§ 747.1205 Judicial review.

(a) Failure to file an appeal within the applicable time periods, either to the initial determination or to the decision on a request for reconsideration, shall constitute a failure by the petitioner to exhaust available administrative remedies and, due to such failure, any objections to the initial determination or request for reconsideration shall be deemed to be waived and such determination shall be deemed to have been accepted by, and binding upon, the petitioner.

(b) For purposes of seeking judicial review of actions taken pursuant to this section, suit may be filed in the District Court of the United States in the district where the requestor resides, where the credit union's principal place of business is located, or in the District of Columbia.

BILLING CODE 7535-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Parts 71 and 73

[Airspace Docket No. 90-AWP-6]

Subdivision of Restricted Area R-4807 Tonopah, NV

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: These actions subdivide Restricted Area R-4807 Tonopah, NV, into two separate areas designated as R-4807A and R-4807B. This subdivision will facilitate the release of portions of the existing restricted area for public access when military activities permit. The Continental Control Area is also amended by removing R-4807 and including R-4807A and R-4807B.

EFFECTIVE DATE: 0901 u.t.c., December 13, 1990.

FOR FURTHER INFORMATION CONTACT: Linda Ullom, Military Operations Program Office (ATM-420), Office of Air Traffic System Management, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-7683.

The Rule

These amendments to parts 71 and 73 of the Federal Aviation Regulations alter the existing R-4807 by subdividing it into two separate areas designated as R-4807A and R-4807B. Subdividing the existing R-4807 will result in more efficient management and utilization of airspace by facilitating the release of restricted airspace for public access when military activities permit. The Continental Control Area is also amended by removing R-4807 and including R-4807A and R-4807B. The amendments to this rule are contained totally within existing restricted airspace. No new restricted airspace is established. For the above reasons, I find that notice and public procedure under 5 U.S.C. 553(b) are unnecessary because these actions are minor technical amendments in which the public would not be particularly interested. Sections 71.151 and 73.48 of parts 71 and 73 of the Federal Aviation Regulations were republished in Handbook 7400.6F dated January 2, 1990.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Parts 71 and 73

Aviation safety, Continental control area, and Restricted areas.

Adoption of the Amendments

Accordingly, pursuant to the authority delegated to me, parts 71 and 73 of the Federal Aviation Regulations (14 CFR parts 71 and 73) are amended as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§ 71.151 [Amended]

14 CFR Part 73

[Airspace Docket No. 90-AWP-6]

Change to Controlling Agencies for Restricted Areas; HI

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action changes the controlling agencies for twelve restricted areas in the Hawaiian Islands. The majority of the changes reflect a facility designation change from Air Route Traffic Control Center (ARTCC) to Combined Center Radar Approach Control (CERAP). In the case of R-3109 and R-3110, the controlling agencies are changed from Honolulu Flight Service Station (FSS) to Honolulu Air Traffic Control Tower (ATCT).

EFFECTIVE DATE: 0901 u.t.c., December 13, 1990.

FOR FURTHER INFORMATION CONTACT: Lina Ullom, Military Operations Program Office (ATM-420), Office of Air Traffic System Management, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-7653.

The Rule

This amendment to part 73 of the Federal Aviation Regulations changes the controlling agencies for R-3101, R-3104A, R-3104B, R-3107A and R-3107B from FAA Honolulu ARTCC to FAA, Honolulu CERAP due to a facility designation change. The controlling agency for R-3103 is changed from FAA, Hilo Combined Station/Tower to FAA, Honolulu CERAP. For R-3109A, R3109B, R-3109C, R-3110A, R-3110B and R-3110C, the controlling agencies are changed from FAA, Honolulu FSS to FAA, Honolulu ATCT. These changes are made to create a more operationally advantageous environment for nonparticipants wishing to transit the restricted airspace. This action does not involve a change in the amount of controlled airspace. I find that notice and public procedure under 5 U.S.C. 553(b) are unnecessary because this action is a minor technical amendment in which the public would not be particularly interested. Section 73.31 of part 73 of the Federal Aviation Regulations was republished in Handbook 7400.6F dated January 2, 1990.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore,—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Aviation safety, Restricted areas.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 73 of the Federal Aviation Regulations (14 CFR part 73) is amended, as follows:

PART 73—SPECIAL USE AIRSPACE

1. The authority citation for part 73 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510, 1522; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§ 73.31 [Amended]

2. Section 73.31 is amended as follows:

R-3101 PMRFAC Four, HI [Amended]

By removing "Controlling agency. FAA, Honolulu ARTCC." and substituting "Controlling agency. FAA, Honolulu CERAP."

R-3103 Humuula, HI [Amended]

By removing "Controlling agency. FAA, Hilo Combined Station/Tower." and substituting "Controlling agency. FAA, Honolulu CERAP."

R-3104A, R-3104B Island of Kahoolawe, HI [Amended]

By removing "Controlling agency. FAA, Honolulu ARTCC." and substituting "Controlling agency. FAA, Honolulu CERAP."

R-3107A, R-3107B Kaula Rock, HI [Amended]

By removing "Controlling agency. FAA, Honolulu ARTCC." and substituting "Controlling agency. FAA, Honolulu CERAP."

R-3109A, R-3109B, R-3109C, R-3110A, R-3110B, R-3110C, Schofield-Makuia, Oahu, HI [Amended]

By removing "Controlling agency. FAA, Honolulu FSS." and substituting "Controlling agency. FAA, Honolulu ATCT."

Issued in Washington, DC on October 15, 1990.

Harold W. Becker,

BILLING CODE 4910-13-M

FEDERAL TRADE COMMISSION

16 CFR Part 305

RIN 3084-AA23

Rules for Using Energy Cost and Consumption Information Used in Labeling and Advertising of Consumer Appliances Under the Energy Policy and Conservation Act; Ranges of Comparability for Central Air Conditioners and Heat Pumps

AGENCY: Federal Trade Commission.

ACTION: Final rule.

SUMMARY: The Federal Trade Commission announces that the present ranges of comparability for central air conditioners and heat pumps will remain in effect until new ranges are published, and amends its Appliance Labeling Rule by updating the national average cost figure for electricity that must be used in the cost calculation formulas that manufacturers must provide on fact sheets or in directories. These cost calculation formulas are for consumers to use to calculate their own heating and cooling costs.

EFFECTIVE DATE: January 24, 1991.

FOR FURTHER INFORMATION CONTACT: James Mills, Attorney, Division of Enforcement, Federal Trade Commission, Washington, DC 20580 (202-326-3035).

SUPPLEMENTARY INFORMATION: Section 324 of the Energy Policy and Conservation Act of 1975 (EPCA) [1] requires the Federal Trade Commission to consider labeling rules for the disclosure of estimated annual energy cost or alternative energy consumption information for at least thirteen categories of appliances. Central air conditioners (including heat pumps) are included as one of the categories.

Section 305.8(b) of the rule requires manufacturers, after filing an initial report, to report annually by specified dates for each product type.[2] These

[1] Public Law 94-163, 89 Stat. 871 (Dec. 22, 1975).

[2] Reports for central air conditioners (including heat pumps) are due by July 1.

reports, which are to assist the Commission in preparing the ranges of comparability, contain the estimated annual cost or energy efficiency rating for the appliances derived from tests performed pursuant to the DOE test procedures. The reports also contain the model number, the number of tests performed on each model, and the capacity of each. Because the costs for the various types of energy change yearly, and because manufacturers regularly add new models to their lines, improve existing models and drop others, the data base from which the ranges of comparability are calculated is constantly changing. To keep the required information in line with these changes, the Commission is empowered, under Section 305.10 of the rule, to publish new ranges (but not more often then annually) if an analysis of the new data indicates that the upper or lower limits of the ranges have changed by more than 15%. Otherwise, the Commission must publish a statement that the prior range or ranges remain in effect for the next year.

The annual reports for central air conditioners (including heat pumps) have been received and analyzed and it has been determined to retain the ranges that were published on May 27, 1988.[3] In consideration of the foregoing, the present ranges for central air conditioners (including heat pumps) will remain in effect until the Commission publishes new ranges for these products.

In addition, this Notice provides an updated figure for the annual national average cost of electricity. This figure, along with national average cost figures for natural gas, propane, heating oil and kerosene, is published annually by the Department of Energy for the industry's use in calculating the cost figures required by the Commission's rule. The cost figure for electricity must be used in the cost calculation formulas that appear in appendices H and I. These formulas must be provided on fact sheets and in directories so consumers can calculate their own costs of operation for the central air conditioners and heat pumps that they are considering purchasing. The updated figure, which DOE published on March 12, 1990 (55 FR 9184), is 7.88 cents per kilowatt-hour. The formulas (and calculations) in both appendices have been changed to reflect this.

In consideration of the foregoing, the Commission revises Appendices H(2) and I(2) of its Appliance Labeling Rule by publishing the following cost figures for use in the labeling and advertising of central air conditioners and heat pumps beginning January 24, 1991.

List of Subjects in 16 CFR Part 305

Advertising, Energy conservation, Household appliances, Labeling, Reporting and recordkeeping requirements.

PART 305—[AMENDED]

Accordingly, 16 CFR part 305 is amended as follows:

1. The authority citation for part 305 continues to read as follows:

Authority: Sec. 324 of the Energy Policy and Conservation Act (Pub. L. 94–163) (1975), as amended by the National Energy Conservation Policy Act (Pub. L. 95–619) (1978), the National Appliance Energy Conservation Act (Pub. L. 100–12) (1987), and the National Appliance Energy Conservation Amendments of 1988 (Pub. L. 100–357) (1988), 42 U.S.C. 6294; sec. 553 of the Administrative Procedure Act, 42 U.S.C. 553.

2. In section 2. of both appendices H and I of part 305, the formulas are amended by removing the figure "7.70¢" and adding in its place, the figure "7.88¢". In addition, the formulas are amended by removing the figure "11.55¢" and adding, in its place, the figure "11.82¢".

By direction of the Commission.

Donald S. Clark,

Secretary.

BILLING CODE 6750–01–M

DEPARTMENT OF DEFENSE

Office of the Secretary

32 CFR Part 286

[DoD 5400.7–R]

Freedom of Information Act (FOIA) Program

AGENCY: Office of the Secretary of Defense, DoD.

ACTION: Final rule.

SUMMARY: This revision of 32 CFR part 286 provides substantive and administrative changes. It conforms to recent, significant court rulings in Freedom of Information Act litigation, and provides guidance relative to the treatment of electronic data under the Freedom of Information Act.

EFFECTIVE DATE: October 3, 1990.

ADDRESSES: Office of the Assistant Secretary of Defense (Public Affairs), Washington, DC 20301–1400.

FOR FURTHER INFORMATION CONTACT: Mr. C. Talbott, telephone number (202) 697–1180.

SUPPLEMENTARY INFORMATION: The Department of Defense published a proposed rule on August 31, 1990 (55 FR 35652) for public comments. No comments were received. It is hereby certified that this final rule does not exert a significant economic impact on a substantial number of small entities. This determination is made based upon the fact that the rule merely recodifies the procedural aspects of the Department of Defense's Freedom of Information Act Program, which includes guidance on how and from whom to request information pertaining to the Department of Defense; imposes no new requirements, rights, or benefits on small entities; and will have neither a beneficial nor an adverse effect on small entities.

Authority: 5 U.S.C. 552.

Subpart A—General Provisions

§ 286.1 Purpose.

The purpose of this part is to provide policies and procedures for the Department of Defense (DoD) implementation of the Freedom of Information Act and DoD Directive 5400.7 [1] and to promote uniformity in the DoD Freedom of Information Act (FOIA) Program.

§ 286.2 Applicability.

(a) This part applies to the Office of the Secretary of Defense (OSD) which includes for the purpose of this part the Chairman, Joint Chiefs of Staff and Joint Staff, Unified Commands, the Military Departments, the Defense Agencies, and the DoD Field Activities (hereafter referred to as "DoD Components"), and takes precedence over all DoD Component regulations that supplement the DoD FOIA Program. A list of DoD Components is in Appendix F to this part.

(b) The National Security Agency records are subject to the provisions of this part, only to the extent the records are not exempt under Public Law 86–36.

§ 286.3 DoD public information.

The public has a right to information concerning the activities of its Government. DoD policy is to conduct its activities in an open manner and provide the public with a maximum amount of accurate and timely information concerning its activities, consistent always with the legitimate public and private interests of the American people. A DoD record requested by a member of the public who follows rules established by proper authority in the Department of Defense shall be withheld only when it is exempt from mandatory public disclosure under the FOIA. In order that the public may have timely information concerning DoD activities, records requested through public information channels by news media representatives that would not be withheld if requested under the FOIA should be released upon request. Prompt responses to requests for information from news media representatives should be encouraged to eliminate the need for these requesters to invoke the provisions of the FOIA and thereby assist in providing timely information to the public. Similarly, requests from other members of the public for information should continue to be honored through appropriate means even though the request does not qualify under FOIA requirements.

§ 286.4 Control system.

A request for records that invokes the FOIA shall enter a formal control system designed to ensure compliance with the FOIA. A release determination must be made and the requester informed within the time limits specified in this part. Any request for DoD records that either explicitly or implicitly cites the FOIA shall be processed under the provisions of this part, unless otherwise required by § 286.7(m).

§ 286.5 Definitions.

As used in this part, the following terms and meanings shall be applicable:

(a) *FOIA request.* A written request for DoD records, made by any person, including a member of the public (U.S. or foreign citizen), an organization, or a business, but not including a Federal agency or a fugitive from the law that either explicitly or implicitly invokes the FOIA, DoD Directive 5400.7, this part, or DoD Component supplementing regulations or instructions.

(b) *Agency record.* (1) The products of data compilation, such as all books, papers, maps, and photographs, machine readable materials or other documentary materials, regardless of physical form or characteristics, made or received by an agency of the United States Government under Federal law in connection with the transaction of public business and in DoD's possession and control at the time the FOIA request is made.

(2) The following are not included within the definition of the word "record":

(i) Objects or articles, such as structures, furniture, vehicles and equipment, whatever their historical value, or value as evidence.

(ii) Administrative tools by which records are created, stored, and retrieved, if not created or used as sources of information about organizations, policies, functions, decisions, or procedures of a DoD Component. Normally, computer software, including source code, object code, and listings of source and object codes, regardless of medium are not agency records. (This does not include the underlying data which is processed and produced by such software and which may in some instances be stored with the software.) Exceptions to this position are outlined in paragraph (b)(3) of this section.

(iii) Anything that is not a tangible or documentary record, such as an individual's memory or oral communication.

(iv) Personal records of an individual not subject to agency creation or retention requirements, created and maintained primarily for the convenience of an agency employee, and not distributed to other agency employees for their official use.

(v) Information stored within a computer for which there is no existing computer program for retrieval of the requested information.

(3) In some instances, computer software may have to be treated as an agency record and processed under the FOIA. These situations are rare, and shall be treated on a case-by-case basis. Examples of when computer software may have to be treated as an agency record are:

(i) When the data is embedded within the software and cannot be extracted without the software. In this situation, both the data and the software must be reviewed for release or denial under the FOIA.

(ii) Where the software itself reveals information about organizations, policies, functions, decisions, or procedures of a DoD Component, such as computer models used to forecast budget outlays, calculate retirement system costs, or optimization models on travel costs.

(iii) See subpart C of this part for guidance on release determinations of computer software.

(iv) A record must exist and be in the possession and control of the Department of Defense at the time of the request to be considered subject to this part and the FOIA. There is no obligation to create, compile, or obtain a record to satisfy a FOIA request.

(v) If unaltered publications and processed documents, such as regulations, manuals, maps, charts, and related geophysical materials are available to the public through an established distribution system with or

---

[1] Copies may be obtained, at cost, from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

without charge, the provisions of 5 USC 552(a)(3) normally do not apply and they need not be processed under the FOIA. Normally, documents disclosed to the public by publication in the Federal Register also require no processing under the FOIA. In such cases, Components should direct the requester to the appropriate source, to obtain the record.

(c) *DoD Component.* An element of the Department of Defense, as defined in § 286.1, authorized to receive and act independently on FOIA requests. A DoD Component has its own initial denial authority (IDA) or appellate authority, and general counsel.

(d) *Initial denial authority (IDA).* An official who has been granted authority by the head of a DoD Component to withhold records requested under the FOIA for one or more of the nine categories of records exempt from mandatory disclosure.

(e) *Appellate authority.* The Head of the DoD Component or the Component head's designee having jurisdiction for this purpose over the record.

(f) *Administrative appeal.* A request by a member of the general public, made under the FOIA, asking the appellate authority of a DoD Component to reverse an IDA decision to withhold all or part of a requested record or to deny a request for waiver or reduction of fees.

(g) *Public interest.* Public interest is official information that sheds light on an agency's performance of its statutory duties because it falls within the statutory purpose of the FOIA in informing citizens about what their government is doing. That statutory purpose, however, is not fostered by disclosure of information about private citizens that is accumulated in various governmental files that reveals little or nothing about an agency's or official's own conduct.

(h) *Electronic data.* Electronic data are those records and information which are created, stored, and retrievable by electronic means. This does not include computer software, which is the tool by which to create, store, or retrieve electronic data. See paragraph (b)(2)(ii) and (iii) of this section for a discussion of computer software.

§ 286.7 Policy.

(a) *Compliance with the FOIA.* DoD personnel are expected to comply with the FOIA and this part in both letter and spirit. This strict adherence is necessary to provide uniformity in the implementation of the DoD FOIA Program and to create conditions that will promote public trust.

(b) *Openness with the public.* The Department of Defense shall conduct its activities in an open manner consistent with the need or security and adherence to other requirements of law and regulation. Records not specifically exempt from disclosure under the Act shall, upon request, be made readily accessible to the public in accordance with rules promulgated by competent authority, whether or not the Act is invoknd.

(c) *Avoidance of procedural obstacles.* DoD Components shall ensure that procedural matters do not unnecessarily impede a requester from obtaining DoD records promptly. Components shall provide assistance to requesters to help them understand and comply with procedures established by this part and any supplemental regulations published by the DoD Components.

(d) *Prompt action on requests.* When a member of the public complies with the procedures established in this part for obtaining DoD records, the request shall receive prompt attention; a reply shall be dispatched within 10 working days, unless a delay is authorized. When a Component has a significant number of requests, *e.g.*, 10 or more, the requests shall be processed in order of receipt. However, this does not preclude a Component from completing action on a request which can be easily answered, regardless of its ranking within the order of receipt. A DoD Component may expedite action on a request regardless of its ranking within the order of receipt upon a showing of exceptional need or urgency. Exceptional need or urgency is determined at the discretion of the Component processing the request.

(e) *Use of FOIA exemptions.* It is DoD policy to make records publicly available, unless they qualify for exemption under one or more of the nine exemptions. Components may elect to make a discretionary release, however, a discretionary release is generally not appropriate for records exempt under exemptions 1, 3, 4, 6 and 7(C). Exemptions 4, 6 and 7(C) cannot be claimed when the requester is the submitter of the information.

(f) *Public domain.* Nonexempt records released under the authority of this part are considered to be in the public domain. Such records may also be made available in Components' reading rooms to facilitate public access. Exempt records released pursuant to this part or other statutory or regulatory authority, however, may be considered to be in the public domain only when their release constitutes a waiver of the FOIA exemption. When the release does not constitute such a waiver, such as when disclosure is made to a properly constituted advisory committee or to a Congressional Committee, the released records do not lose their exempt status. Also, while authority may exist to disclose records to individuals in their official capacity, the provisions of this part apply if the same individual seeks the records in a private or personal capacity.

(g) *Creating a record.* (1) A record must exist and be in the possession and control of the Department of Defense at the time of the search to be considered subject to this part and the FOIA. Mere possession of a record does not presume departmental control and such records, or identifiable portions thereof, would be referred to the originating Agency for direct response to the requester. There is no obligation to create nor compile a record to satisfy an FOIA request. A DoD Component, however, may compile a new record when so doing would result in a more useful response to the requester, or be less burdensome to the agency than providing existing records, and the requester does not object. Cost of creating or compiling such a record may not be charged to the requester unless the fee for creating the record is equal to or less than the fee which would be charged for providing the existing record. Fee assessments shall be in accordance with subpart D of this part.

(2) With respect to electronic data, the issue of whether records are actually created or merely extracted from an existing database is not always readily apparent. Consequently, when responding to FOIA requests for electronic data where creation of a record, programming, or particular format are questionable, Components should apply a standard of reasonableness. In other words, if the capability exists to respond to the request, and the effect would be a business as usual approach, then the request should be processed. However, the request need not be processed where the capability to respond does not exist without a significant expenditure of resources, thus not being a normal business as usual approach.

(h) *Description of requested record.* (1) Identification of the record desired is the responsibility of the member of the public who requests a record. The requester must provide a description of the desired record, that enables the Government to locate the record with a reasonable amount of effort. The Act does not authorize "fishing expeditions." When a DoD Component receives a request that does not "reasonably describe" the requested record, it shall notify the requester of the defect. The defect should be highlighted in a

specificity letter, asking the requester to provide the type of information outlined in paragraph (h)(2) of this section. Components are not obligated to act on the request until the requester responds to the specificity letter. When practicable, Components shall offer assistance to the requester in identifying the records sought and in reformulating the request to reduce the burden on the agency in complying with the Act.

(2) The following guidelines are provided to deal with "fishing expedition" requests and are based on the principle of reasonable effort. Descriptive information about a record may be divided into two broad categories.

(i) Category I is file-related and includes information such as type of record (for example, memorandum), title, index citation, subject area, date the record was created, and originator.

(ii) Category II is event-related and includes the circumstances that resulted in the record being created or the date and circumstances surrounding the event the record covers.

(iii) Generally, a record is not reasonably described unless the description contains sufficient Category I information to permit the conduct of an organized, non random search based on the Component's filing arrangements and existing retrieval systems, or unless the record contains sufficient Category II information to permit inference of the Category I elements needed to conduct such a search.

(iv) The following guidelines deal with requests for personal records. Ordinarily, when personal identifiers are provided only in connection with a request for records concerning the requester, only records retrievable by personal identifiers need be searched. Search for such records may be conducted under Privacy Act procedures. No record may be denied that is releasable under the FOIA.

(v) The previous guidelines notwithstanding, the decision of the DoD Component concerning reasonableness of description must be based on knowledge of its files. If the description enables DoD Component personnel to locate the record with reasonable effort, the description is adequate.

(i) *Referrals.* (1) A request received by a DoD Component having no records responsive to a request shall be referred routinely to another DoD Component , if the other Component confirms that it has the requested record, and this belief can be confirmed by the other DoD Component. In cases where the Component receiving the request has reason to believe that the existence or nonexistence of the record may in it self be classified, that Component shall consult the DoD Component having cognizance over the record in question before referring the request. If the DoD Component that is consulted determines that the existence or nonexistence of the record is in itself classified, the requester shall be so notified by the DoD Component originally receiving the request, and no referral shall take place. Otherwise, the request shall be referred to the other DoD Component, and the requester shall be notified of any such referral. Any DoD Component receiving a request that has been misaddressed shall refer the request to the proper address and advise the requester.

(2) Whenever a record or a portion of a record is, after prior consultation, referred to another DoD Component or to a Government agency outside of the Department of Defense for a release determination and direct response, the requester shall be informed of the referral. Referred records shall only be identified to the extent consistent with security requirements.

(3) A DoD Component shall refer an FOIA request for a classified record that it holds to another DoD Component or agency outside the Department of Defense, if the record originated in the other DoD Component or outside agency or if the classification is derivative. In this situation, provide the record and a release recommendation on the record with the referral action.

(4) A DoD Component may refer a request for a record that it originated to another DoD Component or agency when the record was created for the use of the other DoD Component or agency. The DoD Component or agency for which the record was created may have an equally valid interest in withholding the record as the DoD Component that created the record. In such situations, provide the record and a release recommendation on the record with the referral action. An example of such a situation is a request for audit reports prepared by the Defense Contract Audit Agency. These advisory reports are prepared for the use of contracting officers and their release to the audited contractor shall be at the discretion of the contracting officer. Any FOIA request shall be referred to the appropriate contracting officer and the requester shall be notified of the referral.

(5) Within the Department of Defense, a Component shall ordinarily refer an FOIA request for a record that it holds, but that was originated by another DoD Component or that contains substantial information obtained from another DoD Component, to that Component for direct response, after direct coordination and obtaining concurrence from the Component. The requester then shall be notified of such referral. DoD Components shall not, in any case, release or deny such records without prior consultation with the other DoD Component.

(6) DoD Components that receive referred requests shall answer them in accordance with the time limits established by the FOIA and this part. Those time limits shall begin to run upon receipt of the referral by the official designated to respond.

(7) Agencies outside the Department of Defense that are subject to the FOIA:

(i) A Component may refer an FOIA request for any record that originated in an agency outside the DoD or that is based on information obtained from an outside agency to the agency for direct response to the requester after coordination with the outside agency, if that agency is subject to FOIA. Otherwise, the Component must respond to the request.

(ii) A DoD Component shall refer to the agency that provided the record any FOIA request for investigative, intelligence, or any other type of records that are on loan to the Department of Defense for a specific purpose, if the records are restricted from further release and so marked. However, if for investigative or intelligence purposes, the outside agency desires anonymity, a Component may only respond directly to the requester after coordination with the outside agency.

(iii) Notwithstanding anything to the contrary in paragraph (i)(1) of this section, Component shall notify requesters seeking National Security Council (NSD) or White House documents that they should write directly to the NSC or White House for such documents. DoD documents in which the NSC or White House has a concurrent reviewing interest shall be forwarded to the Office of the Assistant Secretary of Defense (Public Affairs)(OASD(PA)), ATTN: Directorate For Freedom of Information and Security Review (DFOISR), which shall effect coordination with the NSC or White House, and return the documents to the originating agency after NSC review and determination. NSC or White House documents discovered in Components' files which are responsive to the FOIA request shall be forwarded ASD(PA), ATTN: DFOISR, for subsequent coordination with the NSC or White House, and returned to the Component with a release determination.

(8) To the extent referrals are consistent with the policies expressed by this paragraph, referrals between offices of the same DoD Component are authorized.

(9) On occasion, the Department of Defense receives FOIA requests for General Accounting Office (GAO) documents containing DoD information, either directly from requesters, or as referrals from the GAO. The GAO is outside the Executive Branch, and as such, all FOIA requests for GAO documents containing DoD information will be processed under the provisions of Security Review or Mandatory Declassification Review (MDR) Directives. Requests received in DoD for unclassified GAO reports containing DoD information shall be transferred to the GAO Distribution Center, ATTN: DHISF, P.O. Box 6015, Gaithersburg, MD 20877-1450. Requests received in the Department of Defense for classified GAO documents (or documents unidentifiable as to classification) shall be referred to the GAO, Office of Security and Safety, Washington, DC 20548. After internal review, the GAO shall refer the request and documents to Office of the Inspector General, Department of Defense (OIG, DoD) and that Component shall refer the action to the OASD(PA), ATTN: DFOISR, for processing under Security Review or MDR provisions. (See DoD Directive 7650.2 [2]).

(j) *Authentication.* Records provided under this part shall be authenticated with an appropriate seal, whenever necessary, to fulfill an official Government or other legal function. This service, however, is in addition to that required under the FOIA and is not included in the FOIA fee schedule. DoD Components may charge for the service at a rate of $5.20 for each authentication.

(k) *Unified and Specified Commands.* (1) The Unified Commands are placed under the jurisdiction of the OSD, instead of the administering Military Department, only for the purpose of administering the DoD FOIA Program. This policy represents an exception to the policies directed in DoD Directive 5100.3 [2]; it authorizes and requires the Unified Commands to process Freedom of Information (FOI) requests in accordance with DoD Directive 5400.7 and this part. The Unified Commands shall forward directly to the OASD(PA), all correspondence associated with the appeal of an initial denial for records under the provisions of the FOIA. Procedures to effect this administrative requirement are outlined in appendix A of this part.

(2) The Specified Commands remain under the jurisdiction of the administering Military Department. The Commands shall designate IDAs within their headquarters; however, the appellate authority shall reside with the Military Department.

(l) *Records management.* FOIA records shall be maintained and disposed of in accordance with DoD Component Disposition instructions and schedules.

(m) *Relationship between the FOIA and the Privacy Act (PA).* Not all requesters are knowledgeable of the appropriate statutory authority to cite when requesting records. In some instances, they may cite neither Act, but will imply one or both Acts. For these reasons, the following guidelines are provided to ensure that requesters receive the greatest amount of access under both Acts:

(1) Requesters who seek records about themselves contained in a PA system of records and who cite or imply the PA, will have their requests processed under the provisions of the PA.

(2) Requesters who seek records about themselves which are not contained in a PA system of records and who cite or imply the PA, will have their requests processed under the provisions of the FOIA, since they have no access under the PA.

(3) Requesters who seek records about themselves which are contained in a PA system of records and who cite or imply the FOIA or both acts will have their requests processed under the time limits of the FOIA and the exemptions and fees of the PA. This is appropriate since greater access will be received under the PA.

(4) Requesters who seek access to agency records and who cite or imply the PA and FOIA, will have their requests processed under the FOIA.

(5) Requesters who seek access to agency records and who cite or imply the FOIA, will have their requests processed under the FOIA.

(6) Requesters should be advised in final responses why their request was processed under a particular Act.

Subpart B—FOIA Reading Rooms

§ 286.9 Requirements.

(a) *Reading room.* Each Component shall provide an appropriate facility or facilities where the public may inspect and copy or have copied the materials described in the following paragraphs. In addition to the materials described in the following paragraphs, Components may elect to place other documents in their reading rooms as a means to provide public access to such documents. DoD Components may share reading room facilities if the public is not unduly inconvenienced. When appropriate, the cost of copying may be imposed on the person requesting the material in accordance with the provisions of subpart D of this part. The availability of records in a public reading room does not automatically place the material into the public domain.

(b) *Material availability.* The FOIA requires that so-called "(a)(2)" materials shall be made available in the FOI reading room for inspection and copying, unless such materials are published and copies are offered for sale. Identifying details that, if revealed would create a clearly unwarranted invasion of personal privacy may be deleted from "(a)(2)" materials made available for inspection and copying. In every case, justification for the deletion must be fully explained in writing. However, a DoD Component may publish in the Federal Register a description of the basis upon which it will delete identifying details of particular types of documents to avoid clearly unwarranted invasions of privacy. In appropriate cases, the DoD Component may refer to this description rather than write a separate justification for each deletion. So-called "(a)(2)" materials are:

(1) Final opinions, including concurring and dissenting opinions, and orders made in the adjudication of cases, as defined in 5 U.S.C. 551, that may be cited, used, or relied upon as precedents in future adjudications.

(2) Statements of policy and interpretations that have been adopted by the agency and are not published in the Federal Register.

(3) Administrative staff manuals and instructions, or portions thereof, that establish DoD policy or interpretations of policy that affect a member of the public. This provision does not apply to instructions for employees on tactics and techniques to be used in performing their duties, or to instructions relating only to the internal management of the DoD Component. Examples of manuals and instructions not normally made available are:

(i) Those issued for audit, investigation, and inspection purposes, or those that prescribe operational tactics, standards of performance, or criteria for defense, prosecution, or settlement of cases.

(ii) Operations and maintenance manuals and technical information concerning munitions, equipment,

[2] See footnote 1 to § 286.1
[3] See footnote 1 to § 286.1

systems, and foreign intelligence operations.

§ 286.11 Indexes.

(a) *"(a)(2)" materials.* (1) Each DoD Component shall maintain in each facility prescribed in § 286.9(a) an index of materials described in § 286.9(b), that are issued, adopted, or promulgated, after July 4, 1967. No "(a)(2)" materials issued, promulgated, or adopted after July 4, 1967 that are not indexed and either made available or published may be relied upon, used or cited as precedent against any individual unless such individual has actual and timely notice of the contents of such materials. Such materials issued, promulgated, or adopted before July 4, 1967, need not be indexed, but must be made available upon request if not exempted under this part.

(2) Each DoD Component shall promptly publish quarterly or more frequently, and distribute, by sale or otherwise, copies of each index of "(a)(2)" materials or supplements thereto unless it publishes in the Federal Register an order containing a determination that publication is unnecessary and impracticable. A copy of each index or supplement not published shall be provided to a requester at a cost not to exceed the direct cost of duplication as set forth in subpart D of this part.

(3) Each index of "(a)(2)" materials or supplement thereto shall be arranged topically or by descriptive words rather than by case name or numbering system so that members of the public can readily locate material. Case name and numbering arrangements, however, may also be included for DoD Component convenience.

(b) *Other materials.* (1) Any available index of DoD Component material published in the Federal Register, such as material required to be published by section 552(a)(1) of the FOIA, shall be made available in DoD Component FOIA reading rooms.

(2) Although not required to be made available in response to FOIA requests or made available in FOIA Reading Rooms, "(a)(1)" materials shall, when feasible, be made available in FOIA reading rooms for inspection and copying. Examples of "(a)(1)" materials are: Descriptions of an agency's central and field organization, and to the extent they affect the public, rules of procedures, descriptions of forms available, instruction as to the scope and contents of papers, reports, or examinations, and any amendment, revision, or report of the aforementioned.

Subpart C—Exemptions

§ 286.12 General provisions.

Records that meet the exemption criteria in § 286.13 may be withheld from public disclosure and need not be published in the Federal Register, made available in a library reading room, or provided in response to an FOIA request.

§ 286.13 Exemptions.

(a) *FOIA exemptions.* The following types of records may be withheld in whole or in part from public disclosure under the FOIA, unless otherwise prescribed by law. A discretionary release (see also § 286.7(e)) to one requester may preclude the withholding of the same record under a FOIA exemption if the record is subsequently requested by someone else. In applying exemptions, the identity of the requester and the purpose for which the record is sought are irrelevant with the exception that an exemption may not be invoked where the particular interest to be protected is the requester's interest.

(1) *Number 1.* Those properly and currently classified in the interest of national defense or foreign policy, as specifically authorized under the criteria established by executive order and implemented by regulations, such as DoD 5200.1–R.[4] Although material is not classified at the time of the FOIA request, a classification review may be undertaken to determine whether the information should be classified. The procedures in DoD 5200.1–R, section 2–204f., apply. In addition, this exemption shall be invoked when the following situations are apparent:

(i) The fact of the existence or nonexistence of a record would itself reveal classifiable information. In this situation, Components shall neither confirm nor deny the existence or nonexistence of the record being requested. A "refusal to confirm or deny" response must be used consistently, not only when a record exists, but also when a record does not exist. Otherwise, the pattern of using a "no record" response when a record does exist, and a "refusal to confirm or deny" when a record does not exist will itself disclose national security information.

(ii) Information that concerns one or more of the classification categories established by executive order and DoD 5200.1–R shall be classified if its unauthorized disclosure, either by itself or in the context of other information, reasonably could be expected to cause damage to the national security.

[4] See footnote 1 to § 286.1

(iii) Release of unclassified records which would enable a knowledgeable person to analyze the records either in isolation, or in concert with other unclassified records previously released, and determine information that is classified.

(2) *Number 2.* Those related solely to the internal personnel rules and practices of DoD or any of its Components. This exemption has two profiles, high b2 and low b2.

(i) Records qualifying under high b2 are those containing or constituting statutes, rules, regulations, orders, manuals, directives, and instructions the release of which would allow circumvention of these records thereby substantially hindering the effective performance of a significant function of the Department of Defense. Examples include:

(A) Those operating rules, guidelines, and manuals for DoD investigators, inspectors, auditors, or examiners that must remain privileged in order for the DoD Component to fulfill a legal requirement.

(B) Personnel and other administrative matters, such as examination questions and answers used in training courses or in the determination of the qualifications of candidates for employment, entrance on duty, advancement, or promotion.

(C) Computer software meeting the standards of § 286.5(b)(3), the release of which would allow circumvention of a statute or DoD rules, regulations, orders, manuals, directives, or instructions. In this situation, the use of the software must be closely examined to ensure a circumvention possibility exists.

(ii) Records qualifying under the low b2 profile are those that are trivial and housekeeping in nature for which there is no legitimate public interest or benefit to be gained by release, and it would constitute an administrative burden to process the request in order to disclose the records. Examples include rules of personnel's use of parking facilities or regulation of lunch hours, statements of policy as to sick leave, and trivial administrative data such as file numbers, mail routing stamps, initials, data processing notations, brief references to previous communications, and other like administrative markings.

(3) *Number 3.* Those concerning matters that a statute specifically exempts from disclosure by terms that permit no discretion on the issue, or in accordance with criteria established by that statute for withholding or referring to particular types of matters to be withheld. Examples of statutes are:

(i) National Security Agency Information Exemption, Public Law 86–36, section 6.

(ii) Patent Secrecy, 35 U.S.C. 181–188. Any records containing information relating to inventions that are the subject of patent applications on which Patent Secrecy Orders have been issued.

(iii) Restricted Data and Formerly Restricted Data, 42 U.S.C. 2162.

(iv) Communication Intelligence, 18 U.S.C. 798.

(v) Authority to Withhold From Public Disclosure Certain Technical Data, 10 U.S.C. 130 and DoD Directive 5230.25 [5].

(vi) Confidentiality of Medical Quality Records: Qualified Immunity Participants, 10 U.S.C. 1102.

(vii) Physical Protection of Special Nuclear Material: Limitation on Dissemination of Unclassified Information, 10 U.S.C. 128.

(viii) Protection of Intelligence Sources and Methods, 50 U.S.C. 403(d)(3).

(4) *Number 4.* Those containing trade secrets or commercial or financial information that a DoD Component receives from a person or organization outside the Government with the understanding that the information or record will be retained on a privileged or confidential basis in accordance with the customary handling of such records. Records within the exemption must contain trade secrets, or commercial or financial records, the disclosure of which is likely to cause substantial harm to the competitive position of the source providing the information; impair some other legitimate government interest. Examples include:

(i) Commercial or financial information received in confidence in connection with loans, bids, contracts, or proposals, as well as other information received in confidence or privileged, such as trade secrets, inventions, discoveries, or other proprietary data. See also 32 CFR part 286h, "release of Acquisition-Related Information."

(ii) Statistical data and commercial or financial information concerning contract performance, income, profits, losses, and expenditures, if offered and received in confidence from a contractor or potential contractor.

(iii) Personal statements given in the course of inspections, investigations, or audits, when such statements are received in confidence from the individual and retained in confidence because they reveal trade secrets or commercial or financial information normally considered confidential or privileged.

(iv) Financial data provided in confidence by private employers in connection with locality wage surveys that are used to fix and adjust pay schedules applicable to the prevailing wage rate of employees within the Department of Defense.

(v) Scientific and manufacturing processes or developments concerning technical or scientific data or other information submitted with an application for a research grant, or with a report while research is in progress.

(vi) Technical or scientific data developed by a contractor or subcontractor exclusively at private expense, and technical or scientific data developed in part with Federal funds and in part at private expense, wherein the contractor or subcontractor has retained legitimate proprietary interests in such data in accordance with 10 U.S.C. 2320–2321 and DoD Federal Acquisition Regulation Supplement (DFARS), 48 CFR subpart 27.4. Technical data developed exclusively with Federal funds may be withheld under Exemption Number 3 if it meets the criteria of 10 U.S.C. 130 and 32 CFR part 250 (see § 286.13(a)(3)(v)).

(vii) Computer software meeting the conditions of § 286.5(b)(3), which is copyrighted under the Copyright Act of 1976 (17 U.S.C. 106), the disclosure of which would have an adverse impact on the potential market value of a copyrighted work.

(5) *Number 5.* Except as provided in § 286.12(a)(5)(ii) through (v), internal advice, recommendations, and subjective evaluations, as contrasted with factual matters, that are reflected in records pertaining to the decision-making process of an agency, whether within or among agencies (as defined in 5 U.S.C. 552(e)), or within or among DoD Components. Also exempted are records pertaining to the attorney-client privilege and the attorney work-product privilege.

(i) Examples include:

(A) The nonfactual portions of staff papers, to include after-action reports and situation reports containing staff evaluations, advice, opinions, or suggestions.

(B) Advice, suggestions, or evaluations prepared on behalf of the Department of Defense by individual consultants or by boards, committees, councils, groups, panels, conferences, commissions, task forces, or other similar groups that are formed for the purpose of obtaining advice and recommendations.

(C) Those nonfactual portions of evaluations by DoD Component personnel of contractors and their products.

(D) Information of a speculative, tentative, or evaluative nature or such matters as proposed plans to procure, lease or otherwise acquire and dispose of materials, real estate, facilities or functions, when such information would provide undue or unfair competitive advantage to private personal interests or would impede legitimate government functions.

(E) Trade secret or other confidential research development, or commercial information owned by the Government, where premature release is likely to affect the Government's negotiating position or other commercial interest.

(F) Records that are exchanged among agency personnel and within and among DoD Components or agencies as part of the preparation for anticipated administrative proceeding by an agency or litigation before any attorney-client privilege.

(G) Those portions of official reports of inspection, reports of the Inspector Generals, audits, investigations, or surveys pertaining to safety, security, or the internal management, administration, or operation of one or more DoD Components, when these records have traditionally been treated by the courts as privileged against disclosure in litigation.

(H) Computer software meeting the standards of § 286.5(b)(3), which is deliberative in nature, the disclosure of which would inhibit or chill the decision making process. In this situation, the use of software must be closely examined to ensure its deliberative nature.

(I) Planning, programming, and budgetary information which is involved in the defense planning and resource allocation process. (ii) If any such intra or inter-agency record or reasonably segregable portion of such record hypothetically would be made available routinely through the "discovery process" in the course of litigation with the agency, i.e., the process by which litigants obtain information from each other that is relevant to the issues in a trial or hearing, then it should not be withheld from the general public even though discovery has not been sought in actual litigation. If, however, the information hypothetically would only be made available through the "discovery process" by special order of the court based on agency maintaining its confidentiality, then the record or document need not be made available under this part. Consult with legal counsel to determine whether FOIA exemption 5 material would be routinely made available through the discovery process.

[5] See footnote 1 to § 286.1

(iii) Intra- or inter-agency memoranda or letters that are factual, or those reasonably segregable portions that are factual, are routinely made available through "discovery," and shall be made available to a requester, unless the factual material is otherwise exempt from release, inextricably intertwined with the exempt information, so fragmented as to be uninformative, or so redundant of information already available to the requester as to provide no new substantive information.

(iv) A direction or order from a superior to a subordinate, though contained in an internal communication, generally cannot be withheld from a requester if it constitutes policy guidance or a decision, as distinguished from a discussion of preliminary matters or a request for information or advice that would compromise the decision-making process.

(v) An internal communication concerning a decision that subsequently has been made a matter of public record must be made available to a requester when the rationale for the decision is expressly adopted or incorporated by reference in the record containing the decision.

(6) *Number 6.* Information in personnel and medical files, as well as similar personal information in other files, that, if disclosed to the requester would result in a clearly unwarranted invasion of personal privacy. Release of information about an individual contained in a Privacy Act System of records that would constitute a clearly unwarranted invasion of privacy is prohibited, and could subject the releaser to civil and criminal penalties.

(i) Examples of other files containing personal information similar to that contained in personnel and medical files include:

(A) Those compiled to evaluate or adjudicate the suitability of candidates for civilian employment or membership in the Armed Forces, and the eligibility of individuals (civilian, military, or contractor employees) for security clearances, or for access to particularly sensitive classified information.

(B) Files containing reports, records, and other material pertaining to personnel matters in which administrative action, including disciplinary action, may be taken.

(ii) Home addresses are normally not releasable without the consent of the individuals concerned. In addition, lists of DoD military and civilian personnel's names and duty addresses who are assigned to units that are sensitive, routinely deployable, or stationed in foreign territories can constitute a clearly unwarranted invasion of personal privacy.

(A) *Privacy interest.* A privacy interest may exist in personal information even though the information has been disclosed at some place and time. If personal information is not freely available from sources other than the Federal Government expended funds to prepare, index and maintain records on personal information, and the fact that a requester invokes FOIA to obtain these records indicates the information is not freely available.

(B) Published telephone directories, organization charts, rosters and similar materials for personnel assigned to units that are sensitive, routinely deployable, or stationed in foreign territories may be withheld under this exemption.

(iii) This exemption shall not be used in an attempt to protect the privacy of a deceased person, but it may be used to protect the privacy of the deceased person's family.

(iv) Individuals' personnel, medical, or similar file may be withheld from them or their designated legal representative only to the extent consistent with DoD Directive 5400.11.

(v) A clearly unwarranted invasion of the privacy of the persons identified in a personnel, medical or similar record may constitute a basis for deleting those reasonable segregable portions of that record, even when providing it to the subject of the record. When withholding personal information from the subject of the record, legal counsel should first be consulted.

(7) *Number 7.* Records or information compiled for law enforcement purposes; i.e., civil, or military law, including the implementation of executive orders or regulations issued pursuant to law. This exemption may be invoked to prevent disclosure of documents not originally created for, but later gathered for law enforcement purposes.

(i) This exemption applies, however, only to the extent that production of such law enforcement records or information could result in the following:

(A) Could reasonably be expected to interfere with enforcement proceeding.

(B) Would deprive a person of the right to a fair trial or to an impartial adjudication.

(C) Could reasonably be expected to constitute an unwarranted invasion of personal privacy of a living person, including surviving family members of an individual identified in such a record.

(*1*) This exemption also applies when the fact of the existence or nonexistence of a responsive record would itself reveal personally private information, and the public interest in disclosure is not sufficient to outweigh the privacy interest. In this situation, Components shall neither confirm nor deny the existence or nonexistence of the record being requested.

(*2*) A "refusal to confirm or deny" response must be used consistently, not only when a record exists, but also when a record does not exist. Otherwise, the pattern of using a "no records" response when a record does not exist and a "refusal to confirm or deny" when a record does exist will itself disclose personally private information.

(*3*) Refusal to confirm or deny should not be used when

(*i*) The person whose personal privacy is in jeopardy has provided the requester with a waiver of his or her privacy rights; or

(*ii*) The person whose personal privacy is in jeopardy is deceased, and the agency is aware of that fact.

(D) Could reasonably be expected to disclose the identify of a confidential source, including a source within the Department of Defense, a State, local, or foreign agency or authority, or any private institution which furnishes the information on a confidential basis.

(E) Could disclose information furnished from a confidential source and obtained by a criminal law enforcement authority in a criminal investigation or by an agency conducting a lawful national security intelligence investigation.

(F) Would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law.

(G) Could reasonably be expected to endanger the life or physical safety of any individual.

(ii) Examples include:

(A) Statements of witnesses and other material developed during the course of the investigation and all materials prepared in connection with related government litigation or adjudicative proceedings.

(B) The identity of firms or individuals being investigated for alleged irregularities involving contracting with the Department of Defense when no indictment has been obtained nor any civil action filed against them by the United States.

(C) Information obtained in confidence, expressed or implied, in the course of a criminal investigation by a criminal law enforcement agency or office with a DoD Component, or a lawful national security intelligence investigation conducted by an

authorized agency or office within a DoD Component. National security intelligence investigations include background security investigations and conducted for the purpose of obtaining affirmative or counterintelligence information.

(iii) The right of individual litigants to investigative records currently available by law (such as, the Jencks Act, 18 U.S.C. 3500) is not diminished.

(iv) When the subject of an investigative record is the requester of the record, it may be withheld only as authorized by DoD Directive 5400.11.

(v) Exclusions. Excluded from the previous exemptions are the following two situations applicable to the Department of Defense:

(A) Whenever a request is made which involves access to records or information compiled for law enforcement purposes, and the investigation or proceeding involves a possible violation of criminal law where there is reason to believe that the subject of the investigation or proceedings is unaware of its pendency, and the disclosure of the existence of the records could reasonably be expected to interfere with enforcement proceedings, Components may, during only such times as that circumstance continues, treat the records or information as not subject to the FOIA. In such situation, the response to the requester will state that no records were found.

(B) Whenever informant records maintained by a criminal law enforcement organization within a DoD Component under the informant's name or personal identifier, the Component may treat the records as not subject to the FOIA, unless the informant's status as an informant has been officially confirmed. If it is determined that the records are not subject the exemption 7, the response to the requester will state that no records were found.

(8) *Number 8.* Those contained in or related to examination, operation or condition reports prepared by, on behalf of, or for the use of any agency responsible for the regulation or supervision of financial institutions.

(9) *Number 9.* Those containing geological and geophysical information and data (including maps) concerning wells.

Subpart D—For Official Use Only

§ 286.15 General provisions.

(a) *General.* Information that has not been given a security classification pursuant to the criteria of an Executive Order, but which may be withheld from the public for one or more of the reasons cited in FOIA Exemptions 2 through 9 shall be considered as being for official use only. No other material shall be considered or marked "For Official Use Only" (FOUO) and FOUO is not authorized as an anemic form of classification to protect national security interests.

(b) *Prior FOUO application.* The prior application of FOUO markings is not a conclusive basis for withholding a record that is requested under the FOIA. When such a record is requested, the information in it shall be evaluated to determine whether, under current circumstances, FOIA exemptions apply in withholding the record or portions of it. If any exemption or exemptions apply or applies, it may nonetheless be released when it is determined that no governmental interest will be jeopardized by its release.

(c) *Historical papers.* Records such as notes, working papers, and drafts retained as historical evidence of DoD Component actions enjoy no special status apart from the exemptions under the FOIA.

(d) *Time to mark records.* The marking of records at the time of their creation provides notice of FOUO content and facilities review when a record is requested under the FOIA. Records request under the FOIA that do not bear such markings, shall not be assumed to be releasable without examination for the presence of information that requires continued protection and qualifies as exempt from public release.

(e) *Distribution statement.* Information in a technical document that requires a distribution statement pursuant to DoD Directive 5230.24 [6] shall bear that statement and may be marked FOUO, as appropriate.

§ 286.17 Location of markings.

(a) An unclassified document containing FOUO information shall be marked "For Official Use Only" at the bottom on the outside of the front cover (if any), on each page containing FOUO information and on the outside of the back.

(b) Within a classified document, an individual page that contains both FOUO and classified information shall be marked at the top and bottom with the highest security classification of information appearing on the page.

(c) Within a classified document, an individual page that contains FOUO information but no classified information shall be marked "For Official Use Only" at the bottom of the page.

(d) Other records, such as photographs, films, tapes, or slides, shall be marked "For Official Use Only" or "FOUO" in a manner that ensures that a recipient or viewer is aware of the status of the information therein.

(e) FOUO material transmitted outside the Department of Defense requires application of an expanded marking to explain the significance of the FOUO marking. This may be accomplished by typing or stamping the following statement on the record prior to transfer:

This document contains information EXEMPT FROM MANDATORY DISCLOSURE under the FOIA. Exemptions . . . . apply.

§ 286.19 Dissemination and transmission.

(a) *Release and transmission procedures.* Until FOUO status is terminated, the release and transmission instructions that follow apply:

(1) FOUO information may be disseminated within DoD Components and between officials of DoD Components and DoD contractors, consultants, and grantees to conduct official business for the Department of Defense. Recipients shall be made aware of the status of such information, and transmission shall be by means that preclude unauthorized public disclosure. Transmittal documents shall call attention to the presence of FOUO attachments.

(2) DoD holders of FOUO information are authorized to convey such information to officials in other departments and agencies of the executive and judicial branches to fulfill a government function, except to the extent prohibited by the Privacy Act. Records thus transmitted shall be marked "For Official Use Only", and the recipient shall be advised that the information has been exempted from public disclosure, pursuant to the FOIA, and that special handling instructions do or do not apply.

(3) Release of FOUO information to Members of Congress is governed by DoD Directive 5400.4 [7]. Release to the GAO is governed by DoD Directive 7650.1 [8]. Records released to the Congress or GAO should be reviewed to determine whether the information warrants FOUO status. If not, prior FOUO markings shall be removed or effaced. If withholding criteria are met, the records shall be marked FOUO and the recipient provided an explanation for such exemption and marking. Alternatively, the recipient may be

[6] See footnote 1 to § 286.1

[7] See footnote 1 to § 286.1

[8] See footnote 1 to § 286.1

requested, without marking the record, to protect against its public disclosure for reasons that are explained.

(b) *Transporting FOUO information.* Records containing FOUO information shall be transported in a manner that precludes disclosure of the contents. When not commingled with classified information, FOUO information may be sent via first-class mail or parcel post. Bulky shipments, such as distributions of FOUO Directives or testing materials, that otherwise qualify under postal regulations may be sent by fourth-class mail.

(c) *Electrically transmitted messages.* Each part of electrically transmitted messages containing FOUO information shall be marked appropriately. Unclassified messages containing FOUO information shall contain the abbreviation "FOUO" before the beginning of the text. Such messages shall be transmitted in accordance with communications security procedures.

§ 286.23 Safeguarding FOUO information.

(a) *During duty hours.* During normal working hours, records determined to be FOUO shall be placed in an out-of-sight location if the work area is accessible to non-governmental personnel.

(b) *During nonduty hours.* At the close of business, FOUO records shall be stored so as to preclude unauthorized access. Filing such material with other unclassified records in unlocked files or desks, etc., is adequate when normal U.S. Government or government contractor internal building security is provided during nonduty hours. When such internal security control is not exercised, locked buildings or rooms normally provide adequate after-hours protection. If such protection is not considered adequate, FOUO material shall be stored in locked receptacles such as file cabinets, desks, or bookcases. FOUO records that are subject to the provisions of Public Law 86–36 shall meet the safeguards outlined for that group of records.

§ 286.22 Termination, disposal and unauthorized disclosures.

(a) *Termination.* The originator or other competent authority; e.g., initial denial and appellate authorities, shall terminate "For Official Use Only" markings or status when circumstances indicate that the information no longer requires protection from public disclosure. When FOUO status is terminated, all known holders shall be notified, to the extent practical. Upon notification, holders shall efface or remove the "For Official Use Only" markings, but records in file or storage need not be retrieved solely for that purpose.

(b) *Disposal.* (1) Nonrecord copies of FOUO materials may be destroyed by tearing each copy into pieces to preclude reconstructing, and placing them in regular trash containers. When local circumstances or experience indicate that this destruction method is not sufficiently protective of FOUO information, local authorities may direct other methods but must give due consideration to the additional expense balanced against the degree of sensitivity of the type of FOUO information contained in the records.

(2) Record copies of FOUO documents shall be disposed of in accordance with the disposal standards established under 44 U.S.C. chapter 33, as implemented by DoD Component instructions concerning records disposal.

(c) *Unauthorized disclosure.* The unauthorized disclosure of FOUO records does not constitute an unauthorized disclosure of DoD information classified for security purposes. Appropriate administrative action shall be taken, however, to fix responsibility for unauthorized disclosure whenever feasible, and appropriate disciplinary action shall be taken against those responsible. Unauthorized disclosure of FOUO information that is protected by the Privacy Act may also result in civil and criminal sanctions against responsible persons. The DoD Component that originated the FOUO information shall be informed of its unauthorized disclosure.

Subpart E—Release and Processing Procedures

§ 286.25 General provisions.

(a) *Public information.* (1) Since the policy of the Department of Defense is to make the maximum amount of information available to the public consistent with its other responsibilities, written requests for a DoD record made under the FOIA may be denied only when:

(i) The record is subject to one or more of the exemptions in subpart C of this part;

(ii) The record has not been described well enough to enable the DoD Component to locate it with a reasonable amount of effort by an employee familiar with the files;

(iii) The requester has failed to comply with the procedural requirements, including the written agreement to pay or payment of any required fee imposed by the instructions of the DoD Component concerned.

When personally identifiable information in a record is requested by the subject of the record or his attorney, notarization of the request may be required.

(2) Individuals seeking DoD information should address their FOI requests to one of the addresses listed in appendix B of this part.

(b) *Requests from private parties.* The provisions of the FOIA are reserved for persons with private interests as opposed to federal or foreign governments seeking official information. Requests from private persons will be made in writing, and will clearly show all other addressees within the Federal Government to whom the request was also sent. This procedure will reduce processing time requirements, and ensure better inter- and intra-agency coordination. Components are under no obligation to establish procedures to receive hand delivered requests. Release of records to individuals under the FOIA is considered public release of information, except as provided for in §§ 286.7(f) and 286.13(a).

(c) *Requests from government officials.* Requests from officials of State, or local Governments for DoD Component records shall be considered the same as any other requester. Requests from members of Congress not seeking records on behalf of a Congressional Committee, Subcommittee, either House sitting as a whole, or made on behalf of their constituents shall be considered the same as any other requester (See also §§ 286.7(f) and 286.28(d)). Requests from officials of foreign governments shall be considered the same as any other requester. Requests from officials of foreign governments that do not invoke the FOIA shall be referred to appropriate foreign disclosure channels and the requester so notified.

(d) *Privileged release to U.S. government officials.*

(1) Subject to 32 CFR part 159a, applicable to classified information; 32 CFR part 286a, applicable to personal privacy, or other applicable law; records exempt from release under Subpart C of this part may be authenticated and released, without requiring release to other FOIA requesters, in accordance with DoD Component regulations to U.S. government officials requesting them on behalf of Federal governmental bodies, whether legislative, executive, administrative, or judicial, as follows:

(i) To a Committee or Subcommittee of Congress, or to either House sitting as a whole in accordance with DoD Directive 5400.4.

(ii) To the Federal courts, whenever ordered by officers of the court as necessary for the proper administration of justice.

(iii) To other Federal Agencies, both executive and administrative, as determined by the Head of a DoD Component or designee.

(2) DoD Components shall inform officials receiving records under the provisions of paragraph (d)(1) of this section, that those records are exempt from public release under the FOIA and are privileged. DoD Components also shall advise officials of any special handling instructions

§ 286.27 Initial determinations.

(a) *Initial denial authority.* (1) Components shall limit the number of IDAs appointed. In designating its IDAs, a DoD Component shall balance the goals of centralization of authority to promote uniform decisions and decentralization to facilitate responding to each request within the time limitations of the FOIA.

(2) The initial determination of whether to make a record available upon request may be made by any suitable official designated by the DoD Component in published regulations. The presence of the marking "For Official Use Only" does not relieve the designated official of the responsibility to review the requested record for the purpose of determining whether an exemption under this part is applicable and should be invoked.

(3) The officials designated by DoD Components to make initial determinations should consult with public affairs officers (PAOs) to become familiar with subject matter that is considered to be newsworthy, and advise PAOs of all requests from news media representatives. In addition, the officials should inform PAOs in advance when they intend to withhold or partially withhold a record, if it appears that the withholding action may be challenged in the media.

(b) *Reasons for not releasing a record.* There are seven reasons for not complying with a request for a record:

(1) The request is transferred to another DoD Component, or to another federal agency.

(2) The request is withdrawn by the requester.

(3) The information requested is not a record within the meaning of the FOIA and this part.

(4) A record has not been described with sufficient particularity to enable the DoD Component to locate it by conducting a reasonable search.

(5) The requester has failed unreasonably to comply with procedural requirements, including payment of fees, imposed by this part or DoD Component supplementing regulations.

(6) The DoD Component determines through knowledge of its files and reasonable search efforts that it neither controls nor otherwise possesses the requested record. (a "no record" determination is not considered a denial; therefore an appeal is not appropriate).

(7) The record is denied in accordance with procedures set forth in the FOIA and this part.

(c) *Denial tests.* To deny a requested record that is in the possession or control of a DoD Component, it must be determined that the record is included in one or more of the nine categories of records exempt from mandatory disclosure as provided by the FOIA and outlined in subpart C of this part.

(d) *Reasonably segregable portions.* Although portions of some records may be denied, the remaining reasonably segregable portions must be released to the requester when it reasonably can be assumed that a skillful and knowledgeable person could not reconstruct the excised information. When a record is denied in whole, the response advising the requester of that determination will specifically state that it is not reasonable to segregate portions of the record for release.

(e) *Response to requester.*

(1) Initial determinations to release or deny a record normally shall be made and the decision reported to the requester within 10 working days after receipt of the request by the official designated to respond.

(2) When a decision is made to release a record, a copy should be made available promptly to the requester once he has complied with preliminary procedural requirements.

(3) When a request for a record is denied in whole or in part, the official designated to respond shall inform the requester in writing of the name and title or position of the official who made the determination, and shall explain to the requester the basis for the determination in sufficient detail to permit the requester to make a decision concerning appeal. The requester specifically shall be informed of the exemptions on which the denial is based. When the initial denial is based in whole or in part on a security classification, the explanation should include a summary of the applicable criteria for classification, as well as an explanation, to the extent reasonably feasible, of how those criteria apply to the particular record in question. The requester shall also be advised of the opportunity and procedures for appealing an unfavorable determination to a higher final authority within the DoD Component.

(4) The response to the requester should contain information concerning the fee status of the request, consistent the provisions of subpart F of this part.

(5) The explanation of the substantive basis for a denial shall include specific citation of the statutory exemption applied under provisions of this part. Merely referring to a classification or to a "For Official Use Only" marking on the requested record does not constitute a proper citation or explanation of the basis for invoking an exemption.

(6) When the time for response becomes an issue, the official responsible for replying shall acknowledge to the requester the date of the receipt of the request.

(f) *Extension of time.* (1) In unusual circumstances, when additional time is needed to respond, the DoD Component shall acknowledge the request in writing within the 10-day period, describe the circumstances requiring the delay, and indicate the anticipated date for substantive response that may not exceed 10 additional working days. Unusual circumstances that may justify delay are:

(i) The requested record is located in whole or in part at places other than the office processing the request.

(ii) The request requires the collection and evaluation of a substantial number of records.

(iii) Consultation is required with other DoD Components or agencies having substantial interest in the subject matter to determine whether the records requested are exempt from disclosure in whole or in part under provisions of this part or should be released as a matter of discretion.

(2) The statutory extension of time for responding to an initial request must be approved on a case-by-case basis by the final appellate authority for the DoD Component, or in accordance with regulations of the DoD Component, or in accordance with regulations of the DoD Component that establish guidance governing the circumstances in which such extensions may be granted.

(3) In these unusual cases where the statutory time limits cannot be met and no informal extension of time has been agreed to, the inability to process any part of the request within the specified time should be explained to the requester with a request that he agree to await a substantive response by an anticipated date. It should be made clear that any such agreement does not prejudice the right of the requester to appeal the initial decision after it is

made. Components are reminded that the requester still retains the right to treat this delay as a definite denial with full administrative remedies.

(4) As an alternative to the taking of formal extensions of time as described in paragraph (f), (f)(3), (f)(2) and (f)(3) of this section, the negotiation by the cognizant FOIA coordinating office of informal extensions in time with requesters is encouraged where appropriate.

(g) *Misdirected requests.* Misdirected requests shall be forwarded promptly to the DoD Component with the responsibility for the records requested. The period allowed for responding to the request misdirected by the requester shall not begin until the request is received by the DoD Component that manages the records requested.

(h) *Records of non-U.S. government source.* (1) When a request is received for a record that was obtained from a non-U.S. Government source, or for a record containing information clearly identified as having been provided by a non-U.S. Government source, the source of the record or information (also known as "the submitter" for matters pertaining to proprietary data under 5 U.S.C. 552(b)(4), § 286.13(a)(4), and 31 U.S.C. 3717) shall be notified promptly of that request and afforded reasonable time (e.g. 30 calendar days) to present any objections concerning the release, unless it is clear that there can be no valid basis for objection. This practice is required for those FOIA requests for data not obviously exempt from disclosure under FOIA exemption (d)(4). If, for example, the record or information was provided with actual or presumptive knowledge of the non-U.S. Government source and established that it would be made available to the public upon request, there is no obligation to notify the source. Any objections shall be evaluated. The final decision to disclose information claimed to be exempt under FOIA exemption (b)(4) shall be made by an official equivalent in rank to the official who would make the decision to withhold that information under the FOIA. When a substantial issue has been raised, the DoD Component may seek additional information from the source of the information and afford the source and requester reasonable opportunities to present their arguments on the legal and substantive issues involved prior to making an agency determination. When the source advises it will seek a restraining order or take court action to prevent release of the record or information, the requester shall be notified, and action on the request normally shall not be taken until after the outcome of that court action is known. When the requester brings court action to compel disclosure, the submitter shall be promptly notified of this action.

(2) The coordination provisions of this paragraph apply to any non-U.S. Government record in the possession and control of the Department of Defense from multi-national organizations, such as North Atlantic Treaty Organization (NATO) and North American Aerospace Defense Command (NORAD), or foreign governments. Coordination with foreign governments under the provisions of this paragraph shall be made through Department of State.

(i) *File of initial denials.* Copies of all initial denials shall be maintained by each DoD Component in a form suitable for rapid retrieval, periodic statistical compilation, and management evaluation.

(j) *Special mail services.* Components are authorized to use registered mail, certified mail, certificates of mailing and return receipts. However, their use should be limited to instances where it appears advisable to establish proof of dispatch or receipt of FOIA correspondence.

(k) *Receipt accounts.* The Treasurer of the United States has established two accounts for FOIA receipts. These accounts, which are described the following, shall be used for depositing all FOIA receipts, except receipts for industrially-funded and non-appropriated funded activities. Components are reminded that the following account numbers must be preceded by the appropriate disbursing office two digit prefix. Industrially-funded and nonappropriated funded activity FOIA receipts shall be deposited to the applicable fund.

(1) *Receipt Account 3210 Sale of Publications and Reproductions, Freedom of Information Act.* This account shall be used when depositing funds received from providing existing publications and forms that meet the Receipt Account Series description found in Federal Account Symbols and Titles.

(2) *Receipt Account 3210 Fees and Other Charges for Services, Freedom of Information Act.* This account is used to deposit search fees, fees for duplication and reviewing (in the case of commercial requesters) records to satisfy requests that could not be filed with existing publications or forms.

§ 286.28 Appeals.

(a) *General.* If the official designated by the DoD Component to make initial determinations on requests for records declines to provide a record because the official considers it exempt, that decision may be appealed by the requester, in writing, to a designated appellate authority. The appeal should be accompanied by a copy of the letter denying the initial request. Such appeals should contain the basis for disagreement with the initial refusal. Appeal procedures also apply to the disapproval of a request for waiver or reduction of fees. A "no record" finding may not be appealed, although the requester may ask the agency to search other files or provide more detailed identification to facilitate another search of the files.

(b) *Time of receipt.* An FOI appeal has been received by a DoD Component when it reaches the office of an appellate authority having jurisdiction. Misdirected appeals should be referred expeditiously to the proper appellate authority.

(c) *Time limits.* (1) The requester shall be advised to file an appeal so that it reaches the appellate authority no later than 60 calendar days after the date of the initial denial letter. At the conclusion of this period, the case may be considered closed; however, such closure does not preclude the requester from filing litigation. In cases where the requester is provided several incremental determinations for a single request, the time for the appeal shall not begin until the requester receives the last such notification. Records which are denied shall be retained for a period of six years to meet the statute of limitations of claims requirement.

(2) Final determinations on appeals normally shall be made within 20 working days after receipt.

(d) *Delay in responding to an appeal.* (1) If additional time is needed due to the unusual circumstances described in paragraph § 286.27(f), the final decision may be delayed for the number of working days (not to exceed 10), that were not used as additional time for responding to the initial request.

(2) If a determination cannot be made and the requester notified within 20 working days, the appellate authority shall acknowledge to the requester in writing the date of receipt of the appeal, the circumstances surrounding the delay, and the anticipated date for substantive response. Requesters shall be advised that, if the delay exceeds the statutory extension provision or is for reasons other than the unusual circumstances identified in § 286.27(f), they may consider their administrative remedies exhausted. They may, however, without prejudicing their right

of judicial remedy, await a substantive response. The DoD Component shall continue to process the case expeditiously, whether or not the requester seeks a court order for release of the records, but a copy of any response provided subsequent to filing of a complaint shall be forwarded to the Department of Justice.

(e) *Response to the requester.* (1) When an appellate authority makes a determination to release all or a portion of records withheld by an IDA, a copy of the records so released should be forwarded promptly to the requester after compliance with any preliminary procedural requirements, such as payment of fees.

(2) Final refusal to provide a requested record or to approve a request for waiver or reduction of fees must be made in writing by the Head of the DoD Component or by a designated representative.

The response, at a minimum, shall include the following: (i) The basis for the refusal shall be explained to the requester, in writing, both with regard to the applicable statutory exemption or exemptions invoked under provisions of this part.

(ii) When the final refusal is based in whole or in part on a security classification, the explanation shall include a determination that the record meets the cited criteria and rationale of the governing Executive Order, and that this determination is based on a declassification review, with the explanation of how that review confirmed the continuing validity of the security classification.

(iii) The final denial shall include the name and title or position of the official responsible for the denial.

(iv) The response shall advise the requester that the material being denied does not contain meaningful portions that are reasonably segregable.

(v) The response shall advise the requester of the right to judicial review.

(f) *Consultation.* (1) Final refusal, involving issues not previously resolved or that the DoD Component knows to be inconsistent with rulings of other DoD Component, ordinarily should not be made before consultation with the Office of the General Counsel of the Department of Defense.

(2) Tentative decisions to deny records that raise new or significant legal issues of potential significance to other agencies of the Government shall be provided to the Department of Justice, ATTN: Office of Legal Policy, Office of Information and Policy, Washington, DC 20530.

§ 286.24 Judicial actions.

(a) *General.* (1) This section states current legal and procedural rules for the convenience of the reader. The statements of rules do not create rights or remedies not otherwise available, nor do they bind the Department of Defense to particular judicial interpretations or procedures.

(2) A requester may seek an order from a United States District Court to compel release of a record after administrative remedies have been exhausted; i.e., when refused a record by the head of a Component or an appellate designee or when the DoD Component has failed to respond within the time limits prescribed by the FOIA and in this part.

(b) *Jurisdiction.* The requester may bring suit in the United States District Court in the district in which the requester resides or is the requesters place of business, in the district in which the record is located, or in the District of Columbia.

(c) *Burden of proof.* The burden of proof is on the DoD Component to justify its refusal to provide a record. The court shall evaluate the case de novo (anew) and may elect to examine any requested record in camera (in private) to determine whether the denial was justified.

(d) *Actions by the court.* (1) When a DoD Component has failed to make a determination within the statutory time limits but can demonstrate due diligence in exceptional circumstances, the court may retain jurisdiction and allow the Component additional time to complete its review of the records.

(2) If the court determines that the requester's complaint is substantially correct, it may require the United States to pay reasonable attorney fees and other litigation costs.

(3) When the court orders the release of denied records, it may also issue a written finding that the circumstances surrounding the withholding raise questions whether DoD Component personnel acted arbitrarily and capriciously. In these cases, the special counsel of the Merit System Protection Board shall conduct an investigation to determine whether or not disciplinary action is warranted. The DoD Component is obligated to take the action recommended by the special counsel.

(4) The court may punish the responsible official for contempt when a DoD Component fails to comply with the court order to produce records that it determines have been withheld improperly.

(e) *Non-United States government source information.* A requester may bring suit in a U.S. District Court to compel the release of records obtained from a nongovernment source or records based on information obtained from a nongovernment source. Such source shall be notified promptly of the court action. When the source advises that it is seeking court action to prevent release, the DoD Component shall defer answering or otherwise pleading to the complainant as long as permitted by the Court or until a decision is rendered in the court action of the source, whichever is sooner.

(f) *Litigation status sheet.* FOIA managers at DoD Component level shall be aware of litigation under the FOIA. Such information will provide management insights into the use of the nine exemptions by Component personnel. The Litigation Status Sheet at appendix C provides a standard format for recording information concerning FOIA litigation and forwarding that information to the Office of the Secretary of Defense. Whenever a complaint under the FOIA is filed in a U.S. District Court, the DoD Component named in the complaint shall forward a Litigation Status Sheet, with items 1 through 6 completed, and a copy of the complaint to the OASD(PA), ATTN: DFOISR, with an information copy to the General Counsel, Department of Defense, ATTN: Office of Legal Counsel. A revised Litigation Status Sheet shall be provided at each stage of the litigation.

Subpart F—Fee Schedule

§ 286.33 General provisions.

(a) *Authorities.* The Freedom of Information Act (5 U.S.C. 552), as amended; the Freedom of Information Reform Act of 1986; the Paperwork Reduction Act (44 U.S.C. 35); the Privacy Act of 1974 (5 U.S.C. 552a); the Budget and Accounting Act of 1921 (31 U.S.C. 1 *et seq.*); the Budget and Accounting Procedures Act (31 U.S.C. 67 *et seq.*); the Defense Authorization Act for FY 87, section 954, (Pub. L. 99-661), as amended by the Defense Technical Corrections Act of 1987 (Pub. L. 100-26).

(b) *Application.* (1) The fees described in this Subpart apply to FOIA requests, and conform to the Office of Management and Budget Uniform Freedom of Information Act Fee Schedule and Guidelines. They reflect direct costs for search, review (in the case of commercial requesters); and duplication of documents, collection of which is permitted by the FOIA. They are neither intended to imply that fees must be charged in connection with providing information to the public in

the routine course of business, nor are they meant as a substitute for any other schedule of fees, such as 32 CFR part 286, which does not supersede the collection of fees under the FOIA. Nothing in this Subpart shall supersede fees chargeable under a statute specifically providing for setting the level of fees for particular types of records. A "statute specifically providing for setting the level of fees for particular types of records" (5 U.S.C. 552(a)(4)(a)(vi)) means any statute that enables a Government Agency such as the Government Printing Office (GPO) or the National Technical Information Service (NTIS), to set and collect fees. Components should ensure that when documents that would be responsive to a request are maintained for distribution by agencies operating statutory-based fee schedule programs such as the GPO or NTIS, they inform requesters of the steps necessary to obtain records from those sources.

(2) The term "direct costs" means those expenditures a Component actually makes in searching for, reviewing (in the case of commercial requesters), and duplicating documents to respond to an FOIA request. Direct costs include, for example, the salary of the employee performing the work (the basic rate of pay for the employee plus 16 percent of that rate to cover benefits), and the costs of operating duplicating machinery. These factors have been included in the fee rates prescribed at § 286.35(a). Not included in direct costs are overhead expenses such as costs of space, heating or lighting the facility in which the records are stored.

(3) The term "search" includes all time spent looking for material that is responsive to a request. Search also includes a page-by-page or line-by-line identification (if necessary) of material in the document to determine if it, or portions thereof are responsive to the request. Components should ensure that searches are done in the most effective and least expensive manner so as to minimize costs for both the Component and the requester. For example, Components should not engage in line-by-line searches when duplicating an entire document known to contain responsive information would prove to be the less expensive and quicker method of complying with the request. Time spent reviewing documents in order to determine whether to apply one or more of the statutory exemptions is not search time, but review time. See paragraph (b)(5) of this section, for the definition of review, and § 286.35(b)(2), for information pertaining to computer searches.

(4) The term "duplication" refers to the process of making a copy of a document in response to an FOIA request. Such copies can take the form of paper copy, microfiche, audiovisual, or machine readable documentation (*e.g.*, magnetic tape or disc), among others. Every effort will be made to ensure that the copy provided is in a form that is reasonably usable, the requester shall be notified that their copy is the best available and that the agency's master copy shall be made available for review upon appointment. For duplication of computer tapes and audiovisual, the actual cost, including the operator's time, shall be charged. In practice, if a Component estimates that assessable duplication charges are likely to exceed $25.00, it shall notify the requester of the estimate, unless the requester has indicated in advance his or her willingness to pay fees as high as those anticipated. Such a notice shall offer a requester the opportunity to confer with Component personnel with the object of reformulating the request to meet his or her needs at a lower cost.

(5) The term "review" refers to the process of examining documents located in response to an FOIA request to determine whether one or more of the statutory exemptions permit withholding. It also includes processing the documents for disclosure, such as excising them for release. Review does not include the time spent resolving general legal or policy issues regarding the application of exemptions. It should be noted that charges for commercial requesters may be assessed only for the initial review. Components may not charge for reviews required at the administrative appeal level of an exemption already applied. However, records or portions of records withheld in full under an exemption which is subsequently determined not to apply may be reviewed again to determine the applicability of other exemptions not previously considered. The costs for such a subsequent review would be properly assessable.

(c) *Fee restrictions.* (1) No fees may be charges by any DOD Components if the costs of routine collection and processing of the fee are likely to equal or exceed the amount of the fee. With the exception of requesters seeking documents for a commercial use, Components shall provide the first two hours of search time, and the first one hundred pages of duplication without charge. For example, for a request (other than one from a commercial requester) that involved two hours and ten minutes of search time, and resulted in one hundred and five pages of documents, a Component would determine the cost of only ten minutes of search time, and only five pages of reproduction. If this processing cost was equal to, or less than the cost to the Component for billing the requester and processing the fee collected, no charges would result.

(2) Requesters receiving the first two hours of search and the first one hundred pages of duplication without charge are entitled to such only once per request. Consequently, if a Component, after completing its portion of a request, finds it necessary to refer the request to a subordinate office, another DOD Component, or another Federal Agency to action their portion of the request, the referring Component shall inform the recipient of the referral of the expended amount of search time and duplication cost to date.

(3) The elements to be considered in determining the "cost of collecting a fee" are the administrative costs to the Component of receiving and recording a remittance, and processing the fee for deposit in the Department of Treasury's special account. The cost to the Department of the Treasury to handle such remittance is negligible and shall not be considered in Components' determinations.

(4) For the purposes of these restrictions, the word "pages" refers to paper copies of a standard size, which will normally be "8½×11" or "11×14". Thus, requesters would not be entitled to 100 microfiche or 100 computer disks, for example. A microfiche containing the equivalent of 100 pages or 100 pages of computer printout; however, might meet the terms of the restriction.

(5) In the case of computer searches, the first two free hours will be determined against the salary scale of the individual operating the computer for the purposes of the search. As an example, when the direct costs of the computer central processing unit, input-output devices, and memory capacity equal $24.00 (two hours of equivalent search at the clerical level), amounts of computer costs in excess of that amount are chargeable as computer search time.

(d) *Fee waivers.* (1) Documents shall be furnished without charge, or at a charge reduced below fees accessed to the catgories of requesters in paragraph (e) of this section when the Component determines that waiver or reduction of the fees is in the public interest because furnishing the information is likely to contribute significantly to public understanding of the operations or activities of the Department of Defense and is not primarily in the commercial interest of the requester.

(2) When assessable costs for an FOIA request total $15.00 or less, fees shall be waived automatically for all requesters, regardless of category.

(3) Decisions to waive or reduce fees that exceed the automatic waiver threshold shall be made on a case-by-case basis, consistent with the following factors:

(i) Disclosure of the information "is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the Government."

(A) *The subject of the request.* Components should analyze whether the subject matter of the request involves issues which will significantly contribute to the public understanding of the operations or activities of the Department of Defense. Requests for records in the possession of the Department of Defense which were originated by nongovernment organizations and are sought for their intrinsic content, rather than informative value will likely not contribute to public understanding of the operations or activities of the Department of Defense. An example of such records might be press clippings, magazine articles, or records forwarding a particular opinion or concern from a member of the public regarding a DOD activity. Similarly, disclosures of records of considerable age may or may not bear directly on the current activities of the Department of Defense; however, the age of a particular record shall not be the sole criteria for denying relative significance under this factor. It is possible to envisage an informative issue concerning the current activities of the Department of Defense, based upon historical documentation. Requests of this nature must be closely reviewed consistent with the requester's stated purpose for desiring the records and the potential for public understanding of the operations and activities of the Department of Defense.

(B) *The informative value of the information to be disclosed.* This factor requires a close analysis of the substantive contents of a record, or portion of the record, to determine whether disclosure is meaningful, and shall inform the public on the operations or activities of the Department of Defense. While the subject of a request may contain information which concerns operations or activities of the Department of Defense, it may not always hold great potential for contributing to a meaningful understanding of these operations or activities. An example of such would be a heavily redacted record, the balance of which may contain only random words, fragmented sentences, or paragraph headings. A determination as to whether a record in this situation will contribute to the public understanding of the operations or activities of the Department of Defense must be approached with caution, and carefully weighed against the arguments offered by the requester. Another example is information already known to be in the public domain. Disclosure of duplicative, or nearly identical information already existing in the public domain may add no meaningful new information concerning the operations and activities of the Department of Defense.

(C) *The contribution to an understanding of the subject by the general public likely to result from disclosure.* The key element in determining the applicability of this factor is whether disclosure will inform, or have the potential to inform the public, rather than simply the individual requester or small segment of interested persons. The identity of the requester is essential in this situation in order to determine whether such requester has the capability and intention to disseminate the information to the public. Mere assertions of plans to author a book, researching a particular subject, doing doctoral dissertation work, or indigence are insufficient without demonstrating the capacity to further disclose the information in a manner which will be informative to the general public. Requesters should be asked to describe their qualifications, the nature of their research, the purpose of the requested information, and their intended means of dissemination to the public.

(D) *The significance of the contribution to public understanding.* In applying this factor, Components must differentiate the relative significance or impact of the disclosure against the current level of public knowledge, or understanding which exists before the disclosure. In other words, will disclosure on a current subject of wide public interest be unique in contributing previously unknown facts, thereby enhancing public knowledge, or will it basically duplicate what is already known by the general public. A decision regarding significance requires objective judgment, rather than subjective determination, and must be applied carefully to determine whether disclosure will likely lead to a significant public understanding of the issue. Components shall not make value judgments as to whether the information is important enough to be made public.

(ii) Disclosure of the information "is not primarily in the commercial interest of the requester."

(A) *The existence and magnitude of a commercial interest.* If the request is determined to be of a commercial interest, Components should address the magnitude of that interest to determine if the requester's commercial interest is primary, as opposed to any secondary personal or non-commercial interest. In addition to profit-making organizations, individual persons or other organizations may have a commercial interest in obtaining certain records. Where it is difficult to determine whether the requester is of a commercial nature, Components may draw inference from the requester's identity and circumstances of the request. In such situations, the provisions of § 286.33(e), apply. Components are reminded that in order to apply the commercial standards of the FOIA, the requester's commercial benefit must clearly override any personal or non-profit interest.

(B) *The primary interest in disclosure.* Once a requester's commercial interest has been determined, Components should then determine if the disclosure would be primarily in that interest. This requires a balancing test between the commercial interest of the request against any public benefit to be derived as a result of that disclosure. Where the public interest is served above and beyond that of the requester's commercial interest, a waiver or reduction of fees would be appropriate. Conversely, even if a significant public interest exists, and the relative commercial interest of the requester is determined to be greater than the public interest, then a waiver of reduction of fees would be inappropriate. As examples, news media organizations have a commercial interest as business organizations; however, their inherent role of disseminating news to the general public can ordinarily be presumed to be of a primary interest. Therefore, any commercial interest becomes secondary to the primary interest in serving the public. Similarly, scholars writing books or engaged in other forms of academic research, may recognize a commercial benefit, either directly, or indirectly (through the institution they represent); however, normally such pursuits are primarily undertaken for educational purposes, and the application of a fee charge would be inappropriate. Conversely, data brokers or others who merely compile government information for marketing can normally be presumed to have an interest primarily of a commercial nature.

(4) Components are reminded that the above factors and examples are not all inclusive. Each fee decision must be

considered on a case-by-case basis and upon the merits of the information provided in each request. When the element of doubt as to whether to charge or waive the fee cannot be clearly resolved, Components should rule in favor of the requester.

(5) In addition, the following additional circumstances describe situations where waiver or reduction of fees are most likely to be warranted:

(i) A record is voluntarily created to preclude an otherwise burdensome effort to provide voluminous amounts of available records, including additional information not requested.

(ii) A previous denial of records is reversed in total, or in part, and the assessable costs are not substantial (e.g. $15.00—$90.00).

(e) *Fee assessment.* (1) Fees may not be used to discourage requesters, and to this end, FOIA fees are limited to standard charges for direct document search, review (in the case of commercial requesters) and duplication.

(2) In order to be as responsive as possible to FOIA requests while minimizing unwarranted costs to the taxpayer, Components shall adhere to the following procedures:

(i) Analyze each request to determine the category of the requester. If the Component determination regarding the category of the requester is different than that claimed by the requester, the Component shall:

(A) Notify the requester that he should provide additional justification to warrant the category claimed, and that a search for responsive records will not be initiated until agreement has been attained relative to the category of the requester. Absent further category justification from the requester, and within a reasonable period of time (i.e., 30 calendar days), the Component shall render a final category determination, and notify the requester of such determination, to include normal administrative appeal rights of the determination.

(B) Advise the requester that, notwithstanding any appeal, a search for responsive records will not be initiated until the requester indicates a willingness to pay assessable costs appropriate for the category determined by the Component.

(ii) Requesters must submit a fee declaration appropriate for the below categories.

(A) *Commercial.* Requesters must indicate a willingness to pay all search, review and duplication costs.

(B) *Educational or noncommercial scientific institution or news media.* Requesters must indicate a willingness to pay duplication charges in excess of 100 pages if more than 100 pages of records are desired.

(C) *All others.* Requesters must indicate a willingness to pay assessable search and duplication costs if more than two hours of search effort or 100 pages of records are desired.

(iii) If the above conditions are not met, then the request need not be processed and the requester shall be so informed.

(iv) In the situations described by paragraphs (e)(2) (i) and (ii) of this section, Components must be prepared to provide an estimate of assessable fees if desired by the requester. While it is recognized that search situations will vary among Components, and that an estimate is often difficult to obtain prior to an actual search, requesters who desire estimates are entitled to such before committing to a willingness to pay. Should Component estimates exceed the actual amount of the estimate or the amount agreed to by the requester, the amount in excess of the estimate or the requester's agreed amount shall not be charged without the requester's agreement.

(v) No DoD Component may require advance payment of any fee; i.e., payment before work is commenced or continued on a request, unless the requester has previously failed to pay fees in a timely fashion, or the agency has determined that the fee will exceed $250.00. As used in this sense, a timely fashion is 30 calendar days from the date of billing (the fees have been assessed in writing) by the Component.

(vi) Where a Component estimates or determines that allowable charges that a requester may be required to pay are likely to exceed $250.00, the Component shall notify the requester of the likely cost and obtain satisfactory assurance of full payment where the requester has a history of prompt payments, or require an advance payment of an amount up to the full estimated charges in the case of requesters with no history of payment.

(vii) Where a requester has previously failed to pay a fee charged in a timely fashion (*i.e.*, within 30 calendar days from the date of the billing), the Component may require the requester to pay the full amount owed, plus any applicable interest, or demonstrate that he or she has paid the fee, and to make an advance payment of the full amount of the estimated fee before the Component begins to process a new or pending request from the requester. Interest will be at the rate prescribed in 31 U.S.C. 3717, and confirmed with respective Finance and Accounting Offices.

(viii) After all work is completed on a request, and the documents are ready for release, Components may request payment before forwarding the documents if there is no payment history on the requester, or if the requester has previously failed to pay a fee in a timely fashion (*i.e.*, within 30 calendar days from the date of the billing). In the case of the latter, the previsions of paragraph (e)(2)(vii) of this section apply. Components may not hold documents ready for release pending payment from requesters with a history of prompt payment.

(ix) When Components act under paragraphs (e)(i) through (vii) of this section, the administrative time limits of the FOIA (*i.e.*, 10 working days from receipt of initial requests, and 20 working days from receipt of appeals, plus permissible extensions of these time limits) will begin only after the Component has received a willingness to pay fees and satisfaction as to category determination, or fee payments (if appropriate).

(x) Components may charge for time spent searching for records, even if that search fails to locate records responsive to the request. Components may also charge search and review (in the case of commercial requesters) time if records located are determined to be exempt from disclosure. In practice, if the Component estimates that search charges are likely to exceed $25.00 it shall notify the requester of the estimated amount of fees, unless the requester has indicated in advance his or her willingness to pay fees as high as those anticipated. Such a notice shall offer the requester the opportunity to confer with Component personnel with the object of reformulating the request to meet his or her needs at a lower cost.

(3) *Commercial requesters.* Fees shall be limited to reasonable standard charges for document search, review and duplication when records are requested for commercial use. Requesters must reasonably describe the records sought (see § 286.7(h)).

(i) The term "Commercial use" request refers to a request from, or on behalf of one who seeks information for a use or purpose that furthers the commercial, trade, or profit interest of the requester or the person on whose behalf the request is made. In determining whether a requester properly belongs in this category, Components must determine the use to which a requester will put the documents requested. Moreover, where a Component has reasonable cause to doubt the use to which a requester will put the records sought, or where that use is not clear from the request itself, Copmponents should seek additional

clarification before assigning the request to a specific category.

(ii) When Components receive a request for documents for commercial use, they should assess charges which recover the full direct costs of searching for, reviewing for release, and duplicating the records sought. Commercial requesters (unlike other requesters) are not entitled to two hours of free search time, nor 100 free pages of reproduction of documents. Moreover, commercial requesters are not normally entitled to a waiver or reduction of fees based upon an assertion that disclosure would be in the public interest. However, because use is the exclusive determining criteria, it is possible to envision a commercial enterprise making a request that is not for commercial use. It is also possible that a non-profit organization could make a request that is for commercial use. Such situations must be addressed on a case-by-case basis.

(4) *Educational institution requesters.* Fees shall be limited to only reasonable standard charges for document duplication (excluding charges for the first 100 pages) when the request is made by an educational institution whose purpose is scholarly research. Requesters must reasonably describe the records sought (see § 286.7(h)). The term "educational institution" refers to a preschool, a public or private elementary or secondary school, an institution of graduate higher education, an institution of undergraduate higher education, and institution of professional education, and an institution of vocational education, which operates a program or programs of scholarly research.

(5) *Non-commercial scientific institution requesters.* Fees shall be limited to only reasonable standard charges for document duplication (excluding charges for the first 100 pages) when the request in made by a non-commercial scientific institution whose purpose is scientific research. Requesters must reasonably describe the records sought (see § 286.7(h)). The term "non-commercial scientific institution" refers to an institution that is not operated on a "commercial" basis as defined in paragraph (e)(3) of this section and which is operated solely for the purpose of conducting scientific research, the results of which are not intended to promote any particular product or industry.

(6) Components shall provide documents to requesters in paragraph (e)(4) and (5) of this section, for the cost of duplication alone, excluding charges for the first 100 pages. To be eligible for inclusion in these categories, requesters must show that the request is being made under the auspices of a qualifying institution and that the records are not sought for commercial use, but in furtherance of scholarly (from an educational institution) or scientific (from a non-commercial scientific institution) research.

(7) *Representatives of the news media.* Fees shall be limited to only reasonable standard charges for document duplication (excluding charges for the first 100 pages) when the request is made by a representative of the news media. Requesters must reasonably describe the records sought (see § 286.7(h)).

(i) The term "representative of the news media" refers to any person actively gathering news for an entity that is organized and operated to publish or broadcast news to the public. The term "news" means information that is about current events or that would be of current interest to the public. Examples of news media entities include television or radio stations broadcasting to the public at large, and publishers of periodicals (but only in those instances when they can qualify as disseminators of "news") who make their products available for purchase or subscription by the general public. These examples are not meant to be all-inclusive. Moreover, as traditional methods of news delivery evolve (*e.g.*, electronic dissemination of newspapers through telecommunications services), such alternative media would be included in this category. In the case of "freelance" journalists, they may be regarded as working for a news organization if they can demonstrate a solid basis for expecting publication through that organization, even though not actually employed by it. A publication contract would be the clearest proof, but Components may also look to the past publication record of a requester in making this determination.

(ii) To be eligible for inclusion in this category, a requester must meet the criteria in paragraph (e)(7)(i) of this section, and his or her request must not be made for commercial use. A request for records supporting the news dissemination function of the requester shall not be considered to be a request that is for a commercial use. For example, a document request by a newspaper for records relating to the investigation of a defendant in a current criminal trial of public interest could be presumed to be a request from an entity eligible for inclusion in this category, and entitled to records at the cost of reproduction alone (excluding charges for the first 100 pages).

(iii) "Representative of the news media" does not include private libraries, private repositories of Government records, or middlemen, such as information vendors or data brokers.

(8) *All other requesters.* Components shall charge requesters who do not fit into any of the above categories, fees which recover the full direct cost of searching for and duplicating records, except that the first two hours of search time and the first 100 pages of duplication shall be furnished without charge. Requestes must reasonably describe the records sought (see § 286.7(h)). Requests from subjects about themselves will continue to be treated under the fee provisions of the Privacy Act of 1974, which permit fees only for duplication. Components are reminded that this category of requester may also be eligible for a waiver or reduction of fees if disclosure of the information is in the public interest as defined under paragraph (d) of this section (See also paragraph (e)(3)(ii)) of this section.

(f) *Aggregating requests.* Except for requests that are for a commercial use, a Component may not charge for the first two hours of search time or for the first 100 pages of reproduction. However, a requester may not file multiple requests at the same time, each seeking portions of a document or documents, solely in order to avoid payment of fees. When a Component reasonably believes that a requester or, on rare occasions, a group of requesters acting in concert, is attempting to break a request down into a series of requests for the purpose of avoiding the assessment of fees, the agency may aggregate any such requests and charge accordingly. One element to be considered in determining whether a belief would be reasonable is the time period in which the requests have occurred. For example, it would be reasonable to presume that multiple requests of this type made within a 30 day period had been made to avoid fees. For requests made over a longer period; however, such a presumption becomes harder to sustain and Components should have a solid basis for determining that aggregation is warranted in such cases. Components are cautioned that before aggregating requests from more than one requester, they must have a concrete basis on which to conclude that the requesters are acting in concert and are acting specifically to avoid payment of fees. In no case may Components aggregate multiple requests on unrelated subjects from one requester.

Effect of the Debt Collection Act of 1982 (Pub. L. 97-365). The Debt

Collection Act of 1982 (Pub. L. 97-365) provides for a minimum annual rate of interest to be charged on overdue debts owed the Federal Government. Components may levy this interest penalty for any fees that remain outstanding 30 calendar days from the date of billing (the first demand notice) to the requester of the amount owed. The interest rate shall be as prescribed in 31 U.S.C. 3717. Components should verify the current interest rate with respective Finance and Accounting Offices. After one demand letter has been sent, and 30 calendar days have lapsed with no payment, Components may submit the debt to respective Finance and Accounting Offices for collection pursuant to the Debt Collection Act of 1982.

(h) *Computation of fees.* The fee schedule in this Subpart shall be used to compute the search, review (in the case of commercial requesters) and duplication costs associated with processing a given FOIA request. Costs shall be computed on time actually spent. Neither time-based nor dollar-based minimum charges for search, review and duplication are authorized.

§ 286.35 Collection of fees and fee rates.

(a) *Collection of fees.* Collection of fees will be made at the time of providing the documents to the requester or recipient when the requester specifically states that the costs involved shall be acceptable or acceptable up to a specified limit that covers the anticipated costs. Collection of fees may not be made in advance unless the requester has failed to pay previously assessed fees within 30 calendar days from the date of the billing by the DoD Component, or the Component has determined that the fee will be in excess of $250 (see § 286.33(e)).

(b) *Search time.*

(1) Manual search:

Type	Grade	Hourly rate ($)
Clerical	E9/GS8 and below	12
Professional	01-06/GS9-GS/GM15.	25
Executive	07/GS/GM16/ES1 and above.	45

(2) *Computer search:* Computer search is based on direct cost of the central processing unit, input-output devices, and memory capacity of the actual computer configuration. The salary scale (equating to paragraph (a)(1) of this section) for the computer operator/programmer determining how to conduct and subsequently executing the search will be recorded as part of the computer search.

(c) *Duplication.*

Type	Cost per page (cents)
Pre-Printed material	02.
Office copy	15.
Microfiche	25.
Computer copies	Actual cost of duplicating (tapes or printouts) the tape or printout (includes operator's time and cost of the tape).

(d) *Review time* (in the case of commercial requesters):

Type	Grade	Hourly rate($)
Clerical	E9/GS8 and below	12
Professional	01-06/GS9-GS/GM15.	25
Executive	07/GS/GM16/ES1 and above.	45

(e) *Audiovisual documentary materials.* Search costs are computed as for any other record. Duplication cost is the actual direct cost of reproducing the material, including the wage of the person doing the work. Audiovisual materials provided to a requester need not be in reproducible format or quality.

(f) *Other records.* Direct search and duplication cost for any record not described above shall be computed in the manner described for audiovisual documentary material.

(g) *Costs for special services.* Complying with requests for special services is at the discretion of the Components. Neither the FOIA, nor its fee structure cover these kinds of services. Therefore, Components may recover the costs of special services requested by the requester after agreement has been obtained in writing from the requester to pay for one or more of the following services:

(1) Certifying that records are true copies.

(2) Sending records by special methods such as express mail, etc.

§ 286.37 Collection of fees and fee rates for technical data.

(a) *Fees for technical data.* (1) Technical data, other than technical data that discloses critical technology with military or space application, if required to be released under the FOIA, shall be released after the person requesting such technical data pays all reasonable costs attributed to search, duplication and review of the records to be released. Technical data, as used in this section, means recorded information, regardless of the form or method of the recording of a scientific or technical nature (including computer software documentation). This term does not include computer software, or data incidental to contract administration, such as financial and/or management information. DoD Components shall retain the amounts received by such a release, and it shall be merged with and available for the same purpose and the same time period as the appropriation from which the costs were incurred in complying with request. All reasonable costs as used in this sense are the full costs to the Federal Government of rendering the service, or fair market value of the service, whichever is higher. Fair market value shall be determined in accordance with commercial rates in the local geographical area. In the absence of a known market value, charges shall be based on recovery of full costs to the Federal Government. The full costs shall include all direct and indirect costs to conduct the search and to duplicate the records responsive to the request. This cost is to be differentiated from the direct costs allowable under § 286.35 for other types of information released under the FOIA.

(2) *Waiver.* Components shall waive the payment of costs required in § 286.37(a)(1), which are greater than the costs that would be required for release of this same information under § 286.35 if:

(i) The request is made by a citizen of the United States or a United States corporation, and such citizen or corporation certifies that the technical data requested is required to enable it to submit an offer, or determine whether it is capable of submitting an offer to provide the product to which the technical data relates to the United States or a contractor with the United States. However, Components may require the citizen or corporation to pay a deposit in an amount equal to not more than the cost of complying with the request, which will be refunded upon submission of an offer by the citizen or corporation;

(ii) The release of technical data is requested in order to comply with the terms of an international agreement; or,

(iii) The Component determines in accordance with § 286.37(d)(1), that such a waiver is in the interest of the United States.

(3) *Fee rates*—(i) *Search time*—(A) *Manual search.*

Type	Grade	Hourly rate ($)
Clerical	E9/GS8 and below	13.25
(Minimum Charge)		8.30

Professional and Executive (To be established at actual hourly rate prior to search. A minimum charge will be established at ½ hourly rates)

(B) Computer search is based on the total cost of the central processing unit, input-output devices, and memory capacity of the actual computer configuration. The wage (based upon the scale in paragraph (a)(3)(i) of this section) for the computer operator and/or programmer determining how to conduct, and subsequently executing the search will be recorded as part of the computer search:

(ii) *Duplication.*

Type	Cost ($)
Aerial photographs, specifications, permits, charts, blueprints, and other technical documents	2.50
Engineering data (microfilm):	
Aperture cards:	
Silver duplicate negative, per card	.75
When key punched and verified, per card	.85
Diazo duplicate negative, per card	.85
When key punched and verified, per card	.75
32mm roll film, per frame	.50
16mm roll film, per frame	.45
Paper prints (engineering drawings), each	1.50
Paper reprints of microfilm indices, each	.10

(iii) *Review time.*

Type	Grade	Hourly rate ($)
Clerical	E9/GS8 and below	13.25
(Minimum Charge)		8.30

Professional and Executive (To be established at actual hourly rate prior to review. A minimum charge will be established at ½ hourly rates).

(4) *Other technical data records.* Charges for any additional services not specifically provided in § 286.37(a)(3), consistent with DoD Instruction 7230.7 [9], shall be made by Components at the following rates:

(i) Minimum charge for office copy (up to six images) $3.50
(ii) Each additional image ..... .10
(iii) Each typewritten page 3.50
(iv) Certification and validation with seal, each 5.20
(v) Hand-drawn plots and sketches, each hour or fraction thereof 12.00

[9] See footnote 1 to § 286.1

Subpart G—Reports

§ 286.39 Reports control.

The reporting requirement outlined in this Subpart is assigned Report Control Symbol DD–PA(A)1365.

§ 286.41 Annual report.

(a) *Reporting time.* Each DoD component shall prepare statistics and accumulate paperwork for the preceding calendar year on those items prescribed for the annual report and submit them in duplicate to the ASD(PA) on or before each February 1. Existing DoD standards and registered date elements are to be used for all data requirements to the greatest extent possible in accordance with the provisions of DoD Directive 5000.11 [10]. The standard data elements are contained in DoD Directive 5000.12–M [11].

(b) *Annual report content.* The following instructions and attached format shall be used in preparing the annual report:

(1) *Item 1.*—(i) *Total requests.* Enter the total number of FOIA requests responded to during the calendar year.

(ii) *Granted in full.* Enter the total number of FOIA requests responded to and granted in full during the calendar year. (This may include requests granted by your office, yet still requiring action by another office.)

(iii) *Denied in part.* Enter the total number of FOIA requests responded to and denied in part based on one or more of the nine FOIA exemptions. (Do not report denial of fee waivers.)

(iv) *Denied in full.* Enter the total number of FOIA requests responded to and denied in full based on one or more of the nine FOIA exemptions. (Do not report denial of fee waivers.)

(v) *"Other Reason" responses.* Enter the total number of FOIA requests in which you were unable to provide all or part of the requested information based on an "Other Reason" response. Paragraph (b)(2) of this section explains the six possible "Other Reasons".

(vi) *Total actions.* Enter the total number of FOIA actions taken during the calendar year. This number will be the sum of paragraphs (b)(1)(i) through (v) of this section.

(2) *Item 2*—(i) *Exemptions invoked on initial determinations.* Enter the number of times an exemption was claimed for each request that was denied in full or in part. Since more than one exemption may be claimed when responding to a single request, this number will be equal to or greater than the sum of paragraph (b)(1) (iii) and (iv) of this section.

[10] See footnote 1 to § 286.1
[11] See footnote 1 to § 286.1

(ii) *"(b)(3)" statutes invoked on initial determinations.* Identify the statutes cited and number of times invoked when you claimed an FOIA (b)(3) exemption. The total number of instances will be equal to the total in paragraph (b)(2)(i) of this section. Cite the specific sections when invoking the Atomic Energy Act of 1954 or the National Security Act of 1947. To qualify as an FOIA (b)(3) exemption, the statute must contain clear wording that the information covered will not be disclosed. The following examples are not FOIA (b)(3) statutes:

(A) 5 U.S.C. 552a—Privacy Act
(B) 17 U.S.C. 101 et. seq.—Copyright Act
(C) 18 U.S.C. 793—Gathering, Transmitting or Losing Defense Information
(D) 18 U.S.C. 794—Gathering or Delivering Defense Information to Aid Foreign Governments
(E) 18 U.S.C. 1905—Trade Secrets Act
(F) 28 U.S.C. 1498—Patent and Copyright Cases

(iii) *"Other reasons" cited on initial determinations.* Identify the "Other Reason" response cited when responding to a FOIA request and enter the number of times each was claimed.

(A) *Transferred request.* Enter the number of times a request was transferred to another DoD component or Federal Agency for action.

(B) *Lack of records.* Enter the number of times a search of files failed to identify records responsive to subject request and there was no statutory obligation to create a record.

(C) *Failure of requester to reasonbly describe record.* Enter the number of times a FOIA request could not be acted upon since the requester failed to reasonably describe the record(s) being sought.

(D) *Other failures by requester to comply with published rules and/or directives.* Enter the number of times a requester failed to follow published rules concerning time, place, fees, and procedures.

(E) *Request withdrawn by requester.* Enter the number of times a requester withdrew a request and/or appeal.

(F) *Not an agency record.* Enter the number of times a requester was provided a response indicating the requested information was not an agency record.

(G) *Total.* Enter the sum of paragraphs (b)(2) (i) through (iii) of this section. This number will be equal to or greater than the number in paragraph (b)(1)(v) of this section, since more than one reason may be claimed for each "other Reason" response.

(3) *Item 3—Initial denial authorities by participation.* Enter the name, title,

and activity of each individual who signed a partial or total denial response and give the number of instances of participation. The total number of instances will equal the sum of paragraphs (b)(1) (iii) and (iv) of this section. For military show the rank (abbreviated) with the name; for civilians use Mr., Mrs., Ms., Hon, etc. Show the individual's full title and complete organization (do not use acronyms or abbreviations, other than US). See example shown.

BG John C. Smith, Director, Personnel and Administration, US European Command

(4) *Item 4.*

(i) *Total requests.* Enter the total number of FOIA appeals responded to during the calendar year.

(ii) *Granted in full.* Enter the total number of FOIA appeals responded to and granted in full during the year.

(iii) *Denied in part.* Enter the total number of FOIA appeals responded to and denied in part based on one or more of the nine FOIA exemptions.

(iv) *Denied in full.* Enter the total number of FOIA appeals responded to and denied in full based on one or more of the nine FOIA exemptions.

(v) *"Other Reason" responses.* Enter the total number of FOIA appeals in which you were unable to provide the requested information based on an "Other Reason" response. Paragraph (b)(2)(iii) of this section explains the six possible "Other Reasons".

(vi) *Total actions.* Enter the total number of FOIA appeal actions taken during the calendar year. This number will be the sum of paragraphs (b)(4)(ii) through (v) of this section.

(5) *Item 5.*—(i) *Exemptions invoked on appeal determinations.* Enter the number of times an exemption was claimed for each appeal that was denied in full or in part. Since more than one exemption may be claimed when responding to a single request, this number will be equal to or greater than the sum of paragraphs (b)(4)(iii) and (iv) of this section.

(ii) *"(b)(3)" statues invoked on appeal determinations.* Identify the statutes cited and number of times invoked when you claimed an FOIA (b)(3) exemption. The total number of instances will be equal to the total in paragraph (b)(5)(i) of this section. Cite the specific sections when invoking the Atomic Energy Act of 1954 or the National Security Act of 1947. To qualify as an FOIA (b)(3) exemption, the statute must contain clear wording that the information covered will not be disclosed. Examples which are not FOIA (b)(3) statutes are listed in paragraph (b)(2)(ii) of this section.

(iii) *"Other Reasons" cited on appeal determinations.* Identify the "Other Reason" response cited when responding to a FOIA appeal and enter the number of times each was claimed. See paragraph (b)(2)(iii) of this section for description of "Other Reasons".

(6) *Item 6—Appeal denial authorities by participation.* Enter the name, title, and activity of each individual who signed a partial or total appeal denial response and give the number of instances of participation. The total number of instances will equal the sum of paragraphs (b)(4)(iii) and (iv) of this section. For military show the rank (abbreviated) with the name; for civilians use Mr., Mrs., Ms., Hon, etc. Show the full title and complete organization (do not use acronyms or abbreviations, other than US). See paragraph (b)(3)(i) of this section for example shown.

(7) *Item 7—Court opinions and actions taken.* Briefly describe the results of each suit the Judge Advocate General and/or the General Counsel participated in during the calendar year. See example in paragraph (b)(7)(i) of this section. *Armed Forces Relief and Benefit Association v. Department of Defense, Department of the Army, Department of the Air Force and Department of the Navy*, C.A. 89–0969, U.S.D.C. D.C., March 15, 1989. Plaintiff filed suit for defendent's refusal to release servicemen's name and duty addresses. Information was held pursuant to 5 USC 552(b)(2) and (b)(6). Plaintiff voluntarily dismissed suit June 19, 1989.

(8) *Item 8—FOIA implementation rules or regulations.* List all changes or revisions of FOIA rules or regulations affecting the implementation of the FOIA program, followed by the Federal Register reference (volume number, date, and page) that announces the change or revision to the public. Append a copy of each. See example shown.

DoD 5400.7–R "DoD Freedom of Information Act Program"—32 CFR Part 286, Vol 54, No. 155, pg 33180, 14 Aug 89.

(9) *Item 9—Fees collected from the public.* Enter the total amount of fees collected from the public during the calendar year. This includes search, review and reproduction costs only.

(10) *Item 10.*—(i) *Availability of records.* Report all new categories or segregable portions of records now being released upon request. (Since this item is very seldom used, it does not appear on the form. Report any such records on a separate sheet of paper.)

(ii) *FOI program costs.*—(A) *Personnel costs.* Paragraphs (b)(10)(ii)(A)(*1*) and (*2*) of this section are used to capture manyears and salary costs of personnel primarily involved in planning, program management and/or administrative handling of FOIA requests. Determine salaries for military personnel by using the Composite Standard Pay Rates (DoD 7220.9–M [12], "Department of Defense Accounting Manual"). For civilian personnel use Office of Personnel Management salary table and add 16 percent for benefits. A sample computation is shown in the following table.

Grade	Number of personnel	Salary	Percentage of time	Cost
0–5	1	$68,465	10	$6,846
0–1	1	37,219	30	11,165
GS–12	1	41,557	50	20,779
Total			90	40,790

(*1*) *Estimated manyears.* Add the total percentages of time for personnel involved in administering the FOI program and divide by 100. In the example shown previously (10+30+50)/100=.9 manyears.

(*2*) *Manyear costs.* Total costs associated with salaries of individuals involved in administering FOIA program. In the example shown previously, the total cost is $40,790.

(*3*) *Estimated manhour costs by category.* This section accounts for all other personnel not reported in paragraphs (b)(10)(ii) (*1*) and (*2*) of this section who are involved in processing FOIA requests. Enter the total hourly cost for each of the five areas described in the following:

(*i*) *Search time.* This includes only those direct costs associated with time spent looking for material that is responsive to a request, including line-by-line identificaton of material within a document to determine if it is responsive to the request. Searches may be done manually or by computer using existing programming.

(*ii*) *Review and excising.* This includes all direct costs incurred during the process of examining documents located in response to a request to determine whether any portion of any document located is permitted to be withheld. It also includes excising documents to prepare them for release. It does not include time spent resolving general legal or policy issues regarding the application of exemptions.

[12] See footnote 1 § 286.1

(iii) *Coordination and approval.* This includes all costs involved in coordinating the release/denial of documents requested under the FOIA.

(iv) *Correspondence/form preparation.* This includes all costs involved in typing responses, filling out forms, etc., to respond to a FOIA request.

(v) *Other activities.* This includes all other processing costs not covered above, such as processing time by the mail room.

(vi) *Total.* Enter the sum of paragraphs (b)(10)(ii)(A)(3) (*i*) through (*v*) of this section.

(4) *Overhead.* This is the cost of supervision, space, and administrative support. It is computed as 25 percent of the sum of paragraph (b)(10) (ii) and (iii) of this section.

(5) *Total.* Enter the sum of paragraphs (b)(10) (ii), (iii) and (iv) of this section.

(B) *Other case-related costs.* Using the fee schedule, enter the total amounts incurred in each of the areas in the following.

(1) *Computer search time.* This includes cost of central processing unit, input/output devices, memory, etc. of the computer system used, as well as the wage of the machine's operator/programmer.

(2) *Office copy reproduction.* This is the cost of reproducing normal documents with office copying equipment.

(3) *Microfiche reproduction.* This is the cost of reproducing records and providing microfiche.

(4) *Printed records.* This is the cost of providing reproduced copies of forms, publications, or reports.

(5) *Computer copy.* This is the actual cost of duplicating magnetic tapes, floppy diskettes, computer printouts, etc.

(6) *Audiovisual materials.* This is the actual cost of duplicating audio or video tapes or like materials, to include the wage of the person doing the work.

(7) *Other.* Report all other costs which are easily identifiable, such as per diem, operation of courier vehicles, training courses, printing (indexes and forms), long distance telephone calls, special mail services, use of indicia, etc.

(8) *Subtotal.* Enter the sum of paragraphs (b)(10)(ii)(B) (*1*) through (*7*) of this section.

(9) *Overhead.* This is the cost of supervision, space, and administrative support. It is computed as 25 percent of (b)(10)(B)(*8*) of this section.

(10) *Total.* Enter the sum or paragraphs (b)(10)(ii)(b) (*8*) and (*9*) of this section.

(C) *Cost of routine requests processed.* This item is optional. Some reporting activities may find it economical to develop an average cost factor for processing repetitive routine requests rather than tracking costs on each request as it is processed. Care should be exercised so that costs are comprehensive to include a 25 percent overhead, yet are not duplicated elsewhere in the report. Multiply the number of routine requests processed times the cost factor to compute this amount.

(D) *Total costs.* Enter the sum of paragraphs (b)(10)(ii)(C) (*1*) through (*3*) of this section. *Formal time limit extensions.* Enter the total number of instances in which it was necessary to seek a formal 10-working-day time extension for one of the reasons explained below.

(*1*) *Locations.* The need to search for and collect the requested records from another activity that was separate from the office processing the request.

(*2*) *Volume.* The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records indicated in a single request.

(*3*) *Consultation.* The need for consultation with another agency having a substantial interest in the material requested.

(*4*) *Court involvement.* Where court actions were taken on the basis of exhaustion of administrative procedures because the department/activity was unable to comply with the request within the applicable time limits, and in which a court allowed additional time upon a showing of exceptinal circumstances, provide a copy of each court opinion and court order containing such an extension of time.

(*5*) *Total.* Enter the sum of paragraphs (b)(10)(ii)(D) (*1*) through (*iv*) of this section.

Subpart H—Education and Training

§ 286.43 Responsibility and purpose.

(a) *Responsibility.* The Head of each DOD Component is responsible for the establishment of educational and training programs on the provisions and requirements of this part. The educational programs should be targeted toward all members of the DOD Component, developing a general understanding and appreciation of the DOD FOIA Program; whereas, the training programs should be focused toward those personnel who are involved in the day-to-day processing of FOI requests, and should provide a thorough understanding of the procedures outlined in this part.

(b) *Purpose.* The purpose of the educational and training programs is to promote a positive attitude among DOD personnel and raise the level of understanding and appreciation of the DOD FOIA Program, thereby improving the interaction with members of the public and improving the public trust in the Department of Defense.

(c) *Scope and principles.* Each Component shall design its FOIA educational and training programs to fit the particular requirements of personnel dependent upon their degree of involvement in the implementation of this part. The program should be designed to accomplish the following objectives:

(1) Familiarize personnel with the requirements of the FOIA and its implementation by this part.

(2) Instruct personnel, who act in FOI matters, concerning the provisions of this part, advising them of the legal hazards involved and the strict prohibition against arbitrary and capricious withholding of information.

(3) Provide for the procedural and legal guidance and instruction, as may be required, in the discharge of the responsibilities of initial denial and appellate authorities.

(4) Advise personnel of the penalties for noncompliance with the FOIA.

(d) *Implementation.* To ensure uniformity of interpretation, all major educational and training programs concerning the implementation of this Regulation should be coordinated with the Director, Freedom of Information and Security Review, OASD(PA).

(e) *Uniformity of legal interpretation.* In accordance with DOD Directive 5400.7, the General Counsel of the Department of Defense shall ensure uniformity in the legal position and interpretation of the DOD FOIA Program.

Appendix A to Part 286—Unified Commands—Processing Procedures for FOIA Appeals

1. General.

a. In accordance with DOD Directive 5400.7 and this part, the Unified Commands are placed under the jurisdiction of the Office of the Secretary of Defense, instead of the administering Military Department, only for the purpose of administering the Freedom of Information Act (FOIA) Program. This policy represents an exception to the policies in DOD Directive 5100.3.

b. The policy change above authorizes and requires the Unified Commands to process FOIA requests in accordance with DOD Directive 5400.7 and DOD Instruction 5400.10 [1] and to forward directly to the

[1] Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.

BEST COPY AVAILABLE

OASD(PA) all correspondence associated with the appeal of an initial denial for information under the provisions of the FOIA.

2. Responsibilities of Commands. Unified Commanders in Chief shall:

a. Designate the officials authorized to deny initial FOI requests for records.

b. Designate an office as the point-of-contact for FOI matters.

c. Refer FOIA cases to the OASD(PA)for review and evaluation when the issues raised are of unusual significance, precedent setting, or otherwise require special attention or guidance.

d. Consult with other OSD and DOD Components that may have a significant interest in the requested record prior to a final determination. Coordination with agencies outside of the Department of Defense, if required, is authorized.

e. Coordinate proposed denials of records with the appropriate Unified Command's Office of the Staff Judge Advocate.

f. Answer any request for a record within 10 working days of receipt. The requester shall be notified that his request has been granted or denied. In unusual circumstances, such notification may state that additional time, not to exceed 10 working days, is required to make a determination.

g. Provide to the OASD(PA) when the request for a record is denied in whole or in part, a copy of the response to the requester of his representative, and any internal memoranda that provide background information or rationale for the denial.

h. State in the response that the decision to deny the release of the requested information, in whole or in part, may be appealed to the Assistant Secretary of Defense (Public Affairs), the Pentagon, Washington, DC 20301–1400.

i. Upon request, submit to OASD(PA) a copy of the records that were denied. ASD(PA) shall make such requests when adjudicating appeals.

3. Fees for FOI Requests. The fees charged for requested records shall be in accordance with subpart F of this part.

4. Communications. Excellent communication capabilities currently exist between the OASD(PA) and the Public Affairs Offices of the Unified Commands. This communication capability shall be used for FOI cases that are time sensitive.

5. Reporting Requirements.

a. The Unified Commands shall submit to the OASD(PA) an annual report. The instructions for the report are outlined in subpart F of this part.

b. The annual report shall be submitted in duplicate to the OASD(PA) not later than each February 1. This reporting requirement is assigned Report Control Symbol DD–PA(A) 1365.

Appendix B to Part 286—Addressing FOIA Requests

1. General.

a. The Department of Defense includes the Office of the Secretary of Defense and the Joint Staff, the Military Departments, the Unified Commands, the Defense Agencies, and the DoD Field Activities.

b. The Department does not have a central repository for DoD records. FOIA requests, therefore, should be addressed to the DoD Component that has custody of the record desired. In answering inquiries regarding FOIA requests, DoD personnel shall assist requesters in determining the correct DoD Component to address their requests. If there is uncertainty as to the ownership of the record desired, the requester shall be referred to the DoD Component that is most likely to have the record.

2. Listing of DoD Component Addresses for FOI Requests.

a. Office of the Secretary of Defense and the Joint Staff. Send all requests for records from the below listed offices to: Office of the Assistant Secretary of Defense (Public Affairs), ATTN: Directorate for Freedon of Information and Security Review, room 2C757, The Pentagon, Washington, DC 20301–1400. Executive Secretariat
Under Secretary of Defense (Policy)
Assistant Secretary of Defense (International Security Affairs)
Assistant Secretary of Defense (International Security Policy)
Assistant Secretary of Defense (Special Operations/Low Intensity Conflict)
Principal Deputy Under Secretary of Defense (Strategy and Resources)
Deputy Under Secretary of Defense (Trade Security Policy)
Deputy Under Secretary of Defense (Security Policy)
Director of Net Assessment
Director, Defense Security Assistance Agency
Defense Technology Security Administration
Under Secretary of Defense (Acquisition)
Assistant Secretary of Defense (Production & Logistics
Assistant Secretary of Defense for Command, Control, Communications, and Intelligence
Assistant to the Secretary of Defense (Atomic Energy)
Director of Defense Research and Engineering
Director of Small and Disadvantaged Business Utilization
Comptroller of the Department of Defense
Assistant Secretary of Defense (Force Management & Personnel)
Assistant Secretary of Defense (Health Affairs)
Assistant Secretary of Defense (Legislative Affairs)
Assistant Secretary of Defense (Public Affairs)
Assistant Secretary of Defense (Program Analysis and Evaluation)
Assistant Secretary of Defense (Reserve Affairs)
General Counsel, Department of Defense
Director, Operational Test and Evaluation
Assistant to the Secretary of Defense (Intelligence Oversight)
Assistant to the Secretary of Defense (Intelligence Policy)
Defense Advanced Research Projects Agency
Strategic Defense Initiative Organization
Defense Systems Management College
National Defense University
Armed Forces Staff College
Department of Defense Dependents Schools Uniformed Services University of the Health Sciences

b. Department of the Army. Army records may be requested from those Army officials who are listed in 32 CFR part 518, appendix B. Send requests to the Chief, Freedon of Information and Privacy Acts Division, Information System Command, ATTN: ASQNS–OP F, room 1146, Hoffman I, 2461 Eisenhower Avenue, Alexandria, VA 22331–0301 for records of Headquarters, U.S. Army, or if there is uncertainty as to which Army activity may have the records.

c. Department of the Navy. Navy and Marine Corps records may be requested from any Navy or Marine Corps activity by addressing a letter to the Commanding Officer and clearly indicating that it is an FOI request. Send request to Chief of Naval Operations, Code OP–09B30, room 5E521, Pentagon, Washington, DC 20350–2000, for records of the Headquarters, Department of the Navy, and to Freedom of Information and Privacy Act Office, Code MI–3, HQMC, room 4327, Washington, DC 10308–0001, for records of the U.S. Marine Corps, or if there is uncertainty as to which Navy or Marine activities may have the records.

d. Department of the Air Force. Air Force records may be requested from the Commander of any any Air Force installation, major command, or separate operating agency (ATTN: FOIA Office). For Air Force records of Headquarters, United States Air Force, or if there is uncertainty as to which Air Force activity may have the records, send requests to Secretary of the Air Force, ATTN: SAF/AAIS(FOIA), Pentagon, Room 4A1088C Washington, DC 20330–1000.

e. Defense Contract Audit Agency (DCAA). DCAA records may be requested from any of its regional offices or from its Headquarters. Requesters should send FOI requests to the Defense Contract Audit Agency, ATTN: CMR, Cameron Station, Alexandria, VA 22304–6178, for records of its headquarters or if there is uncertainty as to which DCAA region may have the records sought.

f. Defense Communications Agency (DCA). DCA records may be requested from any DCA field activity or from its Headquarters. Requesters should send FOI requests to Defense Communications Agency, Code ADR, Washington, DC 20305–2000.

g. Defense Intelligence Agency (DIA). FOI requests for DIA records may be addressed to Defense Intelligence Agency, ATTN: RTS–1, Washington, DC 20340–3299.

h. Defense Investigation Service (DIS). All FOI requests for DIS records

BEST COPY AVAILABLE

should be sent to the Defense Investigative Service, ATTN: V0020, 1900 Half St., SW, Washington, DC 20324–1700.

(i) Defense Logistics Agency (DLA). DLA records may be requested from its headquarters or from any of its field activities. Requesters should send FOI requests to Defense Logistics Agency, ATTN: DLA–XAM, Cameron Station, Alexandria, VA 22304–6100.

j. Defense Mapping Agency (DMA). FOI requests for DMA records may be sent to the Defense Mapping Agency, 8613 Lee Highway, Fairfax, VA 22031–2137.

k. Defense Nuclear Agency (DNA). FOI requests for DNA records may be sent to the Defense Nuclear Agency, Public Affairs Office, room 113, 6801 Telegraph Road, Alexandria, VA 22310–3398.

l. National Security Agency (NSA). FOI requests for NSA records may be sent to the National Security Agency/Central Security Service, ATTN: Q–43, Fort George G. Meade, MD 20755–6000.

m. Office of the Inspector General, Department of Defense (OIG, DoD). FOI requests for IG, DoD records may be sent to the Department of Defense Office of the Inspector General, Assistant Inspector General for Investigations, ATTN: Deputy Director FOIA/PA Division, 400 Army Navy Drive, Arlington, VA 22202–2884.

3. Other Addresses. Although the below organizations are OSD and Joint Staff Components for the purposes of the FOIA, requests may be sent directly to the addresses indicated.

a. Office of Civilian Health and Medical Program of the Uniformed Services (OCHAMPUS). Director, OCHAMPUS, ATTN: Freedom of Information Officer, Aurora, CO 80045–6900.

b. Chairman, Armed Services Board of Contract Appeals (ASBCA). Chairman, Armed Services Board of Contract Appeals, Skyline Six, 5109 Leesburg Pike, Falls Church, VA 22041–5203.

c. U.S. Central Command. U.S. Central Command/CCJ1/AG, MacDill Air Force Base, FL 33608–7001.

d. U.S. European Command. Headquarters, U.S. European Command/ECJ1–AR(FOIA), APO New York 09128–4209.

e. U.S. Southern Command. U.S. Commander-in-Chief, Southern Command/SCSJA, APO Miami 34003–0007.

f. U.S. Pacific Command. U.S. Commander-in-Chief, Pacific Command, USPACOM FOIA Coordinator (J18A), Administrative Support Division, Joint Secretariat, Box 28, Camp H. M. Smith, HI 96861–5025.

g. U.S. Special Operation Command. U.S. Special Operations Command, ATTN: Freedom of Information Officer, ATTN: SOJ1–AG, MacDill Air Force Base, FL 33608.

h. U.S. Atlantic Command. Commander-in-Chief, Atlantic Command, Code J02P, Norfolk, VA 23511–5100.

i. U.S. Space Command. Chief, Records Management Division, Directorate of Administration, United States Space Command, Peterson Air Force Base, CO 80914–5001.

4. National Guard Bureau. FOI requests for National Guard Bureau records may be sent to the Chief, National Guard Bureau, (NGB–DAI), Pentagon, room 2C362, Washington, DC 20310–2500.

5. Miscellaneous. If there is uncertainty as to which DoD Component may have the DoD record sought, the requester may address a Freedom of Information request to the Office of the Assistant Secretary of Defense (Public Affairs), ATTN: Directorate for Freedom of Information and Security Review, room 2C757, The Pentagon, Washington, DC 20301–1400.

Appendix C to Part 286—Litigation Status Sheet

1. Case Number: [1]

---

[1] Number used by Component for reference purposes

2. Requester
3. Document Title or Description
4. Litigation
a. Date Complaint Filed
b. Court
c. Case File Number [1]
5. Defendants (agency and individual)
6. Remarks: (brief explanation of what the case is about)
7. Court Action
a. Court's Finding
b. Disciplinary Action (as appropriate)
8. Appeal (as appropriate)
a. Date Complaint Filed
b. Court
c. Case File Number [1]
d. Court's Finding
e. Disciplinary Action (as appropriate)

Appendix D to Part 286—Other Reason Categories

1. *Transferred Requests.* This category applies when responsibility for making a determination or a decision on categories 2, 3, or 4 below is shifted from one Component to another, or to another Federal Agency.

2. *Lack of Records.* This category covers those situations wherein the requester is advised the DoD Component has no record or has no statutory obligation to create a record.

3. *Failure of Requester to Reasonably Described Record.* This category is specifically based on Section 552(a)(3)(a) of the FOIA.

4. *Other Failures by Requesters to Comply with Published Rules or Directives.* This category is based on section 552(a)(3)(b) of the FOIA and includes instances of failure to follow published rules concerning time, place, fees, and procedures.

5. Request Withdrawn by Requester. This category covers those situations wherein the requester asks an agency to disregard the request (or appeal) or pursues the request outside FOIA channels.

6. *Not an Agency Record.* This category covers situations where the information requested is not an agency record within the meaning of the FOIA and this part.

Appendix E to Part 286—Record of Freedom of Information (FOI) Processing Cost (DD Form 2086)

BILLING CODE 3810–01–M

RECORD OF FREEDOM OF INFORMATION (FOI) PROCESSING COST

Please read instructions on reverse before completing form.

DD Form 2086, JUN 88 — Previous editions are obsolete. — 1015/198

BILLING CODE 3810-01-C

INSTRUCTIONS FOR COMPLETING DD FORM 2086

This form is used to record costs associated with the processing of a Freedom of Information request.

1. REQUEST NUMBER—First two digits will express Calendar Year followed by dash (—) and Component's request number, i.e. 87–001.

2. TYPE OF REQUEST—Mark the appropriate block to indicate initial request or appeal of a denial

3. DATE COMPLETED—Enter year, month and day. i.e., 870621.

4. CLERICAL HOURS—For each applicable activity category, enter time expended to the nearest 15 minutes in the total hours column. The activity categories are:

Search—Time spent in locating from the files the requested information.

Review/Excising—Time spend reviewing the document content and determining if the entire entire document must retain its classification or segments could be excised thereby permitting the remainder of the document to be declassified. In reviews for other than classification, FOI exemptions 2 through 9 should be considered.

Correspondence and Forms Preparation—Time spent in preparing the necessary correspondence and forms to answer the request.

Other Activity—Time spent in activity other than above, such as, duplicating documents, hand carrying documents to other locations, restoring files, etc.

—Multiply the time in the total hours column of each category by the hourly rate and enter the cost figures for each category.

5. PROFESSIONAL HOURS—For each applicable activity category, enter time expended to the nearest 15 minutes in the total hours column. The activity categories are:

Search/Review/Excising, and Other Activity—See explanation above.

Coordination/Approval/Denial—Time spent coordinating the staff action with interested offices or agencies and obtaining the approval for the release or denial of the requested information.

—Multiply the time in the total hours column of each category by the hourly rate and enter the cost figures for each category.

6. EXECUTIVE HOURS—For each applicable activity category, enter the time expended to the nearest 15 minutes in the total hours column. The activity categories are:

Search/Review/Excising—See explanation above.

Coordination/Approval/Denial—See explanation above.

—Multiply the time in the total hours column in each category by the hourly rate and enter the cost figures for each category.

7. COMPUTER SEARCH—Enter exact computer processing value in the total hours column. The salary scale (equating to items 4 and/or 5) for the programmer/operator executing the search will be recorded as part of the computer search cost, and entered in the appropriate block.

—Multiply the total hours by the hourly rates and enter the cost figures. Computer search will be based on direct cost of the Central Processing Unit, input/output devices, and memory capacity of the actual computer configuration used.

8. OFFICE COPY REPRODUCTION—Enter the number of pages reproduced.

—Multiply by the rate per copy and enter cost figures.

9. MICROFICHE REPRODUCTION—Enter the number of microfiche copies reproduced.

—Multiply by the rate per copy and enter cost figures.

10. PRINTED RECORDS—Enter total pages in each category. The categories are:

Forms (include any type of printed forms)

Publications (Include any type of bound document, such as directives, regulations, studies, etc.)

Reports (Include any type of memorandum, staff action paper, etc.)

—Multiply the total number of pages in each category by the rate per page and enter cost figures.

11. COMPUTER COPY—Enter the total number of tapes and/or printouts.

—Multiply by the actual cost per tape or printout and enter cost figures.

12. AUDIOVISUAL MATERIALS—Duplication cost is the actual cost of reproducing the material including the wage of the person doing the work.

13. FOR FOI OFFICE USE ONLY—

Search fees paid—Enter total search fees paid by the requester.

Review Fees Paid—Enter total review fees paid by the requester.

Copy Fees Paid—Enter the total of copy fees paid by the requester.

Total Paid—Add search fees paid and copy fees paid. Enter total in the total paid block.

Date Paid—Enter year, month and day, i.e., 871024, the fee payment was received.

Total Collectable Costs—Add the blocks in the cost column marked with an asterisk and enter total in the total collectable cost block. Apply the appropriate waiver for the category of requester prior to inserting the final figure. Further discussion of chargeable fees is contained in Chapter VI of DoD Regualtion 5400.7–R.

Total Processing Costs—Add all blocks in the cost column and enter total in the total prcessing cost block. The total processing cost in most cases will exceed the total collectable cost.

Total Charged—Enter the total amount that the requester was charged. taking into account the fee waiver threshold and fee waiver policy.

Fees Waived/Reduced—Indicate if the cost of processing the request was waived or reduced by placing an "X" in the "Yes" block or an "X" in the "No" block.

Appendix F to Part 286—Record of Freedom of Information (FOI) Processing Cost for Technical Data (DD Form 2086–1)

BILLING CODE 3910-01-C

INSTRUCTIONS FOR COMPLETING DD FORM 2086-1

This form is used to record costs associated with the processing of a Freedom of Information request for technical data.

1. REQUEST NUMBER—First two digits will express Calendar Year followed by dash (—) and Component's request number, i.e., 87-001.

2. TYPE OF REQUEST—Mark the appropriate block to indicate initial request or appeal of a denial.

3. DATE COMPLETED—Enter year, month and day, i.e., 870621.

4. CLERICAL HOURS—For each applicable activity category, enter time expended to the nearest 15 minutes in the total hours column. The activity categories are:

Search—Time spent in locating from the files the requested information.

Review/Excising—Time spent reviewing the document content and determining if the entire document must retain its classification or segments could be excised thereby permitting the remainder of the document to be declassified. In reviews for other than classification, FOI exemptions 2 through 9 should be considered.

Correspondence and Forms Preparation—Time spent in preparing the necessary correspondence and forms to answer the request.

Other Activity—Time spent in activity other than above, such as, duplicating documents, hand carrying documents to other locations, restoring files, etc.

—Multiply the time in the total hours column of each category by the hourly rate and enter the cost figures for each category. Both search and review costs are chargeable to the requester.

5. PROFESSIONAL HOURS—For each applicable activity category, enter time expended to the nearest 15 minutes in the total hours column. The activity categories are:

Search/Review/Excising, and Other Activity—See explanation above.

Coordination/Approval/Denial—Time spent coordinating the staff action with interested offices or agencies and obtaining the approval for the release or denial of the requested information.

—Multiply the time in the total hours column of each category by the hourly rate and enter the cost figures for each category. Both search and review costs are chargeable to the requester.

6. EXECUTIVE HOURS—For each applicable activity category, enter the time expended to the nearest 15 minutes in the total hours column. The activity categories are:

Search/Review/Excising—See explanation above.

Coordination/Approval/Denial—See explanation above.

—Multiply the time in the total hours column in each category by the hourly rate and enter the cost figures for each category. Review costs are chargeable to the requester.

7. COMPUTER SEARCH—Enter exact computer processing value in the total hours column. The salary scale (equating to items 4 and/or 5) for the programmer/operator executing the search will be recorded as part of the computer search cost, and entered in the appropriate block.

—Multiply the total hours by the computer hourly rates and enter the cost figures. Computer search will be based on direct cost only of the Central Processing Unit, input/output devices, and memory capacity of the actual computer configuration used. This amount is fully chargeable to the requester.

8. REPRODUCTION—Enter the number of pages or items reproduced.

—Multiply by the rate per copy and enter cost figures. The entire cost is chargeable to the requester. Reproduction cost for audiovisual material is the actual cost of reproducing the material, including the wage of the person doing the work.

9. FOR FOI OFFICE USE ONLY—

Search Fees paid—Enter total search fees paid by the requester.

Review Fees Paid—Enter total review fees paid by the requester.

Copy Fees Paid—Enter the total of copy fees paid by the requester.

Total Paid—Add search fees paid and copy fees paid. Enter total in the total paid block.

Date Paid—Enter year, month and day, i.e., 871024, the fee payment was received.

Total Collectable Costs—Add the blocks in the cost column marked with an asterisk and enter total in the total collectable cost block. Only search, reproduction and printed records are chargeable to the requester. Further discussion of collectable costs is contained in Chapter VI, Section 3, DoD Regulation 5400.7-R.

Total Processing Costs—Add all blocks in the cost column and enter total in the total processing cost block. The total processing cost in most cases will exceed the total collectable cost.

Total Charged—Enter the total amount that the requester was charged, taking into account the fee waiver threshold and fee waiver policy.

Fees Waived/Reduced—Indicate if the cost of processing the request was waived or reduced by placing an "X" in the "Yes" block or an "X" in the "No" block.

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 165

[COTP Los Angeles/Long Beach Reg. 90-13]

Security Zone Regulations; Port Hueneme, CA

AGENCY: Coast Guard, DOT.

ACTION: Emergency rule.

SUMMARY: The Coast Guard is establishing a security zone in Port Hueneme, California, around any vessels moored at Port Hueneme wharfs 3, 4, 5, and 6 during the effective period of these regulations. The zone is needed to safeguard vessels involved in military equipment outloads at Port Hueneme wharfs 3, 4, 5, and 6 against destruction, loss, or injury from sabotage or other subversive acts, accidents, or causes of a similar nature. Entry into this zone is prohibited unless authorized by the captain of the port.

EFFECTIVE DATE: This regulation becomes effective at 1 a.m., October 16, 1990. It terminates at 12 midnight, December 31, 1990.

FOR FURTHER INFORMATION CONTACT: Lt. R.F. Shields at (213) 499-5570.

SUPPLEMENTARY INFORMATION: In accordance with 5 U.S.C. 553, a notice of proposed rulemaking was not published for this regulation and good cause exists for making it effective in less than 30 days after Federal Register publication. Publishing an NPRM and delaying its effective date would be contrary to the public interest since immediate action is needed to prevent destruction, loss, or injury to vessels involved in military equipment outloads at Port Hueneme wharfs 3, 4, 5, and 6.

Drafting Information

The drafters of this regulation are Lt. R.F. Shields, project officer for the captain of the port, and LCdr. J.J. Jaskot, project attorney, Eleventh Coast Guard District Legal Office.

Discussion of Regulation

The incident requiring this regulation will begin 1 a.m., on October 16, 1990. This security zone is necessary to ensure the security of vessels involved in military equipment outloads at Port Hueneme wharfs 3, 4, 5, and 6.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Security measures, Vessels, Waterways.

Regulation

In consideration of the foregoing, subpart D of part 165 of title 33, Code of Federal Regulations, is amended as follows:

PART 165—[AMENDED]

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1225 and 1231; 50 U.S.C. 191; 49 CFR 1.46 and 33 CFR 1.05-1(g), 6.04-1, 6.04-6 and 33 CFR 160.5.

2. A new § 165.T1114 is added to read as follows:

§ 165.T1114 Security Zone: Vessels moored at wharfs 3, 4, 5, and 6, Port Hueneme, California.

(a) *Location.* The following area is a security zone: The waters of Port Hueneme within 100 yards of any vessels moored at Port Hueneme wharfs 3, 4, 5, and 6.

(b) *Effective date:* This regulation becomes effective at 1 a.m., October 16, 1990. It terminates at 12 midnight, December 31, 1990.

(c) *Regulations:* In accordance with the general regulations in section 165.33 of this part, entry into this zone is prohibited unless authorized by the captain of the port. Section 165.33 also contains other general requirements.

Dated: October 22, 1990.

J.B. Morris,

Captain, U.S. Coast Guard, Captain of the Port, Los Angeles/Long Beach.

[FR Doc. 90-25388 Filed 10-25-90; 8:45 am]

BILLING CODE 4910-14-M

33 CFR Part 165

[COTP Duluth, MN Regulation 90-01]

Safety Zone Regulations; Lake Superior—Talmadge, MN

AGENCY: Coast Guard, DOT.

ACTION: Emergency rule.

SUMMARY: The Coast Guard is establishing a safety zone around a number of sunken barrels in Lake Superior from the lake bottom up to 50 feet above the bottom. The zone is needed to protect the area from unauthorized entry and agitation. A potential safety hazard exists if anyone attempts to salvage or recover the barrels. All persons are prohibited from either entering this zone or placing any object in this zone unless authorized by the Captain of the Port.

EFFECTIVE DATE: This regulation becomes effective on 0001 hours 18 October 1990. It terminates at 2400 31 December 1990 unless sooner terminated by the Captain of the Port.

FOR FURTHER INFORMATION CONTACT: Lt. J.C. Hillerns, Marine Safety Office, Canal Park, Duluth, MN 55802 at (218) 720-5288.

SUPPLEMENTARY INFORMATION: In accordance with 5 U.S.C. 553, a notice of proposed rulemaking was not published for this regulation and good cause exists for making it effective in less than 30 days after Federal Register publication. Publishing a NPRM and delaying its effective date would be contrary to the public interest since immediate action is needed to insure safety of life and property and to prevent possible disturbance of the site involved.

Drafting Information

The drafter of this regulation is Lt. J.C. Hillerns, Project Officer for the Captain of the Port.

Discussion of Regulation

The circumstances requiring this regulation result from the possible presence of hazardous materials contained in or around more than 1,400 steel barrels which were dumped under a federal government permit in Lake Superior from 1959 to 1961. The barrels reportedly contained inert scrap metal parts from classified bomb-making operations, and were weighted with concrete. Over the years, allegations have persisted which indicate that dangerous chemicals or radioactive materials are contained in the barrels. Although official records do not confirm this, the U.S. Army Corps of Engineers has undertaken the task of locating the

barrels, and recovering some for testing of the contents.

A preliminary search located a string of barrels in a 2,000 foot line approximately 2,300 yards offshore from Talmadge, MN at a depth of 170–200 feet. The District Engineer, St. Paul District, U.S. Army Corps of Engineers has requested that access to this area be restricted for safety reasons until the operation is completed. This regulation is issued pursuant to 33 U.S.C. 1225 and 1231 as set out in the authority citation for all of part 165.

Federalism

This action has been analyzed in accordance with the principals and criteria contained in Executive Order 12612, and it has been determined that the proposed rulemaking does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Economic Assessment and Certification

These regulations are considered to be non-major under Executive Order 12291 on Federal Regulation and nonsignificant under Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979). The economic impact of these regulations is expected to be so minimal that a full regulatory evaluation is unnecessary and the Coast Guard certifies that, if adopted, it will not have a significant impact on a substantial number of small entities. This section is issued pursuant to 33 U.S.C. 1225 and 1231 as set out in the authority citation for all of part 165.

List of Subjects in 33 CFR Part 165

Harbors, Marine Safety, Navigation (water), Security measures, Vessels, Waterways.

Regulation

In consideration of the foregoing, subpart F of part 165 of title 33, Code of Federal Regulations, is amended as follows:

PART 165—[AMENDED]

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1225 and 1231; 50 U.S.C. 191; 49 CFR 1.46 and 33 CFR 1.05–1(g), 6.04–1 and 160.5.

2. A new § 165.T0924 is added to read as follows:

§ 165.T0924 Safety zone: Lake Superior—Talmadge, MN.

(a) *Location.* The following area is a Safety Zone: In the vicinity offshore from Talmadge, MN an area from the bottom of the lake up to 50 feet above the bottom, bounded by the following coordinates: (a) 91–54.9W, 46–52.9N; (b) 91–53.3W, 46–52.3N; (c) 91–55.7W, 46–51.0N; (d) 91–57.0W, 46–51.7N and back to the starting position.

(b) *Effective dates.* This regulation became effective at 0001 hours on October 18, 1990. It terminates at 2400 December 31, 1990, unless sooner terminated by the Captain of the Port.

(c) *Regulations.* (1) In accordance with the general regulations in § 165.23 of this part. All persons are prohibited from either entering this zone or placing any object in this zone unless authorized by the Captain of the Port.

(2) Persons desiring to enter the safety zone may do so only with prior approval of the Captain of the Port, Duluth, MN.

Dated: 17 October 1990.

C.A. Fust,

Commander, U.S. Coast Guard Captain of the Port, U.S. Coast Guard, Duluth, MN.

[FR Doc. 90-25369 Filed 10-25-90; 8:45 am]

BILLING CODE 4910-14-M

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Parts 3 and 4

RIN 2900-AE09

Claims Based on Service in Vietnam

AGENCY: Department of Veterans Affairs.

ACTION: Final regulations.

SUMMARY: The Department of Veterans Affairs (VA) is amending its adjudication regulations to establish criteria to be followed in considering claims for service connection for non-Hodgkin's lymphoma (NHL) by veterans who served in Vietnam during the Vietnam Era. VA has also amended the Schedule for Rating Disabilities to add a specific diagnostic code for NHL as well as evaluation criteria. These changes are necessary to implement a decision by the Secretary based on the results of a study of the association of selected cancers with service in the U.S. military in Vietnam by the Centers for Disease Control (CDC). The intended effect will be to establish a rule for making determinations regarding service connection for NHL for veterans with Vietnam service and specific criteria for rating NHL.

DATES: The amendment to part 3 is effective August 5, 1964. The amendment to part 4 is effective October 26, 1990.

FOR FURTHER INFORMATION CONTACT: Joel Drembus, Regulations Staff (211B), Compensation and Pension Service, Veterans Benefits Administration, Department of Veterans Affairs, 810 Vermont Avenue NW., Washington, DC 20420, (202) 233-3005.

SUPPLEMENTARY INFORMATION: On pages 25339–25340 of the Federal Register of June 21, 1990, VA published a proposal to amend part 3 by adding a new section and to amend part 4 by adding a new diagnostic code. Interested persons were invited to submit comments, suggestions, or objections by July 23, 1990. Four comments were received.

One individual objected to the Secretary's decision to service-connect NHL, stating it represented a total abuse of the Secretary's authority under 38 U.S.C. 210(c).

VA does not concur. The Secretary has broad rulemaking authority under 38 U.S.C. 210(c)(1), which provides that the Secretary has the authority to make all rules and regulations which are necessary or appropriate to carry out the laws administered by VA and are consistent therewith, including regulations "with respect to the nature and extent of proofs and evidence." This authority is broad enough to encompass establishment of service connection on predetermined bases. In this case, the Secretary has determined that proof of service in Vietnam during the Vietnam era and the subsequent development of NHL is sufficient evidence to establish that the resulting disability was incurred in the line of duty in the active military, naval, or air service, i.e., that such evidence meets the criteria for establishment of service connection. See 38 U.S.C. 310.

Another individual objected to the portion of the VA General Counsel advisory opinion of May 1, 1990, which held that VA may authorize payment to claimants whose claims were previously denied based on the dates that the prior claims were submitted. The commenter stated it is not equitable to financially punish veterans who had not filed claims prior to March 29, 1990, the date the Secretary announced his decision to service-connect NHL, and suggested that payment be authorized based on the date of diagnosis rather than the date of claim.

VA does not concur. The law (38 U.S.C. 3001(a)) provides that a specific claim must be filed in order for benefits to be paid or furnished to any individual under laws administered by VA, and 38 U.S.C. 3010(a) provides that the effective date of compensation shall be fixed in accordance with the facts found, but generally shall not be earlier than the date of receipt of applicant therefor.

The same commenter objected to the proposed rating criteria for NHL in part 4, stating that in comments to the press after his announcement on March 29, 1990, the Secretary was quoted as saying a veteran with NHL "will be considered 100% disabled and will be paid full benefits for the rest of his life." The commenter suggested that the rating criteria for NHL be revised to implement the Secretary's comment.

VA does not concur. At the Secretary's press conference of March 29, 1990, both the Secretary and the Director of the Compensation and Pension Service stated that VA was assuming that veterans with NHL would be 100% disabled. That assumption was used to establish VA's initial cost estimates, but there was no indication that NHL would necessarily warrant a permanent 100% evaluation. The Schedule for Rating Disabilities provides that malignancies be rated based on residual disability at some point following surgery or the cessation of radiation treatment, chemotherapy, etc. The rating schedule is a guide in the evaluation of disability resulting from diseases or injuries. The law (38 U.S.C. 355) requires that the percentage ratings represent, as far as can practically be determined, the average impairment in earning capacity resulting from such diseases and injuries and their residual conditions. To rate NHL we will use rating criteria identical to that used for Hodgkin's disease, a medically similar condition.

Three commenters objected to the proposed effective date of the new section of part 3. One Congressman forwarded the same or similar letters from 14 constituents, all requesting that the date be changed from August 5, 1964 to February 1, 1961, when the use of herbicides in Vietnam began.

VA does not concur. Since the Secretary's decision, and the CDC study on which it was based, noted an increased risk of developing NHL based on service in Vietnam during the Vietnam era rather than exposure to herbicides containing dioxin, there is no basis for establishing an effective date prior to August 5, 1964, the beginning date of the Vietnam era.

One individual questioned the rationale for making the effective date earlier than the date of the CDC study upon which the Secretary's decision was based.

There is no requirement that an effective date in a situation such as this cannot be earlier than the date on which a particular study was released, nor has the commenter cited any authority imposing such a requirement. The Secretary's decision to establish August 5, 1964—the beginning of the Vietnam era (38 U.S.C. 101(29))—as the effective date was an exercise of his discretion premised on a study which found an increased risk of developing NHL based on service in Vietnam during a portion of the Vietnam era. This decision is fully consistent with VA's longstanding policy to administer the law under a broad interpretation for the benefit of veterans and their dependents. (38 CFR 3.102.)

The Chairman and the Ranking Minority Member of the House Committee on Veterans' Affairs stated that, despite a VA General Counsel advisory opinion of May 1, 1990, they find it difficult to reconcile a retroactive effective date with existing law and VA regulations.

The cited General Counsel opinion noted that rulemaking is generally subject to the provisions of the Administrative Procedures Act (APA) and concluded that the APA does not bar the adoption of a retroactive rule which grants benefits or liberalizes a restriction. In accordance with VA's defined and consistently applied policy of administering title 38, United States Code, under a broad interpretation for the benefit of veterans and their dependents, the opinion further concluded that current law and VA regulations do not present an obstacle to the retroactive application of a regulation with a retroactive effective date to previously denied claims. In particular, the General Counsel stated that 38 U.S.C. 3010(g) provides an exception to the finality provisions of 38 U.S.C. 4004(b) and 4005(c) and authorizes a fresh look at a disallowed claim, even in the absence of new and material evidence, when a statute or regulation liberalizes burdens of proof. VA respectfully submits that the General Counsel advisory opinion does, in fact, legally justify the Secretary's decision to establish a retroactive effective date for § 3.313.

We appreciate the comments and suggestions of those who responded to publication of the proposed regulations which are adopted without change.

The Secretary hereby certifies that these regulatory amendments will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act, 5 U.S.C. 601–612. The reason for this certification is that these amendments would not directly affect any small entities. Only VA beneficiaries could be directly affected. Therefore, pursuant to 5 U.S.C. 605(b), these amendments are exempt from the initial and final regulatory flexibility analysis requirements of sections 603 and 604.

In accordance with Executive Order 12291, Federal Regulation, the Secretary has determined that these regulatory amendments are non-major for the following reasons:

(1) They will not have an annual effect on the economy of $100 million or more.

(2) They will not cause a major increase in costs or prices.

(3) They will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 81

[FRL 3854-8]

Redesignation of Areas for Air Quality Planning Purposes; Illinois

AGENCY: United States Environmental Protection Agency (USEPA).

ACTION: Final rule.

SUMMARY: USEPA is approving a change of the ozone designation for Macoupin County from nonattainment to attainment. The revision is based on a request from the State of Illinois to redesignate this area on the supporting data the State submitted. Under the Clean Air Act (Act), designations can be changed if sufficient data are available to warrant such change.

DATES: This action will be effective November 26, 1990, unless notice is received by November 26, 1990, that someone wishes to submit adverse or critical comments. If the effective date is delayed, timely notice will be published in the **Federal Register**.

ADDRESSES: Copies of the redesignation request, technical support documents and the supporting air quality data are available at the following address.

United States Environmental Protection Agency, Region V, Air and Radiation Branch, 230 South Dearborn Street, Chicago, Illinois 60604.

Comments on this rulemaking should be addressed to:

Gary Gulezian, Chief, Regulatory Analysis Section, Air and Radiation Branch (5AR-26), United States Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Kathleen D'Agostino, Air and Radiation Branch (5AR-26), United States Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Illinois 60604, (312) 886-1767.

SUPPLEMENTARY INFORMATION: Under section 107(d) of the Act, the Administrator of USEPA has promulgated the National Ambient Air Quality Standards (NAAQS) attainment status for each of every State. For Illinois, see 43 FR 8962 (March 3, 1978) and 43 FR 45993 (October 5, 1978). These area designations may be revised whenever the data warrant. On May 28, 1987, the Illinois Environmental Protection Agency (IEPA) submitted a request for the redesignation of Macoupin County, Illinois to attainment of the NAAQS for ozone. The redesignation request was accompanied by a report containing information supporting the redesignation request.

Ozone Redesignation Policy

USEPA's ozone redesignation policy is summarized in the following USEPA policy memoranda:

1. December 7, 1979, from Richard G. Rhoads to the Directors of Air and Hazardous Materials Divisions, Subject: Criteria for Ozone Redesignations Under section 107.
2. April 21, 1983, from Sheldon Meyers to Directors of Air and Radiation Divisions, subject: Section 107 Designation Policy Summary.
3. December 23, 1983, from G.T. Helms to Chiefs of Air Programs Branches, Region I-X, subject: Section 107 Questions and Answers.
4. April 6, 1987, from Gerald A. Emison, Director, Office of Air Quality Planning and Standards, to Regional Air Directors, which includes a March 16, 1987, letter from David Kee, Director, Region V, Air and Radiation Division, to Robert P. Miller, Chief, Air Quality Division, Michigan Department of Natural Resources, subject: Ozone Redesignation Policy.

A discussion of the ozone redesignation policy as applicable to Macoupin County is contained in USEPA's July 6, 1987, technical support document, which is available at the Region V office listed above.

Data Supporting the Requested Redesignation

IEPA's redesignation request for Macoupin County was based on ambient data showing no violation of the ozone standard during the period of 1984 through 1988 and on IEPA's determination that all stationary volatile organic compound (VOC) sources were in compliance with applicable Reasonably Available Control Technology (RACT) regulations.

A. Air Quality Data

Ozone is monitored at a single site (Nilwood) in Macoupin County. During the period of 1984-1988, the data recorded at this monitor indicated no violation of the standard. In addition, USEPA reviewed the most recent years of data, 1987-1989, which also indicated no violation of the standard.

B. Ozone Emission Control Measures

The IEPA points out that Macoupin County is a rural area with a 1985 population of 50,018 and few stationary sources of VOC. Only 14 stationary VOC sources are noted in the State's emissions inventory system for the County. The inventory does not list any of these sources as "major", with all emitting less than 100 tons of VOC per year.

USEPA Evaluation and Rulemaking Action

Review of the ozone data on file in USEPA's National Areometric Data Bank confirms that no monitored violation of the ozone standard occurred in Macoupin County during the 1984-1989 period. In addition, USEPA verified that there is evidence of an implemented ozone SIP that has been fully approved by USEPA, that RACT rules are in place for applicable sources, and that all stationary sources of VOC are in compliance with RACT rules. Therefore, at the request of the State of Illinois, USEPA is redesignating Macoupin County to attainment of the ozone NAAQS.

Because USEPA considers today's action noncontroversial and routine, we are approving it today without prior proposal. The action will become effective on (60 days from the date of this notice) that someone wishes to submit critical comments, then USEPA will publish:

(1) A notice that withdraws the action, and

(2) A notice that begins a new rulemaking proposing the action and establishing a comment period.

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for redesignation. Each request for redesignation shall be considered separately in light of specific technical, economic and environmental factors and in relation to relevant statutory and regulatory requirements.

Today's action is contingent upon the State and/or county maintaining an adequate ozone ambient air quality monitoring network and continuing full implementation of their nonattainment plan. Under the reasoning of Bethlehem Steel Corp. vs. USEPA, 723 F.2d 1304 (7th Cir. 1983), USEPA believes that it may not have the authority to redesignate an area to nonattainment without first receiving a request to do so from the affected state. Therefore USEPA anticipates that should violations of the ozone NAAQS occur in the future, the state will request that USEPA redesignate the area nonattainment. Also, this redesignation does not in any way relieve sources from their obligation to meet all applicable requirements of the approved

ozone nonattainment plans (SIPs), nor does it authorize the State and/or county to delete or relax RACT emission limiting regulations. Changes to ozone SIP VOC regulations rendering them less stringent than those contained in the USEPA approved plan cannot be made unless a revised plan for attainment and maintenance is submitted to and approved by USEPA. Unauthorized relaxations, deletions, and changes could result in both a finding of nonimplementation (section 179(b) of the Act) and in a SIP deficiency call made pursuant to section 110(a)(2)(H) of the Act.

This action has been classified as a Table 2 action by the Regional Administrator under the procedures published in the Federal Register on January 19, 1989 (54 FR 2214–2225). On January 6, 1989, the Office of Management and Budget waived Table 2 and 3 SIP revisions (54 FR 2222) from the requirements of section 3 of Executive Order 12291 for a period of 2 years.

Under 5 U.S.C. section 605(b), I certify that this redesignation will not have a significant economic impact on a substantial number of small entities. [See 46 FR 8709].

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by December 26, 1990. This action may not be challenged later in proceedings to enforce its requirements. [See 307(b)(2)].

John B. Kelly,

Acting Regional Administrator.

PART 81—DESIGNATION OF AREAS FOR AIR QUALITY PURPOSES—ILLINOIS

Part 81 of chapter 1, title 40 of the Code of Federal Regulations is amended as follows:

1. The authority citation of part 81 continues to read as follows:

Authority: 42 U.S.C. 7401–7642, unless otherwise noted.

2. Within § 81.314—Illinois, the ozone table is amended by revising the entry for "Macoupin County" to read as follows:

§ 81.314 Illinois

Illinois—Ozone (O₃)

Designated area	Does not meet primary standards	Cannot be classified or better than national standards
Macoupin County.		X

[FR Doc. 90-25308 Filed 10-25-90; 8:45 am]

BILLING CODE 6560-50-M

40 CFR Part 81

[FRL-3855-3]

Approval and Promulgation of Implementation Plans; Illinois

AGENCY: United States Environmental Protection Agency (USEPA).

ACTION: Final rule.

SUMMARY: USEPA is approving a change of the carbon monoxide (CO) designation for the Chicago CO nonattainment areas from nonattainment to attainment. The revisions are based on a request from the State of Illinois to redesignate these areas and on the supporting data the State submitted. Under the Clean Air Act (Act), designations can be changed if sufficient data are available to warrant such change.

DATES: USEPA's approval will be effective December 26, 1990, unless notice is received within 30 days that someone wishes to submit adverse or critical comments. If the effective date is delayed, timely notice will be published in the Federal Register.

ADDRESSES: Copies of the redesignation request, technical support documents and the supporting air quality data are available at the following addresses:

United States Environmental Protection Agency, Region V, Air and Radiation Branch, 230 South Dearborn Street, Chicago, Illinois 60604.

Comments on this rulemaking should be addressed to:

Gary Gulezian, Chief, Regulatory Analysis Section, Air and Radiation Branch (5AR–26), United States Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: William Jones, Air and Radiation Branch (5AR–26), Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Illinois 60604, (312) 886–6058.

SUPPLEMENTARY INFORMATION: Under section 107(d) of the Act, the Administrator of USEPA has promulgated the National Ambient Air Quality Standard (NAAQS) attainment status for each area of every State, including CO.[1] For Illinois, see 43 FR 8962 (March 3, 1978) and 43 FR 45993 (October 5, 1978). These area designations may be revised whenever the data warrant. On November 3, 1987, the Illinois Environmental Protection Agency (IEPA) submitted a request for the redesignation of the entire Chicago area to attainment of the NAAQS for CO.[2] The redesignation request was accompanied by a report containing information supporting the redesignation request.

CO Redesignation Policy

USEPA's current redesignation policy for CO may be found in three policy memoranda: June 12, 1979, from Richard G. Rhoads, to Directors of Air and Hazardous Materials Divisions, Region I–X, Subject: Section 107 Redesignation Criteria; April 21, 1983, from Sheldon Meyers, to Directors of Air Division, Regions I–X, Subject: Section 107 Designation Policy Summary; and December 23, 1983, from G.T. Helms, to Air Branch Chiefs, Regions I–X, Subject: Section 107 Questions and Answers.

Data Supporting the Requested Redesignation

In support of the redesignation request, the IEPA submitted a report addressing the current status of CO levels in the Chicago area; in particular, in the designated CO nonattainment areas. This report was accompanied by related documents and supplemental data reports. Detailed information on this data is contained in USEPA's

[1] The NAAQS for CO is defined (40 CFR part 50) to be 35 parts per million (ppm), 1-hour average, or 9 ppm, 8-hour average, neither of which is to be exceeded more than once per year. As discussed in a May 27, 1988, memorandum from Richard G. Rhoads to Gary L. O'Neal, Subject: "Summary of NAAQS Interpretation," the 8-hour concentrations are to be based on running 8-hour averages, with the convention that a monitored violation of the NAAQS requires at least two non-overlapping 8-hour averages above the level of the 9 ppm standard.

[2] There are three designated nonattainment subareas within the greater Chicago area. One nonattainment area is defined to be the core area of Chicago. This area is bounded by Lake Shore Drive on the east, Roosevelt Road on the south, Halsted Street on the west, and Lake Street and Wacker Drive on the north. The other two nonattainment areas are centered on the Dan Ryan Expressway between 71st and 75th Streets, and between 47th and 55th Streets. The specific boundaries of the Dan Ryan Expressway nonattainment areas are not discussed in 40 CFR part 81. The report submitted with the redesignation request, however, states that these nonattainment areas may be thought of as including the expressway itself and the area within 100 feet of the roadway edges. All the remainder of the city is designated attainment for CO.

February 10, 1988, Technical Support Document, which is available at the Region V Office listed above.

A. Air Quality Data

There have been no monitored violations of the CO NAAQS in the Chicago area during the most recent 2 complete years of monitoring. The redesignation requested addressed the available 1987 CO data for the 160 North LaSalle monitor, the only monitor in the Chicago area which has recorded recent exceedances. Through July 1987, the monitor recorded only one exceedance of 10.0 ppm. Subsequent data indicate that no further exceedances of the 8-hour standard (9 ppm), or of the 1-hour standard have been observed anywhere in the Chicago area. Therefore, USEPA has concluded that no violations of the CO NAAQS are currently being monitored in the Chicago area.

B. Modeling Results

Based on CO dispersion modeling conducted for Illinois' 1982 CO State Implementation Plan (SIP) revision, IEPA determined that only the two areas along the Dan Ryan Expressway (those areas currently designated as nonattainment) and the urban core area should experience CO standards violations after 1982. Modeling showed that the Dan Ryan Expressway areas should come into attainment of the CO NAAQS by the end of 1985. Additional post-SIP revision CO dispersion modeling conducted in 1984 confirmed this result. Attainment of the NAAQS was expected to occur without the implementation of any further emission controls beyond the Federal Motor Vehicle Control Program (FMVCP). The modeling shows all modeled locations to be in attainment of the CO NAAQS in 1987.

In addition to CO dispersion modeling, the redesignation request includes a description of a CO emission linear rollback analysis conducted for the urban core, the Central Business District (CBD) of Chicago. Using a 1982 CO design value of 14.5 ppm (8-hour average), the MOBILE 3 emissions factor model, and a linear rollback approach, CO design values were projected for the CBD through 1990. The CO standards were shown to be attained in 1986, with or without a vehicle Inspection/ Maintenance (I/M) program.[3] Attainment of the CO NAAQS was shown to be maintained in the CBD through 1990.

C. CO Emission Control Measures

The primary CO emissions control measure relied on by the IEPA was the FMVCP. This control measure alone has been shown to be sufficient to bring about attainment of the CO NAAQS by December 31, 1987, in the entire Chicago area and by 1986 in the CBD. Illinois implemented a vehicle I/M program in the Chicago urban area in May 1986. This program has added to the emission reductions produced by the FMVCP to further reduce CO emissions below the attainment level.

The redesignation request also states that Transportation Control Measures (TCMs) were discussed in the SIP. It was noted that the State's TCMs are fully implemented, and the planned reduction in emissions achieved. In a separate rulemaking published on October 4, 1990 (55 FR 40658), USEPA approved the State's CO plan, including the TCMs and the vehicle I/M program, which are both parts of both the Illinois CO plan and its Ozone plan.

USEPA Evaluation and Rulemaking Action

The redesignation request submitted by the State of Illinois on November 3, 1987, meets USEPA's redesignation policy for redesignating areas to attainment in that it: (1) Indicates that all monitoring data currently show attainment of the NAAQS; (2) shows that reductions in CO emissions support the observed improvement in monitored CO air quality or modelled attainment of the NAAQS; (3) shows maintenance of the NAAQS in the previously monitored nonattainment area (the CBD). As noted above, USEPA approved the State's CO plan, including the TCMs and the vehicle inspection and maintenance program, on October 4, 1990 (55 FR 40658). At the request of the State of Illinois, USEPA is redesignating the Chicago CO nonattainment areas to attainment of the CO NAAQS.

Because USEPA considers today's action noncontroversial and routine, we are approving it today without prior proposal. The action will become effective on (60 days from the date of this notice). However, if we receive notice by (30 days from the date of this notice) that someone wishes to submit critical comments, then USEPA will publish: (1) A notice that withdraws the action, and (2) a notice that begins a new rulemaking proposing the action and establishing a comment period.

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any SIP. Each request for revision to the SIP shall be considered separately in light of specific technical, economic and environmental factors and in relation to relevant statutory and regulatory requirements.

This action has been classified as a Table 2 action by the Regional Administrator under the procedures published in the Federal Register on January 19, 1989 (54 FR 2214–2225). On January 6, 1989, the Office of Management and Budget waived Table 2 and 3 SIP revisions (54 FR 2222) from the requirements of section 3 of Executive Order 12291 for a period of 2 years.

Under 5 U.S.C. section 605(b), I certify that this redesignation will not have a significant economic impact on a substantial number of small entities.

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by December 26, 1990. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

Air pollution control, Environmental Protection, Carbon monoxide, Intergovernmental relations.

Authority: 42 U.S.C. 7401–7642.

Dated: October 3rd, 1990.

Valdas V. Adamkus,

Regional Administrator.

PART 81—DESIGNATION OF AREAS FOR AIR QUALITY PURPOSES—ILLINOIS

Part 81 of chapter I, title 40 of the Code of Federal Regulations is amended as follows:

1. The authority citation of part 81 continues to read as follows:

Authority: 42 U.S.C. 7401–7642, unless otherwise noted.

2. Within § 81.314—Illinois, the CO table is amended by revising the entry for "Cook County" to read as follows:

§ 81.314 Illinois.

Illinois—CO

[3] An I/M program is required under part D for all areas where the State determines and USEPA agrees that an area cannot meet either the ozone and/or CO NAAQS by the statutory deadline of 1982, despite the implementation of all reasonably available control measures. In the case of the Chicago area, Illinois made such a finding for both ozone and CO, USEPA approved it, and USEPA granted an extension for attainment of both the ozone and CO standards in the Chicago area until 1987. Therefore, an I/M program is required for the Chicago area.

Designated area	Does not meet primary standards	Cannot be classified or better than national standards

Hazardous Waste Management System; Identification and Listing of Hazardous Waste; Final Exclusion

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA or Agency) today is granting a final exclusion from the lists of hazardous wastes contained in 40 CFR 261.31 and 261.32 for a specific solid waste generated by Philway Products, Incorporated, Ashland, Ohio. This action responds to a delisting petition submitted under 40 CFR 260.20, which allows any person to petition the Administrator to modify or revoke any provision of parts 260 through 266, 124, 270, and 271 of title 40 of the Code of Federal Regulations, and under 40 CFR 260.22, which specifically provides generators the opportunity to petition the Administrator to exclude a waste on a "generator-specific" basis from the hazardous waste lists.

EFFECTIVE DATE: October 26, 1990.

ADDRESSES: The public docket for this final rule is located at the U.S. Environmental Protection Agency, 401 M Street, SW. (room M2427), Washington, DC 20460, and is available for viewing from 9 a.m. to 4 p.m., Monday through Friday, excluding Federal holidays. Call (202) 475-9327 for appointments. The reference number for this docket is "F-90-PHEF-FFFFF". The public may copy material from any regulatory docket at a cost of $0.15 per page.

FOR FURTHER INFORMATION CONTACT: For general information, contact the RCRA Hotline, toll free at (800) 424-9346, or at (202) 382-3000. For technical information concerning this notice, contact Chicheng Chen, Office of Solid Waste (OS-343), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, (202) 382-4782.

SUPPLEMENTARY INFORMATION:

I. Background

A. Authority

Under 40 CFR 260.20 and 260.22, facilities may petition the Agency to remove their wastes from hazardous waste control by excluding them from the lists of hazardous wastes contained at 40 CFR 261.31 and 261.32. Petitioners must provide sufficient information to EPA to allow the Agency to determine that:

(1) The waste to be excluded is not hazardous based upon the criteria for which it was listed, and

(2) No other hazardous constituents are present in the waste at levels of regulatory concern.

B. History of this Rulemaking

Philway Products, Incorporated (Philway), located in Ashland, Ohio, petitioned the Agency to exclude its filter press sludge from hazardous waste regulation. After evaluating the petition, EPA proposed, on October 27, 1988, to exclude Philway's waste from the lists of hazardous waste under 40 CFR 261.31 and 261.32 (see 54 FR 43829).

This rulemaking addresses public comments received on the proposal and finalizes the proposed decision to grant Philway's petition.

II. Disposition of Delisting Petition

Philway Products, Incorporated, Ashland, Ohio.

1. Proposed Exclusion

Philway petitioned the Agency for an exclusion of its filter press sludge generated during the treatment of electroplating wastewaters, presently listed as EPA Hazardous Waste No. F006—"Wastewater, treatment sludges from electroplating operations except from the following processes: (1) Sulfuric acid anodizing of aluminum; (2) tin plating on carbon steel; (3) zinc plating (segregated basis) on carbon steel; (4) aluminum or zinc-aluminum plating on carbon steel; (5) cleaning/stripping associated with tin, zinc, and aluminum plating on carbon steel; and (6) chemical etching and milling of aluminum". The listed constituents for EPA Hazardous Waste No. F006 are cadmium, hexavalent chromium, nickel, and complexed cyanide (see 40 CFR part 261, appendix VII).

Philway petitioned to exclude its waste because it does not believe that the waste meets the criteria of the listing. Philway also believes that the waste does not contain appreciable amounts of the listed constituents. To support its claim that the concentrations of hazardous constituents in the filter press sludge are not above levels of regulatory concern, Philway submitted:

(1) A detailed description of the manufacturing and treatment processes used in the fabrication of printed circuit boards;

(2) A list of raw materials and material safety data sheets (MSDSs) for tradename materials used in its manufacturing and treatment processes;

(3) Results from total constituent and EP leachate analyses for the EP toxic metals and nickel on representative samples of the waste;

(4) Results from total constituent analyses for cyanide on representative samples of the waste;

(5) Results from total constituent analyses for acetone, acrylamide, formaldehyde, methylene chloride, thiourea, toluene, 1,1,1-trichloroethane, trichloroethylene, and xylene on representative samples of the waste;

(6) Results from total oil and greases analyses; and

(7) Test data and explanations regarding the characteristics of ignitability, corrosivity, and reactivity.

The Agency evaluated the information and analytical data provided by Philway in support of its petition and determined that the hazardous constituents found in the petitioned waste would not pose a threat to human health and the environment. Specifically, the Agency used its vertical and horizontal spread (VHS) model to predict the potential mobility of the hazardous constituents found in the petitioned waste. Based on this evaluation, the Agency determined that the hazardous constituents in Philway's waste would not leach and migrate at concentrations above the Agency's health-based levels used in delisting decision-making. See 54 FR 43829, October 27, 1989, for a more detailed explanation on EPA's proposed rule to grant Philway's petition for its filter press sludge.

2. Agency Response to Public Comments

The Agency received comments on the proposed rule from one interested party. This commenter opposed the Agency's proposed decision to exclude Philway's filter press sludge. The comments noted the Agency's failure to: (1) Evaluate total constituent levels of metals in the waste, (2) consider alternative disposal scenarios, (3) consider the probable high alkalinity of Philway's petitioned waste, and (4) consider the recently proposed drinking water standard for lead. These comments are discussed below, along with the Agency's responses.

Evaluation of Total Constituent Levels of Metals

The commenter claimed that Philway has failed to demonstrate that its F006 waste is not capable of posing a hazard to human health or the environment. In particular, the commenter emphasized that the maximum total constituent concentration of lead in Philway's filter press sludge is 3,200 ppm, which is greater than the "significant concentration" of 1,000 ppm for toxic metals referred to by the Agency in its background document for the listing of F006 wastes.

The Agency agrees that the presence of significant concentrations of hazardous inorganic constituents in F006 wastes was one of the reasons for listing F006 wastes as "T" (toxic) wastes. See 40 CFR 261.11(a)(3)(ii) and the "Background Document, Resources Conservation and Recovery Act, Subtitle C, Hazardous Waste Management, Section 3001, Identification and Listing of Hazardous Waste—Electroplating and Metal Finishing Operations," 1980. The data presented in the Background Document broadly characterize the physical/chemical nature of a wide variety of electroplating wastes. However, the Agency believes that these data are not representative of the physical/chemical nature of the treated wastes generated by Philway. Specifically, EPA believes it is reasonable to expect that, as the total constituent concentration of an unbound or loosely bound metal present in a waste increases, the potential for the metal to leach from the waste also increases. (Generally, the higher the total constituent concentration of an unbound or loosely bound metal, the higher the potential EP leachate concentration.) Thus, wastes having significant total constituent concentrations of unbound or loosely bound metals are more likely to impact the underlying ground water than wastes having lower total constituent concentrations of unbound or loosely bound metals. In this case, however, the metals in Philway's petitioned waste are tightly bound within the waste matrix. The Agency's conclusion that the inorganic constituents of concern, including lead, are bound in the waste matrix and are unavailable for leaching is supported by the results of the EP leachate analyses of Philway's petitioned waste. See the proposed rule (54 FR 43829, October 27, 1989) for the EP leachate results.

EPA evaluated the potential mobility of Philway's petitioned waste using the maximum EP leachate concentrations as inputs into the VHS model. The VHS model predicts a dilution factor of approximately 32.3 for the estimated maximum volume of waste generated by Philway (96 cubic yards per year). The VHS model analysis provides a conservative and reasonable worst-case evaluation of the waste's impact on the underlying aquifer. The predicted compliance-point concentrations resulting from this conservative analysis were below the levels of concern used for delisting purposes. See 54 FR 43829, October 27, 1989, for a description of the modeling analysis of Philway's filter press sludge. Thus, the Agency believes that the levels of the metals present in Philway's petitioned waste should not pose a threat to either human health or the environment.

Furthermore, in delisting evaluations, EPA considers all factors that could cause a waste to be hazardous. The Agency considers both factors for which the waste was listed and additional factors (such as other constituents), other than those for which the waste was originally listed, that could cause the waste to be hazardous (see 40 CFR 260.22(a) and 42 U.S.C. 6921(f)). For Philway's petitioned waste, based on the discussions presented above and in the proposed rule, EPA does not believe that any other factors, including total concentrations of the listed and non-listed inorganic constituents of concern, could cause this waste to present a hazard to human health and the environment.

Consideration of Alternative Disposal Scenarios

The commenter also stated that the Agency, in its reliance on the VHS model, has focused solely on the leaching potential of hazardous constituents in a landfill setting and has not evaluated other plausible, non-ground water mismanagement scenarios. The commenter believed that, if the waste were delisted, the waste could be improperly managed during transport for off-site disposal, or inadequately handled prior to disposal. As such, there could be opportunities for airborne and waterborne dispersal resulting in human and environmental exposure. The commenter thus claimed that focusing on leachable constituents has resulted in a serious underestimation of the risks posed by non-ground water exposure routes that could result from mismanagement prior to disposal.

The Agency disagrees with the commenter that use of the VHS model for the prediction of hazardous constituents migration in the ground water has underestimated the potential hazard posed to human health and the environment by Philway's petitioned waste. The Agency believes that direct contact from airborne exposure to hazardous constituents from Philway's petitioned waste is unlikely because the waste has an average moisture content of 78.5 percent. The Agency believes that the petitioned waste's moisture content is sufficient to prevent dust formation and dispersion. Although EPA does not believe that exposure to hazardous airborne contaminants from Philway's waste is likely to present a hazard to human health or the environment, the Agency, in order to fully respond to the specific comment, evaluated the hazards resulting from such an exposure to Philway's waste. Specifically, EPA used the methodology documented in "Rapid Assessment of Exposure to Particulate Emissions from Surface Contamination Sites," U.S. Environmental Protection Agency, Office of Health and Environmental Assessment, EPA/600/8-85/002, February 1985, to estimate reprirable particulate emissions from wind erosion of surfaces with an "unlimited reservoir" of erodible particles. The worst-case emission rate derived from this methodology then was used as an input to the Agency's Ambient Air Dispersion Model (AADM), a steady-state Gaussian plume dispersion model, to predict the concentrations of the inorganic constituents 1,000 feet downwind of the facility. For a complete description and discussion of the AADM, see 50 FR 46963, November 27, 1985.

In this specific analysis, the Agency assumed conservative values for all variables likely to influence potential soil erosion, including wind velocity and vegetation. The Agency, however, modified the assumptions regarding unit dimensions used in the AADM to more closely resemble a landfill as used in the VHS model. The results of this reasonable, worst-case analysis indicated that no substantial present or potential hazard to human health or the environment is likely from airborne exposure to both the listed and non-listed inorganic constituents from Philway's waste. (The results of the Agency's modeling and analysis of air emissions from Philway's waste is available in the docket for today's final rule.)

With regard to waterborne dispersal, the Agency acknowledges that it may be possible for surface water runoff (*i.e.*, rainwater, leachate, or other liquid) to transport hazardous constituents from a waste disposal are to a nearby surface water body. However, the Agency does not believe that analysis of such

overland transport of hazardous constituents as an exposure route for the petitioned waste would indicate a different result for this petition. As described in the proposed rule, the Agency believes that disposal in a landfill is a reasonable worst-case management scenario for Philway's petitioned waste. Contamination of surface water might occur, therefore, through runoff from the waste disposal area. However, EPA believes that the concentrations of any hazardous constituents in that runoff will tend to be lower than the levels indicated by the EP leachate analyses, reported in the proposed rule, due to the acidic medium and extended testing period (24 hours) used in the EP toxicity test. Furthermore, any transported constituents would be further diluted in the surface water body.

Finally, the Agency believes that, in general, the leachate derived from this waste will not directly enter a surface water body without first travelling through the saturated (subsurface) zone where dilution and attenuation of hazardous constituents may occur. The VHS model takes this saturated zone into account as it predicts the ultimate fate and transport of hazardous constituents.

The Agency notes that, once delisted, the petitioned waste remains a solid waste (as defined under 40 CFR 261.2) and is subject to regulation under the State solid waste management program. Philway must either dispose of the delisted waste on site, or ensure that the waste is delivered to an off-site storage, treatment, or disposal facility, either of which is permitted, licensed, or registered by a State to manage municipal or industrial solid waste.

Consideration of the Alkalinity of Philway's Petitioned Waste

The commenter explained that common forms of lead are amphoteric and may be solubilized by alkaline as well as acidic media. Because the petitioned waste itself is alkaline due to the presence of lime, the lead present may be solubilized over time. The commenter further stated that the Agency only required Philway to submit the results of the EP toxicity test, an acidic leaching procedure. The commenter believed that leaching the waste with distilled water or by the Multiple Extraction Procedure (MEP) would have yielded higher concentrations of lead in the extract.

In support of this contention, the commenter cited the results of a column leaching study of municipal solid waste incinerator ash treated with Portland cement.[1] The experimenters observed initially low leachability but then a sharp increase to 9–15 ppm of lead, as the alkalinity of the extraction fluid resulted in the solubilization of the lead present in the incinerator ash. The commenter also noted that while discussing treatment options for certain wastes subject to the land disposal restrictions (see 54 FR 1101, January 11, 1989), the Agency indicated that the attempted stabilization of K031 wastes using Portland cement actually increased arsenic leaching and that this increase was attributable to the amphoteric nature of arsenic compounds.

The Agency disagrees with these comments. The Agency believes the EP leaching test is an appropriate method to use to evaluate the plausible worst-case assumption that the delisted waste might be co-disposed with municipal solid wastes. An acidic leaching medium, such as employed in the EP, simulates the acidic conditions expected to be present in a municipal landfill due to the formation of organic acids from the decay of organic wastes. To simulate the acidic leaching medium which occurs in actively decomposing municipal landfills, the Agency chose to employ an acetic acid leaching medium with a pH of 5.0. (See 45 FR 33084, May 19, 1980.)

The Agency further notes that even if the petitioned waste were managed in an on-site landfill or surface impoundment, or in a dedicated off-site unit, it would still be subject to acidic leaching. The pH of rainwater in equilibrium with atmospheric carbon dioxide is 5.6. According to a 1987 report by the International Institute for Environmental and Development and the World Resources Institute (a copy of the relevant pages of the report is included in the RCRA public docket for today's notice), actual precipitation normally has a pH between 5.6 and 6.8. A detailed study by EPA's Atmospheric Research and Exposure Assessment Laboratory on acid precipitation in North America (see EPA Publication EPA/600/4–89/005, January 1989) showed that pH values for 1986 precipitation ranged from 3.91 to 6.73. Therefore, it is unlikely that the petitioned waste will be subject to alkaline leaching by precipitation.

The Agency also disagrees with the commenter's suggested use of the MEP to evaluate Philways' waste. The MEP consists of a series of repetitive extractions, starting with the EP as the first step, followed by the multiple extractions with pH 3 acid solution. While the MEP may be appropriated to evaluate the long-term stability of stabilized waste, such a procedure is not necessary for unstabilized waste such as Philway's. In any case, the MEP is still an acidic leaching procedure and would not, we believe, address the commenter's concern. Furthermore, the Agency does not believe that leaching the waste with distilled water, as suggested by the commenter, would be likely to leach higher concentrations of lead from Philway's waste. In this case, Philway's sludge has already been exposed to an alkaline wastewater with a pH in the range of 8.2 to 9.0, therefore any extraction with distilled water is unlikely to yield to any further solubilization of lead present in the waste.

EPA also believes that the two examples cited by the commenter are not germane to this case. First, the column leaching study of cement-treated incinerator ash is not analogous to any reasonably probable waste management scenario for Philway's petitioned waste. Such column leaching procedure was implemented to solubilize the constituents present in solidified ash, while the petitioned waste has never been stabilized and has already been exposed to the alkaline wastewater. The Agency, therefore, does not believe the results cited by the commenter are relevant to Philway's waste. Furthermore, the Agency notes that it is difficult to draw comparisons between the data obtained from the column leaching test and the data obtained from the EP toxicity tests due to significant differences in analytical procedures and assumptions regarding leachate generation. Specifically, the data obtained from the column leaching test was generated by continuously leaching 36.1 kg of crushed solidified incinerator residue having a particle size of less than one-half inch in a 60-inch (height) x 10-inch (diameter) column, using a pH 4.0 solution as a leaching medium. Whereas, the data obtained from the EP toxicity tests were generated by agitating the mixture of a pH 5.0 acetate buffer solution and 100 grams of ground sample having a particle size of less than 9.5 mm (0.375 inch), contained in an extractor, for a period of 24 hours. The commenter's view from the review of the column leaching study that "the alkalinity of the extraction fluid resulted

[1] Holland, P.J. et al., "Evaluation of Leachate Properties and Assessment of Heavy Metal Immobilization from Cement and Lime Amended Incinerator Residues," *Proceedings of the International Conference on Municipal Waste Combustion*, sponsored by U.S. EPA and Environment Canada, held April 11–14, 1989 in Hollywood, Florida, Vol. 1.

in solubilization of the lead present in the ash" is incorrect. In fact, that column leaching study adopted a pH 4.0 synthetic acid rain consisting of H_2SO_4 and HNO_3 acids as the leaching media; thus, the release (or solubilization) of lead at high pH levels did not appear to be attributed to the alkalinity of the extraction fluid as mentioned by the commenter. On the contrary, the acidic leaching media used in the column leaching study should have caused some degree of neutralization of the high pH in the alkaline waste matrix under study. Additionally, the column leaching test utilized a liquid to solid (L/S) ratio of 0.6 while the EP tests utilized a L/S ratio of 20. The Agency, therefore, is unable to compare the results obtained from two very different leaching procedures.

Lastly, arsenic is not a concern in this case. The maximum total arsenic concentration in the petitioned waste was found to be 0.05 ppm. Even if 100 percent of arsenic were to leach from the waste, the maximum arsenic concentration that could be present in the leachate would be only 0.0025 ppm (or 1/20th of the total concentration present in the waste, due to 20-fold dilution inherent in the EP toxicity test). This leachate concentration is well below the Agency's health-based level of 0.05 ppm for arsenic, and, therefore, the leaching of arsenic from Phiway's waste is not of concern.

Consideration of the Recently Proposed Drinking Waste Standard for Lead

The commenter also expressed concern that the Agency did not consider the recent proposal to lower the drinking water standard for lead to 0.005 ppm (see 53 FR 31516, August 18, 1988), especially since the compliance-point concentration for lead (0.0062 ppm) calculated using the VHS model exceeds this new standard.

In its delisting decision-making, the Agency relies on the existing health-based levels cited in "Docket Report on Health-Based Levels and Solubilities Used in the Evaluation of Delisting Petitions" (located in the RCRA public docket). EPA is unable to predict the final drinking water standard for lead until it is actually promulgated (*i.e.*, the standard could be less than or greater than the proposed level or the 0.005 ppm level cited by the commenter). Neither can the Agency be certain exactly when the new drinking water standard for lead might be promulgated. As a matter of equity, the Agency does not believe that the final decision on Phiway's petition should be postponed until a new drinking water standard for lead is promulgated.

3. Final Agency Decision

For the reasons stated in the proposal and described above, the Agency believes that Phiway's filter press sludge should be excluded from hazardous waste control. The Agency, therefore, is granting a final exclusion to Phiway Products, Incorporated, located in Ashland, Ohio, for its wastewater treatment filter press sludge described in its petition as EPA Hazardous Waste No. F006. The exclusion only applies to the processes and waste volume (a maximum of 90 cubic yards per year) covered by the original demonstration. The exclusion is only valid for lime-treated waste and does not cover any wastes produced by the substitution of caustic soda or other chemicals for lime as a neutralizing agent and precipitant. The facility would require a new exclusion if either its manufacturing or treatment processes are significantly altered such that a change in waste composition or increase in waste volume occurred. Accordingly, the facility would need to file a new petition for the altered waste. The facility must treat waste generated from changed processes as hazardous until a new exclusion is granted.

Although management of the waste covered by this petition is relieved from Subtitle C jurisdiction, the generator of a delisted waste must either treat, store, or dispose of the waste in an on-site facility, or ensure that the waste is delivered to an off-site storage, treatment, or disposal facility, either of which is permitted, licensed, or registered by a State to manage municipal or industrial solid waste. Alternatively, the delisted waste may be delivered to a facility that beneficially uses or reuses, or legitimately recycles or reclaims the waste, or treats the waste prior to such beneficial use, reuse, recycling, or reclamation.

III. Limited Effect of Federal Exclusion

The final exclusion being granted today is being issued under the Federal (RCRA) delisting program. States, however, are allowed to impose their own, non-RCRA regulatory requirements that are more stringent than EPA's, pursuant to section 3009 of RCRA. These more stringent requirements may include a provision which prohibits a Federally-issued exclusion from taking effect in the State. Because a petitioner's waste may be regulated under a dual system (*i.e.*, both Federal (RCRA) and State (non-RCRA) programs), petitioners are urged to contact their State regulatory authority to determine the current status of their wastes under the State law.

IV. Effective Date

This rule is effective immediately. The Hazardous and Solid Waste Amendments of 1984 amended section 3010 of RCRA to allow rules to become effective in less than six months when the regulated community does not need the six-month period to come into compliance. That is the case here because this rule reduces, rather than increases, the existing requirements for persons generating hazardous wastes. In light of the unnecessary hardship and expense that would be imposed on this petitioner by an effective date six months after promulgation and the fact that a six-month deadline is not necessary to achieve the purpose of section 3010, EPA believes that this rule should be effective immediately upon promulgation. These reasons also provide a basis for making this rule effective immediately under the Administrative Procedure Act, pursuant to 5 U.S.C. 553(d).

V. Regulatory Impact

Under Executive Order 12291, EPA must judge whether a regulation is "major" and therefore subject to the requirement of a Regulatory Impact Analysis. This rule to grant an exclusion is not major since its effect is to reduce the overall costs and economic impact of EPA's hazardous waste management regulations. This reduction is achieved by excluding waste generated at a specific facility from EPA's lists of hazardous wastes, thereby enabling this facility to treat its waste as non-hazardous. There is no additional economic impact, therefore, due to today's rule.

VI. Regulatory Flexibility Act

Pursuant to the Regulatory Flexibility Act, 5 U.S.C. 601–612, Whenever an agency is required to publish a general notice of rulemaking for any proposed or final rule, it must prepare and make available for public comment a regulatory flexibility analysis, which describes the impact of the rule on small entities *i.e.*, small businesses, small organizations, and small governmental jurisdictions). The Administrator or delegated representative may certify, however, that the rule will not have a significant economic impact on a substantial number of small entities.

This amendment will not have an adverse economic impact on small entities since its effect will be to reduce the overall costs of EPA's hazardous waste regulations and is limited to one facility. Accordingly, I hereby certify that this regulation will not have a significant economic impact on a

substantial number of small entities. This regulation, therefore, does not require a regulatory flexibility analysis.

VII. Paperwork Reduction Act

Information collection and recordkeeping requirements associated with this final rule have been approved by the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act of 1980 (Pub. L. 96-511, 44 U.S.C. 3501 *et seq.*) and have been assigned OMB Control Number 2060-0053

VIII. List of Subjects in 40 CFR Part 261

Hazardous materials, Waste treatment and disposal, Recycling.

Authority: Sec. 3001 RCRA, 42 U.S.C. 6921.

Dated: September 20, 1990.

Jeffery D. Denit,

Deputy Director, Office of Solid Waste.

For the reasons set out in the preamble, 40 CFR part 261 is amended as follows:

PART 261—IDENTIFICATION AND LISTING OF HAZARDOUS WASTE

1. The authority citation for part 261 continues to read as follows:

Authority: 42 U.S.C. 6905, 6912(a), 6921, 6922, and 6938.

2. In Table 1 of appendix IX. add the following wastestream in alphabetical order by facility:

Appendix IX—Wastes Excluded Under §§ 260.20 and 260.22

TABLE 1. WASTES EXCLUDED FROM NON-SPECIFIC SOURCES

Facility	Address	Waste description
•	•	•
Philway Products, Incorporated.	Ashland, Ohio.	Filter press sludge generated (at a maximum annual rate of 95 cubic yards) during the treatment of electroplating wastewaters using lime (EPA Hazardous Waste No. F006). This exclusion was published on October 26, 1990.

BILLING CODE 6560-50-M

DEPARTMENT OF THE INTERIOR

Office of Hearings and Appeals

43 CFR Part 4

Department Hearings and Appeals Procedures; Indian Probate Proceedings

AGENCY: Office of Hearings and Appeals, Interior.

ACTION: Final rule.

SUMMARY: This Office amends certain of its rules in 43 CFR part 4, subpart D, applicable in Indian Affairs Hearings and Appeals proceedings, by updating references and cross-references to section numbers and editions of the United States Code contained therin, as indicated below. This office also amends § 4.210 of these regulations by removing paragraph (d) thereof because it is generally repetitive of paragraph (c) of the regulation and, therefore, it is considered to be unnecessary. These amendments will improve the accuracy and clarity of the regulations concerned. The amendments do not later any substantive legal rights.

EFFECTIVE DATE: October 26, 1990.

FOR FURTHER INFORMATION CONTACT: Parlen L. McKenna, Chief Administrative Law Judge, Hearings Division, Office of Hearings and Appeals, U.S. Department of the Interior, 4015 Wilson Blvd., Arlington, VA 22203. Telephone: 703-235-3800 (not toll free).

SUPPLEMENTARY INFORMATION: Because these amendments are nonsubstantive in nature and because prompt action is in the public interest, the proposed rulemaking process is determined to be unnecessary and impracticable (5 U.S.C. 553(b)(B)).

Paperwork Reduction Act

This rulemaking does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3501 *se seq.*

Compliance With Other Laws

The Department of the Interior has determined this document is not a major rule under Executive Order No. 12291 and certifies this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This rulemaking has no economic effect since it neither removes existing requirements nor imposes new ones. Also, this rulemaking is categorically excluded from the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 through 4347), process because it is of an adminstrative, financial, legal technical, and procedural nature, and therefore neigher an environmental assessment nor an environmental impact statement is required. 40 CFR 1508.4; 516 DM 2.3A.

List of Subjects in 43 CFR Part 4

Administrative practice and procedure, Indians.

Dated: September 5, 1990.

Lou Gallegos,

Assistant Secretary—Policy, Management and Budget.

For the reasons set out in the preamble, title 43, part 4, subpart D, Code of Federal Regulations, is amended as set forth below.

PART 4—[AMENDED]

Subpart D—Rules Applicable in Indian Affairs Hearings and Appeals

1. The authority citation for part 4, subpart D, continues to read:

Authority: Secs. 1, 2, 36 Stat. 855, as amended, 856, as amended, sec. 1, 38 Stat. 586, 42 Stat. 1185, as amended, secs. 1, 2, 56 Stat. 1021, 1022; R.S. 463, 465; 5 U.S.C. 301, 25 U.S.C. secs. 2, 9, 372, 373, 374, 373a, 373b.

§ 4.200 [Amended]

2. Section 4.200 Scope of regulations is amended by removing from the second sentence thereof the reference "§§ 4.203 through 4.297" and by adding, in its place, the following: "§§ 4.203 through 4.282 and §§ 4.310 through 4.323." This sentence of the regulation is amended further by removing the reference therein to the 1970 edition of the United States Code, with the result that the citation will read only as follows: "25 U.S.C. 476."

§ 4.205 [Amended]

3. Section 4.205 Escheat is amended by removing references in paragraphs (a) and (b) thereof to the 1964 edition of the United States Code, with the result that the citations will read only as follows, respectively: "25 U.S.C. 373a" and "25 U.S.C. 373b."

§ 4.207 [Amended]

4. Paragraph (c) of § 4.207 Compromise settlement is amended by removing from the second sentence thereof the reference "25 CFR part 121" and by adding, in its place, the following: "25 CFR part 152."

§ 4.210 [Amended]

5. In § 4.210 Commencement of probate, paragraph (d) is removed.

§ 4.230 [Amended]

6. In paragraph (b) of § 4.230 Administrative law judges; authority and duties the reference to the 1964 edition of the United States Code is removed, with the result that the citation will read only as follows: "25 U.S.C. 374."

§ 4.270 [Amended]

7. Section 4.270 Custody and control of trust estates is amended by removing the reference "§ 4.296" and by adding, in its place, the following: "§ 4.312."

§ 4.272 [Amended]

8. Paragraph (a) of § 4.272 Omitted property is amended by removing the reference "§ 4.296" and by adding, in its place, the following: "§ 4.312."

§ 4.273 [Amended]

9. Paragraphs (a) and (d) of § 4.273 Improperly included property are amended by removing from paragraph (a) the reference "§ 4.296" and by adding, in its place, the following: "§ 4.312." The section is also amended by removing from paragraph (d), the reference "§§ 4.291—4.297," and by adding, in its place, the following: "§§ 4.310 through 4.323."

§ 4.274 [Amended]

10. Paragraph (a) of § 4.274 Distribution of estates is amended by removing the reference "§ 4.291(b)" and by adding, in its place, the following: "§ 4.320(b)."

§ 4.302 [Amended]

11. Paragraph (a) of § 4.320 Conclusion of probate and tribal exercise of statutory option is amended by removing the reference "§§ 4.200—4.296" and by adding, in its place, the following: "§§ 4.200 through 4.282 and §§ 4.310 through 4.323."

§ 4.305 [Amended]

12. Paragraph (c) of § 4.305 Hearing is amended by removing the reference "§§ 4.291—4.297" and by adding, in its place, the following: "§§ 4.310 through 4.323."

BILLING CODE 4310-79-M

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

49 CFR Part 40

Announcement of Seminar on DOT-Required Drug Testing

AGENCY: Department of Transportation, Office of the Secretary.

ACTION: Notice of seminar.

SUMMARY: The Department of Transportation is sponsoring a one-day seminar on Implementing Programs for a Drug-Free Transportation System. This notice concerns the date, locations, agenda, and registration information for this seminar.

DATES: The seminar will be broadcast by satellite on October 30, 1990, to 20 cities across the United States. The seminar will be broadcast to the following cities: Mobile, Ala.; Sacramento and San Diego, CA; Denver, CO; Tampa, FL; Indianapolis, IN; Kansas City, KS; Baltimore, MD; Boston, MA; St. Paul, MN; Billings, MO; Charlotte, NC; White Plains, NY; Oklahoma City, OK; Portland, OR; Pittsburgh, PA; Nashville, TN; Houston and El Paso, TX; and Salt Lake City, UT.

FOR FURTHER INFORMATION CONTACT: Mary Duke Sanders, Office of the Secretary, Department of Transportation, 400 7th Street, SW., Room 10200, Washington, DC 20590, (202-366-3784) (See supplementary information for phone number and address of contact for conference registration).

SUPPLEMENTARY INFORMATION: In November 1988, the Department of Transportation published regulations requiring drug testing programs in the aviation, maritime, railroad, mass transit, pipeline, and motor carrier industries. Employers in these industries must begin drug testing between December 1989 and December 1990. The Department is pleased that those who are responsible for transportation safety are responding positively to the challenge of implementing this significant and complex program.

This seminar is designed to assist all transportation companies and is particularly targeted to smaller operations, generally fewer than 50 employees, in implementing DOT's drug testing regulations scheduled to go into effect for these companies by December 21 of this year.

The seminar is designed to provide a forum for discussing the rules and how to implement them. Participants will be able to learn about drug rule implementation issues and will meet with DOT regional field representatives as well as have the opportunity to ask a panel of DOT officials via satellite to Washington questions during a Question and Answer period. Participants will also receive a copy of the new DOT drug testing procedures handbook.

The seminar will be one-day in length. Event format will include an overview of DOT drug testing regulations, an introduction to 49 CFR part 40 (the Department's Drug Testing Procedures rule, detailed discussion of such issues under part 40 as collection procedures, the chain of custody form, the testing process, quality control measures, and the role of the medical review officer; and the drug awareness and training requirements of the DOT rules. The afternoon portion of the seminar will feature presentations by the operating administration's drug program coordinators regarding requirements particularly to that industry.

Conference participation may be limited depending on industry response. The conference registration fee will be $25 per person. Attendees are responsible for their own hotel reservation if needed.

For registration materials and information, you should contact Art MacHugh, Transportation Safety Institute, at (405) 680-7196, (405) 680-3521 [fax].

Issued this 23d day of October, 1990, at Washington, DC.

Terrance W. Gainer,

Special Assistant to the Secretary and Director for Drug Enforcement and Program Compliance, U.S. Department of Transportation.

[FR Doc. 90-25468 Filed 10-24-90; 11:13 am]
BILLING CODE 4910-62-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 32

RIN 1018-AA71

Refuge-Specific Hunting Regulations

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: The Fish and Wildlife Service (Service) here amends certain regulations in 50 CFR part 32 that pertain to migratory game bird, upland game, and big game hunting on individual national wildlife refuges. Refuge hunting programs are reviewed annually to determine whether the regulations governing individual refuge hunts should be modified, deleted or added to. Changing environmental conditions, State and Federal regulations, and other factors affecting wildlife populations and habitats may warrant modifications to ensure the continued compatibility of hunting with the purposes for which the individual refuges involved were established and, to the extent practical, make refuge

BEST COPY AVAILABLE

hunting programs consistent with State regulations.

EFFECTIVE DATES: October 26, 1990.

FOR FURTHER INFORMATION CONTACT: Robert Karges, U.S. Fish and Wildlife Service, Division of Refuges, 1849 C Street, NW., MS 670–ARLSQ, Washington, DC 20240; telephone (703) 358–2043.

SUPPLEMENTARY INFORMATION: 50 CFR part 32 contains provisions governing hunting on national wildlife refuges. Hunting is regulated on refuges to (1) ensure compatibility with refuge purposes, (2) properly manage the wildlife resource, (3) protect other refuge values, and (4) ensure the safety of refuge users and neighbors. On many refuges, the Service policy of adopting state hunting regulations is adequate in meeting these objectives. On other refuges, it is necessary to supplement State regulations with more restrictive Federal regulations to ensure that the Service meets its management responsibilities, as outlined under the section entitled "Conformance with Statutory and Regulatory Authorities." Refuge-specific hunting regulations may be issued only after a wildlife refuge is opened to migratory game bird, upland game, or big game hunting through publication in the Federal Register. These regulations may list the wildlife species that may be hunted, seasons, bag limits, methods of hunting, descriptions of open areas, and other provisions. Previously issued refuge-specific regulations for migratory game bird, upland game, and big game hunting are contained in 50 CFR 32.12, 32.22, and 32.32 respectively. Some of the proposed amendments to these sections are being promulgated to standardize and clarify the existing language of these regulations.

The policy of the Department of the Interior is, whenever practicable, to afford the public an opportunity to participate in the rulemaking process.

In the July 24, 1990, issue of the Federal Register (55 FR 30014) the Service published a proposed rulemaking to amend certain regulations in 50 CFR part 32 and invited public comment. The Service's responses to those comments are contained in the following section.

Responses to Comments Received

Written comments on the proposed rule were received from six parties. One party, the Wildlife Legislative Fund of America supported biologically sound hunting regulations in general. The remaining five parties opposed establishing a motorless/electric motor hunting area at the Lower Klamath National Wildlife Refuge in California.

Issue 1: Motorless areas are unnecessary.

Response: A portion of the hunting public requested a motorless area. It is an objective of the refuge to provide diverse hunting opportunities to all the hunting public.

Issue. 2: The area selected and the size of the area were not agreed to by the public.

Response: At a February 1990 meeting in Klamath Falls, Oregon, those in attendance opposed designation of Unit 9 on Lower Klamath as a motorless area. Some suggested Unit 4–C as an alternative. Refuge staff reviewed this recommendation and concurred. In addition, Units 4–D, E, and F were included since they are essentially walk-in hunting areas with little or no opportunity for outboard boat access except in some of the field edge ditches when there is sufficient water. The total area will provide a variety of hunting opportunities, i.e., open water, permanent marsh, and seasonally flooded wetlands for hunters in an area where outboard motors are precluded.

Issue 3: When ice forms, access to motorless areas will be difficult since larger outboards can break ice and provide access.

Response: Ice formation at Lower Klamath is a highly variable matter each year. Freeze-up is early some years and very late others. In addition, there can be periods of thaw interspersed throughout the season. The small amount of access that may be precluded by thick ice that otherwise could have been broken by outboard boats will not be significant. The amount of open water previously maintained by boats in these units is not necessary for the general welfare of the waterfowl populations utilizing the refuge.

Issue 4: Refuge management does not consult with guides and other hunters regularly on hunting issues.

Response: Public meetings have been held each of the past 2 years to gather input from all hunters. Future actions will provide opportunity for public input at a public meeting. In addition, new releases and a refuge newsletter will be used to disseminate information to hunters and other refuge users regarding public use activities on all refuge units in the Klamath Basin Complex.

During the 1990–91 hunting season the motorless area will be closely monitored to evaluate hunter use and acceptance, impacts, if any, to waterfowl populations, and its relationship to the total hunting opportunity at Lower Klamath Refuge. Comments by hunters are encouraged throughout or immediately following the season.

Conformance With Statutory and Regulatory Authorities

The National Wildlife Refuge System Administration Act (NWSAA) of 1966, as amended (16 U.S.C. 668dd), and the Refuge Recreation Act of 1962 (16 U.S.C. 460K) govern the administration and public use of national wildlife refuges. Specifically, section 4(d)(1)(A) of the NWRSAA authorizes the Secretary of the Interior to permit the use of any area within the Refuge System for any purpose, including but not limited to, hunting, fishing, public recreation, accommodations, and access, when he determines that such uses are compatible with the major purpose(s) for which area was established.

The Refuge Recreation Act authorizes the Secretary to administer areas within the Refuge System for public recreation as an appropriate incidental or secondary use only to the extent that it is practicable and not inconsistent with the primary purpose(s) for which the areas were established. The Refuge Recreation Act also authorizes the Secretary to issue regulations to carry out the purposes of the Act. Hunting plans are developed for each refuge prior to opening it to hunting. In many cases, refuge-specific hunting regulations are included in the hunting plan to ensure the compatibility of the hunting programs with the purposes for which the refuge Recreation Act is ensured when hunting plans are developed, and the determinations required by these acts are made prior to the addition of refuges to the list of areas open to hunting in 50 CFR. Continued compliance is ensured by annual review of hunting programs and regulations.

In view of the rapidly approaching hunting seasons, there is an immediate need to place these regulations into effect. It is Service policy to conduct hunting within the framework of State laws, regulations and seasons. To delay opening the refuges to hunting may cause confusion to the public, deny a benefit to the public and small related businesses and would not be in the best interest of the Service or the public. Thus the Department of the Interior concludes that good cause exists within the meaning of 5 U.S.C 553(d)(3) of the Administrative Procedure Act to make these regulations effective upon publication in the Federal Register.

Economic Effect

Executive Order 12291 requires the preparation of regulatory impact analyses for major rules. A major rule is one likely to result in an annual effect

on the economy of $100 million or more; or a major increase in costs or prices for consumers, individual industries, government agencies or geographic regions. The Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et seq.*) further requires the preparation of flexibility analyses for rules that will have a significant effect on a substantial number of small entities, which include small businesses, organizations or governmental jurisdictions.

These amendments to the codified refuge-specific hunting regulations make relatively minor adjustments to existing hunting programs. The regulations are not expected to have any gross economic effect and will not cause an increase in costs or prices for consumers, individual industries, Federal, state, or local governments, agencies, or geographic regions. The benefits accruing to the public are expected to exceed by a large margin the costs of administering this rule. Accordingly, the Department of the Interior has determined that this rule is not a "major rule" within the meaning of E.O. 12291 and will not have a significant economic effect on a substantial number of small entities within the meaning of the Regulatory Flexibility Act.

Paperwork Reduction Act

The Service has approval from the Office of Management and Budget (OMB) for the information collection requirements of these regulations pursuant to the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). These requirements are presently approved by OMB as cited below:

Type of information collection	OMB approval no.
Economic and public use permits	1018–0014

Public reporting burden for this form is estimated to average six (6) minutes per response, including time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments on the burden estimate or any other aspect of this form to: Information Collection Officer, U.S. Fish and Wildlife Service, 1849 C Street, NW., MS 224 ARLSQ, Washington, DC 20240; and the Office of Management and Budget, Paperwork Reduction Project (1018–0014), Washington, DC 20503.

Environmental Considerations

Compliance with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4332(2)(C)) and the Endangered Species Act of 1973 (16 U.S.C. 1531–1543) is ensured when hunting plans are developed, and the determinations required by these acts are made prior to the addition of refuges to the lists of areas open to hunting in 50 CFR part 32. Refuge-specific hunting regulations are subject to a categorical exclusion from the NEPA process if they do not significantly alter the existing use of a particular national wildlife refuge. The changes enacted in this rulemaking do not substantially alter the existing uses of the refuges involved. Information regarding hunting permits and the conditions that apply to individual refuge hunts and maps of the hunt areas are available at refuge headquarters or can be obtained from the regional offices of the U.S. Fish and Wildlife Service at the addresses listed below:

Region 1—California, Hawaii, Idaho, Nevada, Oregon, and Washington. Assistant Regional Director—Refuges and Wildlife, U.S. Fish and Wildlife Service, Eastside Federal Complex, 911 NE. 11th Avenue, Portland, Oregon 97232–4181; telephone (503) 231–6214.

Region 2—Arizona, New Mexico, Oklahoma and Texas. Assistant Regional Director—Refuges and Wildlife, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103; telephone (505) 766–1829.

Region 3—Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Ohio and Wisconsin. Assistant Regional Director—Refuges and Wildlife, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111; telephone (612) 725–3507.

Region 4—Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Tennessee, South Carolina, Puerto Rico and the Virgin Islands. Assistant Regional Director—Refuges and Wildlife, U.S. Fish and Wildlife Service, Richard B. Russell Federal Building, 75 Spring Street, SW., Atlanta, Georgia 30303; telephone (404) 331–0333.

Region 5—Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia and West Virginia. Assistant Regional Director—Refuges and Wildlife, U.S. Fish and Wildlife Service, One Gateway Center, suite 700, Newton Corner, Massachusetts 02158; telephone (617) 965–9222.

Region 6—Colorado, Kansas, Montana, Nebraska, North Dakota, South Dakota, Utah and Wyoming. Assistant Regional Director—Refuges and Wildlife, U.S. Fish and Wildlife Service, Box 25486, Denver Federal Center, Denver, Colorado 80225; telephone (303) 236–8145.

Region 7—Alaska (Hunting on Alaska refuges is in accordance with State regulations. There are no refuge-specific hunting regulations for these refuges). Assistant Regional Director—Refuges and Wildlife, U.S. Fish and Wildlife Service, 1011 E. Tudor Rd., Anchorage, Alaska 99503; telephone (907) 786–3538.

List of Subjects in 50 CFR Part 32

Hunting, Reporting and recordkeeping requirements, Wildlife, Wildlife refuges.

Accordingly, part 32 of chapter I of title 50 of the *Code of Federal Regulations* is amended as set forth below:

1. The authority citation for part 32 continues to read as follows:

Authority: 5 U.S.C. 301; 16 U.S.C. 460k, 664, 668dd, and 715i.

2. Section 32.12 is amended by revising paragraphs (d)(1) and (d)(3); adding paragraph (f)(7)(vii); revising paragraphs (k)(2), (m), (g), (u)(2), (u)(3), (u)(4), (u)(5) and (u)(6); redesignating paragraphs (y)(1) as (y)(2) adding new paragraph (y)(1); removing paragraphs (cc)(2) (v) (vi) revising paragraphs (dd)(3), (hh)(11)(v); adding paragraphs (hh)(4)(v) and (hh)(11)(vii); revising paragraphs (mm)(1)(ii), (mm)(5)(vi), (mm)(7) (i) and (v); adding paragraphs (mm)(1)(vii), (mm)(5)(vii) and (mm)(7)(vi); revising paragraph (pp) and (qq) (4) (ii) and (v); adding new paragraph (qq)(4) (vii), revising paragraphs (qq)(5)(iv), (qq)(6) and (qq)(7) (iii) and (iv) as follows:

§ 32.12 Refuge-specific regulations; migratory game birds.

* * * * *

(d) *Arizona and California—(1) Cibola National Wildlife Refuge.* Hunting of geese, ducks, coots, mooshens, mourning and white-winged doves is permitted on designated areas of the refuge subject to the following conditions:

(i) Non-toxic shot, is required for all migratory game bird hunting. It is prohibited to posses migratory game birds with lead shot in possession.

(ii) Legal weapon shall be shotgun only.

(iii) Special Use Permits are required for all hunting guides.

(iv) Hunting is not permitted within 50 yards of any road or levee or within 250 yards of any farm worker.

(v) Pit or permanent blinds are not permitted.

(vi) Migratory game bird hunting will cease at 3:00 p.m. each day.

(vii) The following additional restrictions apply to Zone IIA:

(A) During the Arizona waterfowl season, Farm Unit 2 is closed to dove hunting until noon each day.

(B) In Farm Unit 2, waterfowl hunters must remain within 50 feet or designated stations while hunting except when actively retrieving downed birds.

(C) During the goose season, the Hart Mine Marsh Area is closed to hunting until 10 a.m. daily.

(D) Hunters are restricted to 10 shells per day, except in the Hart Mine Marsh area.

* * * * *

(3) *Imperial National Wildlife Refuge.* Hunting of mourning and white-winged dover, ducks, coots, moorhens, geese and common snipe is permitted on designated areas of the refuge subject to the following conditions:

(i) Pits and permanent blinds are not permitted.

* * * * *

(f) *California*—* * *

(7) *Lower Klamath National Wildlife Refuge.* * * *

(vii) Only nonmotorized boats and boats with electric motors are permitted in Units 4 c, d, e, and f.

* * * * *

(k) *Illinois*—* * *

(2) *Crab Orchard National Wildlife Refuge.* (i) Waterfowl hunting is permitted on the controlled areas of Grassy Point, Carterville and Greenbrair land areas; plus Orchard, Turkey, and Sawmill and Grassy Islands, from sunrise to posted closing times each day during the goose season. Waterfowl hunting in these areas, including lake shorelines, is permitted only from existing refuge blinds during the goose season. Hunters must comply with the special rules posted at the blind drawing site.

(ii) All hunters are prohibited from possessing alcoholic beverages in the hunting areas.

(iii) Outside of the controlled goose hunting areas, only portable or temporary blinds may be used. Blinds may not be located beyond the shoreline of refuge waters, must be removed or dismantled at the end of each day's hunt, and must be located a minimum of 100 yards apart.

* * * * *

(m) *Illinois, Iowa and Missouri—Mark Twain National Wildlife Refuge.* (1) On the Big Timber Division, including Turkey and Otter Islands, only temporary wood or brush blinds are permitted. Blinds cannot be locked or otherwise sealed against public entry. Blinds are open to the public on a first-come, first-served basis if not occupied 30 minutes after the start of the legal shooting hours.

(2) On the Gardner Division, waterfowl and coot hunting is permitted only from blinds constructed on sites posted by the Illinois Department of Conservation.

* * * * *

(q) *Maine—Rachel Carson National Wildlife Refuge.* Hunting of ducks, geese, coots, woodcock and snipe is permitted on designated areas on the refuge subject to the following condition: Boats, decoys and portable blinds, must be moved from the refuge after each day's hunt.

* * * * *

(u) *Mississippi*—* * *

(2) *Hillside National Wildlife Refuge.* Hunting of mourning doves, ducks, coots, snipe and woodcock is permitted on designated areas of the refuge subject to the following condition: Permits are required.

(3) *Mathews Brake National Wildlife Refuge.* Hunting of ducks, coots, snipe, and woodcock is permitted on designated areas of the refuge subject to the following condition: Permits are required.

(4) *Morgan Brake National Wildlife Refuge.* Hunting of ducks, coots, snipe, and woodcock is permitted on designated areas of the refuge subject to the following condition: Permits are required.

(5) *Noxubee National Wildlife Refuge.* Hunting of ducks, and coots is permitted on designated areas of the refuge subject to the following condition: Permits are required.

(6) *Panther Swamp National Wildlife Refuge.* Hunting of ducks coots, snipe, and woodcock is permitted on designated areas of the refuge subject to the following condition: Permits are required.

* * * * *

(y) *Nevada*—(1) *Ash Meadows National Wildlife Refuge.* Hunting of geese, ducks, coots, moorhens, snipe, and dove is permitted on designated areas of the refuge.

* * * * *

(dd) *North Carolina*—* * *

(3) *Mattamuskeet National Wildlife Refuge.* Hunting of swans, ducks and coots is permitted on designated areas of the refuge subject to the following condition: Permits are required.

* * * * *

(hh) *Oregon*—* * *

(4) *Cold Springs National Wildlife Refuge*—* * *

(v) The refuge is closed from 10 p.m. to 5 a.m.

* * * * *

(11) *Umatilla National Wildlife Refuge.* * * *

(v) Hunters may not possess or use more than 20 shells per day. * * *

(vii) The refuge is closed from 10 p.m. to 5 a.m. except for the Hunter Check Station parking lot, which is open each morning two hours prior to State shooting hours for waterfowl.

* * * * *

(mm) *Texas (1) Anahuac National Wildlife Refuge.* * * *

(ii) The refuge unit located north of Onion Bayou and Jackson Ditch, known as the East Unit, is open to hunting only on designated days of the week. Notice of actual hunting days is issued as provided in 50 CFR 25.31.

(vii) Only shotguns are permitted.

* * * * *

(5) *McFaddin National Wildlife Refuge.* * * *

(vi) Use of airboats is permitted only in accordance with guidelines issues as provided in 50 CFR 25.31.

(vii) Only shotguns are permitted.

* * * * *

(7) *Texas Point National Wildlife Refuge.* * * *

(i) Hunting is permitted only on designated days of the week. Notice of actual hunting days is issued as provided in 50 CFR 25.31.

* * * * *

(v) Use of airboats is permitted only in accordance with specific guidelines issued as provided in 50 CFR 25.31.

(vi) Only shotguns are permitted.

* * * * *

(pp) *Virginia—Chincoteague National Wildlife Refuge.* Hunting of waterfowl is permitted on designated areas of the refuge subject to the following conditions:

(1) Permits are required on the non-guided public hunting areas on Wildcat Marsh and Morris Island.

(2) On Wildcat Marsh, compartments 1–4 are reserved for guided hunting only, with refuge-designated commercial guides.

(3) Permanent blinds are not permitted in public hunting areas.

(4) Permanent blinds are permitted in compartments 1–4 on Wildcat Marsh during the season but must be removed within ten (10) days following the end of the season.

(5) Blind sites are limited to one party of hunters, with a maximum of 4 hunters per party.

(6) Hunters shall possess and use while in the field only non-toxic shot.

(7) Public hunting is permitted only on Thursday, Friday, and Saturday during the Virginia waterfowl season.

* * * * *

(qq) *Washington*—* * *

(4) *McNary National Wildlife Refuge.* * * *

(ii) In the McNary Division hunting area, public entry is permitted only on Wednesdays, Saturdays, Sundays, Veterans Day, Thanksgiving Day, Christmas Day and New Years Day.

* * * * *

(v) Hunters may not enter or be on the refuge between one hour after sunset and 5 a.m. or leave decoys or other

personal property on the refuge overnight. * * *

(vii) Hunters may not possess or use more than 20 shells per day.

(5) *Ridgefield National Wildlife Refuge.* * * *

(iv) Hunters may not use or possess more than 20 shells per day.

(6) *Toppenish National Wildlife Refuge.* Hunting of geese, ducks, coots and snipe is permitted on designated areas of the refuge subject to the following conditions:

(i) Hunting is permitted only within 50 feet of designated blind sites except when shooting to retrieve crippled birds.

(ii) Hunters may not use or possess more than 20 shells per day.

(7) *Umatilla National Wildlife Refuge.* * * *

(iii) The refuge is closed from 10:00 p.m. to 5:00 a.m. No decoys or other personal property may be left on the refuge overnight.

(iv) Hunters may not use or possess more than 20 shells per day.

* * * * *

3. Section 32.22 is amended by revising paragraphs (c)(1), (h)(4), (k), and (l)(2); adding paragraphs (q)(4)(iv) and (q)(8) (iv); revising paragraphs (r), (v)(2), (v)(3), (v)(4), (v)(6) and (v)(7); respectively; adding new paragraph (z)(1); revising paragraph (bb)(2); revising paragraph (oo)(2) as follows:

§ 32.22 Refuge-specific regulations; upland game.

* * * * *

(c) *Arizona and California—(1) Cibola National Wildlife Refuge.* Hunting of quail and cottontail rabbit is permitted on designated areas of the refuge subject to the following conditions:

(i) The legal weapon shall be shotguns and bows and arrows.

(ii) Non-toxic shot is required for Farm Unit 2 and the Island Unit.

(iii) During the Arizona waterfowl season, hunting of quail and rabbit is not permitted in Farm Unit 2 until noon.

(iv) Hunting of cottontail rabbit is permitted from September 1, through the last day of the respective State's quail season.

(v) Hunting is permitted from one half-hour before sunrise to 3:00 p.m. daily.

(vi) Hunting is not permitted within 50 yards of any road or levee or 250 yards of any farm worker.

* * * * *

(h) *Florida*— * * *

(4) St. Vincent National Wildlife Refuge. Hunting of raccoon is permitted on designated areas of the refuge subject to the following condition: Permits are required.

* * * * *

(k) *Illinois—Crab Orchard National Wildlife Refuge.* Hunting of upland game is permitted on designated areas of the refuge subject to the following conditions:

(1) Upland game hunting is not permitted in the controlled goose hunting areas during the permitted waterfowl hunting hours.

(2) No rifles may be used with ammunition larger than .22 caliber rim fire, except black powder weapons up to and including .40 caliber may be used.

(l) *Illinois, Iowa, and Missouri—Mark Twain National Wildlife Refuge.* * * *

(2) Hunting of squirrel is permitted on the Keithsburg Division from September 1 through September 15.

* * * * *

(q) *Louisiana*— * * *

(4) *D'Arbonne National Wildlife Refuge*— * * *

(iv) Lead shot is permitted only on designated portions of the refuge.

* * * * *

(8) *Upper Ouachita National Wildlife Refuge.* * * *

(iv) Lead shot is permitted only on designated portions of the refuge.

* * * * *

(r) *Maine—Rachel Carson National Wildlife Refuge.* Hunting of upland game birds, grey squirrel, cottontail rabbit, snowshoe hare, fox, and coyote is permitted on designated areas of the refuge subject to the following conditions: Fox and coyote may be hunted only during the State deer season.

* * * * *

(v) *Mississippi*— * * *

(2) *Hillside National Wildlife Refuge.* Hunting of quail, rabbit, squirrel, beaver, raccoon, and opossum is permitted on designated areas of the refuge subject to the following condition: Permits are required.

(3) *Mathews Brake National Wildlife Refuge.* Hunting of quail, rabbit, squirrel, beaver, raccoon, and opossum is permitted on designated areas of the refuge subject to the following condition: Permits are required.

(4) *Morgan Brake National Wildlife Refuge.* Hunting of quail, rabbit, squirrel, beaver, raccoon, and opossum is permitted on designated areas of the refuge subject to the following condition: Permits are required.

(6) *Panther Swamp National Wildlife Refuge.* Hunting of quail, rabbit, squirrel, beaver, raccoon, and opossum is permitted on designated areas of the refuge subject to the following condition: Permits are required.

(7) *Yazoo National Wildlife Refuge.* Hunting of squirrel, rabbit, raccoon, opossum, and furbearers is permitted on designated areas of the refuge subject to the following condition: Permits are required.

* * * * *

(z) *Nevada—(1) Ash Meadows National Wildlife Refuge.* Hunting of quail, and rabbit is permitted on designated areas of the refuge subject to the following condition: Hunting of jackrabbit is permitted only during the regular State season for cottontail rabbit.

* * * * *

(bb) *New York*— * * *

(2) *Montezuma National Wildlife Refuge.*

(i) All hunters must possess and return at day's end, a valid daily hunt permit card.

(ii) A Special Use Permit is required for night hunting of furbearers.

(iii) Hunting is permitted from the close of the refuge deer season through the close of the respective State season.

(iv) Shotguns only are permitted, except that .22 caliber rim fire firearms may be used to take furbearers at night.

* * * * *

(oo) *Wisconsin*— * * *

(2) *Necedah National Wildlife Refuge.* Hunting of wild turkey, ruffed grouse, gray squirrel, fox squirrel, cottontail rabbit, snowshoe hare, and raccoon only is permitted on designated areas of the refuge subject to the following conditions:

(i) During the State waterfowl hunting season, guns must be unloaded or cased in the retrieval zone of Refuge Area 5.

(ii) During the spring turkey hunting season only, persons having an unexpired State Spring Turkey Permit in possession may enter and hunt wild turkeys in Refuge Area 3.

(iii) Refuge Area 3 is open to hunting after the State deer gun season through the end of the respective State seasons or until February 28, whichever occurs first.

* * * * *

4. Section 32.32 is amended by revising paragraphs (h)(5), (i)(5), (l) (2) and (3), (n) (1) and (2), (r)(4) (i) and (ii), (r)(9) (i) and (ii), (t)(2), (y)(2), (y)(3), (y)(4), (y)(5), (y)(6), and (y)(7); adding (ff)(2) (i), (ii) and (iii); removing (gg)(2)(vi); designating (gg)(2)(vii) as (gg)(2)(vi); revising (gg)(5), (nn)(1), (nn)(3), (nn)(4) and (rr)(2); revising (rr)(3) (ii) through (vi); removing (rr)(3)(vii); revising (tt)(3)(i) and adding (tt)(3) (iv) through (vi) as follows:

§ 32.32 Refuge-specific regulations; big game.

* * * * *

(h) *Florida*— * * *

(5) *St. Vincent National Wildlife Refuge.* Hunting of white-tailed and sambar deer, turkey, and feral hogs is permitted on designated areas of the refuge subject to the following condition: Permits are required.

* * * * *

(l) *Georgia*— * * *

(5) *Piedmont National Wildlife Refuge.* Hunting of white-tailed deer and turkey is permitted on designated areas of the refuge subject to the following condition: Permits are required.

* * * * *

(l) *Illinois—Crab Orchard National Wildlife Refuge.* * * *

(2) Hunters using the Closed Area are required to check in at the refuge visitor contact station prior to hunting and must comply with the special rules provided to them.

(3) Deer hunting is not permitted in the controlled goose hunting areas during the permitted waterfowl hunting hours.

* * * * *

(n) *Illinois, Iowa, and Missouri—Mark Twain National Wildlife Refuge.* * * *

(1) Hunting is permitted on the Gardner and Big Timber Division, including Turkey and Otter Island.

(2) Hunting of antlerless deer only is permitted on the Delair Division during a portion of the State season and/or during specially designated dates subject to the following conditions: Permits are required, hunters must be 16 years of age or older, and hunting hours will be 7 a.m. until 3 p.m.

* * * * *

(r) *Louisiana*— * * *

(4) *D'Arbonne National Wildlife Refuge*— * * *

(i) Either-sex deer hunting with firearms is permitted for two consecutive days beginning with the first day of the Union Parish either-sex season and the following Friday and Saturday.

(ii) Two consecutive days of either-sex deer hunting with muzzleloaders and archery will be permitted beginning the first Saturday in December.

* * * * *

(9) *Upper Ouachita National Wildlife Refuge.*— * * *

(i) Either-sex deer hunting with firearms is permitted for two consecutive days beginning with the first day of the Union Parish either-sex season and the following Friday and Saturday.

(ii) Two consecutive days of either-sex deer hunting with muzzleloaders and archery will be permitted beginning the first Saturday in December.

* * * * *

(t) *Maine*— * * *

(2) *Rachel Carson National Wildlife Refuge.* Hunting of deer is permitted on designated areas of the refuge.

* * * * *

(y) *Mississippi*— * * *

(2) *Hillside National Wildlife Refuge.* Hunting of white-tailed deer is permitted on designated areas of the refuge subject to the following condition: Permits are required.

(3) *Mathews Brake National Wildlife Refuge.* Hunting of white-tailed deer is permitted on designated areas of the refuge subject to the following condition: Permits are required.

(4) *Morgan Brake National Wildlife Refuge.* Hunting of white-tailed deer is permitted on designated areas of the refuge subject to the following condition: Permits are required.

(5) *Noxubee National Wildlife Refuge.* Hunting of white-tailed deer and turkey is permitted on designated areas of the refuge subject to the following condition: Permits are required.

(6) *Panther Swamp National Wildlife Refuge.* Hunting of white-tailed deer is permitted on designated areas of the refuge subject to the following condition: Permits are required.

* * * * *

(ff) *New York*— * * *

(2) *Montezuma National Wildlife Refuge.*

(i) All hunters must possess and return at day's end, a valid daily hunt permit card.

(ii) Hunting of deer is permitted on designated portions of the refuge by archery, shotgun, or muzzleloader only during established refuge seasons set within the general State deer season.

(iii) Hunters during the refuge firearms season, must wear in a conspicuous manner on head, chest, and back a minimum of 400 square inches of solid-colored blaze orange clothing or material.

* * * * *

(gg) *North Carolina*— * * *

(2) *Great Dismal Swamp National Wildlife.* * * *

(vi) Hunting and/or possession of loaded firearms on refuge roads and road rights-of-way is prohibited.

* * * * *

(5) *Pungo National Wildlife Refuge.* Hunting of white-tailed deer is permitted on designated areas of the refuge subject to the following condition: Permits are required:

* * * * *

(nn) *Tennessee—(1) Chickasaw National Wildlife Refuge.* Hunting of white-tailed deer and turkey is permitted on designated areas of the refuge subject to the following condition: Permits are required.

* * * * *

(3) *Hatchie National Wildlife Refuge.* Hunting of white-tailed deer and turkey is permitted on designated areas of the refuge subject to the following condition: Permits are required.

(4) *Lower Hatchie National Wildlife Refuge.* Hunting of white-tailed deer and turkey is permitted on designated areas of the refuge subject to the following condition: Permits are required.

* * * * *

(rr) *Virginia*— * * *

(2) *Chincoteague National Wildlife Refuge.* Hunting of sika deer is permitted on designated areas of the refuge subject to the following conditions:

(i) Permits are required.

(ii) Dogs are not permitted.

(iii) During the State firearms season, hunters must wear in a conspicuous manner on head, chest, and back a minimum of 400 square inches of solid-colored hunter orange clothing or material.

(3) Great Dismal Swamp National Wildlife Refuge. * * *

(ii) Only shotguns, 20 gauge or larger, loaded with buckshot and/or rifled slugs, and bows and arrows, are permitted

(iii) Dogs are not permitted.

(iv) Hunters must wear in a conspicuous manner on head, chest, and back a minimum of 400 square inches of solid-colored hunter orange clothing or material.

(v) Hunting and/or possession of loaded firearms on refuge roads including road rights-of-way is prohibited.

(vi) Hunters are required to sign in and sign out.

* * * * *

(tt) *Wisconsin*— * * *

(3) *Necedah National Wildlife Refuge.*

* * *

(i) Hunting with a loaded rifle or shotgun within 50 feet of the centerline of all refuge roads or trails, as shown on the refuge hunting leaflet or discharging these weapons from, across, down, or alongside these roads and trails is prohibited.

* * * * *

(iv) Refuge Areas 1, 2, 4, 5, and 6 are open to deer hunting during the State gun and both early and late archery seasons.

(v) Refuge Area 3 is open to deer hunting during the State gun and late archery season.

(vi) Target or practice shooting is not permitted.

BILLING CODE 4310-55-M

Proposed Rules

Federal Register
Vol. 55, No. 208
Friday, October 26, 1990

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

SMALL BUSINESS ADMINISTRATION

13 CFR Part 122

Business Loans, Interest Rates

AGENCY: Small Business Administration (SBA).

ACTION: Notice of proposed rulemaking.

SUMMARY: The SBA is proposing to amend the regulations so that lenders which make guaranteed loans of $50,000 or less would be permitted to receive a higher interest rate. It is contemplated that if this proposal is promulgated in final it would encourage lenders to make smaller loans to more business concerns.

DATES: Comments must be submitted on or before November 26, 1990.

ADDRESSES: Comments may be mailed to Charles R. Hertzberg, Assistant Administrator for Financial Assistance, Small Business Administration, 1441 L Street NW., Washington, DC 20416.

FOR FURTHER INFORMATION CONTACT: Charles R. Hertzberg, 202/653–6574.

SUPPLEMENTARY INFORMATION: Under present provisions of the Small Business Act (15 U.S.C. 636(a)(19)(B)), an SBA participating lender which makes a loan of $50,000 or less is permitted to retain one half of the guaranty fee (the guaranty fee is equivalent to two percent of such guaranteed portion). This, if the guaranteed portion is $40,000, the guaranty fee is $800, and the lender is permitted to keep $400 and remit to the SBA the remaining $400. If the guaranteed amount of the loan is $25,000, the lender is allowed to retain $250, and it would remit $250 to the SBA. Under the legislation, such guaranty fee sharing for smaller loans terminates September 30, 1991.

The cost of processing and servicing loans is relatively constant. There is little processing or servicing cost differential to a lender between a $50,000 loan and a $500,000 loan. There does exist, however, a notable benefit differential to the lender. The lender's interest earnings are greater on a large loan. Congress recognized this fact when it enacted Public Law 100–533 on October 25, 1988 (102 Stat. 2693) which initially authorized the guaranty fee sharing for smaller loans.

In 1989, the year in which such guaranty fee sharing was introduced, 14.7 percent of the SBA guaranteed loans was under $50,000. In the first two quarters of fiscal 1990, 15.3 percent of such loans was less than $50,000. In the third quarter of fiscal 1990, the percentage of guaranteed loans less than $50,000 was 16.8 percent. The incentives appear to be having a positive impact, although not so great as SBA desires. SBA wants lenders to make smaller loans available to more small businesses and it believes that this can be accomplished if the interest rate structure was adjusted in order to give lenders a greater incentive to offer such loans.

SBA has statistical information indicating that many of the loans presently made in amounts up to $50,000 are made at interest rates below the SBA maximum permissible rate. This would indicate the existence of competition among these lenders for loans in such amounts. For this reason, SBA believes it is unlikely that this proposal, if adopted in final form, would increase interest costs to qualifying borrowers at currently participating institutions. The proposal is intended to provide an inducement to those lenders which do not presently make such loans by offsetting all or part of the proportionately higher costs of making smaller loans.

The law requires that the interest rate charged by an SBA participating lender be legal and reasonable. Within these parameters, the Agency has promulgated maximum interest rates which lenders must comply with in making guaranteed loans. Thus, for a variable rate loan with a maturity under seven years, the initial maximum interest rate cannot exceed 2¼ percentage points over a base rate. For a variable rate loan with a maturity of seven years or more, the initial maximum interest rate cannot exceed 2¾ percentage points over a base rate. Allowing lenders to remain one half of the guaranty fee with respect to smaller loans may not be a sufficient incentive for them to make these loans in the numbers that SBA believes to be desirable as a matter of public policy. SBA wants the interest rate maximums as set forth in the regulations and summarized above to be changed to encourage lenders to make more loans of $50,000 and less. However, SBA intends to monitor all loans made in amount, up to $50,000 to determine whether such loans continue to be made at competitive rates and to assure that the maximum permissible rate does not become an automatic floor.

Accordingly, SBA is proposing to amend the regulations so that for variable rate loans between $25,000 and $50,000 the lender would be permitted to add one percentage point to the above-stated maximums. For variable rate loans less than $25,000, a lender would be allowed to add two percentage points to the above maximums. For guaranteed loans carrying a fixed rate of interest, SBA, pursuant to § 122.8–3 of the regulations (13 CFR 122.8–3), will publish from time to time in the Federal Register the maximum rate permitted for smaller loans, adding the same percentage points described above. The use of these higher maximums for smaller loans would not be mandated or required. The marketplace would still determine if a borrower in need of minimal financing would be prepared to pay additional interest. The Agency is proposing these changes to encourage lenders by giving them this option of a greater return for making a smaller loan.

As noted above, the guaranty fee sharing provisions for the smaller loans terminates, by law, on September 30, 1991. SBA plans to analyze the effect of all the incentives prior to program termination and to report to the Congress on the results. Because the program terminates, under present law, in less than a year, SBA is seeking public comment for 30 days in order to give the Agency time to evaluate responses and promulgate a final rule which would be effective for a reasonable period of time before termination.

Section 122.8–4 would be repealed since it relates to a pilot project established in 1984 for one year. Fluctuations of the interest rates for loans made purusant to this pilot are

governed by other provisions in the regulations.

For purposes of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, SBA certifies that this proposed rule, if promulgated in final form, will not have a significant impact on a substantial number of small entities. SBA certifies that this proposed rule does not constitute a major rule for the purposes of Executive Order 12291, since the proposed change is not likely to result in an annual effect on the economy of $100 million or more.

The proposed rule, if promulgated in final form, would not impose additional reporting or recordkeeping requirements which would be subject to the Paperwork Reduction Act, 44 U.S.C. chapter 35.

This proposed rule would not have federalism implications warranting the preparation of a Federal Assessment in accordance with Executive Order 12612.

List of Subjects in 13 CFR Part 122

Loan programs/business, Small businessess.

Pursuant to the authority contained in section 5(b)(6) of the Small Business Act (15 U.S.C. 634(b)(6)), SBA proposes to amend part 122, chapter I, title 13, Code of Federal Regulations, as follows:

PART 122—Business Loans

1. The authority citation for part 122 would continue to read as follows:

Authority: 15 U.S.C. 634(b)(6) and 636(a).

2. Section 122.8–4 would be amended by removing paragraph (h); redesignating paragraph (g) as paragraph (h); and adding a new paragraph (g) to read as follows:

§ 122.8–4 Variable (fluctuating) rate.

* * * * *

(g) *Special rules for small loans approved through September 30, 1991.* For a variable rate loan over $25,000 through $50,000, the maximum interest rate described above may be increased by one percentage point. For a variable rate loan of $25,000 or less, the maximum interest rate described above may be increased by two percentage points.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 90–CE–33–AD]

Airworthiness Directives; Pilatus Britten-Norman (PBN) Limited Model BN–2T Turbine Islander Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This notice proposes to adopt a new Airworthiness Directive (AD), applicable to Pilatus Britten-Norman (PBN) Limited Model BN–2T Turbine Islander airplanes, that would modify the engine ignition system to provide continuous ignition when engine inlet heat is selected. Incidents have been reported of single and dual engine flameouts resulting from undetected ice ingestion. This modification would prevent engine flameout due to ice ingestion.

DATES: Comments must be received on or before December 14, 1990.

ADDRESSES: PBN Service Bulletin (SB) BN–2/SB 193, dated April 11, 1990, applicable to this AD, may be obtained form Pilatus Britten-Norman Limited, Bembridge, Isle of Wight, PO36 5PR, England; telephone (44–983) 872511. This information also may be examined at the Rules Docket at the address below. Send comments on the proposal in triplicate to the FAA, Central Region, Office of the Assistant Chief Counsel, Attention: Rules Docket No. 90–CE–33–AD, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106. Comments may be inspected at this location between 8 a.m. and 4 p.m. Monday through Friday, holidays excepted.

FOR FURTHER INFORMATION CONTACT: Mr. Carl F. Mittag, Aircraft Certification Staff, Europe, Africa, and Middle East Office, FAA c/o American Embassy, B–1000 Brussels, Belgium; telephone (322) 513.38.30 ext. 2710; Facsimile (322) 230.68.99; or Mr. John P. Dow, Sr., Small Airplane Directorate Airplane Certification Service, FAA, 601 E. 12th Street, Kansas City, Missouri 64106; telephone (816) 426–6932; Facsimile (816) 426–2169.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report, summarizing each FAA-public contact concerned with the substance of this proposal, will be filed in the Rules Docket.

Availability of NPRMs

Any person may obtain a copy of this NPRM by submitting a request to the FAA, Central Region, Office of the Assistant Chief Counsel, Attention: Rules Docket No. 90–CE–33–AD, room 1558, 601 E. 12th Street, Kansas City, Missouri 64106.

Discussion

Incidents of ice-induced engine flameout have been reported on PBN Limited Model BN–2T airplanes because of ice ingestion after the selection of engine inlet heat. Ice formation may occur in the engine inlet and in the compressor when visible moisture exists and the air temperature is less than 5 degrees centigrade. This ice will then be ingested into the engine when the engine inlet heat is turned on as required in the airplane flight manual (AFM) and may result in flameout of the engine and total loss of power. Since loss of power can occur almost simultaneously to both engines, the resulting condition could be serious if the airplane were operating at an altitude that would preclude restarting the engines before contacting the ground.

In addition to the manufacturer's reports, the Civil Aviation Authority of the United Kingdom (CAA–UK), which is the airworthiness authority of the UK, notified the FAA that an unsafe condition may exist on these PBN Limited Model BN–2T airplanes. The CAA–UK advises that ice formation could occur in the engine inlet and in the compressor of these airplanes when visiable moisture exists and the air temperature is less than 5 degrees. This could result in engine flameout and total loss of power. Pilatus Britten-Norman (PBN) Limited issued PBN SB BN–2/SB

193, dated April 11, 1990, which when followed would provide a modification that prevents flameouts from occurring by automatically selecting continuous ignition when engine inlet heat is utilized. The CAA–UK classified this SB as mandatory and issued AD 021–04–90 to require the modification. These airplanes are manufactured in the United Kingdom and are type certificated for operation in the United States.

Under the provisions of a bilateral airworthiness agreement, the FAA relies upon the findings of the CAA–UK, combined with FAA review of pertinent information, in determining that AD action is necessary for products of this type design, certificated for operation in the United States.

Consequently, the FAA is proposing an AD that would require the modification of the engine ignition system on PBN Model BN–2T Turbine Islander airplanes in accordance with PBN SB BN–2/SB 193.

While there are no PBN Model BN–2T Turbine Islander airplanes currently listed on the U.S. registry, they may be imported at any time since they are type certificated in the United States. The cost of modifying the engine ignition system per the proposed AD is estimated to be $240 for labor and approximately $5,695 for parts for a total of $5,935 per airplane. At this time, there would be no cost to U.S. operators. It would be necessary for small business entities to import more than 8 of the affected airplanes to incur a cost of compliance to equal or exceed the significant threshold cost level for small business entities.

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Therefore, I certify that this action (1) is not a "major rule" under the provisions of Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small business entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action has been placed in the public docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption "ADDRESSES".

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new AD:

Pilatus Britten-Norman (PBN) Limited: Docket No. 90–CE–33–AD. Applicability: Model BN–2T (all serial numbers) Turbine Islander airplanes, certificated in any category, that do not have PBN Modification Number NB/M/1429 incorporated.

Compliance: Required within the next 200 hours time-in-service after the effective date of this AD, unless already accomplished.

To prevent the loss of engine power on both engines simultaneously, accomplish the following:

(a) Modify the airplane engine ignition system as described in PBN Service Bulletin BN–2/SB 193, dated April 11, 1990.

(b) Airplanes may be flown in accordance with FAR 21.197 of the FAR to a location where this AD may be accomplished.

(c) An alternate method of compliance or adjustment of the compliance time that provides an equivalent level of safety may be approved by the Manager, Brussels Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Office, c/o American Embassy, B–1000 Brussels, Belgium.

Note: The request should be forwarded through an FAA Maintenance Inspector, who may add comments and then send it to the Manager, Brussels Aircraft Certification Staff. All persons affected by this directive may obtain copies of the document referred to herein upon request to Pilatus Britten-Norman Limited, Bembridge Airport, Isle of Wight, PO36 5PR, England; telephone (44–983) 872511; or may examine this document at the FAA, Central Region, Office of the Assistant Chief Counsel, room 1558, 601 E. 12th Street, Kansas City, Missouri 64106.

Issued in Kansas City, Missouri, on October 12, 1990.

Barry D. Clements,

Manager, Small Airplane Directorate, Aircraft Certification Service.

14 CFR Part 39

[Docket No. 90–CE–32–AD]

Airworthiness Directives; Pilatus Britten-Norman (PBN) Limited Model BN–2T Turbine Islander Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This notice proposes to adopt a new airworthiness Directive (AD), applicable to certain Pilatus Britten-Norman (PBN) Limited Model BN–2T Turbine Islander airplanes, that would require modification of the starter/generator electrical circuit. Service experience has shown that it is possible to have an undetected circuit breaker trip in the starter/generator circuit after an engine shutdown that would prevent a restart. This modification would ensure the ability to restart engines in flight.

DATES: Comments must be received on or before December 14, 1990.

ADDRESSES: PBN Service Bulletin (SB) BN2/SB 194, dated April 11, 1990, applicable to this AD, may be obtained from Pilatus Britten-Norman Limited, Bembridge, Isle of Wight, PO36 5PR, England; telephone (44–983) 872511. This information also may be examined at the Rules Docket at the address below. Send comments on the proposal in triplicate to the FAA, Central Region, Office of the Assistant Chief Counsel, Attention: Rules Docket No. 90–CE–32–AD, room 1558, 601 E. 12th Street, Kansas City, Missouri 64106. Comments may be inspected at this location between 8 a.m. and 4 p.m., Monday through Friday, holidays excepted.

FOR FURTHER INFORMATION CONTACT: Mr. Carl F. Mittag, Aircraft Certification Staff, Europe, Africa, and Middle East Office, FAA, c/o American Embassy, B–1000 Brussels, Belgium; telephone (322) 513.38.30 ext. 2710; Facsimile (322) 230.68.99; or Mr. John P. Dow, Sr., Small Airplane Directorate, Airplane Certification Service, FAA, 601 E. 12th Street, Kansas City, Missouri 64106; Telephone (816) 426–6932; Facsimile (816) 426–2169.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as

they may desire. Communications should identify the regulatory docket and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received. .

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report, summarizing each FAA-public contact concerned with the substance of this proposal, will be filed in the Rules Docket.

Availability of NPRMs

Any person may obtain a copy of this NPRM by submitting a request to the FAA, Central Region, Office of the Assistant Chief Counsel, Attention: Rules Docket No. 90–CE–32–AD, room 1558, 601 E. 12th Street, Kansas City, Missouri 64106.

Discussion

The manufacturer has discovered through service experience on PBN Limited Model BN–2T airplanes that if the engines were shut down either in flight or on the ground, and the starter generator switch remains in the on position, then current flowing in the field circuit of the starter/generator could cause a starter/generator circuit breaker (CB) trip and isolate the starter circuit. Since this condition is not covered by appropriate flight manual instructions, the pilot may not be able to identify the condition and thus, would be unable to restart the engine, which could result in a serious accident.

In addition to the manufacture's reports, the civil Aviation Authority of the United Kingdom (CAA–UK), which is the airworthiness authority of the UK, notified the FAA that an unsafe condition may exist on these PBN Limited Model BN–2T airplanes. The CAA–UK advises that these airplanes could have an undetected circuit breaker trip in the starter/restarter generator circuit after an engine shutdown that would prevent a restart. Pilatus Britten-Norman (PBN) Limited has issued PBN SB 194, dated April 11, 1990, which sets forth a modification to the starter/generator circuit that reduces the field circuit current and ensures that excitation voltage is available to the generator contactor. The CAA–UK classified this SB as mandatory and issued AD 022–04–90 to require the modification. These airplanes are manufactured in the United Kingdom and are type certificated for operation in the United States.

Under the provisions of a bilateral airworthiness agreement, the FAA relies upon the findings of the CAA–UK, combined with FAA review of pertinent information, in determining that AD action is necessary for products of this type design, certificated for operation in the United States.

Consequently, the FAA is proposing an AD that would require the modification of the starter/generator circuit on the PBN Model BN–2T Turbine Islander airplanes in accordance with PBN SB BN–2/SB 193, dated April 11, 1990.

While there are no BN–2T Turbine Islander airplanes currently listed on the U.S. registry, they may be imported at any time since they are type certificated in the United States. The cost of modifying the starter/generator circuit per the proposed AD is estimated to be $120 for labor and approximately $278 for parts for a total of $398 per airplane. There would be no cost to U.S. operators at this time, and even if airplanes were imported into the United States there would not be a significant financial impact on any small business entities operating these airplanes.

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Therefore, I certify that this action (1) is not a "major rule" under the provisions of Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small business entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action has been placed in the public docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption "**ADDRESSES**".

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new AD:

Pilatus Britten-Norman (PBN) Limited: Docket No. 90–CE–32–AD.

Applicability: Model BN–2T all serial numbers) Turbine Islander airplanes, certificated in any category, that do not have PBN Modification Number NB/M/1415 incorporated.

Compliance: Required within the next 200 hours time-in-service (TIS) after the effective date of this AD, unless already accomplished.

To ensure the ability to restart the engines in flight, accomplish the following:

(a) Modify the airplance electrical system as described in PBN Service Bulletin BN2/SB 194, dated April 11, 1990.

(b) Airplanes may be flown in accordance with § 21.197 of the FAR to a location where this AD may be accomplished.

(c) An alternate method of compliance or adjustment of the compliance time that provides an equivalent level of safety may be approved by the Manager, Brussels Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Office, c/o American Embassy, B–1000 Brussels, Belgium.

Note: The request should be forwarded through an FAA Maintenance Inspector, who may add comments and then send it to the Manager, Brussels Aircraft Certification Staff. All persons affected by this directive may obtain copies of the document referred to herein upon request to Pilatus Britten-Norman Limited, Bembridge Airport, Isle of Wight, PO36 5PR, England; telephone (44–983) 872511; or may examine this document at the FAA, Central Region, Office of the Assistant Chief Counsel, room 1558, 601 E. 12th Street, Kansas City, Missouri 64106.

Issued in Kansas City, Missouri, on October 12, 1990.

Barry D. Clements,

Manager, Small Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910–13–M

14 CFR Part 71

[Airspace Docket No. 90-ACE-16]

Proposed Designation of Transition Area—Washington, KS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This notice propose to designate a 700-foot transition area at Washington, Kansas, to provide controlled airspace for aircraft executing a new instrument approach procedure to the Washington County Memorial Airport, Washington, Kansas, utilizing the Morrison NDB as a navigational aid. This proposed action would change the airport status from visual flight rules (VFR) to instrument flight rules IFR.

DATES: Comments must be received on or before November 30, 1990.

ADDRESSES: Send comments on the proposal to: Federal Aviation Administration, Manager, System Management Branch, Air Traffic Division, ACE-530, 601 East 12th Street, Kansas City, Missouri 64106, telephone (816) 426-3408.

The official docket may be examined at the Office of the Assistant Chief Counsel, Central Region, Federal Aviation Administration, room 1558, 601 East 12th Street, Kansas City, Missouri.

An informal docket may be examined at the Office of the Manager, System Management Branch, Air Traffic Division.

FOR FURTHER INFORMATION CONTACT: Lewis G. Earp, Airspace Specialist, System Management Branch, Air Traffic Division, ACE-530, FAA, Central Region, 601 East 12th Street, Kansas City, Missouri 64106, telephone (816) 426-3408.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number, and be submitted in duplicate to the System Management Branch, Air Traffic Division, Federal Aviation Administration, 601 East 12th Street, Kansas City, Missouri 64106. All communications received on or before the closing date for comments will be considered before action is taken on the proposed amendment. The proposal contained in this Notice may be changed in light of the comments received. All comments received will be available both before and after the closing date for comments in the Rules Docket for examination by interested persons.

Availability of NPRM

Any person may obain a copy of this NPRM by submitting a request to the Federal Aviation Administration, System Management Branch, 601 East 12th Street, Kansas City, Missouri 64106, or by calling (816) 426-3408.

Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for further NPRMS should also request a copy of Advisory Circular No. 11-2A which describes the application procedure.

The Proposal

The FAA is considering an amendment to subpart G, §71.181, of the Federal Aviation Regulations (14 CFR part 71) to designate a 700-foot transition area at Washington, Kansas. To enhance airport usage, a new instrument approach procedure is being developed for the Washington County Memorial Airport, Washington, Kansas, utilizing the Morrison NDB as a navigational aid. This navigational aid would provide new navigational guidance for aircraft utilizing the airport. The establishment of a new instrument approach procedure based on this navigational aid entails designation of a transition area at Washington, Kansas, at and above 700 feet above ground level within which aircraft are provided air traffic control service. Transition areas are designed to contain IFR operations in controlled airspace during portions of the terminal operations and while transiting between the terminal and en route environment. The intended effect of this action is to ensure segregation of aircraft using the approach procedure under instrument flight rules (IFR) from other aircraft operating under visual flight rules (VFR). This action would change the airport status from VFR to IFR. Section 71.181 of part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6F dated January 2, 1990.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule will not have a significant economic impact on a substantial number of small entities under this criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, transition areas.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§71.181 [Revised]

2. Section 71.181 is amended as follows:

Washington, Kansas

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of the Washington County Memorial Airport (lat. 39°44'10" N., long. 97°02'31" W.); within 5.25 miles each side of the Morrison NDB (lat. 39°45'42" N., long. 97°02'31" W.) 021° bearing extending from the 6.5-mile radius area to 13.5 miles north of the NDB.

Issued in Kansas City, Missouri on October 4, 1990.

Clarence E. Newbern,

Manager, Air Traffic Division, Central Region.

BILLING CODE 4910-13-M

---

14 CFR Part 71

[Airspace Docket No. 90-AGL-17]

Proposed Transition Area Establishment; Two Harbors, MN

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to establish the Two Harbors, MN, transition area to accommodate a new NDB Runway 24 Standard Instrument

Approach Procedure (SIAP) to Two Harbors Municipal Airport, Two Harbors, MN. The intended effect of this action is to ensure segregation of the aircraft using approach procedures under instrument flight rules from other aircraft operating under visual flight rules in controlled airspace.

DATES: Comments must be received on or before December 4, 1990.

ADDRESSES: Send comments on the proposal in triplicate to:

Federal Aviation Administration, Office of the Assistant Chief Counsel, AGL-7, Attn: Rules Docket No. 90-AGL-17, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

The official docket may be examined in the Office of the Assistant Chief Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois.

An informal docket may also be examined during normal business hours at the Air Traffic Division, System Management Branch, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois.

FOR FURTHER INFORMATION CONTACT: Douglas F. Powers, Air Traffic Division, System Management Branch, AGL-530, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (312) 694-7568.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 90-AGL-17". The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the Rules Docket, FAA, Great Lakes Region, Office of the Assistant Chief Counsel, 2300 East Devon Avenue, Des Plaines, Illinois, both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (202) 426-8058. Communications must identify the notice number of this NPRM. Persons interested in being place on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2A, which describes the application procedure.

The Proposal

The FAA is considering an amendment to 71.181 of part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish a transition area airspace near Two Harbors, MN. The transition area would be established to accommodate a new NDB Runway 24 SIAP to Two Harbors Municipal Airport.

The development of the procedure requires that the FAA alter the designated airspace to insure that the procedure would be contained within controlled airspace. The minimum descent altitude for this procedure may be established below the floor of the 700-foot controlled airspace.

Aeronautical maps and charts would reflect the defined area which will enable other aircraft to circumnavigate the area in order to comply with applicable visual flight rules requirements. Section 71.181 of part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6F dated January 2, 1990.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation Safety, Transition areas.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) as follows:

PART 71—[AMENDED]

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§ 71.181 [Amended]

2. Section 71.181 is amended as follows:

Two Harbors, MN [New]

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Two Harbors Municipal Airport (lat. 47°03'04" N., long. 91°46'22" W.); and within 3 miles each side of the 73° bearing from Two Harbors Municipal Airport extending from the 5-mile radius to 8.5 miles northeast of the airport.

Issued in Des Plaines, Illinois, on October 15, 1990.

Teddy W. Burcham,

Manager, Air Traffic Division.

[FR Doc. 90-25059 Filed 10-25-90; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 75

[Airspace Docket No. 90-ASO-4]

Proposed Establishment of Jet Route J-238; GA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to establish new jet Route J-238 between Atlanta, GA, and Meridian, MS. This jet route would provide precise navigation in the area and reduce controller workload by eliminating radar vectoring between Atlanta and Meridian.

DATES: Comments must be received on or before December 6, 1990.

ADDRESSES: Send comments on the proposal in triplicate to:

Manager, Air Traffic Division, ASO-500, Docket No. 90-ASO-4, Federal

Aviation Administration, P.O. Box 20636, Atlanta, GA 30320.

The official docket may be examined in the Rules Docket, weekdays, except Federal holidays, between 8:30 a.m. and 5 p.m. The FAA Rules Docket is located in the Office of the Chief Counsel, room 916, 800 Independence Avenue, SW., Washington, DC.

An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT: Lewis W. Still, Airspace and Obstruction Evaluation Branch (ATP-240), Airspace-Rules and Aeronautical Information Division, Air Traffic Rules and Procedures Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8250.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 90-ASO-4." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Inquiry Center, APA-230, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (202) 267-3484. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2A which describes the application procedure.

The Proposal

The FAA is considering an amendment to part 75 of the Federal Aviation Regulations (14 CFR part 75) to establish a new jet route between Atlanta, GA, and Meridian, MS. This new jet route would improve navigation between Atlanta and Meridian, thereby reducing controller workload by eliminating radar vectors and by providing a shorter route for that area. Section 75.100 of part 75 of the Federal Aviation Regulations was republished in Handbook 7400.6F dated January 2, 1990.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 75

Aviation safety, Jet routes.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend part 75 of the Federal Aviation Regulations (14 CFR part 75) as follows:

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

1. The authority citation for part 75 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§ 75.100 [Amended]

2. Section 75.100 is amended as follows:

J-239 [New]

From Atlanta, GA, INT Atlanta 260°T(260°M) and Meridian, MS, 061°T(056°M) radials; to Meridian.

Issued in Washington, DC, on October 17, 1990.

Harold W. Becker,

Manager, Airspace-Rules and Aeronautical Information Division.

[GSAR Notice No. 6–309]

General Services Administration Acquisition Regulation; Use of the Metric System in GSA Procurements

AGENCY: Office of Acquisition Policy, GSA.

ACTION: Proposed rule.

SUMMARY: This notice invites written comments on a proposed change to the General Services Administration Acquisition Regulation (GSAR) that would provide guidance to GSA contracting activities concerning the use of the metric system of measurement in acquisition planning and in preparing solicitations to meet the requirements of section 5164 of the Omnibus Trade and Competitiveness Act of 1988, GSA Order ADM 8000.1A and the GSA Metric Transition Plan (55 FR 12904). The proposed change is also intended to encourage industries to make the conversion to the International System of Units (SI) and to invite them to make Federal agencies aware of their ability to supply conforming supplies and services in metric units.

DATES: Comments or suggestions may be submitted in writing on or before November 26, 1990.

ADDRESSES: Comments should be addressed to Marjorie Ashby, Office of GSA Acquisition Policy (VP), 18th and F Streets, NW., Washington, DC 20405.

FOR FURTHER INFORMATION CONTACT: Paul L. Linfield, Office of GSA Acquisition Policy (202) 501–1224.

SUPPLEMENTARY INFORMATION:

A. Background

Section 5164 of the Omnibus Trade and Competitiveness Act of 1988 designates the metric system of measurement as the preferred system of weights and measures for U.S. trade and commerce and mandates certain requirements on Federal agencies, which are intended to stimulate this nation's conversion to the International System of Units. GSA, in issuing its GSA order, "GSA Metric Program" (ADM 8000.1A), and its Metric Transition Plan, met certain requirements of the statute. For a summary of the background and purpose of the statute and GSA's order and plan, the reader is directed to 55 FR 12904. Since the suggested language in this proposed rule has applicability for other Federal agencies, a revision to the Federal Acquisition Regulation has been proposed. Pending adoption of that change, guidance for GSA contracting activities is necessary.

B. Executive Order 12291

The Director, Office of Management and Budget (OMB), by memorandum dated December 14, 1984, exempted certain agency procurement regulations from Executive Order 12291. The exemption applies to this proposed rule.

C. Regulatory Flexibility Act

Pursuant to the Regulatory Flexibility Act (5 U.S.C. 601 et seq.), GSA certifies that this proposed rule will not have a significant impact on a substantial number of small entities because it is intended to provide internal guidance to GSA contracting activities to satisfy a current requirement that Federal agencies review, prepare and revise Federal documents and specifications to eliminate barriers to the use of the metric system in Federal procurements. Use of the metric system of measurement for Federal agency procurements is mandated by September 30, 1992, to the extent economically feasible, by section 5164 of the Omnibus Trade and Competitiveness Act of 1988, which amended the Metric Conversion Act of 1975. Consequently, no regulatory flexibility analysis has been prepared though comments from small entities are hereby solicited and will be considered in accordance with section 610 of the Regulatory Flexibility Act.

D. Paperwork Reduction Act

The proposed rule does not contain information collection requirements that require the approval of OMB under 44 U.S.C. 3501 et seq.

List of Subjects in 48 CFR Parts 507 and 510

Government procurement.

1. The authority citation for 48 CFR parts 507 and 510 continues to read as follows:

Authority: 40 U.S.C. 486(c).

PART 507—[AMENDED]

2. Section 507.103 is added to read as follows:

507.103 Agency head responsibilities.

The head of the contracting activity (HCA) shall ensure that, during the acquisition planning phase, requirements personnel consider the use of the metric system of measurement consistent with 15 U.S.C. 205 et seq. (see 510.002), GSA Order ADM 8000.1A, and GSA Metric Transition Plan. Use of the metric system must be coordinated with the contracting officer and be consistent with security, operational, economic, technical, logistical, training, and safety requirements.

PART 510—[AMENDED]

3. Section 510.001 is amended to add alphabetically a definition of "metric system" to read as follows:

510.001 Definitions.

Metric system means the International System of Units established by the General Conference of Weights and Measures in 1960. The units are listed in Federal Standard

3781, Preferred Metric Units for General Use by the Federal Government.

* * * * *

4. Section 510.002 is added to read as follows:

510.002 Policy.

(a) The Metric Conversion Act of 1975, as amended by section 5164 of the Omnibus Trade and Competitiveness Act of 1988 (15 U.S.C. 205 et seq.), (1) designates the metric system of measurement as the preferred system of weights and measures for U.S. trade and commerce and (2) requires by September 30, 1992, each Federal agency, to the extent economically feasible, to use the metric system of measurements in its procurements, grants, and other business related activities. The GSA Metric Transition Plan, dated March 27, 1990, describes GSA's comprehensive and integrated programs to comply with section 5164 and GSA Order ADM 8000.1A.

(b) Consistent with the policy expressed in GSA Order ADM 8000.1A, solicitations shall include specifications and purchase descriptions stated in metric units of measurement whenever metric is the accepted industry system. Whenever possible, commercially developed metric specifications and internationally developed voluntary standards using metric measurements must be adopted. While an industry is in transition to metric, solicitations should include specifications and purchase descriptions stated in soft metric, hybrid, or dual systems, when practical. To further the cultural change, solicitations should encourage offers of metric products.

Dated: October 22, 1990.

Richard H. Hopf, III,

Associate Administrator for Acquisition Policy.

BILLING CODE 6820-61-M

DEPARTMENT OF DEFENSE

Department of the Navy

48 CFR Parts 5243 and 5252

Navy Acquisition Procedures Supplement; Adjustments to Prices Under Shipbuilding Contracts

AGENCY: Department of the Navy, DOD.

ACTION: Proposed rule; extension of date for receipt of post hearing comments, and notice that records will be available for public review.

SUMMARY: The Department of the Navy promulgated proposed regulations on part 5243, subpart 5243.70 of Navy Acquisition Procedures Supplement (NAPS) to restrict contract price adjustments under shipbuilding contracts, thus implementing by regulation the requirements of 10 U.S.C. 2405. The Department also promulgated proposed amendments to part 5252 to add the text of a solicitation provision and a contract clause. The proposed regulation was published on June 29, 1990 at 54 FR 26708. That proposed regulation amended earlier proposed rules and, among other things, established August 23, 1990 as the date for a public hearing and September 6, 1990 as the date for receipt of post hearing comments. By notice of August 10, 1990 at 54 FR 33541, the date of the public hearing was changed to September 24, 1990 and the date for receipt of post hearing comments was changed to October 5, 1990. These dates are being amended as set forth below along with a notice of the availability of a public record.

DATES: A public hearing on the proposed rule will be held on November 9, 1990, commencing 9 a.m. Post hearing comments may be submitted until 5 p.m., e.s.t. December 7, 1990.

ADDRESSES: *Public record:* A record of this matter will be available for public review. This record will include the Federal register notices, public comments, questions, a transcript of the public hearing, and post hearing comments. Interested parties desiring to review this record should make arrangements with: Mr. Richard Moye, Office of the Assistant Secretary of the Navy (Research, Development and Acquisition), APIA–PP, Washington, DC 20350–1000. Mr Moye may be reached at (703) 602–2607.

Attendance: All interested persons desiring to attend the hearing should advise the above-named person of the name of the interested party, the number of expected attendees, and the telephone number for a designated point of contact. This will permit attendees to be contacted should there be a need to further changes the date, time or place set for the hearing.

FOR FURTHER INFORMATION CONTACT: Mr. Richard Moye, (703) 602–2607.

Dated: October 12, 1990

Wayne T. Baucino,

LT. JAGC, USNR, Alternative Federal Register Liaison Office.

Friday, October 26, 1990

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forest Service

Breckenridge Ski Area Expansion Environmental Impact Statement; Arapaho National Forest, Summit County, CO

AGENCY: Forest Service, USDA.

ACTION: Notice; intent to prepare an Environmental Impact Statement.

SUMMARY: The Department of Agriculture, Forest Service will prepare an environmental impact statement on a proposal from Breckenridge Ski Corporation to expand their existing permit boundary by 2,635 acres and to increase their existing skiers capacity by 7,000 skiers at one time (SAOT).

DATES: Comments concerning the scope of the analysis should be received in writing by January 1, 1991.

ADDRESSES: Send written comments to Jeff Bailey, District Ranger, Dillon Ranger District, 135 Highway 9, Blue River Center, P.O. Box 620, Silverthorne, Colorado 80498.

FOR FURTHER INFORMATION CONTACT: Stu Saucke, Dillon Ranger District, 135 Highway 9, Blue River Center, P.O. Box 620, Silverthorne, Colorado 80498, Phone: (303) 468–5400.

SUPPLEMENTARY INFORMATION: The Dillon Ranger District, where Breckenridge Ski Area is located, is on the Arapaho National Forest but is administered by the White River National Forest. The proponent Breckenridge Ski Corporation proposes to expand their existing permit boundary by 2,635 acres and to increase their existing capacity by 7,000 SAOT. Breckenridge Ski Corporation proposes to build a funicular (cable railway) at Peak 8 near the Colorado lift which has the capacity to transport 240 passengers at one time. A restaurant at the top of Peak 8 is proposed as well as an additional race area at Peak 8.

The existing permit boundary is within the 1B management area in the *White River Land and Resource Management Plan* (Forest Plan) which provides for existing and potential winter sports sites. A portion of the proposed expansion is outside of the 1B management area and would require an amendment to the Forest Plan.

The Forest Service joint review process will be initiated. Known interested publics will be notified in writing. The Forest Service will also make efforts to contract the general public through newsreleases, public meetings, etc.

Preliminary issues identified thus far are: Impacts to tundra environment, wildlife, travel routes of big game, wetlands, threatened and endangered plant species (if any), visual quality, changing of Forest Plan prescriptions, compatibility of a four-season resort with tundra environment, location of restaurant site, sufficient parking, cross country skiing versus downhill skiing across the Wheeler Tenmile National Recreation Trail, and cumulative impacts.

Preliminary alternatives identified thus far are: (1) No Action in which Breckenridge Ski Corporation's special use permit would not be amended to include any expansion outside of their current boundary, (2) Allow Breckenridge Ski Corporation to expand as proposed in their master development plan, and (3) Allow Breckenridge Ski Corporation to expand as modified by the environmental analysis.

The lead agency is the Forest Service, USDA. Comments may be sent in writing to Jeff Bailey, District Ranger, 135 Highway 9, Blue River Center, P.O. Box 620, Silverthorne, Colorado 80498.

The draft environmental impact statement is expected to be published for public review in August, 1991. The final environmental impact statement is expected to be published in May, 1992.

The Forest Service will seek comments on the draft environmental impact statement for a period of 45 days after publication of the draft environmental impact statement. The Forest Service will summarize and respond to the comments in the final environmental impact statement.

The responsible official is Thomas A. Hoots, Forest Supervisor, White River National Forest, 900 Grand Ave., P.O. Box 948, Glenwood Springs, Colorado 81602.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specified as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merit of the alternatives formulated and discussed in the statement. (Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.).

The Forest Service believes it is important to give reviewers notice at this early stage of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp.* v. *NRDC, 435 U.S. 519, 553 (1978).* Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *Wisconsin Heritages, Inc.* v. *Harris,* 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

Dated: October 16, 1990.

Thomas A. Hoots,

Forest Supervisor.

BILLING CODE 3410-01-M

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket No. 49-90]

Proposed Foreign-Trade Zone—Miami, FL

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Wynwood Community Economic Development Corporation (WCEDC), a Florida non-profit corporation, requesting authority to establish a general-purpose foreign-trade zone in the City of Miami, Florida, within the Miami Customs port of entry. The application was submitted pursuant to the provisions of the Foreign-Trade Zone Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR part 400). It was formally filed on October 17, 1990. The applicant is authorized to make the proposal under § 288.28 of the 1990 Florida Statutes.

The proposed WCEDC project would be the third general-purpose zone project in the Miami Customs port of entry area. FTZ 32, located in Dade County four miles west of the Miami International Airport, was approved in 1977 (FTZ Board Order 123, 42 FR 46328, 9/16/77); and, FTZ 100 in Homestead, Florida, was approved in August 1988 (FTZ Board Order 402, 55 FR 34691, 8/23/90).

The WCEDC foreign-trade zone project involves a proposed site (13 acres) on Northwest Second Avenue at 22nd Street in the Wynwood Community of Miami, within a mile of the Port of Miami. The City of Miami recently agreed to donate the site to WCEDC for development as a foreign-trade zone. The site is also within a state-designated enterprise zone area.

The applicant contends that the additional zone is needed to provide zone services to the Wynwood area of the Miami port of entry as part of the economic development efforts underway in that community. Several firms have expressed an interest in using zone procedures for warehouse/distribution of products including apparel, rubber and plastics, electrical instruments and machinery. Specific manufacturing approvals are not being sought at this time. Such requests would be made to the Board on a case-by-case basis.

In accordance with the Board's regulations, an examiners committee has been appointed to investigate the application and report to the Board. The committee consists of: Dennis Puccinelli (Chairman), Foreign-Trade Zones Staff, U.S. Department of Commerce, Washington, DC 20230; Howard Cooperman, Deputy Assistant Regional Commissioner, U.S. Customs Service, Southeast Region, 909 SE First Avenue, Miami, Florida 33131–2595; and, Colonel Bruce A. Malson, District Engineer, U.S. Army Engineer District Jacksonville, P.O. Box 4970, Jacksonville, Florida 32232-0019.

Comments concerning the proposed zone are invited in writing from interested parties. They shall be addressed to the Board's Executive Secretary at the address below and postmarked on or before December 14, 1990.

A copy of the application and accompanying exhibits will be available during this time for public inspection at each of the following locations:

U.S. Department of Commerce District Office, Federal Building, Suite 224, 51 SW., First Avenue, Miami, Florida 33130

Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, 14th and Pennsylvania Avenue, NW., room 4213, Washington, DC 20230.

Dated: October 22, 1990.

John J. Da Ponte, Jr.,
Executive Secretary.

International Trade Administration

[A-122-047]

Elemental Sulphur From Canada; Final Results of Antidumping Duty; Administrative Review and Revocation in Part

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of final results of antidumping duty administrative review and revocation in part.

SUMMARY: On July 13, 1990, the Department of Commerce published the preliminary results of its antidumping duty administrative review and intent to revoke in part the antidumping finding on elemental sulphur in Canada. The review covers seven producers and/or exporters and generally the period December 1, 1987 through November 30, 1988.

We gave interested parties an opportunity to comment on our preliminary results and intent to revoke in part. Based on our analysis of the comment received, our final results are unchanged from the preliminary results, and we revoke the antidumping finding in part with respect to four companies.

EFFECTIVE DATE: October 26, 1990.

FOR FURTHER INFORMATION CONTACT: Joseph A. Fargo or Laurie A. Lucksinger, Office of Antidumping Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377–5252.

SUPPLEMENTARY INFORMATION:

Background

On July 13, 1990, the Department of Commerce (the Department) published in the Federal Register (55 FR 28795) the preliminary results of antidumping duty administrative review and intent to revoke in part the antidumping finding on elemental sulphur from Canada (December 17, 1973, 38 FR 34955). We have now completed the administrative review in accordance with section 751 of the Tariff Act of 1930 (the Tariff Act).

Scope of the Review

Imports covered by the review are shipments of elemental sulphur from Canada. During the period such merchandise was classifiable under item 415.4500 of the Tariff Schedules of the United States Annotated (TSUSA). This merchandise is currently classifiable under Harmonized Tariff System (HTS) item 2503.10.00. The TSUSA and HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

The review covers seven producers and/or exporters and the period December 1, 1987 through November 30, 1988.

Analysis of Comments

We gave interested parties an opportunity to comment on our notice of preliminary results. We received one comment from a respondent, InterRedec Sulphur Corporation.

Comment: InterRedec contends that the Department should issue a notice of intent to revoke in part the antidumping finding with respect to InterRedec. In support of its request, InterRedec notes that it has requested revocation from the finding three times. The Department's final results of review for the December 1, 1981 through November 30, 1982 period indicated that InterRedec was not making sales at less than fair value (50 FR 37888, September 16, 1985). The Department has also published its final results of review for the December 1, 1982 through November 30, 1983 period, indicating no sales at less than fair value by InterRedec (55 FR 28794, July 13, 1990). Even though InterRedec has demonstrated no sales at less than fair value for five review periods, the Department has yet to act on InterRedec's requests for revocation. Because it has met the requirements of

the Department's regulations (19 CFR 353.25(a)), InterRedec maintains that the Department should issue a notice of intent to revoke in part the antidumping finding on elemental sulphur from Canada.

Department's Position: We will consider InterRedec's request for revocation in the administrative review of the period December 1, 1988 through November 30, 1989, which we initiated on February 16, 1990 (55 FR 5846).

Final Results of Review

Based of our analysis of the comment received, our final results of review are unchanged from those presented in the notice of preliminary results of review, and we determine that the following margins exist:

Producer/ Exporter	Period of review	Margin (Percent)
BP Resources Canada	12/01/87-9/2/89	0
Cornwall Chemicals	12/01/87-3/2/89	[1] 3.84
Home Oil	12/01/87-3/2/89	0
InterRedec	12/01/87-11/30/89	0
Petro-Canada	12/01/87-11/30/89	0
Sulco Chemicals	12/01/87-11/30/89	0
Suncor	12/01/87-3/2/89	[1] 0

[1] No shipments during the period; margins from last review in which there were shipments.

The Department will instruct the Customs Service to assess antidumping duties on all appropriate entries. The Department will issue appraisement instructions directly to the Customs Service.

Furthermore, as provided for by section 751(a)(1) of the Tariff Act, a cash deposit of estimated antidumping duties based on the above margins shall be required for these firms. For any shipments of this merchandise produced or exported by the remaining known producers and/or exporters not covered in this review, the cash deposit will continue to be at the rate published in the final results of the last administrative review for these firms. For any future entries of this merchandise from a new producer and/ or exporter, not covered in this or prior administrative reviews, whose first shipments occurred after November 30, 1989, and who is unrelated to the reviewed firms or any previously reviewed firm, no cash deposit shall be required. These deposit requirements are effective for all shipments of Canadian elemental sulphur entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice and shall remain in effect until publication of the final results of the next administrative review.

Revocation in Part

For the reasons set forth in the preliminary results, and because we are satisfied that there is no likelihood of resumption of sales at less than fair value, we revoke in part the antidumping finding on elemental sulphur from Canada. This partial revocation applies to all unliquidated entries of this merchandise exported by B.P. Resources, Cornwall Chemical, Home Oil, and Suncor for consumption on or after March 2, 1989, the date of our tentative revocation in part with respect to these firms (54 FR 8770). The Department shall instruct the Customs Service to assess antidumping duties on all appropriate entries.

This administrative review, tentative revocation in part, and notice are in accordance with sections 751(a)(1) and (c) of the Tariff Act (19 U.S.C. 1675(a)(1), (c)), 19 CFR 353.54 (1989), and 19 CFR 353.22 (1989).

Dated: October 19, 1990.

Marjorie A. Chorlins,

Acting Assistant Secretary for Import Administration.

[A-588-045]

Steel Wire Rope From Japan; Determination Not To Revoke Antidumping Finding

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of determination not to revoke antidumping finding.

SUMMARY: The Department of Commerce is notifying the public of its determination not to revoke the antidumping finding on steel wire rope from Japan.

EFFECTIVE DATE: October 26, 1990.

FOR FURTHER INFORMATION CONTACT: Sheila Forbes or Robert Marsnick, Office of Antidumping Compliance, International Trade Administration, U.S. Department of Commerce, Washington DC 20230; telephone: (202) 377-5255.

SUPPLEMENTARY INFORMATION: On October 2, 1990, the Department of Commerce (the Department) published in the Federal Register (55 FR 40212) its intent to revoke the antidumping finding on steel wire rope from Japan (38 FR 28571, October 15, 1973). The Department may revoke an order if the Secretary concludes that the order is no longer of interest to interested parties. We had not received a request for an administrative review of the finding for the last four consecutive annual anniversary months and therefore published a notice of intent to revoke pursuant to 19 CFR 353.25(d)(4) (1989).

On October 10, 1990, the Committee of Domestic Steel Wire Rope and Specialty Cable Manufacturers objected to our intent to revoke the finding. Therefore, we no longer intend to revoke the finding.

Dated: October 18, 1990.

Joseph A. Spetrini,

Deputy Assistant Secretary for Compliance.

Initiation of Antidumping and Countervailing Duty Administrative Reviews

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of initiation of antidumping and countervailing duty administrative reviews.

SUMMARY: The Department of Commerce has received requests to conduct administrative reviews of various antidumping and countervailing duty orders, findings, and suspension agreements. In accordance with the Commerce Regulations, we are initiating those administrative reviews.

EFFECTIVE DATE: October 26, 1990.

SUPPLEMENTARY INFORMATION:

Background

The Department of Commerce ("the Department") has received timely requests, in accordance with § 353.22(a)(1) of the Department's regulations, for administrative reviews of various antidumping and countervailing duty orders, findings, and suspension agreements.

Initiation of Reviews

In accordance with §§ 353.22(c) and 355.22(c) of the Department's regulations, we are initiating administrative reviews of the following antidumping and countervailing duty orders, findings and suspension agreements. We intend to issue the final results of these reviews not later than September 30, 1991.

Postponement of Final Antidumping Duty and Final Countervailing Duty Determinations and Postponement of Public Hearings: Fresh and Chilled Atlantic Salmon from Norway

AGENCY: International Trade Administration, Import Administration, Department of Commerce.

ACTION: Notice.

SUMMARY: This notice informs the public that we have received a request from the counsel for respondents in the antidumping duty investigation to postpone the final determination, as permitted in section 735(a)(2) of the Tariff Act of 1930, as amended (the Act), (19 U.S.C. 1673(a)(2)). Based on this request, we are postponing our final determination as to whether sales of fresh and chilled Atlantic salmon from Norway have occurred at less than fair value until not later than February 15, 1991. In accordance with 705(a)(1) of the Act (19 U.S.C. 1671d(a)(1)), the final determination in the countervailing duty determination will also be postponed until not later than February 15, 1991.

EFFECTIVE DATE: October 26, 1990.

FOR FURTHER INFORMATION CONTACT: Tracey Oakes (AD) (202) 377-3174, Louis Apple (AD) (202) 377-1769, Rick Herring (CVD) (202) 377-3530, or Elizabeth Graham (CVD) (202) 377-4105, Offices of Antidumping and Countervailing Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION: On Ocrober 5, 1990 counsel for respondents in the antidumping duty investigation requested that the Department postpone the final determination until not later than 135 days after the date of publication of the preliminary determination, in accordance with section 735(a)(2) of the Act. Accordingly, we are postponing the date of the final determination until not later than February 8, 1991. On August 7, 1990, we published a notice in the Federal Register (55 FR 32167) aligning the final determination of the countervailing duty determination with the final determination of the antidumping duty determination. This was done at the request of petitioner under section 705(a)(1) of the Act (19 U.S.C. 1671d(a)(1)). Therefore, we are also postponing the date of the final determination of the countervailing duty determination until not later than February 8, 1991.

The case briefs in the antidumping duty investigation are now due on January 14, and rebuttal briefs are due on January 22, 1991. The hearing will be held on January 24, 1991. The public hearing for the countervailing duty investigation which was scheduled for November 7, will now be held on December 17, 1990, at 10 a.m. at the U.S. Department of Commerce, room 1412, 14th Street and Constitution Avenue NW., Washington DC. Case briefs in the countervailing duty investigation are now due on December 10, and rebuttal briefs are now due on December 14, 1990.

The U.S. International Trade Commission is being advised of this postponement in accordance with sections 705(d) and 735(d) of the Act. This notice is published pursuant to sections 705(d) and 735(d) of the Act and 19 CFR 355.20(c)(3) and 353.20(b)(2).

Dated: October 19, 1990.

Majorie A. Chorlins,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-M

[C-357-004]

Certain Carbon Steel Wire Rod From Argentina; Determination Not To Terminate Suspended Investigation

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of determination not to terminate suspended investigation.

SUMMARY: The Department of Commerce is notifying the public of its determination not to terminate the suspended countervailing duty investigation on certain carbon steel wire rod from Argentina.

EFFECTIVE DATE: October 26, 1990.

FOR FURTHER INFORMATION CONTACT: Robert Bolling or Barbara Williams, Office of Agreements Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377-3793.

SUPPLEMENTARY INFORMATION:

Background

On August 31, 1990, the Department of Commerce ("the Department") published in the Federal Register (55 FR 35704) its second notice of intent to terminate the suspended countervailing duty investigation on certain carbon steel wire rod from Argentina (September 27, 1982, 47 FR 42363). The first notice of intent to terminate the suspended investigation was published last year, at which time the Department received an objection to termination from the petitioners and interested parties. We did not, however, receive a request for an administrative review at that time.

The Department will terminate a suspended investigation if the Secretary concludes that the agreement is no longer of interest to interested parties. 19 CFR 355.25(d)(4) On September 13, 1990, four petitioners, Atlantic Steel Company, Georgetown Steel Corporation, North Star Steel Texas Incorporated and Raritan Steel Company, objected to the Department's second notice of intent to terminate this suspended investigation. On September 13, 1990, one interested party, Bethlehem Steel Corporation, objected to the Department's intent to terminate this suspended investigation. In addition, on September 28, 1990, the petitioners, requested that the Department conduct an administrative review of the agreement suspending the countervailing duty investigation on certain carbon steel wire rod from Argentina for the period January 1, 1989 through December 31, 1989. Therefore, we no longer intent to terminate the suspended investigation.

This notice is published in accordance with § 355.25(d)(4) of the Commerce Department's regulations. 19 CFR 355.25(d)(4)(1990)

Dated: October 18, 1990.

Joseph A. Spetrini,

Deputy Assistant Secretary for Compliance.

BILLING CODE 3510-DS-M

Export Trade Certificate of Review

ACTION: Application for an amendment to an export trade certificate of review.

SUMMARY: The Office of Export Trading Company Affairs, International Trade Administration, Department of Commerce, has received an application for an amendment to an Export Trade Certificate of Review. This notice summarizes the conduct for which certification is sought and requests comments relevant to whether the Certificate should be amended.

FOR FURTHER INFORMATION CONTACT: George Muller, Director, Office of Export Trading Company Affairs, International Trade Administration, 202/377-5131. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: Title III of the Export Trading Company Act of 1982 (15 U.S.C. 4001-21) authorizes the Secretary of Commerce to issue Export Trade Certificates of Review. A Certificate of Review protects the holder and the members identified in the Certificate from state and federal government antitrust actions and from private, treble damage antitrust actions for the export conduct specified in the Certificate and carried out in compliance with its terms and conditions. Section 302(b)(1) of the Act and 15 CFR 325.6(a) require the Secretary to publish a notice in the Federal Register identifying the applicant and summarizing its proposed export conduct.

Request for Public Comments

Interested parties may submit written comments relevant to the determination whether a Certificate should be amended. An original and five (5) copies should be submitted not later than 20 days after the date of this notice to: Office of Export Trading Company Affairs, International Trade Administration, Department of Commerce, room 1800, Washington, DC 20230. Information submitted by any person is exempt from disclosure under the Freedom of Information Act (5 U.S.C. 552). Comments should refer to this application as "Export Trade Certificate of Review, application number 87-3A009."

OETCA has received the following application for an amendment to Export Trade Certificate of Review No. 87-00009, issued on August 27, 1987 (52 FR 22368, June 11, 1987).

Summary of the Application

Applicant: California Cherry Export Association, 48 E. Oak Street, Lodi, California 95240.

Contact: James C. Christie, General Manager, telephone: (209) 369-6965.

Application No.: 87-3A009.

Date Deemed Submitted: October 15, 1990.

The California Cherry Export Association (CCEA) seeks to amend its Certificate by (1) adding the following companies as "Members" of the Certificate: All State Packers, Inc., Lodi, CA; Felix Costa & Sons, Lodi, CA; and Hillsdale Packing Company, Lodi, CA; (2) expanding the covered export markets to include all parts of the world except the U.S.; and (3) revising the list of directors of CCEA to include the General Manager and representatives of the newly proposed Members.

Dated: October 22, 1990.

George Muller,

Director, Office of Export Trading Company Affairs.

BILLING CODE 3510-DR-M

National Oceanic and Atmospheric Administration

North Pacific Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

The North Pacific Fishery Management Council's Ad Hoc Bycatch Committee (AHBC) and Data Gathering Committee will hold separate public meetings, at the National Marine Fisheries Service (NMFS) Alaska Fisheries Science Center, 7600 Sand Point Way, NE., Building 4, room 2079, Seattle, WA, as indicated below.

On October 30, 1990, at 9 a.m., the AHBC will: (1) Review a vessel incentive program to reduce prohibited species bycatch rates in the groundfish fisheries and, if time permits, (2) review the AHBC's "comprehensive" proposal for bycatch management.

Development of a vessel incentive program to reduce bycatch rates in the groundfish fisheries has become a critical issue as the Council anticipates disapproval by the Secretary of Commerce of the incentive program adopted as a portion of the Amendment 16/21 package to the Groundfish Fishery Management Plans for the Bering Sea/Aleutian Islands and the Gulf of Alaska, respectively. If this element of the package is disapproved, the Council will need to act expeditiously to prepare a substitute incentive program which can be implemented early in 1991. For more information contact Hal Weeks at the North Pacific Fishery Management Council, P.O. Box 103136, Anchorage, AK 99510; telephone: (907) 271-2809.

On November 26, 1990, the Council's Data Gathering Committee will meet at 9 a.m., to receive reports on the 1990 data gathering program and proposed changes to the 1991 program. The Committee also will receive a status report on a proposed user-fee system, review system options, and develop a

work schedule. For more information contact Steve Davis, Deputy Director, North Pacific Fishery Management Council, at the Council Office, address, above.

Dated: October 22, 1990.

David S. Crestin,

Deputy Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Notice of Sea Grant Review Panel Meeting

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of open meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the Sea Grant Review Panel. The meeting will have several purposes. Panel members will provide and discuss follow-up reports of business transacted at the last Sea Grant Review Panel Meeting in the areas of artificial intelligence, scientific misconduct, developing new business initiatives with the Sea Grant Program for enhancement of Department of Commerce goals, and new business. A nomination and election will be held for Chair Elect

DATES: The announced meeting is scheduled during two days: Tuesday, November 13, 1990, 4:30–6:30 p.m. and Wednesday, November 14, 1990, 8–10 a.m.

ADDRESSES: The Westin Crown Center, One Pershing Road, The Westport room, Kansas City, Missouri 64108.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Shephard, National Sea Grant College Program, National Oceanic and Atmospheric Administration, 1335 East-West Highway, #5104, Silver Spring, Maryland 20910, (301) 427–2431.

SUPPLEMENTARY INFORMATION: The Panel, which consists of balanced representation from academia, industry, state government, and citizens groups, was established in 1976 by section 209 of the Sea Grant Improvement Act (Pub. L. 94–461, 33 U.S.C. 1128) and advises the Secretary of Commerce, Under Secretary, NOAA, and the Director of the National Sea Grant College Program with respect to operations under the act, and such other matters as the Secretary refers to the Panel for review and advice. The agenda for the meeting is:

Tuesday, November 13, 1990—4:30–6:30 p.m.

Committee Reports, USDA National Extension Committee, New Technology, Coastal Business Initiatives, Scientific Law and Policy, Use of State Advisory Committees, Panel Member Status, New Funding Procedures, Planning Task Forces, Site Visits, Communication Update, Panel Chair Elect (Nomination and Election).

Wednesday, November 14, 1990—8–10 a.m.

Good of the Panel, New Business.

The meeting will be open to the public.

Dated: October 22, 1990.

Alan R. Thomas,

Acting Assistant Administrator, Oceanic and Atmospheric Research.

South Atlantic Fishery Management Council; Meeting Notice Addendum: Closed Meetings

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

The meeting notice, previously published at 55 FR 41122 on October 9, 1990, has been amended to include notice of closed meetings for the South Atlantic Fishery Management Council (Council), and the Council's Committees at the Shell Island Resort Hotel, 2700 Lumina Boulevard, Wrightsville Beach, NC, as stated below. All other information as originally published remains unchanged.

The Council's Advisory Panel Selection and Personnel Committees both will hold separate closed meetings (not open to the public) on November 1, 1990. The Advisory Panel Selection Committee will begin meeting at 6:30 a.m. and will adjourn at 9:30 a.m. The Personnel Committee will begin meeting at 1:30 p.m. and will adjourn at 2:15 p.m.

The Committees' reports will be presented on November 2 to the Council, during a closed meeting.

For more information contact Carrie Knight, Public Information Officer, South Atlantic Fishery Management Council, One Southpark Circle, suite 306, Charleston, SC 29407, telephone: (803) 571–4366.

Dated: October 19, 1990.

David S. Crestin,

Deputy Director, Officer of Fisheries Conservation and Management, National Marine Fisheries Service.

BILLING CODE 3510-22-M

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

Procurement List 1990; Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Addition to procurement list.

SUMMARY: This action adds to Procurement List 1990 a commodity to be produced by workshops for the blind or other severely handicapped.

EFFECTIVE DATE: November 26, 1990.

ADDRESSES: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202–3509.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 557–1145.

SUPPLEMENTARY INFORMATION: On September 7, 1990, the Committee for Purchase from the Blind and Other Severely Handicapped published notice (55 FR 36847) of proposed addition to Procurement List 1990, which was published on November 3, 1989 (54 FR 46540). After consideration of the material presented to it concerning the capability of a qualified workshop to produce this commodity at a fair market price, the impact of the addition on the current or most recent contractor, the Committee has determined that the commodity listed below is suitable for procurement by the Federal Government under 41 U.S.C. 46–48c and 41 CFR 52–2.6.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

a. The action will not result in any additional reporting, recordkeeping or other compliance requirements.
b. The action will not have a serious economic impact on any contractors for the commodity listed.
c. The action will result in authorizing small entities to produce the commodity procured by the Government.

Accordingly, the following commodity is hereby added to Procurement List 1990:

Belt, High Visibility,
8465–01–163–8835.

This action does not affect contracts awarded prior to the effective date of

this addition or options exercised under those contracts.

H.G. Fischer,

Associate Director for Facility Operations.

BILLING CODE 6820-33-M

Procurement List 1990; Proposed Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed additions to procurement list.

SUMMARY: The Committee has received proposals to add to Procurement List 1990 commodities to be produced by workshops for the blind or other severely handicapped.

COMMENTS MUST BE RECEIVED ON OR BEFORE: November 26, 1990.

ADDRESSES: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202-3509.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 557-1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2) and 41 CFR 51-2.6. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed actions.

If the Committee approves the proposed additions, all entities of the Federal Government will be required to procure the commodities listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following commodities to Procurement List 1990, which was published on November 3, 1989 (54 FR 46540):

Rod, Straight, Headless
5340-01-102-4539
Correction Fluid
7510-00-176-8949

H.G. Fischer,

Associate Director for Facility Operations.

DEPARTMENT OF EDUCATION

Proposed Information Collection Requests

AGENCY: Department of Education.

ACTION: Notice of proposed information collection requests.

SUMMARY: The Director, Office of Information Resources Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1980.

DATES: Interested persons are invited to submit comments on or before November 26, 1990.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs Attention: Dan Chenok, Desk Officer, Department of Education, Office of Management and Budget, 726 Jackson Place, NW., room 3208, New Executive Office Building, Washington, DC 20503. Requests for copies of the proposed information collection requests should be addressed to James O'Donnell, Department of Education, 400 Maryland Avenue, SW., room 5624, Regional Office Building 3, Washington, DC 20202.

FOR FURTHER INFORMATION CONTACT: James O'Donnell, (202) 708-5174.

SUPPLEMENTARY INFORMATION: Section 3517 of the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its stautory obligations.

The Acting Director, Office of Information Resources Management, publishes this notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, *e.g.*, new, revision, extension, existing or reinstatement; (2) Title; (3) Frequency of collection; (4) The affected public; (5) Reporting burden; and/or (6) Recordkeeping burden; and (7) Abstract. OMB invites public comment at the address specified above. Copies of the requests are available from James O'Donnell at the address specified above.

Dated: October 22, 1990.

James O'Donnell,

Acting Director, for Office of Information Resources Management.

Office of Planning of Budget, and Evaluation

Type of Review: Reinstatement.
Title: National Asessment of Educational Progress (NEAP) 1991 Field Test: and 1991-92 Assessment Background/Attitude 1991 Field Test: Reading, Mathematics and Writing.
Frequency: One time only.
Affected Public: Individuals or households; State or local governments.
Reporting Burden:
Responses: 23,920.
Burden Hours: 22,556.
Recordkeeping Burden:
Recordkeepers: 0.
Burden Hours: 0.
Abstract: Congress mandated the collection of the National assessment survey data. Development of background questions and exercises, as well as field testing of items for the 1991-92 assessments in reading, mathematics and writing, including the Trial State Assessment Program will occur during the 1990-91 school year. The data will be useful for policymakers in education, research, legislatures, and the public.

BILLING CODE 4000-1-M

DEPARTMENT OF ENERGY

Assistant Secretary for International Affairs and Energy Emergencies

Proposed Subsequent Arrangement

Pursuant to section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160), notice is hereby given of a proposed "subsequent arrangement" under the Additional Agreement for Cooperation between the Government of the United States of America and the European Atomic Energy Community (EURATOM) concerning Peaceful Uses of Atomic Energy, as amended, and the Agreement for Cooperation between the Government of the United States of America and the Government of Switzerland concerning Civil Uses of Atomic Energy, as amended.

The subsequent arrangement to be carried out under the above-mentioned agreements involves approval of the following retransfer: RTD/SD(EU)-03, for the transfer of 4 irradiated fuel rods from the Federal Republic of Germany to Switzerland for storage. The fuel rods contain 5,212 grams of uranium.

enriched to 1.32 percent in the isotope uranium-235, and 50 grams of plutonium.

In accordance with section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

Issued in Washington, DC, on October 22, 1990.

Richard H. Williamson,

Associate Deputy Assistant Secretary for International Affairs.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Docket Nos. ER91-25-000, et al.]

Tampa Electric Co., et al.; Electric Rate, Small Power Production, and Interlocking Directorate Filings

October 18, 1990.

Take notice that the following filings have been made with the Commission:

1. Tampa Electric Co.

[Docket No. ER91-25-000]

Take notice that on October 12, 1990, Tampa Electric Company (Tampa Electric) tendered for filing a Letter of Commitment providing for the sale by Tampa Electric to Seminole Electric Cooperative, Inc. (Seminole) of 150 megawatts of capacity and energy. Tampa Electric states that the Letter of Commitment is submitted as a supplement to Service Schedule J (negotiated interchange service) under the existing agreement for interchange service between Tampa Electric And Seminole, designated as Tampa Electric Rate Schedule FERC No. 22.

Tampa Electric proposes an effective date of October 13, 1990 for the commitment of capacity and energy, and therefore requests waiver of the Commission's notice requirements.

Copies of the filing have been served on Seminole and the Florida Public Service Commission.

Comment date: November 1, 1990, in accordance with Standard Paragraph E at the end of this notice.

2. Public Service Co. of Indiana, Inc.

[Docket No. ER90-472-004]

October 18, 1990.

Take notice that on October 15, 1990, PSI Energy, Inc. (PSI), formerly named Public Service Company of Indiana, Inc., submitted its Compliance Filing in the above-captioned dockets concerning its Rate Schedule FS-1 and its Transmission Service Tariff. This Compliance Filing was submitted pursuant to the requirements of the Commission's Opinion Nos. 349 and 349-A.

Copies of the Compliance Filing have been served on the Indiana Utility Regulatory Commission, the Attorney General of the State of Indiana, the Utility Consumer Counselor, the Indiana Municipal Power Agency, the Wabash Valley Power Association, the City of Logansport, Indiana, PSI's existing wholesale customers who purchase under Rate MUN and Rate REMC-1, and upon persons who have intervened in this docket.

Comment date: November 1, 1990, in accordance with Standard Paragraph E at the end of this notice.

3. Northern States Power Co. (Wisconsin)

[Docket No. ER91-34-000]

Take notice that on October 11, 1990, Northern States Power Company-Wisconsin (NSP-W) filed for a rate decrease. NSP-W states that the purpose of its filing is to eliminate entirely the rate increase aspect of its recent filing in Docket No. ER90-544-000. NSP-W requests waiver of the prior notice provisions and an effective date of October 11, 1990, the same date that the Commission authorized NSP-W's increase in Docket No. ER90-544-000 to take effect.

Comment date: November 1, 1990, in accordance with Standard Paragraph E at the end of this notice.

4. Niagara Mohawk Power Corp.

[Docket No. ES90-54-000]

October 18, 1990.

Take notice that on October 11, 1990, the Niagara Mohawk Power Corporation (the Company) tendered for filing an applicant pursuant to section 204 of the Federal Power Act, seeking authority to issue and renew drafts issued pursuant to a Bankers Acceptance Facility Agreement in an aggregate principal amount outstanding at any time in an amount not exceeding $100,000,000 and short-term unsecured notes, commercial paper and other obligations in an aggregate principal amount outstanding at any time in an amount exceeding an amount equal to 10% of the aggregate of total consolidated surplus and secured indebtedness of the Company plus $50,000,000 maturing, in each case, less than one year after the date of issuance. The short-term debt will be issued on or before December 31, 1992, with a final maturity date no later than December 31, 1993.

Comment date: November 9, 1990, in accordance with Standard Paragraph E at the end of this notice.

5. Idaho Power Co.

[Docket No. ER91-23-000]

October 18, 1990.

Take notice that on October 11, 1990, Idaho Power Company tendered for filing in compliance with the Federal Energy Regulatory Commission's Order of October 7, 1978, a summary of sales made under the Company's 1st Revised FERC Electric Tariff, Volume No. 1 (Supersedes Original Volume No. 1) during March through October 7, 1990, along with cost justification for the rate charged. This filing includes the following supplements:

Utah Power & Light Co...	Supplement No. 82.
Sierra Pacific Power Co..	Supplement No. 82.
Pacific Power & Light Co..	Supplement No. 28.
Portland General Electric.	Supplement No. 64.
Montana Power Co.....	Supplement No. 61.
Washington Water Power Co..	Supplement No. 62.
Puget Sound Power & Light Co..	Supplement No. 37.
Pacific Gas & Electric Co..	Supplement No. 37.
Seattle City Light	Supplement No. 1.
City of Burbank	Supplement No. 33.
City Pasadena	Supplement No. 31.
San Diego Gas & Electric.	Supplement No. 33.
California Dept. of Water Resource.	Supplement No. 9.
Los Angeles Dept. of Water & Power.	Supplement No. 40.
Sacramento Municipal Utility Dist..	Supplement No. 8.
Southern California Edison.	Supplement No. 44.
City of Glendale	Supplement No. 35.
Western Area Power Administration.	Supplement No. 5.

Comment date: November 1, 1990, in accordance with Standard Paragraph E at the end of this notice.

6. Pacific Gas and Electric Co.

[Docket No. ER91-27-000]

October 18, 1990.

Take notice that on October 15, 1990, Pacific Gas and Electric Company (PG&E) tendered for filing a Letter of Understanding (Letter Agreement) concerning the Western Systems Power Pool Agreement (Power Agreement) and the Interconnection Agreement between PG&E and the City of Santa Clara (Interconnection Agreement).

The City of Santa Clara (CSC) wishes to become a member of the Western System Power Pool (WSPP), and requires transmission services from PG&E to do so. The Letter Agreement clarifies how PG&E will provide transmission services for the transactions under the Pool Agreement. It specifies which transmission services for WSPP transactions shall be provided under the Pool Agreement and which shall be provided under the Interconnection Agreement. All firm transmission services for WSPP firm power purchases and sales will be provided by PG&E will be under the Pool Agreement. All interruptible transmission services provided by PG&E will be under the Interconnection Agreement. WSPP transactions will be billed separately from Interconnection Agreement transactions, and compensation for WSPP transaction will in no way effect either party's obligation for services offered under the Interconnection Agreement.

Copies of this filing have been served upon CSC, the WSPP participants, the California Public Utilities Commission, and those parties who have intervened in previous WSPP dockets.

Comment date: November 1, 1990, in accordance with Standard Paragraph E at the end of this notice.

7. Puget Sound Power & Light Co.

[Docket No. ER91-20-000]

October 18, 1990.

Take notice that Puget Sound Power & Light Company ("Puget") on October 15, 1990 tendered for filing, as an initial rate schedule, the Sale and Exchange Agreement between the United States of America, Department of Energy, acting by and through the Bonneville Power Administration ("Bonneville"), and Puget, executed as of November 23, 1988.

The Agreement provides for a sale by Bonneville of power and energy to Puget which converts to a seasonal exchange during which Puget and Bonneville will exchange power and energy as described in the Agreement.

Puget requests an effective date of November 1, 1988, the beginning of the term as set forth in the Agreement.

A copy of the filing has been mailed to Bonneville.

Comment date: November 1, 1990, in accordance with Standard Paragraph E at the end of this notice.

8. Kansas Gas and Electric Co.

[Docket No. ES91-2-000]

October 18, 1990.

Take notice that on October 16, 1990, Kansas Gas and Electric Company (Applicant) filed an application pursuant to Section 204 of the Federal Power Act seeking authority to issue not more than $250 million of unsecured promissory notes on or before December 31, 1992, with a final maturity date no later than December 31, 1993.

Comment date: November 15, 1990, in accordance with Standard Paragraph E at the end of this notice.

9. Gary Hibbert

[Docket No. QF90-236-000]

October 18, 1990.

On September 21, 1990, Gary Hibbert (Applicant), of Route 3, Box 38, Hudson, Kansas 67545, submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility will be located in the geographical area confined in Ellis, Russel, Rush, and Barton Counties, Kansas. The facility will consist of combustion turbine generators with a total electric power production capacity of 20 MW. Applicant proposes to deliver biochemically produced methane gas to a natural gas pipeline system and utilize an equivalent amount of natural gas from that system as the primary energy source for the facility.

Comment date: Thirty days from publication in the **Federal Register**, in accordance with Standard Paragraph E at the end of this notice.

10. Baltimore Gas and Electric Co.

[Docket No. ES91-3-000]

October 18, 1990.

Take notice that on October 17, 1990, Baltimore Gas and Electric Company (Applicant) filed an application pursuant to Section 204 of the Federal Power Act seeking authority to issue not more than $500 million of short-term unsecured promissory notes and commercial paper with a final maturities no later than December 31, 1993 and not more than $100 million of unsecured medium-term promissory notes with final maturities no later than December 31, 1993.

Comment date: November 16, 1990, in accordance with Standard Paragraph E end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 90-25316 Filed 10-25-90; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 9340-000 Maine]

Lawrence E. and Veronica P. Smith; Availability of Environmental Assessment

October 18, 1990.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the application for minor license for the proposed Kezar Falls Hydroelectric Project located on the Ossipee River in Cumberland and York Counties, near Kezar Falls, Maine, and has prepared an Environmental Assessment (EA) for the proposed project. In the EA, the Commission's staff has analyzed the potential environmental impacts of the proposed project and has concluded that approval of the proposed project, with appropriate mitigative measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

Copies of the EA are available for review in the Public Reference Branch, Room 3308, of the Commission's offices at 941 North Capitol Street, NE., Washington, DC 20426.

Linwood A. Watson, Jr.,

Acting Secretary.

[FR Doc. 90-25317 Filed 10-25-90; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. CP91-154-000, et al.]

U-T Offshore Systems, et al.; Natural Gas Certificate Filings

Take notice that the following filings have been made with the Commission:

1. U-T Offshore Systems

[Docket No. CP91-154-000]

October 18, 1990.

Take notice that on October 15, 1990, U-T Offshore Systems (U-TOS), P.O. Box 1396, Houston, Texas 77251, filed in Docket No. CP91-154-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to provide an interruptible transportation service for Centran Corporation (Centran), a marketing company, under the blanket certificate issued by the Commission's Order No. 509, pursuant to section 7 of the Natural Gas Act, corresponding to the rates, terms and conditions filed in Docket No. RP89-89-000, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

U-TOS requests authorization to transport, on an interruptible basis, up to a maximum of 37,000 Mcf of natural gas per day for Centran from a receipt point located in Offshore Louisiana to a delivery point located in Cameron Parish, Louisiana. U-TOS anticipates transporting 37,000 Mcf of natural gas on an average day and an annual volume of 13,505,000 Mcf. U-TOS advises that service under § 284.223(a) commenced August 13, 1990, as reported in Docket No. ST90-6729-000.

Comment date: December 3, 1990, in accordance with Standard Paragraph G at the end of this notice.

2. Lone Star Gas Co.

[Docket No. CP91-141-000]

October 18, 1990.

Take notice that on October 12, 1990, Lone Star Gas Company, a Division of ENSERCH Corporation (Lone Star), 301 South Harwood Street, Dallas, Texas 75201, filed in Docket No. CP91-141-000, as supplemented on October 17, 1990, a request pursuant to §§ 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act for authorization to add a new delivery point for the transportation of natural gas for Coastal States Gas Transmission Company (Coastal), under the blanket certificate issued in Docket No. CP83-59-000, as amended, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Lone Star proposes to add a new delivery point for gas transported by Lone Star through the interstate portion of its facilities for Coastal under the authorization granted in Docket No. CP87-193-000, as amended. Lone Star states that the proposed delivery point will be located on its Line T at Sta. 430+54 at a new point of interconnection between Lone Star's interstate facilities and Lone Star's intrastate facilities as established in the order issued in Docket Nos. CP89-1742-000 and CP89-1743-000 on October 4, 1990. Lone Star states that no authorization for construction or retirement of facilities to add the new delivery point is requested herein.

Comment date: December 3, 1990, in accordance with Standard Paragraph G at the end of this notice.

3. Trunkline Gas Co.

[Docket No. CP91-182-000]

October 19, 1990.

Take notice that on October 17, 1990, Trunkline Gas Company (Trunkline), Post Office Box 1642, Houston, Texas 77251-1642, filed in Docket No. CP91-182-000 a request pursuant §§ 157.205 and 284.223 of the Commission's Regulations for authorization to transport natural gas for Catamount Natural Gas, Inc. (Catamount), under Trunkline's blanket certificate issued in Docket No. CP86-586-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Trunkline proposes to transport on an interruptible basis up to 150,000 Mcf of natural gas on a peak day, 27,397 Mcf on an average day, and 10,000,000 Mcf on an annual basis for Catamount. Trunkline states that it would perform the transportation service for Catamount under Trunkline's Rate Schedule PT. Trunkline indicates that it would receive the gas from various existing points of interconnection in the states of Illinois, Louisiana, Tennessee, and Texas; from the Panhandle Eastern Pipe Line Company point of interconnection at Douglas County, Illinois; and from the areas of offshore Louisiana and offshire Texas. Trunkline states that it would then deliver the gas, less fuel and unaccounted for line loss, to Columbia Gulf Transmission Company at Centerville in St. Mary Parish, Louisiana.

It is explained that the service commended September 1, 1990, under the automatic authorization provisions of § 284.223 of the Commission's Regulations, as reported in Docket No. ST90-5299. Trunkline indicates that no new facilities would be necessary to provide the subject service.

Comment date: December 3, 1990, in accordance with Standard Paragraph G at the end of this notice.

4. Florida Gas Transmission Co.

[Docket No. CP91-65-000]

October 18, 1990.

Take notice that on October 5, 1990, Florida Gas Transmission Company (FGT), 1400 Smith Street, Houston, Texas 77002, filed in Docket No. CP91-65-000, an application pursuant to section 7(c) of the Natural Gas Act and part 157 of the Commission's Regulations hereunder, for a certificate of public convenience and necessity authorizing FGT to construct, own and operate approximately 36 miles of 18-inch pipeline and related appurtenances (Connecting Facilities) to connect FGT's existing St. Petersburg and Sarasota Laterals. The proposed Connecting Facilities will extend from a point near FGT's Compressor Station No. 30 on FGT's St. Petersburg Lateral to a point approximately 2.3 miles north of State Road 62 where FGT's Sarasota Lateral intersects State Road 39. The Connecting Facilities will enhance the operational flexibility and integrity of FGT's pipeline system and also enable FFT to offer available capacity to existing customers and potentially to new markets during certain reasons, thus allowing maximum utilization of FGT's system.

Comment date: November 8, 1990, in accordance with Standard Paragraph F at the end of this notice.

5. High Island Offshore System

[Docket Nos. CP91-178-000, CP91-179-000, and CP91-180-000]

October 19, 1990.

Take notice that on October 17, 1990, High Island Offshore System (HIOS), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket Nos. CP91-178-000, CP91-179-000, and CP91-180-000 requests pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorizations to transport natural gas on an interruptible basis pursuant to HIOS's Rate Schedule IT on behalf of various shippers under HIOS's blanket certificate issued by the Commission's Order No. 509, pursuant to section 7 of the Natural Gas Act, corresponding to the rates, terms and conditions filed in Docket No. RP89-83-000, all as more fully set forth in the prior notice requests which are on file with the Commssion and open to public inspection.[1]

Information applicable to each transaction, including the identity of the shipper, the peak day, average day and annual volumes, and the initiation

[1] These prior notice requests are not consolidated.

service dates and related docket numbers of the 120-day transactions under § 284.223 of the Commission's Regulations, has been provided by HIOS and is summarized in the attached appendix. It is explained that the gas would be received by HIOS at existing points located in the High Island and West Cameron Areas, offshore Texas and offshore Louisiana respectively, and redeliver the gas for the various accounts at existing interconnections located in offshore Texas and offshore Louisiana.

Comment date: December 3, 1990, in accordance with Standard Paragraph C at the end of this notice.

6. Panhandle Eastern Pipe Line Co. and Columbia Gulf Transmission Co.

[Docket Nos. CP91-157-000[2], CP91-158-000, CP91-159-000, and CP91-160-000]

October 19, 1990.

Take notice that on October 15, 1990, Texas Gas Transmission Corporation (Applicant), filed in the above referenced dockets, prior notice requests pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to transport natural gas on behalf of various shippers under its blanket certificate issued pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the prior notice requests which are on file with the Commission and open to public inspection and in the attached appendix.

Information applicable to each transaction including the identity of the shipper, the type of transportation service, the appropriate transportation rate schedule, the peak day, average day and annual volumes, and the docket numbers and initiation dates of the 120-day transactions under § 284.223 of the Commission's Regulations has been provided by the Applicant and is included in the attached appendix.

The Applicant also states that it would provide the service for each shipper under an executed transportation agreement, and that the Applicant would charge rates and abide by the terms and conditions of the referenced transportation rate schedule(s).

Comment date: December 3, 1990, in accordance with Standard Paragraph G at the end of this notice.

7. Williams Natural Gas Co.

[Docket No. CP91-158-000]

October 18, 1990.

Take notice that on October 15, 1990, Williams Natural Gas Company (WNG) P.O. Box 3288, Tulsa, Oklahoma 74101, filed in Docket No. CP91-158-000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport gas on an interruptible basis for Centran Corporation (Centran) under the blanket certificate issued in Docket No. CP86-631-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

WNG states that it proposes to transport, on an interruptible basis, up to 20,000 dth of natural gas per day for Centran from various receipt points in Colorado, Kansas, Missouri, Oklahoma, Texas, and Wyoming to various delivery points on WNG's pipeline system located in Kansas.

WNG also states that the estimated average day and annual quantities would be 20,000 and 7,300,000 dth, respectively.

WNG further states that it commenced their service on August 1, 1990, as reported in Docket No. ST91-9-000.

Comment date: December 3, 1990, in accordance with Standard Paragraph G at the end of this notice.

8. Northwest Pipeline Corp.

[Docket No. CP91-167-000]

October 18, 1990.

Take notice that on October 16, 1990, Northwest Pipeline Corporation (Northwest), 295 Chipeta Way, Salt Lake City, Utah 84108, filed a request with the Commission in Docket No. CP91-167-000, pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (NGA), for authorization to construct and operate a new meter station, under Northwest's blanket certificate issued in Docket No. CP82-433-000 pursuant to section 7 of the NGA, all as more fully set forth in the request which is open to public inspection.

Northwest proposes to construct and operate the Chevron Rangely meter station in Rio Blanco County, Colorado, in order to deliver up to 12,000 MMBtu of natural gas per day to Chevron U.S.A., Inc. Northwest states that it estimates the proposed meter station's construction cost at $170,380. Northwest also states that Chevron would install approximately 600 feet of six-inch pipeline from the proposed meter station to a tie-in point on Chevron's existing fuel gas system.

Comment date: December 3, 1990, in accordance with Standard Paragraph G at the end of this notice.

Standard Paragraphs:

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene if filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary

[FR Doc. 90-25318 Filed 10-25-90; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. CP91-164-000, et al.]

United Gas Pipe Line Co., et al.; Natural Gas Certificate Filings

Take notice that the following filings have been made with the Commission:

1. United Gas Pipe Line Co.

[Docket No. CP91-164-000]

October 17, 1990.

Take notice that on October 16, 1990, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77251-1478, filed in Docket No. CP91-164-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to construct and operate a new delivery point as a sales tap to provide additional natural gas to Entex Inc. (Entex), a local distributor, under the certificate authorization issued in Docket No. CP82-430-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

United proposes to construct and operate a 2-inch sales tap to be located on United's 8-inch Bogalusa-Amite Line in the vicinity of Enon, St. Tammany Parish, Louisiana. United states that the new sales tap would enable United to supply an estimated average of 180 Mcf per day of natural gas to Entex for resale to an industrial customer, Barriere Construction Co., Inc.

United states that this new sales tap for Entex would not result in an increase in Entex's aggregate base requirements or contractual MDQ. United further states that the total certificated entitlements of the Entex Bogalusa Billing Area is 15,453 Mcf per day, which is the contracted MDQ. United avers that the proposed sale is within the limitation set for this particular billing location. It is stated that the following chart illustrates the impact of United 's proposal on its daily sales of natural gas in the Entex Bogalusa, Louisiana, Billing Area.

	Actual Mcf	Additional Mcf	Total Mcf
Peak Day	8,592	180	8,772
Annual	221,310	86,709	257,019

It is stated that Entex would reimburse United for all costs resulting from the tap installation.

United further states that it would construct and operate the proposed sales tap in compliance with 18 CFR part 157, subpart F, and that it has sufficient capacity to render the proposed service without detriment or disadvantage to its other existing customers.

Comment date: December 3, 1990, in accordance with Standard Paragraph G at the end of this notice.

4. Natural Gas Pipeline Co. of America

[Docket No. CP91-115-000]

October 16, 1990.

Take notice that on October 11, 1990, Natural Gas Pipeline Company of America (Natural), 701 East 22nd Street, Lombard, Illinois, 60148, filed in Docket No. CP91-115-000, an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to partially abandon or reduce the firm transportation service performed by Natural for Chevron Chemical Company (Chevron Chemical) under Natural for Chevron Chemical Company (Chevron Chemical) under Natural's Rate Schedule X-139, as authorized in Docket No. CP85-347-000, from a daily contract demand level of 10,000 to 5,000 Mcf of natural gas, effective November 5, 1990, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Natural states that its firm transportation service for Chevron Chemical is currently effected by Chevron U.S.A., Inc. (Chevron U.S.A.), a producer, tendering natural gas it produces in West Cameron Blocks 532, 533, 534, offshore Louisiana, for Chevron Chemical's account at existing interconnections between Chevron U.S.A. and Stingray Pipeline Company (Stingray). It is stated that Natural and Trunkline Gas Company (Trunkline) then transport their proportionate share of said natural gas volumes by means of Stingray to an existing onshore interconnection between Natural and Stingray located in Cameron Parish, Louisiana. Natural indicates that it further transports the total daily demand quantity to an interconnection with United Gas Pipe Line Company (United) at the Texaco Henry Plant in Vermillion Parish, Louisiana. United further transports such gas for Chevron Chemical from the Texaco Henry Plant to points on United's Lirette-Mobile Line in St. Charles Parish, Louisiana for use by Chevron Chemical at its ammonia plant located in Luling, Louisiana, it is stated.

Natural states that pursuant to the terms of its Rate Schedule X-139, a gas transportation agreement with Chevron Chemical and Trunkline dated September 28, 1977 (Agreement), Chevron Chemical notified Natural and Trunkline by a letter dated April 25, 1990 of its election to reduce the daily demand quantity from 10,000 to 5,000 Mcf of natural gas, effective November 5, 1990, the five year anniversary date of initial deliveries of natural gas under the Agreement. Natural further states that it has filed its application as a result of Chevron Chemical's election.

Comment date: November 8, 1990, in accordance with Standard Paragraph F at the end of this notice.

5. El Paso Natural Gas Co.

[Docket No. CP91-121-000]

October 18, 1990.

Take notice that on October 11, 1990, El Paso Natural Gas Company (El Paso), Post Office Box 1492, El Paso, Texas, 79978, filed an application in Docket No. CP91-121-000, under sections 7(b) and 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity under the optional certificate procedures, subpart E of part 157 of the Commission's Regulations. El Paso requests authorization for: (i) The construction and operation of additional facilities on the eastern portion of its interstate pipeline system to provide incremental capacity for new transportation service under its blanket transportation certificate, and (ii) conditional pre-granted abandonment of the facilities and related transportation services. El Paso's proposal is more fully set forth in the application which is on file with the Commission and open to public inspection.

El Paso states that in the event that the Commission is unable to issue a single order addressing both non-environmental and environmental issues, El Paso requests the issuance of a phased determination of non-environmental and environmental issues, in order that it may proceed with necessary administrative and purchasing activities to facilitate commencement of construction at the earliest possible date. In any event, El Paso requests approval of its proposal by December 31, 1990.

Specifically, El Paso states it is seeking a certificate of public convenience and necessity authorizing the construction and operation of facilities to provide 680,000 Mcf/d of incremental pipeline capacity on its East-End System to accommodate a new transportation service through El Paso's expanded interstate transmission system.

El Paso estimates that the total capital cost of the proposed expansion is $109.2 million. This includes facilities costing $107.1 million for which El Paso is specifically seeking authorization in this application and auxiliary installations costing $2.1 million which El Paso states will be constructed under § 2.55(a) of the Commission's Regulations. El Paso proposes to finance the cost of the proposed facilities through the use of internally generated funds. El Paso plans to place the proposed facilities in service by Spring, 1992, assuming shipper subscriptions are sufficient and that regulatory authorizations are in place.

El Paso claims that in order to add 680,000 Mcf/d of firm new capacity of its East-End System, it must construct and operate approximately 120 miles of pipeline, additional compression facilities totalling 12,000 horsepower, and additional metering facilities on that system that will connect El Paso's Plains and Waha Compressor Stations. El Paso states that the new facilities will allow El Paso to move excess volumes out of the San Juan Basin to its East-End System for further transportation to eastern and midwestern United States markets. El Paso states that these facilities will also give El Paso greatly expanded system flexibility to load its northern or southern systems.

El Paso states that it does not seek specific authorization to transport gas through its proposed facilities for specific shippers. Rather, El Paso states that it intends to render firm transportation services pursuant to a new rate schedule under the provisions of its blanket transportation certificate issued in Docket No. CP88-433-000.

El Paso states its proposed new incremental firm transportation service will be offered under the provisions of proposed Rate Schedule T-5, which is to be contained in its FERC Gas Tariff, First Revised Volume No. 1-A, and will incorporate, as applicable, the general terms and conditions contained in that tariff. El Paso states that its proposed two-part firm rate which is embodied in El Paso's proposed new firm Rate Schedule T-5 is consistent with the requirements of 157.103 of the Commission's Regulations. El Paso states that the rates are cost-based and have prescribed maximum and minimum levels.

El Paso will offer a separate Transportation Service Agreement for transportation from Plains to Waha Stations in accordance with the proposed terms and provisions of Rate Schedule T-5. The proposed initial rate for the Plains to Waha service consists of a Monthly Reservation Charge with a minimum of $0.00 and a maximum of $2.1033, and a Usage Charge which has a minimum of $0.00 and a maximum of $0.0942.

El Paso states that the proposed Plains to Waha service under proposed Rate Schedule T-5 is complementary to additional proposed transportation services under proposed Rate Schedule

T–5 pending before the Commission in Docket No. CP90–2214–000. Docket No. CP90–2214–000 was filed on September 17, 1990 and a Notice of Application in that docket was issued by the Commission on September 25, 1990, and published in the **Federal Register** on October 3, 1990, (55 FR 40429).

El Paso states that new incremental firm transportation service will be available to prospective shippers based on El Paso's existing firm transportation log. El Paso proposes that in the event that the aggregate volumes of firm incremental transportation service sought by prospective shippers exceeds the incremental capacity which El Paso proposes to add to its system through this application, El Paso will give preference to those shippers, in the order they appear in the log, who provide assurance that gas will, in fact, flow under their contracts, as evidenced by the Shipper's demonstration of an existing entitlement to receive firm transportation service from the downstream pipeline or the local distribution system which will receive the shipper's gas that El Paso proposes to deliver.

El Paso further notes that on August 31, 1990, it filed an application to amend its blanket transportation certificate issued in Docket No. CP88–433–000 to allow for brokering of firm capacity on El Paso's existing and proposed incremental facilities. El Paso's proposes that this capacity brokering program will be available to shippers contracting for incremental firm capacity under the proposed Rate Schedule T–5 on such terms and conditions as are ultimately approved by the Commission.

El Paso states it will continue to provide interruptible service in accordance with existing Rate Schedule T–1 of its FERC Gas Tariff, First Revised Volume No. 1–A. El Paso states that interruptible service will be offered from time to time, based on the availability of capacity, to those shippers that have executed a transportation agreement consistent with Rate Schedule T–1, and in accordance with the Shipper's position of El Paso's interruptible transportation queue. In providing Rate Schedule T–1 service, El Paso does not propose to make any distinction between existing capacity and the additional capacity which El Paso proposes to add to its system by this application.

El Paso further states that in the event of a facility outage or other event which prevents the full use of El Paso's facilities at design capacity, the allocation of available capacity among firm customers shall be pro rata based on each such customer's confirmed quantities, not to exceed contract demand, to total confirmed quantities which are affected by the capacity constraints. In making such allocation, El Paso does not propose to make any distinction between existing capacity and the additional capacity which El Paso proposes to add to its system by this application, or between shippers receiving service under Rate Schedule T–3 and those shippers receiving service under Rate Schedule T–5.

El Paso states that it has chosen to offer its new firm transportation service on an incremental rate basis, reflecting the complete cost of the new facilities plus an allocated portion of existing costs. Consequently, El Paso says it can insure, as the optional certificate regulations require, that none of the risk of investment in the new service will fall on the existing customers. El Paso further claims that because the rates are set on an incremental basis and reflect the actual cost of the proposed service, prospective shippers can more accurately gauge their market alternatives, and El Paso will be able to obtain, prior to construction, a precise measure of shipper needs.

El Paso notes it has used the depreciation component of its presently effective rates, and a return component as detailed in its application. El Paso further notes that the proposed rates do not differentiate between seasonal peak and off-peak service. Because this is an entirely new service without any history, El Paso believes that this is the most reasonable basis upon which to devise rates.

El Paso claims that the proposed facilities are required by the present and future public convenience and necessity in order to provide El Paso with incremental capacity necessary to accommodate the anticipated increased availability of natural gas in the San Juan Basin producing area, and otherwise to permit El Paso to service increasing demands in off-system markets. El Paso states that its proposal will serve a national security interest by relieving capacity constraints which are and will continue to restrain the delivery of available domestically produced natural gas to U.S. consumers.

El Paso asserts that the need for increased pipeline capacity has arisen because of major new reserve additions, most particularly of coal seam gas, in the San Juan Basin producing area. El Paso claims that the additional facilities will permit the receipt of incremental volumes from the San Juan Basin for transportation and delivery to markets to the east of El Paso's system. El Paso further claims that such facility additions will also significantly increase the operational flexibility and reliability of El Paso's system generally, to the benefit of all of El Paso's customers including users of its existing system.

El Paso states that given the worldwide energy situation which exists, the proposed project offers substantial, assured benefits to the United States as a whole in terms of enhancing national energy security. El Paso claims that its incremental capacity expansion will facilitate the movement of large new supplies of domestic natural gas to markets throughout the United States. El Paso says it will do this by eliminating current and projected capacity constraints which otherwise will increasingly inhibit the production and delivery of gas from one of the Nation's most important producing areas, the San Juan Basin.

El Paso states that when completed, the project will permit the transportation and delivery of additional San Juan Basin volumes equivalent to approximately 130,000 barrels per day of oil, which in turn will serve to reduce the need for an equivalent amount of oil imports. El Paso further states that the additional revenues which San Juan Basin producers will realize through the marketing of these incremental volumes will also be available to finance domestic exploration and development which will further increase the Nation's energy resource base.

The Commission advises all interested parties that it intends to hold a technical conference in this application to discuss any issues requiring Commission review that are raised by the application or by any interventions in this application. Notice of such a technical conference in Docket No. CP91–121–000 will be issued at a later date.

Comment date: November 2, 1990, in accordance with Standard Paragraph F at the end of this notice.

8. Southwestern Gas Pipeline, Inc.

[Docket No. CP91–155–000]

October 16, 1990

Take notice that on October 15, 1990, Southwestern Gas Pipeline, Inc. (Southwestern), 2001 Timberloch Place, P.O. Box 4000, The Woodlands, Texas, 77380–4000, filed in Docket No. CP91–155–000 a petition under Rule 207 of the Commission's Rules of Practice and Procedure (18 CFR 385.207) for a declaratory order requesting that the non-jurisdictional character of its intrastate gathering activities in the State of Texas will not change as a result of its entering into a proposed gathering transaction with Mitchell

Energy Corporation (Mitchell). Southwestern states that natural gas gathered by it on behalf of Mitchell will be delivered to Natural Gas Pipeline Company of America (NGPL). Southerwestern believes that the proposed transaction, which contemplates the construction of points of interconnection between the Southwestern and NGPL gathering systems, should not effect the status of Southwestern as an exempt gathering company for purposes of jurisdiction under the Natural Gas Act (NGA) and the Natural Gas Policy Act of 1978 (NGPA).

Southwestern states that it is a wholly-owned tiered subsidiary of Mitchell Energy and Development Corporation, of which Mitchell is also a subsidiary.

Southwestern states that it owns and operates approximately 2,100 miles of small diameter, low pressure gathering lines an appurtenant facilities in North Texas, principally in Wise, Jack, Palo Pinto and Parker Counties. According to Southwestern, approximately 65 percent of its system consists of 1-inch to 6-inch diameter lines. Southwestern states that it operates one 31-mile segment of 12-inch diameter line between Palo Pinto and Parker Counties, Texas. Southwestern submits that its system is arranged in a cob-like configuration which enables it to gather gas from approximately 2,000 wells connected to the system and to deliver the gas to several small processing plants. It is further states that these plants are owned and operated by Liquid Energy corporation (LEC), an affiliate of Southwestern. For the most part, Southwestern states that gas that is processed at each plant is then delivered to one of three non-affiliated intrastate pipelines, Valero Intrastate Pipeline Company, Lone Star Gas Company and TUFCO, Inc.

According to Southwestern, throughput on the system was recently measured at 90.094 Mcf per day (Mcfd) or an average production per well of less than 46 Mcfd. Southwestern operates 98 individual small compressors which range in size from 18 horsepower (hp) to 880 hp with the overwhelming majority operating at 90 hp or less. Southwestern gathers gas from the wells of more than 400 producers on behalf of a variety of customers. In addition, Southwest states that it sells approximately five percent of its daily throughput principally to a small municipal distribution system, Brazos Gas Company. Southwestern further states that its remaining sales of extremely small amounts are to Gaylyn, Inc. (17 Mcfd), House of Webster (20 Mcfd) and Texaco, Inc. (4 Mcfd). Southwestern avers that it is subject to the jurisdiction of the Texas Railroad Commission which governs, among other things, its limited sales activities.

Southwestern submits that it has been offered a proposal by Mitchell to gather gas on behalf of Mitchell for delivery to NGPL. Specifically, Southwestern states that the proposal would assist Mitchell in satisfying its obligations to NGPL under their natural gas agreement that became effective April 1, 1990 (1990 Agreement). It is stated that the 1990 Agreement covers the sale by Mitchell and the purchase by NGPL of natural gas to be produced in the North Texas area. NGPL also owns and operates a large gathering system in Wise County.

Southwestern states that NGPL's gathering system is in close proximity to the Southwestern system in Wise County, and that incident to the 1990 Agreement, Mitchell will be able to sell gas to NGPL that it produced from wells which are at locations not immediately adjacent to NGPL's gathering system in the area. It is averred that Mitchell has leased blocks of acreage that are near Southwestern's gathering system with the goal in mind of utilizing the production from wells on those leases and potential interconnections with Southwestern's gathering system as supply sources for the 1990 Agreement.

In its gathering proposal to Southwestern, it is stated that Mitchell expressed its desire to avoid unnecessary duplication of facilities and related investments. According to Southwestern, Mitchell proposed that Southwestern gather gas from various wellhead locations on behalf of Mitchell, move the gas through Southwestern's gathering system and redeliver the gas either directly or by displacement to a point or points of interconnection (to be established) between the gathering systems of Southwestern and NGPL in the Wise County area upstream of the NGPL transmission facilities. In addition, Southwestern submits that a portion of the gas it proposes to gather for Mitchell may be redelivered to Mitchell immediately upstream of LEC's Bridgeport, Texas gas processing facility.

Southwestern states that in recent years, the Commission has adopted a clear preference for applying the primary function test set forth in Farmland Industries, Inc., 23 FERC ¶ 61,063 (1983), to a particular factual situation in order to determine whether particular facilities or services qualify for exemption under section 1(b) of the NGA.

Southwestern states that factors that have been considered by the Commission in applying the primary function test include: (1) The diameter and length of the pipeline; (2) the location of compressors and processing plants; (3) the extension of the facility beyond the central point in the field; (4) the location of wells along all or part of the facility; and (5) the geographical configuration of the system. Southwestern believes that application of the primary function test to its current and proposed facilities clearly demonstrates that they should continue to be classified as gathering.

As to the diameter and length of the pipeline, Southwestern states that its system ranges in size from 1¼-inch to 12-inches, with only approximately 15 percent exceeding 6-inches in diameter. Southwestern believes that this is fully consistent with a typical gathering facility.

As to the location of compressors and processing plants, Southwestern notes that it provides no processing services. With respect to the relatively small processing plants of LEC sprinkled throughout the system, Southwestern states that it is immediately downstream of these plants where gas gathered by it is delivered to third parties. In this regard, it is noted that the Mineral Wells Plant is the point of sale to Brazos River Company. As for the proposed interconnections with NGPL, Southwestern states that it will not provide any processing services. In addition, Southwestern avers that 74 percent of its system is operated at pressures less than 20 percent of the specified minimum yield strength, which indicates that the gathering system is operated at a reasonably low pressure, unlike typical pipeline transmission pressures. Southwestern also states that compression horsepower provided by the 98 units on its system averages only 140.2 hp per unit. This, Southwestern believes is also indicative of a gathering facility.

Southwest states that the central point in the field test is probably not applicable to its gathering system since it provides no processing services. Nevertheless, Southwestern states that the configuration of its system and the scattered small processing plants is unlike a typical transmission line, and the proposed transaction with Mitchell will not alter this.

As to the location of wells along all or part of the facility, Southwestern states that the scattered nature of approximately 2000 wells connected to Southwestern's system attests to the gathering function of these facilities.

Southwestern states that the geographical configuration of the system is typical of the network-like pattern of many gathering facilities, and the proposed transaction with Mitchell will in no way alter this configuration.

After considering all the relevant facts and circumstances under the primary function test, Southwestern states that it becomes apparent that the primary function of its system is and will remain gathering gas. Under the proposed transaction with Mitchell, Southwestern states that it will simply gather gas for ultimate delivery to an interstates pipeline. With the exception of the fact that the proposed transaction involves gas that will flow in interstate commerce, Southwestern states that it is no different in character from the currently existing gathering activities it performs for more than 400 producers whose wells are attached to its gathering system.

Southwestern further states that in 1983, the Commission authorized it to perform service under section 311(a)(2) of the NGPA, 24 FERC ¶61,379. According to Southwestern, the discrete activities associated with that order, which involved the delivery of gas on behalf of natural, have long since concluded. Southwestern states that these activities were entered into at a time when the Commission regulations involving section 311 were still evolving and when Southwestern, like many intrastate companies, was unclear of the implications of the provision of the NGPA on its gathering operations and the specific arrangements that were in place in 1983. In view of this, Southwestern submits that the Commission's finding in that order that Southwestern is an intrastate pipeline within the meaning of section 2(16) of the NGPA is simply inapplicable to the situation at hand. It is stated that the transactions that were the subject to the prior Commission order have terminated.

Comment date: November 8, 1990, in accordance with the first subparagraph of Standard Paragraph F at the end of this notice.

7. Texas Gas Transmission Corp.

[Docket Nos. CP91-152-000 [3] and CP91-153-000]

October 16, 1990.

Take notice that on October 15, 1990, Texas Gas Transmission Corporation (Applicant), filed in the above referenced dockets, prior notice requests pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to transport natural gas on behalf of various shippers under its blanket certificate issued pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the prior notice requests which are on file with the Commission and open to public inspection and in the attached appendix.

Information applicable to each transaction including the identity of the shipper, the type of transportation service, the appropriate transportation rate schedule, the peak day, average day and annual volumes, and the docket numbers and initiation dates of the 120-day transactions under § 284.223 of the Commission's Regulations has been provided by the Applicant and is included in the attached appendix.

The Applicant also states that it would provide the service for each shipper under an executed transportation agreement, and that the Applicant would charge rates and abide by the terms and conditions of the referenced transportation rate schedule(s).

Comment date: December 3, 1990, in accordance with Standard Paragraph G at the end of this notice.

[3] These prior notice requests are not consolidated.

8. Northern Natural Gas Co., Division of Enron Corp.

[Docket Nos. CP91-125-000, CP91-127-000, and CP91-140-000]

October 16, 1990.

Take notice that Northern Natural Gas Company, Division of Enron Corp., 1400 Smith Street, P.O. Box 1188, Houston, Texas 77251-1188, (Applicant), filed in the above-referenced dockets prior notice requests pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to transport natural gas on behalf of various shippers under its blanket certificate issued in Docket No. CP86-435-000, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the requests that are on file with the Commission and open to public inspection.[4]

Information applicable to each transaction, including the identity of the shipper, the type of transportation service, the appropriate transportation rate schedule, the peak day, average day and annual volumes, and the initiation service dates and related ST docket numbers of the 120-day transactions under § 284.223 of the Commission's Regulations, has been provided by Applicant and is summarized in the attached appendix.

Comment date: December 3, 1990, in accordance with Standard Paragraph G at the end of this notice.

[Docket Nos. CP91-145-000, CP91-146-000, CP91-147-000, CP91-148-000, CP91-149-000, and CP91-150-000]

October 18, 1990.

Take notice that Tennessee Gas Pipeline Company, P.O. Box 2511, Houston, Texas 77252, and Trunkline Gas Company, P.O. Box 1642, Houston, Texas 77251-1642, (Applicants), filed with the Commission in the above-referenced dockets prior notice requests pursuant to §§ 57.205 and 284.223 of the Commission's Regulations under the Natural Gas Act (NGA) for authorization to transport natural gas on behalf of various shippers under the blanket certificates issued in Docket No. CP87-115-000 and Docket No. CP86-586-000, respectively, pursuant to section 7 of the NGA, all as more fully set forth in the requests are open to public inspection.[8]

Information applicable to each transaction, including the shipper's identity; the type of transportation service; the appropriate transportation rate schedule; the peak day, average day and annual volumes; the service initiation dates; and related ST docket numbers of the 120-day transactions under § 284.223 of the Commission's Regulations, has been provided by Applicants and is summarized in the attached appendix.

Comment date: December 3, 1990, in accordance with Standard Paragraph G at the end of this notice.

[8] These prior notice requests are not consolidated.

Standard Paragraphs

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest if filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,
Secretary.

BILLING CODE 6717-01-M

Office of Hearings and Appeals

Implementation of Special Refund Procedures

AGENCY: Office of Hearings and Appeals, Department of Energy.

ACTION: Notice of implementation of special refund procedures.

SUMMARY: The Office of Hearings and Appeals of the Department of Energy announces the procedures for disbursement of $77,500, plus accrued interest, obtained by the DOE under the terms of a Remedial Order issued to Gasoline Marketers of America (GMA), and $45,534, plus accrued interest, obtained by the DOE under the terms of a Consent Order entered into by the DOE and Mr. Hadley Paul, owner of Paul Investments, Inc. (Paul). The funds will be available to customers who purchased motor gasoline from GMA during the audit period March 1, 1979 through August 30, 1979, and to customers who purchased motor gasoline from Paul during the audit period March 1, 1979 through December 31, 1979.

DATES AND ADDRESSES: Applications for Refund must be received on or before January 24, 1991, and should be addressed to: Gasoline Marketers of America or Paul Investments, Inc., Special Refund Proceeding, Office of Hearings and Appeals, Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585.

All Applications for Refund should be filed in duplicate and display a prominent reference to Case No. KEF-0138 (GMA) or LEF-0006 (Paul).

FOR FURTHER INFORMATION CONTACT: Richard W. Dugan, Associate Director, Office of Hearings and Appeals, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586-2860.

SUPPLEMENTARY INFORMATION: In accordance with § 205.282(c) of the procedural regulations of the Department of Energy, 10 CFR 205.282(c), notice is hereby given of the issuance of the Decision and Order set out below. The Decision sets forth the procedures that the DOE has formulated to distribute funds obtained from GMA and Paul. The funds are being held in interest-bearing escrow accounts pending distribution by the DOE. The funds were provided pursuant to a Remedial Order issued to GMA and to a Consent Order entered into by Paul and the DOE. Customers of GMA or Paul who purchased motor gasoline during the audit periods set forth at the beginning of this notice may file claims for refunds.

A Proposed Decision and Order tentatively establishing refund procedures and soliciting comments from the public concerning the distribution of the GMA/Paul settlement funds was issued on May 1, 1990. 55 FR 18944 (May 7, 1990).

As the Decision and Order published with this Notice indicates, Applications for Refunds may now be filed by customers who purchased motor gasoline from GMA and/or Paul during their respective audit periods. Applications will be accepted provided they are received no later than 90 days after publication of this Decision and Order in the **Federal Register**. The specific information required in an Application for Refund is set forth in the Decision and Order.

Dated: October 22, 1990.

George B. Breznay,

Director, Office of Hearings and Appeals.

Decision and Order of the Department of Energy

Implementation of Special Refund Procedures

Names of firms: Gasoline Marketers of America, Paul Investments, Inc.

Dates of filing: July 13, 1989, December 21, 1989.

Case numbers: KEF-0138, LEF-0006.

In accordance with the procedural regulations of the Department of Energy (DOE), 10 CFR part 205, subpart V, the Economic Regulatory Administration (ERA) of the DOE filed petitions for the Implementation of Special Refund Procedures with the Office of Hearings and Appeals (OHA) on July 13, 1989 and December 21, 1989. In those petitions, the ERA requests that the OHA formulate and implement procedures for the distribution of funds received from Gasoline Marketers of America (GMA) and Mr. Hadley Paul, former president of Paul Investments, Inc. (Paul).

This Decision and Order establishes procedures for distributing these funds to qualified refund applicants.

I. Background

Each of these firms was a "reseller-retailer" of motor gasoline as that term was defined in 10 CFR 212.31. GMA is located in Chatham, New Jersey, and Paul is located in San Antonio, Texas. An ERA audit of each firm's records revealed possible violations of the Mandatory Petroleum Price Regulations, 10 CFR part 212, subpart F.

The ERA audit of GMA alleged that during the audit period March 1, 1979 through August 30, 1979 the firm committed possible pricing violations amounting to $841,395.66 with respect to its sales of motor gasoline to 33 retailers, 13 wholesale-resellers and one bulk-purchaser.[1] In order to obtain restitution for these alleged overcharges, the ERA issued a Proposed Remedial Order (PRO) to GMA on August 13, 1982. On September 30, 1983, the DOE issued the PRO as a final Remedial Order. *Gasoline Marketers of America*, 11 DOE ¶ 83,013 (1983). On January 28, 1988, the United States Bankruptcy Court for the District of New Jersey, which had jurisdiction over a bankruptcy petition previously filed by GMA, approved an agreement between GMA and DOE under which the DOE's claim was limited to $77,500 in full settlement of the remedial order proceeding. This amount was received by the DOE on June 14, 1988, and deposited into an interest bearing escrow account for ultimate distribution by the DOE.

The ERA audit of Paul revealed possible pricing violations amounting to $480,364.41 with respect to Paul's sales of regular and unleaded motor gasoline to nine retailers and four resellers during the audit period March 1, 1979 through December 31, 1979. In order to settle all claims and disputes between Paul and the DOE regarding the firm's sales of motor gasoline during the audit period, Paul and the DOE entered into a Consent Order on February 13, 1985 which directed Paul to remit $50,000 to the DOE.[2] As a result of Paul's financial

[1] In arriving at this total overcharge amount in its audit workpapers, the ERA made a mathematical error of $1.55. The correct sum of the individual overcharge amounts is $841,394.11.

[2] The Consent Order resolved all issues involved in a PRO that the ERA had issued to Paul on September 21, 1982. See March 4, 1986 Dismissal Letter from Thomas L. Wieker, Deputy Director, OHA, to the attorneys for Paul and ERA (Case No. HRO-0006).

difficulties, the settlement amount was subsequently limited to ERA to $45,534, which was paid in full as of November 13, 1989.

On May 1, 1990, the OHA issued a Proposed Decision and Order (PD&O) setting forth a tentative plan for the distribution of the GMA and Paul escrow fund accounts. In order to give notice to all potentially affected parties, a copy of the PD&O was published in the Federal Register and comments were solicited. 55 FR 18945 (May 7, 1990). No comments were received. In this Decision and Order, we will adopt final refund procedures for the distribution of the funds in the GMA and Paul escrow accounts.

II. Jurisdiction

The procedural regulations of the DOE set forth general guidelines by which the OHA may formulate and implement a plan of distribution for funds received as a result of an enforcement proceeding. 10 CFR part 205, subpart V. The DOE policy is to use the subpart V process to distribute such funds. For a more detailed discussion of subpart V and the authority of the OHA to fashion procedures to distribute refunds obtained as part of settlement agreements, see *Office of Enforcement*, 8 DOE ¶ 82,597 (1981) (*Vickers*).

As we stated in the PD&O, we have reviewed the record in these cases and have determined that a subpart V proceeding is an appropriate mechanism for distributing the GMA and Paul escrow funds. We will therefore grant the ERA's petition and assume jurisdiction over these funds.

III. Final Refund Procedures

A. Eligible Claimants

In the first stage, refund monies will be distributed to those parties which were directly injured in transactions with GMA/Paul. As discussed in the Proposed Decision, we believe the potential refund claimants in this proceeding are those included on the list of identified customers which was attached to the PRO issued to GMA and to the Consent Order entered into by Paul. These potential refund claimants are listed in Appendices A and B to this Decision.

1. *Showing of injury.* As we noted in the PD&O, refund claimants who resold GMA or Paul motor gasoline (all of the identified customers except one) and who do not accept the small claims presumption described below, will be required to demonstrate that they were injured by GMA/Paul's alleged overcharges.[3] To make this showing, a reseller applicant (including retailers and refiners) will generally be required to show that at the time it purchased motor gasoline from GMA or Paul, market conditions would not permit it to increase its prices to pass through to its customers the additional cost associated with the overcharges. See *Gulf Oil Corp./Thermagas, Inc.*, 18 DOE ¶ 85,885 (1989); *Plaquemines Oil Sales Corp.*, 17 DOE ¶ 85,059 (1988) (*Plaquemines*). This showing may be made in a competitive disadvantage analysis, which compares the price paid by the applicant for motor gasoline purchased from the settlement firm with the average market price for that product. In order to demonstrate that it did not subsequently recover the increased costs associated with the alleged overcharges by raising its prices, a reseller must also show, through credible, firm-specific data, that it had a bank of unrecovered increased costs beginning in the first month of the period for which a refund is claimed through the date when the "banking" regulations were terminated.[4]

We realize that some applicants may be unable to provide actual, contemporaneous cost bank records. We therefore are willing to accept reasonable approximations of cost banks calculated in a manner consistent with the price regulations. See *Plaquemines; see also Plaquemines/Delta Marina*, 17 DOE ¶ 85,415 (1988). The maintenance of a bank does not, however, automatically establish injury. *See Tenneco Oil Co./Chevron U.S.A., Inc.*, 10 DOE ¶ 85,014 (1982).

2. *Small claims presumption.* We shall adopt, as proposed in the PD&O, a small claims presumption of injury which has been used in many previous special refund proceedings. We recognize that making a detailed showing of injury may be too complicated and burdensome for resellers who purchased relatively small amounts of motor gasoline from GMA or Paul. For example, such firms may have limited accounting and data-retrieval capabilities and therefore may be unable to produce the records necessary to prove that they did not pass the alleged overcharges through to their own customers. We also are concerned that the cost to the applicant and to the government of compiling and analyzing information sufficient to make a detailed showing of injury not exceed the amount of the refund to be gained. See, *e.g.*, *Marion*. Therefore, any reseller whose "allocable share" (as defined in part III B, *infra*.) is $5,000 or less need only document its purchase volumes rather than make a detailed showing of injury in order to be eligible to receive a refund.[5]

3. *Spot-purchaser.* We shall also adopt a rebuttable presumption that resellers which made only spot purchases of GMA or Paul motor gasoline have suffered no injury. Spot purchasers tend to have considerable discretion in where and when to make purchases and therefore would not have made spot purchases of GMA or Paul products at increased prices unless they were able to pass through the full amount of the overcharges to their own customers. See *Vickers*, 8 DOE at 85,396-97. Accordingly, any reseller claimant who was a spot purchaser must submit evidence to rebut the spot purchaser presumption and establish the extent to which it was injured by the spot purchase(s).

B. Allocation of Consent Order Funds.

In most subpart V proceedings, we have distributed consent order funds to successful claimants based upon a volumetric approach which allocates a portion of the consent order fund to each gallon of product which the applicant purchased from the consent order firm. However, in certain proceedings, we have utilized the material gathered in the ERA audit to allocate the consent order funds in a way which makes the refunds correspond more closely to the alleged overcharges that were experienced. See, *e.g.*, *Plaquemines*. Those proceedings involved an audit which was relatively narrow in scope, a consent order or other type of settlement agreement which was limited to the same products and time period as the audit, and a relatively small number of customers, all or most of whom were identified in the enforcement proceeding or settlement documents.

---

[3] In the GMA proceeding, there appears to be one potential claimant who is an end-user (Energy Engineering Inc.). We will adopt a presumption of injury for end-users. They will therefore not be required to make a demonstration of injury beyond submitting purchase volume information. See, *e.g.*; *Marion Corp.*, 12 DOE ¶ 85,014 (1984) (*Marion*); *Thornton Oil Corp.*, 12 DOE ¶ 85,014 (1984).

[4] Retailers and most resellers were permitted to utilize cost banks for motor gasoline pricing purposes only until July 15, 1979 and April 30, 1980, respectively. 42 FR 42542 (July 19, 1979); 45 FR 29548 (May 2, 1980). Therefore, retailer and reseller applicants will not be required to submit cost bank data subsequent to those dates.

[5] As in prior special refund proceedings, in determining the "allocable share" of an applicant, we intend to combine the claims of all affiliated entities. See *Exxon Corp./Tate Oil Co.*, 18 DOE ¶ 85,460 (1989); *see also Marathon Oil Co./Swiftly Oil Co.*, 15 DOE ¶ 85,347 (1987). A reseller applicant whose allocable share is in excess of $5,000 may choose to limit its claim to $5,000 in lieu of making a detailed showing of injury.

Because these factors are present in these two proceedings, we shall use this approach to allocate the GMA and Paul settlement funds. We recognize that the audit files and other relevant enforcement and settlement documents do not provide conclusive evidence as to the identity of the refund recipients or the amount of money that they should receive. Nevertheless, these documents can be used for guidance in fashioning a refund allocation plan that is more equitable than a plan based on the volumetric approach. Therefore, we shall, as proposed, use the distribution of the alleged overcharges set forth in the attachments to the GMA PRO and the Paul Consent Order to allocate the settlement funds. (These figures are set forth in appendices A and B, respectively.) As indicated above, the escrow funds resulted from negotiated settlements and are substantially less than the total overcharge amounts in the GMA Remedial Order and Paul PRO. Accordingly, as proposed in the PD&O, each purchaser's maximum potential refund, or allocable share of the settlement fund, will be a prorated amount of the alleged overcharges experienced by that firm. In the case of GMA's customers, the allocable shares listed in appendix A are equivalent to approximately 9.2 percent of the alleged overcharge amounts ($77,500 settlement amount divided by the $841,394.11 alleged overcharge amount). The allocable shares of Paul's customers, as listed in appendix B, are equivalent to 9.47 percent of the alleged overcharge amounts ($45,534 settlement amount divided by $480,364.41 alleged overcharge amount). In addition, a successful claimant will receive a pro rata share of the interest that has accrued in the GMA and Paul escrow accounts.

In the event that money remains after all refund claims from this proceeding have been analyzed, those funds will be disbursed in accordance with the provisions of the Petroleum Overcharge Distribution and Restitution Act of 1986, 15 U.S.C.A. 4501–4507.

C. General Refund Application Requirements

Pursuant to 10 CFR 205.283, we will now accept Applications for Refund from individuals and firms identified in appendix A or B of this Decision and Order. There is no specific application form that must be used. All Applications for Refund should include the following information:

(1) A conspicuous reference to Case Number KEF-0138 (GMA) or LEF-0008 (Paul) and the name and address of the applicant during the period for which the claim is filed, as well as the name to whom the refund check should be made out and the address to which the check should be sent;

(2) The name, title, address and telephone number of a person who may be contacted by OHA for additional information concerning the Application;

(3) The manner in which the applicant used the GMA or Paul motor gasoline i.e., whether it was a reseller, retailer, end-user, etc.;

(4) A monthly schedule of the number of gallons that the applicant purchased from GMA or Paul during the refund period. If a claimant was an indirect purchaser of GMA or Paul gasoline, it must also submit the name of its immediate supplier and indicate why it believes the products were originally sold by GMA or Paul;

(5) If the applicant is a reseller requesting a refund in excess of $5,000, it must submit all relevant material necessary to support its claim in accordance with the injury requirements outlined above;

(6) If the applicant was or is in any way affiliated with GMA or Paul, an explanation of the nature of that affiliation;

(7) A statement as to whether there was a change in ownership of the applicant's firm during or since the refund period. If there was such a change in ownership, the applicant must submit a detailed explanation as well as provide the names and addresses of the previous or subsequent owners;

(8) A statement as to whether the claimant is or has been involved in any DOE enforcement proceedings or private actions filed under section 210 of the Economic Stabilization Act. If these actions have been concluded, the applicant should furnish a copy of the final order issued in the matter. If the action is still in progress, the applicant should briefly describe the actions and its current status. The applicant must inform OHA of any change in status while its Application for Refund is pending. See 10 CFR 205.9(d);

(9) A statement as to whether the applicant or a related firm has filed any other Application for Refund in this proceeding;

(10) A statement as to whether the claimant or a related firm has authorized any other individual(s) to file an Application for Refund on the claimant's behalf in this proceeding; and

(11) The following statement signed by the applicant or a responsible official of the business or organization claiming the refund: "I swear (or affirm) that the information submitted is true and accurate to the best of my knowledge and belief. I understand that anyone who is convicted of providing false information to the Federal Government may be subject to a fine, a jail sentence, or both, pursuant to 18 U.S.C. 1001."

Applications for Refund should be sent to: Gasoline Marketers of America or Paul Investments, Inc. Special Refund Proceeding, Office of Hearings and Appeals, Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585.

All applications must be filed in duplicate and postmarked within 90 days from the date of publication of this Decision in the Federal Register. A copy of each Application will be available for public inspection in the Public Reference Room of the Office of Hearings and Appeals. Any claimant that believes that its Application for Refund contains confidential information must submit two additional copies of the application in which the confidential information is deleted, together with a statement specifying why the information is confidential.

It is therefore ordered that:

(1) Applications for Refund from the funds remitted to the Department of Energy by the Gasoline Marketers of America pursuant to the agreement finalized on January 28, 1988, may now be filed.

(2) Applications for Refund from the funds remitted to the Department of Energy by Paul Investments, Inc., pursuant to the Consent Order finalized on February 13, 1985, may now be filed.

(3) All Applications for Refund must be filed no later than 90 days after publication of this Decision and Order in the Federal Register.

Dated: October 22, 1990.

George B. Breznay,

Director, Office of Hearings and Appeals.

APPENDIX A.—SCHEDULE OF POTENTIAL REFUNDS (GMA CUSTOMERS)

Customer name	Alleged overcharge amount	Allocable share
Retailers:

Environmental Impact Statements and Regulations, Availability of EPA Comments

Availability of EPA comments prepared October 08, 1990 Through October 12, 1990 pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 382-5073.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 13, 1990 (55 FR 13949).

Draft EISs

ERP No. D-USN-G11010-TX Rating LO, Naval Air Station Chase Field Base Closure and Realignment, Possible NAS Kingsville, TX and NAS Meridan, MS, Implementation, Beeville and Bee County, TX.

Summary EPA has no objection to the proposed project as described.

Final EISs

ERP No. F-BLM-G01010-NM, Fence Lake Federal Coal Project, Lease Approval Catron and Cibola Counties, NM.

Summary, EPA has no objection to the proposed Federal Coal leasing action as described.

Regulations

ERP No. R-NRC-A00170-00, 10 CFR parts 2, 50, and 54: Nuclear Power Plant License Renewal (55 FR 29043).

Summary: EPA will provide background information to NRC and recommends that NRC incorporate geophysical inspections/surveys and preventive damage procedures in seismically active plant locations.

Dated: October 23, 1990.

William D. Dickerson,
Deputy Director, Office of Federal Activities.

Transfer of Data to Contractors

AGENCY: Environmental Protection Agency.

ACTION: Notice of transfer of data and request for comments.

SUMMARY: The Environmental Protection Agency (EPA) will transfer to its contractor, Science Applications International Corporation (SAIC), and their subcontractors: Arthur D. Little, CH2M Hill, Combustion Engineering Environmental, Industrial Economics, Inc., National Conference of State Legislatures, Radian Corporation, Ross & Associates, SCS Engineers, SRA Technologies, Inc., and Wade Miller Associates, information which has been, or will be submitted to EPA under the authority of the Resource Conservation and Recovery Act (RCRA). These firms will assist EPA in writing new standards, revising and expanding existing standards for the solid and hazardous waste management facilities to ensure that they are located, designed, and operated to protect human health and the environment. The contractor and their subcontractors will also evaluate waste management alternatives; develop guidance documents, training materials, and courses to aid in implementation of hazardous and solid waste regulations; and conduct special studies under section 8002 of RCRA on a number of industries that generate large volume waste. Some of the information may have a claim of business confidentiality.

DATES: Transfer of confidential data submitted to EPA will occur no sooner than November 2, 1990.

ADDRESSES: Comments should be sent to Margaret Lee, Document Control Officer, Office of Solid Waste (OS-312), U.S. Environmental Protection Agency, 401 M. Street SW., Washington, DC 20460. Comments should be identified as "Transfer of Confidential Data."

FOR FURTHER INFORMATION CONTACT: Margaret Lee, Document Control Officer, Office of Solid Waste (OS-312), U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20460, (202) 382-3410.

SUPPLEMENTARY INFORMATION:

I. Transfer of Data

The U.S. Environmental Protection Agency is in the process of writing new standards, revising and expanding existing standards for the solid (municipal, commercial, industrial, and large volumes) and hazardous waste management facilities to ensure that they are located, designed, and operated to protect human health and the environment. The EPA is also evaluating waste management alternatives; developing guidance documents, training materials, and courses to aid in implementation of hazardous and solid waste regulations; and conducting special studies under Section 8002 of RCRA on industries that generate large volume wastes.

Under EPA Contract 68-WO-0025, SAIC and their subcontractors will assist the Waste Management Division, Land Disposal Branch and the Municipal Solid Waste Program of the Office of Solid Waste in writing new standards, revising and expanding existing standards for the solid and hazardous waste management facilities to ensure that they are located, designed, and operated to protect human health and the environment. In addition the contractor and their subcontractors will evaluate waste management alternatives; develop guidance documents, training materials, and courses to aid in implementation of hazardous and solid waste regulations; and conduct special studies under section 8002 of RCRA on a number of industries that generate large volume wastes. The information being transferred to SAIC and their subcontractors, may have been or will be claimed as confidential business information (CBI).

In accordance with 40 CFR 2.305(h), EPA has determined that SAIC and their subcontractors require access to confidential business information (CBI) submitted to EPA under the authority of RCRA to perform work satisfactorily under the above noted contract. EPA is issuing this notice to inform all submitters of confidential business information that EPA may transfer to these firms, on a need-to-know basis CBI collected under the authority of RCRA. Upon completing their review of materials submitted, SAIC and their subcontractors will return all such materials to EPA.

SAIC, and their subcontractors, have been authorized to have access to RCRA CBI under the EPA "Contractor Requirements for the Control and Security of RCRA Confidential Business Information" security manual. EPA will approve the security plans of the contractors and will inspect their facilities, and approve them, prior to RCRA CBI being transmitted to the contractors. Personnel from these firms will be required to sign nondisclosure agreements and be briefed on appropriate security procedures before they are permitted access to confidential information, in accordance with the "RCRA Confidential Business Information Security Manual" and the Contractor Requirements Manual.

Dated: September 27, 1990.

Sylvia K. Lawrence,
Acting Assistant Administrator.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collection Requirement Submitted to Office of Management and Budget for Review

October 22, 1990.

The Federal Communications Commission has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1980 (44 U.S.C. 3507).

Copies of this submission may be purchased from the Commission's copy contractor, International Transcription Service (202) 857-3800, 2100 M Street NW., suite 140, Washington, DC 20037. For further information on this submission contact Judy Boley, Federal Communications Commission (202) 632-7513. Persons wishing to comment on this information collection should contact Bruce McConnell, Office of Management and Budget, room 3235 NEOB, Washington, DC 20503 (202) 395-3785.

Please note: The Commission has requested emergency review of this item by October 24, 1990, under the provisions of 5 CFR 1320.18.

OMB Number: None.
Title: Local Exchange Carrier, Tariff Review Plan.
Action: New collection.
Respondents: Business or other for-profit.
Frequency of Response: One time filing requirement.
Estimated Annual Burden: 58 responses; 50 hours average burden per response; 2,900 hours total annual burden.
Needs and Uses: The information is needed to provide a simplified, consistent filing to reflect a new, lower authorized rate of return (adopted by the FCC in October 1990) and to initiate incentive regulation for

some local telephone companies (also adopted by the FCC in October 1990). Respondents are local telephone companies, with the exception of small telephone companies.

Federal Communications Commission.
Donna R. Searcy,
Secretary.

ATTACHMENT A--PRICE CAP
TARIFF REVIEW PLAN

TARIFF REVIEW PLAN DATA GUIDELINES

1. ALL AMOUNTS ARE TO BE IN WHOLE NUMBERS EXCEPT AS SPECIFIED ON A PARTICULAR TABLE.

2. ALL PERCENTAGES ARE TO BE CARRIED OUT TO 2 DECIMAL PLACES EXCEPT WHERE NOTED ON A PARTICULAR TABLE. EXAMPLE; 29 2/3 PERCENT SHOULD BE SHOWN AS 29.67

3. ALL RATIOS ARE TO BE CARRIED OUT TO 4 DECIMAL PLACES EXCEPT WHERE NOTED ON A PARTICULAR TABLE.

4. ALL FOOTNOTES, ADDITIONAL TO THOSE PREPRINTED ON FORMS, SHOULD BE PUT ON A SEPARATE FOOTNOTED PAGE AND INSERTED FOLLOWING THE FORM THEY REFERENCE. THE FOOTNOTE PAGE SHOULD INCLUDE THE COMPANY, STUDY AREA AND FORM TO WHICH THEY PERTAIN.

RULES FOR SUBMISSION OF DATA TO FCC ON MAGNETIC MEDIA

(FOR PRICE CAP AND TIER 1 NON-PRICE CAP COMPANIES ONLY)

1. ALL DATA SHOULD BE SUBMITTED ON 5.25 INCH PC FLOPPY DISKS DOUBLE SIDED DOUBLE DENSITY.

2. ALL FILES SHOULD BE CODED IN ASCII.

3. ALL FILES FOR A FILING ENTITY, I.E. STUDY AREA, OPERATING COMPANY, OR HOLDING COMPANY, SHOULD BE CONTAINED ON A SEPARATE DISK(S).

4. A SEPARATE FILE SHOULD BE PREPARED FOR EACH SEPARATE TABLE OF DATA, E.G., EXG-1, SUM-1, T1WS-1, ETC. THE FILE NAME, FOR EACH TABLE, IS A COMBINATION OF COSA (CO = COMPANY, SA = STUDY AREA, E.G., THE COSA FOR PACIFIC BELL OR CALIFORNIA IS PTCA) PLUS THE TABLE NAME. THE TABLE NAME IS THE TABLE NAME WITHOUT THE HYPHEN, E.G. THE TABLE NAME FOR EXG-1 IS EXG1. THE TABLE NAMES FOR THE RATE OF RETURN CARRIERS EXCLUDE 'T1' OR 'T2', E.G. THE TABLE NAME FOR T1WS-1 IS WS1.

   FOR EXAMPLE, THE FILE NAME FOR TABLE EXG-1 FOR PACIFIC BELL-CALIFORNIA SHOULD BE PTCAEXG1.

5. EACH DATA FILE SHOULD CONTAIN ONLY TABLE ROW NUMBERS AND THE APPROPRIATE NUMBER OF DATA ITEMS PER ROW. DATA MUST BE DELIMITED BY EITHER A COMMA OR SPACE, E.G.:

```
FILENAME PTCAEXG1 [FILE FOR PACIFIC BELL, TABLE SUM-1]
100,12345,12356,12367
110,10010,10021,10032

ETC.

- OR -

100 12345 12356 12367
110 10010 10021 10032

ETC.
```

6. ANY DATA ITEM FOR WHICH NO VALID DATA EXISTS FOR A PARTICULAR FILING ENTITY SHOULD BE POPULATED WITH -99999. IF THE DATA ITEM IS A TRUE ZERO, THEN A 0 (ZERO) SHOULD BE ENTERED.

7. ANY NON-NUMERIC DATA MUST BE ENCLOSED IN QUOTATION MARKS. E.G. DATE FIELD IN EXHIBIT T1WS-3 MUST BE SHOWN AS "07/16/90".

ATTACHMENT B--RATE OF RETURN
TARIFF REVIEW PLAN

TARIFF REVIEW PLAN DATA GUIDELINES

1. ALL AMOUNTS ARE TO BE IN WHOLE NUMBERS EXCEPT AS SPECIFIED ON A PARTICULAR TABLE.

2. ALL PERCENTAGES ARE TO BE CARRIED OUT TO 2 DECIMAL PLACES EXCEPT WHERE NOTED ON A PARTICULAR TABLE. EXAMPLE; 29 2/3 PERCENT SHOULD BE SHOWN AS 29.67

3. ALL RATIOS ARE TO BE CARRIED OUT TO 4 DECIMAL PLACES EXCEPT WHERE NOTED ON A PARTICULAR TABLE.

4. ALL FOOTNOTES, ADDITIONAL TO THOSE PREPRINTED ON FORMS, SHOULD BE PUT ON A SEPARATE FOOTNOTED PAGE AND INSERTED FOLLOWING THE FORM THEY REFERENCE. THE FOOTNOTE PAGE SHOULD INCLUDE THE COMPANY, STUDY AREA AND FORM TO WHICH THEY PERTAIN.

1.

2.

3.

4.

5.

6.

7.

RULES FOR SUBMISSION OF DATA TO FCC ON MAGNETIC MEDIA

(FOR PRICE CAP AND TIER 1 NON-PRICE CAP COMPANIES ONLY)

1. ALL DATA SHOULD BE SUBMITTED ON 5.25 INCH PC FLOPPY DISKS DOUBLE SIDED DOUBLE DENSITY.

2. ALL FILES SHOULD BE CODED IN ASCII.

3. ALL FILES FOR A FILING ENTITY, I.E. STUDY AREA, OPERATING COMPANY, OR HOLDING COMPANY, SHOULD BE CONTAINED ON A SEPARATE DISK(S).

4. A SEPARATE FILE SHOULD BE PREPARED FOR EACH SEPARATE TABLE OF DATA, E.G., EXG-1, SUM-1, T1WS-1, ETC. THE FILE NAME, FOR EACH TABLE, IS A COMBINATION OF COSA (CO = COMPANY, SA = STUDY AREA, E.G., THE COSA FOR PACIFIC BELL OF CALIFORNIA IS PTCA) PLUS THE TABLE NAME. THE TABLE NAME IS THE TABLE NAME WITHOUT THE HYPHEN, E.G. THE TABLE NAME FOR EXG-1 IS EXG1. THE TABLE NAMES FOR THE RATE OF RETURN CARRIERS EXCLUDE 'T1' OR 'T2', E.G. THE TABLE NAME FOR T1WS-1 IS WS1.

   FOR EXAMPLE, THE FILE NAME FOR TABLE EXG-1 FOR PACIFIC BELL-CALIFORNIA SHOULD BE PTCAEXG1.

5. EACH DATA FILE SHOULD CONTAIN ONLY TABLE ROW NUMBERS AND THE APPROPRIATE NUMBER OF DATA ITEMS PER ROW. DATA MUST BE DELIMITED BY EITHER A COMMA OR SPACE, E.G.:

   FILENAME PTCAEXG1 [FILE FOR PACIFIC BELL, TABLE SUM-1]
   100,12345,12356,12367
   110,10010,10021,10032

   ETC.

   - OR -

   100 12345 12356 12367
   110 10010 10021 10032

   ETC.

6. ANY DATA ITEM FOR WHICH NO VALID DATA EXISTS FOR A PARTICULAR FILING ENTITY SHOULD BE POPULATED WITH -99999. IF THE DATA ITEM IS A TRUE ZERO, THEN A 0 (ZERO) SHOULD BE ENTERED.

7. ANY NON-NUMERIC DATA MUST BE ENCLOSED IN QUOTATION MARKS. E.G. DATE FIELD IN EXHIBIT T1WS-3 MUST BE SHOWN AS "07/16/90".

FEDERAL MEDIATION AND CONCILIATION SERVICE

Agency Information Collection Activity Under Review by the Office of Management and Budget

ACTION: Notice: Form R–43 Submitted for review to the Office of Management and Budget.

The Federal Mediation and Conciliation Service (FMCS) has submitted to the Office of Management and Budget (OMB) a request for review of FMCS Form R–43, Request for Arbitration Panel. The request seeks OMB approval to extend the expiration date of Form R–43 from September 30, 1990 to March 30, 1991. The request was submitted pursuant to the Paperwork Reduction Act (44 U.S.C. chapter 35).

Form R–43 is employed by FMCS in order to allow employers and labor organizations to request lists of arbitrators. In most instances a list of seven arbitrators is furnished in response to the submission of a Form R–43. The employer and the labor organization then strike names from the list until they decide, by a process of elimination, on the person who will serve as their arbitrator.

There are approximately 1,600 persons on the FMCS roster of arbitrators. These persons are not employees of the Federal Government, but rather are economists, university professors and other individuals who are professinal arbitrators.

The information furnished on Form R–43 consists generally of the name, address and phone number of the employer, the same information for the labor organization, the location and nature of the dispute, the type of industry involved, any special requirements, and signatures.

The submission of Form R–43 for OMB review is for the purpose of continuing this Form, pending FMCS consideration of changes to the Form and to FMCS arbitration regulations. Additional information pertaining to this Form is as follows:

Agency: Federal Mediation and Conciliation Service

Title: Request for Arbitration Panel.

Form Number: Agency Form R–43; OMB No. 3076–0002.

Type of Request: Extension of expiration date of a currently approved collection without any change in the substance or in the method of collection.

Authority: 29 U.S.C. 171(b) and 29 CFR Part 1404.

Burden: Approximately 27,000 respondents and 4,500 reporting hours per year. Generally, a Form R–43 is filled out only once and the time needed to fill out the Form is about 10 minutes or less.

Needs and Uses: The need for this Form is to obtain information—name, address, phone number, location, type of dispute, type of industry and special requirements—so that this information may be used to respond to requests for list of arbitrators.

Affected Public: Employers and labor organizations.

Frequency: On occasion, as needed by the parties.

Respondents Obligation: Voluntary.

Comments regarding the burden estimate given above, or any other aspect of this information collection, including suggestions for reducing the burden, should be sent to: Diana Rowen, OMB Desk Officer, 725 17th Street, NW., Room 3001, Washington, DC 20503, (202) 395–6880 and Ted M. Chaskelson, General Counsel, Federal Mediation and Conciliation Service, 2100 K Street, NW. 20427 (202) 653–5305.

Dated: October 22, 1990.

Bernard E. DeLury,

Director.

FEDERAL RESERVE SYSTEM

Caisse Nationale de Credit Agricole, S.A.; Acquisition of Company Engaged in Permissible Nonbanking Activities; Correction

This notice corrects a previous Federal Register Notice (FR Doc. 90–21977) published as page 38390 of the issue for Tuesday, September 18, 1990.

Under the Federal Reserve Bank of Chicago, the entry for Caisse Nationale de Credit Agricole, S.A., is amended to read as follows:

A. Federal Reserve Bank of Chicago (David S. Epstein, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. Caisse Nationale de Credit Agricole, S.A., Paris, France; to acquire 49.9 percent of the voting shares of Locasuez America, Inc., New York, New York, and thereby engage in making and servicing loans, investment or financial advisory activities, and leasing activities pursuant to §§ 225.25(b) (1), (4) and (5) of the Board's Regulation Y.

Comments on this application must be received by November 9, 1990.

Board of Governors of the Federal Reserve System, October 22, 1990.

Jennifer J. Johnson,

Associate Secretary of the Board.

Kennon Ray Patterson, Sr., et al., Change in Bank Control Notice, Acquisition of Shares of Banks or Bank Holding Companies

The notificant listed below has applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire a bank or bank holding company. The factors that are considered in acting on notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notice is available for immediate inspection at the Federal Reserve Bank indicated. Once the notice has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for the notice or to the offices of the Board of Governors. Comments must be received not later than November 13, 1990.

A. Federal Reserve Bank of Atlanta (Robert E. Heck, Vice President) 104 Marietta Street, NW., Atlanta, Georgia 30303:

1. Kennon Ray Patterson, Sr., Bishop Kenner Walker, Jr., and Dicey Strickland Childers, as trustees for the Community Bancshares, Inc. Employee Stock Ownership Plan, all of Blountsville, Alabama; to acquire an additional 5.37 percent (totalling 13.42 percent) of the voting shares of Community Bancshares, Inc., Blountsville, Alabama, and thereby indirectly acquire Community Bank, Blountsville, Alabama.

Board of Governors of the Federal Reserve System, October 22, 1990.

Jennifer J. Johnson,

Associate Secretary of the Board.

GENERAL SERVICES ADMINISTRATION

Information Collection Activities Under Office of Management and Budget Review

AGENCY: Office of Acquisition Policy (VP), GSA.

SUMMARY: The GSA hereby gives notice under the Paperwork Reduction Act of 1980 that it is requesting the Office of Management and Budget (OMB) to approve a new information collection, Placement of Orders. This information is used by GSA contractors in the Stock and Special Order Program and the Schedule Program who want to be able

to accept orders through Electronic Data Interchange (EDI) as an alternative to oral or paper delivery orders.

ADDRESSES: Send comments to Bruce McConnell, GSA Desk Officer, Room 3235, NEOB, Washington, DC 20503, and to Mary L. Cunningham, GSA Clearance Officer, General Services Administration (CAIR), 18th & F Street, NW., Washington, DC 20405.

Annual Reporting Burden

Participation in this alternative method of receiving delivery orders under a contract is voluntary and GSA has no basis for calculating the number of contractors that have capability to receive delivery orders through EDI. Unless a contractor is currently using EDI in its private business transactions, it will not participate. Since the procedures and guidelines established in the Trading Partner Agreement (TPA) authorized in this regulation will be what it prudently required under private sector transactions, there will be no additional burden imposed by this collection.

FOR FURTHER INFORMATION CONTACT: Ida M. Ustad, (202) 501–1224.

Copy of Proposal

May be obtained from the Information Collection Management Branch (CAIR), Room 7102, GSA Building, 18th & F St. NW., Washington, DC 20405, by telephoning (202) 501–3931, or by faxing your request to (202) 501–2727.

Dated: October 16, 1990.

Emily Karam,

Director, Information Management Division.

BILLING CODE 6820–61–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Toxic Substances and Disease Registry

[ATSR—30]

Availability of Medical Waste Tracking Act Report

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR), Public Health Service (PHS), Department of Health and Human Services (DHHS).

ACTION: Notice.

SUMMARY: This notice announces the availability of the ATSDR Medical Waste Tracking Act Report, "The Public Health Implications of Medical Waste: A Report to Congress."

The Medical Waste Tracking Act of 1988 (Pub. L. 100–582) (42 U.S.C. 6992) amended the Solid Waste Disposal Act and mandated that within 24 months after enactment (November 1, 1990) the Administrator of ATSDR shall prepare for Congress a report on the health effects of medical waste.

AVAILABILITY: This notice is to announce that the ATSDR Medical Waste Tracking Act Report, "The Public Health Implications of Medical Waste: A Report to Congress" (NTIS Document Number PB 91–100271), is now available by mail from the U.S. Department of Commerce, National Technical Information Service, 5285 Port Royal Rd., Springfield, VA 22151, telephone (703) 487–4650.

FOR FURTHER INFORMATION CONTACT: Maureen Y. Lichtveld, M.D., M.P.H., Division of Health Assessment and Consultation, Agency for Toxic Substances and Disease Registry, 1600 Clifton Road, Mail Stop E–32, Atlanta, Georgia 30333, (404) 639–0610, FTS 236–0610.

SUPPLEMENTARY INFORMATION: On November 1, 1988, the President signed the Medical Tracking Act of 1988 (Pub. L. 100–582), which amended the Solid Waste Disposal Act. Section 11009 of the Medical Waste Tracking Act states (42 U.S.C. 6992h):

Within 24 months after the enactment of this section (November 1, 1988), the Administrator of ATSDR shall prepare for Congress a report on the health effects of medical waste, including each of the following:

(1) A description of the potential for infection or injury from the segregation, handling, storage, treatment, or disposal of medical wastes.

(2) An estimate of the number of people injured or infected annually by sharps, and the nature and seriousness of those injuries or infections.

(3) An estimate of the number of people infected annually by other means related to waste segregation, handling, storage, treatment, or disposal, and the nature and seriousness of those infections.

(4) For diseases possibly spread by medical waste, including Acquired Immune Deficiency Syndrome and hepatitis B, an estimate of what percentage of the total number of cases nationally may be traceable to medical wastes.

Medical waste is defined by the Medical Waste Tracking Act as any solid waste (solid, liquid, or gaseous phase) that is generated in the diagnosis, treatment, or immunization of human beings or animals, in research pertaining thereto, or in the production or testing of biologicals. Medical waste does not include any hazardous waste identified or listed under subtitle C of the Solid Waste Disposal Act or household waste as defined in regulations under subtitle C (42 U.S.C. 6903 (40)).

This notice announces the availability of the final Report. The Report has undergone extensive internal review, has been subjected to scientific and technical peer review by experts both within and outside the federal government, and was available for Public Comment from January 31, 1990 through April 2, 1990 (55 FR 12, page 1770). On the basis of the comments received, the Report was finalized and submitted to Congress on September 28, 1990, as required by the Medical Waste Tracking Act of 1988.

Dated: October 18, 1990.

BILLING CODE 4160–70–M

Alcohol, Drug Abuse, and Mental Health Administration

Partial Suspension of a Laboratory Which No Longer Meets Minimum Standards To Engage in Confirmatory Urine Drug Testing for Amphetamines

AGENCY: National Institute on Drug Abuse, HHS.

ACTION: Notice.

SUMMARY: The Department of Health and Human Services routinely publishes in the Federal Register a list of laboratories certified to meet standards of subpart C of the Mandatory Guidelines for Federal Workplace Drug Testing Programs (53 FR 11970–11996) dated April 11, 1988. This notice informs the public that, effective October 22, 1990, the following laboratory's certification is partially suspended under section 3.14 of the Guidelines:

Roche Biomedical Laboratories, 1912 Alexander Drive, P.O. Box 13973, Research Triangle Park, NC 27709; Telephone (919)–361–7770.

The certification of the above named laboratory is suspended from conducting confirmatory testing of amphetamines. Under the terms of the suspension, the laboratory is required to send a portion of each urine specimen that it determines by initial testing to be positive for amphetamines to another HHS/NIDA certified laboratory for independent testing of the specimen for amphetamines. The result determined by this independent testing will be the result reported.

The laboratory named above continues to meet all requirements for HHS/NIDA certification for testing urine specimens for marijuana, cocaine, opiates and phencyclidine.

FOR FURTHER INFORMATION CONTACT: Mona W. Brown, Press Officer, National Institute on Drug Abuse, room 9-A-54, 5600 Fishers Lane, Rockville, Maryland 20857; telephone (301)-443-6245.

National Institute on Aging; Meetings

Pursuant to Public Law 92-463, notice is hereby given of meetings of the National Institute on Aging.

These meetings will be open to the public to discuss administrative details and other issues relating to committee activities as indicated in the notice. Attendance by the public will be limited to space available.

These meetings will be closed to the public as indicated below in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), title 5, U.S.C. and section 10(d) of Public Law 92-463, for the review, discussion, and evaluation of individual research grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Ms. June C. McCann, Committee Management Officer, National Institute on Aging, Building 31, room 5C06, National Institutes of Health, Bethesda, Maryland, 20892, (301/496-9322), will provide summaries of the meetings and rosters of the committee members upon request.

Other information pertaining to the meetings can be obtained from the Executive Secretary indicated.

Name of Subcommittee: Biological and Clinical Aging Review Subcommittee B.

Executive Secretary: Dr. James Harwood, Building 31, room 5C12, National Institutes of Health, Bethesda, Maryland 20892, Phone: 301/496-9666.

Dates of Meeting: October 29-30, 1990.

Place of Meeting: Building 31, Conference Room 7, National Institutes of Health, Bethesda, Maryland 20892.

Open: October 29—7:30 p.m. to recess.

Closed: October 30—8:30 a.m. to adjournment.

Name of Subcommittee: Biological and Clinical Aging Review Subcommittee A.

Executive Secretary: Dr. Daniel Eskanizi, Building 31, room 5C12, National Institutes of Health, Bethesda, Maryland 20892, Phone: 301/496-9666.

Dates of Meeting: November 7-8, 1990.

Place of Meeting: Bethesda Marriott Hotel, 5151 Pooks Hill Road, Bethesda, Maryland 20814.

Open: November 7—7:30 p.m. to recess.

Closed: November 8-9—8:30 a.m. to adjournment.

Dates of Meeting: November 27-30, 1990.

Place of Meeting: Hyatt Regency Hotel, Bethesda, Maryland.

Open: November 27—7:30 to recess.

Closed: November 28-30—8:30 a.m. to adjournment.

BILLING CODE 4210-29-M

DEPARTMENT OF THE INTERIOR

Office of the Secretary

Government of the Trust Territory of the Pacific Islands

Notice is hereby given that the Secretary of the Interior has issued Order Number 3142 dated October 15, 1990. The Order provides for maximum self-government within the Trust Territory, by continuing to define the extent and nature of the authority of the government of Palau in such Trust Territory, consistent with the authority and responsibilities delegated to the Secretary of the Interior, under Executive order 11021. The Order continues to delegate to the Assistant Secretary, Territorial and International Affairs, the authority of the Secretary of the Interior pursuant to administration of the Trust Territory.

The Order is published in its entirety below.

Additional information regarding the Order may be obtained from Larry L. Morgan, Director, Legislative and Public Affairs, Office of Territorial and International Affairs, U.S. Department of the Interior, 1849 C Street NW., Washington, DC 20240. Telephone number 202-208-4754.

Dated: October 16, 1990.

Stella Guerra,

Assistant Secretary of the Interior.

Order No. 3142

Subject: Government in the Trust Territory of the Pacific Islands

Section 1. *Purpose.* The purpose of this order is: (a) To further promote education, health care, economic development, and public safety in Palau as responsibilities of the United States under the 1947 Trusteeship Agreement with the United Nations Security Council, (b) to continue to the traditions of constitutional self-government in Palau, and (c) to strengthen the close relations of the Department of the Interior and Palau.

This order provides for maximum self-government within the Trust Territory of the Pacific Islands by continuing to define the extent and nature of the authority of government in such Trust Territory, consistent with the authority and responsibilities delegated to the

Secretary of the Interior under Executive Order 11021. Until the future political status of Palau is determined, the United States will continue to discharge its responsibilities as Administering Authority under the Trusteeship Agreement.

Section 2. *Delegation of authority.* The authority of the Secretary of the Interior, with respect to the Trust Territory of the Pacific Islands derived from the President, the Congress, and the Trusteeship Agreement, continues to be delegated to the Assistant Secretary of the Interior for Territorial and International Affairs (hereinafter referred to as "Assistant Secretary"). The Assistant Secretary shall exercise this authority to the extent necessary to ensure that the obligations and responsibilities of the United States under the Trusteeship Agreement are met and that the actions of the government of Palau are consistent with the provisions of the Trusteeship Agreement, this order, and treaties, laws, regulations, and agreements applicable in the Trust Territory of the Pacific Islands. The Assistant Secretary shall consult annually with Palau's President and the presiding officers of its national legislature regarding this order.

Section 3. *Government of the Trust Territory of the Pacific Islands.* The executive, legislative, and judicial functions of the Government of the Trust Territory of the Pacific Islands shall remain delegated to the constitutional government of Palau, subject to the authority of the Assistant Secretary under the Trusteeship Agreement, this order, and treaties, laws, and regulations of the United States applicable in the Trust Territory of the Pacific Islands.

Section. 4. *Interior representative and staffing.* The Assistant Secretary shall appoint a well-qualified and experienced representative to be stationed in Palau who will serve as a liaison between the government of Palau and the Assistant Secretary. In addition, the Assistant Secretary may appoint such professional, technical, and administrative staff (including emergency law enforcement personnel) as may be necessary to carry out official duties and responsibilities under the Trusteeship Agreement. The Assistant Secretary may assist the government of Palau in locating a special prosecutor and a public auditor, as needed, and in the event of a vacancy may appoint a special prosecutor or public auditor, as the case may be, on an interim basis. To the extent authorized by Federal law, the Assistant Secretary may request the assistance of other Federal agencies in meeting responsibilities of the United States, including utilization of Federal law enforcement personnel for the full range of law enforcement responsibilities.

Section 5. *Financial assistance.* The Department of the Interior shall provide annual financial assistance to Palau in such amounts as may be appropriated by the Congress. The Government of Palau shall be invited to participate in the process by submitting an annual budget request to the Assistant Secretary. Such budget request shall detail the amount of assistance needed, the proposed distribution of Federal assistance in accordance with Palau's structure of accounts and the anticipated amounts and distribution of local revenues that are being augmented by this assistance. Upon congressional appropriation, the Assistant Secretary shall issue grants to Palau, which specify the purposes and conditions of the assistance in accordance with Trusteeship responsibilities (including education, health care, economic development, and public safety), congressional directives, and applicable Federal law and regulations. In the grant document, the government of Palau will be given some authority to reprogram administratively. Unless otherwise authorized in a grant or reprogramming, Federal funds may be used only to satisfy obligations incurred for the particular year for which such funds were appropriated or granted, or, in exceptional circumstances, for a subsequent year. Payments made to satisfy obligations of the government of Palau from past years shall be paid out of local Palau funds.

Section 6. *Environmental protection and planning.* In order to protect the exceptional and delicate environment of the Rock Islands and properly for development throughout Palau, a master national development plan shall be developed that is applicable to all of Palau and approved in public law by the government of Palau. Until approval and implementation of such plan, the natural environment of the Rock Islands shall be preserved through a process whereby construction on any rock island in Palau is allowed only after approval on an individual project basis in public law by the government of Palau. Rock Island is defined here as an island of Palau, any part of which lies in the area between the southern-most point of Koror Island and the northern-most point of Peleliu.

According to mutual agreement with the President of Palau regarding steps in the process for development the master plan, including related legislation and times for approval, the Assistant Secretary may offer assistance for developing such a plan, but only if such agreement contains provisions guaranteeing that the plan and related legislation shall be approved in Palau within a reasonable amount of time after the views of Palau authorities have been incorporated and the plan completed.

Section 7. *Borrowing.* The Assistant Secretary shall consult with representatives of the government of Palau regarding amortization of Palau's existing and potential long-term debt.

No government in Palau may borrow funds, except as authorized by the Constitution of Palau. Such borrowing may occur only upon approval of the specific debt in public law by the initiating government and the government of Palau. Any debt instrument or series of related debt instruments in an amount of $250,000 or more shall be submitted to the Assistant Secretary, in advance of receipt of any funds, together with information showing (a) The amount, terms, and conditions of the borrowing; (b) its purpose; (c) the source of funds earmarked for repayment; and (d) the total debt outstanding by the initiating government.

The Assistant Secretary shall disapprove any loan, or curtail or proscribe any borrowing, if analysis reveals that the total amount of outstanding debt is beyond the ability of the borrower to repay or if the requirements of this section for providing information are not fulfilled.

Section 8. *Auditing and accounting.* The Assistant Secretary shall assist Palau in complying with proper accounting principles, internal controls, and audit recommendations, and shall resolve all questions involving Department of the Interior grants.

Section 9. *Grant-in-aid programs.* The President of Palau shall designate an official within the executive branch of the government of Palau whose primary responsibility shall be to coordinate applications for grant-in-aid assistance and to monitor compliance with conditions of such assistance. Such official shall inform the representative regarding applications for, and the status of, grants-in-aid for Palau. The representative shall assist Palau with Federal program participation and requirements.

Section 10. *Relations with other United States Government agencies.* The Assistant Secretary shall assist Palau with regard to its participation in Federal programs. In order to facilitate such assistance, the government of

Palau shall concurrently provide the Assistant Secretary with copies of written communications of the government of a Palau with agencies of the United States, except in those specific cases in which a different procedure is agreed to by the Assistant Secretary.

Section 11. *Relations with Foreign Governments and International Organizations.* During the period of trusteeship, the United States remains responsible for the international relations of Palau. In conducting such relations, the United States will continue to fulfill all of its obligations under the Trusteeship Agreement, particularly its responsibility to foster the development of Palau's economic, political and social institutions.

Official communications and relations by the government of Palau with foreign governments or international organizations (with the exception of the United Nations Trusteeship Council), whether undertaken in Palau or elsewhere, shall occur only with the approval of the Department of State. The Government of Palau shall submit plans for relations with foreign governments and international organizations to the Assistant Secretary, who shall submit them to the Department of State for approval. Using the same channel, the government of Palau shall (a) Obtain Department of State concurrence with any communication that the government of Palau proposes to send to a foreign government or international organization, and (b) provide the Department of State with a copy of incoming communications from or a report on conversations with officials of foreign governments or international organizations. The provisions of the Trusteeship Agreement and the rules of procedure of the Trusteeship Council shall continue to govern Palau's relationship with the Council. The requirements of this section apply to all officials of all governments in Palau, and their representatives.

Section 12. *Capital projects, other contracts and proprietary interests.* The Assistant Secretary shall review requests for capital improvement projects, which must conform to the Palau master national development plan when such plan becomes effective, and the Assistant Secretary shall consult the government of Palau with respect to the priorities and financing of such projects, including private financing. No government in Palau (national, state, or local) may contract, in a single contract or series of related contracts, in an amount of $250,000 or more, or hold any proprietary interest in a business endeavor unless such contract or interest, along with necessary information, has been submitted to the Assistant Secretary for review and has received a statement of no objection from the Assistant Secretary. Such statement shall not constitute an endorsement of a project, contract or endeavor by the United States. Other information that may be requested may include (1) A copy of the applicable Palau law authorizing the project or endeavor, or an opinion of the Palau Attorney General as to its legality; (2) an identification of funds required for the project and their sources; (3) the identity and financial standing of the contractors or parties; (4) documentation regarding the procurement procedures that will be used in awarding the contract; (5) a showing that the project or endeavor complies with land alienation provisions applicable in Palau; (6) an identification of the laws or regulations of the United States, if any, that apply to the project or endeavor; and (7) if necessary, an independent feasibility study. If necessary, the Assistant Secretary may provide technical assistance to aid in meeting the information requirements.

Any contract or endeavor that is not submitted for review or that has not received from the Assistant Secretary a statement of no objection is subject to suspension of construction, at the discretion of the Assistant Secretary, with the government in Palau that ordered the commencement of construction liable for the termination.

Section 13. *Telecommunications.* The Assistant Secretary shall take such steps as may be deemed necessary to insure that telecommunications within Palau are operated in compliance with treaties, laws, and regulations of the United States applicable to the Trust Territory of the Pacific Islands.

Section 14. *Legislation.* In order to achieve greater cooperation with regard to legislation, early communication is essential. Therefore, upon request of the appropriate committee chairman of a legislative body in Palau, the Interior representative shall provide comment, informally or in writing, on legislation under consideration by such legislative body.

Every newly enacted national law in Palau, and every newly enacted state law in Palau that involves finance or the expenditure of funds, shall be submitted by the President of Palau to the Assistant Secretary through the representative within ten (10) days after gaining legislative passage and any other approvals (except the approval of the Assistant Secretary) necessary for such law to become effective within the jurisdiction of the enacting government. Appropriations legislation shall be accompanied by a funds availability analysis from the affected legislative body (agreed to by the affected executive branch) that shows funds to be available, or such legislation itself must provide acceptable sources of funding that cover the entire life of the activity set forth therein.

The Assistant Secretary may suspend such law, or any part thereof, no later than twenty (20) days after receipt of such law by the representative by notifying the President of Palau of the action and the reasons therefor. The Assistant Secretary shall exercise this suspension power only if such law, or part thereof, is inconsistent with the provisions of this order, the Trusteeship Agreement, or with treaties, laws, or regulations of the United States applicable to the Trust Territory of the Pacific Islands.

A decision of the Assistant Secretary to suspend legislation shall become final within thirty days after receipt of notice, unless appealed to the Secretary of the Interior by the President of Palau, on his own behalf or on behalf of another government in Palau. A decision of the Assistant Secretary to suspend legislation that has been timely appealed to the Secretary shall remain in effect until the Secretary provides otherwise. If the suspended legislation was enacted by means of a legislative override of a veto, the President of Palau shall transmit to the Secretary, in timely fashion, any appeal of the affected legislative body, including all related documentation forwarded by such legislative body.

No law shall take effect until the period during which the Assistant Secretary may suspend the law has expired, unless the Assistant Secretary earlier notifies the President of Palau that the authority to suspend the law will not be exercised. Any suspended law shall be null and of no effect unless the Assistant Secretary specifies otherwise in the notification of suspension.

Section 15. *Judicial.* a. The Appellate Division of the High Court of the Trust Territory of the Pacific Islands shall have jurisdiction to review, by *writ of certiorari*, the final decisions of the highest court of Palau in which a decision may be had, that are rendered after January 14, 1968. The rulings of the courts of Palau shall be conclusive on questions of the local law of Palau, except in cases in which the Government of the Trust Territory of the Pacific Islands, the Government of the

United States, its subdivisions and agencies, or its military or civilian personnel are parties. Decisions of the High Court of the Trust Territory of the Pacific Islands shall be final, binding and enforceable according to their terms.

b. The judicial functions provided for in the Occupational Safety and Health Act of 1970 (Pub. L. 91–596; 84 Stat. 1590) relating to Palau shall be performed by the appropriate division of the High Court of the Trust Territory of the Pacific Islands.

Section 18. *Effective date.* This order shall become effective upon signature and may be incorporated in the Manual of the Department of the Interior.

Section 17. *Prior orders.* Secretary's Orders No. 2918 and No. 3119, as amended, are superseded by this order.

Dated: October 15, 1990.

Interim Route Designation and Closure of Route H-001, in Mohave County, AZ

AGENCY: Bureau of Land Management (BLM), Interior.

ACTION: Interim route designation of route HE-001 on Crossman Peak in Mohave County, Arizona. Interim designation to remain in effect until final designation during the update of the Yuma District Resource Management Plan in 1992.

SUMMARY: The Yuma District Manager announced the interim designation of route HE-001 as closed to vehicle use. This action is being taken to provide for public safety, reduce disturbance to critical desert bighorn sheep habitat, and prevent unnecessary environmental degradation of the Crossman Peak Natural Scenic Area.

DATES: Effective from November 26, 1990, until completion of the Yuma District Resource Management Plan update, planned for 1992.

FOR FURTHER INFORMATION CONTACT: Leslie D. Allert, Outdoor Recreation Planner, Havasu Resource Area, 3189 Sweetwater Avenue, Lake Havasu City, Arizona 86403, 602-855-8017.

SUPPLEMENTARY INFORMATION: Public vehicle use of this route brings up the following issues:

Safety. The upper end of the road is extremely rugged and dangerous for vehicle use. The road is about 25 degrees slope, strewn with large rocks and boulders, and has about 75 degrees side slope. Any vehicle that would leave the road, would be a total loss and driver and passengers would be unlikely to survive.

Critical habitat. This area is part of the desert bighorn sheep lambing grounds and yearling use areas. Disturbance of this wildlife and its habitat would have a detrimental effect on the species.

Natural scenic area. As a designated Natural Scenic Area, this area is to be protected against damage to the visual resources. Vehicular use could cause erosive scarring and fires that would degrade the scenic quality of the mountain that provides the scenic backdrop to Lake Havasu City.

Vandalism. The KZUL and Department of Public Safety repeaters location on private land at the end of the road have experienced vandalism. The road leads from the end of Bison Avenue at the upper edge of Lake Havasu City, crossing lands owned by Arizona State Land Department and then entering public lands. The road follows Falls Springs Wash up the western slope of the mountain, ending at the boundary with the private and in T. 14 N., R. 19 W., section 13. The road provides access to a 20-acre private parcel which includes the repeater for the KZUL radio station and Department of Public Safety radio facility. The vegetation on Crossman Peak includes an unusually low elevation, pure stand of pinyon pine (*Pinus monophylla*). Authority to designate routes closed is found in 43 CFR part 8340, § 8342.2 which is authorized under 43 U.S.C. 1701–1782 (Federal Land Policy and Management Act); 37 FR 2877, February 9, 1977 (Executive Order 11644, Use of Off-Road Vehicles of Public Lands); and 42 FR 26959, May 25, 1977 (Executive Order 11989, Use of Off-Road Vehicles of Public Land). The designation criteria is found in part 8340, § 8342.1(a) and 8342.1(b). Persons who violate this closure order are subject to arrest and, upon conviction, may be fined not more than $1,000 and/or imprisoned for not more than 12 months.

Dated: October 15, 1990.

Herman L. Kast,
District Manager.

An Exchange of Public Land, Dona Ana County, NM

AGENCY: Bureau of Land Management (BLM), Interior.

ACTION: Notice of realty action.

SUMMARY: The following described land has been determined to be suitable for disposal by exchange under section 206 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716):

T. 24 S., 3 E., NMPM.
Sec. 21, SE¼SW¼, S½SE¼;
Sec. 28, E½NW¼, NE¼.
T. 25 S., R. 3 E.,

Sec. 34, Part of the N½ (160 acres) west of I–10.

The above land aggregates 480.00 acres. This is a continuation of the exchange process as provided for in the Memorandum of Understanding between the New Mexico State Office BLM and The Nature Conservancy dated September 19, 1988. The proposed conveyance of the above land to TNC is to equalize the exchange running account for non-Federal land that has been previously conveyed to the United States. The subject land has been identified for disposal in the BLM's Record of Decision for the Southern Rio Grande Plan Amendment (December 1986).

EFFECTIVE DATE: Comments on the proposed conveyance must be submitted on or before December 10, 1990.

ADDRESSES: Comments should be sent to the BLM, Las Cruces District, 1800 Marquess, Las Cruces, New Mexico 88005.

FOR FURTHER INFORMATION CONTACT: Marvin M. James at the address above or at (505) 525–8228 or FTS 476–8200.

SUPPLEMENTARY INFORMATION: The land to be conveyed from the United States will be subject to the following reservations, terms, and conditions:

1. A reservation for a right-of-way for ditches or canals constructed by the authority of the United States Act of August 30, 1890 (43 U.S.C. 945).

2. A reservation retaining the geothermal resources and the right to prospect for, mine, and remove the geothermal resources.

3. Subject to the continuance of present livestock grazing use authorized by Bureau of Land Management Grazing Permit Allotment No. 15009, issued to Ms. Paul Price until September 24, 1992 as to the subject public land.

4. All valid existing rights of record.

Publication of this notice in the Federal Register will segregate the public land from appropriations under the public land laws, including the mining laws but not mineral leasing laws. This segregation will terminate upon the issuance of a patent or 2 years from date of publication of this notice in the Federal Register or upon publication of a Notice of Termination.

Any adverse comments will be by the State Director who may sustain, vacate, or modify this realty action. In the absence of any objections, this realty action will become the final determination of the Department of the Interior.

Dated: October 22, 1990.

Richard T. Watts,
Acting District Manager.

[WY-040-01-4730-12]

Filing of Plats of Survey; Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Filing of plats of survey.

SUMMARY: The plats of survey of the following described lands were officially filed in the Wyoming State Office, Bureau of Land Management, Cheyenne, Wyoming, effective 10 a.m., October 12, 1990.

Sixth Principal Meridian

T. 55 N., R. 94 W.

The plat, representing the dependent resurvey of portions of certain lots and subdivisional lines, the subdivision of certain sections, and the metes and bounds survey of the Bighorn Canyon National Recreation Area Boundary, from Angle Points 80 through 123, T. 55 N., R. 94 W., Sixth Principal Meridian, Wyoming, Group No. 502, was accepted September 19, 1990.

T. 56 N., R. 94 W.

The plat, in five sheets, representing the dependent resurvey of portions of certain lots, south boundary and subdivisional lines, the subdivision of certain sections, and the metes and bounds survey of the Bighorn Canyon National Recreation Area Boundary, from Angle Points 45 through 80 and Angle Points 123 through 144, T. 56 N., R. 94 W., Sixth Principal Meridian, Wyoming, Group No. 503, was accepted September 18, 1990.

T. 57 N., R. 94 W.

The plat, in three sheets, representing the dependent resurvey of a portion of the Fourteenth Standard Parallel North, through Range 94 West, portions of the north boundary and subdivisional lines, and the subdivision of certain sections and the metes and bounds survey of the Bighorn Canyon National Recreation Area, from Angle Points 21 through 41 and from Angle Points 144 through 170, T. 57 N., R. 94 W., Sixth Principal Meridian, Wyoming, Group No. 505, was accepted September 19, 1990.

T. 58 N., R. 94 W.

The plat representing the dependent resurvey of a portion of the subdivisional lines, the subdivision of section 32 and the metes and bounds survey of the Bighorn Canyon National Recreation Area Boundary, from Angle Points 170 through 1, T. 58 N., R. 94 W., Sixth Principal Meridian, Wyoming, Group No. 508, was accepted September 19, 1990.

T. 56 N., R. 95 W.

The plat representing the metes and bounds survey of the Bighorn Canyon National Recreation Area Boundary, from Angle Points 41 through 45, T. 56 N., R. 95 W., Sixth Principal Meridian, Wyoming, Group No. 503, was accepted September 19, 1990.

T. 57 N., R. 95 W.

The plat representing the dependent resurvey of portions of the east boundary and subdivisional lines, the subdivision of certain sections and the metes and bounds survey of the Bighorn Canyon National Recreation Area Boundary, from Angle Points 21 through 41, T. 57 N., R. 95 W., Sixth Principal Meridian, Wyoming, Group No. 505, was accepted September 19, 1990.

T. 58 N., R. 95 W.

The plat representing the retracement of the Montana-Wyoming State Boundary between Mile Post 136 and 141, the dependent resurvey of portions of the south boundary, subdivisional lines, and subdivision of section 34, and the survey of the subdivision of certain sections and the metes and bounds survey of Parcel A, section 35 and Bighorn Canyon National Recreation Area Boundary, from Angle Points 1 through 11, T. 58 N., R. 95 W., Sixth Principal Meridian, Wyoming, Group Nos. 503 and 508, was accepted September 19, 1990.

These surveys were executed to meet certain administrative needs of the National Park Service.

ADDRESSES: All inquiries concerning these lands should be sent to the Wyoming State Office, Bureau of Land Management, P.O. Box 1828, 2515 Warren Avenue, Cheyenne, Wyoming 82003.

Dated: October 12, 1990.

Dennis D. Bland,
Acting Chief, Branch of Cadastral Survey.

Blue Mountain and Reading Railroad Company, Modified Rail Certificate

On October 13, 1990, a notice was filed by Blue Mountain and Reading Railroad Company (BM&R) for a modified certificate of public convenience and necessity under 49 CFR 1150.23. BM&R currently operates four lines of railroad under (1) a Second Supplemental Modified Rail Certificate, issued August 23, 1984; and (2) a Modified Rail Certificate, issued June 13, 1988.

BM&R and the Pennsylvania Department of Transportation (PDOT) have entered into a agreement for BM&R to provide common carrier freight service over USRA Line 196 between mileposts 84.70 and 86.05, in Auburn, Berks County, PA. The line to be operated connects with Consolidated Rail Corporation at Shamokin Secondary in Auburn. This notice is filed to obtain a modified certificate for this operation.[1]

This notice must be served on the Association of American Railroads (Car Service Division), as agent of all railroads subscribing to the car-service and car-hire railroads subscribing to the car-service and car-hire agreement, and on the American Short Line Railroad Association.

Dated: October 22, 1990.

By the Commission, Joseph H. Dettmar, Acting Director, Office of Proceedings.

DEPARTMENT OF JUSTICE

Bureau of Prisons

Availability of Environmental Assessment for Conversion of the Way College of Emporia, Kansas to a Federal Prison Camp

AGENCY: Bureau of Prisons, Justice.

ACTION: Notice of availability of an environmental assessment (EA).

SUMMARY:

Proposed Action

The Federal Bureau of Prisons (FBOP) has determined that additional minimum security capacity is needd in its system. The conversion of The Way College, Lyon County, Emporia, Kansas is being evaluated for such a purpose. the proposal calls for the adaptation of the buildings and grounds to accommodate approximately 650 minimum security inmates and a staff of approximately 150 employees. Potential impacts of the proposed action are evaluated by an

[1] USRA Line 196, a former Penn Central line, was acquired by the Commonwealth of Pennsylvania in May 1982. BM&R has been operating the line for some time under an agreement with PDOT, but inadvertently no modified rail certificate was obtained for this operation. BM&R and PDOT have agreed to extend the agreement and this notice has been filed to correct the failure to previously file.

Environmental Assessment (EA) which is available for review and comment.

The campus is comprised of approximately 41 acres and 275,000 square feet of building space distributed among eleven buildings including four dormitories, two libraries, gymnasium, administration/classrooms, chapel, food service building and maintenance/power plant facilities.

The EA focuses on cumulative impacts on topography, soils, geology, hydrology, utilities (i.e., water, sewer, and electric and natural gas supply), socioeconomics, transportation, archaeological or historic resources, and biological resources. The options of no action and alternative sites for the proposed facility are examined.

DATES: Copies of the EA will be available for review at the Emporia Public Library, 110 East Sixth Avenue and the FBOP beginning

October 26, 1990, which will commence a 30 day review and comment period. Comments concerning the EA should be made to the office listed below: Bureau of Prisons, Office of Facilities Development and Operations, Site Acquisition Office, 320 First Street, NW., Washington, DC 20534, (202) 514–6482.

William J. Patrick,

Chief, Office of Facilities Development and Operations, Bureau of Prisons, U.S. Department of Justice.

BILLING CODE 4410-05-M

DEPARTMENT OF LABOR

Office of Secretary

Advisory Commission on United Mine Workers of America (UMWA) Retiree Health Benefits; Extension

In accordance with the provisions of the Federal Advisory Committee Act, and after consultation with the General Services Administration, the Secretary of Labor has determined that an extension to October 31, 1990 of the Advisory Commission on United Mine Workers of America (UMWA) Retiree Health Benefits is in the public interest. The extension is necessary for the Advisory Commission to complete its final report.

The Advisory Commission was created on March 12, 1990 to advise the Secretary of Labor on matters concerning health care issues arising from the United Mine Workers of America (UMWA) 1950 and 1974 Benefit Plans and the effects of resolving these issues on the coal industry as a whole.

The Advisory Commission consists of representatives of the UMWA, the coal operators—both UMWA and nonUMWA, the private insurance industry, academics, actuarial, medical care, and government policy experts, and those with extensive experience in labor law, mediation, and labor negotiation. Other than the Federal Government members, the members of the Advisory Commission shall not be compensated and shall not be deemed to be employees of the United States.

The Advisory Commission will function solely as an advisory body and in compliance with the provisions of the Federal Advisory Committee Act.

Signed at Washington, DC, this 19th day of October 1990.

Elizabeth Dole,

Secretary of Labor.

BILLING CODE 4510-23-M

Employment Standards Administration Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the Federal Register, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., room S–3014, Washington, DC 20210.

Modifications to General Wage Determination Decisions

The numbers of the decisions listed in the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts" being modified are listed by Volume, State, and page number(s). Dates of publication in the Federal Register are in parentheses following the decisions being modified.

General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts". This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country. Subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 783-3238.

When ordering subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the three separate volumes, arranged by State. Subscriptions include an annual edition (issued on or about January 1) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed at Washington, DC this 19th day of October 1990.

Alan L. Moss,

Director, Division of Wage Determinations.

BILLING CODE 4510-27-M

Employment and Training Administration

[TA-W-24, 148 et al.]

Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

TA-W-24,148, Fairchild Aircraft Corp., San Antonio, TX; TA-W-24,148A Crestview Aerospace Corporation, Crestview, FL; TA-W-24,148B Fairchild Gen-Aero Inc., San Antonio, TX.

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on May 18, 1990 to workers of Fairchild Aircraft Corporation, San Antonio, Texas and to workers of Crestview Aerospace Corporation, Crestview, Florida, a subsidiary of Fairchild Aircraft.

Based on new information from the company, production is integrated between Fairchild Gen-Aero in San Antonio and Fairchild Aircraft Corporation, San Antonio, Texas. Workers at Fairchild Gen-Aero produce the avionics and the interior of the aircraft produced by Fairchild Aircraft. Accordingly, the certification is amended by including workers at Fairchild Gen-Aero in San Antonio, Texas. The amended notice applicable to TA-W-24,148 is hereby issued as follows:

All workers of Fairchild Aircraft Corporation, San Antonio, Texas; Crestview Aerospace Corporation, Crestview, Florida and Fairchild Gen-Aero, San Antonio, Texas who became totally or partially separated from employment on or after March 1, 1989 are eligible to apply for adjustment assistance under section 222 of the Trade Act of 1974.

Signed at Washington, DC, this 11th day of October, 1990.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

BILLING CODE 4510-30-M

[TA-W-20,948 et al.]

Halliburton Geophysical Services, Inc.; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In the matter of TA-W-20,948, Geophysical Services, Inc., Stafford, TX; TA-W-21,184, Geosource, Inc., Operating in 27 States; TA-W-22,223, Geophysical Service, Inc., Dallas, TX; TA-W-22,224, Geophysical Service, Inc., in 42 States.

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued Certifications of Eligibility To Apply for Worker Adjustment Assistance on November 11, 1988 (TA-W-20,948) and on February 9, 1989 (TA-W-22,223 and TA-W-22,224) applicable to all workers of Geophysical Service, Inc., Stafford, Texas, Dallas, Texas and at various locations in 42 States, respectively. A Certification was also issued on November 25, 1988 to workers of Geosource, Inc. (TA-W-21,184). Certification (TA-W-21,184) was amended on April 25, 1990 to include workers in all locations in 27 States.

At the request of the State Agency the Department reviewed the instant certifications for Geophysical Services, Inc., and Geosource, Inc., and found that Halliburton Geophysical Services, Inc., Houston, Texas, meets all the requirements for a successor-in-interest firm.

Signed at Washington, DC, this 12th day of October 1990.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

[TA-W-24,712 & TA-W-24,715]

Hazlehurst Lingerie Co., Glennville Lingerie Co., Hazlehurst and Glennville, GA; Termination of Investigation

Pursuant to Section 221 of the Trade Act of 1974, an investigation was initiated on August 13, 1990 in response to a worker petition which was filed on behalf of workers at Hazlehurst Lingerie Company and Glennville Lingerie

Company, Hazlehurst and Glennville, Georgia.

The petitioner has requested that the petition be withdrawn. Consequently further investigation in this case would serve no purpose; and the investigation has been terminated.

Signed in Washington, DC, this 17th day of October, 1990.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

[FR Doc. 90-25412 Filed 10-25-90; 8:45 am]

BILLING CODE 4510-30-M

[TA-W-24,302 et al.]

Tucker Drilling Co., Inc., San Angelo, TX; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In the matter of TA-W-24,301 San Angelo, TX; TA-W-24,301A Kermit, TX; TA-W-24,301B Big Lake, TX; TA-W-24,301C Andrews, TX; TA-W-24,301D Odessa, TX.

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on June 8, 1990, applicable to all workers of Tucker Drilling Company, Inc., and its affiliate TDC Supply, Inc., both of San Angelo, Texas. The notice was published in the **Federal Register** on July 26, 1990 (55 FR 26035).

At the request of the State Agency, the Department reviewed its investigation and found that TDC Supply had other locations which had worker separations during the relevant period. The Department also found that a substantial portion of TDC Supply's activities were for the Tucker Drilling Company. Also, TDC Supply was sold on November 17, 1989 to the Union Supply Company. Therefore, the certification in amended by including worker separations at all locations of TDC Supply, Inc. through November 16, 1989. The amended notice applicable to TA-W-24,301 and TA-W-24,302 is hereby issued as follows:

All workers of TDC Supply, Inc., San Angelo, Texas; Big Lake, Texas; Kermit, Texas; Andrews, Texas and Odessa, Texas who became totally or partially separated from employment on or after March 30, 1989 and before November 17, 1989 and all workers of the Tucker Drilling Company, Inc., San Angelo, Texas who became totally or partially separated from employment on or after March 30, 1989 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, DC this 15th day of October 1990.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

[FR Doc. 90-25414 Filed 10-25-90; 8:45 am]

BILLING CODE 4510-30-M

Mine Safety and Health Administration

[Docket No. M-90-133-C]

Peabody Coal Co.; Petition for Modification of Application of Mandatory Safety Standard

Peabody Coal Company, P.O. Box 373, St. Louis, Missouri 63166, has filed a petition to modify the application of 30 CFR 75.1105 (housing of underground transformer stations, battery-charging stations, substations, compressor stations, shops, and permanent pumps) to its Mine No. 10, (I.D. No. 11-00585) located in Christian County, Illinois. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that air currents used to ventilate structures or areas enclosing electrical installations be coursed directly into the return.

2. Petitioner states that application of the standard would result in a diminution of safety for the following reasons:

(a) Airborne dust would be deposited in and on the electrical components of the transformers, causing arcing between components;

(b) Air velocities would be increased on track and belt entries; and

(c) Areas of unstable roof could fall, pushing out return stoppings and causing return air to be coursed over electrical installations.

3. As an alternate method, the petitioner proposes to use dry type, sheet steel enclosed electrical transformers equipped with safety equipment, installed in crosscuts adjacent to the track entry where they can be observed, maintained, and kept clean and dusted. Fire sensors would be placed above the transformers. Belt and track entries would not be used to ventilate the working sections.

4. For these reasons, the petitioner requests a modification of the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before November 26, 1990. Copies of the petition are available for inspection at that address.

Dated: October 10, 1990.

Patricia W. Silvey,

Director, Office of Standards, Regulations and Variances.

[FR Doc. 90-25415 Filed 10-25-90; 8:45 am]

BILLING CODE 4510-43-M

Occupational Safety and Health Administration

[Docket No. NRTL-1-89]

ETL Testing Laboratories, Inc.; Request for Expansion of Recognition as Nationally Recognized Testing Laboratory

AGENCY: Occupational Safety and Health Administration, Department of Labor.

ACTION: Notice of request for expansion of recognition as a Nationally Recognized Testing Laboratory.

SUMMARY: This notice announces the application of the ETL Testing Laboratories, Inc., for expansion of its recognition as a Nationally Recognized Testing Laboratory (NRTL) under 29 CFR 1910.7, and presents the Agency's preliminary finding.

DATES: The last date for interested parties to submit comments is November 26, 1990.

ADDRESSES: Send Comments to: NRTL Recognition Program, Office of Variance Determination, Occupational Safety and Health Administration, U.S. Department of Labor, Third Street and Constitution Avenue, NW., room N3653, Washington, DC 20210.

FOR FURTHER INFORMATION CONTACT: James J. Concannon, Director, Office of Variance Determination, NRTL Recognition Program, Occupational Safety and Health Administration, U.S. Department of Labor, Third Street and Constitution Avenue, NW., room N3653, Washington, DC 20210.

Notice of Application

SUPPLEMENTARY INFORMATION: Notice is hereby given that the ETL Testing Laboratories, Inc., (ETL), which previously made application pursuant to section 6(b) of the Occupational Safety and Health Act of 1970, (84 Stat. 1593, 29 U.S.C. 655), Secretary of Labor's Order No. 9-83 (48 FR 35763), and 29 CFR 1910.7 for recognition as a Nationally

Recognized Testing Laboratory (see 54 FR 6411, 2/28/89), and which was so recognized (see 54 FR 37345, 9/13/89), has made application for an expansion of its current recognition, for the equipment or materials listed below.

The addresses of the concerned laboratories are:

ETL Testing Laboratories, Inc., Cortland Safety Division, Industrial Park, Cortland, New York 13045.

ETL Testing Laboratories, Inc., 3655–P Oakbrook Parkway, Norcross, Georgia 30093.

ETL Testing Laboratories, Inc., West Coast Division, 660 Forbes Boulevard, South San Francisco, California 94080.

Expansion of Recognition

ETL Testing Laboratories, Inc. (ETL) submitted an application for expansion of its current recognition, (Exhibit 13A), to include the following test standards, which are appropriate within the meaning of 29 CFR 1910.7(c).

ANSI/UL 5—Surface Metal Electrical Raceways and Fittings
UL 181—Factory Made Air Ducts and Connectors
UL 478—Draft Equipment
ANSI/UL 510—Insulating Tape
ANSI/UL 521—Floor-Finishing Machines
ANSI/UL 651—Schedule 40 and 80 PVC Conduit
ANSI/UL 674 (1)—Electric Motors and Generators for Use in Hazardous Locations, Class I, Groups C and D, Class II, Groups E, F, and G
ANSI/UL 698 (2)—Industrial Control Equipment for Use in Hazardous (Classified) Locations
UL 746C—Polymeric Materials—Use in Electrical Equipment Evaluations
ANSI/UL 756—Coin and Currency Changers and Actuators
ANSI/UL 823 (2)—Electric Heaters for Use in Hazardous (Classified) Locations
ANSI/UL 844 (2)—Electric Lighting Fixtures for Use in Hazardous (Classified) Locations
ANSI/UL 857—Electric Busways and Associated Fittings
ANSI/UL 894 (2)—Switches for Use in Hazardous (Classified) Locations
ANSI/UL 916—Energy Management Equipment
ANSI/UL 924—Emergency Lighting and Power Equipment
ANSI/UL 961—Hobby and Sports Equipment
ANSI/UL 1002 (2)—Electrically Operated Valves for Use in Hazardous Locations, Class I, Groups A, B, C, and D, and Class II, Groups E, F, and G
ANSI/UL 1037—Antitheft Alarms and Devices
ANSI/UL 1069—Hospital Signaling and Nurse-Call Equipment
UL 1604—Electrical Equipment for Use in Class I and II, Division 2, and Class III Hazardous (Classified) Locations
UL 1950—Information Technology Equipment Including Electrical Business Equipment
ANSI Z21.56 (3)—Direct Vent Central Furnaces
ANSI Z83.19 (3)—Direct Gas-Fired Industrial Air Heaters

(1)—Testing and certification is limited to Class I, Division I locations.
(2)—Testing and certification is limited to equipment designed for use with "liquefied petroleum gas" ("LPG" or "LP-GAS").

In addition, in a letter from ETL dated April 5, 1990, a request was made to include additional test standards, (Exhibit 13B), of which the following were applicable:

ANSI/UL 44—Rubber-Insulated Wires and Cables
UL 910—Test Method for Fire and Smoke Characteristics of Electrical and Optical-Fiber Cables Used in Air Handling Spaces
UL 1459—Telephone Equipment
UL 1581—Reference Standard for Electrical Wires, Cables, and Flexible Cords
UL 1666—Standard Test for Flame Propagation Height of Electrical and Optical-Fiber Cables Installed Vertically in Shafts

The NRTL Recognition Program staff made an in-depth study of the details of ETL's application, amendments, and supplementary material and determined that an additional on-site visit to the Cortland facility was not warranted. A report on the "Expansion of ETL's Recognition under the NRTL Program", dated August 7, 1990, was prepared (see Exhibit 13C).

Preliminary Finding

Based upon a review of the details of ETL's recognition, an evaluation of its present application including details of necessary test equipment, procedures, and special apparatus or facilities needed, and the NRTL staff's report on the expansion of ETL's recognition, the Assistant Secretary has made a preliminary finding that the equipment and expertise required to list products to the aforementioned standards are within the capabilities of the laboratory, and that the proposed additional test standards (product categories) can be added to ETL's recognition.

All interested members of the public are invited to supply detailed reasons and evidence supporting or challenging the proposed expansion of the current recognition of the ETL Testing Laboratories, Inc., as required by 29 CFR 1910.7. Submission of pertinent written documents and exhibits shall be made no later than November 26, 1990, and must be addressed to the NRTL Recognition Program, Office of Variance Determination, room N 3653, Occupational Safety and Health Administration, U.S. Department of Labor, Third Street and Constitution Avenue NW., Washington, DC 20210.

Copies of all pertinent documents (Docket No. NRTL–1–89), are available for inspection and duplication at the Docket Office, room N 2634, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address.

Signed at Washington, DC, this 19th day of October 1990.

Gerard F. Scannell,
Assistant Secretary.

NUCLEAR REGULATORY COMMISSION

Possible Safety Impacts of Economic Performance Incentives; Draft Policy Statement

AGENCY: Nuclear Regulatory Commission.
ACTION: Draft policy statement.

SUMMARY: This statement presents the policy of the Nuclear Regulatory Commission (NRC) with respect to the possible safety impacts of economic performance incentive programs established by State commissions regulating electric utilities. The policy statement (1) contains a discussion of the potential impact of the policies and actions of State regulatory bodies, emphasizing that such actions can have either a positive or negative impact on public health and safety; (2) reflects the Commission's concern that certain forms of economic performance incentive regulation have the potential for adversely affecting nuclear plant operation and public health and safety; (3) specifically identifies those methods or approaches that are of particular concern (e.g. use of sharp thresholds, measurement of performance over very short time intervals, lack of "null zone," and inappropriate reliance on SALP scores); (4) indicates that the NRC will continue to monitor the application of economic performance incentives and performance criteria to nuclear power plant operations; and (5) urges licensees and State regulatory commissions to apprise the NRC of economic performance incentive programs that are being considered for application to NRC licensees.

DATES: The comment period expires on December 10, 1990. Comments received after this time will be considered if it is practical to do so, but assurance of consideration cannot be given except for comments received on or before this date.

ADDRESSES: Mail written comments to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch. Deliver comments to One White Flint North, 11555 Rockville Pike, Rockville, Maryland between 7:30 a.m. and 4:15 p.m. Federal workdays. Comments may also be delivered to the NRC Public Document room, 2120 L Street NW., Washington, DC, between 7:45 a.m. and 4:15 p.m. Copies of comments received may be examined at the NRC Public Document room.

FOR FURTHER INFORMATION CONTACT: Anthony T. Gody, Sr., Chief, Policy Development and Technical Support Branch, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone: (301) 492-1254.

SUPPLEMENTARY INFORMATION:

Introduction

After reviewing the information on economic performance incentive programs put in place by State regulatory commissions that regulate the economic returns of utilities operating nuclear power plants, the Commission has decided that it would be appropriate to set forth its views on the possible safety impacts of such programs in a Commission Policy Statement.

Background

In the exercise of their jurisdiction over the economics of the generation of electricity, a number of State regulatory commissions and the Federal Regulatory Commission have established economic performance incentive programs relating to electric power plants. Some programs have existed unchanged for a number of years, whereas others have been substantially modified or are newly established. They can play an important role in improving the economic performance of electric power plants. They can also have an impact on the safety of nuclear power plants. The NRC monitors and evaluates these incentive programs to determine their possible impact on the safe operation of nuclear power reactors. The NRC firmly believes that these programs should not create incentives to operate a plant when it should be shut down for safety reasons.

Statement of Policy

The Commission's views on economic performance incentive programs are as follows:

Potential Impacts

The NRC recognizes that the existing programs vary considerably from State to State and that the plans are not easily classified, especially as to their possible impact on safe plant operations. However, certain general characteristics of programs can be evaluated and found to be either desirable (or at least neutral) or undesirable in their safety impact.

A desirable plan provides incentives to make improvements in operation and maintenance that result in long-term

improvement in the reliability of the reactor, main generator and their support systems. An undesirable plan provides incentives to operate a facility with potential safety problems or to start up before fully ready merely to meet an operational goal.

A desirable economic performance incentive rewards a utility for a sound operations and maintenance program and for correcting recurrent or predictable failures or other potential problems that could lead to an operational transient, unplanned plant outage or derating. Such an incentive is desirable because a well run plant and prompt correction of problems enhance safety. Unanticipated transients and shutdowns challenge operators and safety systems and, although a low probability, could initiate a more serious event. Improved performance in a utility's operational organization, which can be encouraged by economic performance incentives, can be conducive to improving both safety and economic performance.

The current influence of incentive plans on reactor safety is believed to be small. However, the Commission's concern with incentive plans is that, in the interest of real or perceived short-term economic benefit, utilities might hurry work, take short cuts, or delay a shutdown for maintenance in order to meet a deadline, a cost limitation, or other incentive plan factor. Such a program could encourage, directly or indirectly, the adoption of actions designed to maximize measured performance in the short term at the expense of plant safety (public health and safety). If a licensee keeps a reactor online when it should be taken down for preventive or corrective maintenance and uses shortcuts or compressed work schedules to minimize down time, these actions could adversely impact safety.

Potential Adverse Impacts on Plant Operation and Public Health and Safety

Some specific features of incentive plans now used by some States could adversely affect public health and safety. These features are (1) sharp thresholds between rewards and penalties, (or between penalties and null zones, or rewards and null zones) and (2) performance measurements having short time intervals.

A sharp threshold occurs when a licensee misses a target capacity factor and must bear a large part or all of the resulting replacement power costs. A sharp threshold provides an incentive to continue plant operation to achieve a target capacity factor to avoid the large replacement power cost or to earn a substantial reward. This type of incentive could divert attention from safe plant operation.

Performance measurements for short-term intervals provide incentives to focus on a short term target, such as a higher capacity factor or availability factor. This target could become the primary focus, diverting attention from long-term goals of reliability and operational safety. In contrast, performance measurements for long-term intervals provide incentives to the utility to follow sound maintenance and operational practices and make system and component changes so that the licensee improves operating performance in terms of availability and capacity factors.

Short-term measurements tend to make safety and economic goals conflict; long-term measurements tend to make the two goals complementary.

Specific Features That Cause NRC Concern

Sharp thresholds and short-term performance measures can adversely impact safety. In addition, plans that use NRC periodic performance assessments and performance indicators of the NRC or industry as a basis for rewards or penalties present several major concerns. First, the NRC's Systematic Assessment of Licensee Performance (SALP) was developed to assist the NRC in assessing the performance relative to the safety of individual facilities and to serve as a basis for communicating to the licensees. It therefore addresses selected areas of licensee activity, but does not necessarily cover all significant performance areas. Further, the scores are not based on absolute quantitative considerations, and therefore the significance of the actual numerical score is limited. The NRC staff expects licensees to focus on the facts in the SALP report, the issues identified, and the apparent root causes of problems. The prospect of financial rewards or punishments for licensees based on SALP ratings causes concern in that it may change the focus of the SALP process from the underlying issues, where it should properly be, to the numerical ratings themselves. If the issues identified in a SALP report are obscured by concerns over the financial consequences incurred as a result of that rating, the process may not achieve the desired objective and may instead result in a licensee adopting corrective actions which produce rapid results rather than those which yield the highest increase in safety in the long term.

Similarly, performance indicators were developed to assist the NRC and licensees in identifying trends and areas of performance that should receive a more detailed assessment. Inappropriate emphasis on these indicators in an incentive program could direct a licensee's attention toward improving the scores by possibly inappropriate means rather than toward identifying and correcting underlying safety conditions.[1]

Continued NRC Monitoring Program

The NRC will periodically survey State regulatory commissions having rate regulation over power reactors and the Federal Energy Regulatory Commission (FERC) to identify any new programs or substantial changes in existing programs and to ascertain how the programs have been implemented, in particular whether large penalties have been imposed.

We plan to update the survey annually. We will periodically assess the frequency of the surveys to determine the need for schedule adjustments.

Licensees and Utility Commissions Urged To Inform NRC of Program Initiatives

The NRC needs to be apprised of economic performance incentive programs that are being planned by State regulatory commissions and that can impact safety. Frequently, these programs are developed in coordination with regulated utilities. Therefore, the NRC will be requesting that licensees report whenever these commissions are developing or substantially revising economic performance incentives. The NRC also will be asking FERC and the State utility regulatory commissions to discuss with the NRC initiatives to impose or change an economic performance incentive program that applies to an NRC licensee. The objective will be that the NRC be informed of the principal features of the program so that its likely impact on plant safety can be assessed. Further, the NRC will be requesting licensees to report the penalties assessed through these programs as they occur. A free exchange of information between the

[1] For further information on existing economic incentive programs and the possible impact of such programs on nuclear safety, see NUREG/CR-5008, "Incentive Regulation of Nuclear Power Plants by State Public Utility Commissions", 1988. Copies of NUREG/CR-5008 may be purchased from the Superintendent of Documents, U.S. Government Printing Office, P.O. Box 37082, Washington, DC 20013-7082. Copies are also available from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161. A copy is also available for public inspection and/or copying at the NRC Public Document room, 2120 L St., NW., Washington, DC.

NRC and the agencies with economic jurisdiction will assist the NRC and those agencies to work together in their pursuit of the goals of safe and economical operation of nuclear power plants.

Dated at Rockville, Maryland, this 22nd day of October, 1990.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

OFFICE OF PERSONNEL MANAGEMENT

Request for Extension of OF-300 Submitted to OMB for Clearance

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1980 (title 44, U.S. Code, chapter 35), this notice announces a proposed unchanged extension of a form which collects information from the public. Optional Form 300, Qualifications Analysis and Appraisal of Candidates for Supervisory Positions, is completed by the employers and/or co-workers of applicants for supervisory positions throughout the Federal Government. The qualification standard for supervisory positions in General Schedule occupations (GS–15 and below) contained in the Qualification Standards Handbook, recommends the use of this form to facilitate the collection of information used in evaluating supervisory candidates. Approximately 400 forms are completed annually and require about 15 minutes to complete for a total burden of 100 hours. For copies of this proposal, call C. Ronald Trueworthy on (202) 606–2261.

DATES: Comments on this proposal should be received within 10 working days from the date of this publication.

ADDRESSES: Send or deliver comments to:

C. Ronald Trueworthy, Agency Clearance Officer, U.S. Office of Personnel Management, room 6410, 1900 E Street, NW., Washington, DC 20415,

and

Joseph Lackey, Information Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, room 3002, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Stephen Perloff (202) 606–2557.

U.S. Office of Personnel Management.

Constance Berry Newman,

Director.

BILLING CODE 6325-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-28358; File No. SR-CBOE-90-08]

Self-Regulatory Organizations; the Chicago Board Options Exchange, Inc.; Order Approving Proposed Rule Change and Notice and Order Granting Accelerated Approval to Amendments No. 3, 4, 5, and 6 Relating to Trading in Stocks, Warrants, and Securities Other Than Options

I. Introduction

On April 27, 1990, the Chicago Board Options Exchange ("CBOE" or "Exchange") submitted to the Securities and Exchange Commission ("SEC" or "Commission"), pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act") [1] and Rule 19b–4 there under,[2] a proposed rule change to establish rules governing the trading of stocks, warrants, and other securities instruments and contracts on the CBOE. Amendments Number 1, 2, 3, 4, 5, and 6 submitted on June 19, July 24, September 14, October 16, October 17, and October 19, 1990, respectively, proposed additional changes to the proposed rule change.[3]

[1] 15 U.S.C. 78s(b)(1) (1982).

[2] 17 CFR 240.19b–4 (1989).

[3] In Amendment No. 1, the CBOE proposed, among other things, a requirement that issuers have a minimum stock price of $5 per share and a minimum public market value of $3,000,000 to list an equity security on the Exchange. The changes proposed by the CBOE in Amendment No. 2 include the addition of rules governing the trading of odd-lots, modifications to the Exchange's alternate listing criteria for research and development issuers, and clarification of the Exchange's margin requirements for market-makers. Amendment No. 3 provides that adjusted Intermarket Trading System ("ITS") bids and offers will be used to execute odd-lot market orders and requests accelerated approval. Amendments No. 4 and 5, which are both non-substantive amendments clarifying points that were included already in the CBOE proposal, make clear that the CBOE will trade stocks and related options on separate trading floors and that the Exchange's listing criteria are fixed requirements which are not discretionary as to their application. Amendment No. 5 also deletes Interpretation and Policy .02 to Rule 30.40, to correct an error in the original proposed rule change The CBOE requests accelerated approval of Amendments No. 4 and 5. In Amendment No. 6, the CBOE proposes to establish a requirement that all CBOE-listed companies have an audit committee comprised entirely of independent directors. The CBOE requests accelerated approval of Amendment No. 6.

The proposed rule change and Amendments Number 1 and 2 were published for comment in Securities Exchange Act Release No. 28015 (May 14, 1990), 55 FR 21280 (May 23, 1990) and Securities Exchange Act Release No. 28280 (July 31, 1990), 55 FR 32161 (August 7, 1990). One comment letter was received by the Commission on the proposal.[4]

II. Description of the Proposal

The CBOE currently is an options marketplace listing and trading options on more than 300 listed and over-the-counter equity securities, index options based on the Standard & Poor's ("S&P") 100-Stock Price Index ("S&P 100") and the S&P 500-Stock Price Index ("S&P 500"), market baskets, and options based on United States treasury bonds and notes. The CBOE proposes to expand its current market by authorizing the trading on the Exchange of stocks, warrants, and other securities instruments and contracts, other than options, on either a listed or unlisted basis. To facilitate the trading on the Exchange of these securities instruments, the CBOE proposes to amend substantially the existing rules of its Board of Governors.

Currently, the CBOE rules in chapters I through XIX govern the trading on the Exchange of options.[5] Under the CBOE proposal, these rules would be expanded to include two new chapters setting forth the rules that would govern the trading and listing on the Exchange of stocks, warrants, and other securities instruments and contracts, chapter XXX, entitled *Stocks, Warrants and Other Securities*, and chapter XXXI, entitled, *Approval of Securities for Original Listing*. These two new chapters would consist of rules governing, among other things, trading procedures and practices on the Exchange floor, the ITS Plan, procedures for the settlement of securities transactions, original listing and maintenance criteria, suspension and delisting policies, and listing application procedures and fees. In addition to adding two new chapters, the CBOE proposes to modify several of its existing options rules to make them applicable to the trading of securities other than options.

Under the proposal, in addition to the trading of options, and options products, the Exchange would trade stocks, warrants, including currency and index

[4] See note 22, *infra* and accompanying text.

[5] The complete CBOE rules are comprised of chapters I through XXVI, with chapters XXI through XXVI setting forth specific rules governing options products, such as Index Options and Market Baskets.

BEST COPY AVAILABLE

warrants, and such other securities instruments and contracts as the CBOE Board of Directors may from time to time declare subject to its proposed new rules.[6] The new rules proposed as chapter XXX would be applicable only to the trading of stocks and warrants, and such other securities instruments and contracts as determined subject to these rules by the CBOE Board of Directors. Securities subject to the chapter XXX rules would also be subject to the existing CBOE rules in chapters I through XIX to the same extent as those rules presently apply to options contracts, unless otherwise supplemented by the new rules in chapter XXX.[7] In instances where existing CBOE rules have been replaced by particular rules in chapter XXX, stocks, warrants, and other securities would be governed only by the rules in new chapter XXX.

The existing rules of the Exchange that apply to options already address many of the subjects that are applicable to a national securities exchange engaged in trading of securities other than options. Consequently, the CBOE proposal amends its rules only as necessary to incorporate any additional or differing standards that are necessary for the trading of such securities. In addition, the Commission notes that many of the CBOE's proposed rules applicable to the trading of such securities are patterned after existing rules of several of the existing national securities exchanges.[8] For instance, the CBOE has proposed standards for the intitial and continued listing of stock and other securities on the Exchange, including listing standards for common stock, preferred stock, bonds and debentures, warrants, and currency and index warrants.[9] With slight variations, the CBOE's proposed listing standards are the same as the existing listing standards on the American Stock Exchange ("Amex"), *e.g.*, to list common stock on the CBOE, an issuer must have: A net worth (defined as total assets, including the value of patents, copyrights, and trademarks, but excluding the value of goodwill, less total liabilities) of $4,000,000; pre-tax income of $750,000 in its last fiscal year, or in two of its last three fiscal years and net income of at least $400,000; a public distribution of shares as follows: 500,000 shares and 800 holders, or 1,000,000 shares and 400 holders, or 500,000 shares and 400 holders with an average daily trading volume of 2,000 shares for the six months prior to the listing application; a minimum price per share of $5; and a $3,000,000 market value of shares publicly held. Three significant aspsects of the CBOE's proposal that are different from other national securities exchanges are discussed below.

The CBOE currently employs a competitive, multiple market-maker system to trade options on its trading floor. Under this system, the Exchange uses no specialist; instead, CBOE "market-makers" compete with one another on the trading floor as dealers for their own accounts. The Exchange has a separate Order Book Official ("OBNO")[10] who operates the public order book.[11] CBOE floor brokers act only as agents and execute customer and firm proprietary orders. In addition, the CBOE currently has a specialist-type trading system in the form of Designated Primary Market-Makers ("DPMs") in various options classes. A DPM, who has a number of functions resembling those of a specialist, is a CBOE member who functions in approved options classes as a market-maker, and in the place of the OBO, the agent for the limit order book.[12] For instance, when acting as a market-maker, the DPM is obligated to fulfill all obligations of a market-maker in his or her appointed option class or classes. When acting in the place of the OBO in appointed options classes, the DPM must fulfill his or her obligation of due diligence and all other obligations associated with these functions.[13]

Under the proposal, the CBOE will use its competitive, multiple market-maker system to trade stocks, warrants, and securities other than options.[14] As is the case with certain options classes, an OBO or DPM would manage the public order book. With regard to whether a DPM would be appointed for certain stocks, warrants, and other securities, the CBOE intends to offer or place all of these new securities to be traded up for DPM selection in a manner similar to its existing procedure for allocating new option classes in Rule 8.80.[15] As is currently the case with options trading on the Exchange floor, the essential functions of a specialist would be fulfilled by market makers, OBOs, or DPMs. Floor brokers would act as agents and execute customer and firm proprietary orders on the CBOE floor. While Floor Brokers also could function as market-makers, they are restricted to

---

[6] The CBOE recently filed with the Commission a proposed rule change in trade on the Exchange interests in unit investment trusts ("UIT interests"). See Securities Exchange Act Release No. 28132 (June 19, 1990), 55 FR 26000 (June 26, 1990) (File No. SR–CBOE–90–13). The CBOE rule filing defines UIT interests as any share, unit or other interest in or relating to a unit investment trust, including any component resulting from the subdivision or separation of such an interest. As of this date, this rule filing still is under review by the Commission.

[7] Appendix A to chapter XXX lists the Exchange rules in chapters I through XIX that apply to the trading of stocks, warrants, and other securities, and, where applicable, indicates that a rule in chapter I through XIX is supplemented by a rule in chapter XXX.

[8] For instance, many of the CBOE's proposed rules in new chapters XXX and XXXI, as well as many changes to its existing options rules, are similar to existing rules of the New York and American Stock Exchanges.

[9] As discussed previously, the Commission is currently reviewing a proposed rule change filed by the CBOE to trade UIT interests on the Exchange. See Securities Exchange Act Release No. 28132 (June 19, 1990), 55 FR 26000 (June 26, 1990) (File No. SR–CBOE–90–13). In that filing, the CBOE proposes standards for the intitial and continued listing of UIT interests on the Exchange.

[10] The OBO is an exchange employee who maintains the public customer limit book in the class of options assigned to him or her and is responsible for ensuring that orders placed with him or her on the book are executed properly. See CBOE Rule 7.1

[11] Most national securities exchanges use a specialist system to trade securities. For instance, the Philadelphia, New York, and American Stock Exchanges centralize the functions of market maker and OBO in the person of a specialist. The Cincinnati Stock Exchange uses a competitive market-maker system, but it is automated with no trading crowd.

[12] The DPM's responsibilities are set forth in CBOE Rule 8.80.

[13] See CBOE Rules 8.1, 8.2, 8.3 and 8.7. In addition to the normal obligations of a floor broker and a market-maker, the DPM is responsible for, among other things, the dissemination of accurate market quotations and resolving trading disputes in accordance with Exchange Rules.

[14] The CBOE has stated to the Commission that its trading of stocks, warrants, and securities other than options will take place on a trading floor separate from the location where its options are traded. *See* Amendment No. 4 and letter from Robert P. Ackermann, Vice President, Legal Services, CBOE, to Howard Kramer, Assistant Director, Division of Market Regulation, SEC, dated October 15, 1990. In the past, the Commission has raised concerns about the trading of derivative and underlying securities at the same physical location ("side-by-side trading"). Primarily, the Commission has been concerned that professionals with competitive advantages in one marketplace may utilize such advantages for personal gain in a related marketplace. The Commission believes the CBOE's proposal to physically separate its trading floors (no side-by-side trading) should adequately address these issues and prevent any predatory and/or manipulative practices by CBOE members. For a complete discussion of this issue, see *supra* notes 31–33 and accompanying text.

[15] See letter from Robert P. Ackermann, Vice President, Legal Services, CBOE, to Howard Kramer, Assistant Director, Division of Market Regulation, SEC, dated October 15, 1990. Most of the standards in that rule are capable of being applied to a DPM selection for stocks, warrants, and securities other than options. Nevertheless, the Commission expects the CBOE, after gaining one year's experience with trading stocks and warrants, to determine if any different DPM selection standards and trading crowd evaluation criteria are necessary.

acting in only one of these capacities in any particular security on a given day.[15]

Under the CBOE proposal, the DPM system would be extended to stocks and the other non-options securities subject to the new chapter XXX rules. In addition to his or her responsibilities as a market-maker, a DPM in securities other than options would be required to maintain continuously on the floor of the Exchange a two-sided market in the securities for which he or she has been appointed [17] to afford liquidity to other buyers and sellers of such securities whose orders are represented on the Exchange floor.

Another significant aspect of the CBOE proposal is that it does not contain any off-board trading restrictions, such as New York Stock Exchange ("NYSE") Rule 390, which prevents NYSE members from executing trades off the exchange floor.[18] Because the CBOE proposal does not impose on its members off-board trading restrictions, CBOE member broker-dealers, unless members of other exchanges and therefore subject to their off-board trading restrictions, would be able to effect principal or in-house agency cross transactions in exchange-listed stocks off the exchange floor, would be able to compete with market-makers in making markets in exchange-listed stocks, and would be able to execute trades in exchange-listed stocks in the domestic OTC market.[19]

Finally, the CBOE proposal contains a "book priority" rule that would apply to the trading of stocks, warrants, and securities other than options. Under the CBOE's proposed book priority rule, where two or more bids or offers are made at the same price, and one order is displayed on the limit order book, the order on the book is entitled to priority, and will have precedence, over all other orders at that price announced in the trading crowd.[20] For example, where two or more bids represent the best price and one such bid is displayed in the book, such bid shall have priority over any other bid at the post. In addition, even after a transaction has been effected, removing all bids and offers from the floor, orders left on the book would continue to retain priority over subsequent bids or offers made at the same price as the orders on the book.

The CBOE has proposed also a "time priority" rule. Thus, for example, an order made first in time at a particular price and placed on the book retains priority over a subsequent order at the same price which is placed on the book. Further, under the CBOE's current rules, which will apply to stock trading, the OBO (or DPM) may accept for the book only market or limit orders from public customers.[21] Firm proprietary and market maker orders are not acepted.

III. Comments Received

The NYSE commented on the CBOE proposal in a recent letter to the Commission that addressed primarily the cooperative efforts of the options exchanges in developing a linkage system for the options markets.[22] In that letter, the NYSE suggested also that it would be inappropriate for the Commission to grant the CBOE the authority to trade stocks until the NYSE and all the other exchanges could compete fully on options. The NYSE further suggested, in its letter, that the CBOE should not be granted Participant status in the Consolidated Tape Association ("CTA"), the Consolidated Quotation System ("CQS"), or the Intermarket Trading System ("ITS") until the NYSE commences multiple listing of options.

In a response to the NYSE's comments, the CBOE stated that the NYSE letter improperly ties the NYSE's cooperation regarding the development of a linkage system in the options markets to the CBOE's proposed stock trading.[23] The CBOE stated also that the NYSE wrongly suggests that the CBOE should not be permitted to become a participant in CTA, CQS, and ITS until the NYSE commences multiple listing of options.

The NYSE responded to the CBOE's letter and stated that the CBOE had misinterpreted the NYSE's comments with respect to the CBOE's proposal to trade stocks, warrants, and securities other than options.[24] In its response letter, the NYSE stated that its concern with the timing of the CBOE's participation in CTA, CQS, and ITS was predicated solely upon whether the Commission approved SR-CBOE-90-08, the instant rule filing. The NYSE's response letter made no substantive comment on whether the CBOE proposal to trade stocks, warrants, and securities other than options, should be approved.[25]

IV. Discussion and Conclusion

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, the requirements of sections 6 and 11 of the Act.[26] The Commission believes that the proposal is consistent with the section 6(b)(5) requirements that the rules of an exchange be designed to perfect the mechanism of a free and open market and a national market system, to protect investors and the public interest, and are not designed to permit unfair discrimination between customers, issuers, brokers, or dealers. In addition, the Commission believes that the proposed rule change is not contrary to the section 11(a) requirement that member transactions must be consistent with Commission requirements

---

[15] CBOE Rule 8.8, which deals with the activities of market-makers, generally prohibits a member firm from acting in both a principal and agency capacity on the same business day with respect to any of the securities traded at a given station of the Exchange floor. Under the proposal, this restriction would be applicable to any of the securities traded subject to the rules in new chapter XXX, as well as any securities related to chapter XXX securities. For example, index options, market baskets, index participations, and index warrants based on the S&P 100 or the S&P 500 are all related to each other, so that a member could not act as a market-maker and as a floor broker in any of these securities on the same business day. See proposed Interpretation and Policy .02 to Rule 8.8.

[17] Under the proposal, a two-sided market would consist of a current bid and a current offer at prices reasonably calculated, under existing circumstances, to contribute to the maintenance of a supply of and demand for each securities.

[18] In addition to the NYSE, the Amex and four regional exchanges impose restrictions on where their member firms may trade. See Amex Rule 8; Boston Stock Exchange, section 23 of chapter II; Midwest Stock Exchange, rule 9 of Article VIII; Pacific Stock Exchange Rule XIII; and Philadelphia Stock Exchange Rule 132.

[19] While the CBOE does not have off-board trading restrictions, it does have an exclusive license from S&P to trade options on the S&P 100 and 500 indexes. In this approval order, however, the Commission is not addressing the appropriateness of any limitations that may be imposed by the CBOE with regard to trading securities based upon the S&P's stock indexes that may arise in connection with any contractual relationships between the CBOE and S&P.

[20] The CBOE rules currently contain a book priority rule for the trading of options. See CBOE Rules 6.45(a) and 7.7.

[21] CBOE 7.4. This policy differs from most other exchanges which allow the public order book to accept orders not only from public customers, but also from professional floor traders trading for themselves and from brokerage firms trading for their own accounts.

[22] See letter from Richard A. Grasso, President and Chief Operating Officer, NYSE, to Richard C. Breeden, Chairman, SEC, dated July 25, 1990.

[23] See letter from Alger B. Chapman, Chairman and Chief Executive Officer, CBOE, to Richard C. Breeden, Chairman, SEC, dated August 7, 1990.

[24] See letter from Richard A. Grasso, President and Chief Operating Officer, NYSE, to Alger B. Chapman, Chairman and Chief Operating Officer, CBOE, dated August 14, 1990.

[25] On August 16, 1990, the CTA voted to accept the CBOE as a CTA Plan Participant. Upon becoming a CTA Plan Participant, the CBOE would be able to have quotes and trades disseminated over the CQS and the Consolidated Tape Service ("CTS"). In addition, the CBOE currently has an application pending with ITS for Participant status in the ITS plan.

[26] 15 U.S.C. 78f and 78k (1982).

regarding execution, priority, parity, and precedence and the maintenance of fair and orderly markets.

Most of the CBOE's proposed rules governing the trading of stocks, warrants, and other securities mirror the rules of existing national securities exchanges, and are equally acceptable for the CBOE.

Specifically, the CBOE's proposed rules relating to trading, sales practices, customer protection (such as suitability and disclosure requirements), and anti-fraud provisions for stocks are virtually identical to the rules of existing national securities exchanges. With regard to index warrants, the CBOE has proposed the same regulatory approach as that of the exchanges that are trading index warrants. The CBOE intends to apply its options suitability standards, in Exchange Rule 9.9, to recommendations regarding index warrants. The Exchange also will recommend that index warrants be sold to customers whose accounts have been approved for options trading.[27] The Commission believes that by imposing special suitability requirements on transactions in index warrants, the CBOE has addressed potential public customer problems that could arise because of the derivative nature of these products. In addition, in order to list a specific index warrant, the CBOE has committed to file a separate proposed rule change under Rule 19b-4 for Commission review.[28] The Commission believes that the submission of these separate rule changes will provide it with an opportunity to determine if a particular index raises potential manipulation or other trading abuse concerns.

Further, the Commission is satisfied that the CBOE's proposed initial and maintenance criteria for listing stocks, warrants, bonds and debentures, currency and index warrants, and securities of foreign issuers, will ensure that only bona fide companies with sufficient financial resources to meet their financial obligations will list their securities on the Exchange.[29] These rules are substantially similar to those of the Amex. To the extent that CBOE's proposed rules are different, the Commission has found them also to be consistent with the Act.[30]

In addition, as noted above, the CBOE plans to trade stocks, warrants, and other non-options securities on a trading floor segregated from its options trading floor.[31] The Commission believes that physically separating the stock trading floor from the options trading floor should constitute an adequate safeguard to ensure that concerns regarding manipulation and market information abuses by CBOE members, which could result from trading options and stock underlying those options in physical proximity to each other, are minimal. As a new stock exchange, the CBOE is unlikely to be the primary market for the stocks it proposes to trade. As a result, CBOE floor participants are not likely to possess the material market information about those stocks that floor professionals on a primary exchange would likely have access to because of "time and place" advantages; that is, they are unlikely to possess at various times more market information at an earlier time than other market participants. Nevertheless, because the CBOE is the primary, or sole, market for most of the options on individual stocks it trades, maintaining a presence on the trading floor may present a floor participant with the advantage of having access to certain market information. Accordingly, the Commission believes that it is important that the CBOE stock and options floors be separated.[32]

The Commission also expects to CBOE to monitor carefully the trading on the Exchange of stocks and related options to prevent any abuse of market information or manipulation. The Commission is conditioning this approval order on the CBOE developing a surveillance program, prior to the commencement of stock trading, which is capable of detecting any problems in this area and which provides the safeguards necessary to prevent abuses that could result from the trading of stocks and related options in physical proximity to each other.[33] The Commission is further conditioning this approval order on the CBOE conducting surveillance of trading in stocks, warrants, and securities other than options through routine post-trade

---

[27] See proposed Rule 30.50, Interpretation .02.

[28] The CBOE's proposed standards for the listing and trading on the Exchange of currency warrants are nearly identical to the current Amex standards in this area [see Amex Company Guide, section 106, and Amex rule 411, Commentary .01]. Like the Amex rules, the CBOE's proposed rules contain special suitability standards that must be met in order for the Exchange to trade currency warrants in customer accounts.

[29] The Commission notes that the CBOE's proposed new listing standards are substantially similar to those of the Amex and should ensure that only bona fide companies list on the Exchange. The Commission, however, currently is reviewing the list standards and policies of all the national securities exchanges in an effort to encourage the exchanges to adopt uniform listing criteria. The CBOE's proposed new listing standards will be included in the Commission's review in this area.

[30] The Commission does not believe that the comments submitted to the Commission by the NYSE urging the Commission to delay approval of the CBOE proposal until the NYSE can commence multiple listing of options have any merit. The NYSE asserts that the CBOE proposal should not be approved at the present time, but provides no reason for its position other than that it wishes to commence multiple listing of options before the CBOE order is approved and the CBOE commence the trading of securities other than options. The Commission does not believe that the Commission's approval of the CBOE's proposal imposes any unfair competitive burden on the NYSE, or any other market, which is not otherwise consistent with the Act. The Commission approved the NYSE's proposal to trade options in 1985. Moreover, in 1989, the Commission adopted Rule 19c-5 which allows each options exchange to multiply trade any new option class listed after January 22, 1990, and permits, from January 22, 1990, to January 21, 1991, each exchange to multiply trade up to ten previously listed options classes on an exchange-listed security. Rule 19c-5 further provides that, subsequent to January 21, 1991, there will be no restrictions on options multiple trading. Separately, each options exchange has voluntarily agreed with a Commission request to defer multiple trading of previously listed options classes until February 1, 1991, while the exchanges continue their efforts to develop and implement an options market linkage. The Commission notes that the NYSE strongly supported a deferral in options multiple trading until an options linkage was built. As discussed below, the CBOE effectively has restricted side-by-side trading of options and their underlying stocks, thus alleviating any concerns that the CBOE's position as the predominant options exchange will provide it with any significant competitive advantage over competing stock markets. In particular, the Commission believes that the CBOE's establishment of an equity trading floor in a separate physical location from the options trading floor should preclude unfair access by CBOE options traders to information generated by the CBOE equity floor. In addition, the Commission believes that the CBOE's present surveillance capabilities should be sufficient to frustrate any manipulative schemes based on the potential to discern material, non-public equity market information and to effect a transaction in the derivative market prior to public dissemination of the equity market information.

[31] See note 14, *supra*. Because the physical separation of the stock trading and options trading floors is a critical element in the CBOE proposal, any decision by the CBOE to change the location of the stock trading floor relative to the options trading floor, or to modify the means of access between them, would require submission of a proposed rule change under Section 19(b) of the Act. The CBOE has agreed to submit a proposed rule change under Section 19(b) of the Act to the Commission prior to any modification to its plan to trade stocks in a separate location from the options trading floor. *See* letter from Robert P. Ackerman, Vice President, Legal Services, CBOE, to Howard Kramer, Assistant Director, Division of Market Regulation, SEC, dated October 15, 1990.

[32] In 1985, the Commission approved a NYSE proposal to trade options on NYSE-listed stocks in a separate physical location from the equity trading floor. See Securities Exchange Act Release No. 21759 (February 14, 1985), 50 FR 7250 and NYSE Rules 750.80(a) and 758(a) and (b). More recently, in 1988, the Commission approved the trading on the Amex of options on Amex-listed stocks, concluding that side-by-side trading or integrated market-making issues did not arise because the Amex proposed to trade stocks and related options in physically separate locations. See Securities Exchange Act Release No. 25147 (October 3, 1988), 53 FR 39558.

[33] The CBOE has made a commitment to the Commission that, prior to the commencement of trading of stocks, warrants, and securities other than options, it will submit surveillance procedures to the Commission.

monitoring, intermarket surveillance, and the Exchange's own frontrunning circular.

Finally, the Commission finds good cause for approving Amendments No. 3, 4, 5, and 6 prior to the thirtieth day after the date of publication of notice of filing thereof. Amendment No. 3 amends Rule 30.22,[34] of chapter XXX, to provide that adjusted ITS bids or offers will be used to execute odd-lot market orders, instead of those market quotations in the roundlot market on the floor of the Exchange. This modification to the CBOE's proposed odd-lot rules would conform the CBOE odd-lot rules to the rules of the other existing national securities exchanges regarding the use of the ITS best bid or offer for executing odd-lot orders.[35] Amendments No. 4 and 5 are non-substantive amendments that clarify points that are contained already in the proposed rule change. For instance, Amendments No. 4 and 5 make clear that the Exchange's listing criteria are fixed requirements which are not discretionary in their application and that the CBOE will trade stocks and related options in separate trading locations. Amendment No. 6 amends proposed Rule 31.10 which, in the original rule filing, recommended that issuers maintain an audit committee composed of independent directors. In Amendment No. 6, the CBOE strengthens this proposed audit committee recommendation by making it a requirement that all issuers maintain an audit committee composed entirely of independent directors. The Commission believes that the CBOE's proposed requirement that issuers maintain completely independent directors is more effective than its prior proposed recommendation, and further believes that independent audit committees should enhance the relibility of financial disclosures and the credibility of financial information. Therefore, the Commission finds that accelerated approval of Amendments No. 3, 4, 5, and 6 is necessary in order for the Exchange to have the necessary rules in place before it begins the trading of stocks, warrants, and other securities.

Interested persons are invited to submit written data, views and arguments concerning Amendments No. 3, 4, 5, and 6 to the proposed rule change. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will be also be available for inspection and copying at the principal office of the CBOE. All submissions should refer to File No. SR-CBOE-90-8 and should be submitted by November 16, 1990.

It is therefore ordered, pursuant to section 19(b)(2) of the Act,[36] that the proposed rule change is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[37]

BILLING CODE [redacted]

[Release No. 34-28553; File No. SR-PSE-90-34]

Self-Regulatory Organizations; Pacific Stock Exchange, Inc.; Notice of Filing and Order Granting Accelerated Approval of a Proposed Rule Change by the Pacific Stock Exchange, Inc. Relating to the Adoption of Listing Standards and a Notice to the Membership for Contingent Value Rights

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on October 11, 1990, the Pacific Stock Exchange, Inc. ("PSE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The PSE has requested accelerated approval of the proposal. The Commission is publishing this notice to solicit comments on the proposed rule change from interested parties.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The PSE proposes to amend Exchange Rules 3.2 and 3.5 to provide listing and delisting standards applicable to Contingent Value Right ("CVRs").[1] The Exchange also proposes the adoption of a Notice to the Membership ("Notice") which will be distributed to members regarding the trading of CVRs.

[1] The exact text of the proposed listing standards and the notice to customers was attached to the rule filing as Exhibits A and B, respectively, and is available at the PSE and the Commission at the address noted in Item III below.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item III below. The self-regualtory organization has prepared summaries, set forth in section A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The PSE is proposing to amend Exchange Rules 3.2 and 3.5 to provide listing standards to permit the listing of CVRs which are unsecured obligations of the issuer providing for a possible cash payment at maturity.[2] However, such payment, if any, is based upon the price performance of an affiliate's equity security.

At maturity, the holder of a CVR is entitled to a cash payment if the average market price of the related security is less than a pre-set target price. The target price is typically established at the time the CVR is issued. Conversely, should the average market price of the related equity security equal or exceed the target price, the CVR holder is not entitled to any cash payment at maturity.

Only CVRs issued by companies that meet the Exchange's financial listing criteria for size and earnings [3] and that have assets in excess of $100 million would be considered eligible for listing. The Exchange proposes to require minimum public distribution of 600,000 CVRs, together with a minimum of 1,200 public holders and an aggregate market value of $18,000,000. In addition, the maturity of the CVRs must be at least one year.

[2] The Commission has approved similar proposals by the New York ("NYSE"), American ("Amex"), and Midwest ("MSE") Stock Exchanges. *See* Securities Exchange Act Release No. 28072 (May 30, 1990), 55 FR 23169 (June 6, 1990) (adoption by the NYSE of listing standards for CVRs); Securities Exchange Act Release No. 27753 (March 1, 1990), 55 FR 8624 (March 9, 1990) (adoption by the Amex of listing standards for new hybrid products); and Securities Exchange Act Release No. 28143 (June 25, 1990), 55 FR 27217 (July 2, 1990) (adoption by the MSE of listing standards for CVRs).

[3] The PSE requires that, in order to list common stock on the Exchange, an issuer must have $1,000,000 in net tangible assets and $200,000 in pretax earnings for the two years preceding the application for listing.

The Exchange also proposes continued listing standards for CVRs which would require a minimum aggregate market value of publicly-held CVRs of $1,000,000. In addition, the Exchange will give consideration to delisting the CVRs if the related equity security to which cash payment at maturity is tied is delisted.

The Exchange will require that the membership provide its customers with a Notice that calls attention to the specific risks associated with CVRs. The Notice will require that CVR investors must be given an explanation of the special characteristics and risks of the CVRs and that transactions in CVRs be recommended only to investors whose accounts have been approved for options trading or after ascertaining that CVRs are otherwise suitable for the customer.

The statutory basis for the proposed rule change is Section 6(b)(5) of the Act in that it is designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and in general, to protect investors and the public interest; and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers, or to regulate by virtue of any authority conferred by this title matters not related to the purpose of this title or the administration of the exchange. Furthermore, the proposed rule change is consistent with section 11A(a)(1)(C)(ii) of the Act in that it will tend to assure fair competition among exchange markets and between exchange markets and markets other than exchange markets.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Comments were neither solicited nor received.

III. Solicitation of Comments

Interested persons are invited to submit written data, views and

arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the PSE. All submissions should refer to File No. SR–PSE–90–34 and should be submitted by November 16, 1990.

IV. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

The Commission finds that the PSE's proposal to provide listing standards for the listing of CVRs on the Exchange is consistent with the requirements of the Act and the rules and requirements thereunder applicable to a national securities exchange, and, in particular, the requirements of section 6(b)(5) of the Act.[4] In particular, the Commission believes the proposal is consistent with the section 6(b)(5) requirements that the rules of an exchange be designed to promote just and equitable principles of trade and not to permit unfair discrimination between customers, brokers, or dealers. In today's financial markets, innovative financial vehicles continues to be created that are issued and proposed for trading on exchange markets. Over the past several years, the Commission has approved listing criteria for various new products for trading on exchange markets, such as index warrants [5] and foreign currency warrants.[6] In addition, the Commission recently approved listing standards on the NYSE and MSE applicable to CVRs and listing standards on the Amex to accommodate new products, such as CVRs.[7] In response to these new products, the Commission has carefully identified and evaluated certain regulatory concerns which must be addressed by the exchange that proposes to list and trade these products.

The Commission believes that the PSE's proposal to establish listing criteria for CVRs addresses the special concerns raised by these new investment products. The proposed quantitative listing standards should ensure that only substantial companies capable of meeting their financial obligations issue CVRs. This is important in light of the contingent financial obligations created by these instruments, and should serve to protect investors and the public interest by ensuring that the companies listing CVRs on the Exchange have sufficient financial means to meet their settlement obligations.

In addition, the Exchange has proposed to distribute a Notice apprising member firms of the special characteristics, risks, and suitability obligations associated with CVRs and requiring members to provide their customers with the Notice. The Commission believes distribution of this Notice should provide the PSE with the ability to address any potential sales practice problems and questions that may arise in connection with these CVRs. Moreover, the Commission believes that use of this Notice will help ensure that only customers with an understanding of the risks attendant to the trading of CVRs trade these products on their brokers' recommendations. Finally, this Notice will alert members to the special disclosure and suitability obligations involved in this product and suggest that transactions in CVRs be recommended only to investors whose accounts have been approved for options trading or after ascertaining that CVRs are suitable for the customer.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof. As discussed supra, the Commission has approved substantially similar proposals by the NYSE and the MSE, which both adopted listing standards and a membership circular for trading CVRs on those exchanges.[8] In addition, the Commission believes that the assets and earnings standards set by the PSE for issuers seeking to list CVRs will ensure that only bona fide companies capable of meeting their settlement obligations list CVRs on the Exchange. Finally, both the NYSE's proposal to list CVRs and the Amex's proposal to list new hybrid products were noticed and published for comment for the full statutory time period and no comments were received by the Commission on either proposal.[9]

It is therefore ordered, pursuant to section 19(b)(2) of the Act [10] that the proposed rule change is hereby approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Dated: October 22, 1990.

Margaret H. McFarland,
Deputy Secretary.

BILLING CODE 8010-01-M

[File No. 22-20501]

Application and Opportunity for Hearing; American Airlines, Inc.

October 22, 1990.

Notice is hereby given that American Airlines, Inc. (the "Applicant") has filed an application under clause (ii) of section 310(b)(1) of the Trust Indenture Act of 1939 (the "Act") for a finding by the Commission that the trusteeship of The Connecticut National Bank ("CNB") under (a) each of up to six indentures expected to be qualified under the Act and (b) certain other indentures described below is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify CNB from acting as trustee under any of such indentures.

Section 310(b) of the Act provides, in part, that if a trustee under an indenture qualified under the Act has or shall acquire any conflicting interest (as defined in the section), it shall within ninety days after ascertaining that it has

[8] *See, supra* note 2.

[9] The MSE proposal to adopt listing standards and a membership circular for the trading of CVRs on the exchange was approved by the Commission on an accelerated basis on June 25, 1990. *See supra* note 2. No comments were received by the Commission regarding this proposal.

[10] 15 U.S.C. 78s(b)(2) (1982).

such conflicting interest either eliminate such conflicting interest or resign. Subsection (1) of such section provides, with certain exceptions, that a trustee is deemed to have a conflicting interest if it is acting as trustee under another indenture under which any other securities of the same obligor are outstanding. However, pursuant to clause (ii) of subsection (1), there may be excluded from the operation of this provision another indenture or indentures under which other securities of such obligor are outstanding, if the issuer shall have sustained the burden of proving on application to the Commission, and after opportunity for a hearing thereon, that trusteeship under the qualified indenture and such other indenture is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify such trustee from acting as Trustee under any of such indentures.

The Applicant Alleges that:

1. The Applicant has filed five Registration Statements on Form S-3 covering the proposed issuance up to six series of 1990 Equipment Trust Certificates, to be designated as Series U through Z (the "Proposed Certificates").

2. Each series of the Proposed Certificates will be issued pursuant to a separate indenture (a "Proposed Indenture"), each expected to be qualified under the Act, among a banking institution, as trustee for an institutional investor acting as the equity participant (an "owner trustee"), the Applicant, as lessee, and an indenture trustee (the "Proposed Indenture Trustee"). The Applicant desires to appoint CNB as the Proposed Indenture Trustee under each such Proposed Indenture.

3. The proceeds from the sale of the Proposed Certificates will be used to provide long-term financing for a portion of the equipment cost of up to six Boeing 757–223 Aircraft or McConnell Douglas DC–9–82 Aircraft, each of which will be leased by the owner trustee to the Applicant.

4. Each series of the Proposed Certificates will be secured by a security interest in one of the aircraft and by the right of the owner trustee to receive rentals payable in respect of such aircraft by the Applicant under the applicable lease. No aircraft will be covered by more than one Proposed Indenture or by any other indenture, and the Proposed Certificates to be issued pursuant to any one Proposed Indenture will be separate from the proposed Certificates to be issued pursuant to any other Proposed Indenture.

5. CNB currently acts as indenture trustee under eight qualified indentures under which the Applicant's 1990 Equipment Trust Certificates, Series M through T are outstanding (the "July 1990 Qualified Indentures"). Each of the July 1990 Qualified Indentures relates to a separate leveraged lease transaction in which an owner trustee leases one Boeing 757–233 Aircraft or one McDonnell Douglas DC–9–82 Aircraft to the Applicant. Each such series of certificates is secured by a security interest in the aircraft to which the relevant July 1990 Qualified Indenture relates and by the right of the owner trustee to receive rentals on such aircraft from the Applicant.

6. CNB currently acts as indenture trustee under five qualified indentures under which the Applicant's 1990 Equipment Trust Certificates, Series H through L are outstanding (the "May 1990 Qualified Indentures"). Each of the May 1990 Qualified Indentures relates to a separate leveraged lease transaction in which an owner trustee leases one Boeing 757–223 Aircraft or one McDonnell Douglas DC–9–82 Aircraft to the Applicant. Each such series of certificates is secured by a security interest in the aircraft to which the relevant May 1990 Qualified Indenture relates and by the right of the owner trustee to receive rentals on such aircraft from the Applicant.

7. CNB currently acts as indenture trustee under three qualified indentures, under which the Applicant's 1990 Equipment Trust Certificates, Series E through G are outstanding (the "August 1990 Qualified Indentures"). Each of the August 1990 Qualified Indentures relates to a separate leveraged lease transaction in which an institutional investor acting as the equity participant leases one Boeing 757–223 Aircraft to the Applicant. Each such series of certificates is secured by a security interest in the aircraft to which the relevant August 1990 Qualified Indenture relates and by the right of the equity participant to receive rentals on such aircraft from the Applicant.

8. CNB currently acts as indenture trustee under four qualified indentures, under which the Applicant's 1990 Equipment Trust Certificates, Series A through D are outstanding (the "July 1990 Qualified Indentures"). Each of the July 1990 Qualified Indentures relates to a separate leveraged lease transaction in which an owner leases one McDonnell Douglas DC–9–82 or Boeing 757–223 Aircraft to the Applicant. Each such series of certificates is secured by a security interest in the aircraft to which the relevant July 1990 Qualified Indenture relates and by the right of the lower trustee to receive rentals on such aircraft from the Applicant.

9. CNB currently acts as indenture trustee (a "1988 Pass Through Trustee") under four qualified indentures under which the Equipment Note Pass Through Certificates, Series 1988–A are outstanding (the "1988 Qualified Indentures") and as indenture trustee under four separate leveraged lease indentures related to the 1988 Qualified Indentures (the "1988 Lease Indentures"). Each of the 1988 Lease Indentures relates to a separate leveraged lease transaction in which an owner trustee leases one McDonnell Douglas DC–9–82 Aircraft to the Applicant. In 1988, each owner trustee issued four series of loan certificates (the "1988 Equipment Notes") under each 1988 Lease Indenture to four separate grantor trusts. These grantor trusts in turn issued four series of Pass Through Certificates (the "1988 Pass Through Certificates") under the four separate 1988 Qualified Indentures. The 1988 Equipment Notes issued with respect to each 1988 Lease Indenture are secured by a security interest in the aircraft to which such 1988 Lease Indenture relates and by the right of the owner trustee to receive rentals on such aircraft from the Applicant. The Pass Through Certificates issued under the 1988 Qualified Indentures represent undivided interests in the 1988 Equipment Notes held by the related 1988 Pass Through Trustee.

10. CNB currently acts as Pass Through Trustee (a "1987 Pass Through Trustee") under four qualified indentures under which the Equipment Note Pass Through Certificates, Series 1987–A, are outstanding (the "1987 Qualified Indentures") and as indenture trustee under six separate leveraged lease indentures related to the 1987 Qualified Indentures (the "1987 Lease Indentures"). Each of the 1987 Lease Indentures relates to a separate leveraged lease transaction in which an owner trustee leases one McDonnell Douglas DC–9–82 Aircraft to the Applicant. In 1987, each owner trustee issued seven series of loan certificates (the "1987 Equipment Notes") under each 1987 Lease Indenture to seven separate grantor trusts. These grantor trusts in turn issued seven series of Pass Through Certificates (the "1987 Pass Through Certificates") under the seven separate 1987 Qualified Indentures. (To date, three series of 1987 Equipment Notes have matured, and the 1987 Pass Through Certificates issued by the three grantor trusts holding such Equipment Notes similarly matured and were paid at maturity. As a result, the three 1987

Qualified Indentures under which such 1967 Pass Through Certificates were issued terminated. Thus only four 1967 Qualified Indentures remain.) The 1967 Equipment Notes issued with respect to each 1967 Lease Indenture are secured by a security interest in the aircraft to which such 1967 Lease Indenture relates and by the right of the owner trustee to receive rentals on such aircraft from the Applicant. The Pass Through Certificates issued under the 1967 Qualified Indentures represent undivided interests in the 1967 Equipment Notes held by the related 1967 Pass Through Trustee.

11. CNB currently acts as indenture trustee under an indenture, dated as of October 15, 1966 (the "Other Indenture"), between CNB and an owner trustee that relates to a leveraged lease transaction in which the owner trustee, for the benefit of certain institutional investors acting as equity participants, issued in a private placement loan certificates to institutional investors acting as loan participants. The proceeds of the issuance of the loan certificates issued under the Other Indenture were used by the owner trustee to purchase one Boeing 767–223 Aircraft that was then leased by such owner trustee to the Applicant. The Applicant is not a party to the Other Indenture (only the owner trustee as issuer of the loan certificates and CNB are parties), but the Applicant's unconditional obligation to make rental payments under the lease relating to such Other Indenture is the only credit source for principal and interest payments on the loan certificates. The loan certificates issued under the Other Indenture are secured by a security interest in the aforementioned Boeing 767–223 Aircraft and the right of the owner trustee to receive rentals on such aircraft for the Applicant.

12. CNB's acting as trustee under the Proposed Indentures, the July 1990 Qualified Indentures, the May 1990 Qualified Indentures, the August 1989 Qualified Indentures, the July 1989 Qualified Indentures, the 1988 Qualified Indentures, the 1988 Lease Indentures, the 1987 Qualified Indentures, the 1987 Lease Indentures or the Other Indenture does not present any likelihood of a material conflict of interest within the meaning of section 310(b)(1) of the Act. Each series of the Proposed certificates will be secured under the relevant Proposed Indenture by collateral specific to such Proposed Indenture, and each series of loan certificates outstanding under the July 1990 Qualified Indentures, the May 1990 Qualified Indentures, the August 1989 Qualified Indentures, the July 1989 Qualified Indentures, the 1988 Qualified Indentures, the 1988 Lease Indentures, the 1987 Qualified Indentures, the 1987 Lease Indentures or the Other Indenture will be secured under the relevant indenture by collateral specific to such indenture. None of the Proposed Indentures, the July 1990 Qualified Indentures, the May 1990 Qualified Indentures, the August 1989 Qualified Indentures, the July 1989 Qualified Indentures, the 1988 Qualified Indentures, the 1988 Lease Indentures, the 1987 Qualified Indentures, the 1987 Lease Indentures or the Other Indenture provides for cross-collateralization. The collateral relating to each series of the Proposed Certificates is not subject to the claims of holders of any Other Proposed Indentures, the May 1990 Qualified Indentures, the August 1989 Qualified Indentures, the July 1989 Qualified Indentures, the 1988 Qualified Indentures, the 1988 Lease Indentures, the 1987 Qualified Indentures, the 1987 Lease Indentures or the Other Indenture. None of the collateral relating to the July 1990 Qualified Indentures, the May 1990 Qualified Indentures, August 1989 Qualified Indentures, the July 1989 Qualified Indentures, the 1988 Qualified Indentures, the 1988 Lease Indentures, the 1987 Qualified Indentures, the 1987 Lease Indentures or the Other Indenture is subject to the claims of holders of the Proposed Certificates.

13. CNB's powers as trustee in respect of any default under any Proposed Indenture are not restricted by the provisions of any other Proposed Indenture, the July 1990 Qualified Indentures, the August 1989 Qualified Indentures, the July 1989 Qualified Indentures, the 1988 Qualified Indentures, the 1988 Lease Indentures, the 1987 Qualified Indentures, the 1987 Lease Indentures or the Other Indenture.

14. The Applicant is not in default in any respect under any of the July 1990 Qualified Indentures, the May 1990 Qualified Indentures, the August 1989 Qualified Indentures, the July 1989 Qualified Indentures, the 1988 Qualified Indentures, the 1988 Lease Indentures, the 1987 Qualified Indentures, the 1987 Lease Indentures or the Other Indenture and will not, at the time of execution thereof, be in default in any respect under any of the Proposed Indentures.

15. Such differences as exist among the Indentures referred to herein and the respective obligations of the Company as obligor are not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify the Bank from acting as trustee under any of the Indentures.

The applicant waives notice of hearing, hearing and any and all rights to specify procedures under the Rules of Practice of the Commission with respect to the application.

For a more detailed account of the matters of fact and law asserted, all persons are referred to said application which is on file in the Office of the Commission's Public Reference Section, File No. 22-20591, 450 Fifth Street, NW., Washington DC 20549.

Notice is further given that any interested persons may, no later than November 16, 1990, request in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request, and the issues of law or fact raised by such application which he desires to controvert, or he may request that he be notified if the Commission orders a hearing thereon. Any such request should be addressed: Jonathan G. Katz, Secretary, Securities and Exchange Commission 450 Fifth Street, NW., Washington DC 20549. At any time after said date, the Commission may issue an order granting the application, upon such terms and conditions as the Commission may deem necessary or appropriate in the public interest or for the protection of investors, unless a hearing is ordered by by the Commission.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

[Rel. No. IC-17811; 811-4967]

First Fidelity Investment Trust for Retirement Accounts; Application for Deregistration

October 22, 1990.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of Application for Deregistration under the Investment Company Act of 1940 (the "Act").

APPLICANT: First Fidelity Investment Trust For Retirement Accounts.

RELEVANT ACT SECTION: Section 8(f).

SUMMARY OF APPLICATION: Applicant seeks an order declaring that it has ceased to be an investment company.

FILING DATE: The application on Form N-8F was filed on August 22, 1990.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving Applicant with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on November 19, 1990 and should be accompanied by proof of service on Applicant, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons may request notification of a hearing by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 Fifth Street, NW, Washington, DC 20549. Applicant, 550 Broad Street, Newark, New Jersey 07192.

FOR FURTHER INFORMATION CONTACT: C. Christopher Sprague, Staff Attorney, (202) 272–3035, or Max Berueffy, Branch Chief, (202) 272–3018 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application is available for a fee at the SEC's Public Reference Branch or by contacting the SEC's commercial copier at (800) 231–3282 (in Maryland (301) 738–1400).

Applicant's Representations

1. Applicant is an open-end, diversified management investment company organized as a New Jersey collective investment trust. Applicant consists of one series of units of beneficial interest, entitled the Stock Fund.

2. On December 31, 1986, Applicant filed a registration statement on Form N–1A to register an indefinite number of its units of beneficial interest. The registration statement, as amended by two pre-effective amendments, became effective on March 16, 1987, and Applicant commenced its initial public offering immediately thereafter. All of Applicant's required N–SAR filings have been made, and such filings will continue to be made until Applicant is deregistered under the Act.

3. Applicant ceased legal existence under the banking laws of New Jersey on June 15, 1990 upon the transfer of all its assets and liabilities to FFB Funds Trust, a registered investment company, pursuant to an Agreement of Sale and Plan of Reorganization (the "Plan"), and upon notifying the Office of the Comptroller of the Currency of its termination as a collective investment trust.

4. On January 25, 1990, the Supervisory Committee of Applicant approved the Plan under which all of the assets and certain liabilities of Applicant would be transferred to FFB Funds Trust on June 15, 1990. Proxy materials relating to the Plan were mailed to unitholders on or about April 12, 1990, and were filed with the Commission. The unitholders of Applicant approved the Plan on May 29, 1990 by a majority vote.

5. As of June 15, 1990, Applicant had 140,371.702 units of beneficial interest outstanding, with an aggregate net asset value of $1,788,552.29, and a per unit net asset value of $12.74.

6. Purusant to the Plan, the Stock Fund on June 15, 1990 transferred to FFB Equity Fund, a series of FFB Funds Trust, all of its portfolio securities and other assets. In consideration therefor, FFB Equity Fund assumed certain identified liabilities of the Stock Fund, and delivered to the Stock Fund a number of full and fractional shares of beneficial interest of FFB Equity Fund. Those shares then were distributed pro rata to the Stock Funds's unitholders of record as of June 15, 1990 to liquidate their interests in the Stock Fund. The voting rights of shares of FFB Equity Fund are substantially similar to those of Stock Fund shares. No brokerage commissions were paid in connection with the reorganization.

7. The expenses of the reorganization amounted to approximately $25,000, and were allocated between the funds involved in the application. Applicant's share of those expenses was $18,000.

8. Applicant has no assets, debts, or securityholders. There is no securityholder of Applicant to whom a distribution in complete liquidation of its interest has not been made.

9. Apart from the reorganization pursuant to the Plan, Applicant has not, within the last 18 months, transferred any of its assets to a separate trust, the beneficiaries of which were or are securityholders of Applicant.

10. Applicant is not a party to any litigation or administrative proceeding.

11. Applicant is not now engaged, and does not propose to engage, in any business activity than that needed to windup its affairs.

For the Commission, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 90–25327 Filed 10–25–90; 8:45 am]

BILLING CODE 8010–01–M

[Release No. 35–25176]

Filings Under the Public Utility Holding Company Act of 1935 ("Act")

October 19, 1990.

Notice is hereby given that the following filing(s) has/have been made with the Commission pursuant to provisions of the Act and rules promulgated thereunder. All interested persons are referred to the application(s) and/or declaration(s) for complete statements of the proposed transaction(s) summarized below. The application(s) and/or declaration(s) and any amendments thereto is/are available for public inspection through the Commission's Office of Public Reference.

Interested persons wishing to comment or request a hearing on the application(s) and/or declaration(s) should submit their views in writing by November 13, 1990 to the Secretary, Securities and Exchange Commission, Washington, DC 20549, and serve a copy on the relevant applicant(s) and/or declarant(s) at the address(es) specified below. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in the matter. After said date, the application(s) and/or declaration(s), as filed or as amended, may be granted and/or permitted to become effective.

Eastern Utilities Associates, et al. (70–7740)

Eastern Utilities Associates ("EUA"), P.O. Box 2333, Boston, Massachusetts 02107, a registered holding company, and EUA Power Corporation ("EUA Power"), 40 Stark Street, P.O. Box 326, Manchester, New Hampshire 03105, its wholly-owned public-utility subsidiary company, have filed a post-effective amendment to their application-declaration under sections 6(a), 7 and 12(b) of the Act and Rules 45 and 50(a)(5) thereunder.

By order dated April 30, 1990 (HCAR No. 25060), EUA and EUA Power were authorized to engage in various financing transactions intended to enable EUA Power to meet its interest and other obligations and working capital requirements, for the period through May 15, 1991.

EUA Power now proposes to borrow the proceeds from tax exempt solid waste revenue bonds ("Bonds") to be

issued by the Industrial Development Authority of the State of New Hampshire ("NHIDA") in an aggregate amount of up to $25 million. The proceeds of the Bonds would be loaned by the NHIDA to EUA Power pursuant to a Loan and Trust Agreement ("Trust Agreement") with the NHIDA and Shawmut Bank, N.A., as trustee ("Trustee"), and be used to reimburse EUA Power for certain solid waste disposal expenditures. EUA will make payments to the Trustee in an amount equal to the payment then coming due on the Bonds.

To ensure the payment of principal of, premium, if any, and interest on the Bonds (and payment of purchase price upon tender of the Bonds for mandatory purchase), Citibank, N.A. ("Bank") will issue an irrevocable letter of credit ("Letter of Credit") in an amount not to exceed $26 million. EUA Power proposes to execute an agreement ("Reimbursement Agreement") with the Bank whereby EUA Power will agree to reimburse the Bank for all draws on the Letter of Credit and to pay the Bank's related fees. In addition, EUA proposes to enter into a related guaranty agreement pursuant to which EUA will guarantee payment of EUA Power's obligations to the Bank of up to $26 million.

The Bonds will have a 30 year nominal maturity with no principal amortization and will initially bear interest as weekly variable rate demand notes ("Weekly Mode"), but all or part of the Bonds may be converted or reconverted to other interest modes at the option of EUA Power. The other interest modes are for periods of from one to 270 days ("Flexible Mode"), one year or any multiple thereof ("Multiannual Mode"), and the remaining term of the Bond issue ("Fixed Rate Mode"). The interest rate in each case will be set by Goldman, Sachs & Co. ("Remarketing Agent"), but in no event will the interest rates in effect from time to time for any mode exceed 12% without further Commission authorization. When the Bonds are in the Weekly Mode, the bondholders will have the right at predetermined dates to tender their Bonds to the Trustee for mandatory purchase at 100% of principal amount plus accrued interest. In addition, EUA Power may convert or reconvert the Bonds, or any portion thereof, which are in the Weekly Mode, Flexible Mode, or Multiannual Mode to any other such mode or the Fixed Rate Mode. As a condition to conversion to the Weekly Mode or the Flexible Mode, EUA Power must deliver a substitute letter of credit meeting the requirements of the Trust Agreement.

In addition to various redemption rights, the Bonds will be subject to mandatory tender by the bondholders upon certain conditions including the expiration of the rate periods under the Flexible and Multiannual Modes.

EUA Power also requests an exception from the competitive bidding requirements of Rule 50 pursuant to Subsection (a)(5) thereunder regarding EUA Power's obligations under the Trust Agreement and the Reimbursement Agreement.

Arkansas Power & Light Company (70-7902)

Arkansas Power & Light Company ("AP&L"), 425 West Capitol, 40th Floor, Little Rock, Arkansas 72201, an electric utility subsidiary company of Entergy Corporation, a registered holding company, has filed an application under Sections 9(a) and 10 of the Act.

AP&L proposes, through December 31, 1991, to enter into one or more installment sale agreements ("Agreement") with Pope County, Arkansas ("County"), concerning the construction, installation, equipping, financing, sale and reacquisition of solid waste disposal facilities ("Facilities") at AP&L's Nuclear One Generating Station located in the County.

Under the Agreement, the County may issue one or more series of its tax exempt revenue bonds ("Solid Waste Disposal Bonds") in an aggregate principal amount not to exceed $120 million with a maturity date from 5 to 30 years. The proceeds from the Solid Waste Disposal Bonds will be deposited by the County with the trustee ("Trustee") under one or more indentures ("Indenture") entered into between the County and the Trustee pursuant to which Indenture the Solid Waste Disposal Bonds are issued, and the proceeds are accrued. The proceeds, net any underwriters' discount or other expenses payable from the proceeds, will be applied by the Trustee to the costs of, or to permanently finance on a tax exempt basis, the construction, acquisition, installation, or equipping of the Facilities.

AP&L also proposes to convey the Facilities to the County for cash, and to reacquire the Facilities under the Agreement requiring AP&L to pay as the purchase price installments in such amounts, together with other monies held by the Trustee under the Indenture for that purpose, as to enable the County to pay, when due, the principal or purchase price of, the premium, if any, and the interest on the Solid Waste Disposal Bonds. Under the Agreement, AP&L will also be obligated to pay certain fees incurred in the transactions.

In order to obtain security for holders of the Solid Waste Disposal Bonds, AP&L may seek to obtain the authentication of one or more new series of first mortgage bonds ("Bonds"). The Bonds would be issued on the basis of unfunded net property additions and/or previously retired Bonds. AP&L believes that the possible issuances and pledge of the Bonds to the Trustee under the Indenture will meet the standards for an exemption from section 6(a) of the Act provided by Rule 52 thereunder. However, AP&L states that if it is not able to meet the capitalization tests provided in subsection (a)(3) of Rule 52 in connection with the issuance and pledge of all the Bonds, AP&L would file an amendment to this application seeking approval under sections 6(a) and 7 of the Act to issue and pledge such additional Bonds to the Trustee under the Indenture. Moreover, in such event, AP&L would also request an exception from the competitive bidding requirements of Rule 50 under subsection (a)(5) in connection with the issuance of the Bonds.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

[Rel. No. IC-17819; 812-7382]

T. Rowe Price California Tax-Free Trust, et al.; Notice of Application

October 19, 1990.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of Application for Exemption under the Investment Company Act of 1940 (the "Act").

APPLICANTS: T. Rowe Price California Tax-Free Trust on behalf of the California Tax-Free Bond Fund, T. Rowe Price State Tax-Free Trust on behalf of the Maryland Tax-Free Bond Fund and the New York Tax-Free Bond Fund, T. Rowe Price Tax-Free High Yield Fund, Inc., T. Rowe Price Tax-Free Income Fund, Inc., and T. Rowe Price Tax-Free Short-Intermediate Fund, Inc. (the "Tax-Free Funds"); T. Rowe Price Capital Appreciation Fund, T. Rowe Price Equity Income Fund, T. Rowe Price Growth & Income Fund, Inc., T. Rowe Price Growth Stock Fund, Inc., T. Rowe Price High Yield Fund, Inc., Institutional International Funds, Inc., T. Rowe Price

Index Trust, Inc., T. Rowe Price International Equity Fund, Inc., T. Rowe Price International Funds, Inc., T. Rowe Price New America Growth Fund, T. Rowe Price New Era Fund, Inc., T. Rowe Price New Horizons Fund, Inc., T. Rowe Price New Income Fund, Inc., T. Rowe Price Science & Technology Fund, Inc., T. Rowe Price Overnight Bond Fund, Inc., T. Rowe Price Small-Cap Value Fund, Inc. (the "Taxable Funds"); T. Rowe Price U.S. Treasury Funds, Inc. on behalf of the U.S. Treasury Intermediate Fund and U.S. Treasury Long-Term Fund, and T. Rowe Price GNMA Fund (the "Treasury Funds") (the Tax-Free Funds, the Taxable Funds, and the Treasury Funds are collectively referred to as the "Funds"); T. Rowe Price Associates, Inc. ("Price Associates"), Rowe Price-Fleming International, Inc. ("Price-Fleming" and collectively with Price Associates, the "Advisers"); and all future management investment companies, other than money market funds or funds using the amortized cost or penny rounding method of valuation, advised by Price Associates, Price-Fleming, or any future investment adviser or subadviser which is a direct or indirect wholly-owned subsidiary of Price Associates or Price-Fleming.

RELEVANT ACT SECTIONS: Section 17(d) and rule 17d–1.

Summary of Application: Applicants seek an order permitting the Funds to participate in joint accounts designed to pool cash balances and reserves. Applicants seek to establish three joint accounts: the Commercial Paper Joint Account, which will invest in overnight commercial paper; the Treasury Joint Account, which will invest in repurchase agreements with banks or brokerage houses; and the Tax-Free Joint Account, which will invest in tax-exempt daily variable rate demand notes.

FILING DATE: The application was filed on May 15, 1990 and amended on February 8, 1990 and July 25, 1990.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on November 15, 1990, and should be accompanied by proof of service on applicants, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons may request notification of a hearing by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 Fifth Street, NW., Washington, DC 20549. Applicants, 100 East Pratt Street, Baltimore, MD 21202.

FOR FURTHER INFORMATION CONTACT: Nicholas D. Thomas, Staff Attorney, at (202) 504–2283, or Jeremy N. Rubenstein, Branch Chief, at (202) 272–3023 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application is available for a fee at the SEC's Public Reference Branch or by contacting the SEC's commercial copier at (800) 231–3282 (in Maryland (301) 738–1400).

Applicants' Representations

1. The Funds comprise most of the investment company complex known as T. Rowe Price Mutual Funds. Each Fund is registered under the Act as an open-end management investment company.

2. In the normal course of business, each Fund frequently has uninvested cash balances at the end of its business day. Each fund normally invests this otherwise uninvested cash in overnight securities which mature and pay interest on the following business day. The Funds enter into these investments because (a) they provide additional income to the Funds, and (b) they allow the Funds to maintain the liquidity they require in case any Fund shareholders wish to redeem their shares. At the present time, each Fund makes its own overnight investments and bears the transaction costs of making such investments. This has resulted in certain inefficiencies, and has limited the return which the Funds achieve.

3. The Funds now wish to establish three Joint Accounts into which they will be able to deposit their uninvested cash: The Commercial Paper Joint Account, which will invest in overnight commercial paper; the Treasury Joint Account, which will invest in repurchase agreements with banks or brokerage houses; and the Tax-Free Joint Account, which will invest in tax-exempt daily variable rate demand notes ("Daily VRDNs"). The Joint Accounts will invest only in securities with an overnight, over-the-weekend, or over-the-holiday maturity, or, in the case of the Tax-Free Joint Account, Daily VRDNs with a demand feature that allows a Fund to obtain the full payment of principal and interest on a same-day basis (collectively, "overnight investments").

4. At the end of the business day, each Fund will have the option of depositing its uninvested cash in one of the Joint Accounts. Each Joint Account will then invest in one or more large overnight investments. No Fund will be required to participate in a Joint Account. Each Fund will have the option to continue investing in its own overnight investments.

5. The types of investments proposed for each Joint Account are exactly the types of investments made currently by the individual participating Funds. Selection of an overnight investment for the Joint Accounts will be made on the same basis (creditworthiness of the issuer, yield, and liquidity) as selection of an overnight investment for any participating Fund. However, because the overnight investments will be made jointly, the transaction costs will be reduced, and because a larger amount of cash will be available for fewer investments, there is the possibility that the interest earned on the investments will be higher.

6. Each Fund will participate in the Joint Accounts on the same basis as every other Fund. Each Fund will also participate in the Joint Accounts in conformity with its investment objections and restrictions.

7. The Advisers will have no monetary participation in the account, but will be responsible for investing amounts in the Joint Accounts, establishing accounting and control procedures, and ensuring the equal treatment of each Fund.

8. The Commercial Paper Joint Account will invest only in interest bearing or discounted commercial paper, including dollar denominated commercial paper of foreign issuers, which matures and pays interest daily. Only the taxable Funds, which are presently the only Funds authorized by their investment policies to invest in commercial paper, will be allowed to invest in the Commercial Paper Joint Account. All such investments will satisfy the investment criteria of any participating Fund as to yield, quality, and liquidity.

9. Commercial paper generally pays a higher rate of interest than repurchase agreements secured by U.S. government obligations, although this higher yield is generally accompanied by a higher degree of risk. Applicants manage the higher risk by investing only in commercial paper which is on their approved list. The one-day maturity of the commercial paper which will be eligible for the Commercial Paper Joint Account also mitigates the credit risk of such investments. By investing only in commercial paper issued by persons on the approved list, applicants believe that

the existence of the Commercial Paper Joint Account will not increase the investment risk of any of the Taxable Funds.

10. The Treasury Joint Account will invest only in repurchase agreements collateralized by U.S. Government obligations,i.e., obligations issued or guaranteed as to principal and interest by the Government of the United States. Both the Treasury Funds and the taxable Funds will be permitted to deposit their otherwise uninvested cash in the Treasury Joint Account because the Funds in these two groups are authorized by their individual investment policies to invest in repurchase agreements secured by U.S. Government obligations.[1]

11. With regard to the Taxable Funds, the decision whether to invest in the Commercial Paper Joint Account or the Treasury Joint Account will be made by the Adviser. This decision will be made by comparing the yield and liquidity of the repurchase agreement and the creditworthiness of its issuer with the yield, quality, and liquidity of the available commercial paper.

12. Each of the Taxable and Treasury Funds has established the same minimum standards for repurchase transactions. These include credit worthiness standards for both the issuers of the repurchase agreements and the collateral. The Funds also require that the repurchase agreements be fully collateralized at all times. The collateral requirement on overnight repurchase agreements is 101 percent.

13. The funds will not enter into repurchase agreements with their custodian banks.

14. The Tax-Free Joint Account will invest only in daily VRDNs. Because Daily VRDNs are tax-free securities, and because only the Tax-Free Funds are authorized by their investment policies to invest in such securities, only the Tax-Free Funds will be allowed to invest in the Tax-Free Joint Account.[2]

15. Daily VRDNs are tax-exempt municipal obligations which contain a variable or floating interest rate and an unconditional right of demand to receive payment of the unpaid principal and accrued interest upon a same day notice period. A variable rate instrument subject to a same-day demand feature is deemed to have a maturity equal to the longer of the period remaining until the next readjustment of the interest rate or the period remaining until the principal amount can be recovered through demand. The interest rate adjustments for Daily VRDNs are priced to reflect current market demand for such securities.

16. The demand feature of Daily VRDNs is backed by a credit facility. Most Daily VRDNs require a direct pay, irrevocable, bank letter of credit to ensure immediate liquidity for the investor, to provide for a more uniform aftermarket for remarketing efforts, and to receive a high credit rating from one or more of the major rating services. Only those issuers whose underlying credit is rated as high quality by the rating services are able to issue Daily VRDNs backed only by a line of credit.

17. Although each Joint Account will seek to make only one overnight investment, it may be necessary to make more than one overnight investment because many of the funds are subject to section 5(b) of the Act, which limits to 5% the assets that may be invested in any single issuer (other than U.S. governmental issuers). When a Fund subject to the 5% restriction invests more than 5% of its assets in a Joint Account, the Joint Account will have to make more than one overnight investment in order to avoid causing such Fund to violate its 5% restriction.

Applicants' Legal Analysis

1. Each Fund, by participating in one or more of the proposed Joint Accounts, and the Advisers, by managing the proposed Joint Accounts, could be deemed to be "joint participant[s] * * * in a transaction" within the meaning of section 17(d)(1) of the Act, and the proposed Joint Accounts could be deemed to be "joint enterprise[s] or other joint arrangement[s]" within the meaning of rule 17d–1 under the Act.

2. The Board of Directors/Trustees of each Fund has considered the proposed Joint Accounts and has determined that the Fund will benefit by participating in the Joint Accounts for the following reasons:

(a) Due to the pooled nature of the investments, the transaction costs are expected to be reduced,

(b) Due to the larger size of the investments being made, the terms of the investments are expected to be more favorable, and

(c) Due to the reduction in the number of trades, the potential for errors is expected to be reduced.

3. The proposed method of operating the Joint Accounts, as discussed herein, will not result in conflicts of interest between any of the Funds or between a Fund and its Adviser. Applicants believe that the operation of the Joint Accounts will be free of any inherent bias favoring one Fund over another.

4. Although the Adviser will gain some benefit through administrative convenience and some possible reduction in clerical costs, the primary beneficiaries will be the Funds because the Joint Accounts will be a more efficient way of administering daily investment transactions.

5. Applicants believe that future participation in the Joint Accounts by one of more Funds which do not presently exist or are not currently in operation will be desirable. Applicants represent that future Funds will be required to participate in the Joint Accounts on the same terms and conditions as the existing Funds have set forth herein.

6. The sole differences between this application and orders previously granted by the Commission to allow the establishment and operation of Joint Accounts for the pooling of cash reserves are that: (a) Applicants will establish three accounts; (b) two of the Joint Accounts will be allowed to invest in overnight investment other than repurchase agreements collateralized by U.S. government securities; and (c) the Taxable Funds will be allowed to invest in either of two Joint Accounts. Applicants do not regard these differences as material for the reasons discussed below.

7. The existence of more than one Joint Account is a function of the type of investments to which certain Funds are limited. Thus the Tax-Free Funds seek to invest only in securities which pay interest not subject to federal income tax. As a result, an investment in an account that invests in taxable instruments would not be appropriate. Similarly, the Treasury Funds may not invest in the Commercial Paper Joint Accounts because they are limited to investments guaranteed as to principal and interest by the U.S. Government, including repurchase agreements secured by such securities. Each Taxable Fund must determine, based on considerations of yield, liquidity, and creditworthiness, whether to invest in

---

[1] T. Rowe Price Growth Stock Fund, Inc., T. Rowe Price New Horizons Fund, Inc., and T. Rowe Price New Era Fund, Inc., all three of which are Taxable Funds, will not be able to participate in the Treasury Joint Account because their investment policies prohibit investments in repurchase agreements. If any of these Funds change their fundamental policies to allow for investments in repurchase agreements, they will be allowed to participate in the Treasury Joint Account in the same manner as the other Taxable and Treasury Funds.

[2] It is presently contemplated that T. Rowe Price State Tax-Free Trust and T. Rowe Price California Tax-Free Trust will not participate in the Tax-Free Joint Account, or any other Joint Account, because each portfolio within these two trusts is state-specific and only invests in securities which enjoy tax-exempt status under specific states.

repurchase agreements or commercial paper. Commercial paper may entail a slightly higher degree of risk than repurchase agreements. Thus, certain Taxable Funds may choose the Treasury Joint Account over the Commercial Paper Joint Account. Other Funds may decide to invest their reserves intended for overnight investment in the Commercial Paper Joint Account because of its potentially higher yield. In either case, there is no conflict of interest for the Advisers in making this decision and no Fund is disadvantaged by the existence of two Joint Accounts in which to invest.

8. Applicants believe that the Commercial Paper Joint Account and the Tax-Free Joint Account will generate savings for the Taxable and Tax-Free Fund, respectively. Although the savings for the Tax-Free Funds are not great, such savings should increase over time as the size of the Tax-Free Funds increases. Further, given the protection afforded by the conditions under which the Joint Accounts will operate, there does not seem to be any valid regulatory purpose for denying the Tax-Free Funds even a small degree of savings. For the Treasury Funds, applicants submit that the prospect of future savings is a sufficient basis to grant relief given the protection of the below stated conditions.

9. The type of investments proposed for each Joint Account are exactly the types of investments made currently by the individual participating funds. Selection of an overnight investment for the Joint Accounts will be made on the same basis (creditworthiness of the issuer, yield and liquidity) as selection of an overnight investment for any participating Funds, except that the Joint Accounts, because they will have a greater asset base, may have greater flexibility in seeking higher yielding overnight investments. Accordingly, applicants see no basis for distinguishing the Commercial Paper Joint Account, which will invest in overnight commercial paper, and the Tax-Free Joint Account, which will invest in Daily VRDNs, from the joint accounts previously authorized by the above-referenced Commission orders which invest solely in repurchase agreements.

Applicants' Conditions

The Joint Accounts will operate subject to the following conditions:

1. Three separate custodial cash accounts will be established. After the conclusion of its daily trading activity, each Fund will transfer the cash it wishes to invest in a Joint Account into one or more such accounts. The accounts will not be distinguishable from any other accounts maintained by a Fund with its custodian bank except that the Funds' money will be deposited on a commingled basis. The account will not have any separate existence which will have indicia of a separate legal entity. The sole function of the account will be to provide a convenient way of aggregating individual transactions.

2. Cash in the Joint Account will be invested in:

(a) For the Commercial Paper Joint Account, interest bearing or discounted commercial paper with a duration not to exceed one business day and satisfying the uniform standards set by the Taxable Funds for such investments;

(b) For the Treasury Joint Account, repurchase agreements with a duration not to exceed one business day, collateralized by U.S. Government obligations, and satisfying the uniform standards set by the Taxable Funds or Treasury Funds, respectively, for such investments; or

(c) For the Tax-Free Joint Account, Daily VRDNs with a same-day demand feature and satisfying the uniform standards set by the Tax-Free Funds for such investments.

3. All investments held by the Joint Accounts will be valued on the basis of current market value.

4. Securities purchased by the Joint Accounts will be rated A2 or A1/SP-1 or better by Standard and Poor's, P2 or MIG-2/V-MIG2 or better by Moody's, (depending on whether the security is taxable or tax-free) or, if unrated, will have a rating of equivalent quality as determined by the advisers under the supervision of the boards of directors/trustees of the applicable Funds. These rating standards will not be changed without first obtaining an amendment of any order issued on the application.

5. In order to assure that there will be no opportunity for one Fund to use any part of a balance of a Joint Account credited to another Fund, no Fund will be allowed to create a negative balance in a Joint Account for any reason, although it will be permitted to draw down its entire balance at any time. A Fund's decision to invest in a Joint Account will be solely at the Fund's option. No Fund will be obligated to invest in the Joint Accounts or maintain any minimum balance therein. A Fund may withdraw all or a portion of its investment in a Joint Account at any time. In addition, each Fund will retain the sole rights of ownership of any of its assets invested in the Joint Accounts, including interest payable on such assets.[3] Each Fund's investment in a Joint Account will be documented daily on the books of each Fund as well as on the books of the Funds' custodian. Each Fund's liability on any overnight investment purchased by a Joint Account will be limited to that Fund's portion of such overnight investment.

6. Each Fund will participate in the income earned or accrued in the Joint Account in which it participated, including all instruments held by the Joint Account, on the basis of the Fund's percentage of the total amount in the Joint Account on any day represented by its share of the Joint Account.

7. The Advisers will administer the investment of the cash balances in and operation of the Joint Account as part of their duties under their existing or any future investment advisory contracts with each Fund and will not collect any additional fee for the management of the Joint Accounts. (The Advisers will collect fees in accordance with each Fund's respective investment advisory agreement.)

8. The Boards of Directors/Trustees of the Funds will evaluate the Joint Accounts' arrangements annually, and will continue the Joint Accounts only if they determine that there is a reasonable likelihood that the Joint Accounts will benefit the Funds and their shareholders.

9. The administration of the Joint Accounts will be within the fidelity bond coverage required by section 17(g) of the Act and rule 17g-1 thereunder.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 4910-62-M

Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits Filed Under Subpart Q During the Week Ended October 19, 1990

The following Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits were filed under subpart Q of the Department of Transportation's Procedural Regulations (See 14 CFR 302.1701 et. seq.). The due date for Answers, Conforming Applications, or Motions to Modify Scope are set forth below for each Application. Following the Answer period DOT may process the Application by expedited procedures. Such procedures may consist of the adoption of a show-cause order, a tentative order, or in appropriate cases a final order without further proceedings.

Docket Number: 45166.
Date filed: October 19, 1990.
Due Date for Answers, Conforming Applications, or Motion to Modify Scope: November 16, 1990.

Description

Amendment No. 1 to the Application of Lineas Aereas Trans Costa Rica, S.A. pursuant to section 402 of the Act and subpart Q of the Regulations, requests authority to operate scheduled as well as non-scheduled waybilled traffic between San Jose, Costa Rica, on the one hand, and Miami, Florida; Houston, Texas; San Juan, Puerto Rico; New York, Newark; and Los Angeles, California, on the other. In addition, LAT seeks authority to operate charters pursuant to the provisions of part 212 of the Department's Regulations.

Phyllis T. Kaylor,

Chief, Documentary Services Division.

BILLING CODE 4910-62-M

[Order 90-10-31 Docket No. 47223]

Order Instituting Miami-Cancun Service Proceeding

AGENCY: OST, Department of Transportation.

ACTION: Institution of Miami-Cancun Service Proceeding.

SUMMARY: The Department has decided to institute the *Miami-Cancun Service Proceeding*, Docket 47223, to select a primary and backup carrier to engage in scheduled foreign air transportation of persons, property, and mail between Miami, Florida, and Cancun, Mexico. Eastern Air Lines, Inc., currently holds certificate authority and is designated to serve the route. In April 1990, the Governments of the United States and Mexico agreed to permit the designation of an additional carrier from each country on the route. The case will be decided using written, non-oral evidentiary hearing procedures under rule 1750 of the Department's regulations (14 CFR 302.1750). The Department is not inviting further applications for the authority at issue and has established an expedited schedule for processing this case so that the selected carrier may begin its Cancun service in time for the 1990 peak winter season. By this order, the Department also dismisses the exemption applications filed by Pan American World Airways, Inc., and

American Airlines, Inc., for Miami-Cancun authority (Dockets 46488 and 46479, respectively), and grants the application of American Airlines for exemption authority to serve the Miami-Cozumel market (Docket 46479).

DATES: Petitions for consideration of Order 90-10-31, should be filed by October 29, 1990; and answers by November 1, 1990.

ADDRESSES: Petitions for reconsideration should be filed in Docket 47223 and served on all parties in Docket 47223.

Dated: October 22, 1990.

Jeffrey N. Shane,

Assistant Secretary for Policy and International Affairs.

Office of the Secretary

[Order 90-10-34; Docket 44645]

Final Intra-Alaska Bush Service Mail Rates

AGENCY: Department of Transportation.

ACTION: Notice of order terminating investigation.

SUMMARY: The Department of Transportation is advising all interested persons that we are terminating the investigation of the intra-Alaska bush service mail rate structure instituted by Order 88-10-45, October 29, 1988.[1] The order established new final mail rates effective from April 13, 1988, through March 31, 1989, and from April 1, 1989, through March 31, 1990.

FOR FURTHER INFORMATION CONTACT: James E. Gardner, Office of Aviation Analysis, U.S. Department of Transportation, 400 Seventh Street SW., Washington, DC 20590. (202) 366-2438.

Dated: October 22, 1990.

Jeffrey N. Shane,

Assistant Secretary for Policy and International Affairs.

BILLING CODE 4910-62-M

[Docket No. 47224]

Order Instituting Miami/Tampa-Toronto Service Investigation

AGENCY: Department of Transportation, Office of the Secretary.

ACTION: Institution of the Miami/Tampa-Toronto Service Investigation Order 90-10-32.

SUMMARY: By Order 90-5-5, the Department approved the transfer of several Eastern Air Lines' and Continental Airlines' routes to American Airlines. However, the Department withheld approval for transfer of the Miami/Tampa-Toronto route based on its finding that Eastern's existing service was inadequate and decided to reexamine the service needs of this market in a new proceeding and to invite competing applications from other U.S. carriers.

Consistent with its decision in Order 90-5-5, the Department has decided to institute the *Miami/Tampa-Toronto Service Investigation* to determine which carrier should be selected to serve the Miami/Tampa-Toronto markets. Under the U.S.-Canada aviation agreement, only one U.S. carrier may be designated to provide service on the route. Eastern holds the designation, but serves only the Miami-Toronto market. The order invites applications from U.S. carriers interested in serving the subject markets and also places at issue amendment or modification of the Eastern/Continental authority to serve this route. The Department states that it will decide the issue of appropriate carrier selection procedures after receipt of the applications. The Department also dismisses the exemption applications filed by American Airlines, Pan American World Airways and USAir for either Miami-Toronto or Tampa-Toronto authority and reinstates the certificate application filed by Pan American World Airways which was inadvertently dismissed by Order 90-5-5.

DATES: Applications for Miami/Tampa-Toronto authority, motions to consolidate, petitions for leave to intervene, and petitions for reconsideration of Order 90-10-32 should be filed by November 16, 1990. Answers should be filed by November 20, 1990.

ADDRESSES: Applications, motions to consolidate, petitions for leave to intervene, petitions for reconsideration, etc., should be filed in Docket 47224, addressed to the Documentary Services Division, U.S. Department of Transportation, 400 Seventh Street, SW., Room 4107, Washington, DC 20590 and should be served on all parties in Docket 47224, as well as Mr. Robert Goldner, room 9216, at the above address.

Dated: October 22, 1990.

Jeffrey N. Shane,

Assistant Secretary for Policy and International Affairs.

BILLING CODE 4910-62-M

Federal Aviation Administration

[FAA Billing No: BOAC 090021]

Intent To Prepare Environmental Impact Statement for Proposed Development at Lambert-St. Louis International Airport; St. Louis, MO

AGENCY: Federal Aviation Administration, Central Region, Kansas City, Missouri.

ACTION: Notice of intent.

SUMMARY: The Federal Aviation Administration is issuing a Notice of Intent that an Environmental Impact Statement will be prepared for the proposed development at Lambert-St. Louis International Airport, St. Louis, Missouri.

FOR FURTHER INFORMATION CONTACT: Dr. John L. Tatschl, Federal Aviation Administration, Airports Division, 601 E. 12th Street, Kansas City, Missouri 64106, telephone (816) 426-3614.

SUPPLEMENTARY INFORMATION: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, as implemented by the Council on Environmental Quality (CEQ) regulations (40 CFR parts 1500-1506), the Federal Aviation Administration (FAA will prepare an Environmental Impact Statement for the proposed development planned for the next 10 to 20 years at Lambert-St. Louis International Airport, St. Louis, Missouri. The proposed development includes, but is not limited to, the following: construction of four parallel runways, terminal expansion, relocation of the Air Traffic Control Tower, reconstruction and expansion of existing terminal area parking garage, relocation of segments of Lindberg Boulevard and Interstate Highway 70, terminal access roadway relocation and expansion, and relocation of the Air National Guard, TWA Hangar, General Aviation, and Air Cargo Facilities. The Environmental Impact Statement will address environmental considerations of the proposed actions and of numerous alternatives to the proposed action. The document will address direct and indirect environmental impacts, both beneficial and detrimental to the natural and human environment.

The Federal Aviation Administration will utilize the scoping process as

[1] Published at 53 FR [illegible], October 29, 1988.

outlined in the CEQ guidelines. This process will determine potentially significant issues related to the proposed airport development. To initiate the formal scoping process, interested individuals, governmental agencies, and private organizations will be invited in the near future to submit information and comments on this proposed action for consideration by the Federal Aviation Administration for incorporation into the Environmental Impact Statement. Concerned individuals and agencies will be asked to express their views either by writing or by participating in a future scoping meeting. Adequate notice will be published in local area newspapers and other local media at a later date to inform interested parties of the exact place and time of any scoping meetings. The purpose of public scoping meetings are: (1) To provide a description of the proposed action, (2) to identify potential impacts and issues that should be included in the Environmental Impact Statement, and (3) to identify other coordination and permit requirements associated with the proposed action. Questions and comments regarding the scope of the environmental analysis should be directed to: Dr. John Tatschl, Federal Aviation Administration, Central Region Office, 601 E. 12th Street, Federal Office Building, Kansas City, Missouri, 64106, (816) 426–6614.

George A. Hendon,

Manager, Airports Division.

BILLING CODE 4910-13-M

Federal Highway Administration

Environmental Impact Statement: Cumberland, Sampson and Duplin Counties, NC

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement (EIS) will be prepared for a proposed highway project in Cumberland, Sampson and Duplin Counties, North Carolina.

FOR FURTHER INFORMATION CONTACT: Robert L. Lee, District Engineer, Federal Highway Administration, P.O. Box 26806, Raleigh, North Carolina 27611. Telephone: (919) 790–2856.

SUPPLEMENTARY INFORMATION: The Federal Highway Administration, in cooperation with the North Carolina Department of Transportation, will prepare an environmental impact statement (EIS) on a proposal to provide improved traffic flow between I–95 near Fayetteville and I–40 near Warsaw. The proposed project would consist of construction of NC 24 as a four-lane controlled access highway on new location from a point 2.8 miles east of I–95 to I–40. The proposed highway is considered necessary to handle existing and projected traffic demand and to provide a link between two major interstate routes. This portion of NC 24 also provides a link between several large military bases and many cities, towns and communities. Alternatives under consideration include: (1) Taking no action (No Build); (2) improvement of existing routes (Upgrade); and (3) two Build alternatives.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State and local agencies and to private organizations who have previously expressed interest in this project. A series of public meetings and a public hearing will be held. Public notice will be given of the time and place of the meetings and hearing. The draft EIS will be made available for public and agency review and comment.

To ensure that the full range of issues related to the proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning the proposed action and the EIS should be directed to the FHWA at the address provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

Robert L. Lee,

District Engineer, Raleigh, North Carolina.

DEPARTMENT OF THE TREASURY

Public Information Collection Requirements Submitted to OMB for Review.

Dated: October 19, 1990.

The Department of Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1980, Public Law 96–511. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, room 3171 Treasury Annex, 1500 Pennsylvania Avenue, NW., Washington, DC 20220.

Bureau of Alcohol, Tobacco and Firearms

OMB Number: 1513–0006.
Form Number: ATF REC 5110/01, ATF F 5110.40.
Type of Review: Extension.
Title: Distilled Spirits Records and Monthly Report of Production Operations.
Description: The information collected is used to account for proprietor's tax liability, adequacy of bond coverage and protection of the revenue. The information also provides data to analyze trends in the industry, and plan efficient allocation of field resources, audit plant operations and compilation of statistics for government economic analysis.
Respondents: Businesses or other for-profit, Small businesses or organizations.
Estimated Number of Respondents: 140.
Estimated Burden Hours Per Response: 2 hours.
Frequency of Response: Monthly.
Estimated Total Reporting Burden: 3,360 hours.
Clearance Officer: Robert Masarsky (202), 566–7077, Bureau of Alcohol, Tobacco and Firearms, room 7011, 1200 Pennsylvania Avenue, NW., Washington, DC 20226.
OMB Reviewer: Milo Sunderhauf (202) 395–6880, Office of Management and Budget, room 3001, New Executive Office Building, Washington, DC 20503.

Public Information Collection Requirements Submitted to OMB for Review

Dated: October 22, 1990.

The Department of Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1980, Public Law 96–511. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department

Clearance Officer, Department of the Treasury, room 3171 Treasury Annex, 1500 Pennsylvania Avenue NW., Washington, DC 20220.

Bureau of Alcohol, Tobacco and Firearms

OMB Number: 1512-0341.
Form Number: ATF REC 5150/8.
Type of Review: Extension.
Title: Stills-Notices, Registration and Records.
Description: The information collected is used to account for and regulate the distillation of spirits. As there could be a substantial tax revenue loss that would be incurred through the illegal distillation of spirits, the data collected identifies the manufacturers, vendors and users of spirits as well as providing an accounting of stills and other apparatus.
Respondents: Businesses or other for-profit, Small businesses or organizations.
Estimated Number of Respondents: 10.
Estimated Burden Hours Per Response: 30 minutes.
Frequency of Response: On occasion.
Estimated Total Reporting Burden: 21 hours.

OMB Number: 1512-0461.
Form Number: ATF 5110/11.
Type of Review: Extension.
Title: Marks and Labels on Containers of Distilled Spirits.
Description: The marking, branding and labeling of containers of spirits by distilled spirits plants provide the data to identify, trace, and quantify the spirits.
Respondents: Businesses or other for-profit, Small businesses or organizations.
Estimated Number of Respondents: 254.
Estimated Burden Hours Per Response: 1 hour.
Frequency of Response: Other (No recordkeeping or reporting).
Estimated Total Reporting Burden: 1 hour.

OMB Number: 1512-0462.
Form Number: ATF 5100/1.
Type of Review: Extension.
Title: Labeling and Advertising Requirements Under the Federal Alcohol Administration Act.
Description: Under the Federal Alcohol Administration Act, bottlers and importers of alcohol beverages are required to display certain information for consumers on labels and in advertisements. Other optional statements are also required.
Respondents: Businesses or other for-profit, Small businesses or organizations.
Estimated Number of Respondents: 6,060.
Estimated Burden Hours Per Response: 1 hour.
Frequency of Response: On occasion.
Estimated Total Reporting Burden: 1 hour.
Clearance Officer: Robert Masarsky (202), 566-7077, Bureau of Alcohol, Tobacco and Firearms, room 7011, 1200 Pennsylvania Avenue, NW., Washington, DC 20226.

BILLING CODE 6720-01-M

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

[Docket No. 301-60]

Section 302 Investigation: Canada's Restrictive Practices Affecting the Importation of Beer

AGENCY: Office of the United States Trade Representative.

ACTION: Notice of request for comment on issues included in investigation under section 302 of the Trade Act of 1974, as amended ("the Trade Act").

SUMMARY: On September 14, 1990, the Stroh Brewery Company ("Stroh") filed a petition pursuant to section 302 of the Trade Act regarding Canada's restrictive practices affecting imports of beer. The allegations raised by Stroh in its petition are already being considered by the United States Trade Representative (USTR) in an investigation initiated by USTR under section 302 of the Trade Act on June 29, 1990 (Docket No. 301-60), in response to a petition filed by G. Heileman Brewing Company, Inc. ("Heileman"). Therefore, rather than initiate a separate investigation, the USTR will investigate the matters raised in the Stroh petition in the course of its investigation in Docket No. 301-60, and USTR requests public comment on the matters raised in the Stroh petition.

DATES: Written comments from interested persons are due by 12 noon on November 26, 1990.

ADDRESSES: Comments must be addressed to: Chairman, Section 301 Committee, Office of the United States Trade Representative, room 223, 600 17th St., NW., Washington, DC 20506.

FOR FURTHER INFORMATION CONTACT: Ellen Terpstra, Advisor to the Assistant U.S. Trade Representative for Agriculture, (202) 395-5006, or Andrew Shoyer, Assistant General Counsel, (202) 395-7203.

SUPPLEMENTARY INFORMATION: On September 14, 1990, the Stroh Brewery Company ("Stroh") filed a petition pursuant to section 302 of the Trade Act regarding Canadian practices affecting imports of beer. In particular, Stroh asserts that discriminatory mark-ups and restrictions on distribution of beer within the Canadian province of Ontario violate the General Agreement on

Tariffs and Trade (GATT) and the U.S.-Canada Free-Trade Agreement. Stroh alleges that the Canadian practices are therefore unjustifiable, unreasonable and discriminatory, and constitute a burden or restriction on U.S. commerce. Stroh requests that the USTR take appropriate action under section 301 of the Trade Act.

On June 29, 1990, pursuant to section 302(a) of the Trade Act, the USTR initiated an investigation with respect to Canadian practices referred to in a petition filed on May 15, 1990 by Heileman. In its petition, Heileman referred to the same pricing and distribution practices within the province of Ontario as alleged by Stroh in its petition. Accordingly, the practices referred to by Stroh in its petition are already the subject of an investigation under section 302 of the Trade Act and will be fully considered and addressed in the context of that investigation.

For these reasons, the USTR has determined not to initiate a separate investigation under section 302 of the Trade Act with respect to the petition filed by Stroh on September 14, 1990, and Stroh concurs in this decision. The Stroh petition has been included in the docket (Docket No. 301–80) that has been established for the investigation initiated on June 29, 1990 with respect to the petition filed by Heileman, and all factual information contained in the Stroh petition has been made part of the official record. Copies of the public version of the Stroh petition are available for public inspection at the USTR Reading room, room 101, Office of the United States Trade Representative, 600 17th Street, NW., Washington, DC. An appointment to review the docket may be made by calling Brenda Webb, (202) 395–6186. The USTR Reading room is open to the public from 10 a.m. to 12 noon and from 1 p.m. to 4 p.m., Monday to Friday.

PUBLIC COMMENT: Interested persons are invited to submit written comments on the issues raised in the Stroh petition. Comments must be filed in accordance with the requirements set forth in 15 CFR 2006.8(b) and are due by noon on November 26, 1990. Comments must be in English and provided in twenty copies to: Chairman, Section 301 Committee, room 223, USTR, 600 17th Street, NW., Washington, DC 20506.

Comments will be placed in Docket 301–80, open to public inspection pursuant to 15 CFR 2006.13, except confidential business information exempt from public inspection in accordance with 15 CFR 2006.15. [Confidential business information submitted in accordance with 15 CFR 2006.15 must be clearly marked "BUSINESS CONFIDENTIAL" in a contrasting color ink at the top of each page on each of 20 copies, and must be accompanied by a nonconfidential summary of the confidential information. The nonconfidential summary shall be placed in the Docket which is open to public inspection.)

A. Jane Bradley,

Chairman, Section 301 Committee.

BILLING CODE 3190-01-M

DEPARTMENT OF VETERANS AFFAIRS

Prosthetics Services Advisory Committee; Establishment

In accordance with the provisions of the Federal Advisory Committee Act (Pub. L. 92–463 as amended by Pub. L. 94–409) and Office of Management and Budget Circular A–63, as revised, and after consultation with the General Services Administration, the Secretary, VA (Department of Veterans Affairs), has determined that establishment of the Prosthetics Services Advisory Committee is necessary and in the public interest in connection with the performance of duties imposed on VA by law.

This Committee has been established to review and address the prosthetics programs within VA to include how the Department can best improve program accountability, quality, and timeliness of services; allocate resources; promote equity of access; expand the use of national contracts for prosthetic items and services; consolidate purchasing power; standardize requirements; and define the national mission of the Prosthetics Research and Development Center (PRDC) currently located in Baltimore, Maryland.

The Committee shall submit a report to the Secretary on its findings and recommendations on the above mentioned issues. Thereafter, the Committee shall submit annually a report to the Secretary on the status of prosthetic services and associated rehabilitation research and development programs within VA, with special emphasis on program effectiveness, information dissemination, sufficiency of resources; adequacy of the testing and evaluation of new rehabilitation technology available commercially or from VA research; and suggested priority areas for future VA funded research.

Members of the Committee will be selected from among individuals with expertise in fields such as Audiology and Speech Pathology, Blind Rehabilitation, Orthopedics, Orthotics, Prosthetics, Recreation Therapy, Rehabilitation Medicine, and Spinal Cord Injury. Membership will include disabled veteran users of VA prosthetic services and representation from veteran service organizations with a prominent interest in the field of prosthetics.

Comments of interested persons concerning the establishment of the Prosthetics Services Committee may be submitted to Margaret J. Giannini, M.D., Deputy Assistant Chief Medical Director for Rehabilitation & Prosthetics (141D), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington DC 20420, (202) 233–5177.

Dated: October 12, 1990.

By direction of the Secretary.

Sylvia Chavez Long,

Committee Management Officer.

BILLING CODE 8320-01-M

Summary of Legal Interpretation of the General Counsel—Precedent Opinion 74–90; Discontinuance of Apportionment Due to Divorce

AGENCY: Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: The Department of Veterans Affairs (VA) is publishing a summary of a legal interpretation issued by the Department's General Counsel involving veterans' benefits under laws administered by VA. This interpretation is considered precedential by VA and will be followed by VA officials and employees in future claim matters. It is being published to provide the public, and, in particular, veterans' benefit claimants and their representatives, with notice of VA's interpretation regarding the legal matter at issue—(1) Does title 38, United States Code, support the general rule set forth in 38 CFR 3.500(d), that an apportionment of benefits is to be discontinued the date of last payment when the reason for the apportionment no longer exists? (2) If the general rule provided by 38 CFR 3.500(d) is sustainable, does it govern discontinuance of an apportionment as to the apportionee in the event of divorce? (3) If an apportionment may be discontinued retroactively, is the apportionee or the veteran the "indebted beneficiary" within the meaning of 38 U.S.C. 3101(b)?

EFFECTIVE DATE: July 10, 1990.

FOR FURTHER INFORMATION CONTACT: Mr. Jay D. Farris, Chief, Law Library, Department of Veterans Affairs, 810 Vermont Avenue NW., Washington, DC 20420, (202) 233–2159.

SUPPLEMENTARY INFORMATION: VA regulations at 38 CFR 2.6(e)(9) and 14.507 authorize the Department's General Counsel to issue written legal opinions having precedential effect in adjudications and appeals involving veterans' benefits under laws administered by VA. The General Counsel's interpretations on legal matters, contained in such opinions, are conclusive as to all VA officials and employees not only in the matter at issue but also in future adjudications and appeals, in the absence of a change in controlling statute or regulation or a superseding written legal opinion of the General Counsel. (This opinion, previously issued as General Counsel Opinion 10–87, dated May 19, 1987, is reissued as a Precedent Opinion pursuant to 38 CFR 2.6(e)(9) and 14.057. The text of the opinion remains unchanged from the original except for certain format and clerical changes necessitated by the aforementioned regulatory provisions.)

VA publishes summaries of such opinions in order to provide the public with notice of those interpretations of the General Counsel which must be followed in future benefit matters and to assist veterans' benefit claimants and their representatives in the prosecution of benefit claims. The full text of such opinions, with personal identifiers deleted, may be obtained by contacting the VA official named above.

A summary of the General Counsel's opinion designated O.G.C. Prec. 74–90, Discontinuance of Apportionment Due to Divorce, requested by Chairman, Board of Veterans Appeals, is as follows:

Held

(1) Section 3.500(d)(1) of title 38, CFR, is supported by statutory authority, i.e., 38 U.S.C. 210(c)(1), 3012, and 3107(a).

(2) "Date of last payment" found in §3.500(d) refers to DLP as of the time the reason for the apportionment ceases to exist.

(3) Section 3.500(d) does not apply to discontinuance of apportionment due to divorce; rather, § 3.501(d) applies in such cases.

(4) Section 3101(b) of title 38, U.S.C., does not shift the label "debtor" from the apportionee to the primary beneficiary, or vice versa. The primary beneficiary is responsible to refund the overpayments that the primary beneficiary has received, and the apportionee is responsible to refund benefit overpayments that the apportionee has received.

(5) Section 3101(b) supplements the common law so as to permit collection by offset against benefits due the primary beneficiary of a debt occasioned by overpayment to the apportionee on the same account.

(6) The Agency is at liberty to first assert a claim against the apportionee and resort to offset against the benefits due the primary beneficiary on the same account only if efforts to collect from the apportionee prove unsuccessful.

Dated: August 27, 1990.

Raoul L. Carroll,

General Counsel.

BILLING CODE 8320-01-M

Summary of Legal Interpretation of the General Counsel-Precedent Opinion 57–90; Congenital/Developmental Conditions under 38 CFR 3.303(c)

AGENCY: Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: The Department of Veterans Affairs (VA) is publishing a summary of a legal interpretation issued by the Department's General Counsel involving veterans' benefits under laws administered by VA. This interpretation is considered precedential by VA and will be followed by VA officials and employees in future claim matters. It is being published to provide the public, and, in particular, veterans' benefit claimants and their representatives, with notice of VA's interpretation regarding the legal matter at issue—whether an hereditary disease under 38 CFR 3.303(c) always rebuts the presumption of soundness found in 38 U.S.C. 311 and 332.

EFFECTIVE DATE: July 18, 1990.

FOR FURTHER INFORMATION CONTACT: Mr. Jay D. Farris, Chief, Law Library, Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420, (202) 233–2159.

SUPPLEMENTARY INFORMATION: VA regulations at 38 CFR 2.6(e)(9) and 14.507 authorize the Department's General Counsel to issue written legal opinions having precedential effect in adjudications and appeals involving veterans' benefits under laws administered by VA. The General Counsel's interpretations on legal matters, contained in such opinions, are conclusive as to all VA officials and employees not only in the matter at issue but also in future adjudications and appeals, in the absence of a change in controlling statute or regulation or a superseding written legal opinion of the General Counsel. (This opinion, previously issued as General Counsel Opinion 8–88, dated September 29, 1988, is reissued as a Precedent Opinion pursuant to 38 CFR 2.6(e)(9) and 14.057. The text of the opinion remains unchanged from the original except for certain format and clerical changes necessitated by the aforementioned regulatory provisions.).

Va publishes summaries of such opinions in order to provide the public with notice of those interpretations of the General Counsel which must be followed in future benefit matters and to assist veterans' benefit claimants and their representatives in the prosecution of benefit claims. The full text of such opinions, with personal identifiers deleted, may be obtained by contacting the VA official named above.

A summary of the General Counsel's opinion designated O.G.C. Prec. 57–90, Congenital/Developmental Conditions under 38 CFR 3.303(c), requested by Chairman, Board of Veterans Appeals, is as follows:

Held: An hereditary disease under 38 CFR 3.303(c) does not always rebut the presumption of soundness found in 38 U.S.C. 311 and 332. Service connection may be granted for hereditary diseases which either first manifest themselves during service or which preexist service and progress at an abnormally high rate during service.

Dated: August 27, 1990.

Raoul L. Carroll,

General Counsel.

BILLING CODE 8320-01-M

Summary of Legal Interpretation of the General Counsel-Precedent Opinion 70–90; Countability for Improved Pension Purposes of Interest Accrued on Retirement Annuity Accounts

AGENCY: Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: The Department of Veterans Affairs (VA) is publishing a summary of a legal interpretation issued by the Department's General Counsel involving veterans' benefits under laws administered by VA. This interpretation is considered precedential by VA and will be followed by VA officials and employees in future claim matters. It is being published to provide the public, and, in particular, veterans' benefit claimants and their representatives,

BEST COPY AVAILABLE

with notice of VA's interpretation regarding the legal matter at issue—Whether interest accrued on an Individual Retirement Annuity owned by a deceased veteran's surviving spouse, who is in receipt of death pension under the improved pension program, is countable as income for pension purposes, and, if so, when and to what extent.

EFFECTIVE DATE: July 18, 1990.

FOR FURTHER INFORMATION CONTACT: Mr. Jay D. Farris, Chief, Law Library, Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420, (202) 233-2150.

SUPPLEMENTARY INFORMATION: VA regulations at 38 CFR 2.6(e)(9) and 14.507 authorize the Department's General Counsel to issue written legal opinions having precedential effect in adjudications and appeals involving veterans' benefits under laws administered by VA. The General Counsel's interpretations on legal matters, contained in such opinions, are conclusive as to all VA officials and employees not only in the matter at issue but also in future adjudications and appeals, in the absence of a change in controlling statute or regulation or a superseding written legal opinion of the General Counsel. (This opinion, previously issued as General Counsel Opinion 3-88, dated June 14, 1988, is reissued as a Precedent Opinion pursuant to 38 CFR 2.6(e)(9) and 14.507. The text of the opinion remains unchanged from the original except for certain format and clerical changes necessitated by the aforementioned regulatory provisions.)

VA publishes summaries of such opinions in order to provide the public with notice of those interpretations of the General Counsel which must be followed in future benefit matters and to assist veterans' benefit claimants and their representatives in the prosecution of benefit claims. The full text of such opinions, with personal identifiers deleted, may be obtained by contacting the VA official named above.

A summary of the General Counsel's opinion designated O.G.C. Prec. 70-90, Countability for Improved Pension Purposes of Interest Accrued on Retirement Annuity Accounts, requested by Chairman, Board of Veterans Appeals, is as follows:

Held: As it appears that the interest credited to the claimant's annuity accounts cannot currently be obtained without substantial penalty, such interest should not be counted at this time as income for purposes of determining the claimant's entitlement to improved pension. This does not prevent the counting of such interest as income at some future date when it may be considered as having actually been received by the claimant. Further, annuity contracts may be considered under the net-worth factors listed in 38 CFR 3.275(d) in determining whether it is reasonable that some portion of the claimant's estate should be consumed for the claimant's maintenance.

Dated: August 27, 1990.

Raoul L. Carroll,

General Counsel.

BILLING CODE 8320-01-M

Summary of Legal Interpretation of the General Counsel Precedent Opinion 69-90; Application of Change in Law during Pendency of Appeal

AGENCY: Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: The Department of Veterans Affairs (VA) is publishing a summary of a legal interpretation issued by the Department's General Counsel involving veterans' benefits under laws administered by VA. This interpretation is considered precedential by VA and will be followed by VA officials and employees in future claim matters. It is being published to provide the public, and, in particular, veterans' benefit claimants and their representatives, with notice of VA's interpretation regarding the legal matter at issue—Did the Board of Veterans Appeals exceed its authority by rendering a decision based upon criteria superceded by 38 CFR 3.311b, which was adopted during the pendency of the appeal, and, if so, should the Board be required to reconsider such a decision, presumably with application of the new regulations?

EFFECTIVE DATE: July 18, 1990.

FOR FURTHER INFORMATION CONTACT: Mr. Jay D. Farris, Chief, Law Library, Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420, (202) 233-2150.

SUPPLEMENTARY INFORMATION: VA regulations at 38 CFR 2.6(e)(9) and 14.507 authorize the Department's General Counsel to issue written legal opinions having precedential effect in adjudications and appeals involving veterans' benefits under laws administered by VA. The General Counsel's interpretations on legal matters, contained in such opinions, are conclusive as to all VA officials and employees not only in the matter at issue but also in future adjudications and appeals, in the absence of a change in controlling statute or regulation or a superseding written legal opinion of the General Counsel. (This opinion, previously issued as General Counsel Opinion 4-88, dated June 14, 1988, is reissued as a Precedent Opinion pursuant to 38 CFR 2.6(e)(9) and 14.507. The text of the opinion remains unchanged from the original except for certain format and clerical changes necessitated by the aforementioned regulatory provisions.)

VA publishes summaries of such opinions in order to provide the public with notice of those interpretations of the General Counsel which must be followed in future benefit matters and to assist veterans' benefit claimants and their representatives in the prosecution of benefit claims. The full text of such opinions, with personal identifiers deleted, may be obtained by contacting the VA official named above.

A summary of the General Counsel's opinion designated O.G.C. Prec. 69-90, Application of Change in Law during Pendency of Appeal, requested by Chief, Benefits Director, is as follows:

Held: The criteria set forth in 38 CFR 3.311b are proper for application to any decision entered by the Board of Veterans Appeals after adoption of the new regulation, notwithstanding that the appeal may have been pending before the regulation became effective. The Board may be requested to reconsider any decision based on criteria superceded by 38 CFR 3.311b, but any decision to do so is at the discretion of the Board.

Dated: August 27, 1990.

BILLING CODE 8320-01-M

Summary of Legal Interpretation of the General Counsel—Precedent Opinion 68–90; Applicability of 38 U.S.C. 410(b) Where Total Disability May Have Preceded Effective Date of Total Disability Rating

AGENCY: Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: The Department of Veterans Affairs (VA) is publishing a summary of a legal interpretation issued by the Department's General Counsel involving veterans' benefits under laws administered by VA. This interpretation is considered precedential by VA and will be followed by VA officials and employees in future claim matters. It is being published to provide the public, and, in particular, veterans' benefit claimants and their representatives, with notice of VA's interpretation regarding the legal matter at issue—(1) Whether the previously adjudicated effective date of a total service-connected disability rating assigned by the originating agency is final, for purposes of entitlement to benefits under section 410(b), absent clear and unmistakable error, or whether 38 CFR 19.196 mandates a *de novo* review by the Board of Veterans Appeals; and (2) Whether, if it were determined from a medical standpoint that an unemployed veteran was totally disabled for a continuous period of 10 or more years immediately preceding his death, a date of claim less than 10 years before date of death and more than 1 year after the date it is factually ascertainable that total disability has occurred, would permit an award of section 410(b) benefits.

EFFECTIVE DATE: July 18, 1990.

FOR FURTHER INFORMATION CONTACT: Mr. Jay D. Farris, Chief, Law Library, Department of Veterans Affairs, 810 Vermont Avenue NW., Washington, DC 20420, (202) 233–2150.

SUPPLEMENTARY INFORMATION: VA regulations at 38 CFR 2.6(e)(9) and 14.507 authorize the Department's General Counsel to issue written legal opinions having precedential effect in adjudications and appeals involving veterans' benefits under laws administered by VA. The General Counsel's interpretations on legal matters, contained in such opinions, are conclusive as to all VA officials and employees not only in the matter at issue but also in future adjudications and appeals, in the absence of a change in controlling statute or regulation or a superseding written legal opinion of the General Counsel. (This, opinion, previously issued as General Counsel Opinion 7–88, dated September 22, 1988, is reissued as a Precedent Opinion pursuant to 38 CFR 2.6(e)(9) and 14.057. The text of the opinion remains unchanged from the original except for certain format and clerical changes necessitated by the aforementioned regulatory provisions.)

VA publishes summaries of such opinions in order to provide the public with notice of those interpretations of the General Counsel which must be followed in future benefit matters and to assist veterans' benefit claimants and their representatives in the prosecution of benefit claims. The full text of such opinions, with personal identifiers deleted, may be obtained by contacting the VA official named above.

A summary of the General Counsel's opinion designated O.G.C. Prec. 68–90, Applicability of 38 U.S.C. 410(b) Where Total Disability May Have Preceded Effective Date of Total Disability Rating, requested by Chairman, Board of Veterans Appeals, is as follows:

Held: In summary, it is held that:

(1) The effective date of a total service-connected disability rating assigned by the originating agency is final (subject to timely appeal), for purposes of entitlement of a veteran's survivors to benefits under 38 U.S.C. 410(b), in the absence of clear and unmistakable error; and

(2) Where a claim for total service-connected disability rating was filed more than one year after the onset of total disability and granted effective on the date of claim, the death of the veteran less than ten years after such effective date precludes entitlement to section 410(b) benefits, absent clear and unmistakable error in the assignment of that effective date.

Dated: August 27, 1990.

Raoul L. Carroll,

General Counsel.

BILLING CODE 8320-01-M

Summary of Legal Interpretation of the General Counsel-Precedent Opinion 71-90; Treatment of Tribal Per Capita Payments for Improved Pension Purposes

AGENCY: Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: The Department of Veterans Affairs (VA) is publishing a summary of a legal interpretation issued by the Department's General Counsel involving veterans' benefits under laws administered by VA. This interpretation is considered precedential by VA and will be followed by VA officials and employees in future claim matters. It is being published to provide the public, and, in particular, veterans' benefit claimants and their representatives, with notice of VA's interpretation regarding the legal matter at issue—Whether tribal per capita payments or dividends, received by a veteran, should be considered income for improved pension purposes.

EFFECTIVE DATE: July 18, 1990.

FOR FURTHER INFORMATION CONTACT: Mr. Jay D. Ferris, Chief, Law Library, Department of Veterans Affairs, 810 Vermont Avenue NW., Washington, DC 20420, (202) 233-2159.

SUPPLEMENTARY INFORMATION: VA regulations at 38 CFR 2.6(e)(9) and 14.507 authorize the Department's General Counsel to issue written legal opinions having precedential effect in adjudications and appeals involving veterans' benefits under laws administered by VA. The General Counsel's interpretations on legal matters, contained in such opinions, are conclusive as to all VA officials and employees not only in the matter at issue but also in future adjudications and appeals, in the absence of a change in controlling statute or regulation or a superseding written legal opinion of the General Counsel. (This, opinion, previously issued as General Counsel Opinion 2-88, dated March 1, 1988, is reissued as a Precedent Opinion pursuant to 38 CFR 2.6(e)(9) and 14.057. The text of the opinion remains unchanged from the original except for certain format and clerical changes necessitated by the aforementioned regulatory provisions.)

VA publishes summaries of such opinions in order to provide the public with notice of those interpretations of the General Counsel which must be followed in future benefit matters and to assist veterans' benefit claimants and their representatives in the prosecution of benefit claims. The full text of such opinions, with personal identifiers deleted, may be obtained by contacting the VA official named above.

A summary of the General Counsel's opinion designated O.G.C. Prec. 71-90, Treatment of Tribal Per Capita Payments for Improved Pension Purposes, requested by Chief Benefits Director, is as follows:

Held: Congress' purpose in enacting Public Law No. 98-64 and 97-458 was clearly that per capita distributions within the terms of those statutes are not to be counted in determining income or resources in any Federal or federally assisted program, except where such payments exceed $2,000. Accordingly, if the veteran has received per capita distributions of funds held in trust by the Secretary of the Interior for an Indian tribe and not otherwise excludable from income under section 503(a) of title 38, such distributions, not exceeding $2,000 are excludable from income for improved pension purposes pursuant to Public Law No. 98-64.

Dated: August 27, 1990.

A summary of the General Counsel's opinion designated O.G.C. Prec. 72-90, Trust Property, Countable Income and Net Worth, requested by Chairman, Board of Veterans Appeals, is as follows:

Held

(1) For purposes of the income and net worth limitations applied under 38 U.S.C. 503, 521, 522 to determinations of eligibility for improved pension, and for purposes of the $1,500 estate limitation provisions imposed by 38 U.S.C. 3203(b)(1)(A), the property held in a discretionary trust, and income therefrom, is not countable until it is actually allocated for the claimant's use, unless the claimant possesses such control over the property that the claimant may direct it to be used for the claimant's benefit.* [* For the same reasons, the principles enunciated above apply to determinations of eligibility of

surviving spouses and children to improved death pension.]

(2) The term "fiduciary" in 38 CFR 3.557(c)(1)(iv) refers to a person or entity recognized as such for the payment of VA-benefit funds.

Dated: August 27, 1990.

BILLING CODE 8320-01-M

Summary of Legal Interpretation of the General Counsel-Precedent Opinion 73-90; Scope of 38 U.S.C. 360 in Relation to 38 U.S.C. 351

AGENCY: Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: The Department of Veterans Affairs (VA) is publishing a summary of a legal interpretation issued by the Department's General Counsel involving veterans' benefits under laws administered by VA. This interpretation is considered precedential by VA and will be followed by VA officials and employees in future claim matters. It is being published to provide the public, and, in particular, veterans' benefit claimants and their representatives, with notice of VA's interpretation regarding the legal matter at issue—Whether the provisions of 38 U.S.C. 360 are applicable where a veteran's loss of use of an extremity is compensable under 38 U.S.C. 351 and loss of use of the other paired extremity is neither service-connected nor quasi-service-connected under section 351.

EFFECTIVE DATE: July 18, 1990.

FOR FURTHER INFORMATION CONTACT: Mr. Jay D. Farris, Chief, Law Library, Department of Veterans Affairs, 810 Vermont Avenue NW., Washington, DC 20420, (202) 233-2150.

SUPPLEMENTARY INFORMATION: VA regulations at 38 CFR 2.6(e)(9) and 14.507 authorize the Department's General Counsel to issue written legal opinions having precedential effect in adjudications and appeals involving veterans' benefits under laws administered by VA. The General Counsel's interpretations on legal matters, contained in such opinions, are conclusive as to all VA officials and employees not only in the matter at issue but also in future adjudications and appeals, in the absence of a change in controlling statute or regulation or a superseding written legal opinion of the General Counsel. (This, opinion, previously issued as General Counsel Opinion 11-87, dated October 2, 1987, is released as a Precedent Opinion pursuant to 38 CFR 2.6(e)(9) and 14.507. The text of the opinion remains unchanged from the original except for certain format and clerical changes necessitated by the aforementioned regulatory provisions.)

VA publishes summaries of such opinions in order to provide the public with notice of those interpretations of the General Counsel which must be followed in future benefit matters and to assist veterans' benefit claimants and their representatives in the prosecution of benefit claims. The full text of such opinions, with personal identifiers deleted, may be obtained by contacting the VA official named above.

A summary of the General Counsel's opinion designated O.G.C. Prec. 73-90, Scope of 38 U.S.C. in Relation to 38 U.S.C. 351, requested by Chief Benefits Director, is as follows:

Held

Section 351 eligibility confers entitlement to disability compensation provided under section 360, if eligibility otherwise exists.

Dated: August 27, 1990.

Raoul L. Carroll,

General Counsel.

Sunshine Act Meetings

Federal Register
Vol. 55, No. 208
Friday, October 26, 1990

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

FEDERAL MARITIME COMMISSION

TIME AND DATE: 10:00 a.m., October 31, 1990.

PLACE: Hearing Room One, 1100 L Street, N.W., Washington, D.C. 20573-0001.

STATUS:

A portion of the meeting will be open to the public.

A portion of the meeting will be closed to the public.

MATTER(S) TO BE CONSIDERED:

Portion Open to the Public

Docket No. 90-06 *Notice of Inquiry—Marine Terminal Operator Regulations*—Consideration of Comments.

Portion Closed to the Public

1. Maritime Restrictions in Foreign Trades—Korea.
2. Trans-Atlantic Enforcement Initiative.
3. Trans-Pacific Malpractice Program.

CONTACT PERSON FOR MORE INFORMATION: Joseph C. Polking, Secretary, (202) 523-5725.

Joseph C. Polking,
Secretary.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM BOARD OF GOVERNORS

TIME AND DATE: 10:00 a.m., Wednesday, October 31, 1990.

PLACE: Marriner S. Eccles Federal Reserve Board Building, C Street entrance between 20th and 21st Streets, N.W., Washington, D.C. 20551.

STATUS: Open.

MATTERS TO BE CONSIDERED:

Summary Agenda

Because of their routine nature, no substantive discussion of the following items is anticipated. These matters will be voted on without discussion unless a member of the Board requests that an item be moved to the discussion agenda.

1. Proposed 1991 Private Sector Adjustment Factor for Federal Reserve priced services.
2. Proposed national Automated Clearing House (ACH) net settlement service.

Discussion Agenda

3. Publication for comment of a proposed amendment to Regulation Y (Bank Holding Companies and Change in Bank Control) regarding appraisal standards for Federally related transactions.
4. Proposals regarding the Federal Reserve System's seasonal credit program.
5. Proposed 1991 Fee Schedules for Federal Reserve priced services.
6. Any items carried forward from a previously announced meeting.

Note: This meeting will be recorded for the benefit of those unable to attend. Cassettes will be available for listening in the Board's Freedom of Information Office, and copies may be ordered for $5 per cassette by calling (202) 452-3684 or by writing to:

Freedom of Information Office, Board of Governors of the Federal Reserve System, Washington, D.C. 20551

CONTACT PERSON FOR MORE INFORMATION: Mr. Joseph R. Coyne, Assistant to the Board; (202) 452-3204.

Dated: October 24, 1990.

William W. Wiles,
Secretary of the Board.

[FR Doc. 90-25503 Filed 10-24-90; 12:04 pm]
BILLING CODE 6210-01-M

FEDERAL RESERVE SYSTEM BOARD OF GOVERNORS

TIME AND DATE: Approximately 11:30 a.m., Wednesday, October 31, 1990, following a recess at the conclusion of the open meeting.

PLACE: Marriner S. Eccles Federal Reserve Board Building, C Street entrance between 20th and 21st Streets, N.W., Washington, D.C. 20551.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

1. Personnel actions (appointments, promotions, assignments, reassignments, and salary actions) involving individual Federal Reserve System employees.
2. Any items carried forward from a previously announced meeting.

CONTACT PERSON FOR MORE INFORMATION: Mr. Joseph R. Coyne, Assistant to the Board; (202) 452-3204. You may call (202) 452-3207, beginning at approximately 5 p.m. two business days before this meeting, for a recorded announcement of bank and bank holding company applications scheduled for the meeting.

Dated: October 24, 1990.

William W. Wiles,
Secretary of the Board.

POSTAL SERVICE BOARD OF GOVERNORS

Notice of a Meeting

The Board of Governors of the United States Postal Service, pursuant to its Bylaws (39 C.F.R. Section 7.5) and the Government in the Sunshine Act (5 U.S.C. Section 552b), hereby gives notice that it intends to hold a meeting at 1:00 p.m. on Monday, November 5, 1990, and at 8:30 a.m. on Tuesday, November 6, 1990, in Washington, DC. The November 5 meeting, at which the Board will discuss possible strategies in collective bargaining negotiations, is closed to the public (See 55 F.R. 40894, October 5, 1990). The November 6 meeting is open to the public and will be held on the Benjamin Franklin Room at Postal Service Headquarters, 475 L'Enfant Plaza, SW. The Board expects to discuss the matters stated in the agenda which is set forth below. Requests for information about the meeting should be addressed to the Secretary of the Board, David F. Harris, at (202) 268-4800.

AGENDA

Monday Session

November 5—1:00 p.m. (Closed)

1. Status Report on Collective Bargaining Negotiations. (David H. Charters, Senior Assistant Postmaster General, Human Resources Group, and Joseph J. Mahon, Jr., Assistant Postmaster General, Labor Relations Department)

Tuesday Session

November 6—8:30 a.m. (Open)

1. Minutes of the Previous Meeting, October 1-2, 1990.
2. Remarks of the Postmaster General. (Anthony M. Frank)
3. Report on Technology Resource Department. (Karen T. Uemoto, Assistant Postmaster General, Technology Resource Department)
4. Capital Investments:
   a. Boston, Massachusetts, Northwest Center Mail Processing Facility. (Stanley W. Smith, Assistant Postmaster General, Facilities Department; and Thomas K. Ranft, Boston Field Division General Manager/Postmaster)
   b. Washington, D.C., National Postal History and Philatelic Museum. (Mr. Smith and Gordon C. Morison, Assistant

Postmaster General, Philatelic and Retail Services Department)

5. Quarterly Report on Service Performance. (Ann McK. Robinson, Consumer Advocate)

6. Tentative Agenda for December 3–4, 1990, meeting in New Orleans, Louisiana.

David P. Harris,

Secretary.

Issued on: October 15, 1990.

T.D. Larson,

Administrator.

In the Matter of Autotrans, Inc.

[Docket No. R1–90–10 (Formerly R1–89–199)]

Order Appointing Administrative Law Judge

This matter comes before me upon request of the Respondent for an administrative hearing to contest the alleged violations charged in a Notice of Claim dated June 26, 1990. The Notice alleged 25 violations of 49 CFR 395.8, failing to retain supporting documents with records of duty status for a period of 6 months, and 6 violations of 49 CFR 396.3, failing to keep minimum records of inspection and maintenance. The Regional Director, Office of Motor Carrier Safety, Region 1, does not raise any objection to the request.

Respondent contends that with respect to the 25 violations of § 395.8, the records have been retained, were made available to the inspectors and remain available. With respect to the 6 violations of § 396.3 respondent contends that records are retained, were made available and remain available.

Therefore, it is hereby ordered, That Respondent's request for a hearing is granted. In accordance with 49 CFR 386.54(a), I hereby appoint an Administrative Law Judge to be designated by the Chief Administrative Law Judge of the Department of Transportation, as the Presiding Judge in this matter. The Judge appointed is authorized to perform those duties specified in 49 CFR 386.54(b).

Dated: September 1, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Propane Transportation Corp.

[Docket No. R1–90–09 (Formerly R1–90–143)]

Order Appointing Administrative Law Judge

This matter comes before me upon request of the Respondent for an administrative hearing and a denial of alleged violations of the Hazardous Materials Transportation Act and regulations issued thereunder.

The Regional Director, Office of Motor Carrier Safety, Region 1, does not oppose the request for a hearing. The Regional Director, by Notice of Claim letter dated June 18, 1990 alleged 20 violations of the regulations, specifically requiring or permitting a driver to make false entries upon a record of duty status while transporting a hazardous material.

For the most part, Respondent's denial is in broad general terms. It is difficult to determine the precise nature of the denial without a full record before me. However, it has been settled, and accepted by this Agency that responsibility cannot be escaped if it can be shown that Respondent had the means to detect the alleged violation, see *Riss & Co.* v. *U.S.*, 262 F.2d 245, 250 (5th Cir., 1958) and *U.S.* v. *Time-DC, Inc.*, 361 F. Supp. 730, 739 (W.D. Va., 1974).

I will appoint an Administrative Law Judge to ascertain (1) whether there are false entries upon the records of duty status, as alleged, and (2) whether Respondent had the means to detect and eliminate such violations.

Therefore, it is ordered, That Respondent's request for a hearing is granted. In accordance with 49 CFR 386.54(a), I hereby appoint an Administrative Law Judge to be designated by the Chief Administrative Law Judge of the Department of

Transportation, as the Presiding Judge in this matter. The Judge appointed is authorized to perform those duties specified in 49 CFR 386.54(b).

Dated: September 11, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the matter of RAJ Chemicals, Inc. of Virginia

[Docket. No. R3-90-055]

Final Order

This matter comes before me upon request of the Respondent for a hearing and Motion in opposition thereto and Motion for a Final Order filed by the Regional Director, Office of Motor Carrier Safety, Region 3. On December 14, 1989, the Regional Director sent the Respondent a Notice of Claim alleging 6 violations of the Hazardous Materials Regulations. The specific violation involved the offer of a shipment of hazardous materials for transportation in commerce that was not properly classed, described, packaged, marked, labeled and in condition for shipment, in violation of 49 CFR 171.2(a), (49 CFR 173.22(a).

Respondent denies the alleged violations and contends that its agent, an independent contractor, was the shipper and had sole and total control over the shipments in question. Respondent also questions the validity of the complaint and contends that it did not "knowingly" violate any regulation.

The Regional Director correctly points out that all three of Respondent's arguments are legal, not factual in nature. Respondent offers a Terminal Throughput Agreement to support its contentions. The terms of the Agreement facially support the Regional Director. Any dispute as to the applicability of its provisions is a matter to be resolved between RAJ and First Energy Corporation, not by an Administrative Law Judge in an administrative forum.

Likewise, Respondent's second and third supporting arguments for a hearing are not factual. In fact, argument number 2 is misplaced and not relevant to this proceeding. Argument number 3 appears to invoke a layman's understanding of the term "knowingly". Substantial case law exists on which basis this contention could be disposed, even were it properly before me.

Therefore, it is ordered, That Respondent's request for a hearing is denied as it fails to properly raise material factual issues in dispute. The Regional Director's Motion for a Final Order is supported by the record before me and it is granted. Respondent shall pay to the Regional Director the sum of $9,000 within 30 days of the date of this Order.

Dated: September 11, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the matter of Browning Services, Inc.

[Docket. No. R3-90-08 (Formerly R3-90-211)]

Order Appointing Administrative Law Judge

This matter comes before me upon request of Respondent for an administrative hearing and opposition thereto filed by the Regional Director, Office of Motor Carrier Safety, Region 3 (hereafter referred to as Petitioner).

On July 18, 1990, Respondent was sent a Notice of Claim and Notice of Abatement. Therein it was alleged that Respondent was in violation of the Financial Responsibility portions of the Federal Motor Carrier Safety Regulations (FMCSRs) by virtue of its operation in interstate commerce without the requisite levels of insurance.

Respondent operates tow trucks. On occasion, Respondent admittedly tows vehicles across state lines. Respondent contends that the act of towing is legally distinguishable from transporting in interstate commerce subject to the provisions of the FMCSRs.

Petitioner contends that the act of providing towing services for remuneration is covered by the regulations when interstate travel is involved.

Petitioner argues that Respondent's contentions are legal and that there are no material factual issues involved. Therefore, Petitioner contends the request for a hearing must be denied. Respondent apparently concedes that its objections are primarily legal. Nevertheless, Respondent requests a hearing and attempts to differentiate between the acts of towing for remuneration and transportation for hire.

Ordinarily, such arguments are law school balderdash. The government of the United States has no time to enter into semantic metaphysics, particularly where the lives and well-being of its citizens are placed in limbo. The government does acknowledge, on the other hand, that all its citizens are important to it. Much is written and spoken today about the onerous requirements of government regulations on individuals, small businesses and even large entities. We all feel aggrieved at one time or another.

It must be understood that Congress enacts laws. The Executive Branch implements those laws. At times there is wide discretion in implementing the law, at times there is no discretion. The financial responsibility requirements are laid out in statute. It is not for us to say that $500,000 is enough coverage; it is not for Respondent to say $500,000 is enough coverage. Congress has spoken.

It does not advance the cause of safety for Respondent and Petitioner to carry on in petulant disagreement over the applicability of the law. Respondent should note that the maximum penalty for this alleged violation is $10,000 per violation. Respondent cannot operate for very long in the face of such fines.

At the same time, Petitioner has been admonished in the past about the need to exercise discretion in fostering compliance with this requirement and others when dealing with small operations, some of which have little familiarity with these regulations.

Respondent seeks a definitive interpretation of his inclusion under these regulations. If Respondent chooses to argue his point in a Court of law, he may withdraw his request for a hearing and I will grant a Final Order upon which he may proceed with a legal action. I feel strongly this will only delay the inevitable.

I am therefore assigning an Administrative Law Judge to hear Respondent's arguments on the differentiation between towing for remuneration and transportation for hire. I am doing so in the face of longstanding interpretations which efface any distinction in the hope that a decision by an Administrative Law Judge will constitute sufficient authority for Respondent to comply. Normally, I would even consider a reduction of the penalty in such a case where a positive attitude towards compliance is evident. In this matter, Respondent's shows absolutely no willingness to comply without formal edict. Accordingly, the Judge appointed is to consider the factual nature of Respondent's argument only. I will entertain no recommendation for reduction of this penalty in the event that the Judge finds Respondent is covered by the regulation.

Therefore, it is ordered, That Respondent's request for a hearing is granted and Petitioner's request for a Final Order is denied. In accordance with 49 CFR 386.54(a), I hereby appoint an Administrative Law Judge to be designated by the Chief Administrative Law Judge of the Department of Transportation, as the Presiding Judge in this matter. The Judge appointed is authorized to perform those duties specified in 49 CFR 386.54(b). The Judge may make factual determinations or recommend conclusions of law.

however, the amount of the penalty is beyond the scope of this proceeding.

Date: September 6, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Woodbury Horse Transportation, Inc.

Ronnie A. Yoder,

Administrative Law Judge.

In the Matter of Woodbury Horse Transportation, Inc.

[FHWA Docket No. R1–88–1 (Motor Carrier Safety)]

Order of Administrative Law Judge

This proceeding arises from a Notice of Claim dated April 7, 1988, alleging violations of the Federal Motor Carrier Safety Regulations (49 CFR parts 350–399) and Woodbury Horse Transportation's request for hearing. The undersigned administrative law judge was assigned to the proceeding by Notice dated December 6, 1988, pursuant to the order of the Associate Administrator for Motor Carriers dated December 1, 1988, and the request of the Assistant Chief Counsel for Motor Carrier and Highway Safety Law dated December 5, 1988.

On May 16, 1989, the Regional Director moved for summary judgment on the ground that Respondent failed to respond to a request for admissions served February 17, 1989, that pursuant to 49 CFR 386.44(a)(2) those requests were thereby deemed admitted, that Respondent failed to comply with the Regional Director's request for interrogatories and production of documents or the Judge's order dated April 28, 1989, directing the filing of such answers and documents, and that the answers filed were not attested as required by the FHWA Rules (49 CFR 386.42(b)) and the Federal Rules of Civil Procedure.

Respondent filed no answer to the Regional Director's motion within the seven-day period permitted by the Rules.[1] Respondent did belatedly on May 8, 1989, file answers to interrogatories and to the request for admissions. That filing did not attempt to provide good cause for Respondent's failure to file an answer to the request for admissions within the time prescribed by the Rules.

Those Rules provide that each request for admission is deemed admitted unless a written answer is filed within 15 days after service (49 CFR 386.44(a)(2)) and that "any matter admitted is conclusively established" unless the judge permits withdrawal or amendment (49 CFR 386.44(b)). Respondent made no effort to justify the failure to make a timely response or to seek relief from that failure. Accordingly, as indicated by the Rules the admissions requested encompassing the allegations of violation were deemed to be conclusively established.[2]

On the basis of Respondent's admissions and failure to comply with the discovery requests and the Judge's Order and to answer the subject motion, we concluded that summary judgment should be entered against Respondent.

The Notice of Claim dated April 7, 1988, alleged six violations of 49 CFR 395.3(a), which involved requiring or permitting drivers to drive more than 10 hours, and four violations of 49 CFR 395.3(b), which involved requiring or permitting drivers to drive after having been on duty more than 70 hours in eight consecutive days. The facts established by the request for admissions, which are deemed admitted and conclusively established under the FHWA Rules, substantially established the violations and Respondent's liability. Admissions one (1) through twenty-three (23) show that Respondent's drivers exceeded the hours of service requirements as set forth in the Notice of Claim and thus violated 49 CFR 395.3(a) and 49 CFR 395.3(b).

Respondent also ignored the initial request for production of documents including current drivers' daily logs. The documents were sought by Regional Counsel to establish a continuous and current pattern of noncompliance and show that any disciplinary program of the Respondent, if one exists, is mere "lip service." Respondent's failure to submit the documents raises an inference that violations would be established if the requested documents were produced.

Respondent's answer dated August 18, 1988, p. 3, asserted affirmatively that the violations do not warrant a fine of $1,000 per violation (*i.e.* a total of $10,000 as requested in the complaint) in view of Respondent's "past history, which does not, in any way, indicate a pattern of serious safety violations, and its financial status, which can be described as hardship, at best." Respondent, however, waived its opportunity to present those defenses by its failure to comply with the Regional Counsel's production requests and the Judge's Order directed to those issues.

Accordingly, we concluded that summary judgment in favor of the Regional Director could and should be entered,[3] and summary judgment was entered against Respondent Woodbury Horse in the amount of $10,000.

Upon review by the Associate Administrator for Motor Carriers this proceeding was remanded to the Judge (Order dated September 25, 1989) to

> review the facts and arguments surrounding the decision to find that the Respondent did not comply procedurally with the rules on the request for Admissions and Interrogatories, and more importantly to provide a complete review over the circumstances surrounding the failure to respond to the Motion for the Summary Judgment.

That remand order further stated that

> Should the Judge determine that his original findings are correct and that Respondent did, in fact, receive and have ample opportunity to reply to the Motion for Summary Judgment, I would welcome his recommendation on possible disciplinary action.

Thereafter, by Order dated October 23, 1989, the Judge scheduled a prehearing conference for December 5, 1989, and directed each party to file a statement by November 9, 1989, setting forth in separately numbered paragraphing each fact and conclusion of law alleged by each party and directed each party to answer by

[1] 49 CFR 386.35(c). By letter dated June 1, 1989, a secretary in the law firm representing Respondent asked for a copy of the summary judgment motion and a ten-day period in which to answer that motion. That letter indicated that the attorneys for Respondent had been aware of the motion since at least May 24, 1989. They nevertheless filed no answer, no request for a copy of the motion, and no motion for extension of time. The secretary's letter did not state that the motion was not served or received, did not purport to show good cause for the extension, for failure to file an answer or comply with the Judge's prior Order, or to emanate from the attorneys or be authorized or directed by them. Moreover, even if authorized by or submitted on behalf of the attorneys, we do not consider such a letter from an attorney's secretary to the Judge received after the time to answer had expired and at least twelve days after the motion for summary judgment was known to be pending to be an appropriate or timely request for an extension of time, to be an appropriate pleading in appropriate form, or to show good cause for relief.

[2] See Order dated June 13, 1989, pp. 2–4.

[3] See Order dated June 13, 1989, pp. 6–8.

November 24, 1989, admitting or denying or otherwise pleading with respect to each alleged fact and proposed conclusion of law. Both parties filed the statements required by November 6, 1989, and the Regional Director filed a timely answer. Respondent failed to file a timely answer by November 24, 1989, as directed by the Judge's order.

On November 30, 1989, at 3:21 p.m., Kenneth Piken sent to the Judge and the Regional Director a telefax copy of an "Answer" bearing a November 24, 1989, date and an affidavit of service dated as of November 24, 1989, enclosed in an envelope which was meter stamped November 24, 1989, but bore a cancellation stamp dated November 30, 1989. That document was received by telefax on November 30, 1989, after the Judge was notified by Mr. Piken's office at 10:10 a.m. on that date that no such answer was in their file (PHC Tr. 12). Since a filing is not complete until received,[4] even under the most generous reading of that document and the circumstances surrounding its filing, it was not filed on time.[5] Moreover, the circumstances of its filing raise serious questions concerning the accuracy of the affidavit of service. By letter dated November 29, 1989, the Regional Director requested that sanctions be imposed against Respondent for its failure to file a timely answer and that the Regional Director's allegations of fact and conclusions of law be deemed admitted. No response to that request was ever filed.

The substance of Respondent's belated "Answer" contained numerous inaccurate and improper pleadings as acknowledged at the prehearing conference on December 5, 1989. See *infra* and PHC Tr. 20, 26, 27 (denial of para. 2 changed to "Admits") 28, 29, 30 (denial of paras. 4 and 5 changed to "Admits"), 32 (denial of para. 9 changed to "Admits"), 36 (denial of para. 11 changed to "Admits"). Mr. Piken did not appear at that prehearing conference, raising serious difficulties in attempting to obtain explanations for the positions taken by the Piken firm on behalf of Woodbury Horse or itself (PHC Tr. 21–23).

Woodbury Horse and the Piken firm were represented at the prehearing conference by Robert B. Walker of Sims, Walker & Steinfeld. At that time Mr. Walker was cautioned about the risk of criminal prosecution for false statements and perjury (PHC Tr. 7–8, 56), references to the bar for disciplinary action (PHC Tr. 56), and conflict of interest (PHC Tr. 35, 55, 57) inherent in these proceedings.

At the prehearing conference the issues on remand were established, and the fact issues framed by the parties' previous pleadings were substantially narrowed by admissions of counsel for Woodbury Horse that pleadings previously served by Piken & Piken were incorrect. Each of the following allegations of the Regional Director was admitted in Respondent's response or at the prehearing conference:

1. Regional Counsel filed interrogatories, requests for admissions, and requests for production of documents on February 17, 1989.[6]

2. Respondent failed to respond to the request for admissions within 15 days of service.

3. On March 20, 1989 a notice of deemed admissions was filed and served by Regional Counsel.[7]

4. Respondent failed to reply to the interrogatories within 30 days of service thereof.

5. Respondent failed to respond to the Notice to Produce within 30 days of service thereof.

6. Regional Counsel filed and served a motion to compel a response to the request for production of documents and to the interrogatories on March 28, 1989.[8]

7. The Respondent failed to reply to the motion to compel.

8. On April 26, 1989, the Judge issued an order compelling a response within 15 days to the interrogatories and request for production of documents only. The Judge further determined that the requests for admissions were deemed admitted pursuant to 48 CFR 386.44.

9. On May 11, 1989, Respondent filed and served a response to the interrogatories which was neither sworn nor signed by the person answering.

10. 49 CFR 386.42(b) requires responses to interrogatories to be signed and sworn to by the person answering.

11. Respondent failed to respond to the Notice to Produce in direct violation of the Judge's order of April 26, 1989.[9]

12. Respondent submitted a response to the request for admissions in violation of the Judge's order of April 26.[10]

13. The Piken firm has offered no explanation as to its failure to respond to the request for admissions within the prescribed time period, despite many opportunities to do so.

14. The Piken firm has offered no explanation for its total failure to respond to the notice to produce despite many opportunities to do so.

15. Regional Counsel filed a motion for summary judgment on May 18 which was served on respondent by certified mail.[11]

16. An employee of the Piken firm conveyed a letter dated June 1, 1989, to the Judge requesting an additional 10-day period to respond to the motion and requesting a copy of the motion.

18. The June 1 letter was not served in accordance with the Rules of Practice, 49 CFR part 386.

20. In a letter dated June 30, 1989, Attorney Kenneth Piken asserted that the letter was not authorized and therefore the secretary, acting without authority, was not bound by the canons of ethics.

21. In Respondent's petition for review dated July 20, 1989, the Piken firm asserted that the letter of June 30 was expressly authorized by Kenneth Piken.

Respondent denied allegations 16, 17 and 22:

16. A certified mail receipt shows receipt (of Regional Counsel's motion for summary judgment) by an agent of the Piken law firm on May 18 (Sandra F).

17. The signature of Sandra F matches her signature on other documents.

22. The assertions by the Piken firm as to the authorization of the June 30 letter are in

---

[4] 49 CFR 386.2. Five days are added to the due date when documents are mailed, as filing was required by November 29, 1989. No request to late file was ever made, and no effort was made to show good cause for the failure to file.

[5] The filing was due on November 29, 1989, and a fax copy was received by the Docket on November 30, 1989. A hard copy of the filing was not received until December 4, 1989.

[6] Respondent confirmed at the prehearing conference that its initial assertion of lack of knowledge and information related only to the date of filing, which does not present a triable issue of material fact. The docket shows that the document was served on February 17 and filed on February 22, 1989.

[7] Respondent confirmed at the prehearing conference that its initial assertion of lack of knowledge and information related only to the date of filing, which does not present a triable issue of material fact. The docket shows that the document was served on March 20, 1989, and filed between March 20 and March 21, 1989. (The actual filing date is not stamped on the document.)

[8] Respondent confirmed at the prehearing conference that its initial assertion of lack of knowledge and information related only to the date of filing, which does not present a triable issue of material fact. The docket shows that the document was served on March 29 and filed on March 31, 1989.

[9] Respondent confirmed at the prehearing conference that he would accept the Regional Director's assertion that no production occurred. PHC Tr. 34.

[10] Respondent confirmed at the prehearing conference that it only questioned whether its filing of the response violated the Judge's Order of April 26 deeming the requests admitted. PHC Tr. 36–37.

[11] Respondent confirmed at the prehearing conference that its initial assertion of lack of knowledge and information related only to the date of filing, which does not present a triable issue of material fact. The docket shows that the document was served on May 16 and filed on May 22, 1989.

direct contradiction and represent a falsehood presented to the Judge and Associate Administrator.[12]

Thus the primary fact issue to be determined on remand related to the certified mail receipt allegedly signed by an agent of the Piken firm, Sandra F. A further issue was identified at the prehearing conference relating to the circumstances of the service and filing of Respondent's answer dated November 24, 1989.

Respondent never filed any explanation of its failure to timely file its answer to the filing of the Regional Director and never sought relief from its failure to timely file. Under normal circumstances a single failure to timely file might not warrant the entry of default. In this case, however, where there is a history of failure to comply with the Rules of the FHWA and orders of the Judge, where the case is before the Judge on remand to consider the entry of summary judgment for such past failures and to consider sanctions against counsel, where the belated filing shows a lack of professional responsibility and care in the substance of its submission, and the circumstances of its transmittal raise serious questions about the truthfulness of the accompanying affidavit of service, where Respondent's counsel failed to appear at the prehearing conference scheduled, *inter alia*, to discuss these questions, and where Respondent made no effort to show good cause for the late filing or to request that it be received, we conclude that the filing should not be received, that the pleadings on the Regional Director's Proposed Statements of Fact and Conclusions of Law as amended at the prehearing conference should be taken as admitted, and that summary judgment should be entered against Woodbury Horse on the pleadings.

If Respondent's answer were accepted for filing we would nonetheless enter summary judgment against Respondent because of its failure to file complete or verified answers to the Regional Director's Interrogatories on Remand served January 5, 1990, and its subsequent failure to file a timely answer to the Regional Director's motion for summary judgment on remand served February 22, 1990.

At the prehearing conference when the question of conflict of interest between Respondent and its counsel was raised, the Judge directed that "counsel for Woodbury Horse, specifically Mr. Walker and Mr. Piken" provide the Judge a communication "with respect to the representation of Woodbury Horse and/or Mr. Piken in this proceeding," on or before January 19, 1990. Thereafter, Mr. Walker, by letter to the Judge dated December 22, 1989, stated that:

> Woodbury Horse Transportation, Inc. is seeking new counsel to represent it in any further proceedings. At the present time, Piken & Piken will represent itself. A decision has not been made as to whether Piken and Piken will seek representation by other counsel, but if a decision to do so is made, that fact will promptly be communicated to Your Honor.

No further communication on this subject was received prior to January 19, 1990, the date specified in the Judge's order, and Piken & Piken in fact continued thereafter to represent Respondent.

On January 23, 1990, Piken & Piken served "Respondent's Proposed Procedural Schedule on Remand" as "Attorneys for Respondent;" and on January 30, 1990, Piken & Piken served "Response to Regional Director's First Set of Interrogatories and Notice to Produce upon Demand," which had been served January 5, 1990. That response was timely filed by Piken & Piken as "Attorneys for Respondent" but was not verified as required by the FHWA rules, despite the fact that the verification requirement had been set forth in the January 5 interrogatories and had been specifically addressed at the prehearing conference as a defect in its filing prior to the earlier summary judgment and remand.[13] That defect in Respondent's response was subsequently pointed out in the Regional Director's motion for summary Judgment on remand, but Respondent never sought to explain, excuse, or correct that deficiency. Since those interrogatories related to the central factual issues in dispute and Respondent failed to file responses under oath as required by the rules, that failure likewise warrants the entry of summary Judgment against Respondent on those issues. Moreover, the response, apart from being unsworn, was largely unresponsive, or established admissions against interest contrary to prior submissions in this proceeding.

At the prehearing conference counsel for Respondent stated that Respondent was not asserting that counsel for the Regional Director had created a fraudulent postal receipt. Moreover, in response to the Regional Director's interrogatories, Respondent through Piken & Piken stated that it did not know whether the signature on the postal receipt was that of Sandra Ferrarotti or whose signature it was (Interrogatory No. 6), did not know whether the receipt was fraudulent, and had no evidence or proof that the document was falsified (Interrogatory No. 7).

Absent such a contention or proof that the postal receipt was false or incorrect, the presumption of validity of such a receipt would establish service of the summary Judgment motion,[14] particularly where the signature of Sandra F. was apparently the same as that of Sandra Ferrarotti,[15] an employee of Piken & Piken; where her affidavit failed to deny receipt of the motion or to deny that the signature was hers; where Piken & Piken acknowledged on remand that no records of such deliveries were kept—contrary to its prior submission in the proceeding; and where that firm has in this proceeding established a record of failing to meet procedural dates. Accordingly, Respondent's submissions create no substantial issue for trial on the issue of service of the original summary judgment motion.[16]

The affidavit of Sandra Ferrarotti dated August 7, 1989, submitted by Kenneth Piken with his own affirmation dated August 3, 1989, in support of its petition for review stated that "all legal correspondence entering this office is duly recorded and office records show no certified mailing from Mr. Dymond was received on May 19, 1989." [17]

---

[12] The Respondent also asserted in its statement of issues that sanctions should be imposed against counsel for the Regional Director, but Respondent has furnished no substantive support for that suggestion.

[13] The earlier summary judgment order did not rely on the verification requirement, because it was not cited in the Regional Director's motion; but the requirement was cited by the Regional Director in his brief in opposition to Respondent's petition for review (p. 2, n. 2), was discussed at the prehearing conference (PHC Tr. 30-32), and was specifically cited in the interrogatories which noted that "pursuant to 49 CFR 386.31 you are hereby required to answer the following interrogatories in writing and under oath within thirty (30) days from service hereof."

[14] See *Schultz* v. *Jordan*, 141 U.S. 213 (1981); *Beck* v. *Somerset Technologies*, 882 F.2d 993, 996 (5th Cir. 1989); *Hollis* v. *Bowen*, 832 F.2d 605 (5th Cir. 1987).

[15] Respondent at the prehearing conference admitted that the signature "bears a resemblance to the signature of Sandra Ferrarotti." PHC Tr. 44.

[16] Respondent asserted in its statement of issues that an affidavit of Jose Sprauve, Branch Supervisor, U.S. Postal Service, Rego Park, New York, showed that that office had no record of the certified letter in question being received by that office and that all certified mail deliveries to Piken & Piken are delivered by that office. That affidavit does not rebut or impugn the presumptive validity of the postal receipt, since the affidavit does not state that the letter was not received or delivered by the Postal Service or by that branch office, but only that the branch office had no record of such receipt or delivery.

[17] That affirmation, which states that Mr. Piken was duly sworn but is not notarized, was sent by letter dated August 3, 1989, with an unsigned

Continued

Moreover, the Respondent's statement of allegations and contentions dated November 3, 1989, stated that "meticulous office records" showed no receipt of the motion:

> 6. Sandra Ferrarotti, the secretary who allegedly accepted the certified mailing, has sworn that she is often not yet at work when the mail is delivered, she consistently signs her full name to mailings received and that meticulous office records do not show any mailing received from Regional Counsel on the day in question.[10]

Nevertheless, the response to interrogatories served January 30, 1990, stated that no such system for recording mail, and no such records, existed. Interrogatory No. 2 said: "State the procedure used by the Piken firm in recording the receipt of incoming correspondence and other types of mail." Piken & Piken replied:

> No system is utilized for recording the receipt of incoming correspondence other than whoever happens to be present when the mail arrives by postal carrier, receives the mail, signs for any certification, the mail is then transmitted to a partner of the firm, who opens all mail, date stamps the receipt of same and distributes.

Interrogatory No. 9 asked:

> State which office records respondent is referring to when it cites "meticulous office records" in paragraph 6, Part II Motion for Summary Judgment, in respondent's Statements of Fact and Conclusions of Law, dated November 3, 1989.

Piken & Piken responded: "All office records."

Notice to Produce No. 1 asked for "Logs for the receipt of certified mail and first class mail for May 19, 1989 for the firm of Piken & Piken," and that firm responded:

> No logs for receipt of certified or first class mail are kept by the law firm, however, periodic checks, when the need arises, are made with the United States Postal Service.

These submissions appear to directly conflict with the previous affidavit of Sandra Ferrarotti submitted by Piken & Piken in support of their petition for review.

---

certificate of service attesting to service on August 3, 1989, and enclosed Ms. Ferrarotti's affidavit notarized four days later on August 7, 1989.

[10] Her affidavit stated that "I have no recollection of signing for or receiving the correspondence from Mr. Kenneth Dymond, known as a Motion for Summary Judgment," "that I often am not present when the mail is delivered," and that "when I do sign for certified mail, I consistently sign my full name to the receipt," as well as the assertion quoted above that "all legal correspondence entering this office is duly recorded and office records show no certified mailing from Mr. Dymond was received on May 19, 1989." Affidavit dated August 7, 1989, paras. 2, 3, 4, 5. The affidavit did not mention "meticulous office records."

On February 22, 1990, the Regional Director moved for an order granting summary judgment on remand pursuant to 49 CFR 386.35, reaffirming the previous grant of summary judgment, finding that Respondent's counsel has acted in violation of standards of conduct for attorneys in FHWA proceedings, and imposing sanctions or issuing an order to show cause with respect to such imposition after a hearing on such sanctions. As grounds for that motion the Regional Director asserted a "pattern of neglect and contemptuous conduct," (p. 1) including:

1. Failure to respond to the request for admissions within the period specified by the rules of practice.
2. Failure to respond to interrogatories and a notice to produce.
3. Filing a response to request for admissions without a request for leave to late file, or a showing of good cause for failure to timely file, and after an order of the Judge recognizing the requests were deemed admitted pursuant to the FHWA's rules.
4. Failure to respond to the Judge's order to produce.
5. Failure to submit sworn answers to interrogatories as required by the FHWA's rules.
6. Failure to answer the motion for summary judgment.
7. Causing an *ex parte* communication to the Judge, requesting a copy of that motion and requesting an extension of time to answer the motion.
8. Submitting conflicting and disingenuous representations to the Judge, first that the *ex parte* submission was authorized and subsequently that it was not.
9. Failing to file a timely answer to the issues on remand as required by the Judge's order.
10. Filing and serving an untruthful affidavit of service with respect to that pleading.
11. Failing to file sworn responses to interrogatories on remand.
12. Filing responses which reflected a lack of candor and outright deceit, and which were intended to delay these proceedings.

In addition, the Regional Director asserted that Respondent had proffered no contention or evidence to rebut the presumption of service arising from the signed receipt and that sanctions against Piken & Piken and Kenneth Piken are within the power of the FHWA and within the scope of this proceeding following a hearing, which that motion suggested should be held prior to the imposition of sanctions. As noted above, we agree with the Regional Director's contention concerning the presumption of service, and accordingly we conclude that that summary judgment should be entered on that basis.

No answer to that motion was filed by March 6, 1990, the due date under FHWA rules. By letter dated March 7, 1990, Piken & Piken, sought to obtain an extension of time for "their client" Woodbury Horse, while at the same time asserting that they no longer represented Woodbury Horse. Thereafter, Robert A. O'Rourke, an attorney with the firm of Piken & Piken filed an affidavit dated March 23, 1990, seeking similar relief. By Order dated March 28, 1990, the Judge denied the request of Piken & Piken noting that while they were still counsel of record for Woodbury Horse, they asserted a conflict with their client, and that respondent should have an opportunity to make one further submission to address the status of its representation, its failure to answer the motion for summary judgment, and any appropriate response to that motion:

> Woodbury Horse apparently had notice of the motion for summary judgment no later than February 28, 1990. Piken & Piken immediately told Woodbury Horse; and contrary to counsel's assertions they still are counsel of record for Woodbury. They have not filed a motion to withdrew or to substitute counsel. Indeed on January 30, 1990, Piken & Piken filed on behalf of Woodbury Horse a "Response to Regional Director's First Set of Interrogatories and Notice to Produce Upon Remand." Moreover, Piken & Piken's letter states that if an extension to April 30 was not granted, Piken & Piken will file a response on behalf of Woodbury Horse by March 23, 1990. By affidavit dated March 23, 1990, that date is amended to April 6, 1990.
>
> None of these requests are appropriate. Piken & Piken is still counsel of record for Woodbury Horse. Counsel did not respond to the motion for summary judgment or seek an extension within the time prescribed by the rules, *i.e. 7 days (49 CFR 386.35(c)), plus 5 days for service by mail (49 CFR 386.32(c)(3)), to wit March 6, 1990. Moreover, such a request for extension must be in the form of a motion (49 CFR 386.35(a)), not a letter or affidavit as in counsel's submission dated March 23, 1990. Counsel notes that the firm has a conflict with its client, that it no longer represents the client, but nevertheless repeatedly refers to Woodbury Horse as its client, seeks an extension of its behalf, and proposes to file an answer to the motion for summary judgment on its clients' behalf if the extension to April 30 is not granted.*
>
> We will not grant the requested extensions. Counsel has not officially withdrawn its representation of Woodbury Horse; but it has stated that it no longer represents Woodbury Horse in this proceeding and has acknowledged that it had a conflict with Woodbury Horse. Given these submissions by Piken & Piken we cannot treat that firm as appropriate counsel of record for Woodbury

Horse or authorize its filing of a response on Woodbury Horse's behalf. Woodbury Horse has had at least three months to obtain other counsel and has not done so. Woodbury Horse had notice of the procedural posture of the case and the need for new counsel and has failed to obtain counsel, to file a response to the summary judgment motion, or to file a timely or appropriate request for extension of time. Nevertheless, we will afford Woodbury Horse an opportunity to make one further submission in this matter on or before April 20, 1990. That submission should address the status of its representation, its failure to answer the motion for summary judgment, and any appropriate response to that motion.

By letter dated April 24, 1990, Arthur Piken wrote the Judge on behalf of Piken & Piken stating "please deem this letter to be formal advice that this office will not represent the interests of any former client," Woodbury Horse, and that:

> A motion will be filed by express mail on Friday, April 27th, for formal request to be relieved. The reason for the letter is that the litigation partner in this firm, Kenneth Piken, is currently engaged in a trial in the United States District Court [and] the motion for being relieved as counsel of record will be made when Kenneth Piken, the attorney of record in this proceeding concludes his trial.

No such motion was ever filed.

The Piken letter also stated that he had advised his client of the April 30 deadline in a letter which could not be provided to the Judge because of the attorney-client privilege. That letter also stated that Sims, Walker & Steinfeld would not be retained by Woodbury Horse.

By letter dated April 24, 1990, Ronald G. Vercesi, President of Woodbury Horse, stated that he had relied on his attorney to ensure that this matter was "properly handled." That letter did not otherwise attempt to explain the failure to file a response to the motion for summary judgment or address the substance of that motion. Rather he stated that he had incurred legal fees of $8,000, that his attorneys had advised that they could no longer represent him, that he was sorry for the violations, that they would not recur, that a $10,000 fine would "immensely hurt" the company, and that he asked for "mercy" and "leniency" to "give our company a chance to continue to exist." Accordingly, summary judgment can and should be entered on the basis of Respondent's failure to answer the motion for summary judgment on remand, and the amount of that judgment should be amended to reflect the agreement of the parties in the proffered settlement.

Mr. Vercesi's letter enclosed a letter from Arthur Piken to Mr. Vercesi, dated April 5, 1990, which stated that that firm could not continue to represent Woodbury Horse, recommended other counsel, and stated *inter alia* that:

> 1. The appeal was successful and the appeal level remanded the case back to the same Judge, unfortunately.
>
> 2. At this point, it is now apparent that the Judge is very much against our firm, inasmuch as his mind has been poisoned by the Regional Counsel.
>
> 3. This [prehearing] conference turned out to be a total "snow-job" and turned into a session whereby Bob Walker of Sims, Walker & Steinfeld spent virtually an entire day [the conference was held between 10:00 a.m. and 12:05 p.m.] listening [to] Regional Counsel agreeing with the Judge, and the Judge agreeing with Regional Counsel why their firm should not be "sanctioned."
>
> 4. The Regional Director/Counsel filed a new Motion for Summary Judgment [February 28, 1990]. We immediately wrote to the Regional Director for an extension so that you could obtain suitable replacement counsel * * *. [As noted above, Piken & Piken wrote a letter to the Judge dated March 7, 1990, after the time to reply had expired.]
>
> 5. We immediately filed a motion for extension of time [no motion was filed], and we currently have until *April 30, 1990* in which to answer this latest motion for Summary Judgment. [No extension was granted, though Woodbury Horse, not Piken & Piken, was granted leave to make one additional submission.] [Emphasis in original.]
>
> 6. I enclose the latest Order of the Administrative Law Judge. As you can readily see, this is a complete and utter set-up.

Since these letters were not filed or served, the Judge sent a copy of each to each party and the docket; and since the Piken & Piken letter seriously misrepresented the events and status of the proceeding, the Judge sent a copy of each order in the proceeding and the prehearing conference transcript to Mr. Vercesi on May 3, 1990.

By letter dated March 12, 1990, the Regional Director requested that Piken & Piken be made a party to this proceeding. By order dated March 26, 1990, we declined to make Piken & Piken a party to the proceeding at that time, since that firm continued as counsel of record, and it had not responded to the Regional Director's request, which was not filed as a motion under the rules. That Order noted that we would reconsider that question if it were resubmitted in an appropriate form following April 30, 1990.

By motion dated May 3, 1990, the Regional Director asked to add Kenneth and Arthur Piken as parties to the proceeding. As grounds for that motion, the Regional Director incorporated the grounds for sanctions stated in the motion for summary judgment on remand and noted the authority of the Judge "to take any action and make all needful rules and regulations to govern the conduct of the proceedings (49 CFR 386.54) and the terms of Associate Administrator's remand order that:

> Should the Judge determine that his original findings are correct and that Respondent did, in fact, receive and have ample opportunity to reply to the Motion for Summary Judgment, I would welcome his recommendation on possible disciplinary action.

Kenneth and Arthur Piken filed an answer dated May 23, 1990,[19] asserting that the remand order "clearly indicated that Administrative Law Judge, the Honorable Ronnie Yoder, is free to explore this possibility" ["specific relief against Kenneth and Arthur Piken as to why sanctions should not be imposed"] "at such time as is ascertained by the Judge presiding in this matter that the original motion for summary judgment was, in fact, served upon this office in a proper and timely fashion." Since no such determination had been made at that time, the Pikens suggested that all matters should be "held in abeyance as it relates to this firm." The Pikens also asserted that their presence as parties in the case would pressure Woodbury Horse to settle the proceeding and that one of the cases cited by the Regional Director, *Zola* v. *ICC*, 869 F2d 506 (3d Cir. 1989), did not support sanctions against an attorney. No objection was made to the pendency of the sanction question or the FHWA's jurisdiction in that regard, or to the power of the Judge to add the Pikens as parties under 49 CFR 386.54 and the remand order. Moreover, in view of the conclusion reached above that service is presumptively established by the postal receipt and the lack of any rebuttal of that presumption, and the entry of summary judgment on that issue, we conclude that the Pikens have asserted no valid or timely objection to their addition as parties to this proceeding concurrently with the entry of summary judgment against, and effectuation of the settlement with, Respondent.

By letter dated May 23, 1990, the Regional Director stated that settlement discussions were being initiated directly with Mr. Vercesi. That letter also noted that the Piken letter "seriously misrepresents the facts and fails to detail the allegations against him pertaining to neglect of the matter and submitting false documents," and renewed the request that the Pikens be

[19] That answer was served 20 days after the motion, *i.e.* eight days after the answer was due under FHWA rules, without a request for leave to late file and without any attempt to show good cause for such late filing. 49 CFR 386.36(c), 386.32(c)(3).

added as parties to this proceeding and that sanctions be imposed.

By letter dated July 23, 1990, the Regional Director forwarded an Order and Stipulation of Compromise and Settlement purporting to "settle and compromise this action . . . upon the terms stated herein," including the payment of a $7,000 fine, an undertaking to take remedial measures to avoid the conditions that led to the Administrator's claim, including an adequate safety training course for drivers, use of those drivers to transport cargo, and close monitoring of drivers' logs to insure compliance with federal safety regulations. That letter purported to moot the prior motion for summary judgment with respect to Respondent and to continue that motion with respect to the Pikens. The letter submitted an order for the Judge dismissing the claim against Respondent "in accordance with the terms of the settlement agreement" and retaining jurisdiction over the matter and the parties to resolve the issue of disciplinary action against the Pikens.

While we will effectuate the intent of the settlement we cannot approve that settlement and order in the form submitted, insofar as they reflect no adjudication of the questions presented in the FHWA claim. Such a resolution following the lengthy proceedings to date would be an unconscionable waste of governmental resources.[20]

Nor can the parties enter such a settlement without the Judge's concurrence. A party may withdraw his/her pleading only on approval of the administrative law judge or Associate Administrator. 49 CFR 386.52. Moreover, it is clear that settlement must be approved by the judge, unless a settlement and consent order are submitted directly to the Associate Administrator under 49 CFR 386.21—which was not done here and should not be done where an administrative law judge has been assigned to the proceeding.[21]

While the Pikens have questioned the applicability of the *Zola* case to this proceeding, they have never denied the jurisdiction of the FHWA to impose disciplinary sanctions or the judge to consider such sanctions. Moreover, we tentatively conclude that the imposition of such sanctions is within the authority of the FHWA [22] and that consideration of such sanctions is within the mandate of the Judge in this proceeding.[23]

The record in this proceeding raises the question of multiple violations of the ABA Standards of Professional Responsibility, including the New York Code of Professional Responsibility, which is the jurisdiction in which counsel are admitted to practice. Including to the items specified in the Regional Director's motion for summary judgment on remand, *supra*, pp. 15–16, at least the following derelictions of the indicated disciplinary rules ("DR") of the Model Code of Professional Responsibility (see appendix B) are raised by the record in this proceeding:

1. Failure to respond to the request for admission within the period specified by the rules of practice. DR 1–102(A)(1)(5)(6), DR 6–101(A)(2)(3), DR 7–106(A)(C).

2. Failure to respond to interrogatories and a notice to produce. DR 1–102(A)(1)(5)(6), DR 7–106(A)(C).

3. Filing a response to request for admissions without a request for leave to late file, or a showing of good cause for failure to timely file, and after an order of the Judge recognizing the requests were deemed admitted pursuant to the FHWA's rules. DR 1–102(A)(1)(5)(6), DR 6–101(A)(2)(3), DR 7–106(A)(C).

4. Failure to respond to the Judge's order to produce. DR 1–102(A)(1)(5)(6), DR 6–101(A)(2)(3), DR 7–106(A)(C).

5. Failure to submit sworn answers to interrogatories as required by the FHWA's rules. DR 1–102(A)(1)(5)(6), DR 6–101(A)(2)(3), DR 7–106(A)(C).

6. Failure to answer the motion for summary judgment resulting in entry of default judgment. DR 1–102(A)(1)(5)(6), DR 6–101(A)(2)(3), DR 7–106(A)(C).

7. Causing an *ex parte* communication to the Judge, requesting a copy of that motion and requesting an extension of time to answer the motion causing a nonlawyer to act as a lawyer in seeking an extension of time in an administrative proceeding. DR 3–101(A), DR 7–110(B).

8. Submitting conflicting and disingenuous representations to the Judge, first that the *ex parte* submission was authorized and subsequently that it was not. DR 1–102(A)(1)(5)(6), DR 6–101(A)(2)(3), DR 7–106(C).

9. Submitting a false affidavit concerning the maintenance of office records at Piken & Piken with respect to the receipt of legal correspondence including certified mail. DR 1–102(A)(4), DR 7–102(A)(2)–(6).

10. Submitting a false, unsigned affidavit of service together with that affidavit. DR 1–102(A)(4), DR 7–102(A)(2)–(6).

11. Failure to file a timely answer to the issues on remand as required by the Judge's order resulting in a default judgment. DR 1–102(A)(1)(5)(6), DR 6–101(A)(2)(3), DR 7–106(A)(C).

12. Filing and serving an untruthful affidavit of service with respect to that pleading. DR 1–102(A) (4), DR 7 102(A)(2)–(6).

13. Failure to file sworn responses to interrogatories on remand. DR 1–102(A)(1)(5)(6), DR 6–101(A)(2)(3), DR 7–106(A)(C).

14. Filing responses which reflected a lack of candor or deceit, and which were intended to delay these proceedings. DR 1–102(A)(1)(5)(6), DR 6–101(A)(2)(3), DR 7–106(C).

15. Failure to answer the motion for summary judgment in remand resulting in a second summary judgment. DR 1–

[21] See *Bower Tiling Service*, FHWA Docket No. RS–90–08, Order dated June 12, 1990; *Rodgers Johnson/J and J Bus Service*, Docket RS–89–02, Order dated May 4, 1989.

[22] See, e.g. *Touche Ross & Co. v. SEC*, 609 F.2d 570 (2nd Cir. 1979); *Theodore Polydoroff and Timothy C. Miller*, 133 M.C.C. 384 (1984); *John M. Nader*, 264 I.C.C. 69 (1980); *United Air Lines, Inc. v. C.A.B.*, 201 F.2d 59 (D.C. Cir. 1960).

[23] On December 8, 1988, the Administrator of the Federal Aviation Administration issued a decision in *Western Airlines* (FAA Docket 85–108), *et al.*, which stated, *inter alia*, that under the Administrative Procedure Act "ALJs lack the authority to modify or add to the procedures provided in published agency regulations, even if the modifications or additions do not actually conflict with specific provisions of the agency's rules." (p. 6.) The decision cites no precedent or other authority for that statement, and the uniform precedent at the Civil Aeronautics Board and theretofore at the Department of Transportation had been that the Judge can adopt any procedures for the conduct of the proceeding consistent with statute, the rules, and considerations of due process and agency policy and precedent. Decisions of the FAA Administrator are not binding in non-FAA proceedings, and the decision of the Administrator in *Western, et al.*, should be limited to its facts and should not be applied in this proceeding. See *Continental Airlines*, FAA Dockets CP88CO0018, *et al.*, Order dated May 4, 1989, p. 4, n. 6; *Robert O. Nay*, DOT Docket 45663, Orders dated February 15 and March 8, 1990. Moreover, as noted above, the FHWA rules specifically permit the Judge to "take any action and to make all needful rules and regulations to govern the conduct of the proceedings to ensure a fair and impartial hearing, and to avoid delay in the disposition of the proceedings." Finally, the ABA Model Code of Judicial Conduct and Model Code of Judicial Conduct for Federal Administrative Law Judges (ABA 1990) also recognize the obligation of the judge to "take or initiate appropriate disciplinary measures against a judge or lawyer for unprofessional conduct of which the judge may become aware." Canon 3B(3). Previous decisions have recognized the possible applicability of that Code to administrative law judges at DOT. See *In re Chocallo*, 2 M.S.P.B. 20, Supp. Opinion, p. 13 [1980]; ABA Informal Opinion 85–1513, dated December 24, 1985; *Competitive Marketing Investigation*, C.A.B. Docket 36566, Order 36566–418, dated June 29, 1981, p. 2, n. 5; *N.L. Industries Inc.*, FAA Docket 84–39 (HM), Order dated February 13, 1986, pp. 6–8, n. 12, *rev'd on other grounds*, Order of FAA Administrator dated December 8, 1988.

102(A)(1)(5)(6), DR 6-101(A)(2)(3), DR 7-106(A)(C).

16. Continuing to represent Woodbury Horse after the summary judgment was entered when an apparent conflict existed and was pointed out on the record at the PHC. DR 2-110(A), DR 2-110(B) (2), DR 5-101(A), DR 5-102(A), DR 7-101(A)(3).

17. Misrepresenting the facts of the proceeding in a letter to Woodbury Horse. DR 1-102(A)(4), DR 6-102(A).

18. Publishing scurrilous and unfounded accusations against the Judge in that letter. DR 7-106(C), DR 8-102(B).

Those derelictions present possible violations of at least the indicated 25 Disciplinary Rules of the Model Code of Professional Responsibility, which are set forth in Appendix B. In order to ensure a complete and appropriate statement of the violations at issue and assure the availability of any appropriate defense and process to the Pikens before recommending sanctions in accordance with the direction of the remand order, we will direct the Regional Director to file a statement of such charges and a proposed procedural schedule, with an appropriate response by the Pikens.[24]

Accordingly, *it is ordered* 2That:

1. Kenneth Piken, Arthur Piken and the law firm Piken & Piken, P.C. are hereby made parties to this proceeding.

2. Piken & Piken is granted leave to withdraw as attorney for Woodbury Horse Transportation, Inc.

3. The Judge's Order dated June 13, 1989 (appendix A), is reaffirmed with the modification that summary judgment is entered against Woodbury Horse Transportation, Inc. in the amount of $7,000 in accordance with the settlement amount agreed by the parties.

4. By September 28, 1990, the Regional Director shall serve and file a specification of charges against Piken & Piken, P.C., Kenneth Piken, and Arthur Piken detailing each charge with respect to possible sanctions against those parties, including without limitation those specifications set forth herein, together with a proposed procedural schedule.

5. By October 26, 1990, Kenneth Piken, Arthur Piken and Piken & Piken, P.C., shall file an answer to each such charge and a response to the proposed procedural schedule and shall otherwise show cause why an order should not be entered:

a. Finding that the violations set forth therein occurred.

b. Barring them from further practice before the FHWA and the DOT.

c. Referring their actions in this proceeding to the New York State Bar and the Interstate Commerce Commission for disciplinary action.

d. Referring their submissions in this proceeding to the Department of Justice for prosecution.

So Ordered.

Dated: September 4, 1990.

Ronnie A. Yoder,

Administrative Law Judge.

In the Matter of Woodbury Horse Transportation, Inc.

[FHWA Docket No. I-1-88-1 (Motor Carrier Safety)]

Order of Administrative Law Judge

Served June 13, 1989.

By motion dated May 16, 1989, the Regional Director moves for summary judgment. As grounds for that motion the Regional Director asserts that Respondent failed to respond to the request for admissions served February 17, 1989, that pursuant to 49 CFR 386.44(a)(2) those requests were thereby deemed admitted, that Respondent has failed to comply with the Regional Director's request for interrogatories and production of documents, or the Judge's order dated April 25, 1989 directing the filing of such answers and documents, and that the answers filed were not attested as required by the FHWA Rules and the Federal Rules of Civil Procedures.[1]

Respondent has filed no answer to the Regional Director's motion within the seven-day period permitted by the Rules.[2] Respondent did belatedly on May 8, 1989, file answers to interrogatories and to the request for admissions. That filing did not attempt to provide good cause for Respondent's failure to file an answer to the Request for Admissions within the time prescribed by the Rules.

Those Rules provide that each request for admission is deemed admitted unless a written answer is filed within 15 days after service (49 CFR 386.44(a)(2)) and that "any matter admitted is conclusively established" unless the judge permits withdrawal or amendment (49 CFR 386.44(b)). Respondent has made no effort to justify the failure to make a timely response. Accordingly, as indicated by the Rules the admissions requested are deemed to be conclusively established.

On the basis of those admissions we find and conclude that:

1. Exhibit 1 attached to Regional Counsel' s request for admissions is a true and accurate copy of the driver's daily logs for September 15 and 16, 1987 for driver Shawn Mertens.

2. Exhibit 2 is a true and accurate copy of driver's daily logs for September 22 and 23, 1987 for driver Wayne Oke.

3. Exhibit 3 is a true and accurate copy of driver's daily logs for driver Kevin Keilly for October 8 and 9, 1987.

4. Exhibit 4 is a true and accurate copy of driver's daily logs for driver Kevin Keilly for October 15 and 16, 1987.

5. Exhibit 5 is a true and accurate copy of driver's daily logs for driver Craig Coffin for October 21 and 22, 1987.

6. Exhibit 6 is a true and accurate copy of driver's daily logs for driver Craig Coffin for December 1 and 2, 1987.

7. Exhibit 7 is a true and accurate copy of driver's daily logs for driver Kevin Keilly for September 16 through 23, 1987.

8. Exhibit 8 is a true and accurate copy of driver's daily logs for driver Keith Craig for October 2 through 9, 1987.

9. Exhibit 9 is a true and accurate copy of driver's daily logs for driver Kevin Keilly for October 3 through 10, 1987.

10. Exhibit 10 is a true and accurate copy of driver's daily logs for driver Craig Coffin for November 8 through 15, 1987.

11. On September 16, 1987, Shawn Mertens drove 14 ½ hours without having 8 consecutive hours off-duty.

[1] The Regional Director cites no support for this assertion, and the Rules do not require such attestation or incorporate such a requirement from the Federal Rules. 49 CFR 386.44. Cf. 49 CFR 386.43(c)(4), 386.56(c). Accordingly, we give no weight to Regional Counsel's assertion in this regard.

[2] 49 CFR 386.35(c). By letter dated June 1, 1989, a secretary in the law firm representing Respondent asked for a copy of the summary judgment motion and a ten-day period in which to answer that motion. That letter indicated that the attorneys for Respondent have been aware of the motion since at least May 24, 1989. They have nevertheless filed no answer, no request for a copy of the motion, and no motion for extension of time. The secretary's letter does not state that the motion was not served or received, does not purport to show good cause for the extension, for failure to file an answer or comply with the Judge's prior Order, or to emanate from the attorneys or be authorized or directed by them. Moreover, even if authorized by or submitted on behalf of the attorneys, we do not consider such a letter from an attorney's secretary to the Judge received twelve days after a motion for summary judgment is known to be pending to be an appropriate or timely request for an extension of time, to be an appropriate pleading in appropriate form, or to show good cause for relief.

12. On September 23, 1987, Wayne Oke drove 20 hours without having 8 consecutive hours off-duty.

13. On October 9, 1987, Kevin Keilly drove 12½ hours without having 8 consecutive hours off-duty.

14. On October 16, 1987 Kevin Keilly drove 16½ hours without having 8 consecutive hours off-duty.

15. On October 21 and 22, 1987, Craig Coffin drove 12½ hours without having 8 consecutive hours off-duty.

16. On December 2, 1987, Craig Coffin drove 13 hours without having 8 consecutive hours off-duty.

17. From September 16, 1987, to September 23, 1987, Kevin Keilly drove 39 hours after being on duty 70 hours in 8 consecutive days.

18. From October 2, 1987, to October 9, 1987, Keith Craig drove 11½ hours after being on duty 70 hours in 8 consecutive days.

19. From October 3, 1987, to October 10, 1987, Kevin Keilly drove 28 hours after being on duty 70 hours in 8 consecutive days.

20. From November 8, 1987, to November 15, 1987, Craig Coffin drove 17 hours after being on duty 70 hours in 8 consecutive days.

21. Drivers Shawn Mertens, Wayne Oke, Kevin Keilly, Craig Coffin and Keith Craig are employees and drive for Woodbury Horse Transportation, Inc.

22. The trips shown in exhibits 1 through 10 (drivers daily logs) involve travel in interstate commerce.

23. Woodbury Horse Transportation, Inc. is subject to the Federal Motor Carrier Safety Regulations, 49 CFR part 383 *et seq.*

On the basis of Respondent's admissions and failure to comply with the discovery requests and the judge's Order and to answer the subject motion, we conclude that summary judgment may appropriately be entered against Respondent.

The Notice of Claim dated April 7, 1988, alleged violations of 49 CFR 395.3(a), which involved requiring or permitting drivers to drive more than 10 hours, and four violations of 49 CFR 395.3(b), which involved requiring or permitting drivers to drive after having been on duty more than 70 hours in eight consecutive days. The facts established by the request for admissions, which are deemed admitted and conclusively established under the FHWA Rules, substantially establish the violations and Respondent's liability. Admissions one (1) through twenty-three (23) show that Respondent's drivers exceeded the hours of service requirements as set forth in the Notice of Claim and thus violated 49 CFR 395.3(a) and 49 CFR 395.3(b).

Respondent also ignored the initial request for production of documents including current drivers' daily logs. The documents were sought by Regional Counsel to establish a continuous and current pattern of noncompliance and show that any disciplinary program of the Respondent, if one exists, is mere "lip service." Respondent's failure to submit the documents raises an inference that violations would be established if the requested documents were produced.

Respondent's answer dated August 18, 1988, p. 3, asserts affirmatively that the violations do not warrant a fine of $1000 in view of Respondent's "past history, which does not, in any way, indicate a pattern of serious safety violations, and its financial status, which can be described as hardship, at best." Respondent has, however, waived its opportunity to present those defenses by its failure to comply with the Regional counsel's production requests and the Judge's Order directed to those issues.

Regional Counsel submits and we agree that the Judge's authority under the Administrative Procedure Act and the Federal Highway Administration's Rules enables the entry of summary judgment. Section 7(b) of the Administrative Procedure Act, 5 U.S.C. 556(c), provides:

> Officers presiding at hearings shall have authority, subject to the published rules of the agency and within its powers, to (1) administer oaths and affirmations, (2) issue subpoenas authorized by law, (3) rule upon offers of proof and receive relevant evidence, (4) take or cause depositions to be taken whenever the ends of justice would be served thereby, (5) regulate the course of the hearing, (6) hold conferences for the settlement or simplification of the issues by consent of the parties, (7) dispose of procedural requests or similar matters, (8) make decisions or recommend decisions in conformity with section 8, and (9) take any other action authorized by agency rule consistent with this Act.[5]

The FHWA Rules provide:

(b) Power and duties. Except as provided in paragraph (c) of this section,[6] *the administrative law judge has power to take any action and to make all needful rules and regulations to govern the conduct of the proceedings to ensure a fair and impartial hearing, and to avoid delay in the disposition of the proceedings.* His/her powers include the following:

* * * * *

(6) To consider and rule upon all procedural and other motions, except motions which, under this part, are made directly to the Associate Administrator.

* * * * *

(8) To make and file decisions; and

(9) To take any other action authorized by these rules and permitted by law." 49 CFR 386.54 (emphasis added).

The Administrative Procedure Act and the FHWA Rules give the judge broad authority to control the hearing, nothing in the Rules proscribes the entry of such an order, and the judge is empowered to enter orders not inconsistent with those rules.[7]

We conclude that summary judgment in favor of the Regional Director can and should be entered. Accordingly, IT IS ORDERED THAT:

1. The Regional Director's motin is granted.

2. Summary judgments entered against respondent Woodbury Horse Transportation, Inc., in the findings and conclusions herein.

---

[5] The Attorney General's Manual on the Administrative Procedure Act (1947), p. 74, points out that the "quoted language automatically vests in hearing officers [now administrative law judges] the enumerated powers" and that "an agency is without power to withhold such powers from its hearing officers." Accord *Tourist Enterprises Corp. "ORBIS,"* CAB Docket 27914, Recommended Decision, dated September 22, 1977, p. 11, n.8, *adopted*, Order 78-6-17, p. 2. See also Attorney General's Opinion dated January 18, 1977, p. 7.

[6] There is no paragraph (c) in section 386.54.

[7] Compare *Rodgers Johnson/[and] Bus Service*, FHWA Docket No. R3-88-02, Order dated May 4, 1988. On December 6, 1988, the Administrator of the Federal Aviation Administration issued a decision in *Western Airlines* (FAA Docket 88-108), *et al.*, which stated, *inter alia*, that under the Administrative Procedure Act "ALJs lack the authority to modify or add to the procedures provided in published agency regulations, even if the modifications or additions do not actually conflict with specific provisions of the agency's rules." (p. 6.) The decision cites no precedent or other authority for that statement, and the uniform precedent at the Civil Aeronautics Board and theretofore at the Department of Transportation had been that the judge can adopt any procedures for the conduct of the proceeding consistent with statute, the rules, and considerations of due process and agency policy and precedent. Decisions of the FAA administrator are not binding in non-FAA proceedings, and the decision of the Administrator in *Western, et al.*, should be limited to its facts and should not be applied in this proceeding. See *Continental Airlines*, FAA Dockets CP88SO0018, *et al.*, Order dated May 4, 1988, p. 4, n. 8; *Robert O. Nay*, DOT Docket 46852, Orders dated February 13 and March 8, 1988. Moreover, as noted above, the FHWA rules specifically permit the judge to "take any action and to make all needful rules and regulations to govern the conduct of the proceedings to ensure a fair and impartial hearing, and to avoid delay in the disposition of the proceedings."

Ronnie A. Yoder,

Administrative Law Judge.

Appendix B

Model Code of Professional Responsibility (ABA 1986)

DR 1–102(A)—A lawyer shall not:

(1) Violate a Disciplinary Rule.

(4) Engage in conduct involving dishonesty, fraud, deceit, or misrepresentation.

(5) Engage in conduct that is prejudicial to the administration of justice.

(6) Engage in any other conduct that adversely reflects on his fitness to practice law.

DR 2–110(A)—In general.

(1) If permission for withdrawal from employment is required by the rules of a tribunal, a lawyer shall not withdraw from employment in a proceeding before that tribunal without its permission.

(2) In any event, a lawyer shall not withdraw from employment until he has taken reasonable steps to avoid foreseeable prejudice to the rights of his client, including giving due notice to his client, allowing time for employment of other counsel, delivering to the client all papers and property to which the client is entitled, and complying with applicable laws and rules.

DR 2–110(B)—A lawyer representing a client before a tribunal, with its permission if required by its rules, shall withdraw from employment, and a lawyer representing a client in other matters shall withdraw from employment, if:

* * * * *

(2) He knows or it is obvious that his continued employment will result in violation of a Disciplinary Rule.

DR 3–101(A)—A lawyer shall not aid a non-lawyer in the unauthorized practice of law.

DR 5–101(A)—Except with the consent of his client after full disclosure, a lawyer shall not accept employment if the exercise of his professional judgment on behalf of his client will be or reasonably may be affected by his own financial, business, property, or personal interests.

DR 5–102(A)—If, after undertaking employment in contemplated or pending litigation, a lawyer learns or it is obvious that he or a lawyer in his firm ought to be called as a witness on behalf of his client, he shall withdraw from the conduct of the trial and his firm, if any, shall not continue representation in the trial, except that he may continue the representation and he or a lawyer in his firm may testify in the circumstances enumerated in DR 5–101(B) (1) through (4).

DR 6–101(A)—A lawyer shall not:

* * * * *

(2) Handle a legal matter without preparation adequate in the circumstances.

(3) Neglect a legal matter entrusted to him.

DR 6–102(A)—A lawyer shall not attempt to exonerate himself from or limit his liability to his client for his personal malpractice.

DR 7–101(A)—A lawyer shall not intentionally:

* * * * *

(3) Prejudice or damage his client during the course of the professional relationship, except as required under DR 7–102(B).

DR 7–102(A)—In his representation of a client, a lawyer shall not:

* * * * *

(2) Knowingly advance a claim or defense that is unwarranted under existing law, except that he may advance such claim or defense if it can be supported by good faith argument for an extension, modification, or reversal of existing law.

(3) Conceal or knowingly fail to disclose that which he is required by law to reveal.

(4) Knowingly use perjured testimony or false evidence.

(5) Knowingly make a false statement of law or fact.

(6) Participate in the creation or preservation of evidence when he knows or it is obvious that the evidence is false.

(8) Knowingly engage in other illegal conduct or conduct contrary to a Disciplinary Rule.

DR 7–106(A)—A lawyer shall not disregard or advise his client to disregard a standing rule of a tribunal or a ruling of a tribunal made in the course of a proceeding, but he may take appropriate steps in good faith to test the validity of such rule or ruling.

DR 7–106(C)—In appearing in his professional capacity before a tribunal, a lawyer shall not:

(3) Assert his personal knowledge of the facts in issue, except when testifying as a witness.

(6) Engage in undignified or discourteous conduct which is degrading to a tribunal.

(7) Intentionally or habitually violate any established rule of procedure or of evidence.

DR 7–110(B)—In an adversary proceeding, a lawyer shall not communicate, or cause another to communicate, as to the merits of the cause with a judge or an official before whom the proceeding is pending, except:

(1) In the course of official proceedings in the cause.

(2) In writing if he promptly delivers a copy of the writing to opposing counsel or to the adverse party if he is not represented by a lawyer.

(3) Orally upon adequate notice to opposing counsel or to the adverse party if he is not represented by a lawyer.

(4) As otherwise authorized by law, or by Section A(4) under Canon 3 of the Code of Judicial Conduct.

DR 8–102(B)—A lawyer shall not knowingly make false accusations against a judge or other adjudicatory officer.

Yankee Trails Inc.

[Docket No. RI89–07 (Motor Carrier Safety—FHWA)]

Order of Chief Administrative Law Judge John J. Mathias

Appearances:

Edwin J. Tobin, Esq., Gentak, Brown & Tobin, 111 Pine Street, Albany, New York 12207, for Yankee Trails, Inc.

Kenneth Dymond, Esq., Counsel for the Regional Director, Federal Highway Administration, Leo W. O'Brien Federal Building, Albany, New York 12207

Pursuant to the Order Appointing Administrative Law Judge herein, dated May 11, 1989, and the Notice of Claim in this matter, dated March 9, 1989, this is the Administrative Law Judge's decision under Rule 386.61 of the Federal Highway Administration's rules of practice and procedure, 49 CFR 386.61.

The Notice of Claim in this matter charges respondent, Yankee Trails, Inc. with the following violations: (1) Two instances in which it failed. to report accidents, in violation of 49 CFR 394.9; and (2) Fifteen instances in which it required or permitted a driver to make false entries upon a record of duty status, in violation of 49 CFR 395.8. After careful consideration of all the evidence of record, I find the violations as charged and assess a civil penalty of $1,800.00.

This decision is based upon the entire record of this proceeding, including: The evidentiary record compiled at the hearing; the proposed findings of fact and reply findings submitted by the parties, and the briefs and reply briefs filed by the parties. I have also taken into account my observation of the witnesses who appeared before me and their demeanor. Proposed findings not herein adopted, either in the form submitted or in substance, are rejected either as not supported by the evidence or as involving immaterial matters.

The findings of fact include references to supporting evidentiary items in the record. Such references are intended to serve as guides to the testimony and exhibits supporting the findings of fact. They do not necessarily represent complete summaries of the evidence supporting each finding.

* * * * *

The following abbreviations are used in this Decision:

Tr.—Page of the hearing transcript, usually preceded by the name of the witness.
CX—Exhibit of Assistant Regional Counsel, also referred to as Complaint Counsel.
RX—Exhibit of Respondent.
CBr.—Complaint counsel's brief.
CRBr.—Complaint counsel's reply brief.
RBr.—Respondent's brief.
RRBr.—Respondent's reply brief.
CPF—Complaint counsel's proposed finding of fact.
RPF—Respondent's proposed finding of fact.

Findings of Fact

A. The Violations Charged

1. Respondent Yankee Trails, Inc., is a corporation having its principal office located at 3rd Avenue Extension, Rensselaer, New York 12144. (Notice of Claim; Tobin, Tr. 192–193, 196–197, 209).

2. Respondent Yankee Trails, Inc., is a carrier of passengers operating in interstate commerce and subject to the Federal Motor Carriers Safety Regulations. (Admitted, see response to CPF 1).

3. A safety compliance review was conducted of respondent in January 1989 by Safety Investigator Christopher Rotondo. (CX 15; Admitted, response to CPF 14).

4. The safety review revealed that reportable injury accidents occurring on August 4, 1988 and September 14, 1988, involving vehicles owned by respondent, were not reported to the Federal Highway Administration within 30 days of occurrence, as required by 49 CFR 394.9. (CX 5, 6; Tobin, Tr. 208–209; Barbour, Tr. 226).

5. The report of the January 1989 safety compliance review, filed by Investigator Rotondo, also indicated that he discovered 20 instances of drivers being required or permitted to make false entries upon a record of duty status in violation of 49 CFR 395.8. The report also noted that Mr. Rotondo had checked 51 records of duty status in making this finding. (CX 5).

6. The Notice of Claim in this matter cites 15 of such instances as violations by respondent of 49 CFR 395.8. (Notice of Claim, Exhibit B).

7. CX 12, 13, and 15–25 reveal fourteen instances of drivers for respondent who were on charter runs omitting the reporting of commuter runs made on the same day. (Stipulation, Tr. 31–32).

8. CX 14 reveals that a driver for respondent did not record a charter trip on his log. (Rotondo, Tr. 33–34).

9. Respondent does not now contest the fact that the omissions noted in findings 4, 7 and 8 above were violations of the Federal Motor Carriers Safety Regulations. Instead, it urges that mitigating circumstances render unfair the penalty proposed by the Federal Highway Administration. (Respondent's Brief and Reply Brief; Opening Statement, Tr. 10–14).

B. Prior Safety Compliance Review

10. Respondent was the subject of safety audits in 1979, 1980, 1982 and 1984. (CX 1, 2, 3 and 4).

11. The 1979 audit did not reveal any instances of failure to report reportable accidents to the Federal Highway Administration. (CX 1).

12. Counsel for the Federal Highway Administration ("Complaint Counsel") have stipulated that there is little or no evidence of false logs in the 1979 audit. (Tr. 93).

13. A second safety audit was conducted in January 1980, by Investigator Nicholas Walsh. (Exhibit 2).

14. The 1980 audit revealed 3 instances of failing to report accidents. (Exhibit 2, Entry C).

15. The 1980 audit also revealed 5 instances of drivers being required or permitted to make false entries on a daily log. (Exhibit 2, Entry I).

16. Mr. Walsh examined 900 logs during his 1980 audit and found only the 5 instances of drivers being required or permitted to make false entries on a daily log. (CX 2, Entry I; Walsh, Tr. 98).

17. There is no reliable evidence to show that Investigator Walsh found any instances of failure to log commuter runs during his 1980 audit. (Walsh, Tr. 97–98).

18. One case of false entry showed the driver off duty when he was taking a charter to Portland. (Walsh, Tr. 98; CX 28, at p. 2).

19. A third safety audit of respondent was conducted in November 1982, by Safety Inspector Ian Smith. (CX 3).

20. The audit report for the 1982 inspection revealed 4 instances of failure to report an accident (CX 3, Entry D).

21. The audit report for the 1982 audit also shows 3 instances, out of 635 logs examined, of drivers being required or permitted to make false entries upon a daily log. (CX 3, Entry H).

22. A fourth safety audit of respondent was conducted by Safety Inspector Ian Smith in November 1984. (CX 4).

23. The audit report for the 1984 inspection revealed 2 instances of failure to report an accident. (CX 4, Entry J).

24. The audit report for the 1984 audit also shows 2 instances, out of 100 logs checked, of drivers being required or permitted to make false entries upon a daily log. (CX 4, Entry M).

25. Inspector Smith did not find any instance of a driver failing to log a commuter run. If a driver took a commuter and charter run on the same day and didn't log the commuter run he would have cited it. He had all the records available to him and found no such instance. (Smith, Tr. 114).

26. Inspector Smith found that the false logs listed in his audits did not warrant further action at the time. (Smith, Tr. 113).

27. In connection with the four prior safety audits of 1979, 1980, 1982 and 1984, there is no evidence of a finding of instances of drivers failing to log a commuter run when required to do so. (Findings 12, 17, 25, *supra*).

C. Other Factors Considered

28. In his experience, Inspector Smith found occasional errors arising from the application of the 100 mile exemption. (Smith, Tr. 121).

29. In each of the 14 instances of failure to log commuter runs found in the 1989 audit, the drivers would not have been in violation of the hours of service regulation if they had recorded commuter runs. (Gruin, Tr. 136).

30. Mr. Gruin, the federal program manager who assessed the claims in this matter, admitted that there was no proof of failure to log commuter runs in each of the audits prior to the 1989 audit. (Gruin, Tr. 125, 127, 136, 147).

31. One of the things an assessing officer should consider is whether prior violations were similar or dissimilar. (Gruin, Tr. 145).

32. Mr. Gruin considered past compliance to Part 395, which included hours of service violations shown on the logs, in assessing the penalty against respondent. (Gruin, Tr. 188).

33. Mr. Gruin admitted that hours of service violations were dissimilar to the false logs charged in the present case. (Gruin, Tr. 188).

34. Mr. Tobin, president of respondent, testified that he was never advised in the past that drivers who were operating charters and commuter runs were deleting the commuter runs from their logs. (Tobin, Tr. 204).

35. Mr. Gruin admitted that there was some confusion in the industry concerning the application of the 100 mile exemption. (Gruin, Tr. 186–187).

36. Mr. Barry Rubinstein, who assisted Inspector Rotondo in the 1989 audit of

respondent, admitted that there could be some confusion in the industry regarding the application of the 100 mile exemption. (RX 2, at 3, 5).

37. Mr. Rotondo's interviews of two of respondent's drivers and respondent's dispatcher indicates that they were not aware that the commuter runs needed to be recorded in the logs. (CX 6).

38. Despite the fact that respondent had been cited in three prior audits for requiring or permitting drivers to make false entries upon a daily log (see, Findings 15, 21, and 24), respondent did not have any employee reviewing logs for falsifications at the time of the 1989 audit. (CX 6, statement of Margaret Barbour).

39. Respondent has now hired a full time employee to check the logs. (Tobin, Tr. 210; Barbour, Tr. 234).

40. No proof of remedying this problem was offered to the Federal Highway officials at the settlement conference. (Gruin, Tr. 178).

OPINION

Respondent has admitted to the violations charged in this case. (Finding 9). The position of the respondent at the hearing and on brief is that mitigating circumstances render unfair the penalty proposed by the Federal Highway Administration. (Finding 9). I find that there are mitigating factors with regard to the failure to log commuter runs, but can find no mitigating factors in connection with the failure to report accidents or the failure to log a charter run.

In three prior audits, in 1980, 1982 and 1984, the inspector found instances of failure to report accidents. (Findings 14, 20 and 23). Certainly by the time of the 1989 audit, respondent should have been well aware of its responsibility under 49 CFR 394.9. The arguments of respondent as to inadvertent failure to file, and that the accidents were promptly reported to the insurance company and state authorities (RBr., at 8) have no bearing on the separate requirement to file accident reports with the Federal Highway Administration. The further argument that these failures were mere record-keeping violations is already implicitly taken into account by the amount of the maximum penalty which can be applied in such cases. (RX 2).

Accordingly, I find that in view of the repeated violations by respondent of 49 CFR 394.9, through the failure to file reports concerning reportable accidents, that the maximum penalty for the two violations of the type found herein should be applied. Thus, I assess a penalty of $1,000.00 for these two violations--$500.00 for each offense.

In connection with the 15 instances with which respondent was charged concerning the falsification of logs in violation of 49 CFR 395.8 (Findings 6–8), I find mitigating circumstances in connection with the 14 instances involving failure of drivers to log commuter runs. However, there have been no mitigating circumstances shown with respect to the one failure to record a charter run in the driver's log. (Finding 8). Therefore, the maximum penalty of $500.00 should be assessed for the latter violation, in view of respondent's prior record of log falsifications. (Findings 15, 18, 21, and 24).

Insofar as the failure to log commuter runs is concerned, the evidence revealed there was some confusion in the industry, and within respondent, concerning the application of the 100 mile exemption. (Findings 28, 34–37). There is also no evidence that this same type violation had been found of respondent in four prior audits. (Finding 30). The log falsification violations found in prior audits were not shown to be similar to the failure to record commuter run violations found in the 1989 audit. (Findings 30, 32 33). Also, in each of the fourteen instances in which the driver failed to log commuter runs, the drivers would not have been in violation of the hours of service regulation if they had recorded their commuter runs. (Finding 29). Thus, respondent had no reason to falsify the logs.

On the other hand, respondent had been charged with requiring or permitting drivers to make false entries upon their logs in each of three prior audits. (Findings 15, 21, and 24). The 1989 audit also found 20 logs out of 51 logs checked to have been falsified. (Finding 5). Moreover, despite the past history of some violations in this regard, respondent had no employee checking the driver's logs to ensure they were prepared in accordance with the federal highway regulations. (Finding 38).

Even considering the fact that the failure to log commuter runs may be dissimilar to prior log falsification charges, and the other mitigating factors above, the large percentage of log falsifications out of the total logs checked in the 1989 audit (20 out of 51—see Finding 5), coupled with respondent's failure to institute any checks of the logs following the three prior audits where log falsifications were found, indicated the need for at least a minimum penalty for these fourteen violations.[1] I find, therefore, that the fourteen instances of failing to log commuter runs should be lumped together as one violation and the minimum penalty of $300.00 should be assessed therefor.

Accordingly, I find that a total penalty of $1,800.00 should be assessed against respondent—$1,000.00 for the failures to report reportable accidents, $500.00 for the failure to log a charter run, and $300.00 for the failure to log commuter runs.

John J. Mathias,
Chief Administrative Law Judge.

In the Matter of Ronald William Dreyer

[Docket No. R5–89–137]

Order Appointing an Administrative Law Judge

This matter comes before me upon Petition to Review Driver Qualification Proceedings Pursuant to 49 CFR § 386.13 (1989) filed by Mr. Ronald William Dreyer, hereinafter referred to as Petitioner. In his petition Mr. Dreyer also requests an oral hearing pursuant to 49 CFR 386.13(a) (1989) to determine whether or not he was on duty time, as defined in § 395.2(a), at the time of the alleged disqualifying offense.

The Regional Director alleged in a Notice of Disqualification dated August 28, 1989, that in the course of an inspection dated July 1, 1989, it was discovered that Petitioner was not qualified to drive in interstate commerce under 49 CFR 391.15(c)(2)(i) because of a conviction of operating a motor vehicle under the influence of alcohol. Said conviction resulted from Petitioner's plea of guilty on July 28, 1989, to the charge of "DRIVING WHILE UNDER THE INFLUENCE OF AN ALCOHOLIC BEVERAGE". The Regional Director included with his notice copy of all documentary evidence supporting his decision, and gave notice to the Petitioner of his right to petition for review of the disqualification and formal hearing.

Mr. Dreyer's petition for review and hearing is supported by an affidavit, in which he makes allegations concerning the facts surrounding his conviction for the above described charge. Petitioner alleges that at the time he committed the offense he was moving his semi-tractor four blocks from his residence to a truck parking lot, and was not at the time engaged in interstate commerce. He alleges he was not waiting to be dispatched to any other facility or terminal, or inspecting, servicing or conditioning his vehicle.

[1] The institution of a review procedure following the receipt of the Notice of Claim does not indicate that degree of good faith which would warrant total relief from any penalty for these violations.

By Notice dated January 5, 1990, the Regional Director amended his notice of disqualification to state that Petitioner was "not qualified to drive in interstate commerce under 49 CFR 391.15(c)(2)(i) and 49 CFR 383.51(b)(2)(i)". In a letter to Petitioner's attorney dated January 5, 1990, the Regional Director's Counsel encloses copy of the amended notice and alleges that "49 CFR 383.51(b)(2)(i) does not depend upon a showing that a driver was 'on duty' during the commission of the disqualifying offense as does 49 CFR 391.15(c)(2)(i)."

Having reviewed the record and pleadings, I find that there is a substantial issue of fact in dispute in this case. The circumstances surrounding the Petitioner's disqualifying offense are not clear. In view of the above and in fairness to the parties in this case, I have determined that the material factual issue in dispute be submitted to an Administrative Law Judge for additional proceedings. The Judge appointed shall, in addition to the authority cited below, specifically address the matters discussed above and should review the record, oral arguments and briefs prior to making recommendations. Petitioner should be aware that the burden of proof in this proceeding will rest upon him, 49 CFR 386.58(b) and 391.47(e) (1989).

Therefore, it is ordered, That Petitioner's request for a hearing is granted. I hereby appoint an Administrative Law Judge in accordance with 49 CFR 386.54(a) (1989) to be designated by the Chief Administrative Law Judge of the Department of Transportation as the Presiding Judge. The Judge appointed is authorized to perform those duties specified in 49 CFR 386.54(b) (1989).

In Washington, District of Columbia, this 27th day of July, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Alamo Distributing Service, Inc.

[Docket No. R6-89-63]

Order in Response to Motion for Reconsideration

On April 30, 1990, I issued a Final Order in this matter finding the facts to be as alleged and Ordering Respondent to pay an assessed penalty of $11,000. At that time, there was no answer or request from Respondent on the questions of violation or penalty.

On May 25, 1990, I received a letter from Respondent explaining that his business was not such that it could absorb a penalty in this amount. That letter, which I will treat as a Motion for Reconsideration, did not deny the violations but set forth the statement that the company has taken all actions necessary to comply with the regulations.

The violations alleged and proven are not casual violations. Those concerning excess driving hours are serious. Records of duty status and failure to keep adequate driver files are also serious. Nevertheless, although complete forgiveness of the penalty is unwarranted, I am willing to consider the Respondent's current status.

The Regional Director should contact Respondent and schedule an audit within the next thirty (30) days. If the Respondent is in compliance with the regulations, the penalty will be reduced to $5,000. If continuing violations are found, the penalty will remain as assessed in the Order of April 30.

The original Order was partly granted because of an absence of response on the part of the Respondent to the Regional Director's Motion. Likewise, this present Order is granted in part because of an absence of response on the part of the Regional Director to Respondent's letter.

Therefore, it is ordered, That the Order of April 30 is stayed for 30 days from the date of this Order pending a reaudit of Respondent. Should that audit find that Respondent is now in compliance, the penalty assessed shall be reduced to $5,000. Should that audit find continuing violations, the penalty assessed will remain at $11,000.

Dated: July 23, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of R. Brown & Sons, Inc.

[Docket No. R1-90-06 (Formerly R1-90-101)]

Order Appointing an Administrative Law Judge

This matter comes before me upon request for a hearing filed by Respondent. The Petitioner, Regional Director, Office of Motor Carrier Safety, agrees that Respondent has identified material factual issues in dispute.

Petitioner alleged in a Notice of Claim dated May 7, 1990, that Respondent violated several sections of the Federal Motor Carrier Safety Regulations (FMCSRs), 49 CFR 391.51, 395.8 and 395.11.

Respondent contests each of these allegations. Respondent questions whether it was required to maintain a complete driver qualification file, whether it was exempt or whether the failure, if any, to maintain a file was attributable to it. Respondent also denies that it ever required any driver to make a false entry upon a record of duty status and also denies that any necessary repairs to its vehicles were not made. Respondent asserts that it kept such records or certified that no repairs were necessary.
